Endowed Faculty Positions

Jane & Roland Blumberg Professorship in Biology
Bernard Arulanandam, Professor of Biology
Research interest: Infectious Disease and Vaccine Development

Roland K. and Jane W. Blumberg Professorship in Biosciences
Edwin Barea-Rodriguez, Professor of Biology
Research interest: Neurobiology of Aging

Roland K. and Jane W. Blumberg Professorship in Biosciences
Aaron Cassill, Professor of Biology
Research interest: Cell Signaling

Lutcher Brown Distinguished Chair (in Biochemistry)
Aimin Liu, Professor of Chemistry
Research interest: Biochemistry

Lutcher Brown Distinguished Chair (in Bioinorganic Chemistry)
Donald Kurtz, Professor of Chemistry
Research interest: Bioinorganic Chemistry

Lutcher Brown Distinguished Chair
Ravi Sandhu, Professor of Computer Science
Research interest: Cybersecurity

Lutcher Brown Distinguished Chair
Miguel José Yacaman, Department Chair and Professor of Physics
Research interest: Nanotechnology

Cloud Technology Professorship
Mikhail Gubanov, Assistant Professor of Computer Science
Research interest: Cloud Computing

John H. Doran, M.D., F.A.C.P., Distinguished Professorship in Peripheral Neuropathy
Hyoung-gon Lee, Associate Professor of Biology
Research interest: Neurodegeneration

Rita and John Feik Distinguished University Chair in Medicinal Chemistry
Michael Doyle, Professor of Chemistry
Research interest: Medicinal Chemistry

The Ewing Halsell Distinguished Chair in Biology
Charles Wilson, Professor of Biology
Research interest: Neurobiology of Learning and Memory

Changing the future of science  www.utsa.edu/sciences
Endowed Faculty Positions

**Jesse H. and Mary Gibbs Jones Chair in Biotechnology**
Thomas Forsthuber, Professor of Biology  
*Research interest:* Immunology

**Kleberg Distinguished University Chair in Cellular & Molecular Biology**
John McCarrey, Professor of Biology  
*Research interest:* Stem Cells and Regenerative Medicine

**Robert J. Kleberg Jr. and Helen C. Kleberg College of Sciences Professorship**
Karl Klose, Professor of Biology  
*Research interest:* Bacterial Pathogenesis

**Microsoft President’s Professorship**
Banglin Chen, Professor of Chemistry  
*Research interest:* Inorganic Chemistry

**Microsoft President’s Professorship**
Floyd Wormley, Jr., Professor of Biology  
*Research interest:* Host-Fungal Interactions and Vaccine Development

**Dan Parman Distinguished Chair in Applied Mathematics**
Changfeng Gui, Professor of Mathematics  
*Research interest:* Applied Mathematics

**Semmes Foundation Chair in Cell Biology**
Jenny Hsieh, Professor of Biology  
*Research interest:* Stem Cells and Regenerative Medicine; Epilepsy

**Semmes Foundation Distinguished University Chair in Neurobiology**
George Perry, Dean of College of Sciences, Professor of Biology  
*Research interest:* Alzheimer Disease

**Amy Shelton and V. H. McNutt Distinguished Professorship in Geology**
Yongli Gao, Associate Professor in Geological Sciences  
*Research interest:* Karst Hydrogeology

**Margaret Batt's Tobin Distinguished Chair in Biotechnology**
Jose Lopez-Ribot, Professor of Biology  
*Research interest:* Fungal Infection and Vaccine Development

**The Vaughan Family Professorship in Physics & Astronomy**
Eric Schlegel, Professor of Physics  
*Research interest:* Astrophysics and Cosmology

**Max and Minnie Tomerlin Voelcker Distinguished Professorship in Chemistry**
Doug Frantz, Professor of Chemistry  
*Research interest:* Organic and Medicinal Chemistry

*Changing the future of science*  
[www.utsa.edu/sciences](http://www.utsa.edu/sciences)
Robert A. Welch Distinguished University Chair in Chemistry
Kirk Schanze, Professor of Chemistry
Research interest: Interaction of Light with Small Molecules, Polymers, and Materials

Dr. Weldon W. Hammond, Jr. Distinguished Professorship in Hydrogeology

Robert A. Welch Distinguished University Chair in Chemistry
