Notes

At Coastal Bend College

- ☐ Read the Coastal Bend College catalog course descriptions for prerequisites.
- ☐ Visit with a Coastal Bend College counselor for help with course sequencing.
- ☐ Only 66 transferable semester credit hours from a community college can be applied to a bachelor's degree at UTSA.

At UTSA

- ☐ Be sure to visit the College of Sciences Undergraduate Advising Center, Room SB 2.01.08; Phone (210) 458-4045 for assistance with course sequencing.
- ☐ Please note that developmental education, orientation, life experience, high school level, mathematics below the College Algebra level, or vocational-technical courses are not acceptable for transfer credit at UTSA.
- ☐ A grade of "C" or better is required for all major, support, and prerequisite work.
- ☐ Students should not take any biology courses that transfer to UTSA as Allied Health Science (AHS) courses as they will not be used in any way towards Bachelor of Science degree in Biology at UTSA. Exception is BIOL 1322 which is transferred as lower-division biology elective (AHS 2043)
- ★ Coastal Bend has a 1-hour laboratory requirement whereas UTSA has a 2-hour laboratory requirement. Therefore the lacking 1-hour will need to be fulfilled at UTSA. See a UTSA advisor once you transfer.
- ▲ Some community college hours may satisfy the UTSA electives requirement. Check with a College of Sciences advisor upon transferring to UTSA.

It is very important that students pay close attention to course prerequisite sequencing and availability at both the community college and at UTSA as it will affect the time it takes to complete entire degree program.
