Letter of Recommendation for Teaching Assistantship
UT San Antonio
Environmental Science Academic Program

Teaching assistants for the Environmental Science Academic Program serve a very important role. We depend on the teaching assistants to help us reach those students who are low performing, and working with them to help them be successful in the classroom. In some cases, they will be teaching a laboratory under the supervision of a faculty member; in other cases they may be helping with a lecture course under the supervision of the faculty member who teaches the course. We expect all teaching assistants to actively engage the students in the courses they are assigned to. They are expected to monitor student progress, and reach-out to students who are not performing at an acceptable level (<C). Please use this form to indicate your thoughts on the applicant’s ability to be teaching assistant. If you would also like to include a letter, please do so. Please send the recommendation to cheryl.negrete@utsa.edu.
