

Greetings, everyone!

This the last week of the 2008 SECC effort. Due to your strong commitment and caring Student Affairs is at an overall participation rate of **64%**. Thanks! This is a great number—but **we** believe we can make it higher! **Please** take a look at your department's participation level. Let's keep in mind that our University's goal is to reach **72%**...let's do our part to make it happen! As an incentive, **Dr. Paine will sponsor a celebration (refreshments) for staff members of departments that reach 100% participation.** We will let you know the date soon!
