Security Profile Setup
Step 1: Enter Your User Information

Create a User ID:
[Input field]

Your User ID is required to be 5-25 characters long, and may contain letters (A-Z, a-z) and numbers (0-9). Your User ID is not case sensitive.

Enter Your Email Address:
[Input field]

The email address you enter will be used for password resets.

Confirm Your Email Address:
[Input field]

The password must be between 8 and 12 characters in length, and must satisfy all of the following requirements:
- At least one lower case letter
- At least one upper case letter
- At least one numeric digit surrounded by non-numeric characters

Please enter your password, then re-enter the same value in the Confirm Your Password box for confirmation and click Continue.

Create a Password:
[Input field]

Password examples:
- Two short words separated by a number are acceptable: Nine1one, Day2Week, MONEY4us, BaRgE2In
- One long word with an embedded number is better: gr8Fully, corDN8ed, BizzN3ss, A4dables

Confirm Your Password:
[Input field]
