

UC Program Council activities thru March 28th

For those that might not know, the **UC Program Council** is a newly forming student organization dedicated late-night and weekend student programming. We bring comedians, movies, coffee house singers and more to our student community, free of charge. We are currently recruiting students who are interested in being a part of this new initiative and who want to make a difference to campus programming. If you are interested in joining the UC Program Council or want more information about any of the listed programs, please contact us.

Thank you!
