7th UTSA Architecture, Business, Engineering and Science Students’ Conference 2013
Senior Design Symposium – College of Engineering

The University of Texas at San Antonio (UTSA) is hosting the Seventh Annual Architecture, Business, Engineering and Science Student Conference on April 30, 2013. This Conference is designed to showcase student accomplishment, promote research excellence at UTSA, and highlight science, engineering, business, and architecture education in San Antonio. The conference theme is “Cloud Computing Technology and its application in engineering, science and biology – San Antonio’s next Advance” reflecting expectations for UTSA and its alumni to emerge at the forefront of research and development excellence at state and national levels.

There will also be a Hack-A-Thon session where contestants will be given a challenge problem. The most creative and implementable solution will be awarded a prize.

“Ethics in Research”: Special lecture by Dr Michelle Stevenson, Assistant VP Research Integrity at UTSA

The 7th Annual UTSA ABES Student Conference 2013 will provide UTSA students with an exceptional opportunity to present research projects or to exhibit other significant accomplishments, such as capstone senior projects, to the UTSA and San Antonio community. Participants and attendees will gain professional presentation experience, network with their peers and faculty, and learn about graduate education and science as a career.

This year we have the following awards provided by our sponsor Rackspace in amounts of $250 each:
- Rackspace Best Paper Award
- Rackspace Best Poster Award

Additional awards for other selected papers will also be provided. To be considered for an award, you MUST leave a contact phone number and be able to attend an invite-only awards dinner later after the conference. Oral and poster presenters will be selected from those who submit abstracts. Abstracts or exhibition proposals related (but not limited) to the following research themes are sought:

Submissions:
Submitted abstracts should not exceed 2 pages in length, double spaced. Please upload abstracts of your papers on the web site. An exhibition proposal form and detailed instructions for submissions can be found online at the conference web site: http://ace.utsa.edu/abes.

Important Deadlines:
April 16, 2013: Submission of abstracts
April 23, 2013: Acceptance/Rejection notification
April 30, 2013: UTSA ABES Student Conference 2013
