C. Provost – Kimberly Andrews Espy

Dr. Espy said that phase I of the Classroom to Career initiative is wrapping up. A report will be posted in the next few weeks and implementation will follow. She asked that everyone attempt to attend the open forums for the Vice Provost for Academic Innovation as this role is critical to faculty support. Searches for student success and strategic enrollment will begin soon and senators have been confirmed on each of the search committees. The Human Health Planning Advisory Task Force is transitioning to phase II and all three groups will post their reports soon. There will be another round of discussion and presentation of the proposals to the university. SDS and SDCC plans are underway and an architect has been selected. VPBA is also looking to raise funds for the project. Two out of five engagements have been completed for the master plan and a report will be delivered mid-February. A parking and transportation study will also be conducted to begin assessing parking needs relative to the university’s growth. UT Health San Antonio is looking for more academic partner programs at UTSA, which is providing an opportunity to partner in health analytics. UTSA will be looking at various opportunities, some of which may include joint hires, new departments, etc.

D. Graduate Council update – Elaine Sanders

Dr. Sanders said that a new Dean of the Graduate School has been named. Dr. Ambika Mathur will begin her role as Dean on February 24th.

A 10-member committee is in place to review graduate councils at peer institutions and consider various options to implement at UTSA.

F. College of Business – Gerry Sanders
Dr. Sanders discussed the plans to move the College of Business downtown. He said that a committee had been formed of faculty, staff, and students to address the move, chaired by Dr. Dampier (department of ISCS). The committee is still working to address questions and has been reporting their recommendations to the Dean’s office. One of the major factors in the plan to move the college pertains to increased entrepreneurial and financial opportunities downtown. A zip code analysis showed an opportunity for UTSA to better serve graduate students and reach new markets. No decision has been made yet on which departments or programs will be moving and when.

IV. Unfinished Business
The ad hoc subcommittee regarding faculty governance and the plan to move the College of Business to the downtown campus made a motion to conduct this portion of the meeting in executive session.
