Hide/Unhide Course Menu

The **Course Menu** appears on the left side of a course and contains links to materials and tools within the course. It is also called Navigation Bar. The instructor can customize the style of the Course Menu and decides which links and tools are made available to students. Instructors can customize the style of the course menu by changing the color, adding subheaders and dividers, and choosing buttons or text for the links. These customizations create variations in the look and organization of your courses.

You can expand or collapse the course menu frame by moving your pointer near the border and clicking the arrow.

At the top of the course menu is a set of icons that can be used to change the display of the course menu.
