The University Scholarship committee met twice during spring, 2018. The previous committee chair left the university, which caused a lapse in committee work early in the academic year. In the spring, 2018, committee members reviewed applications for 7 different scholarships. In May, the Scholarships Office awarded scholarships based on those reviews.

During summer, 2018, the committee is reviewing and responding to results of an audit that showed a need for better articulated committee roles, responsibilities and procedures. A full report is due to the Office of the Interim Vice President for Strategic Enrollment and Office of the President no later than August 31, 2018.
