

Are you ready to *NETWORK* Student Affairs?

The Student Affairs Staff Networking Committee (part of the Professional Development Team) is proud to announce the first of many networking initiatives in the works for the division, the Student Affairs Department Campus Tours!

The tours are designed to encourage all Student Affairs staff to visit various departments around the division and get to know their colleagues who work in the department and become more familiar with that department's services and programs. The "open house" format allows for staff to come and go within the window of time chosen by the host department, allowing offices of any size the opportunity to have their entire staff participate.

Participation has its benefits! At each tour stop, visitors will receive an FYI card that highlights the department's services, programs, and staff. The more tours you take the more cards you collect and by the end you will have your very own FYI rolodex of Student Affairs departments. It is the Staff Networking Committee's hope that this rolodex will serve as a valuable resource and tool. Being knowledgeable about other services and departments will get each of us one step closer to delivering excellence in service to our students and one another.
