To be eligible for guaranteed fall 2017 enrollment in the UT Austin College of Liberal Arts, Coordinated Admission Program students at UT San Antonio must complete 30 approved semester hours of coursework (including a mathematics course other than College Algebra) with at least a 3.2 grade point average by June 1, 2017.

CAP students may compete for fall 2017 admission as external transfers in Business, Communication, Education, Engineering, Fine Arts, Geosciences, Natural Sciences, Nursing, pre-Pharmacy, and Social Work. Pursuing admission in these UT programs does not compromise automatic eligibility in Liberal Arts.

Approved CAP courses are listed below (with UT Austin transfer credit evaluations). For CAP purposes, you can take any listed course, subject to availability and UT San Antonio’s placement, prerequisite, or other requirements. Courses in which grades lower than C— are earned do not transfer. Consult an academic advisor before selecting courses, and review the Recommended Courses following the list.

### Recommended Courses by UT Austin Major

The following recommendations cover major-specific Mathematics, Science & Technology, Visual & Performing Arts, Social Science, or Foreign Language requirements in UT Austin degrees. (English Composition, Humanities, History, and Government requirements are the same in all degrees.)

While it is not a CAP requirement to follow a particular degree plan or take all recommended coursework, you are strongly encouraged to choose courses needed in your planned major field of study. Otherwise, you may delay your degree progress or affect your eligibility to declare a major (especially in programs that require completion of specific courses for admission).

Foreign language proficiency requirements are satisfied by completion of a course sequence in one language through the 2nd or 4th semester. These recommendations conform to degree requirements in the UT Austin Undergraduate Catalog 2016–2018.

### UT Austin School of Architecture recommended courses

Note: admission to Architecture requires completion of 24 semester hours at UT Austin in addition to the 30 hours earned in the CAP program.

**Mathematics** – for Architecture: MAT 1214+1224 or 1193+1124.

**Science & Technology** –
- for Architecture: choose a sequence from PHY 1603+1623+1611+1631 or (required in engineering dual degree) 1943+1963+1951+1971.
- for Interior Design: PHY 1603+1623.

**Visual & Performing Arts** – ARC 2413+2423 for Architecture; ARC 2423 and either ACH 1113 or 1133 for Interior Design.

**Social Science** – for Interior Design: PSY 1013.

### UT Austin McCombs School of Business recommended courses

Note: admission to Business requires completion of ECO 2013+2023 and MAT 1214+1224 or 1193+1124.

**Mathematics** – MAT 1214+1224 or 1193+1124. Add MAT 2214 for the Science & Technology Management major.

**Science & Technology** – for the Science & Technology Management major:
- CHE 1103 or 1143 and PHY 1943+1963+1951+1971.

**Social Science** – ECO 2013+2023.

**Foreign Language** – for International Business: 4th semester proficiency in a language associated with the world region in which the student plans to specialize.

(continued →)
UT Austin College of Liberal Arts (continued)

Mathematics –
• for Economics or Environmental Science: MAT 1214+1224 or 1193+1224.
• for Psychology (BS) or Urban Studies: MAT 1214 or 1193 and STA 1053 (grades of B− required for admission to Urban Studies).

Social Science –
• for Environmental Science: ECO 2023.
• for Sustainability Studies: one course chosen from ECO 2013 or 2023 and one course chosen from ANT 2053, GRG 1023, or SOC 1013.

Foreign Language – 2nd semester proficiency for Environmental Science or Psychology (BS); 4th semester proficiency for other degrees/majors.

UT Austin College of Natural Sciences (recommended courses)

Note: to be competitive for admission to Natural Sciences students should at minimum complete MAT 1214 or 1193 and two courses from BIO 1404, BIO 1414, CHE 1103 or 1143, CHE 1113 or 1153, PHY 1943, or PHY 1963 and have grades of A or B in all math and science coursework. For admission to Environmental Science see note under School of Geosciences.

Mathematics – MAT 1214 or 1193 for all degrees/majors. Additionally...
• MAT 1224 for Biochemistry (BA, BS), Biology (BS options I, II, III, VII), Chemistry (BSA), Environmental Science, or Neuroscience (BSA).

Science & Technology –
• for Biochemistry: BIO 1404+1414; CHE 1103+1113 (or 1143+1153)+1121+1131; and PHY 1943+1963+1951+1971.

Social Science –
• for Environmental Science: ECO 2023.
• for Sustainability Studies: one course chosen from ECO 2013 or 2023 and one course chosen from ANT 2053, GRG 1023, or SOC 1013.

Foreign Language – 2nd semester proficiency for Environmental Science or Psychology (BS); 4th semester proficiency for other degrees/majors.

UT Austin College of Business

Mathematics –
• for Accounting: MAT 1214 or 1193 and STA 1053.
• for Business Administration: MAT 1214 or 1193 and STA 1053.
• for Management: MAT 1214 or 1193 and STA 1053.
• for Marketing: MAT 1214 or 1193 and STA 1053.

Social Science –
• for Economics or Management: ECO 2023.
• for Marketing: ECO 2023.

Foreign Language – 2nd semester proficiency for Business Administration; 4th semester proficiency for Accounting.

UT Austin College of Education

Mathematics –
• for Athletic Training: choose one from MAT 1093, 1103, or 1214 or STA 1053.
• for Kinesiology/Exercise Science major: MAT 1193 or 1214.

Science & Technology –
• for Athletic Training: BIO 2043; BIO 1233 or 1404; and a sequence chosen from CHE 1103+1113, CHE 1143+1153, or PHY 1603+1623.
• for Kinesiology: BIO 1233 or 1404 and CHE 1103+1113 or 1143+1153. In the Exercise Science major BIO 1404 must be taken and PHY 1603+1623 is also required.

Visual & Performing Arts – for students pursuing teacher certification: choose an AHC or MUS course.

Social Science – PSY 1013.

Foreign Language – 4th semester proficiency in Spanish for Applied Learning & Development/EC-6 ESL generalist; 2nd semester proficiency for other degrees/majors (Spanish is recommended for prospective Texas teachers).

UT Austin Cockrell School of Engineering

Note: admission to Engineering requires completion of at least four technical courses including MAT 1214 or 1193, MAT 1224, PHY 1943 or 1951, and others in BIO, CHE, GEO, MAT, or PHY chosen from those listed below. Applicants exceeding this four-course minimum are more competitive.

Mathematics – MAT 1214+1224+2214 or 1193+1224+2214 for all degrees.

Science & Technology – PHY 1943+1963+1951+1971 for all degrees. Additionally...
• for Aerospace, Computational, or Mechanical Engineering: CHE 1103.
• for Architectural Engineering: CHE 1103 and GEO 1103+1111.
• for Biomedical Engineering: BIO 1404 and CHE 1103+1113+1121+1131.
• for Chemical Engineering: BIO 1404 and CHE 1103+1113+1121+1131.
• for Civil Engineering: CHE 1103+1113.
• for Environmental Engineering: BIO 1404, CHE 1103+1113+1121+1131, and GEO 1103+1111.
• for Geosystems or Petroleum Engineering: CHE 1103+1113 and GEO 1103+1111.

Visual & Performing Arts – for Architectural Engineering: one course chosen from ARC 1413, 2413, or 2423.

UT Austin College of Fine Arts

Visual & Performing Arts – one course outside the student's major field of study.

Foreign Language – for BA degrees: 4th semester proficiency.

UT Austin Jackson School of Geosciences

Note: Geological Science applicants are strongly encouraged to complete CHE 1103 or 1143, GEO 1103+1111, and MAT 1214 or 1193. Environmental Science applicants must complete BIO 1404, CHE 1103 or 1143, and MAT 1214 or 1193 with grades of at least C− and GEO 1103+1111 with a grade of at least B−.

Mathematics –
• for the BA Geological Sciences: MAT 1214 or 1193.
• for the BS Environmental Science: MAT 1214+1224 or 1193+1224.
• for the BS Geological Sciences/Teaching option: MAT 1214+1224 or 1193+1224.
• for the BS Geological Sciences/non-teaching options: MAT 1214+1224+2214 or 1193+1224+2214.

Science & Technology –
• for the BA Geological Sciences: CHE 1103+1113 or 1143+1153, GEO 1103+1123+1111+1131, and one chosen from PHY 1603 or 1943.
• for the BS Environmental Science: BIO 1404+1414, CHE 1103+1113+1121+1131 or 1143+1153+1121+1131, GEO 1103+1111, and PHY 1943 or 1951.
• for the BS Geological Sciences: CHE 1103+1113+1121+1131 or 1143+1153+1121+1131, GEO 1103+1111, and PHY 1943 or 1951+1971. Additionally, GEO 1123+1131 for the General or Teaching options.

Social Science – for the BS Environmental Science: ECO 2023.

Foreign Language – 4th semester proficiency for the BA Geological Sciences; 2nd semester proficiency for the BS Geological Sciences/non-teaching options.

UT Austin College of Liberal Arts

Note: admission to Economics requires completion of ECO 2013 or 2023 and MAT 1214+1224 or 1193+1224. For admission to Environmental Science see note under School of Geosciences.

Science & Technology –
• for Environmental Science: BIO 1404+1414; CHE 1103+1113 (or 1143+1153) +1121+1131; GEO 1103+1111; and PHY 1943 or 1951.
• for Health & Society: BIO 1404.
• for Psychology (BS): two sequences in different disciplines, chosen from BIO 1404+1414; CHE 1103+1113 (or 1143+1153) +1121+1131; and PHY 1603+1623+1611+1631 or 1943+1963+1951+1971.
