Welcome to The University of Texas at San Antonio. We know that during your college search you will be looking at various factors. You want the most out of your college experience—new challenging ideas in the classroom and opportunities to become a leader on campus.

You want to meet with friends at the Rec Center and the library. You want to taste new foods and experience new cultures. We can help you. You are dedicated to your academic development and personal growth. We are UTSA and we are YOU!

Welcome Center
The UTSA Main Campus. Welcome Center is open Monday–Friday 8 a.m. to 5 p.m. and offers daily campus tours at 11 a.m. and 2 p.m. Select Saturday tours are available throughout the fall and spring. You can find more information and register for a tour at utsa.edu/welcometour or call 210-458-5145.

Main Campus

Science Building (SB) and Biosciences Building (B13)
Building and science faculty are passionate about UTSA. Most of the science building is used for labs, with only classroom space in the first floor hall and the building. The Biosciences Building is filled with biology, agriculture, and chemistry laboratories. This is the building you will find a logo that connects to the Engineering Building, which is connected to UTSA.

Engineering Building
The Engineering Building is an open-sparrow design with labs set up as a chip, computer engineering and civil engineering, as well as all new gate and areas for engineering. The engineering program you are interested in and areas to use for engineering are available online. For more information visit the Welcome Center.

Museums and Science Building (B10)
This building is divided such that half the building is a museum and the other half is a science building, where students can explore the sciences. There is a large area for the science building and an area for the museums. The science building is open to the public, with a small fee.

The Sombrilla is our central plaza located in the heart of UTSA Main Campus. Inspired by a Spanish villa, the Sombrilla is a popular hangout for students to hang out with friends, play, martial arts are performed and festivals, such as Cinco de Mayo, are visible on both sides of the main entrance.

The library was named after John Peace, a UT Regent who was instrumental in the creation of UTSA. The library was identified in the American Libraries online edition as one of 12 exemplary library designs in the nation. The library offers daily campus tours at 10 a.m. and 1 p.m. through the fall and spring. You can find information online at utsa.edu/welcometour or call 210-458-5145.

Advising Center, Tomás Rivera Center for Student Success, 11th Floor
The library is one of the most popular facilities on campus with the nation’s first bookless library. This was the first building completed at UTSA in 1975. This building is home to all business majors and houses one of UTSA’s many computer labs on the second floor.

Arts Building (ART)
The Arts Building is a part of the Main Campus. This building is divided such that half the building is a museum and the other half is a science building, where students can explore the sciences. There is a large area for the science building and an area for the museums. The science building is open to the public, with a small fee.

Downtown Campus

We are pleased to say that we are taking the time to visit our Downtown (DT) Campus! Although UTSA was founded in 1969, the DT Campus did not emerge until the mid-1990s. We are located in the heart of San Antonio in the historic Cattlinian Square. The campus is composed of four buildings: Frio, Buena Vista, Durango and Monterey. The campus, which is home to the College of Architecture and the College of Public Policy, serves more than 6,700 students.

Surrounding the immediate campus is the historic El Mercado. These shops provide a unique shopping, dining and entertainment experience that are authentic to the merca dos in Mexico. Visit some of our well-known sites such as the Alamo, River Center Mall, the River Walk and HemisFair Park, home to the UTSA Institute of Texan Cultures and the Tower of Americas. This tour should take approximately 30–45 minutes. If you have any questions, you may visit our Office of Undergraduate Admission and Welcome Center located in the Frio Street Building in Room 158-L or call 210-458-2000 during normal business hours.

Welcome Center

The UTSA Downtown Campus Welcome Center is open Monday–Friday 9 a.m.–5 p.m. and offers self-guided tours at 11 a.m., which lasts approximately 45 minutes to one hour. You can purchase information and register for a tour at utsa.edu/downtown-tour or call 210-458-2000.

Frio Street Building (FS)
The building, also known as the University Center, is located between the Durango Building and the south wing of the Frio Street Building. The area includes the Welcome Center and the Student Union and provides an excellent location for students to relax, socialize and study. The Welcome Center is located in the north wing of the Frio Street Building. The building has two stories, totaling 80,000 square feet.
