Endowed Faculty Positions

Jane & Roland Blumberg Professorship in Biology
Bernard Arulanandam, Professor of Biology
Research interest: Infectious Disease and Vaccine Development

Roland K. and Jane W. Blumberg Professorship in Biosciences
Edwin Barea-Rodriguez, Professor of Biology
Research interest: Neurobiology of Aging

Roland K. and Jane W. Blumberg Professorship in Biosciences
Aaron Cassill, Professor of Biology
Research interest: Cell Signaling

Lutcher Brown Distinguished Chair (in Biochemistry)
Aimin Liu, Professor of Chemistry
Research interest: Biochemistry

Lutcher Brown Distinguished Chair (in Bioinorganic Chemistry)
Donald Kurtz, Professor of Chemistry
Research interest: Bioinorganic Chemistry

Lutcher Brown Distinguished Chair
Ravi Sandhu, Professor of Computer Science
Research interest: Cybersecurity

Lutcher Brown Distinguished Chair
Miguel José Yacaman, Department Chair and Professor of Physics
Research interest: Nanotechnology

Cloud Technology Professorship
Mikhail Gubanov, Assistant Professor of Computer Science
Research interest: Cloud Computing

John H. Doran, M.D., F.A.C.P., Distinguished Professorship in Peripheral Neuropathy
Hyoung-gon Lee, Assistant Professor of Biology
Research interest: Neurodegeneration

Rita and John Feik Distinguished University Chair in Medicinal Chemistry
Michael Doyle, Professor of Chemistry
Research interest: Medicinal Chemistry

The Ewing Halsell Distinguished Chair in Biology
Charles Wilson, Professor of Biology
Research interest: Neurobiology of Learning and Memory

Changing the future of science  www.utsa.edu/sciences
Jesse H. and Mary Gibbs Jones Chair in Biotechnology
Thomas Forsthuber, Professor of Biology
Research interest: Immunology

Kleberg Distinguished University Chair in Cellular & Molecular Biology
John McCarrey, Professor of Biology
Research interest: Stem Cells and Regenerative Medicine

Robert J. Kleberg Jr. and Helen C. Kleberg College of Sciences Professorship
Karl Klose, Professor of Biology
Research interest: Bacterial Pathogenesis

Microsoft President’s Professorship
Floyd Wormley, Jr., Professor of Biology
Research interest: Host-Fungal Interactions and Vaccine Development

Dan Parman Chair in Applied Mathematics
Changfeng Gui, Professor of Mathematics
Research interest: Applied Mathematics

Semmes Foundation Distinguished University Chair in Neurobiology
George Perry, Dean of College of Sciences, Professor of Biology
Research interest: Alzheimer Disease

Margaret Batts Tobin Distinguished Chair in Biotechnology
Jose Lopez-Ribot, Professor of Biology
Research interest: Fungal Infection and Vaccine Development

The Vaughan Family Professorship in Physics & Astronomy
Eric Schlegel, Professor of Physics
Research interest: Astrophysics and Cosmology

Max and Minnie Tomerlin Voelcker Distinguished Professorship in Chemistry
Doug Frantz, Professor of Chemistry
Research interest: Organic and Medicinal Chemistry

Robert A. Welch Distinguished University Chair in Chemistry
Kirk Schanze, Professor of Chemistry
Research interest: Interaction of Light with Small Molecules, Polymers, and Materials
Dr. Weldon W. Hammond, Jr. Distinguished Professorship in Hydrogeology

Microsoft President’s Professorship in Brain Health

Semmes Foundation Chair in Cell Biology

Amy Shelton and V. H. McNutt Distinguished Professorship in Geology

Robert A. Welch Distinguished University Chair in Chemistry
