

The RCMI Translational Research Network (RTRN) Profiles is a research networking and expertise mining tool. This is a tool open for utilization by all faculty, researchers and post-docs employed by The University of Texas at San Antonio. RTRN Profiles enable the discovery of research expertise within RCMI affiliated academic institutions, allowing for new ways to network and collaborate. One may search for experts, discover networks and edit their profiles. Currently there over 20,000 publications associated with over 1900 researcher RTRN Profiles.

To set-up and/or update your RTRN Profile:

1. Go <http://www.rtrn.net/>
2. Click on **RTRN Profiles icon** (Right hand-side of page)
3. On the left hand side of the page click on "Login To Profiles" or "Add My Profile" (for new users)
4. Select your institution, type your user name and password
5. On left-hand side of the screen choose the function you desire.

Please direct questions and inquiries to me, Solomon T. Garner, Jr, Ph.D. - Director, Research Resources and Research Networking via phone (601) 979-1680 and/or email solomon.garner@rtrn.net.
