

What direction is
the sun coming
from?

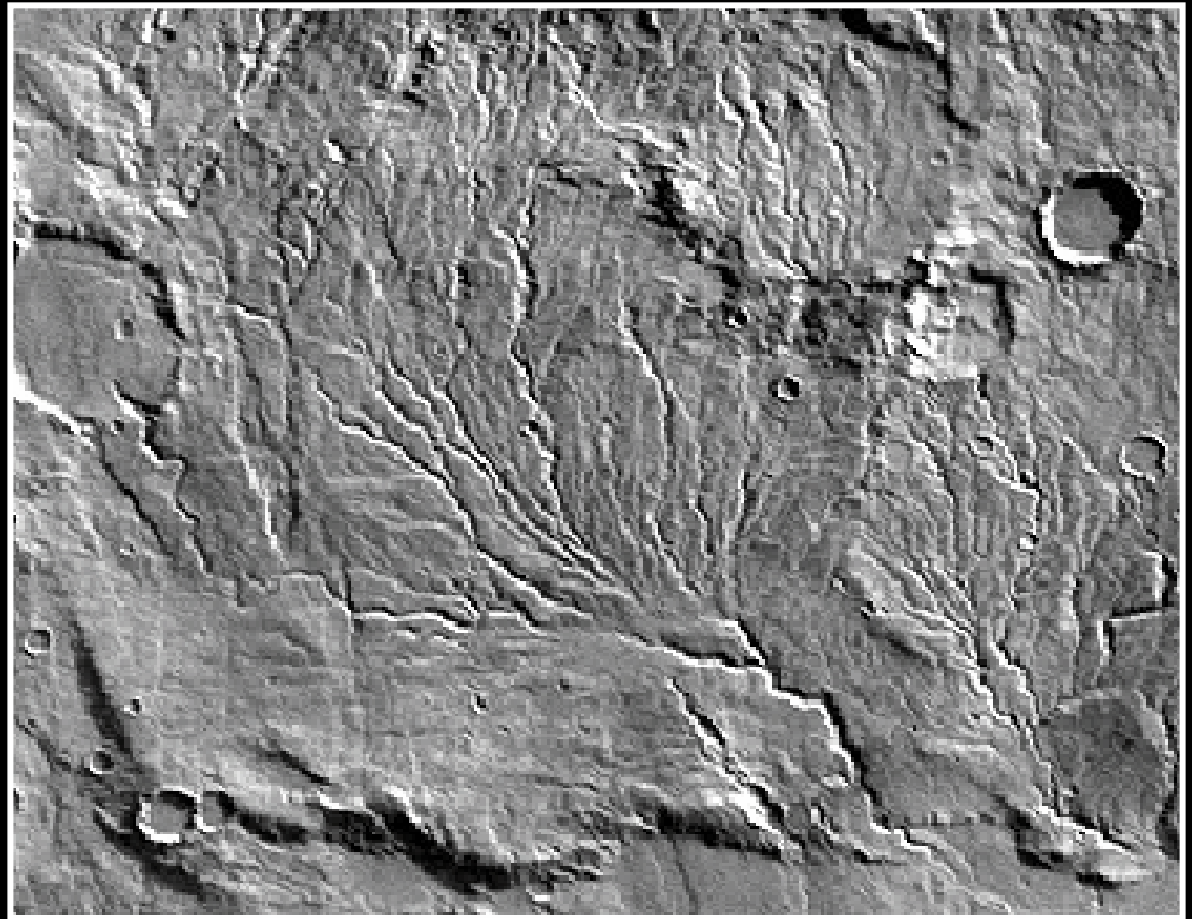

What direction
is the sun
coming from?

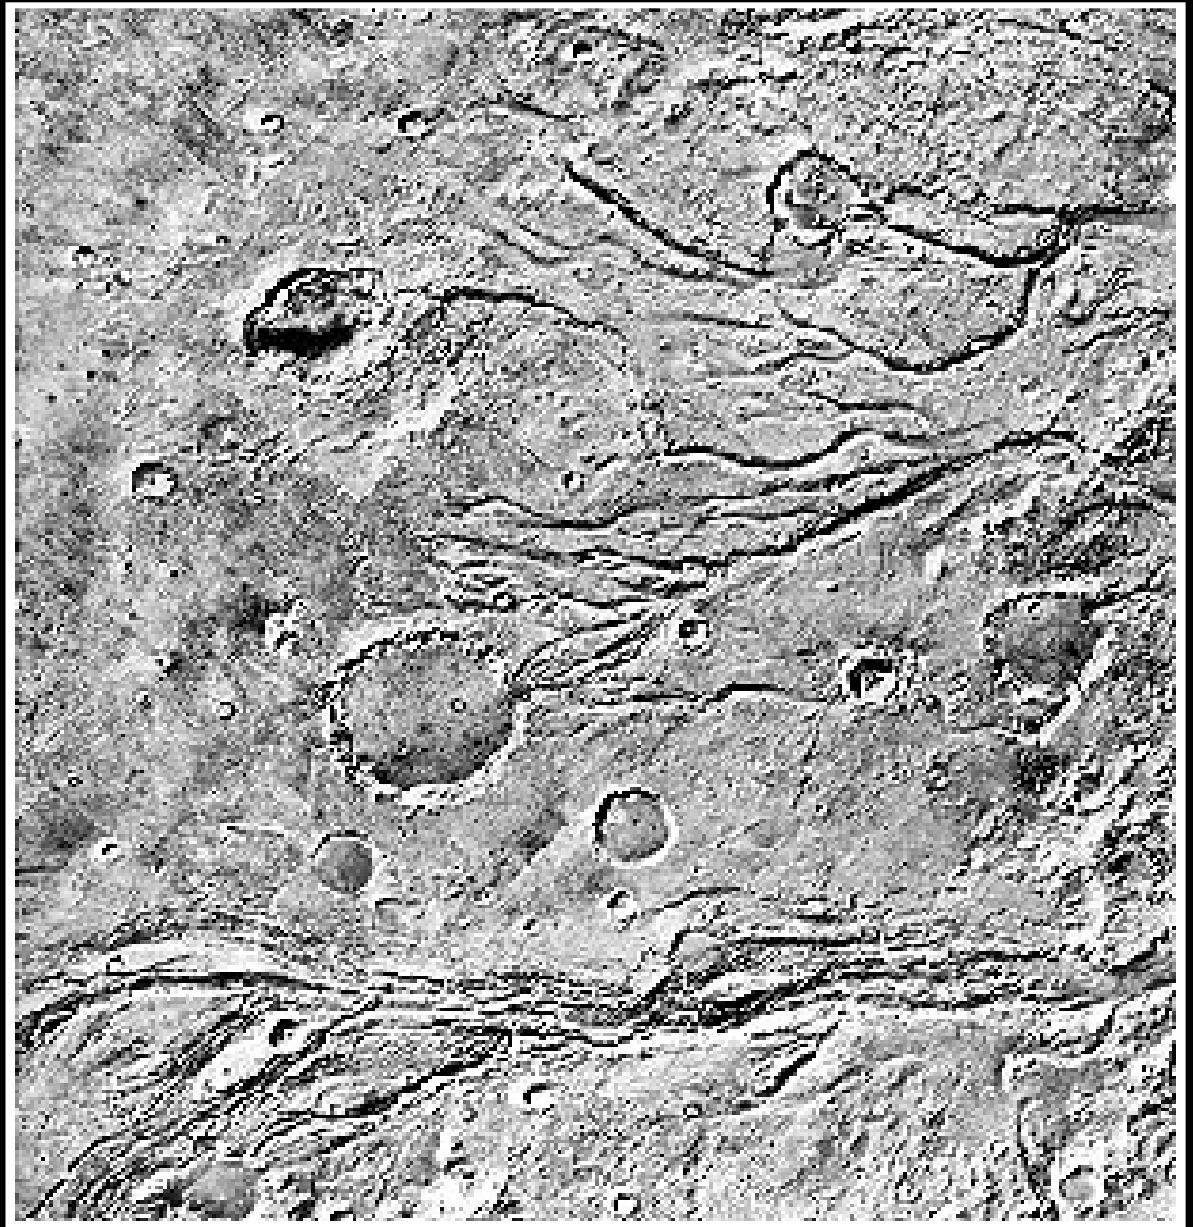

What can be
said about the
relative age of
the features?

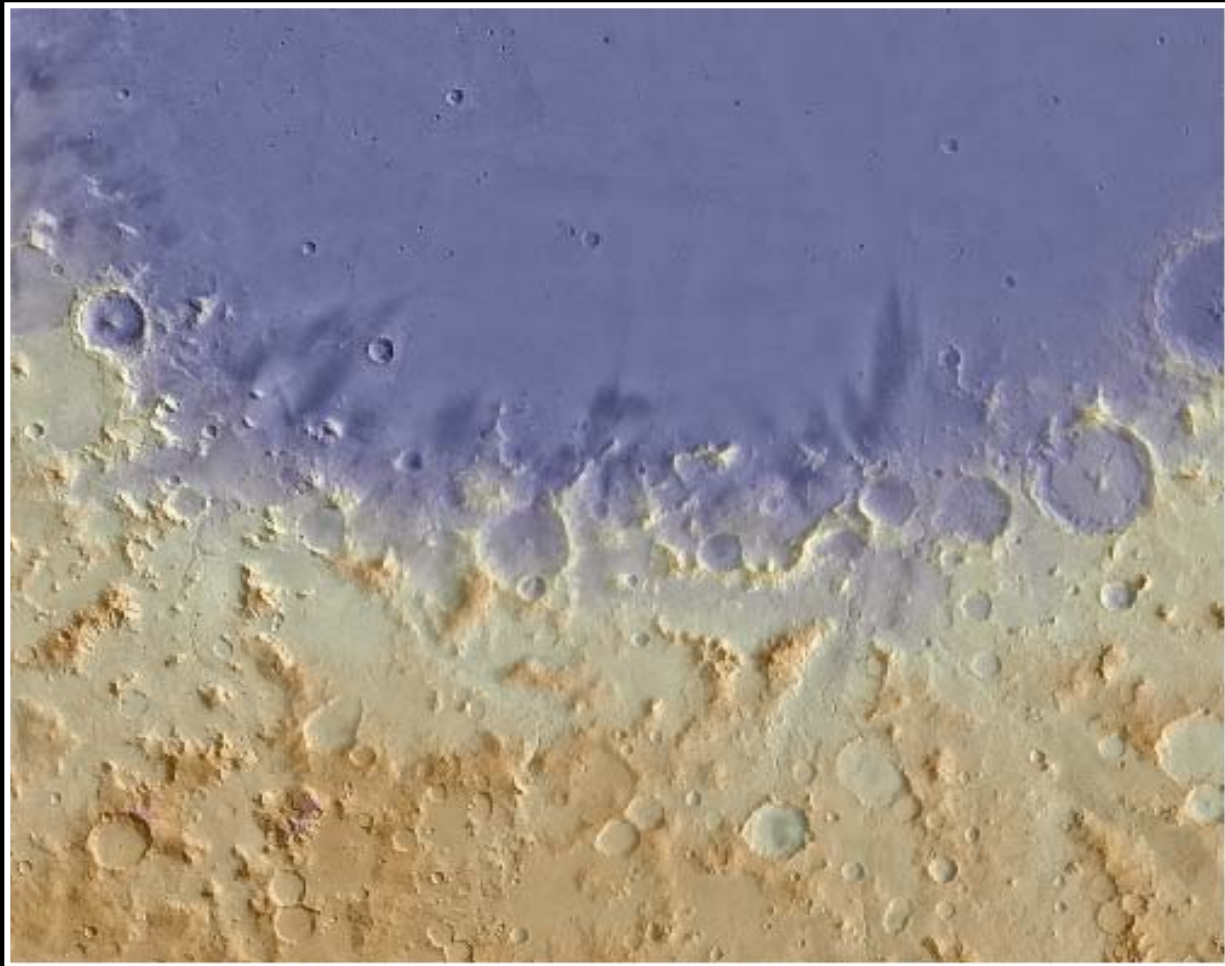

What direction
is the water
flowing?

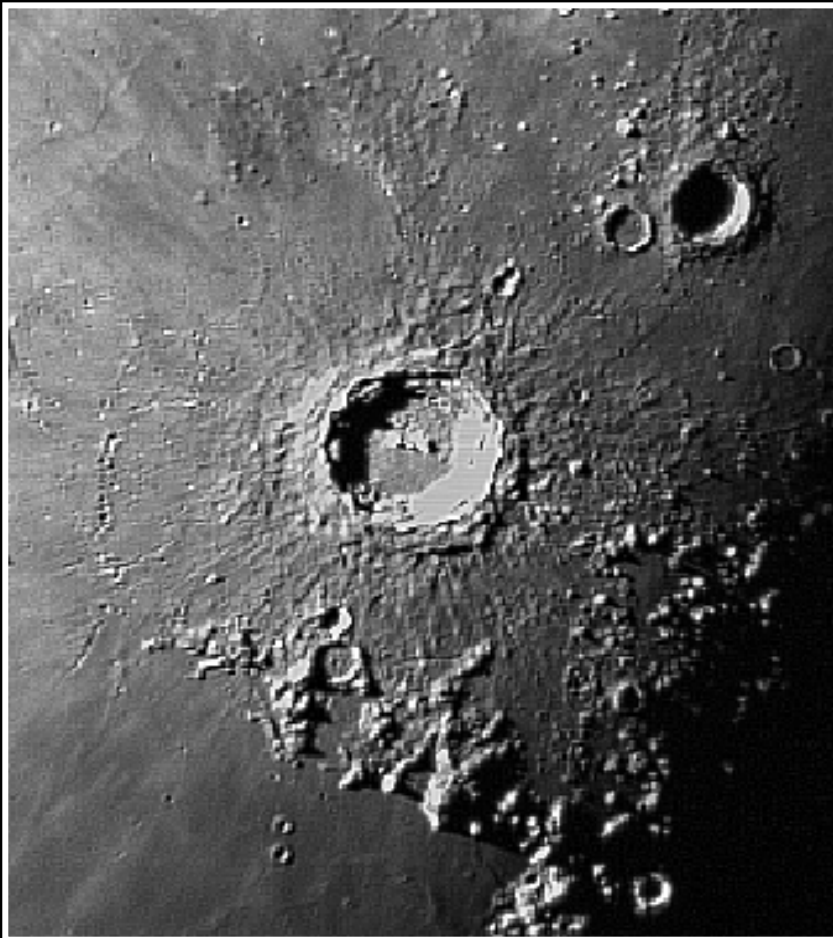

What direction
is the water
flowing?

What can be said about the dichotomy between the northern 'hemisphere' and the 'southern hemisphere'?

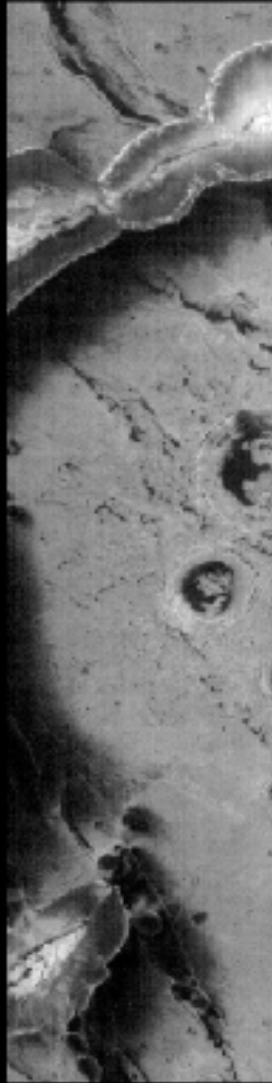

On the left is an impact crater on the moon, on the right is an impact on Mars. What morphological differences might tell you something about the surface or subsurface material?

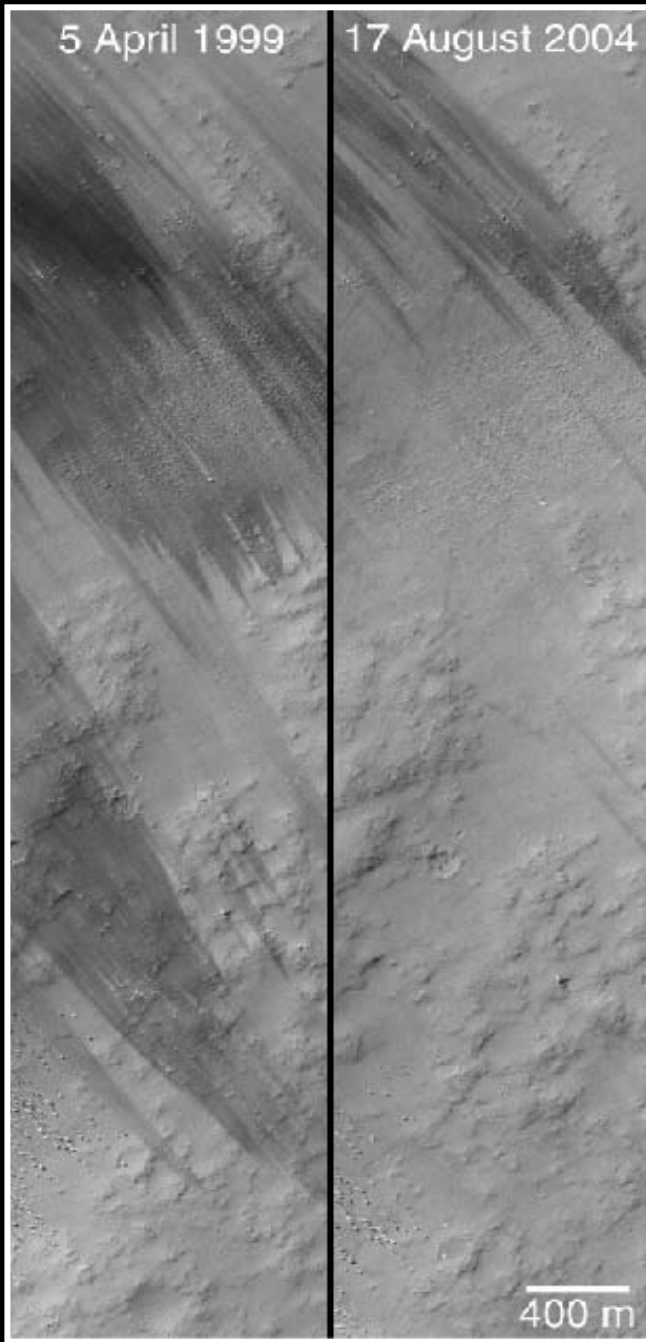

**Daytime IR
(I06744018)**

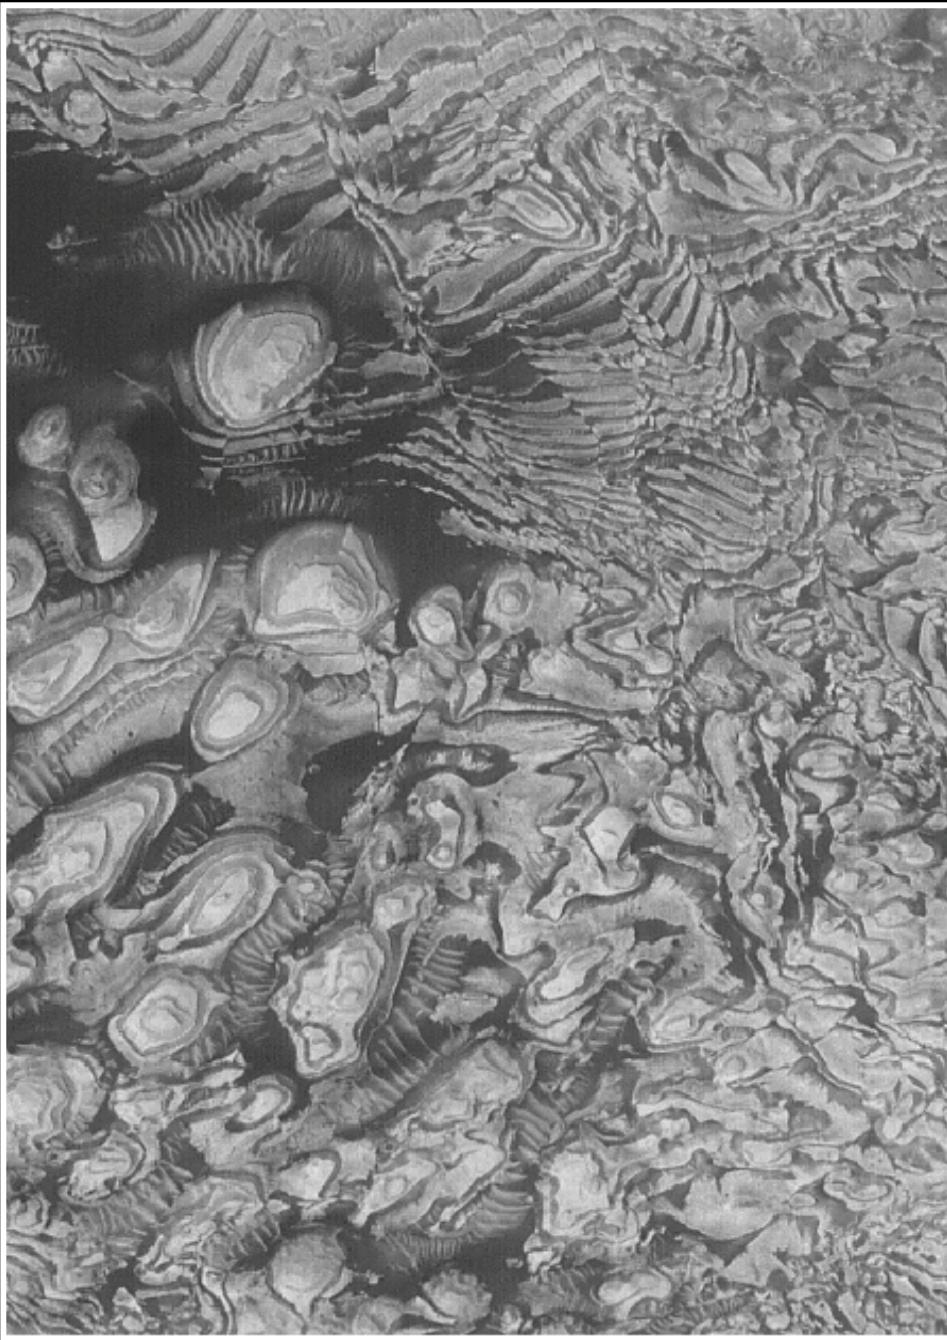

**Nighttime IR
(I07013010)**

What does the difference in daytime and nighttime IR tell you about the surface material?

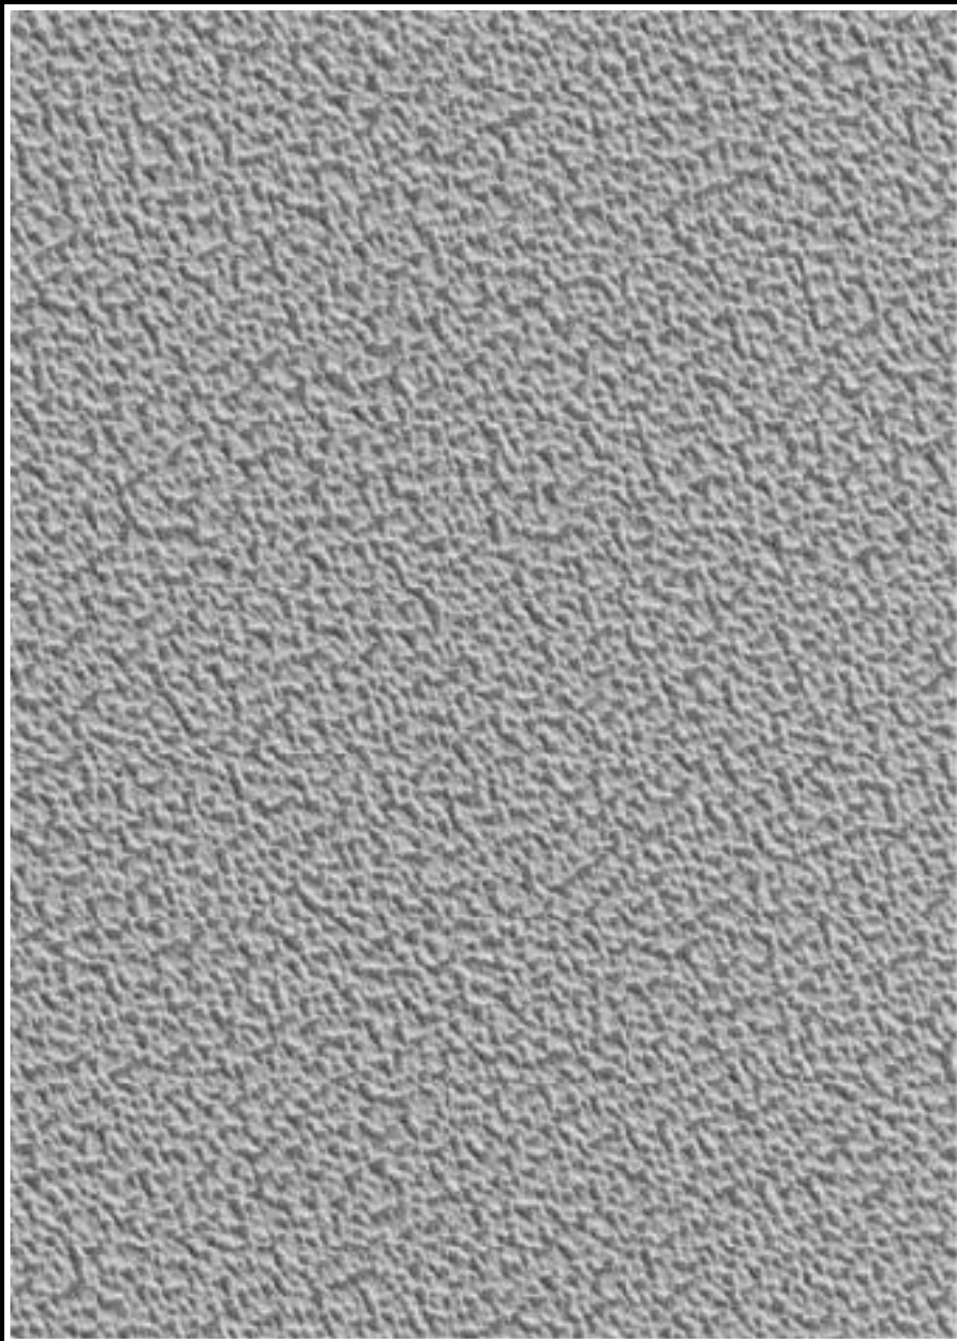

What direction is the wind blowing?

In B, what do these two images indicate?

What is
this?!?

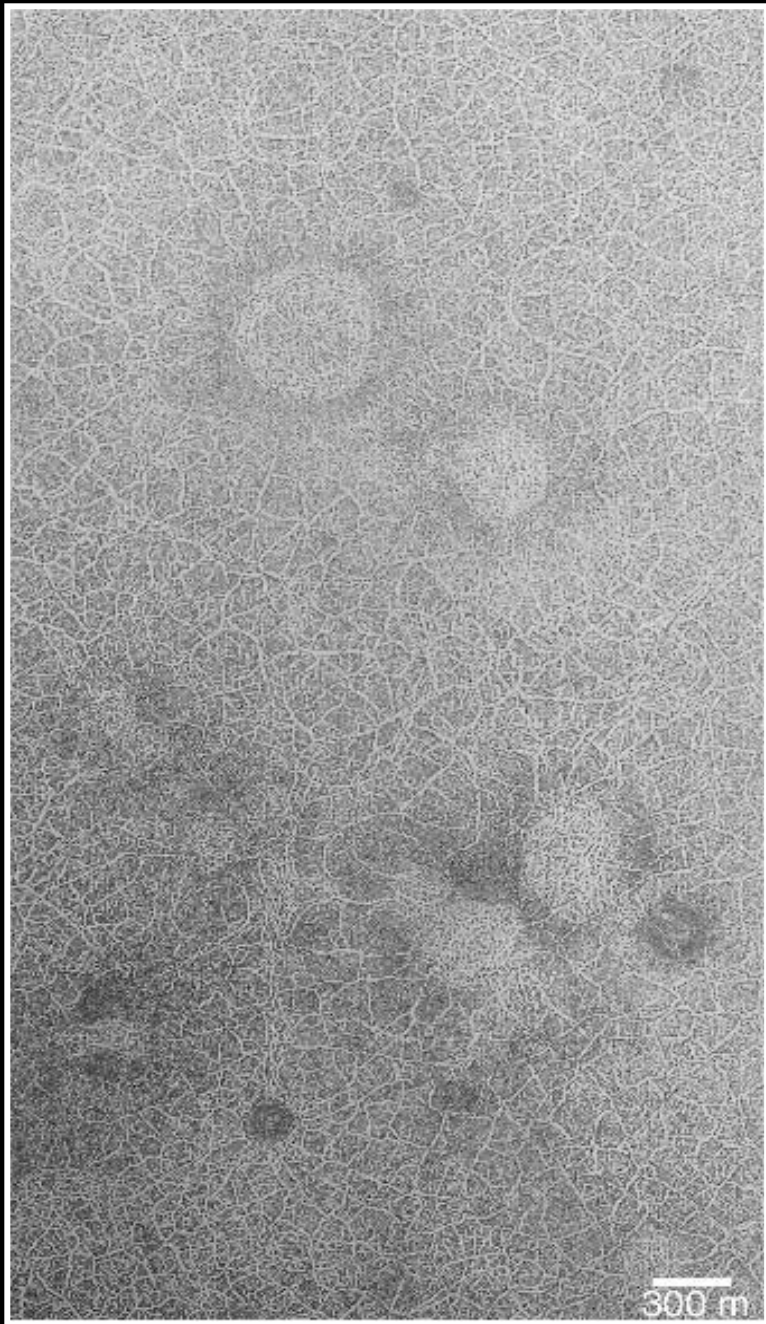

What is
this?!?

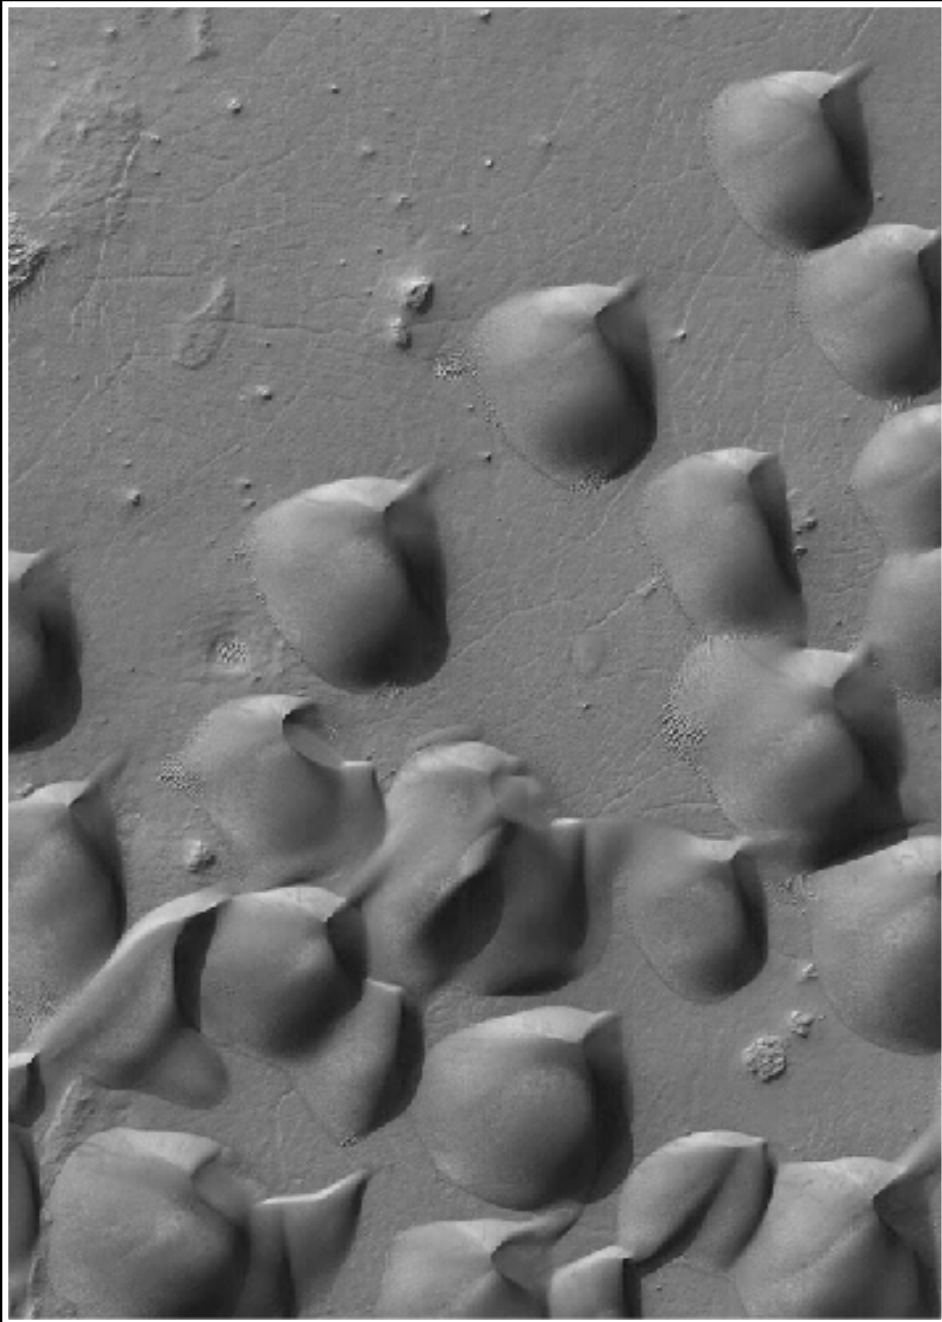

What is
