As spring is upon us, the bursting blooms remind me of the budding potential of our student Roadrunners…and the role we play in cultivating their growth.

This past month’s Board of Regents’ meeting featured a presentation about progress on the Quantum Leap Initiative for Student Success. I am proud to be associated with a university system that is addressing this important issue in such a positive way, with well thought-out plans and opportunities to make a difference for students. UTSA is contributing to this initiative with our work on student success, which is a key element of Blueprint UTSA. I see evidence of our contribution to this progress everywhere I go on campus.

Being among the first generation in my family to earn a bachelor’s degree, and then to go on to pursue a master’s degree, student success is a passionate goal that I too have for our community. I heard a comment recently that our students’ instructional experiences with faculty in the classroom make up only about 25% of their time spent learning. That means the other 75% of their time each week is spent engaged in other educational activities, likely in our dining locations, study spaces, or even the community garden.

Our division does much to enhance students’ experiences, teaming up with groups throughout the university. I take great pride in our dining, transportation, and vending services as well as the enhanced classrooms, labs, study spaces and lounges we renovate and maintain for students. We’re now selecting new lounge and study furniture for a few locations including The Sombrilla, and we hope to have them in place before the fall session starts.

I stopped by a celebration for the PIVOT grant last month and talked with Rhonda Gonzalez about the wonderful things happening with the math emporium. What a fascinating program! I wrapped up the month conversing with candidates for the next cohort of UTSA Top Scholars, an impressive group of students. One current Top Scholar, Kylie Dugan, told me how great UTSA Dining has been in finding ways to accommodate her food allergy-related dining challenges.

Campus Services just celebrated the opening of Steak ’n Shake, capping off a major JPL renovation with our Facilities Department. While I haven’t yet ordered a shake, I did try a steakburger, and it was very good.

After introducing the fast, efficient RowdyPay last year, Financial Affairs is now partnering with Facilities to update the Fiscal Services offices in JPL for better service to students. By living our Guiding Principles, Business Affairs is helping to provide an excellent environment conducive to student success.

Finally, I wanted to give a shout out to everyone who participated in the Diploma Dash. We had a chilly start to a sunny and cheerful day for our walk around the campus. I saw many BA’ers participating and was pleased to see us exercising and contributing to scholarship funding. Photos from the event are on page 11.

Keep up the good work you’re doing supporting students and helping us achieve Strategic Goal 1 of Blueprint UTSA.
Catina Marie Rover, HR Compensation Analyst II, was born and raised in Raceland, La. Since most people haven’t heard of her town, she regularly points out that it’s 40 minutes from New Orleans. She’s definitely a true Cajun. She loved growing up in her small town, picking sugar cane from the fields and blackberries off the levee.

Catina joined the US Army in 1991, where she met her future husband, Ronald D Rover, at her first duty station in Fort Carson, Colo. They’ve been married for 23 years and have two daughters—Shanice, who is 18 years old and attending Prairie View A&M, and Jasmine, who is 27 years old. They also have a granddaughter named Isabelle.

After getting out of the military in Fort Hood, Texas, Catina and Ronald moved to San Antonio in July 2000, an exciting, new experience for the family. San Antonio has been their home now for 17 years, and they’ve enjoyed their time here. Catina started working at UTSA in March 2005 in Student Financial Aid. Once she graduated with her bachelor’s degree in Human Resources, she started working in HR in October 2008.

“When I’m not working I’m still working for God,” said Catina. She’s the youth coordinator for her church, where she enjoys mentoring children to be better Christians. "It’s a blessing to watch kids grow in their faith."

Catina enjoys cooking, going to movies with her family, date night with her husband, mother-daughter time, and romance novels.

Spotlight on...Baby!

PSSC congratulates Ana Rodriguez on the birth of her new baby girl, Juliana Mia, born on February 17, 2017 at 10:26 a.m., weighing 7 lbs, 5 ozs, and 19 inches long.

We wish her and her family the best and look forward to having a new baby as part of the PSSC family.

Join UTSA students and colleagues for the Cesar A Chavez March for Justice on Saturday, March 25. Meet at 8:30 a.m. at the Convocation Center. Register today.

Guiding Principles Integrated into Welcome

In January, the Office of the VPBA partnered with HR to integrate the Business Affairs New Employee Welcome meeting into the Guiding Principles class that’s required for all recent hires. VP Kathryn Funk-Baxter provides an overview of the university and BA’s role in it. She then touches on a few of the many ways BA supports the achievement of UTSA’s strategic goals. Her introduction of the Guiding Principles serves as a segue to the HR trainer’s in-depth discussion of them. This is one of several efforts to encourage us all to focus on living by those Guiding Principles every day.
Financial Affairs and PeopleSoft

**PeopleSoft Upgrading to Improve Reliability**

UT Shared Information Services (UT SIS) will replace the old hardware infrastructure with new state of the art equipment that is adequately scaled for UTShare/PeopleSoft systems. The migration to this new infrastructure affects all PeopleSoft environments being used on our campus. In the final design, there will be redundancy between the two sites.

The project’s purpose is to build an infrastructure that is stable and standardized (where possible) and that provides redundancy for UT System campuses. Campuses should experience increased system performance. Unscheduled down time should rarely occur.

Read more.

**Kudos for Lisa Bixenman, Credit Card Program Manager**

I wanted to let you know I had a refresher meeting with Lisa [Bixenman] yesterday on the Procard, clibacard, and Taccard. Lisa was very generous in educating me and showing me the tricks of the trade. She is always available when I have questions and always has the answers. I really enjoy working with her and her being a “mentor” to me. When I complete my work in my department, I know I am doing a great job because I had wonderful and continuous training from Lisa.

SHE IS A GREAT ASSET TO UTSA!

Renee’ Juchnik
Senior Administrative Associate, Enrollment Services

**Purchasing Parlays Success on The Rowdy Exchange**

The Rowdy Exchange, UTSA’s new e-procurement program, is taking steps toward its early June roll-out. The Purchasing project team hosted its second focus group on March 7, which provided valuable feedback regarding the system and business processes. Advisory committee and executive committee meetings are slated for later this month. While completing configuration to customize the software for UTSA, the team is preparing for April testing and May staff training. Look for information about training dates and enrollment next month.

Purchasing will set up tables at the upcoming HUB vendor fairs, May 2 and 3, to demonstrate purchasing from HUB vendors using the Rowdy Exchange.

**Kudos to Nora Compean and Kelly Rock, DTS**

We would like to thank you both for the time you took out of your day to clear up our questions regarding Business Expense Forms.

We appreciate your help!

Beth Scholl & Vanessa Ghiden
Office of Student Life

**Kudos to Nora Compean and DTS Staff**

Thank you and your staff for the incredible improvement DTS has made in the past year. Please let your staff know that we enjoy working with them and appreciate the effort they have made to help us get our consultants and contractors paid in a timely manner. I guarantee that if we can maintain this recent payment timeliness it will have a positive impact for UTSA.

Great job!

Paul Goodman
Assistant Vice President, Facilities

**Saving, Copying, Printing, Saving**

The Purchasing Posse reminds us that Ricoh and DOCUmation are UTSA’s two preferred multi-functional machine (copier/printer/scanner/fax) vendors. When ready to obtain a new or to renew a current contract, please use one of these vendors. Now is a great time to review your leases so you can compare prices and services. These companies have shown great interest in offering more flexibility for UTSA customers. Please direct your questions to your Procurement Specialist in Purchasing or email purchasing@utsa.edu.
Kudos to Mike Cole, Paul Lozano, and Brian Montoya of Facilities, who repaired the Mobile Go Center vehicle for the P-20 Initiatives.

Wonderful news! Paul Lozano and Brian Montoya were able to fix the Mobile Go Center (the positive and negative cables needed to be replaced) and it’s working, turning on, staying on and everything! THANK YOU again so much. We really could not have done it without your help.

Lara Crouch, M. Ed.
Senior Program Coordinator
Institute for P-20 Initiatives

Kudos to Business Contracts about TCM:

Thank you so much Robert! Unlike other system “roll-outs”, this was a very streamlined process and actually makes things easier. I am a fan.

Raquel Shragar
Research Program Coordinator
Office for Research Support

Kudos to Richard Wollney, Business Contracts

BCO received praise from the Events and Advancement staff at the Institute of Texan Cultures for their work to process a parking-related contract for an event at ITC.

Richard, Thanks again for expediting this. We literally got it yesterday. You all are great.

Evaristo Hinojosa
Director of Budget
Office of the President

Kudos to Mark Parnin, Facilities Senior Project Manager

I truly appreciate the communication Mark Parnin has been maintaining with our office with work that Facilities has to perform inside/outside our office area. This has been incredibly helpful since we need to ensure that the classes/events being held in the CPE run smoothly. He has been really wonderful to work with, and our office appreciates all of the work that you and your department do to maintain our campus.

Marisol “Mari” Mandujano
Executive Education Program Coordinator
Center for Professional Excellence – College of Business

Kudos to Matthew May and Arnold Villafranco, Facilities

Thank you for coordinating with us for the Aerial Work Platform Operation & Safety course on Tuesday, February 14. I am so happy we were able to partner together to make this class a success for those who attended. Bob Kirk mentioned the hands-on portion was excellent, and Arnold did a great job instructing about the equipment. I hope we can continue to support each other in training sessions in the future.

Please let us know if there is anything we can do to help you, or if you think of other partnering opportunities for Facilities and Safety.

Thank you so much for your help.

Kristee Phelps, EHSRM, Occupational Health & Wellness Manager

Kudos to Patty Chavez-Reyes and Mark Parnin

I want to thank Patty Chavez-Reyes and Mark Parnin for going above and beyond to help a temporary employee find their work project location. Their actions were very respectful and demonstrated how we value people and do the right thing!

Many thanks!

Kudos to Karen Haws, Campus Services

I wanted to take a minute to tell you what a great job Karen Haws did in helping locate a citation. Last week I called her for the status of a citation, and she went the extra mile to try and locate it. The citation at the time was inadvertently filed away by my work-study, however, that was unknown at the time I called Karen. She looked through several weeks of citations to ensure the citation was not overlooked on her end. She truly showed a commitment to the Business Affairs Guiding Principles by delivering excellent service.

Rebecca Gomez, Clery Compliance Coordinator

Kudos to Karen Haws, Campus Services

We Respect and care for each other

We Partner to deliver excellent service
Campus Services

**Steak ‘n Shake Grand Opening Rocks UTSA**

It’s here! Steak ‘n Shake is now open in the John Peace Library food court. The popular restaurant is best known for its steakburgers and delicious milkshakes; the Nutella shake is especially recommended by those who work there. The grand opening celebration on February 21 included great giveaways, fun games, and a formal ribbon cutting by Steak ‘n Shake officials and UTSA Dining.

Stop by and try the famous steakburger during their regular hours: Monday – Thursday, 7 a.m. – 10 p.m.; Friday, 7 a.m. – 5 p.m.

**JPL Food Court Completed**

Campus Services proudly announces the completion of the John Peace Library (JPL) food court renovation.

The project began in early 2015, in partnership with the Student Government Association (SGA) and UTSA Dining. Extensive research and multiple avenues of feedback were employed to engage students and employees in opportunities for improvement, additions, and overall concept. Renovations coordinated through Facilities Engineering and Project Management primarily occurred between May and August 2016, with final construction completed in early spring 2017. A variety of improvements now offer a modernized space and customer-friendly dining experience.

**New Locations:**
- Greens to Go
- Provisions on Demand
- Steak ‘n Shake

**Improvements:**
- Expansion of the overall food court footprint.
- Replacement of stand-alone pay stations with cashiers at each dining location, reducing wait times and eliminating the need to stand in two lines.
- Relocation of existing dining venues and facilities: Subway, Sushic, vending machines, and microwaves.
- Upgraded lighting and seating.
- Planters replaced with bar-height tables, equipped with charging outlets for mobile devices.

Thank you to everyone who helped spread the word about the #UDesign2017 Parking Permit Design Contest!

Campus Services received a variety of great submissions showcasing our students’ creativity. A winner will be selected and announced at the COMMweek awards ceremony on March 29. Stay tuned to Campus Services’ social media to see the winning design for our 2017-2018 permits, as well as to learn more about the students who submitted designs.

Campus Services reminds patrons to rinse and recycle paper products. And please put glass and Styrofoam, which our recycling company doesn’t accept, into the trash bins.

**UTSA Dining**

UTSA Dining offers food that helps us stay fit and healthy. Check out Naturally Slim, UT Benefits’ proven online weight loss program. Apply by March 17.
When Thunder Roars, Go Indoors!

March is severe thunder weather awareness month, bringing threats of flooding and severe weather, including thunderstorms, downbursts/damaging winds, lightning, tornadoes, hail storms, waterspouts, tropical cyclones (hurricanes), and dust storms. Our most severe threat is flooding. Flood or flash flood WATCH means a flood is possible in your area; a WARNING means flooding is already occurring or will occur soon in your area. A severe thunderstorm WATCH means conditions are favorable for thunderstorms; a WARNING indicates severe thunderstorms in the area possibly causing significant damage. Late-winter cold fronts, mixing with lots of gulf moisture, can spark intense thunderstorms here, so always be prepared to act quickly. When thunder roars, go indoors! Shelter-in-place and ride out the storm.

Read the full article here. Learn more at www.floodsmart.gov or www.weather.gov/austin. During a storm, listen to local radio or TV stations for flood information, and monitor the UTSA Campus Alerts webpage at www.alerts.utsa.edu.

UTSA Sexual Assault Awareness Month
Call to Action Day

Tuesday, April 4
UC Paseo 11:00 a.m. to 2:00 p.m.

We can all use our voices to change the culture to prevent sexual violence. Prevention requires addressing the root causes and social norms that allow sexual violence to exist. This April, we’re calling on groups whose influence can play a critical role in changing the culture. We’re strongest when we raise our voices together, and that’s why we’re engaging new groups in the movement. These groups can join us in helping the next generation foster attitudes that promote healthy relationships, equality, and respect. These new voices will have a ripple effect on those they teach, guide, and influence. And allow us to maintain a safe and positive learning environment.

All UTSA departments and student organizations are invited to host an information table to show support to end sexual violence. Visit the UTSA Police Department website to download and submit a registration form by March 25. Please contact Cpl. Maranda Tupper at 210-458-6974 or maranda.tupper@utsa.edu with questions or comments.

Respecting the Environment

Are you recycling at least 10 items each day? Join the challenge and help UTSA rank in the top 10% of schools participating in the Recyclemania Tournament though April 1.

We are ranked 39th right now. We’re in the home stretch so let’s all kick it up a notch—and remain diligent all year round.

Please print this updated flyer and place it next to recycling bins in your office. Glass and Styrofoam now go into trash bins. Also, rinse off any food containers you can put into the recycling bins.

Alcohol Awareness Event Gives Student New Perspective

UTSA Police Department and Sigma Lambda Gamma at UTSA hosted a Spring Break “U in the Driver Seat” Alcohol Awareness Event, February 23 in the Sombrilla Plaza. An obstacle course was set up for participants to navigate a pedal cart through while wearing drunk goggles. Many students also operated the video simulator while wearing drugged goggles, mimicking the effects of marijuana. Others donned the drunk goggles and tried to walk heel-toe on a straight line.

U in the Driver Seat is an impaired-driving alcohol-awareness program tailored for college-aged students. UTSA PD sponsors the program and works closely with on-campus housing resident assistants and student organizations to promote, support and encourage them to become peer facilitators with U in the Driver Seat.

UTSA Earns Top 20 Ranking in Recycling & Waste Management

Waste management and recycling equipment supply company Bigbelly ranked UTSA #20 on efficiency and recycling/compost diversion ratio.

Congratulations to the EHSRM team and for the students, faculty, and staff whose dedication to recycling makes us one of North America’s leaders. Our Recycling ‘Runners are creating a more sustainable community for today and tomorrow. Here are some ways you can help move us into the top 10: Recycling Tips. Post this flyer by your blue bins.
Facilities Accelerates Student Achievement

Facilities works in numerous ways to support student success at UTSA. In addition to constructing new buildings, they provide upgrades to classrooms and lecture halls and renovate facilities dedicated to students, including the Recreation Center, the H-E-B University Center, the JPL, and student housing. They replace interior and exterior furnishings, repair existing buildings as well as landscape, clean, and maintain all facilities on campus, ensuring a positive learning environment.

Teaming up with Campus Services, Facilities has expanded the Roadrunner Café dining hall, constructed and improved parking garages and lots, and renovated dining venues, including significant enhancements to JPL this past year.

Facilities collaborates with students directly on academic projects like the Monterey Building utility audit, student rain garden studio projects, the Monterey Café student collaborative lounge, and by offering work-study and internship positions for students in real-world facilities areas from administration to operations to engineering to architecture. Facilities supports an array of student-initiated projects, including the UTSA Community Garden (see article, right), the Roadrunner Memorial Garden, and pedestrian sidewalks.

Kudos for Brent Tyroff, Facilities, Electrician III

“Brent kept me informed and worked with us on the schedule. Definite asset to the project!”

Saving Money AND Chillin’

By replacing the Steam-Driven Chiller, Facilities saved 2,300,000 kwh of electricity, the equivalent of cooling 300 US households for a year.

UTSA Community Garden

With support from Facilities, UTSA’s Green Society and the Department of Kinesiology, Health and Nutrition held the grand opening of the new campus demonstration garden in the pouring rain on March 4. Financed by the UTSA Green Fund, the UTSA Community Garden is located in the southwest corner of the main campus adjacent to Brackenridge Ave Lot 5.

“Campus organizations, departments, and student groups have secured plots,” said Green Society member Anthony Govea. “One of the plots we’ve planned will be a companion-planting ‘three sisters’ plot with corn, beans, and squash, which will also serve as a demo plot for the others. There is a slight preference towards vegetables, but herbs and ornamentals will be accepted.”

Read article in UTSA Today
Read article on Business Affairs’ website

Business Affairs looks forward to supporting the garden’s budding success.

The Game of the Century: Crowdsourcing The Climate Crisis

Business Affairs Hosts Climate-Change Activist

Laughlin Artz, executive director of the nonprofit 2020orBust, spoke on ways to slow climate change and improve the environment at an event held in the UC’s Bexar Room on March 9. The Game of the Century gives us all a pathway to reducing our carbon footprint. The campaign makes ending the climate crisis simple, actionable and fun for anyone who wants to step up to that challenge.

See photos and video from the event.
A Bright Partnership

Facilities teams up with Public Safety on issues like improving lighting to make walkways safer. The lighting upgrade process now underway starts with Facilities’ Utility Operations surveying specific areas of campus, on a recurring cycle, to determine locations of burned out or malfunctioning lights. Work orders are created to address lighting deficiencies identified during the surveys or reported to the Facilities Service Center by faculty, staff, or students. Once all lights are operational in the identified areas, Facilities notifies the UTSAPD.

The police conduct a survey of lighting levels and provide crime prevention reports that often include recommendations to increase lighting levels or enhance coverage. Facilities then initiates the new work orders or develops projects to further improve lighting levels, in accordance with the UTSAPD crime prevention reports, to enhance campus safety.

In the spirit of continuous improvement, Facilities will develop a photometric map of campus lighting and integrate it into their process to help assure lighting levels meet—then exceed—established minimum standards. Facilities and the UTSAPD will continue to work collaboratively to assure enhanced lighting is provided where needed.

Facilities Hosts Town Hall Meeting on Downtown Street Renovations

The City of San Antonio recently began a major project on Frio Street to improve pedestrian connectivity between Commerce Street and Cesar E. Chavez Boulevard. The $5 million project will add bike lanes, wider sidewalks, a safer crosswalk for students and other traffic signal improvements. UTSA Facilities is working with the city on the campus entry and exit points that will also be affected by the construction. As this city project progresses over the next year, UTSA Facilities will provide updates. Read more.

ABC affiliate KSAT, channel 12, reported on the changes.

Car Fit and Safe Kids San Antonio

UTSA PD’s Community Relations team recommends these upcoming events for safety of young and older residents.

Car Fit is an educational program that offers older adults the opportunity to check how well their personal vehicles "fit" them. It aims to enhance elderly drivers’ safety and increase their mobility in the community. Register now for the San Antonio event, held the morning of March 29 at 1751 South W.W. White Road.

Safe Kids San Antonio implements car-seat checkups, safety workshops and sports clinics that help parents and caregivers prevent childhood injuries. Learn more.

Lights out? Report a problem with lighting by submitting a work request at http://webtma.utsa.edu:180/home.html, emailing FacilitiesServiceCenter@utsa.edu, or calling 458-4262. Please provide as much detail as possible.

Campus Safety Tips

BE AWARE OF YOUR SURROUNDINGS – Awareness is your best self-defense. Know what is happening around you. You may call 210-458-4242 and request a safety escort.

WHEN WALKING, PLAN THE SAFEST AND MOST DIRECT ROUTE – Use well-lit, busy streets, sidewalks and pathways.

PROJECT CONFIDENCE – Walk as if you know where you’re going. Stand tall, stride purposefully.

HAVE EVERYTHING YOU NEED READY – Have your keys—equipped with a whistle—in your hand.

REPORT SUSPICIOUS ACTIVITY – If something does not feel right, it probably isn’t.

TRUST YOUR INSTINCTS – Don’t accept a false sense of security because you are in a group or in a remote area.

IF YOU ARE BEING FOLLOWED ON FOOT OR FEEL THREATENED – Cross the street, change direction and go to a safe, busy area where you can ask for help or call the police.

Read all the tips here.

Mark the Date: Business Affairs Forum
Morning of May 18
Leave for Wellness Incentive
Announced for UTSA Staff

Leave for Wellness Incentive is now incorporated into HOP 4.20. It provides time off for exercise, wellness seminars, and for completion of a physical exam and health-risk assessment.

Business Affairs supports our employees’ engagement in wellness activities up to three times per week for up to 30 minutes on each occasion. Employees must request the time from their supervisor in advance of their engaging in the activity. The supervisor will consider the request in association with business requirements. The leave could be revoked or amended at any time if business needs change.

Handling Difficult Discussions

Do you, your staff or someone you know have anxiety or experience difficulty when needing to have a “Difficult Discussion”?

You know the ones...those that nobody looks forward to. Training and Development is offering a three-part course (SU0525, 526, 527) titled “Difficult Discussions.” It will provide you with the tools to confidently address potentially sensitive issues with others. This series is designed to help supervisors maintain and build healthy relationships while having difficult but necessary discussions.

You will receive a step-by-step process for clarifying what happened and preparing for the discussion in a manner that creates a safe environment where both parties feel comfortable. The goal is to generate a solution that works for both parties (win/win) while building/contributing to a positive relationship.

The next course is offered as a three-part series held on May 11, 18 and 25, 8:30– noon. Interested? Sign up for SU0525 at www.training.utsa.edu, and we’ll sign you up for SU0526 and SU0527. Hope to see you there!

Keep up with Business Affairs News and Announcements at utsa.edu/bussvc/news
Healthy Bodies, Healthy Planet

**Surplus Invested for Good**

Another quarter, another milestone for the Surplus Property Department. To date, this Financial Services team has already redistributed 918 gently used items back to the campus community this year. These second quarter numbers are impressive when compared to the prior full year’s annual redistribution of 962 items.

“During the past six months, faculty and staff throughout the campus community have been providing positive feedback about our services, and they have been spreading the word about the Reduce, Reuse, Recycle program,” explained Surplus Property Supervisor Erasmo Garza.

“As the second quarter comes to a close, we have redistributed nearly twice the number of items we redistributed during the same period last year. We achieved increased buy-in from the campus community, and there has been a renewed sense of purpose among the staff in the Surplus Property Department, all of which has influenced this success.”

**UTSA Pitches in to Clean Area Streams**

Nearly 90 students, faculty, staff, and friends participated in the 23rd annual Basura Bash on Feb 18 at Leon and Maverick Creeks near campus.

The 24 volunteers who cleaned up the Maverick Creek location collected a ton of trash and 27 tires. Full event totals are expected next month.

**Shredding Pounds: Helping the Planet**

EHSRM reports that the 20 cubic yard sensitive document shredding container was filled to capacity by 2 p.m. on February 17. More than 2.65 tons of paper weight were collected, shredded, and recycled.

**Shredding Pounds: Getting Naturally Slim**

Naturally Slim is an online weight loss program helping you learn healthy eating habits, while you eat the foods you love. UT SELECT members in the Naturally Slim program last fall lost more than 50,000 pounds. Apply for the spring class today! Then start eating to be slim, March 17.

**UTSA Dining...helping us trim down**

Congrats and thanks to the Business Affairs employees who were among the 1,945 participants in the Diploma Dash on Feb 25. We helped raise $45,000 for Alumni Association scholarships, programs, and operations. Public Safety was on hand to ensure security and to cheer on the runners and walkers. Facilities’ Andrew Goodenough and Financial Affairs’ Lenora Chapman finished in the winners’ circle. See photos on p 11.

**Spring Into Motion** is the UT System’s Spring 2017 Activity Challenge. On your own or with a team, you can participate in this four-week challenge—starting Monday, April 3—to meet a weekly steps or time goal. You’ll earn points for UTSA and receive a Living Well Frisbee and blender bottle. Register now at: www.utlivingwell.com Learn more.
