...your thoughts. (Outlining, scripting, shaping your message)

...your idea. (What visual elements would support your video? Pictures, graphics, maps and don't forget music)

...the video production group. (Meet face to face or communicate electronically to schedule shooting and editing your video project)

...the cameras roll! (You can shoot your video in our studio or we can go on location)

...the edit. (After we shoot your video, we'll edit the footage according to your script or outline. You can review the edit and make changes before we finish the final product.)
