The Alma Mater

“Hail UTSA”

From our hills of oak and cedar
To the Alamo,
Voices raised will echo
As, in song, our praises flow.
Hail Alma Mater!
Through the years our loyalty will grow.
The University of Texas
San Antonio.

The Mascot

The roadrunner, a bird representative of the
Texas Hill Country and the Southwest,
was voted the UTSA mascot in 1977.

The School Colors

Official colors of The University of Texas System
are orange and white. Upon recommendation from
the UTSA Student Representative Assembly, the
Board of Regents approved the addition of blue to
the orange and white for UTSA’s school colors.

The University of Texas at San Antonio
May 2009
The provisions of this catalog do not constitute a contract, expressed or implied, between any applicant, student, or faculty member and The University of Texas at San Antonio or The University of Texas System. This catalog is a general information publication, and it does not contain all regulations that relate to students.

The University of Texas at San Antonio reserves the right to withdraw courses at any time and to change fees, tuition, rules, calendar, curriculum, degree programs, degree requirements, graduation procedures, and any other requirement affecting students. The policies, regulations, and procedures stated in this catalog are subject to change without prior notice, and changes become effective whenever the appropriate authorities so determine and may apply to both prospective students and those already enrolled. University policies are required to be consistent with policies adopted by the Board of Regents of The University of Texas System and are in compliance with state and federal laws.

STUDENTS ARE HELD INDIVIDUALLY RESPONSIBLE FOR MEETING ALL REQUIREMENTS AS DETERMINED BY THE UNIVERSITY OF TEXAS AT SAN ANTONIO AND THE UNIVERSITY OF TEXAS SYSTEM. FAILURE TO READ AND COMPLY WITH POLICIES, REGULATIONS, AND PROCEDURES WILL NOT EXEMPT A STUDENT FROM WHATEVER PENALTIES HE OR SHE MAY INCUR.

No person shall be excluded from participation in, denied the benefits of, or be subject to discrimination under any program or activity sponsored or conducted by The University of Texas System or any of its component institutions, on any basis prohibited by applicable law, including but not limited to race, color, national origin, religion, gender, sexual orientation, age, veteran status, or disability.

Students should refer to UTSA Information Bulletin (www.utsa.edu/infoguide/) for additional policies, procedures, and information directly related to their enrollment at UTSA.

The University of Texas at San Antonio is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate, master’s, and doctorate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of The University of Texas at San Antonio.

ADMISSION

PHILOSOPHY

Admission requirements for graduate study at UTSA are designed so that admitted students will have a high probability of success in graduate-level academic work. Graduate study is much more than a continuation of undergraduate work and should be considered only by those students with the capacity for independent thought and investigation. Graduate programs at UTSA use selective entrance requirements in their admission of students. In addition to the University-wide admission requirements listed below, each graduate degree program specifies additional admission requirements, including scores on the Graduate Record Examination (GRE) aptitude test; the Graduate Management Admission Test (GMAT), other standardized examinations, a portfolio, an audition, or other indicators of preparation for graduate study. Information on the GRE may be obtained from the Educational Testing Service, P.O. Box 6000, Princeton, NJ 08541-6000 or by calling 1-866-473-4373. GMAT information may be obtained from Graduate Management Admission Council by calling 1-800-717-GMAT. The institution code for UTSA is 6919, for both the GRE and the GMAT. UTSA Testing Services office also has information available on the GRE, GMAT, MAT, and other tests. Applicants should refer to individual degree descriptions for additional admission requirements.

Consistent with Texas Education Code, Section 51.842(b), any degree program that uses an applicant’s performance on a standardized test, other than scores obtained on the Test of English as a Foreign Language (TOEFL) required of international applicants, to make decisions about admission or the award of competitive scholarships will compare the applicant’s test score with those of other applicants from similar socioeconomic backgrounds. If an applicant’s performance on a standardized test is used for that purpose, it will be considered together with other criteria when making an admission or competitive scholarship decision and will not be used as the sole criterion for consideration of the applicant or as the primary criterion to end consideration of the applicant.

CLASSIFICATIONS AND REQUIREMENTS

Classifications of graduate admission require approval by the Dean of the Graduate School, the administrative officer responsible for graduate education. The criteria for the various classifications of admission to UTSA are set forth below.

Graduate Degree-Seeking Students

A graduate degree-seeking student is one admitted to a graduate degree program. Admission as a graduate degree-seeking student may be unconditional, conditional, or conditional on academic probation.

Unconditional Admission

In order to be eligible for unconditional admission as a graduate degree-seeking student, an applicant normally must:

1. hold a baccalaureate degree from a regionally accredited college or university in the United States or have proof of equivalent training at a foreign institution;
2. have a grade point average of at least 3.0 (on a 4.0 scale) in the last 60 semester credit hours of coursework taken;
3. have completed at least 18 semester credit hours (12 of which must be at the upper-division level) in the area or areas in which the graduate degree is sought or in related areas as determined by the Graduate Program Committee for the proposed major;
4. be in good standing at the last institution attended; and
5. be recommended for admission by the Graduate Program Committee in the proposed major. The committee may examine a student on his or her previous preparation before a recommendation is made for the student to be admitted to the program.

Admission is based on the last 60 hours attempted in all undergraduate, graduate and postgraduate coursework. Students must list on the application for graduate admission all community colleges, colleges and universities attended and request an official transcript from each institution attended be sent to the Graduate School. Official transcripts from the institution conferring the
Conditional Admission

An applicant who has insufficient preparation in his or her intended graduate degree program, or who lacks certain supporting documentation required for unconditional admission, may be admitted conditionally to the graduate degree program upon recommendation of the Graduate Program Committee in the proposed major and approval by the Dean of the Graduate School.

Conditions placed on admission may include:

1. submission of test scores or other indicators of preparation for graduate study that are unavoidably lacking at the time of admission;
2. completion of additional coursework or other study to remove deficiencies, with such makeup work to be in addition to the regular degree requirements; and
3. completion of a given number of semester credit hours and the achievement of a minimum grade point average, in no case lower than that required for a student to remain in the University as a graduate degree-seeking or special graduate student, if the student’s grade point average is less than that specified for unconditional admission. (See section on Academic Standing in Chapter 2, General Academic Regulations.)

Any conditions placed on the student’s admission are included in the notification of admission. If conditions placed on admission are not met within the time specified by the Graduate Program Committee and stated in the admission notice, the Dean will direct the Registrar to withdraw the student from the University. The student may petition for reinstatement under the provisions listed in this catalog. (See Graduate Reinstatement in Chapter 2, General Academic Regulations.)

Conditional Admission on Academic Probation

An applicant who fails to meet the requirements for unconditional admission and is admitted on a conditional basis may be admitted on academic probation, upon recommendation of the appropriate Graduate Program Committee and approval by the Dean of the Graduate School. Such admission requires that coursework taken during the first semester be completed with a grade point average of “B” (3.0 on a 4.0 scale) or better. Failure to earn this average results in academic dismissal.

Denial of Admission as a Graduate Degree-Seeking Student

If an applicant is not eligible for either unconditional admission or conditional admission, the applicant is denied admission as a graduate degree-seeking student. In such cases, the appropriate Graduate Program Committee may recommend the applicant’s admission or denial of admission as a special graduate student.

Special Graduate Students

A special graduate student is one admitted to UTSA for the purpose of enrolling in master’s-level and/or undergraduate courses without currently entering a degree program. An applicant who elects to enroll as a special graduate student normally must:

1. hold a baccalaureate degree from a regionally accredited college or university in the United States or have proof of an equivalent degree from a foreign institution;
2. have a grade point average of at least 3.0 (on a 4.0 scale) in the last 30 semester credit hours of coursework for the baccalaureate degree as well as in all graduate-level coursework previously taken;
3. be in good standing at the last institution attended; and
4. be recommended for admission as a special graduate student by the authorized representative of the discipline offering the graduate course or courses desired. The authorized representative of the discipline offering the course is the discipline Graduate Program Committee acting through its chair or through its graduate advisor of record. If there is no Graduate Program Committee for the discipline, the chair of the department offering the discipline is the authorized representative.
If the program is interdisciplinary, the Associate Dean for Graduate Studies and Research of the appropriate college is the authorized representative.

Admission is based on the last 30 hours attempted in all undergraduate, graduate and postgraduate coursework. Students must list on the application for graduate admission all community colleges, colleges and universities attended and request an official transcript from each institution attended be sent to the Graduate School. Official transcripts from the institution conferring the last degree must be on file at the Graduate School. UTSA graduates only need to order transcripts from any institutions not listed on the UTSA transcript. The Graduate School will obtain the UTSA transcript from the Office of the Registrar.

Special graduate students are eligible to take any master’s-level or undergraduate courses for which they have the necessary prerequisites, provided that space is available, and have the approval of the instructor in which the course is taught. Students who wish to take a graduate course in a discipline other than that for which they have been authorized upon admission must obtain the approval of the authorized representative (as defined above) of the discipline offering the course.

Special graduate students are advised that:

1. a maximum of 12 semester credit hours earned as a special graduate student may be applied toward a graduate degree, and then only when the student has been admitted as a graduate degree-seeking student and the credits earned for these courses have been evaluated and approved for this purpose by the appropriate Graduate Program Committee;
2. when teacher certification is involved, approval of the director of the College of Education and Human Development Advising and Certification Center is required before the student enrolls to ensure that credit earned as a special graduate student can be applied to a graduate-level teacher certification program; and
3. to continue at UTSA as a special graduate student in a subsequent semester, the student must meet the standards required to remain at UTSA as indicated in the section on Academic Standing.

**Denial of Admission as a Special Graduate Student**

An applicant who is denied admission as both a graduate degree-seeking student and a special graduate student may be eligible for admission as a special undergraduate student, if admission requirements for that classification have been met. The applicant will need to submit an undergraduate application to be considered (see Special Students in Chapter 2, Admission, in the UTSA Information Bulletin).

Students holding bachelor’s degrees who are admitted as special undergraduate students may enroll in undergraduate courses only. If they wish to take courses at the graduate level, they must obtain permission from the course instructor and the department chair on the form provided for this purpose or apply and be admitted as special graduate students. Students may not have active applications at the graduate and undergraduate levels for the same term and year.

**Non-Degree-Seeking Graduate Students**

An applicant who wishes to enroll for courses without pursuing a degree at UTSA should apply for admission as a non-degree-seeking graduate student. In order to qualify as a non-degree-seeking graduate student the applicant must:

1. hold at least a baccalaureate degree from a regionally accredited college or university;
2. have a grade point average of at least 3.0 (on a 4.0 scale) in the last 30 semester credit hours of coursework for the baccalaureate degree as well as on all graduate-level coursework taken;
3. be in good standing at the last institution attended; and
4. be recommended for admission as a non-degree-seeking graduate student by the authorized representative of the discipline offering the graduate course or courses desired. The authorized representative of the discipline offering the graduate course is the discipline Graduate Program Committee, acting through its chair or through its graduate advisor of record. If there is no Graduate Program Committee for the discipline, the chair of the department offering the discipline is the authorized representative. If the program is interdisciplinary, the Associate Dean for Graduate Studies and Research of the appropriate college is the authorized representative.
Admission is based on the last 30 hours attempted in all undergraduate, graduate and postgraduate coursework. Students must list on the application for graduate admission all community colleges, colleges and universities attended and request an official transcript from each institution attended be sent to the Graduate School. Official transcripts from the institution conferring the last degree must be on file at the Graduate School. UTSA graduates only need to order transcripts from any institutions not listed on the UTSA transcript. The Graduate School will obtain the UTSA transcript from the Office of the Registrar.

Non-degree-seeking graduate students may register for any master’s-level or undergraduate course for which they have the necessary prerequisites, provided that space is available and that they have the approval of the course instructor. Students who wish to take a graduate course in a discipline other than that for which they have been authorized upon admission must obtain the approval of the authorized representative (as defined above) of the discipline offering the course.

Non-degree-seeking graduate students are advised that:

1. credit earned as a non-degree-seeking graduate student will not count toward a degree at UTSA;
2. if the student plans to obtain a graduate degree at UTSA, an application for admission should be made as either a graduate degree-seeking student or a special graduate student; and
3. when teacher certification is involved, approval of the director of the College of Education and Human Development Advising and Certification Center is required before the student enrolls to ensure that credit earned as a non-degree-seeking graduate student can be applied to a graduate-level teacher certification program.

**International Students**

Applications from non-U.S. citizens or nonpermanent residents will be processed as international.

Applicants must meet the following criteria:

1. Meet the graduate admission requirements.

2. Prove proficiency in the English Language by taking either the TOEFL (Test of English as a Foreign Language) or IELTS (International English Language Testing System) examinations. Scores must be sent directly to the Graduate School. Our institution code is 6919.

*The minimum score required on the TOEFL

TOEFL scores may be waived for international students from countries where English is the primary language of instruction and the principal language spoken in the home; or for noncitizens of the United States earning a bachelor’s degree or higher in the United States or other English-speaking countries. Participation in UTSA’s English Language Assessment Program (ELAP) before registration is required of students with TOEFL scores below 600 (paper version) or 100 (Internet based) or 7 (IELTS). Based on this assessment, students needing additional instruction in English are required to enroll in appropriate English for International Students (EIS) courses.
Applicants from the following countries are exempt from submitting the TOEFL or IELTS score:

- American Samoa
- Australia
- Bahamas
- Barbados
- Belize
- Canada (except Quebec)
- Dominica
- Grand Cayman
- Grenada
- Guyana
- Ireland
- Jamaica
- Liberia
- New Zealand
- Sierra Leone
- Trinidad/Tobago
- United Kingdom
- U.S. Pacific Trust

IELTS is jointly managed by University of Cambridge English for Speakers of Other Languages (Cambridge ESOL) Examinations, British Council, and IDP Education Australia: IELTS Australia. For more information visit www.ielts.org.

TOEFL is an examination written by The Educational Testing Service of The College Board. For more information visit www.toefl.org.

3. Submit a statement guaranteeing the student’s ability to pay all expenses while a student at UTSA, if attendance under the F-1 (student) visa is anticipated. The statement may be sent from a parent or guardian when endorsed by a bank or other reliable institution, or from a U.S. citizen who will accept responsibility for the student’s financial needs.

4. The application, nonrefundable application fee ($80 online or $85 paper), and supporting credentials should be on file in the Graduate School by the appropriate application deadline. The nonrefundable application fee is also charged upon reapplication for admission following academic dismissal. See Application Dates for deadlines.

The above criteria serve as guidelines for admission for international students. The credentials of each applicant are examined on an individual basis by the Graduate School and the appropriate Graduate Program Committee, with admission granted only to those who show promise of success in graduate study at UTSA.

**Academic Fresh Start**

An applicant who has earned a baccalaureate degree under the Academic Fresh Start statute, Texas Education Code § 51.931, will be evaluated on only the grade point average of the coursework completed for that baccalaureate degree and the other criteria stated herein.

**Procedures for Teacher Certification (Standard or Supplemental) at the Graduate Level**

An applicant who desires to work on teacher certification requirements and holds a bachelor’s degree should apply either as a graduate degree-seeking student or special graduate student (not special undergraduate student) to the Graduate Program Committee for the M.A. in Education for certification, other than Bilingual Education and English as a Second Language. Applicants who desire to work on these certificates should apply for admission as either a graduate degree-seeking student or special graduate student to the Graduate Program Committee for the M.A. in Bicultural-Bilingual Studies. A student who is simultaneously seeking a master’s degree in education should apply for admission to the M.A. in Education Program or the M.A. in Bicultural-Bilingual Studies Program.
When admission has been granted, the student should apply to the College of Education and Human Development Advising and Certification Center for an analysis of his or her transcripts and for an official outline of a program that will ensure meeting the requirements to obtain a teacher’s certificate or a certificate endorsement. In some cases it may be possible to meet certification requirements within a degree program; in other cases the student may need to take additional work for the certificate beyond that required for the graduate degree. The completion of degree requirements does not guarantee completion of Texas certification requirements. The student’s program advisor and the College of Education and Human Development Advising and Certification Center will assist the student in planning an appropriate program of study.

Any student seeking a teaching certificate in the state of Texas must pass the Texas Higher Education Assessment (THEA) test. For further information on the THEA requirement and exemptions for teachers, a student should contact the College of Education and Human Development Advising and Certification Center.

Recommendations for teacher certification (to the Texas Education Agency) are made by the College of Education and Human Development Certification Officer only after all requirements have been met and the student has officially requested such recommendation.

A brochure summarizing education certificate and endorsement requirements is available from the College of Education and Human Development Advising and Certification Center.

Programs are subject to change without notice due to changes in the state’s certification and/or program approval requirements.

**Declaration of Previous College Work Attempted**

Students are not at liberty to disregard previous college work attempted. All students applying to UTSA must list all colleges attended on their UTSA application for admission. Failure to do so may result in the rejection of the application, withdrawal of any offer of acceptance, cancellation of enrollment, permanent dismissal from the University, or other appropriate disciplinary action.

**APPLICATION DATES**

**Master’s Level**

Applicants for admission as master’s degree-seeking, special, or non-degree-seeking students may apply for admission as early as nine months before the beginning of the semester in which they wish to begin graduate study. Because of the time needed to prepare graduate summaries, students are encouraged to have their admission file completed at least one month before the application deadline. Application forms and instructions are available on the Graduate School Web site at www.utsa.edu/graduate/ or from the Graduate School. The completed application form, a nonrefundable application fee, and all required supporting documents must be on file with the Graduate School by the appropriate application deadline. Application fees are assessed as follows:

<table>
<thead>
<tr>
<th>UTSA Graduate Nonrefundable Application Fees</th>

*Some master’s programs may have priority application deadlines. Please contact the graduate program department or visit the Graduate School Web site at www.utsa.edu/graduate/ for more information.

**Doctoral Level**

The deadline for doctoral applicants is February 1. Students enrolling in cooperative or joint programs between UTSA and other institutions must satisfy admission dates (and procedures) of the other institutions as well as those of UTSA. Applicants failing to submit all required admission documents by the doctoral admission deadline will need to reapply for the following year. Doctoral students are admitted for the Fall semester only.

**ADMISSION PROCEDURES**

Each applicant for admission is responsible for ensuring that all required application materials (completed application form, nonrefundable application fee, test results, required transcripts, etc.) are on file in the Graduate School by the admission deadlines. Admission is not granted until the applicant’s file is complete. Documents submitted in support of an application become the property of UTSA and cannot be returned.

Students who apply for admission to a master’s program at UTSA for any semester and do not register for courses within a year of being admitted must reapply for admission if they wish to enroll at a later date. Doctoral students who are admitted but do not register for courses during the semester of their admittance will need to reapply. Any subsequent application for admission must be in accordance with current admission requirements. New transcripts, test scores, and other supporting documents are required after one year, since files for admitted students who do not register for courses are not retained after that period. (See program descriptions in Chapter 6, Graduate Program Requirements and Course Descriptions, for specific program admission requirements.)

**READMISSION**

**Master’s Level**

UTSA master’s students who have not been in attendance for two full years must file an application for graduate admission, along with a nonrefundable application fee (see application fee table), by the application deadline.

**Doctoral Level**

UTSA doctoral students who have not been in attendance for one year must file an application for graduate admission, along with a nonrefundable application fee (see application fee table), by the application deadline.
Master’s and doctoral level students returning to UTSA who have attended other institutions of higher education since they were last enrolled at UTSA must submit an official transcript from each institution. Eligibility for readmission of any former student depends on the student’s academic status at the conclusion of the last UTSA semester of enrollment and performance on any subsequent college or university work attempted. Readmission must be recommended by the appropriate Graduate Program Committee.

Students who withdrew from the University to perform military service (not including Texas National Guard training exercises) will not have to requalify for admission and will be readmitted upon request made within one year of being released from active military service. A returning student may be eligible for the same financial assistance provided before the student’s withdrawal.

GENERAL ACADEMIC REGULATIONS

REGISTRATION PROCEDURES

Academic Advising

UTSA views sound academic advising as a significant responsibility in educating its students. Academic advisors assist students in developing intellectual potential and exploring educational opportunities and life goals. Many individuals within the UTSA community contribute to the advising process, including faculty and staff academic advisors. Students also are encouraged to develop mentoring relationships with faculty for additional information and support.

Students are responsible for seeking adequate academic advice, for knowing and meeting degree requirements, and for enrolling in appropriate courses to ensure orderly and timely completion of their degree programs. Frequent advisor contact provides students with current academic information and promotes progress toward educational goals.

For more information on academic advising in their departments, graduate students should contact the Graduate Advisor of Record.

Registration for Classes

Students who attend classes at UTSA must be officially registered or approved to audit a course. Registration instructions are online each semester in ASAP at https://asap.utsa.edu. Questions regarding registration should be directed to the Enrollment Services Center or the Office of the Registrar.

UTSA does not guarantee the availability of particular courses or sections, and admission to classes is permitted only until the maximum number of students allowable in any section has been reached. UTSA reserves the right to cancel any course or section in which the number of registrants does not warrant its continuation.

A student is not permitted to register for classes offered in two consecutive time periods on different campuses, one at the 1604 Campus and the other at the Downtown Campus, unless there is at least a 40 minute period of time between the end of the first class and the beginning of the second class or the student has received special permission from the Dean of the college of his or her major to register for the two consecutive classes. A student in violation of this policy will have the class scheduled in the second of two consecutive time slots automatically dropped by the University.

Late Registration

Late registration permits students who have been admitted to UTSA to register for classes during an allotted time just prior to and at the beginning of the semester as indicated each semester in the online registration calendar in ASAP at https://asap.utsa.edu. Since many courses will have been closed at capacity, late registrants may need to select their courses from a reduced schedule. Students are not permitted to register after the close of the late registration period, except in extenuating circumstances. See the section Adding Courses After Late Registration.

Adding Courses After Late Registration

Adding a course after the late registration period requires the approval of the course instructor and the chair of the department offering the course. After the Census Date in any semester, students may not add courses except in extremely rare and extenuating circumstances as approved by the Dean of the college offering the course and by the Dean of the Graduate School. For information on Census Date and deadlines for adding classes, students should refer to the University Calendar or the online registration calendar for each semester.

Undergraduates seeking to register for or to add a graduate course in any of these time periods must obtain the special approvals specified in the section Enrollment in Graduate Courses in Chapter 1, Bachelor’s Degree Regulations, of the UTSA Undergraduate Catalog.
Maximum Hours of Enrollment in Summer Terms

The Texas Higher Education Coordinating Board sets limits on the number of semester credit hours in which a student may enroll during a term where the courses are offered in a shortened format. Therefore, students may enroll in no more than 3 semester credit hours in a three-week summer term, no more than 4 semester credit hours in a four-week summer term, and no more than 6 semester credit hours in a five-week summer term. In particular, a student may enroll in no more than 3 semester credit hours in the May Mini-mester.

Three-Attempt Rule

The Texas Legislature has enacted legislation that does not allow universities to receive state funding for courses containing the same content attempted by a student more than twice at the same Texas state-supported institution of higher education. This regulation not only includes completing a class more than twice, but also includes classes where grades of “W” were earned by withdrawing from classes or dropping a class after the official semester Census Date (see the online registration calendar for specific Census Dates for each semester).

There is now a monetary benefit if students complete classes prior to the third attempt; therefore, it is imperative that students make every effort to complete courses successfully the first time. Upon the third or subsequent attempt to take the same course at UTSA, a surcharge per semester credit hour will be assessed by UTSA for courses that fall into this category. This surcharge will be in addition to the regular in-state per semester credit hour tuition rate. Current tuition, fees, and charges schedules can be accessed on the Fiscal Services Web site at www.utsa.edu/fiscalservices/. The three-attempt rule applies to both undergraduate and graduate students; however, out-of-state students who pay the out-of-state rate would not be subject to the surcharge; out-of-state students with fee waivers or who are exempt from paying the out-of-state rate would be assessed the surcharge at the same rate as in-state students.

The Texas Legislature has mandated that students be held accountable for any courses they have taken beginning with the Fall 2002 Semester (this means that the “course count” begins with courses taken or dropped after Census Date beginning with the Fall 2002 Semester). However, certain classes will be exempt from this rule, such as master’s thesis, dissertation, independent study, and special topics courses with differing content. Students who, in their final semester or term prior to graduation, must repeat one or more previously completed courses for the second or more times in order to meet graduation requirements, will be exempt from paying higher tuition for the repeated course(s) only in the semester or term prior to graduation and shall be permitted the exemption from paying higher tuition for the repeated course(s) for only one semester. Those students wishing to apply for this exemption need to go through the appeal process described below.

Graduate students wishing to appeal a charge because of the three-attempt rule may complete an appeal form available in the Graduate School.

Dropping Courses

Students may drop courses from their schedules for a limited time each semester. The online registration calendar for each semester indicates the deadlines for students to drop courses each term.

Courses officially dropped before the Census Date do not appear on a student’s transcript. See the online registration calendar each semester for Census Dates.

Students who drop courses between the Census Date and the Automatic “W” Date have a record of the courses on their transcripts with an automatic grade of “W.” See the online registration calendar for the Automatic “W” Date. The change becomes official after it is processed by the Office of the Registrar.

It is the student’s responsibility to drop a course by the appropriate deadline. If a student fails to drop a course, even if the student does not attend the course, he or she will receive a grade of “F” in the class.
Faculty and staff will not drop a student from a course automatically for nonattendance; the student must initiate the process and complete any necessary steps to ensure that the class is dropped.

Under certain circumstances, students may be dropped from courses administratively by college deans. Students who do not meet course prerequisites or who fail to attend a course prior to Census Date may be dropped from courses. If a dean determines that a student should be dropped from a course for these or other documented circumstances, the student will be notified by the college overseeing the course. Students cannot assume that they will be automatically dropped from any class for failure to attend or failure to pay tuition and fees. Students are still responsible for dropping courses by the official deadline or they will receive a grade of “F” in the class. Students are responsible for checking their schedules on ASAP and for checking their official UTSA email accounts to determine if they have been dropped from class.

After the Automatic “W” Date, a student may not drop a course except with the approval of the Dean of the college in which the course is offered and then only for urgent and substantiated, nonacademic reasons. Students who want to drop all classes after the semester begins should refer to the section Withdrawal from the University in this chapter.

Refer to section, Three-Attempt Rule, in this chapter for information about the financial consequences of receiving “W” grades.

Auditing Courses

UTSA students and nonstudents who wish to audit a course may do so with the approval of the instructor and the chair of the department in which the course is offered, provided there is space in the classroom after all registered students have been accommodated. The minimum enrollment in a course must be reached without auditors.

Auditing entitles a student to listen and observe. Participation of an auditor in class is at the discretion of the instructor. No UTSA credit is granted for courses that are audited; no official record is made of enrollment in classes on an audit basis. Due to the format of studio/laboratory use, auditors are not approved for art courses. Students not enrolled in courses at the University are not allowed to audit courses that require the use of the University computing system.

All auditors must submit an Audit Course Form to the Enrollment Services Center. A UTSA student pays an auditing fee of $25 per course. Auditors who are not registered UTSA students must pay an auditing fee of $50 per course. Persons over 65 years of age are permitted to audit without paying an auditing fee.

Permission to audit must be obtained and fees paid beginning the first day of class through the Census Date. Students who register for a course and later want to change the course to an audit must officially drop that course before submitting an Audit Course Form.

Nonstudent auditors who want library privileges may receive them by completing a Friends of the UTSA Library application at the circulation desk in the UTSA Library and paying a nonrefundable fee. There are limits on the services offered to Friends of the UTSA Library cardholders; further details are available from the circulation desk.

Nonstudent auditors who want UTSA parking privileges must register their vehicles and purchase a parking permit. To purchase a parking permit, the nonstudent auditor should go to the University Parking and Transportation Services Office with their validated Audit Course Form.

Cancellation of Enrollment

Students who fail to fulfill admission, registration, or financial requirements, or who otherwise fail to adhere to academic regulations may have their enrollment for the semester cancelled. Students may apply for readmission for a subsequent semester provided they have resolved the cause of cancellation.
Withdrawal from the University

Continuing students who wish to withdraw (drop all courses for which they are enrolled during a specific semester) from the University before the first class day of the Fall or Spring Semester may do so via ASAP. Students who wish to withdraw from the University before the start of Summer classes may withdraw via ASAP through the Friday prior to the start of the May Mini-semester. All other Summer withdrawals must be completed as stated in the following paragraph.

Students who find it necessary to withdraw (drop all courses for which they are enrolled during a specific term) from the University after the term begins must complete a Withdrawal Form at the Enrollment Services Center.

Students may not withdraw from the University later than the third class day preceding final examinations in the Spring and Fall Semesters. Students who officially withdraw from the University during the regular drop period, from the day after Census Date through the Automatic “W” Date, receive a grade of “W” in all classes. See the online registration calendar each semester for information on the Automatic “W” Date. Students who officially withdraw after the regular drop period receive a grade of “W” for each class they are passing at the time of withdrawal and a grade of “F” for each class they are not passing. Refer to section, Three-Attempt Rule, in this chapter for information about the financial consequences of receiving “W” grades.

Students who withdraw from all classes are subject to the University’s academic probation and dismissal regulations. Students withdrawing should refer to the regulations on refunds of tuition and fees, readmission policies, and requirements for maintaining registration.

Withdrawal for Military Service

A student who withdraws as a result of being called to active military service may choose (1) to receive a refund of tuition and fees for the semester; (2) if eligible, to be assigned an incomplete (IN) in each course (refer to section Explanation of Credit, Grading System, and Symbols in this chapter); or (3) at the instructor’s discretion, to receive a final grade in courses where he or she has completed a substantial amount of coursework and has demonstrated sufficient mastery of the course material.

Medical and/or Mental Health Withdrawal from the University

Students who find it necessary to withdraw from the University or reduce their course loads (drop some of their courses) after the term begins due to a medical or mental health issue may write a letter requesting the withdrawal or course load reduction and provide appropriate supporting documentation (for example, a letter from a physician or psychologist, hospital, or other medical professional who is already familiar with the student’s condition). The documentation should be submitted to Health Services for medical conditions and Counseling Services for mental health conditions. Once supporting documentation is reviewed by the service in question, that service will provide the documentation with recommendations to the Dean of Undergraduate Studies if the student is an undergraduate student, or the Dean of the Graduate School if the student is a graduate student.

A student granted a medical and/or mental health withdrawal or course load reduction will be assigned grades of “W” in the affected courses, unless the effective date of the withdrawal or course load reduction is on or before Census Date, in which case no record of the courses appears on the student’s transcript. Any refund of tuition and fees will follow the University’s Refund Policy for Withdrawal or Dropped Courses (chapter 3 of the UTSA Information Bulletin) at the time of the effective date of the withdrawal or course load reduction.

English Language Assessment Procedure

The English Language Assessment Procedure (ELAP) is a mandatory UTSA assessment for incoming international students whose Test of English as a Foreign Language (TOEFL) scores are between 500 and 600 (paper version) or 61 and 100 (Internet version). ELAP tests academic language skills in the areas of reading, writing, listening, and speaking. The test is administered during orientation week at no charge to the student. A registration hold is placed on students until the test is successfully completed.
Students who are required to take English for International Students (EIS) classes and do not register for them or drop them before they are successfully completed will be withdrawn from the University and will jeopardize their visa status. Once students successfully complete the EIS classes, the registration hold is removed from their record.

**RECORDS AND CLASSIFICATION OF STUDENTS**

**Classification Terms**

*Graduate Degree-Seeking Student.* A student who is admitted to a graduate degree program, unconditionally, conditionally, or conditionally on academic probation.

*Special Graduate Student.* A student who is admitted to UTSA for the purpose of enrolling in graduate and/or undergraduate courses in one or more colleges of the University without entering a degree program.

*Non-Degree-Seeking Graduate Student.* A student who registers for courses but does not intend to work toward a degree at UTSA.

Note: A graduate student who wishes to work on a program to meet the requirements for teacher certification or for a certificate endorsement must be admitted as a graduate degree-seeking student or special graduate student (not a special undergraduate student). He or she must apply to the College of Education and Human Development Advising and Certification Center for an official analysis of the requirements that must be met before he or she can be recommended for certification.

**Time Status Terms**

<table>
<thead>
<tr>
<th>Graduate Time Status</th>
<th>Fall/Spring</th>
<th>Summer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full time</td>
<td>Nine or more semester credit hours</td>
<td>Five or more semester credit hours</td>
</tr>
<tr>
<td>Three-quarter time</td>
<td>Six to eight semester credit hours</td>
<td>Not applicable</td>

<td>Four to five semester credit hours</td>
<td>Three to four semester credit hours</td>
</tr>
<tr>
<td>Less than half time</td>
<td>Fewer than four semester credit hours</td>
<td>One to two semester credit hours</td>
</tr>
</tbody>
</table>

**Verification of Enrollment and Degree**

UTSA student enrollment and degree verifications are reported by the National Student Clearinghouse (NSC). For students on financial aid this means that UTSA electronically submits enrollment verification statuses to the NSC at several key periods during the semester to keep their enrollment status up to date with loan guarantors, services, or lenders. The NSC also provides enrollment status and deferment information to the Department of Education’s National Student Loan Data System. This service provides for more efficient processing of enrollment information for financial aid loans.

The NSC also provides enrollment and degree verification for nonlending institutions, such as travel agencies, health care companies, and prospective employers. Students who do not want to have their directory information, such as enrollment and degree status, verified in this manner should contact the Office of the Registrar to request that this information be kept confidential.

**Transcripts**

Official transcripts of all coursework taken at UTSA may be requested at the Enrollment Services Center or online. See the UTSA Web site at www.utsa.edu/registrar/transcripts.cfm for details on how to request a transcript.
While enrolled at UTSA, students who attend other colleges are required to submit official academic transcripts to Graduate Admissions from every college attended at the end of the semester during which coursework was undertaken, even if courses have been withdrawn. This includes concurrent enrollment while attending UTSA. Failure to do so may result in the rejection of the transcript request, cancellation of enrollment, permanent dismissal from UTSA, or other appropriate disciplinary action. Transcripts from other institutions submitted to UTSA become the property of the University and are not reproduced or mailed to other institutions, agencies, or individuals as an official transcript.

Official transcripts will not be issued for students who have a financial obligation or other commitment outstanding to the University until the obligation is cleared.

**Release of Academic Records**

All official certifications with regard to the academic performance or status of a student or former student of UTSA are made by the Office of the Registrar.

UTSA transcripts and other information from a student’s academic record are released by the Office of the Registrar only upon written request from the student or other person authorized by law under the Family Educational Rights and Privacy Act (FERPA) of 1974. Exceptions may be made in response to a subpoena or court order, under other circumstances as allowed under FERPA, or as provided in the policy on releasing directory information set forth in chapter 5, Administrative Policies and Procedures, of the *UTSA Information Bulletin*. 

**Catalog of Graduation**

Graduate students have six years from their term of original registration as degree seeking to complete a graduate degree program under the catalog in effect at the time of initial registration at UTSA, provided they are continuously enrolled at UTSA. If a student drops out for one or more long semester (Spring or Fall), he or she has the option of reenrolling under a subsequent catalog. These students will have six years to complete degree requirements under the new catalog. In the event that certain required courses are discontinued, substitutions may be authorized or required by the appropriate Graduate Program Committee.

Degree requirements may be changed from one catalog to the next. The student is normally bound by the requirements of the catalog in force at the time of his or her first registration; the student may choose, however, to fulfill the requirements of a subsequent catalog, with approval of the Graduate School.

**Change of Major, Degree, or Classification**

Students who wish to change their majors, degree objectives, or classifications can access the required forms on ASAP. The change is not official until the student is admitted to the new degree program or certification program. Classification changes (e.g., special graduate to degree-seeking) requested during any semester will not be effective until the following semester. A fee of $5 is assessed each student changing their major to defray administrative processing costs.

**Change of Name**

A student’s name on official records at UTSA is the name under which the student applied for admission, unless a Name and ID Number Change Form has been processed through the Office of the Registrar. The official University transcript will carry the current name and the most immediate previous name, if any. Name and ID Number Change Forms should be supported by appropriate legal documentation.

**Change of Address**

Currently enrolled students who have changed their addresses must notify the Graduate School on the appropriate form or on the UTSA Web site in ASAP at https://asap.utsa.edu. Official notification of change of address is necessary for proper identification.
of student records and for accurate mailing of correspondence and information pertaining to graduation requirements. Students who are applying for graduation will specify on the Application for Graduation the address where their diploma is to be mailed. This does not change the official mailing address with the University.

COURSES

Course Numbering System

All courses are designated by four-digit numbers following a two- or three-letter abbreviation of the subject of the course. The first digit indicates the level of the course. Courses beginning with “0” are developmental education courses and may not be counted toward a degree. Courses beginning with “1” or “2” are lower-division (freshman and sophomore level). Courses beginning with “3” or “4” are upper-division (junior and senior level). Courses beginning with a “5” or higher are graduate-level courses.

The second and third digits in the course numbers are used within the colleges by each department to distinguish individual courses. The fourth digit indicates the semester-credit-hour value of each course.

The number of lecture and laboratory contact hours per week are provided in parentheses in the course description sections of the UTSA Graduate Catalog immediately following the course number and title. For example, (3-0) indicates three hours of lecture and zero hours of laboratory per week.

Prerequisites

Prerequisites are stated for many courses listed in this catalog. Prerequisites advise students of the background expected of all students in the course. It is the student’s responsibility to be sure that all prerequisites are met before enrolling in any course. When a student has not met the specific prerequisites listed, he or she may, under special conditions, obtain permission to register from the instructor of the course. Some colleges may also require the permission of the Department Chair and the Associate Dean. Students who do not meet prerequisites for a course and do not have the appropriate permissions to register may be dropped from the course.

Extended Education Courses

The Office of Extended Education develops and presents seminars, online courses, conferences, and programs for the general public, professionals, governmental agencies, and businesses. It also provides specialized training to businesses, government agencies, and nonprofit organizations needing customized programs for their employees. These courses are not offered for academic credit. For information, contact the Office of Extended Education.

Distance Learning Courses

UTSA participates in the UT TeleCampus. Degree-seeking UTSA students taking courses through this system, that are not hosted by UTSA, must still meet all UTSA residence requirements. For information on the UT TeleCampus, see chapter 6, Academic Resources and Student Services, of the UTSA Information Bulletin or the UT TeleCampus Web site at www.telecampus.utsystem.edu.

Independent Study Courses

No more than six hours of independent study courses or directed research, regardless of discipline, will apply toward a degree.
GRADES

Explanation of Credit, Grading System, and Symbols

**Hours Attempted.** The number of hours attempted is the total number of semester credit hours for which a student has enrolled and received grades of “A,” “B,” “C,” “D,” “F,” “W,” or “CR” except as provided for repeated courses. Refer to section, Three-Achievement Rule, in this chapter for information about the financial consequences of receiving “W” and “F” grades.

**Hours Earned.** The hours earned by a student are the number of semester credit hours in which grades of “A,” “B,” “C,” “D,” or “CR” have been received.

**Grade Point Average.** The UTSA grade point average is determined by dividing the number of grade points earned at UTSA by the number of for-credit semester credit hours attempted at UTSA. Credits and grades for work completed at other institutions or credits earned by examination are not included in the UTSA grade point average.

Students who are in a UTSA-hosted degree program through the UT TeleCampus and declare UTSA as their home institution will have the courses taken at other institutions through the UT TeleCampus listed on their UTSA transcript and counted in their UTSA grade point average. Other credit courses taken through the TeleCampus count as transfer credit and apply to a UTSA degree as determined by the student’s academic advisor.

The following table explains UTSA grade symbols.

<table>
<thead>
<tr>
<th>Grade Symbol</th>
<th>Grade Points</th>
<th>Meaning of Grade Symbol</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>
<td>Outstanding</td>
</tr>
<tr>
<td>B</td>
<td>3</td>
<td>Above Average</td>
</tr>
<tr>
<td>C</td>
<td>2</td>
<td>Average</td>
</tr>
<tr>
<td>D</td>
<td>1</td>
<td>Below Average (see Academic Probation)</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
<td>Failure (see Academic Dismissal)</td>
</tr>
<tr>
<td>CR</td>
<td>0</td>
<td>Credit. Indicates successful credit by examination (see Credit by Examination) or through faculty evaluation of selected internships and practica.</td>
</tr>
<tr>
<td>NC</td>
<td>0</td>
<td>No Credit. Indicates unsatisfactory progress.</td>
</tr>
<tr>
<td>W</td>
<td>0</td>
<td>Withdrawal. Indicates that the student was passing at the time of withdrawal or drop.</td>
</tr>
<tr>
<td>IN</td>
<td>0</td>
<td>Incomplete. Assigned at the discretion of the instructor; see details below.</td>
</tr>
<tr>
<td>NR</td>
<td>0</td>
<td>No Report. Assigned only by the Registrar when unusual circumstances do not allow a student’s grade to be entered by the deadline for processing grades. It is replaced with the official grade as soon as possible.</td>
</tr>
<tr>
<td>EX</td>
<td>0</td>
<td>Expelled</td>
</tr>
<tr>
<td>RP</td>
<td>0</td>
<td>Research in Progress. Used to denote research in progress only for MOT 6933, MUS 6903, MUS 6913, and Master’s Thesis and Doctoral Dissertation courses. When the project, thesis, or dissertation is complete, the “RP” grades will be changed to letter grades up to the maximum number of semester credit hours approved for the specific degree.</td>
</tr>
</tbody>
</table>

**Credit/No-Credit.** Students may earn “CR” or “NC” grades only for specific courses listed in this catalog as graded on a credit/no-credit basis.

**Incomplete.** The grade “IN” is given by an instructor to indicate that some part of the work of a student in a course has, for good reason, not been completed, while the rest of the student’s work in the course was satisfactorily completed. The Incomplete allows a student to complete the course without repeating it. A grade of Incomplete may not be assigned when a definite grade can be given for the work done. The student must have been in attendance at least three-fourths of the term to receive a grade of “IN.”
Whenever a grade of Incomplete is assigned, the instructor is required to submit requirements for removal of the Incomplete. During the regular grading period this is done electronically. After the grade submission deadline, a Requirements for Removal of Incomplete form must be submitted to the Dean’s office. The Dean’s office will then submit the form to the Office of the Registrar.

Incomplete work must be made up no later than the end of the final examination period one year from the semester the Incomplete was received and before the student’s graduation. If the work is not completed within this time, the “IN” remains on the student’s record, and credit may be earned only when the student reenrolls in the course and completes the entire course satisfactorily. The time limit does not apply to graduate-level thesis, internship, or dissertation courses, except that an “IN” cannot be removed after a degree is awarded. The time limit does apply to all other graduate courses, including special problems and independent study courses.

IN NO CIRCUMSTANCES WILL GRADES BE CHANGED AFTER ONE CALENDAR YEAR.

Repeating Courses

Courses designated “may be repeated for credit” in the catalog may be repeated with both semester credit hours and grade points earned being counted. Otherwise, students at the graduate level may not elect to repeat courses for the purpose of raising a grade. However, when a course was taken more than six years ago, or upon the recommendation of the appropriate Graduate Program Committee, the course may be repeated; in such cases, both grades in the course appear on the transcript and both are counted in the student’s grade point average. Only semester credit hours for the repeated course may be counted toward the degree.

Administrative Procedures

Reporting of Grades by Faculty

Final grades are reported by course instructors every term and are due 48 hours after the final examination. Final grades cannot be withheld nor can reporting of them be deferred.

Grade Reports

The Office of the Registrar compiles final grades after the close of each semester and each summer term. Grades are available in ASAP via UTSA’s Web site, www.utsa.edu. Students who are removed from, placed on, or continued on academic probation and students who are dismissed from UTSA will receive notification from the Office of the Registrar.

Transcripts may be withheld from any student who owes tuition and fees to the University.

Change of Grades

Individual faculty members retain primary responsibility for assigning grades and evaluations. The faculty member’s judgment is final unless compelling evidence shows discrimination, differential treatment, or factual mistake. Under unusual circumstances, however, grades may be assigned or changed by someone other than the faculty member. Grades may be changed or assigned through administrative channels in the following procedure:

1. Circumstances when an assigned grade of “A,” “B,” “C,” “D,” or “F” might be changed. In this case, the formal appeals process stated in the catalog must be initiated by the student. Because a grade change of this type is related directly to issues of academic freedom, a committee composed of qualified faculty should be appointed by the appropriate Graduate Program Committee to assess the academic merits of the appeal. The committee report should weigh heavily in the subsequent administrative review by the Department Chair, College Dean, and Graduate School Dean. Grades may be changed only if compelling evidence demonstrates discrimination, differential treatment, or factual mistake.

2. Circumstances when an assigned grade of “IN” or “NC” might be changed. Under unusual circumstances, a faculty member of record may be unable to assign grades in a timely manner. Examples include death or incapacitation of a faculty
member; a faculty member who permanently leaves the University and refuses or fails to respond; and a faculty member who is on leave and cannot be reached.

Additional work performed by a student may not be used to raise a grade that has been reported to the Office of the Registrar.

IN NO CIRCUMSTANCES WILL GRADES BE CHANGED AFTER ONE CALENDAR YEAR.

Class Participation Policy

Students are expected to regularly attend and participate in all meetings of courses for which they are registered. The instructor is responsible for communicating the participation requirements for each course to students. With the exception of UTSA policies on class absences related to observance of religious holy days, active military service, or attendance at an official University sanctioned student activity, the instructor determines classroom participation requirements and policies on making up work missed during an absence.

Students may be excused from attending classes or other required activities, including examinations, to attend an official University sanctioned student activity (as defined in the Handbook of Operating Procedures) or for the observance of a religious holy day, including travel for that purpose. A religious holy day is a day observed by a religion whose places of worship are exempt from property taxation under § 11.20, Tax Code. A student whose absence is excused for attending an official University sanctioned student activity or for religious holy day reasons may not be penalized for the absence and shall be allowed by the instructor to take an examination or complete an assignment from which the student is excused within a reasonable time after the absence.

Students may be excused from attending classes or engaging in other required activities, including examinations, in order for the student to participate in active military service to which the student is called, including travel associated with the service. A student whose absence is excused under the Texas Education Code, § 51.9111, may not be penalized for the absence and shall be allowed by the instructor to complete an assignment or take an examination from which the student is excused within reasonable time after the absence. The excused absence is permitted only if the student will not miss more than twenty-five percent of the total number of class meetings or the contact hour equivalent (not including the final examination period) for the specific course or courses in which the student is enrolled at the beginning of the period of active military service (19 Texas Administrative Code, § 4.9).

If a student has to miss class excessively due to illness or other unforeseen circumstances, it is his or her responsibility to notify the instructor as soon as possible. A student who enrolls in a course and does not attend is considered absent from class until they officially drop the course. A student who does not attend class and fails to drop the course by the specified deadline listed in the online registration calendar will receive a grade of “F.” Refer to section, Three-Attempt Rule, in this chapter for information about the financial consequences of receiving “W” or “F” grades.

Academic and Grade Grievance Procedure

In resolving any student grievance regarding grades, evaluations or other academically-related concern or incident regarding a faculty member, the student must first make a serious effort to resolve the matter with the faculty member with whom the grievance originated. It is University policy that individual faculty members retain primary responsibility for assigning grades and evaluations. The faculty member’s judgment regarding grades and evaluations is final unless compelling evidence shows discrimination, differential treatment, factual mistake, or violation of a relevant University policy. In resolving a student grievance regarding other academically-related issues involving a faculty member, the student must follow the same process as used when grieving a grade or evaluation. If the matter is not resolved, the student may file a formal grievance, in writing, with the Department Chair. The student must file the grievance with the Department Chair within 90 calendar days from the end of the semester in which the grade was assigned or the other concern or incident occurred.

The Department Chair will communicate his or her decision to the student and forward a copy to the Dean of the College. The student may appeal the decision to the Dean of the College and then, if an undergraduate student, to the Dean of Undergraduate Studies, and if a graduate student, to the Dean of the Graduate School. Appeals must be submitted on the Student Academic
and Grade Grievance Form. The decisions of the Deans of Undergraduate Studies and the Graduate School are final. The administrator handling the appeal at each level will notify individuals involved, including those who have already ruled on the appeal, once a decision has been rendered.

IN NO CIRCUMSTANCES WILL GRADES BE CHANGED AFTER ONE CALENDAR YEAR.

Student Study Days

At the end of each Fall and Spring Semester, two days prior to the beginning of the final examination period are designated as Student Study Days. Classes do not meet during Student Study Days. Furthermore, Student Study Days are not to be used as dates on which papers are to be turned in, examinations are to be given, quizzes are to be scheduled, review sessions are to be held, or for any other class-related activities, other than office hours. Also, the scheduling of examinations and quizzes, with the exception of laboratory examinations, is prohibited during the last three class days preceding finals during the Fall and Spring Semesters.

ACADEMIC STANDING

A student’s academic standing, whether the student is a doctoral student, a graduate degree-seeking student, a special graduate student, or a non-degree-seeking graduate student, is defined as good standing, academic probation, or academic dismissal.

Good Standing

Good standing is the absence of any contingency that would result in the student’s being on academic probation or academic dismissal.

Academic Probation

Academic probation describes the standing of a student at the graduate level who is in one of the following categories:

1. A student who fails to achieve a grade point average in any term at UTSA of 3.0 or higher, irrespective of level of courses taken.
2. A student who received a grade of “D” in any course in a term.
3. A student who does not meet all requirements for unconditional or regular admission and who, by special action, is admitted on academic probation.
4. A student who has been reinstated following academic dismissal.
5. To graduate, all graduate students must have a grade point average of at least a 3.0 (on a 4.0 scale).

Academic probation is cleared only when none of the above criteria apply and when the student achieves an overall grade point average of 3.0 as a graduate student at UTSA. Students on academic probation are encouraged to discuss their status with their academic advisors.

Academic Dismissal

Academic dismissal occurs:

1. when a student at the graduate level earns a grade point average of less than 2.0 in any term
2. when a student at the graduate level earns a grade of “F” in any course
3. when a student at the graduate level is admitted on probation with conditions and fails to meet a condition
4. when a student at the graduate level who is on academic probation during a term would again be placed on academic probation under the provisions of academic probation set forth above. If, however, the student’s UTSA grade point average for the term is at least 3.0, he or she will continue on academic probation.
Graduate Reinstatement

A student who has been dismissed academically may petition for reinstatement after one long semester (Fall or Spring) has elapsed from date of dismissal. Under exceptional circumstances, a petition may be considered earlier. A letter containing all explanations, recommendations, or doctors’ statements in support of the student’s request for reinstatement should be submitted to the Dean of the Graduate School on or before June 15 for Fall Semesters, October 15 for Spring Semesters, or March 15 for Summer Semesters.

The Graduate School prepares the petition for reinstatement and submits it to the Department’s Graduate Program Committee. The Graduate Program Committee will review the petitioner’s letter and academic record and make a recommendation concerning reinstatement to the Dean of the Graduate School. If the Petition for Reinstatement is disapproved, the student may not file another petition until the following semester.

GRADUATION

Graduation Dates

Degrees are awarded at the end of each Spring, Summer, and Fall Semester. Commencement ceremonies are held in May and December at the end of the Spring and Fall Semesters. With the exception of doctoral students, students who graduate at the end of the Summer Semester may participate in either the May or the December Commencement ceremony. Doctoral students may participate in the December Commencement ceremony.

Doctoral students may participate in commencement ceremonies only after completing all requirements for graduation, including the successful defense of the dissertation and subsequent acknowledgement by the Graduate School of all required documentation. Specifically, a doctoral student intending to graduate in the Summer Term and who has not completed the successful defense of the dissertation and filed the appropriate documentation with the Graduate School may not participate in the Spring Commencement ceremony. Summer Term graduates are welcome to participate in the December Commencement ceremony following their Summer Term graduation.

Information regarding Graduation and Commencement is available at http://www.utsa.edu/registrar/graduation.cfm.

Applying for the Degree

It is the student’s responsibility to officially apply for his or her degree by submitting an Application for Graduation online through ASAP. Students must read and follow instructions carefully to ensure the application is accurate and successfully submitted. When the application has been accepted, students receive a confirmation number. Students having problems submitting the application should contact Graduation Coordination at graduationcoordination@utsa.edu.

While enrolled at UTSA, students who attend other colleges are required to submit official academic transcripts to Graduate Admissions from every college attended at the end of the semester during which coursework was undertaken, even if courses have been withdrawn. This includes concurrent enrollment while attending UTSA. Failure to do so may result in the rejection of the graduation application, cancellation of enrollment, permanent dismissal from UTSA, or other appropriate disciplinary action.

The following are deadlines for submitting an application for graduation. Dates are for the semester in which the student expects to graduate:

- September 15 for the Fall Semester
- February 15 for the Spring Semester
- June 15 for the Summer Semester
  - Summer candidates wishing to participate in the May ceremony must apply by February 15.
Students who apply for the degree in a given semester but do not fulfill all requirements must file a new degree Application for Graduation online through ASAP on or before the appropriate deadline for the next semester in which they intend to graduate.

A student who completes all degree requirements but fails to apply for the degree may obtain a Letter of Degree Awarded from Graduation Coordination after the close of the semester in which all degree requirements are met.

Students who receive services from the University, including faculty supervision, during the semester in which they have applied to graduate must enroll for that semester.

**ACADEMIC HONESTY**

**Ethical Standards**

The University can best function and accomplish its objectives in an atmosphere of high ethical standards. All students are expected and encouraged to contribute to such an atmosphere in every way possible, especially by observing all accepted principles of academic honesty. It is recognized, however, that a large university will include a few students who do not understand, appreciate, or practice these principles. Consequently, alleged cases of academic dishonesty involving UTSA students will inevitably occur.

Academic or scholastic dishonesty includes, but is not limited to, cheating, plagiarism, collusion, the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student, or the attempt to commit such acts. Academic dishonesty is a violation of the Student Code of Conduct and is addressed in the *UTSA Information Bulletin*, Appendix B, Sec. 203.

Students are not at liberty to disregard previous college work attempted. All students transferring to UTSA must list all colleges attended on their UTSA application for admission. While enrolled at UTSA, students who attend other colleges are required to submit official academic transcripts to Graduate Admissions from every college attended at the end of the semester during which coursework was undertaken, even if coursework has been withdrawn. This includes concurrent enrollment while attending UTSA. Failure to do so may result in the rejection of the admission application, withdrawal of any offer of acceptance, cancellation of enrollment, permanent dismissal from UTSA, or other appropriate disciplinary action.

**Fraudulent Degrees**

Under Chapter 61, Subchapter G, of the Texas Education Code, it is illegal to use a fraudulent or substandard degree for gaining admission into an educational program, presenting oneself to the public as an expert, gaining employment or promotion, or gaining a governmental position with authority over others. Violation of this subchapter is a misdemeanor and falls under the Deceptive Trade Practices Act.

CERTIFICATE PROGRAMS

Certificate programs provide opportunities for postgraduate training to those with undergraduate degrees. Certificate programs are narrower in scope and shorter in duration than master’s degrees. Certificate programs are not “degree” programs.

Admission Requirements

Students who are currently enrolled in a graduate degree program and who wish to earn a certificate in addition to their degree or students who are not currently enrolled in a graduate degree program are eligible for admission to a certificate program.

Students who are currently enrolled in a graduate degree program have already met University requirements for admission. In this case, no formal application process is necessary. The student should contact the Certificate Program Advisor and complete a form requesting permission to enter and complete the certificate program. If the request is approved, this form will be signed by the Certificate Program Advisor and the Dean of the College or Director of the Center in which the certificate program is housed. A copy of this form will be sent to the Graduate Advisor of Record for the student’s degree program, the department in which the student’s program is housed, and the Graduate School.

Students who are not currently enrolled in a graduate degree program will be required to apply for admission to UTSA as a special (non-degree-seeking) graduate student and to indicate their intent to seek admission into a certificate program. Applicants will be required to meet University admission requirements for special graduate students. Once admitted as a special graduate student, the student should contact the Certificate Program Advisor and complete a form requesting permission to enter and complete the certificate program. The form will be signed by the Certificate Program Advisor and the Dean of the College or Director of the Center in which the certificate program is housed. A copy of this form will be sent to the Graduate School.

If it is determined by the Certificate Program Advisor that a student requires prerequisite background courses to adequately prepare for the courses included in the certificate program, this will be noted in the student’s file. The student will be notified that the prerequisite courses must be taken before enrolling in certificate program coursework.

Any student who is admitted into a certificate program without being currently enrolled in a graduate degree program is considered to be a special graduate student. If the student wishes to enter a degree program, they will be required to apply to that program as a degree-seeking student. Admittance into or completion of a certificate program is not considered to be qualification for entry into a graduate degree program.

Students who are pursuing a certificate as special graduate students will not be eligible for financial aid.

Students who are admitted into a certificate program while also pursuing a graduate degree will be classified as degree-seeking students.

Course Restrictions

All courses offered in a certificate program must be approved graduate-level courses. See individual certificate program descriptions for program-specific requirements. Currently, the following graduate certificate programs are offered:

**Certificate of Professional Development in Geographic Information Science**
Department of Geological Sciences

The purpose of the Professional Certificate in Geographic Information Science is to create individuals from a broad range of academic disciplines who are competent users of Geographic Information Science and the related tools of Global Positioning System and Remote Sensing. Although the program is generally oriented toward earth and environmental science professionals, individuals with business, social science, medical, engineering, criminal science or education backgrounds will benefit from this professional certificate. Individuals completing this certificate will gain a practical and hands-on knowledge of Geographic Information Science. See Department of Geological Sciences section in this catalog for more information.
Graduate Certificate in Creative Writing
Department of English

The Graduate Certificate in Creative Writing adds interdisciplinary breadth to a student’s course of study while increasing the depth and coherence of a student’s work in creative writing. Given the growing interest in creative writing in nontraditional disciplines of medicine, sociology, and psychology as well as in liberal arts, many students find this formal recognition of their work in creative writing to be a valuable credential in both academic and nonacademic job markets. This certificate demands an active engagement in graduate-level creative writing classes. Students who are pursuing the Graduate Certificate also receive first consideration for graduate workshop registration. See Department of English section in this catalog for more information.

Graduate Certificate in Higher Education Administration
Department of Educational Leadership and Policy Studies

The Graduate Certificate in Higher Education Administration will provide an opportunity for higher education professionals working or seeking to work in the myriad of higher education institutions in the region to develop their knowledge and skills in higher education administration. With a large and expanding four-year university and community college student population, this certificate program will enhance the professional preparation and development opportunities for current and prospective higher education administrators. See Department of Educational Leadership and Policy Studies section of this catalog for more information.

Graduate Certificate in Historic Preservation
Department of Architecture

Historic Preservation is a process of design for continuity and the management of change within an existing historic context. The Graduate Certificate in Historic Preservation offers specialized education in historic preservation design, technology, planning and management through graduate-level courses. See Department of Architecture section in this catalog for more information.

Graduate Certificate in Keyboard Pedagogy
Department of Music

The Certificate in Keyboard Pedagogy is designed for the active pre-college piano teacher who is interested in continuing their education through a program that is focused on practical courses in their field. See Department of Music section in this catalog for more information.

Graduate Certificate in Keyboard Performance
Department of Music

The Certificate in Keyboard Performance is a graduate option that allows exclusive focus on the performance aspects of musicianship. See Department of Music section in this catalog for more information.

Graduate Certificate in Security Studies
Department of Political Science and Geography

The Graduate Certificate in Security Studies is a program that mainly serves the needs of San Antonio regional professionals, such as leaders in military and civilian contract functions, who require advanced education short of full degree programs and in areas directly connected with their work in homeland security and defense at national, state, and local levels. The Department of Political Science and Geography is responsible for all coordination of students participating in the Certificate program. See Department of Political Science and Geography section in this catalog for more information.
Graduate Certificate in Spanish Translation Studies  
Department of Modern Languages and Literatures

The Certificate in Spanish Translation Studies focuses on the language skills necessary to perform translation. Translation is defined as the rendering of a written text from a source language into another, while interpretation is the rendering of spoken language from a source language into another. Although this program concentrates on the former rather than on the latter, both draw on the same type of general linguistic skills as those gained by studies in literature, language, and culture. This certificate focuses more closely on practical applications in modern day life than does the more comprehensive Master’s degree. See Department of Modern Languages and Literatures section in this catalog for more information.

Graduate Certificate in Urban and Regional Planning  
Department of Architecture

The Certificate in Urban and Regional Planning provides students with an introductory understanding of the historical, social, international, and physical context of comprehensive land planning and sustainable urbanism. See Department of Architecture section in this catalog for more information.

Completion of Requirements for Certificate

Completion of a certificate program, with or without completion of a degree program, will be recorded on the student’s transcript if the following conditions are met:

1. The student’s Certificate Program Advisor has prepared a Certificate Degree Plan, which will be sent to the Office of the Registrar prior to the end of the semester in which the student completes the requirements of the certificate.
2. The student has applied officially, by submitting an Application for Graduate Certificate (application is available online at www.utsa.edu/registrar/forms.html) to the Enrollment Services Center, no later than September 15 for the Fall Semester, February 15 for the Spring Semester, or June 15 for the Summer Semester. The application of any student applying for a certificate after the established deadlines will be processed the following semester.

It is the responsibility of the student to meet with the Certificate Program Advisor during the last semester of certificate coursework in order to determine that all requirements of completion are met. It is also the responsibility of the student to apply for the certificate by the established deadline by submitting a paper application to the Office of the Registrar.

Once a student has graduated from one of UTSA’s degree programs and then wishes to apply for a certificate using hours previously earned, the student must apply for admission to UTSA as a special (non-degree-seeking) graduate student and indicate their intent to seek admission into a certificate program. See admission policy for certificate programs.

The student’s completion of a certificate program, with or without completion of a degree program, will be recorded on the student’s transcript.

DEGREE REQUIREMENTS

University-wide Requirements

In order to receive a master’s degree from UTSA, the following minimum requirements must be met:

1. The student must be admitted as a graduate degree-seeking student for the degree sought.
2. The student must remove all conditions of admission, if any were assigned at the time of admission.
3. Subject to the six-year time limitation, the student must complete satisfactorily all coursework as specified in their discipline’s program of study, and, if Option I is selected, must complete satisfactorily the thesis as outlined in the Options for Master’s Degrees section of this chapter.
4. The student must formally apply for the degree in the Office of the Registrar no later than the deadline for the semester in which they intend to graduate (for deadlines, see the online registration calendar).
5. The student must complete satisfactorily the comprehensive examination, except as provided by the M.B.A. degree.
6. The student must meet the grade point average requirement of 3.0 or higher (on a 4.0 scale) in all work counted as part of the degree program.
7. No courses in which grades of less than “C” (below 2.0 on a 4.0 scale) were earned may be applied to a graduate degree, nor may courses for which the grade of “CR” was earned by examination be applied to minimum degree requirements. Credit for selected internships and practica in which a grade of “CR” was earned may be applied to minimum degree requirements upon approval of the Graduate Program Committee.
8. To graduate, all graduate students must have a grade point average of at least a 3.0 (on a 4.0 scale).

Detailed descriptions of each of the above requirements are included in this catalog.

Comprehensive Examination

A candidate for a master’s degree (other than candidates for the M.B.A. degree, who are required to complete MGT 5903 with a grade of “B” or better) must, in addition to other requirements, pass a comprehensive examination which may be oral, written, or both. Students must be registered during any semester or term in which they are taking required examinations. Comprehensive examinations are given only to those students who have complied with the following requirements:

1. completion of all conditions of admission, if any were assigned at the time of admission
2. completion of all special admission requirements for the degree program, if any
3. be in good standing
4. have an acceptable program of study in the discipline in which the degree is sought
5. if a thesis is to be written, selection of supervising professor and thesis committee and acceptance of thesis topic
6. enrollment in 6961, Comprehensive Examination, in the semester the comprehensive examination is taken, if registered for no other courses that semester.

Supervising Committee

Each comprehensive examination is developed, administered, and scored under the guidance of a supervising committee with two or more members, one of whom is designated as chair. The chair must be a member of the Graduate Faculty in the major area of study.

In general, all committee members must be members of the Graduate Faculty in the major area of study. Occasionally, scholars who hold nontenured or tenure-track faculty appointments at the University, such as research professors or adjunct faculty members, or off-campus scholars, are appointed because their expertise would be valuable to the student. The composition of the committee is subject to approval by the Dean of the Graduate School.

The supervising committee is responsible for the quality, depth, and balance of the comprehensive examination.
Options for Master’s Degrees

Two options are available for most master’s degree programs. Refer to specific program requirements in Chapter 6, Graduate Program Requirements and Course Descriptions, to determine whether a program offers both options.

Thesis Option (Option I)

The candidate for a master’s degree under Option 1 is required to complete the required number of semester credit hours in coursework approved by the appropriate Graduate Program Committee, including 6 semester credit hours for a thesis. The thesis is subject to approval by the student’s program advisor, Thesis Committee, graduate advisor, and the Dean of the Graduate School.

No more than six semester credit hours of thesis can be applied toward a master’s degree.

Students receiving advice and assistance from a faculty member in the preparation of a thesis must enroll in the appropriate thesis course (if necessary, for multiple semesters) until final approval of the completed thesis has been given and three copies have been filed with the Dean of the Graduate School.

Requirements for Thesis. The following steps for completing a thesis as part of a master’s degree are the responsibility of each degree candidate selecting Option I:

1. Secure the approval of the supervising professor, who is also Chair of the Thesis Committee. The Thesis Committee consists of the Thesis Chair and two additional members of the Graduate Faculty appointed by the College Dean. The student is expected to work closely with the Thesis Chair in selecting the thesis topic and in completing other details of their study.
2. Submit a preliminary draft for approval by the Thesis Chair no later than 45 calendar days before final examinations of the semester in which the degree is to be awarded. The first draft should demonstrate the student’s understanding of the preparation guidelines and it is understood the text is still being modified.
3. Secure approval of the draft by the Thesis Committee. This step is intended to ensure that the thesis meets the required standards for content, expression, format, spelling, and accuracy. Candidates are responsible for meeting the standards of those reading and approving the thesis.
4. Submit the final copy of the thesis to the supervising professor and Thesis Committee no later than 20 calendar days before final examinations of the semester in which the degree is to be awarded. This copy of the thesis must be the original and, if acceptable, must be signed by the Thesis Chair and members of the Thesis Committee.
5. The format of the thesis must follow University regulations. The detailed requirements of thesis formatting guidelines and deadlines are available on the Graduate School’s Web site at www.utsa.edu/graduate/. The original copy must conform to the most current format prescribed in the Guide for the Preparation of a Master’s Thesis at time of submission to the Graduate School.
6. File two unbound copies, to include the original, of the approved thesis with the Graduate School at least 10 days before the last day of classes of the semester in which the degree is to be awarded. The two copies are for the library. Arrangements and expenses for personal binding of copies are the responsibility of the student. Copyright is optional and may be arranged by the student and will be at their expense. Students are responsible for uploading their complete thesis to UMI for publishing with the option of ordering personal copies for binding.
7. Copies of theses and dissertations are available to the general public through the UTSA Library.
8. Acceptance of the thesis requires final approval from the Dean of the Graduate School.

Thesis for Linguistics Students

Theses are normally written in English. Petitions to write in another language pertinent to the research must be submitted to the Graduate Program Committee when the student enrolls in a thesis course. See Graduate Advisor before registering for thesis hours. Petition must be approved by the Graduate Program Committee and Dean of the Graduate School.
Nonthesis Option (Option II)

For a master’s degree under Option II, a student can meet requirements without writing a thesis. Instead, the student is required to complete a program of coursework, as indicated by specific program requirements in Chapter 6, Graduate Program Requirements and Course Descriptions, approved by the Graduate Program Committee.

Thesis credits may not be applied to the program of coursework for a master’s degree under Option II.

At the beginning of the student’s master’s degree program, they should, in consultation with their program advisor, select the option most suitable to their needs. Should a student elect to change options, they should consult with the program advisor.

Limitation on Repeating Courses for Credit

Many independent study, thesis, special problems, special topics, directed research, seminar, dissertation, and other similar courses may be repeated for credit; however, limitations exist on the number of semester credit hours that may be applied toward a degree. Refer to the individual course descriptions for specific details on these limitations and consult the appropriate graduate advisor.

Catalog of Graduation

Graduate students have six years from the semester of original registration as degree seeking to complete a graduate degree program under the catalog in effect at the time of initial registration at UTSA, provided they are continuously enrolled at UTSA. If a student drops out for one or more long semester (Spring or Fall), they have the option of reenrolling under a subsequent catalog. These students will have six years to complete degree requirements under the new catalog. In the event that certain required courses are discontinued, substitutions may be authorized or required by the appropriate Graduate Program Committee.

Additional Master’s Degrees

A student who holds a master’s or higher degree may pursue an additional master’s degree at UTSA only under the following conditions:

1. The additional master’s degree opens up an additional area, field, or concentration.
2. The proposed second master’s degree is approved by the appropriate Graduate Program Committee and the Dean of the Graduate School.

It should be further understood that:

1. The same courses cannot be applied toward two different degrees.
2. Credit applied to a previous degree at another institution which duplicates a portion of the program required under the second degree being sought at UTSA does not reduce the number of semester credit hours required for that second degree. (The only exception is the M.F.A. degree. See Courses Counted for Another Degree under Course Types and Acceptability in the Transfer of Credit section of this chapter.) Courses already taken would not be required. Rather, additional coursework would be substituted for previously completed courses.
TRANSFER OF CREDIT

Limitations

Quantity

Ordinarily, all work for the master’s degree must be completed at UTSA. Transfer credit of usually not more than 6 semester credit hours may be allowed for graduate coursework completed at another accredited institution upon the approval of the appropriate Graduate Program Committee in which the major area is located. Upon petition by the student, recommendation of the appropriate Graduate Program Committee, and approval by the Dean of the Graduate School, a maximum of one-third of the semester credit hours of coursework (exclusive of thesis) required for a degree at UTSA may be accepted as transfer credit for the degree.

Time Limitation

All requirements for a master’s degree must be completed within one six-year period. Work over six years old may be reinstated only with the permission of the Dean of the Graduate School, upon recommendation of the Graduate Program Committee.

Evaluation of Courses

The student's Graduate Advisor of Record and their college evaluate transcripts and designate which graduate courses are acceptable under the above provisions for transfer toward a master’s degree at UTSA. Whether or not a course is transferable as graduate coursework is determined by the course number assigned by the institution awarding the credit. To be transferable to UTSA, courses must be defined as graduate courses at the institution where credit was earned. Courses that are defined as undergraduate upper-division by their course numbers, but that can be applied to a graduate degree at the institution awarding the credit, are not accepted for transfer toward a master’s degree at UTSA. All work submitted for transfer credit must have been completed with grades of “A” or “B” and must have been completed no more than six years before the degree was awarded.

Transfers within The University of Texas System

It is the policy of The University of Texas System that all academic institutions within the System may accept graduate credit from each other, and the regular requirements for residency are adjusted accordingly. The applicability of specific courses from other University of Texas institutions to a student’s graduate degree program at UTSA, however, must be approved by the appropriate Graduate Program Committee.

Course Types and Acceptability

Accepted on a Limited Basis

UTSA Undergraduate Courses. With the approval of the appropriate Graduate Program Committee, the Department Chair, and the Dean of the college in which the student expects to earn their degree, a candidate for the master’s degree may apply a maximum of 6 semester credit hours of unduplicated credit for undergraduate upper-division (junior- or senior-level) courses completed at UTSA with the grades of “A” or “B” to a master’s degree; no course below the upper-division level or with other grades may be applied to the degree. Undergraduate courses accepted for graduate-level credit are not applied toward core or required courses.

Not Accepted

Audited Courses. No UTSA credit is granted for courses that are audited; no official record is made of enrollment in classes on an audit basis.

Correspondence and Extension Courses. Courses completed by correspondence or extension may not be applied to a graduate degree program.
Courses Counted for Another Degree. No courses counted toward another degree may be applied to a graduate degree, either directly or by substitution. The only exception is that candidates holding a Master of Arts degree in Art from another institution seeking admission to the Master of Fine Arts degree program may have up to 24 semester credit hours applied toward the M.F.A. degree exclusive of the thesis and/or degree project, upon recommendation of the department Graduate Program Committee and approval of the Dean of the Graduate School. Work completed for the master’s degree may be included in the work for the doctoral degree, when it is offered, provided it is acceptable to the candidate’s supervising committee, the appropriate Graduate Program Committee, and the Dean of the Graduate School.

Credit by Examination. Credit by examination at UTSA is intended to enable undergraduate students to receive credit for courses leading to a bachelor’s degree in which they may already have achieved the objectives. Credit cannot be earned by CEEB examination or by UT Challenge Examination for any courses used to meet minimum requirements for a graduate degree or graduate teacher certification program. Graduate degree-seeking students in the College of Business may challenge by examination any UTSA graduate-level “professional” or “background” course that is required in addition to minimum degree requirements. (See the UTSA Credit by Examination brochure.)

DEGREE REQUIREMENTS

Residence Requirement

Depending on doctoral program requirements, a student may be required to spend at least two consecutive semesters (Fall and Spring, Summer Terms I and II and Fall, or Spring and Summer Terms I and II) in residence as a full-time student taking a minimum of 9 semester credit hours each residence semester.

Grade Point Average

A grade point average of “B” (3.0 on a 4.0 scale) must be maintained in each of the following:

1. all coursework completed at UTSA
2. graduate courses in the student’s major
3. graduate courses in the student’s support field.

In computing grade point averages, grades from other institutions are not used.

Course Requirements

No specific number of semester credit hours of coursework has been established for doctoral programs at UTSA, although advanced coursework is an essential part of a doctoral candidate’s preparation. Individual doctoral programs may set minimum semester-credit-hour requirements for the attainment of the degree.

Support Work

In addition to courses and research in a field of specialization within the major, supporting coursework will be taken to broaden or supplement the student’s preparation.

Support work may consist of coursework in one area or several; it may be in conference, laboratory, or problems courses; it may be a supervised activity off campus relevant to the major interest. Some portion, not necessarily all, of the support work is normally outside the major area unless that area is of a multidisciplinary nature. At least three courses, or their equivalents, from outside the area of specialization are generally required.

Language Proficiency

Students are required to possess a competent command of English. Proficiency in a foreign language is a matter of degree option. Students should refer to individual degree descriptions for English and foreign language proficiency requirements.

Time Limitation

All completed work that is included in a doctoral student’s degree program at the time of admission to candidacy must have been taken within the previous six years. The Graduate Program Committee will review the degree program of students who have not completed the degree at the end of two years from admission to candidacy; the committee will review the status of the student’s program yearly thereafter. At those times, the committee may recommend additional coursework, further examinations, or termination of candidacy. In addition, the program of study is subject to review by the Dean of the Graduate School.
TRANSFER OF CREDIT

Students are expected to complete all coursework at UTSA. Exceptions require approval of the appropriate Graduate Program Committee, the Graduate School, and the administrative office responsible for graduate education and must meet conditions for transfer of credit. Work counted toward a degree at another institution cannot be transferred.

Conditions for transfer of credit:

1. Students must complete the form “Recommendation for Courses Taken at another Institution to be counted in UTSA degree program.”
2. The courses must have been completed with a “B” or better.
3. Coursework must be from an accredited university and have not been used in another degree program.
4. An official transcript from the institution where the coursework was completed must be submitted.
5. All coursework must have been completed no more than six years before the degree was awarded.
6. Coursework is subject to approval of the appropriate Graduate Program Committee and academic College in which the program is administered.
7. Courses must be defined as graduate-level work at the institution where the credit was earned.

Students should not take courses they plan to transfer from another institution the semester they plan to graduate due to the time limitation on receiving the grades and certifying the student for graduation.

Applicants with a master’s degree in the field of the doctoral program of interest or related field may apply a maximum of 30 semester credit hours of previously earned graduate credit toward their doctoral degree, pending approval from the Graduate Program Committee and Dean of the Graduate School.

Limited Acceptability

UTSA Undergraduate Courses

Credit earned in undergraduate-level courses may not be applied to a doctoral degree program. Such courses may be taken to meet background or support requirements, if necessary.

Not Accepted

Correspondence and Extension Courses

Courses completed by correspondence or extension may not be applied to a doctoral degree program.

Courses Counted for Another Degree

No course counted toward another doctoral degree may be counted toward a doctoral degree at UTSA, either directly or by substitution.

In some circumstances, work completed for the master’s degree may be included in the work for the doctoral degree, when it is applicable, provided it is acceptable to the candidate’s supervising committee, the appropriate Graduate Program Committee, and the Dean of the Graduate School and provided it has not already been used toward another doctoral degree.
GRADUATE PROGRAM COMMITTEE REQUIREMENTS

The Graduate Program Committee specifies the coursework the student must complete, the qualifying examinations (written, oral, or both) the student must pass, the conditions under which the student may retake all or part of a qualifying examination, and the procedures the student must follow in developing a dissertation proposal.

In consultation with the graduate advisor, the student proposes a Dissertation Committee to advise or direct the student on the research and writing of the dissertation. The student selects the chair of the Dissertation Committee, with the consent of that person and permission of the Dean of the Graduate School.

ADMISSION TO CANDIDACY

Students seeking a doctoral degree at UTSA must be admitted to candidacy. In order to be admitted to candidacy, the student must comply with the following requirements:

1. Fulfill the requirements for unconditional admission as a graduate degree-seeking student, which entails the removal of any conditions assigned at the time of admission.
2. Satisfy any special admission requirements established for the degree program.
3. Be in good standing.
4. Have passed a qualifying examination (written, oral, or both) prepared by the Graduate Program Committee and have met any other requirements specified by the Graduate Program Committee for the specific degree program.
5. Submit a proposed program of study.
6. Having satisfied the above requirements, be recommended for admission to candidacy by the appropriate Graduate Program Committee, which in the case of interdisciplinary programs is a committee appointed by the Graduate School, consisting of no fewer than five members of the Graduate Faculty, with at least one representative from each of the disciplines included in the program.
7. Having satisfied the above requirements, be approved for admission to candidacy by the Dean of the Graduate School.

COMPLETING THE DEGREE

Program of Study

Before admission to candidacy, the student’s proposed program of study is under the direction of the Graduate Program Committee in the major program area through an appropriate program advisor, if designated, and the Graduate Advisor of Record. Upon admission to candidacy and the formation of the student’s dissertation committee, the program of study comes under the purview of the Dissertation Committee, which reviews the proposed program of study and recommends to the Graduate Program Committee any additional course requirements. The final program of study, as approved by the Graduate Program Committee, is then recommended to the Graduate School for approval. Approval of the final program of study by the Graduate School is a degree requirement. All completed coursework included in the final program of study must have been taken within the preceding eight years. No course for which a grade of less than “C” was earned can be applied to the doctoral degree.

Students who are admitted to a doctoral program directly from the bachelor’s-level degree and who complete all requirements for the master’s degree and who pass their doctoral qualifying examination may apply to receive their master’s degree. Courses counted toward the master’s degree may also be included in the overall requirements of the doctorate. Final approval for the interim master’s degree will not be processed for the current semester if received after the Census Date.
Qualifying Examination

All students seeking a doctoral degree must pass a qualifying examination. This examination consists of questions to test the candidate’s knowledge and command of the major field. An examination covering support work is not a University-wide requirement, but it may be required at the discretion of the Graduate Program Committee or the Dissertation Committee.

Registration during Examination Semester(s)

Students must be registered during any semester or term in which they are taking required examinations.

Dissertation Committee

Upon admission to candidacy and in consultation with the Graduate Advisor of Record, the student selects their supervising professor with that professor’s consent. Upon recommendation of the Graduate Program Committee, the Graduate School appoints the Dissertation Committee. The committee must consist of at least four members, including the supervising professor who consults with other members of the committee as work proceeds.

The Dissertation Committee advises the student on the research and writing of the dissertation, conducts the final oral examination, and approves the dissertation. The chair of the Dissertation Committee ordinarily serves as the supervisor of research. Other members of the committee should be consulted as appropriate. Occasionally, a research professor or researcher who is not a member of the Graduate Faculty may be recommended by the Graduate Program Committee to serve as the supervisor for a specific dissertation because his or her expertise would be valuable to the student. When the research supervisor is not a member of the Graduate Faculty in the student’s area of study, a member of the Graduate Program Committee will be appointed as co-chair of the Dissertation Committee. The chair of the Dissertation Committee must be a member of the Graduate Faculty for that graduate program. Changes to the Dissertation Committee require documentation to be signed by the Department Chair, the Dean of the College, and the Dean of the Graduate School and must be received by the Graduate School.

In addition to recommending the student’s final program of study to the Graduate Program Committee and supervising the research and writing of the dissertation, the Dissertation Committee certifies to the Graduate School that all degree requirements have been fulfilled.

Time Limit for Completing Doctoral Degree

Doctoral students have a time to degree completion of eight years comprised of six years from admission to candidacy and two years for dissertation. All completed work that is included in a doctoral student’s degree program at the time of admission to candidacy must have been taken within the previous six years (exclusive of a maximum of three years of military service). The Graduate Program Committee will review the programs of students who have not completed the degree at the end of two years from admission to candidacy; the committee will review the status of the student’s program yearly thereafter. At those times, the committee may recommend additional coursework, further examinations, or termination of candidacy. In addition, the program is subject to review by the Dean of the Graduate School.

Leave of Absence

Doctoral students may apply for a leave of absence not to exceed more than a year (Fall, Summer and Spring semesters). If the student has not yet been admitted to candidacy for the doctoral degree, this request must be approved in advance of the leave by the graduate adviser. If the student has been admitted to candidacy, the application must be approved in advance by the graduate adviser and the graduate associate dean of the college and Dean of the Graduate School. A leave of absence does not alter the time limitation on degree completion or coursework.

Doctoral Dissertation

A dissertation is required of every candidate and must be an original contribution to scholarship, based on independent investigation in the major area. It must be approved by the Dissertation Committee. Registration for the dissertation must be
for a period of more than one semester. During each semester or term that a student receives advice and/or assistance from a faculty member or supervision by the Dissertation Committee or uses University resources, they are required to enroll in the appropriate dissertation course.

**Final Oral Examination (Defense of Dissertation)**

A satisfactory final oral examination is required for the approval of a dissertation. After the Dissertation Committee makes a decision, which must be unanimous, to accept a dissertation for examination, the supervising professor notifies the Graduate School at least two weeks in advance of the date of the final oral examination.

The examination covers the dissertation and the general field of the dissertation, and other parts of the student’s program as determined by the committee. All members of the Dissertation Committee must be satisfied that the student has:

1. completed the work assigned by the committee;
2. passed all examinations required by the program’s Graduate Program Committee, including the final oral examination;
3. completed a dissertation that is an independent investigation in the major field, and that itself constitutes a contribution to knowledge; and
4. submitted an abstract for publication in Dissertation Abstracts International that meets with the approval of the committee.

Once this is complete, the Dissertation Committee members sign the approval sheets for the doctoral dissertation and make an official recommendation to the Dean of the Graduate School that the doctoral degree be awarded. Approval must be unanimous.

**Submission and Publication of Dissertation**

When the student has successfully defended the dissertation, he or she is required to make arrangements for its publication with the Graduate School. Students are required to adhere to the detailed requirements of dissertation formatting guidelines and deadlines for submission of the dissertation. For information on deadlines, visit the Graduate School Web site at www.utsa.edu/graduate/. Dissertations received after the posted deadline will not be accepted. Two unbound copies, including the original of the dissertation, must be on file at the Graduate School by the submission deadline. The two copies are for the UTSA library. Students are responsible for uploading their complete dissertation to UMI for publishing with the option of ordering personal copies for binding. The student is required to pay all associated fees.

The format of the dissertation must follow University regulations or it will not be accepted. The original copy must adhere to the most current dissertation formatting guidelines at time of submission. The student may request that the Graduate School delay in making the dissertation available to the public for one or more years in order to protect the patent or other rights. This request must be supported by a written recommendation from the dissertation supervisor.

Registration of copyright at the author’s expense may be arranged, if desired and appropriate, by completing a form available from the Graduate School. In order to protect patent or other rights, the student or supervising professor may request that the Graduate School delay publication for one year. This request must be supported by a written recommendation by the student’s supervising professor.

Acceptance of the dissertation requires final approval from the Dean of the Graduate School.

**Approval of the Degree**

Upon approval by the Dissertation Committee of the dissertation and its defense, the Graduate Program Committee certifies to the Dean of the Graduate School that the student has completed all degree requirements, has passed all required examinations, and is entitled to the award of the doctoral degree.

COLLEGE OF ARCHITECTURE

DEPARTMENT OF ARCHITECTURE

For its graduate programs, the College of Architecture takes advantage of its unique location within downtown San Antonio, as well as South Texas and the borderlands of the western United States and Mexico. The city of San Antonio, composed of several historical layers from the 17th century to the present, is a laboratory for the exploration of architecture, urbanism, and community planning and design.

Master of Architecture Degree – The Professional Program

The College of Architecture offers the Master of Architecture (M.Arch.) as a first professional degree for those intending to enter the professional practice of architecture. The M.Arch. is accredited by NAAB, the National Architectural Accrediting Board, the sole agency authorized to accredit U.S. professional degree programs in architecture. According to the NAAB 1998 Conditions and Procedures manual:

“In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite of licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes two types of degrees: the Bachelor of Architecture and the Master of Architecture. A program may be granted a six-year, three-year, or two-year term of accreditation, depending on its degree of conformance with established educational standards. Master’s degree programs may consist of a preprofessional undergraduate degree and a professional graduate degree, which, when earned sequentially, comprise an accredited professional education. However, the preprofessional degree is not, by itself, recognized as an accredited degree.”

Building on a solid base of undergraduate studies in architecture, the degree program provides a challenging professional curriculum. The two-year program is seen as a capstone of professional studies.

The Master of Architecture degree is offered in two forms: M.Arch. 2 program, for students who have earned architectural degrees; and M.Arch. 3 program, for students with undergraduate degrees in fields other than architecture.

The M.Arch. 2 Program

The M.Arch. 2 program is designed for students who have earned architectural degrees (such as B.A., B.S., and B.E.D.) and consists of studies focused on developing the next generation of critical practitioners. This studio-based professional program is normally two years (52 semester credit hours) in length and is completed via an independently-derived, research-informed design project.

M.Arch. 2 Program Admission Requirements. In addition to University-wide admission requirements, applicants must have completed a preprofessional bachelor’s degree in architecture with a minimum grade point average of no less than 3.0 in the applicant’s last 60 hours of coursework (including all graduate and postgraduate coursework taken).

A completed application package consists of the following:

- Completed Application form
- Official transcripts from all universities attended
- Graduate Record Examination (GRE) scores
- Two (2) Letters of Recommendation
- Letter of Intent, outlining the applicant’s anticipated focus of studies and its impact on subsequent professional practice
- Portfolio, documenting proficiency in design, graphic communications, and other creative work
- Test of English as a Foreign Language (TOEFL) scores for international applicants whose first language is not English.
An application fee and all application materials must be sent directly to the UTSA Graduate School at One UTSA Circle, San Antonio, TX 78249. Please consult the UTSA College of Architecture’s Web site (http://www.utsa.edu/architecture) for dates when the review of applications will begin and for more information about the College and its programs.

**M.Arch. 2 Degree Requirements.** Degree candidates must complete 52 semester credit hours of coursework consisting of the following:

A. 37 semester credit hours of the following required courses:

- ARC 5133 Professional Practice and Construction in a Global Setting
- ARC 5513 Advanced Building Technology & Structures
- ARC 6126 Advanced Design Studio I
- ARC 6136 Advanced Design Studio II
- ARC 6146 Advanced Design Studio III
- ARC 6931 Master’s Project Preparation
- ARC 6996 Master’s Project
- Theory/Criticism Elective*
- History Elective*

B. 15 semester credit hours of electives selected from the list posted on the UTSA College of Architecture Web site and within the UTSA College of Architecture graduate handbook. No more than 6 semester credit hours of nonarchitecture (ARC) electives will apply toward the Master of Architecture degree and these electives should be selected in consultation with the Graduate Advisor of Record.

*Note: Courses which satisfy the required elective options (Theory/Criticism, History) will be posted on the UTSA College of Architecture Web site and within the UTSA College of Architecture graduate handbook.

**The M.Arch. 3 Program**

The M.Arch. 3 program is designed for students with undergraduate degrees in fields other than architecture. This professional program includes one year of preparatory studies (39 semester credit hours) beginning in the summer, in preparation for the following two years (52 semester credit hours) of the Master of Architecture (M.Arch. 2) program sequence. These preparatory studies are required, as a condition of admission, to be completed in full. We encourage students from all disciplines to consider this program as a means for entering the profession of architecture.

**M.Arch. 3 Program Admission Requirements.** In addition to University-wide admission requirements, applicants must have completed a bachelor’s degree with a minimum grade point average of no less than 3.0 in the applicant’s last 60 hours of coursework (including all graduate and postgraduate coursework taken).

A completed application package consists of the following:

- Completed Application form
- Official transcripts from all universities attended
- Graduate Record Examination (GRE) scores
- Two (2) Letters of Recommendation
- Letter of Intent, which speaks to the applicant’s preparedness for the study of architecture
- Portfolio of work indicative of the applicant’s preparedness for the study of architecture
- Test of English as a Foreign Language (TOEFL) scores for international applicants whose first language is not English.

An application fee and all application materials must be sent directly to the UTSA Graduate School at One UTSA Circle, San Antonio, TX 78249. Please consult the College of Architecture’s Web site (http://www.utsa.edu/architecture) for applicable dates when the review of applications will begin and for more information about the College and its programs.
M.Arch. 3 Degree Requirements. The M.Arch. 3 program requires up to 39 semester credit hours of preparatory studies and 52 semester credit hours of the M.Arch. 2 program sequence for this degree, exclusive of coursework or other study required to remove admission deficiencies. Credit toward the program is earned only for grades of “A,” “B,” and “C.” Students must also maintain an overall grade point average of 3.0, with a maximum of 6 semester credit hours with the grade of “C.”

The M.Arch. 3 program in architecture consists of: a) preparatory studies; b) a performance evaluation; and c) the 52 semester credit hour M.Arch. 2 program sequence. The M.Arch. 3 program begins in the summer.

A. Preparatory Studies. 39 semester credit hours consisting of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARC 5183</td>
<td>Fundamentals of Architectural Design: Principles &amp; Representation</td>
</tr>
<tr>
<td>ARC 5196</td>
<td>Fundamentals of Architectural Design: Studio</td>
</tr>
</tbody>
</table>

and 30 semester credit hours of coursework that includes a minimum of two consecutive semesters of design studios. This coursework is posted on the UTSA College of Architecture Web site and within the UTSA College of Architecture graduate handbook.

B. Performance Evaluation. Upon completion of preparatory studies, each student is subject to a performance evaluation intended to determine readiness to enter the M.Arch. 2 program sequence. The performance evaluation format is determined by the Department Chair and carried out by the faculty. Normally, failure to pass the performance evaluation should be followed by additional coursework or other work to remedy deficiencies or areas of weakness before the evaluation is conducted again. Failure to successfully pass the performance evaluation may result in the postponement of entering the M.Arch. 2 program sequence.

C. M.Arch. 2 Program Sequence. Degree candidates must complete 52 semester credit hours of coursework consisting of the following two areas of coursework: required courses and electives:

1. 37 semester credit hours of required courses (see M.Arch. 2 description above)
2. 15 semester credit hours of electives (see M.Arch. 2 description above)

Master of Science in Architecture Degree – The Research Program

The Master of Science in Architecture (M.S. Arch.) program is a nonstudio research program that prepares students for careers in research, teaching, consulting, and further graduate study. The focus of the program is research in architecture. Areas of research include historic preservation, urban and regional planning, architectural history, sustainability in architecture, and health and wellness. The program stresses critical writing and research methods. The educational opportunities are enriched by the College of Architecture’s location in downtown San Antonio, which has a rich heritage of historic architecture and urbanism.

M.S. Arch. Admission Requirements. In addition to University-wide admission requirements, applicants must have completed a bachelor’s degree with a minimum grade point average of no less than 3.0 in the applicant’s last 60 semester credit hours of undergraduate studies.

A completed application package consists of the following:

- Completed Application form
- Official transcripts from all universities attended
- Graduate Record Examination (GRE) scores
- Two (2) Letters of Recommendation
- Letter of Intent
- Samples of expository writing
- Test of English as a Foreign Language (TOEFL) scores for international applicants whose first language is not English.
An application fee and all application materials must be sent directly to the UTSA Graduate School at One UTSA Circle, San Antonio, TX 78249. Please consult the College of Architecture’s Web site (http://www.utsa.edu/architecture) for applicable dates when the review of applications will begin and for more information about the College and its programs.

**M.S. Arch. Degree Requirements.** The minimum number of semester credit hours requirements for the Master of Science in Architecture degree, exclusive of coursework or other study required to remove admission deficiencies, is 33. Credit toward the program is earned only for grades of “A,” “B,” and “C.” Students must also maintain an overall grade point average of 3.0 with a maximum of 6 semester credit hours with the grade of “C.” Students admitted to the program should consult the Graduate Advisor of Record (GAR) and a faculty advisor in their chosen field of study for specific program requirements for their individual study plans.

Degree candidates must complete 33 credit hours of coursework consisting of the following:

A. 12 semester credit hours of the following required courses:

- ARC 5173 Architectural Theory and Criticism
- ARC 6433 Research Methods in Architecture
- ARC 6983 Master’s Thesis (repeated for a total of 6 credit hours)

B. 21 semester credit hours of electives to be selected in consultation with committee chair

C. Comprehensive Examination. A candidate for the Master of Science in Architecture must, in addition to other requirements, pass a written comprehensive examination. Students must be registered for ARC 6961 Comprehensive Examination during the semester in which they intend to take the examination.

Comprehensive examinations are given only to students who:

- have satisfied all admission conditions
- are in good academic standing
- have an approved degree plan
- have selected a supervising professor and thesis committee with an approved thesis topic
- are enrolled in ARC 6961 Comprehensive Examination.

Note: Credit earned for ARC 6961 will not count toward the 33 semester credit hours required for the degree.

**Graduate Certificate in Historic Preservation**

Historic Preservation is a process of design for continuity and the management of change within an existing historic context. The Graduate Certificate in Historic Preservation offers specialized education in historic preservation design, technology, planning and management through graduate-level courses.

The Graduate Certificate in Historic Preservation enables graduate students from multiple program areas to receive tangible confirmation of skills and comprehension in historic preservation. A Graduate Certificate in Historic Preservation offers students from any discipline the opportunity to take historic preservation classes with rationale and purpose. Certificate holders can gain employment advantages in fields related to archaeology, architecture, business, engineering, geography, historic preservation, history, interior design, landscape architecture, law, museum studies, political science, public policy, social science and urban and regional planning. Many government jobs within federal, state, and local agencies specifically require or desire graduate-level training in historic preservation. All states, many counties, and most large cities have nonprofit organizations and societies devoted to historic preservation. Within the construction industry there is currently a huge trend upwards in adaptive use of existing buildings, especially within previously abandoned downtown areas. There is widespread demand for professionals with specialized training in historic preservation. Interested individuals should contact the Historic Preservation Certificate Program Coordinator within the College of Architecture.
Certificate in Historic Preservation Admission Requirements. New and existing graduate students in “good standing” shall declare the intent to seek the Certificate by requesting permission to enter and complete the program. Students not currently enrolled in a graduate program may apply according to UTSA Admission Requirements for Certificate Programs. The Certificate Program Coordinator may determine that a student requires prerequisite background courses to adequately prepare for the courses of the Graduate Certificate Program.

Certificate in Historic Preservation Requirements. The Certificate requires 15 semester credit hours of coursework and 10 weeks (or 350 hours) of practical experience, such as an internship or other type of employment related to historic preservation. Two courses are required and an additional three courses must be selected from the list of approved courses. All requirements must be completed within a six-year period. Courses taken for the Graduate Certificate in Historic Preservation can be applied toward the Master of Architecture degree and the Master of Science in Architecture degree. Students will be advised by the Historic Preservation Certificate Program Coordinator/Advisor.

A. 6 semester credit hours of the following required courses:

ARC 5203 History and Theory of Preservation
ARC 6423 Architectural Conservation Theory

B. Required Practical Experience, 10 weeks or equivalent (to be approved by the Certificate Program Coordinator)

C. 9 semester credit hours of approved elective courses selected from the following list:

ARC 5233 Architectural Surveys and Measured Drawings
ARC 5403 Historic Preservation Seminar
ARC 5423 Legal and Economic Aspects of Preservation
ARC 5613 American Architecture
ARC 6003 Morphology of the Architecture and Landscape of South Texas and Borderlands
ARC 6413 Preservation Technology
ARC 6433 Research Methods in Architecture

Graduate Certificate in Urban and Regional Planning

The purpose of the professional certificate in Urban and Regional Planning is to provide students with an introductory understanding of the historical, social, international, and physical context of comprehensive land planning and sustainable urbanism.

The Certificate in Urban and Regional Planning is a 15-semester-credit-hour program. Degree-seeking, special graduate or non-degree-seeking students from any discipline at UTSA are allowed to complete the Certificate in Urban and Regional Planning (URP) program. Students will be advised by the URP Certificate Program Coordinator/Advisor. Interested individuals should contact the Urban and Regional Planning Certificate Program Coordinator within the College of Architecture.

Certificate in Urban and Regional Planning Admission Requirements. New and existing graduate students in “good standing” shall declare the intent to seek the Certificate by requesting permission to enter and complete the program. Students not currently enrolled in a graduate program may apply according to UTSA Admission Requirements for Certificate Programs. The Certificate Program Coordinator may determine that a student requires prerequisite background courses to adequately prepare for the courses of the Graduate Certificate Program.

Certificate in Urban and Regional Planning Requirements. The Urban and Regional Planning Certificate Curriculum consists of 9 semester credit hours of required Architecture courses and 6 elective hours from the list defined in item B below. Courses taken for the Graduate Certificate in Urban and Regional Planning can be applied towards the Master of Architecture and Master of Science in Architecture degrees. Students will be advised by the Urban and Regional Planning Certificate Program Coordinator/Advisor.
A. 9 semester credit hours of the following required courses:

ARC 5323 International Community Planning and Design
ARC 5333 Introduction to Urban and Regional Physical Planning
ARC 5343 History and Theory of Urban and Regional Planning

B. 6 semester credit hours of approved elective courses selected from the following list:

ARC 5313 International Housing Design and Neighborhood Planning
ARC 5353 Structure and Function of Cities and Regions
ARC 5363 Urban Planning Methods II
ARC 5373 Planning and Design of Suburbs
ARC 5383 Planning and Housing for Rural Communities
ARC 5663 The Architecture and Cities of Northern Mexico
ARC 6013 Theories and Philosophies of Regionalism
GRG 5303 Economic Geography
HIS 5313 South Texas: Rural and Urban
HIS 6193 Comparative Urban History
PAD 5103 Planning and Land Use Law
PAD 5473 Land Use Policy
PAD 5483 Environmental Policy
PAD 5503 Introduction to Urban Planning
PAD 5563 Urban Planning Methods
POL 5143 Theory and the City
SOC 5143 Demography and Community Trends

COURSE DESCRIPTIONS
ARCHITECTURE
(ARC)

5113 Design and Leadership
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
An in-depth study of design as a form of leadership in the emerging global environment. Includes consideration of leadership qualities to affect change through design and practice.

5123 Emerging Design and Practice in the Global Context
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
An advanced study of architectural design and practice in the global context with a focus on Asia and India. Includes consideration of the similarities and differences between the cultural, economic, and regulatory frameworks.

5133 Professional Practice and Construction in a Global Setting
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
An advanced study of national and international business and legal environments in the construction industry. Topics include agreement and delivery options, forms of construction, project procedures and administration, liability, contract documents, and ethics. (Formerly titled “Advanced and International Professional Practice and Ethics.”)

5163 Current Issues and Topics in Contemporary Architecture
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
A critical survey of the leading issues, theories, writings, projects, and built works of architecture over the past 20 years.
5173 Architectural Theory and Criticism
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
A survey of contemporary architectural theory and criticism from 1950 to the present. May be repeated for credit once, when topics vary.

5183 Fundamentals of Architectural Design: Principles & Representation
(3-0) 3 hours credit. Prerequisites: Graduate standing and permission of the Architecture Graduate Advisor of Record.
An introduction to the basic principles and skills associated with architectural design for graduate students enrolled in the M.Arch. 3 program.

5196 Fundamentals of Architectural Design: Studio
(1-10) 6 hours credit. Prerequisites: Graduate standing and permission of the Architecture Graduate Advisor of Record.
An introductory design studio for graduate students enrolled in the M.Arch. 3 program. Considers design as an exploration of theoretical ideas and translation into architectural and urban spaces.

5203 History and Theory of Preservation
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
An introduction to the history, philosophy, and methodology of historic preservation and restoration.

5233 Architectural Surveys and Measured Drawings
(3-0) 3 hours credit. Prerequisites: Graduate standing and ARC 5203, or consent of instructor.
A survey of documentation and interpretation of sites and buildings and graphic recording techniques.

5303 International Practice
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
An in-depth study of the professional, legal, social, and cultural issues that affect international architecture, construction, and urban development.

5313 International Housing Design and Neighborhood Planning
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
An examination of the evolution of international housing planning and design with emphasis on sustainable design methods, materials, techniques, and solutions.

5323 International Community Planning and Design
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
A study of sustainable design, planning, economic, financial, and environmental issues that shape multicultural communities, regions and borders. (Formerly ARC 6233. Credit cannot be earned for both ARC 5323 and ARC 6233.)

5333 Introduction to Urban and Regional Physical Planning
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
An introduction to planning for human needs as related to the physical layout and spatial design of communities and regions.

5343 History and Theory of Urban and Regional Planning
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
A survey of the history and theories of urban and regional planning. Includes consideration of the values and ethics of the planning profession and methods of participation.
5353  **Structure and Function of Cities and Regions**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A study of the social, political, economic, and changing physical design, form, and infrastructure of cities and regions.

5363  **Urban Planning Methods II**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
Introduction to software in mapping, visualization, database graphics, and GIS for applications in urban and regional planning.

5373  **Planning and Design of Suburbs**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A survey of the historical evolution and relationship between suburbs and central cities, contemporary trends in suburban planning, and sustainable development options.

5383  **Planning and Housing for Rural Communities**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A survey of the comprehensive planning of small towns and housing in rural areas. Includes consideration of growth management techniques.

5403  **Historic Preservation Seminar**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An advanced study of selected topics in architecture, design, preservation, and planning. May be repeated once for credit, when topics vary.

5413  **Advanced Topics in Construction Systems**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A survey of selected topics in construction systems and management.

5423  **Legal and Economic Aspects of Preservation**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A survey of the laws and regulations that affect preservation of the built environment, nationally, regionally, and locally. Includes considerations of fundamentals of legal protection for and regulation of historic cultural resources in light of contemporary attitudes toward the historic environment, and the economic bases of the use of historic buildings and sites examined in terms of contemporary social and cultural attitudes that determine effective strategies of preservation action.

5513  **Advanced Building Technology & Structures**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An advanced study of building technology and structures. Includes consideration of sustainable techniques, technologies, building enclosure, structural behavior and systems, the integration of heating, cooling and ventilating systems, lighting, acoustics, electrical, plumbing and water, security, vertical circulation, and site and transportation for new and existing buildings.

5533  **Contemporary Materials in Architecture and Design**  
(1-4) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A survey and examination of contemporary materials from multiple perspectives. Includes consideration of the characteristics and applications of existing, new, and emerging materials. Includes design project.

5543  **Advanced Digital Design and Fabrication Technologies in Architecture**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An in-depth examination of contemporary digital design and fabrication technologies in architecture and other design disciplines.
5563  Fabric Structures and Smart Textiles for Designers  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A hands-on introduction to lightweight fabric structures and smart textiles. Includes consideration of innovative means to integrate structural smart fabrics within architectural design environments.

5603  Advanced Seminar in Architectural History  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An in-depth study or survey investigating selected topics in architectural history. May be repeated once for credit, when topics vary.

5613  American Architecture  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor. 
A survey of the development of the architecture of the United States from the earliest human settlements to the present.

5643  Modern Architecture of Mexico  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A survey of the architecture and urbanism of Mexico from Independence in 1821 to the present.

5653  Pre-Columbian and Colonial Architecture of Mexico  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor. 
A survey of the architecture and urbanism of Mexico during the pre-Columbian and Colonial eras.

5663  The Architecture and Cities of Northern Mexico  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A detailed survey of the architecture and urbanism of the border states of Northern Mexico, primarily focusing on the modern era from 1821 to the present.

5673  Advanced Topics in the Architecture and Urbanism of Mexico  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor. 
An in-depth study of the major currents of thought and critical ideas regarding the architecture and urbanism of Mexico. Topics include the impacts of nationalism, modernity, tectonic culture, globalization, post-colonialism, automobile suburbia, and hybrid border architecture and urbanism.

5713  Environmental Architecture and Sustainability  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A study of history and theory of environmentally sustainable design. Includes the review of the general discourse of sustainability and consideration of the tools and techniques employed to produce sustainable architectural environments. (Formerly ARC 5153. Credit cannot be earned for both ARC 5713 and ARC 5153.)

5723  Applications in Sustainable Design  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An introduction to the integration of environmental performance criteria in architectural design. Includes the application of simulation methods, design decision support tools, rating systems (e.g., LEED), and consideration of building energy consumption patterns, conservation strategies, solar shading, solar access, integration of electric and daylight, and the life cycle analysis of materials and systems.

5753  Advanced Construction Management  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An advanced study of organization of construction resources and activities to include consideration of scheduling, methods of construction, project planning and management, cost accounting, and personnel utilization. (Formerly ARC 5633. Credit cannot be earned for both ARC 5753 and ARC 5633.)
6003  **Morphology of the Architecture and Landscape of South Texas and Borderlands**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An examination of environmental conditions, cultural traditions, social patterns, building conventions, and aesthetic intentions that have influenced the architecture and planning of communities of South Texas, the Southwest, and the North Mexican borderlands. (Formerly ARC 6123. Credit cannot be earned for both ARC 6003 and ARC 6123.)

6013  **Theories and Philosophies of Regionalism**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A survey of the discourse of architectural regionalism. Includes consideration of regionalist theory and practice in the twentieth century, regional planning, critical regionalism, bioregionalism, sustainability, and issues such as modernity, globalization, cultural identity, authenticity, place, and tradition. (Formerly ARC 5213. Credit cannot be earned for both ARC 6013 and ARC 5213.)

6023  **Vernacular Architecture**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An introduction to contemporary and past vernacular architecture. Includes specific consideration of global architecture developed by nonprofessionals and builders in response to climate, material availability, sociocultural patterns, and economic constraints that condition the adaptation of housing, farm, and industrial structures. (Formerly ARC 5623. Credit cannot be earned for both ARC 6023 and ARC 5623.)

6103  **Design Process and Human Perception**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An examination of design processes as they relate to spatial, experiential, and perceptual considerations in architectural design. Includes exploration of architectural environments through philosophy, psychology, history, and literature.

6126  **Advanced Design Studio I**  
(1-10) 6 hours credit. Prerequisite: Graduate standing.  
An introduction to advanced architectural design, including the role of research, program preparation, and technological integration in architectural design.

6136  **Advanced Design Studio II**  
(1-10) 6 hours credit. Prerequisite: ARC 6126.  
An advanced architectural design studio, which includes the integration of building materials, services, and systems, technical documentation and comprehensive design.

6146  **Advanced Design Studio III**  
(1-10) 6 hours credit. Prerequisites: Graduate standing and consent of instructor.  
An advanced architectural design studio, which allows faculty and students to explore a range of architecture-related topics in a studio setting. Content varies.

6213  **Biomimicry and Physical Computing in Design**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A hands-on course using biomimicry to learn from biological processes. Includes physical computing, robotic technologies, and kinetic structures to develop working models of design solutions using biomimicry.

6313  **Health and the Built Environment**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A survey course examining the relationships between the design of the built environment and human health from physiological, psychological, organizational, sociological and ecological perspectives.

6323  **Architecture, Health and Wellness**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An examination of the evidence-based approach to the design of healthy work, educational, residential, and recreational environments.
6333  **Healthcare Design**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An examination of planning and design considerations for clinical and therapeutic healthcare facilities.

6413  **Preservation Technology**  
(1-4) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
A survey of techniques of preservation: methods of analysis, history of materials, and technology used in old buildings. Includes emphasis on buildings as integrated sets of subsystems and how these are affected by the processes of material deterioration, conservation, and techniques of intervention. May be repeated for credit once, when topics vary.

6423  **Architectural Conservation Theory**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An advanced study and critical analysis of current design theory and techniques for conservation of historic sites.

6433  **Research Methods in Architecture**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An examination of theories and methods in architectural research. Includes a critical review of theoretical perspectives and considers a range of research methods and techniques used in architectural research.

6816  **Study Abroad: Advanced Design Studio III**  
(0-12) 6 hours credit. Prerequisite: Consent of instructor.  
An advanced architecture design studio associated with a study abroad program.

6823  **Study Abroad: Advanced Architectural History/Theory**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An advanced study in architectural history/theory associated with a study abroad program; involves field trips.

6833  **Study Abroad: Advanced Architectural Representation**  
(0-6) 3 hours credit. Prerequisite: Consent of instructor.  
A graduate-level drawing and other media course associated with a study abroad program; involves field trips.

6931  **Master’s Project Preparation**  
1 hour credit. Prerequisites: ARC 6126, ARC 6136, graduate standing and permission of the architecture Graduate Advisor of Record.  
The course involves the research and preparation of a proposal for an independent design project. (Formerly ARC 6933. Credit cannot be earned for both ARC 6931 and ARC 6933.)

6943  **Professional Internship**  
3 hours credit. Prerequisites: Graduate standing, 18 semester credit hours of graduate work, and consent of instructor. Supervised professional practice experience with public agencies or private firms. Individual conferences and written reports required. May be repeated for credit, but not more than 6 hours will apply to the Master of Architecture degree or the Master of Science degree.

6951-3  **Independent Study**  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master of Architecture degree or the Master of Science degree.
6961  Comprehensive Examination
1 hour credit. Prerequisites: Graduate standing and permission of the architecture Graduate Advisor of Record to take the comprehensive examination.
Independent study course for the purpose of taking the Comprehensive Examination. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination). Credit earned in ARC 6961 may not be counted toward the Master of Science degree. May be repeated once.

6973,6  Special Topics
(3-0, 6-0) 3 or 6 hours credit. Prerequisite: Graduate standing or consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Topics courses may be repeated for credit when topics vary, but not more than 6 semester credit hours for ARC 6973 or 12 hours for ARC 6976 will apply to the Master of Architecture degree or the Master of Science degree.

6983  Master’s Thesis
3 hours credit. Prerequisites: Graduate standing and permission of the architecture Graduate Advisor of Record.
May be repeated for credit but not more than 6 hours will apply to the Master of Science degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

6996  Master’s Project
(0-12) 6 hours credit. Prerequisites: ARC 6931, graduate standing, and permission of the architecture Graduate Advisor of Record.
A comprehensive study focusing on an independent design proposal and the complete representation of the project. Students who earn a grade of “B” or better in this course will satisfy the comprehensive examination requirement.

COURSE DESCRIPTIONS
CONSTRUCTION SCIENCE AND MANAGEMENT
(CSM)

5133  Construction Practice in a Global Setting
(3-0) 3 hours credit.
Seminar dealing with national and international business and legal environments in the construction industry. Topics include agreement and delivery options, forms of construction, project procedures and administration, liability, contract documents, and ethics.

5413  Advanced Topics in Construction Systems
(1-4) 3 hours credit.
The management of the construction process pertaining to large, complex, and unique buildings. The management of sustainable construction, adaptive use of existing buildings, and historic preservation projects will be included.

5633  Advanced Construction Management
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Organization and integration of construction resources and activities to include consideration of ethical practice, scheduling, methods of construction, project planning and management, cost accounting, and personnel utilization.

COLLEGE OF BUSINESS

Mission Statement

The College of Business is dedicated to creating and sharing knowledge that enhances the translation of theory to practice. The College combines rigor with relevance and provides innovative solutions to global business challenges.

All College of Business graduate business programs are accredited by AACSB International—The Association to Advance Collegiate Schools of Business—and conform to recommended guidelines. These include the following programs:

- Executive Master of Business Administration
- Master of Business Administration Online
- Master of Science degree in Finance
- Master of Science degree in Finance – Real Estate Finance Concentration
- Master of Science degree in Information Technology
- Master of Science degree in Information Technology – Infrastructure Assurance Concentration
- Master of Science degree in Management of Technology
- Doctor of Philosophy degree in Business Administration, including all emphases: Accounting, Finance, Information Technology, Marketing, and Organization and Management Studies.

Master of Business Administration Degree

The Master of Business Administration degree is designed to offer the opportunity for intensive education to qualified graduate students and is available to individuals with undergraduate degrees in the business administration areas, as well as to those with specializations outside the business field.

Students whose previous training has been in nonbusiness fields may be admitted to the M.B.A. program but are required, as a condition of admission, to complete (in total or in part, depending upon the background of each student) the M.B.A. leveling courses. Students whose background is in business, but who have completed the M.B.A. leveling courses seven or more years before entering the program, may be required by the Admissions Subcommittee of the Graduate Program Committee to successfully complete the M.B.A. leveling courses. These courses are open only to graduate students and are in addition to degree requirements of the M.B.A.

Students who enter the M.B.A. degree program must demonstrate proficiency with computer programs commonly used in business applications, including, but not limited to, spreadsheets, presentation, and word processing software. Special not-for-credit courses may be offered to address this need.

Program Admission Requirements. For admission to the M.B.A. program, applicants must meet University-wide graduate admission requirements. Applicants are further considered on the basis of demonstrated potential for success in graduate study in business administration as indicated by a combination of prior academic achievement, Graduate Management Admission Test (GMAT) scores, personal statement, résumé (optional), and references (optional).

The M.B.A. Program Committee evaluates each applicant individually based on the complete package of submitted materials.

A complete application package will include:

- a completed application form
- transcripts from all universities attended
- official Graduate Management Admission Test (GMAT) scores
• a personal statement
• a current résumé with employment or other experience (optional)
• letters of reference (optional).

**M.B.A. Leveling Courses.** The following courses constitute the M.B.A. leveling and are required for students who do not have credit for equivalent undergraduate courses. However, no credit for these courses may count toward M.B.A. degree requirements.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>

</tr>
</tbody>
</table>

**Degree Requirements.** The M.B.A. program requires 36 semester credit hours of work beyond any hours acquired in the M.B.A. leveling courses.

Candidates for the M.B.A. degree are required to successfully complete the M.B.A. Core courses, which are included in the following 24 semester credit hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 5023</td>
<td>Accounting Analysis for Decision Making</td>
</tr>
<tr>
<td>ECO 5023</td>

**Flexible or Full-time Status.** The general M.B.A. degree allows students to take the program at their own pace, whether on a full-time or a part-time (flexible) basis. In addition, students may switch this status from semester to semester without additional approvals or admissions processes. Samples of flexible and full-time degree plans can be found at the College of Business graduate Web site: http://business.utsa.edu/graduate/.

**Degree Options:** Students seeking the M.B.A. degree may elect one of three options to complete the required 36 semester credit hours.

**Option 1: General M.B.A. Nonthesis Option.** Under Option 1, students are required to complete the 24 semester credit hours listed above and 12 semester credit hours of electives. These electives may be taken either in the College of Business (Departments of Accounting, Economics, Finance, Information Systems and Technology Management, Management, Management Science and Statistics, or Marketing) and include courses listed in the M.B.A. concentrations, or in areas outside of the College as approved by the Graduate Program Committee.

**Option 2: General M.B.A. Thesis Option.** Under Option 2, students are required to complete the 24 semester credit hours listed above, 6 semester credit hours of electives as approved by the Graduate Program Committee, and 6 semester credit hours of Master’s Thesis. See the University’s requirements for a thesis in Options for Master’s Degrees in Chapter 4.
Option 3: Nonthesis M.B.A. Concentration Option. Under Option 3, students have an opportunity to concentrate in a particular area. For the following concentrations, specific requirements for each are discussed under the departments of the College of Business: Accounting, Business Economics, Finance, Information Assurance, Information Systems, Management Science, Management of Technology, Marketing Management, Project Management, Real Estate Finance, and Tourism Destination Development. See below for details on the interdepartmental M.B.A. with a concentration in the Business of Health.

Master of Business Administration Degree – Business of Health Concentration

This concentration is designed to offer the opportunity for qualified graduate students to study business administration at the graduate level with particular emphasis in the business of health. It will assist students who enter with a wide range of work experience in their quest for advanced leadership and managerial roles within a variety of types of health care organizations.

Students choosing to concentrate in the business of health must complete the 24 semester credit hours of courses containing the M.B.A. Core.

In addition, students choosing this concentration must complete 12 semester credit hours as follows:

A. Required courses (9 semester credit hours):

- ACC 6763 Legal and Tax Strategies for Healthcare Organizations
- ACC 6773 Seminar in Medicare Regulation
- MGT 6123 Health Care Management

B. Elective courses (3 semester credit hours chosen from the following):

- ACC 6783 Accounting for Healthcare Organizations
- BLW 6553 Legal, Ethical, and Social Issues of Healthcare Management
- ECO 6543 Health Care Economics and Policy
- MGT 6133 Organizational and Managerial Issues in Health Care Delivery
- MGT 6923 Health Care Management Internship

Executive Master of Business Administration

The Executive Master of Business Administration (E.M.B.A.) is a version of the Master of Business Administration (M.B.A.) degree program structured specifically for executives, professionals, and entrepreneurs who have significant managerial experience. This five-semester plan of study features cohort classes, lock-step weekend class scheduling, and an emphasis on strategic leadership. The E.M.B.A. is accredited by the AACSB International—The Association to Advance Collegiate Schools of Business—and conforms to its recommended guidelines.

E.M.B.A. Program Admission Requirements. Because of the special focus of the E.M.B.A. program, the application process is separate from and independent of the regular M.B.A. program. Admission decisions are not reciprocal, class size is limited, and admission decisions are made on a rolling basis until all available class positions are filled.

For admission to the E.M.B.A. program, applicants must meet University-wide graduate admission requirements and the following College of Business requirements:

- In general, applicants are expected to meet M.B.A. program admission requirements with special additional consideration given to work experience, life accomplishments, and leadership potential.
- Applicants are expected to have approximately 10 years of work experience with increasing managerial responsibility. Less experienced applicants will be considered if they can demonstrate exceptional accomplishment.
- Applicants must submit three letters of professional reference attesting to leadership potential.
 Applicants are required to participate in a personal interview with the E.M.B.A. Admissions Subcommittee of the Graduate Program Committee.

Applicants who fail to meet these requirements can be admitted conditionally upon recommendation of the E.M.B.A. Admissions Subcommittee of the Executive Programs Committee and approval of the Dean of the Graduate School.

Students are expected to enter the E.M.B.A. program with basic computer skills, specifically in the use of Microsoft® Word, PowerPoint, and Excel. Special not-for-credit courses may be offered to address this need. Because of the lock-step nature of the E.M.B.A., students must complete all required courses without exception. There will be no course waivers. In addition, students who leave the program before completion for any reason are not eligible to rejoin the same class in a subsequent semester. Admission to future E.M.B.A. classes is dependent upon successful reapplication. Acceptance in a future program is not guaranteed.

**Master of Business Administration Degree in International Business**

The Master of Business Administration degree in International Business is designed to prepare students for successful careers in international management to meet the needs of businesses and economic development agencies at the regional, national, and global levels.

The M.B.A. program in International Business is offered in a full-time sequenced format that allows students to complete degree requirements in 13 months. Some courses require study outside of the United States, and additional travel costs are not included in the program tuition. Independent study and internships outside of the United States are encouraged but not required.

Students pursuing this degree must demonstrate current proficiency in one of the modern languages in addition to English.

**Program Admission Requirements.** Applicants for admission to the M.B.A. program in International Business are required to meet the same general admission requirements set out for the M.B.A. degree. Additionally, it is strongly recommended that students have two years of full-time work experience.

**Degree Requirements.** The M.B.A. program in International Business requires 34 semester credit hours of coursework. The program also requires three leveling courses (ACC 5003, MGT 5003 and MS 5003) for students whose undergraduate degree is not in international business. Students in the M.B.A. in International Business are required to take the international sections of all courses. The courses and their sequencing are as follows:

M.B.A. International Capstone Experience

1. MGT 5903 Strategic Management and Policy (offered in 3-week mini-semester)

or

2. With approval, one of the options listed below, to be completed from a non-U.S. location:
   - A capstone course offered at an approved school
   - An internship
   - An Independent Study (MGT 6953) supervised by a UTSA College of Business professor.

M.B.A. Online

The M.B.A. Online program is a Web-based, asynchronous degree program offered by a consortium of eight University of Texas System institutions through The University of Texas TeleCampus. Courses taken in this program do not count toward the traditional UTSA M.B.A. degree. Students who cannot commute regularly to the UTSA campus because of distance or time constraints are encouraged to consider the M.B.A. Online program. While all UTSA students participating in the M.B.A. Online program will follow UTSA admission procedures, registration procedures and tuition and fees may differ. Students should consult the UT TeleCampus Web site at http://www.telecampus.utsystem.edu for current information on the M.B.A. Online program and its courses.

Doctor of Philosophy Degree in Business Administration

The College of Business offers opportunities for advanced study and research leading to the Doctor of Philosophy degree in Business Administration. The degree program offers five areas of emphasis: Accounting, Finance, Information Technology, Marketing, and Organization and Management Studies. The Ph.D. in Business Administration is awarded to candidates who have displayed an in-depth understanding of the subject matter and demonstrated the ability to make an original contribution to knowledge in their field of specialty.

The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 5, Doctoral Degree Regulations).

Admission Requirements. Applicants must have a bachelor’s degree from an accredited university. The Doctoral Studies Committee in the major areas will evaluate applicants to the Ph.D. program based on several factors, including academic achievement, standardized test scores, employment history, a personal statement, letters of recommendation, and possibly an interview. A student should hold a master’s degree in a business discipline before being granted admission to the Doctor of Philosophy in Business Administration degree program. Applicants whose graduate degree is not in a business discipline will be required to satisfy M.B.A. Core requirements.

All applicants must submit the following material for evaluation:

- official transcripts of all undergraduate and graduate coursework completed
- Graduate Management Admission Test (GMAT) scores or Graduate Record Examination (GRE) scores from a recent (no more than five years old) administration of the examination
• three letters of recommendation from academic or professional sources familiar with the applicant’s background
• a résumé or curriculum vitae and a statement of academic interests and goals
• international students must also submit a score of at least 550 on the Test of English as a Foreign Language (TOEFL). TOEFL scores may not be more than two years old.

Admission normally requires appointment to a teaching assistantship, research assistantship, or research fellowship. The Doctoral Studies Committee, comprised of members selected from the graduate faculty, is responsible for advising students.

**Degree Requirements.** The degree requires a minimum of 69 semester credit hours beyond the master’s degree. If a student does not have a master’s degree in a business-related discipline, a minimum of 15 semester credit hours of M.B.A. Core coursework may be required. All students will be required to take 18 semester credit hours of Statistics and Research Methodology courses. Students will be required to take 19 semester credit hours of Ph.D.-level courses in the student’s major area of studies, as directed by the Doctoral Studies Committee. Students will take 9 semester credit hours of free electives. A minimum of 23 semester credit hours in doctoral research, including 1 hour for comprehensive examination and 12 hours for the Doctoral Dissertation, must be completed. No course for which a grade of less than “C” was earned can be applied to the Doctoral degree program and no more than two courses with a grade of “C” may be applied to the program.

**Program of Study**

A. **M.B.A. Core Courses:**

This requirement may be met by a Master’s degree in Business or business-related discipline. If a student does not have the appropriate graduate degree, a minimum of 15 semester credit hours must be taken from the following list:

- ACC 5023 Accounting Analysis for Decision Making
- ECO 5023 Managerial Economics
- FIN 5023 Financial Management
- MGT 5043 Management and Behavior in Organizations
- MGT 5253 Ethics and Globalization
- MGT 5903 Strategic Management and Policy
- MKT 5023 Marketing Management
- MS 5023 Decision Analysis and Production Management

B. **Statistics and Research Methodology (18 semester credit hours):**

1. Courses required of all students:
   - STA 7013 Advanced Applied Business Statistical Methods
   - STA 7023 Applied Linear Statistical Models

2. 12 semester credit hours from the following as approved by the Doctoral Studies Committee:
   - ECO 7013 Seminar in Microeconomic Theory
   - ECO 7053 Quantitative Methods for Business and Economics
   - ECO 7063 Econometrics
   - GBA 7013 Research Methods I
   - GBA 7023 Research Methods II
   - MS 7033 Applications in Causal Structural Modeling
   - STA 7033 Multivariate Statistical Analysis
   - STA 7083 Time Series Analysis
   - STA 7923 Bioinformatics and Data Mining II: Data Mining
C. Major Area Coursework:
   1. Four Ph.D.-level courses in major area; colloquium (13 semester credit hours).
   2. Two directed electives approved by the Doctoral Studies Committee from among graduate-level courses in major area
      (6 semester credit hours).

D. Free Electives (9 semester credit hours):

   Three courses to be approved by the Doctoral Studies Committee. If courses are in the College of Business, two are
   expected to be at the Ph.D. level. Courses from outside the College of Business must be at the graduate level and approved
   by the Committee.

E. Doctoral Research and Comprehensive Examination (11 semester credit hours):

   This requirement is met by doctoral research coursework and passing the comprehensive examination.

F. Dissertation Research (minimum 12 semester credit hours)

   The initial Program of Study must be approved by the Doctoral Studies Committee and must be submitted to the Dean of the
   Graduate School for final approval.

Advancement to Candidacy. Advancement to candidacy requires a student to complete University and program requirements
and to pass a written qualifying examination following completion of course requirements in the candidate’s major field of
study. The examination is administered by the Doctoral Studies Committee. No more than two attempts to pass qualifying
examinations are allowed. Results of the written and oral examinations must be reported to the Doctoral Studies Committee,
the Dean of the College, and the Dean of the Graduate School. Admission into the doctoral program does not guarantee
advancement to candidacy.

Dissertation. Candidates must demonstrate the ability to conduct independent research by completing and defending an original
dissertation. The research topic is determined by the student in consultation with his or her supervising professor. A dissertation
committee, selected by the student and supervising professor, guides and critiques the candidate’s research. The completed
dissertation must be formally presented to and approved by the Dissertation Committee.

Following an open presentation of the dissertation findings, the Dissertation Committee conducts a closed meeting to determine
the adequacy of the research and any further requirements for completion of the dissertation. Results of the meeting must be
reported to the Dean of the College and to the Dean of the Graduate School.

Awarding of the degree is based on the approval of the Dissertation Committee, approved by the Dean. The UTSA Dean of the
Graduate School certifies the completion of all University-wide requirements.

COURSE DESCRIPTIONS
GENERAL BUSINESS ADMINISTRATION
(GBA)

5193 Doing Business under NAFTA
   (3-0) 3 hours credit. Prerequisite: Permission of International Coordinator required.
   A study of business practices in the United States, Canada, and Mexico under NAFTA. This course may require travel
   and/or field study in the three countries.
6971-3  **Special Topics in General Business Administration**  (1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Topics courses may be repeated for credit when topics vary, but no more than 6 hours, regardless of discipline, will apply to the degree.

7013  **Research Methods I**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An introduction to the research process. The course examines the scientific method, issues in the philosophy of science, ethical issues in research, and an introduction to basic experimental and quasi-experimental design principles and threats to validity. The course also examines the elements of scientific paper writing.

7023  **Research Methods II**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An advanced study of contemporary research design and data collection techniques including interviewing, survey construction, use of archival data, and qualitative approaches to data collection.

7103  **Doctoral Teaching Seminar**  
(3-0) 3 hours credit.
A critical examination of teaching philosophies and pedagogical styles. Topics include course construction, content selection, and student learning.
DEPARTMENT OF ACCOUNTING

Mission Statement

The mission of the Department of Accounting is to advance accounting knowledge and practice through excellence in accounting education, high-impact research, and relevant continuing education and professional outreach activities that serve the constituents of the department in the state, nation, and globally.

All graduate programs in Accounting are separately accredited by AACSB International—The Association to Advance Collegiate Schools of Business—and conform to recommended guidelines.

Master of Business Administration Degree – Accounting Concentration

Students choosing to concentrate in accounting must complete the 24 semester credit hours of courses containing the M.B.A. Core and 12 semester credit hours of graduate accounting courses with a course number greater than 5023. In general, a student pursuing this concentration should have completed ACC 3023 Intermediate Accounting I and ACC 3033 Intermediate Accounting II or their equivalents. It is not possible for a student without an undergraduate degree in accounting or the equivalent to complete the coursework necessary to qualify for the Certified Public Accountant Examination in Texas by pursuing this concentration.

Five-Year (150-Hour) Professional Accounting Program

The Five-Year Professional Accounting Program is a 3/2 degree program. Undergraduate accounting majors should apply for admission to the program during the second semester of their junior year (the semester in which they are taking Intermediate Accounting II). Once admitted, these students are allowed to take graduate courses while, technically, undergraduate students. Students admitted to the 150-hour program will be reclassified from undergraduate to graduate student status when they have completed 120 semester credit hours of coursework toward their degree. In this program, the degree plan for the Bachelor of Business Administration (B.B.A.) in Accounting is combined with that of the Master of Accountancy (MACY). The advantage of the program is that it allows accounting majors to spread the graduate courses required for the MACY degree over the fourth and fifth years of the 150-hour program. Upon successful completion of the 150-hour program, students will be simultaneously awarded the B.B.A. in Accounting and the Master of Accountancy degrees.

Admission Criteria: To be admitted to the Five-Year (150-Hour) Professional Accounting Program, students must meet the following criteria:

1. be a declared accounting major
2. have an overall grade point average of 3.0, a grade point average of 3.0 in accounting courses taken, and an acceptable score on the Graduate Management Admission Test (GMAT)
3. have completed a minimum of 6 semester credit hours of upper-level undergraduate accounting courses including ACC 3023 Intermediate Accounting I.

In addition, the student must have completed at least 12 semester credit hours of upper-level undergraduate accounting courses by the end of the first semester following admission into the program.

Master of Accountancy Degree

The Master of Accountancy (MACY) degree is designed to accommodate applicants with a degree in any field. Applicants must complete the equivalent of a B.B.A. degree in accounting from an accredited institution or must enroll in the MACY core courses plus certain accounting courses set out by the Coordinator of Graduate Programs in Accounting. Students whose background is in business but who have completed MACY core courses or their equivalents seven or more years before entering the program may be required by the MACY Admissions Committee to successfully complete or test out of the MACY core courses. MACY core courses may be taken simultaneously with the MACY requirements, subject to course prerequisites and approval of the Coordinator of Graduate Programs in Accounting.
Program Admission Requirements. In order to be unconditionally admitted to the MACY program, applicants must meet University-wide graduate admission requirements. In addition, applicants are considered on the basis of demonstrated potential for success in graduate study in accounting and/or taxation as indicated by a combination of prior academic achievement, Graduate Management Admission Test (GMAT) scores, a personal statement, and other relevant factors.

A completed set of application material will include the following:

- completed application form
- transcripts from all universities attended
- official Graduate Management Admission Test (GMAT) scores
- a personal statement
- a current résumé with data regarding employment and other relevant experience (optional)
- letters of reference (optional).

Applicants are evaluated by the MACY Admissions Committee based on the above set of application materials. Those who do not meet the requirements for unconditional admission may be considered for admission on a conditional basis. Admission deficiencies, which do not count toward degree requirements, must be removed before enrolling for the last semester before graduation.

The following MACY core courses or their equivalents are required for students with undergraduate curriculum deficiencies; however, no credit for these courses will count toward the MACY degree requirements:

- ACC 2013 Principles of Accounting I
- ACC 2033 Principles of Accounting II
- ACC 3023 Intermediate Accounting I
- ACC 3033 Intermediate Accounting II
- ACC 3043 Federal Income Taxation
- ACC 3113 Accounting Information Systems I
- ACC 4013 Principles of Auditing
- BLW 5003 Legal Environment of Business
- ECO 5003 Economic Theory and Policy
- FIN 5003 Business Finance
- IS 5003 Introduction to Information Systems
- MGT 5003 Conceptual Foundations of Management
- MKT 5003 Introduction to Marketing
- MS 5003 Quantitative Methods for Business Analysis

Degree Requirements. The minimum number of semester credit hours required for this degree, exclusive of coursework or other study required to remove admission deficiencies, is 30 hours.

All candidates must complete the following:

A. Theoretical Foundations (6 semester credit hours):

   - ACC 6003 Managerial Accounting Theory
   - ACC 6013 Financial Accounting Theory

B. Disciplinary Focus. 12 semester credit hours of graduate electives in accounting or taxation, approved by the Coordinator of Graduate Programs in Accounting. Students may choose to focus their graduate study in one of four different areas through their choice of these 12 hours. Focus areas include taxation, audit services, financial accounting and managerial accounting. See the graduate advisors or the Coordinator of Graduate Programs in Accounting to discuss these options.
C. Ethical Component (3 semester credit hours):

ACC  5163  Ethics and Accountant’s Professional Responsibility

D. Experiential Component (3 semester credit hours):

ACC  6823  Accounting Practicum

or

ACC  6943  Accounting Internship

E. Electives:

3 semester credit hours of graduate electives in accounting, taxation, finance, or information systems approved by the Coordinator of Graduate Programs in Accounting.

F. Accounting Capstone (3 semester credit hours):

ACC  6993  Integrative Seminar in Accounting

Doctor of Philosophy Degree in Business Administration with an Emphasis in Accounting

The College of Business offers opportunities for advanced study and research leading to the Doctor of Philosophy degree in Business Administration with an emphasis in Accounting. See page 73 of this catalog for a detailed description of the general requirements for the Ph.D. degree. The Doctoral Studies Committee of the Department of Accounting will advise students admitted to the program who pursue a Ph.D. in Business Administration with an emphasis in Accounting.

To satisfy the Major Area Coursework for the accounting emphasis, a student must complete 12 semester credit hours chosen from Ph.D. level courses, colloquium (1 hour), and 6 hours of directed electives.

A. Ph.D. level courses (12 semester hours chosen from the following):

ACC  7013  Seminar in Empirical Research in Accounting
ACC  7023  Seminar in Behavioral Research in Accounting
ACC  7053  Current Topics in Accounting Research
ACC  7113  Seminar in Financial Accounting Theory
ACC  7123  Seminar in Managerial Accounting Theory

B. Colloquium (1 semester credit hour):

ACC  7201  Accounting Research Colloquium

C. Directed Electives (6 semester credit hours):

ACC  7043  Archival-Based Research Methods in Accounting
Graduate-level course in major area as approved by the Doctoral Studies Committee.
COURSE DESCRIPTIONS
ACCOUNTING
(ACC)

5003 Financial Accounting Concepts
(3-0) 3 hours credit.
An intensive study of accounting as a tool to communicate financial information for planning, analyzing, and controlling business enterprises directed toward decision making.

5023 Accounting Analysis for Decision Making
(3-0) 3 hours credit. Prerequisite: ACC 5003 or an equivalent.
The study of accounting and its uses by management in the decision-making process.

5153 Intermediate Accounting Topics
(3-0) 3 hours credit. Prerequisite: ACC 3033 or an equivalent.
A study of specialized financial reporting topics, including the application of professional standards and case-study analyses. (Credit cannot be earned for both ACC 5153 and ACC 4073.)

5163 Ethics and Accountant’s Professional Responsibility
(3-0) 3 hours credit. Prerequisite: Graduate standing.
A study of the role of a professional accountant; codes of accountants; ethical decision making; and the legal, regulatory and social environment in which an accountant makes decisions. This is a nonaccounting graduate course.

5173 Corporate Law and Regulation in Accounting
(3-0) 3 hours credit. Prerequisite: Graduate standing.
An advanced study of business law and regulations with special emphasis on how they relate to the accounting profession. This is a nonaccounting graduate course.

5513 Fundamentals of Information Assurance
(3-0) 3 hours credit. Prerequisite: Graduate standing.
This course examines the principle areas of information assurance. Topics will include protecting networks, intrusion detection, digital forensics, and supervisory control and data acquisition. Application to business environments will be emphasized. (Same as IS 5513. Credit cannot be earned for both ACC 5513 and IS 5513.)

5523 Fundamentals of Cyber Forensics
(3-0) 3 hours credit. Prerequisite: Graduate standing.
This course examines cyber forensics and includes hands-on projects using current industry technologies. Methods for retrieving data from disk drives and memory will be discussed. Retrieving data from mobile devices such as cell phones and PDA’s will be included. (Same as IS 5523. Credit cannot be earned for both ACC 5523 and IS 5523.)

5803 Controllership
(3-0) 3 hours credit. Prerequisite: ACC 3023 or an equivalent.
A study of the accounting executive’s role in the management of a business enterprise; case studies of the use of accounting information to management.

5813 Advanced Auditing
(3-0) 3 hours credit. Prerequisite: ACC 4013 or an equivalent.
A study of specialized areas of auditing. Topics may vary depending upon current professional controversies.

5823 Nonprofit and Governmental Accounting
(3-0) 3 hours credit. Prerequisite: ACC 3023 or an equivalent.
A study of accounting principles and practices of not for profit organizations, including federal, state, and local governments. (Credit cannot be earned for both ACC 5823 and ACC 4053.)
5833  **Cost Management and Control**  
(3-0) 3 hours credit. Prerequisite: ACC 3023 or an equivalent.  
Study of contemporary issues, cost concepts, and procedures in managerial accounting, to include analysis and application of techniques in the generation of data for management information systems.

5843  **Seminar in Current Auditing Issues**  
(3-0) 3 hours credit. Prerequisite: ACC 4013 or an equivalent.  
A study of the current and emerging issues of internal, operational, and financial auditing.

5863  **Advanced Financial Accounting**  
(3-0) 3 hours credit. Prerequisite: ACC 3033 or an equivalent.  
A study of specialized areas of financial accounting. Topics may vary depending upon current professional controversies.

5873  **Budgeting and Forecasting**  
(3-0) 3 hours credit. Prerequisite: ACC 3023 or an equivalent.  
Examines the accountant’s role in budgeting and forecasting. Study of advanced forecasting techniques and applications of microcomputers and forecasting.

5883  **Fraud Examination and Forensic Accounting**  
(3-0) 3 hours credit. Prerequisite: ACC 5813 or an equivalent.  
An in-depth exposure to the forensic accounting process and related audit topics, including identification of fraud risk factors and development of fraud detection programs and the use of accounting work done for litigation purposes.

5893  **Consulting**  
(3-0) 3 hours credit. Prerequisite: 15 semester credit hours of graduate accounting courses above ACC 5023 or an equivalent.  
A study of project management. An applied approach using teams with appropriate cumulative expertise will address the various issues encountered by consultants.

5913  **Corporate Valuation**  
(3-0) 3 hours credit. Prerequisites: ACC 3033 and FIN 5023 or an equivalent.  
The techniques and issues involved in making long-term investment decisions and valuing the financial claims on a company. Topics include the concepts of the cost of capital and financial structure, dividend policy, risk assessment and management, forecasting, and cash flow analysis. (Same as FIN 5813. Credit cannot be earned for both ACC 5913 and FIN 5813.)

5923  **Systems Auditing**  
(3-0) 3 hours credit. Prerequisite: ACC 5813 or an equivalent.  
Addresses special problems in auditing information technology. Introduces the concepts and principles of auditing accounting information systems including the control environment, general and application controls, and controls in a real-time IT environment. Provides an understanding of the basics of IT audit planning, control assessment, evidence gathering and evaluation, and communication of audit findings. Enables students to become familiar with the IT auditing profession, professional associations, IT audit certification, and IT audit resources available online. Examines the role of IT assurance, especially as it relates to electronic commerce ("e-commerce"), and the likely future development path of Web-based transaction processing and information reporting.

5943  **Financial Statement Analysis**  
(3-0) 3 hours credit. Prerequisites: ACC 3033 and FIN 5633 or an equivalent.  
The processes by which the economic information contained within financial statements is interpreted and used to evaluate historical performance and project future performance of the firm. Topics include hidden assets and liabilities, earnings quality, liquidity and cash flows. (Same as FIN 5943. Credit cannot be earned for both ACC 5943 and FIN 5943.)
6003  Managerial Accounting Theory  
(3-0) 3 hours credit. Prerequisite: ACC 3023 or an equivalent. 
Advanced study of the applications of managerial accounting, including cost analysis, variance analysis, pricing 
decisions, transfer pricing, and budgeting. Research into accounting literature, with the objective of critically evaluating 
the present status and future course of accounting thought.

6013  Financial Accounting Theory  
(3-0) 3 hours credit. Prerequisite: ACC 3033 or an equivalent. 
A study of the nature of accounting and the nature of theory, and a critical analysis of the history of the development 
of Generally Accepted Accounting Principles. Research into accounting literature, with the objective of critically 
evaluating the present status and future course of accounting thought.

6043  Tax Research  
(3-0) 3 hours credit. Prerequisite: ACC 3043 or an equivalent. 
An in depth study of how to find answers to tax questions. Students will become acquainted with various tax materials 
in the library and their use, including tax services, case reports, and IRS publications.

6053  Estate, Trust, and Gift Taxation  
(3-0) 3 hours credit. Prerequisite: ACC 4153 or an equivalent. 
Emphasis on estate and gift planning and income taxation of trusts and estates. Taxation of gratuitous transfers under 
the Federal Estate and Gift Tax Codes including inter vivos gifts, marital deduction, powers of appointment, retained 
interest, the concept of distributable net income, fiduciary taxation, and the concept of an estate.

6073  Advanced Corporate Taxation  
(3-0) 3 hours credit. Prerequisite: ACC 4153 or an equivalent. 
A study of federal income taxation of corporations and shareholders, which includes formation, distributions, penalty 
taxes, reorganization, and consolidations.

6083  Special Topics in Tax Practice  
(3-0) 3 hours credit. Prerequisite: ACC 4153 or an equivalent. 
Advanced case studies of tax audits, administrative appeals, settlement technique, appellate jurisdiction, choosing 
forums, ruling and technical requests, civil litigation, collection process, offers in compromise, interest and civil 
penalties, indirect methods of proof, and criminal penalties.

6103  International Taxation  
(3-0) 3 hours credit. Prerequisite: ACC 4153 or an equivalent. 
A study of the issues involved in the taxation of multinational corporations and international trade partners.

6113  Flow Through Entities  
(3-0) 3 hours credit. Prerequisite: ACC 4153 or an equivalent. 
A study of the special tax attributes of partnerships, S-corporations, limited liability companies, and limited liability 
partnerships including formation, operation, distributions, and dissolution.

6203  Seminar in International Accounting  
(3-0) 3 hours credit. Prerequisite: ACC 3023 or an equivalent or approval of the instructor. 
An analysis of the issues involved in accounting for multinational corporations, including historical and cultural 
influences on accounting standards and practice in financial reporting, management accounting, and audit/assurance. 
The course includes an overview of International Financial Accounting Standards (IFRS) and a comparison of IFRS 
to U.S. GAAP.

6763  Legal and Tax Strategies for Healthcare Organizations  
(3-0) 3 hours credit. Prerequisite: ACC 5003 or an equivalent or consent of the instructor. 
Overview of taxation and related legal issues affecting the healthcare industry. Topics include tax-exempt organizations, 
community benefit standards, choice of organizational form, and tax planning strategies for healthcare organizations 
and professionals.
6773 Seminar in Medicare Regulation
(3-0) 3 hours credit. Prerequisite: ACC 5003 or an equivalent or consent of the instructor.
Seminar in Medicare covered services, payment systems and compliance for healthcare providers. Emphasis is on understanding the role of Medicare in the American healthcare system, and developing the technical skills to identify and research problems in Medicare payments. Topics include Medicare administration and covered services, Part A hospital insurance benefits, Part B supplementary medical insurance benefits, Part C Medicare Advantage benefits, Part D prescription drug benefits, exclusions from coverage, provider payment rules, fraud & abuse, recovery audits, physician self-referral, anti-dumping rules, claims & appeals, and managed care plans. Includes practical experience using online research software, a comprehensive Medicare hospital cost report, and professional cost reporting software.

6783 Accounting for Healthcare Organizations
(3-0) 3 hours credit. Prerequisite: ACC 5003 or an equivalent or consent of the instructor.
A seminar on financial and managerial accounting in for-profit and nonprofit healthcare organizations. Accounting issues related to strategic decision-making in health service production, financing, and investment will be emphasized throughout the course. Topics include the healthcare accounting and financial environment, revenue and expense recognition, balance sheet valuations, ratio analysis, cost accounting, performance measurement, variance analysis, physician compensation and practice valuation, tax-exemption issues, mergers, and disclosure requirements. Special attention is given to the financial implications of third-party payment systems and accounting analyses for physician practices. Includes practical experience using actual healthcare case materials.

6823 Accounting Practicum
3 hours credit. Prerequisites: Graduate standing, 15 semester credit hours of upper-division accounting, or an equivalent.
A faculty directed, project-oriented course in which students will work in a community setting with assigned clients addressing a variety of accounting problems found in practice. Cannot be repeated for credit. Cannot count as an accounting elective toward the M.B.A. with a concentration in Accounting. (Credit cannot be earned for both ACC 6823 and ACC 6943.)

6943 Accounting Internship
3 hours credit. Prerequisites: Graduate standing, 15 semester credit hours of upper-division accounting, or an equivalent.
Internship must be approved in advance by the Internship Coordinator and the Graduate Advisor of Record. Supervised full- or part-time off-campus training in public accounting, industry, or government. Individual conferences and written reports required. Cannot be repeated for credit. Cannot count as an accounting elective toward the M.B.A. with a concentration in Accounting. (Credit cannot be earned for both ACC 6943 and ACC 6823.)

6951-3 Independent Study
1 to 3 hours credit. Prerequisites: Graduate standing and written permission of the instructor and the student’s Graduate Advisor of Record (forms available from the department office).
Independent reading, research, discussion, and/or writing under the direction of a graduate faculty member. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the degree.

6961 Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate committee on graduate studies to take the Comprehensive Examination.
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Committee on Graduate Studies. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).
6971-3 **Special Problems**  
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when the topics vary, but not more than 6 hours, regardless of discipline, will apply to the degree.

6993 **Integrative Seminar in Accounting**  
(3-0) 3 hours credit. Prerequisites: Completion of at least 18 semester credit hours of graduate coursework that applies to the MACY degree and approval of the Graduate Advisor of Record.  
A focus on the integration of financial accounting, auditing, managerial accounting and systems in assessing their relationships individually and collectively to business decision-making. Emphasizes the use of case studies and consideration of current business and accounting issues to demonstrate the link between various functional areas of accounting.

7013 **Seminar in Empirical Research in Accounting**  
(3-0) 3 hours credit. Prerequisites: Consent of instructor and admission to the Ph.D. program.  
An exploration of accounting research that employs observational, data-analytical methodology as means for theory development and validation, with emphasis on positive, empirical studies related to auditing, financial markets, and international accounting issues.

7023 **Seminar in Behavioral Research in Accounting**  
(3-0) 3 hours credit. Prerequisites: Consent of instructor and admission to the Ph.D. program.  
The behavioral research in accounting seminar is a dichotomous class aimed at providing students with a framework for understanding the behavioral implications of the development, dissemination, and use of accounting information through an understanding of behavioral theories and methodologies.

7043 **Archival-Based Research Methods in Accounting**  
(3-0) 3 hours credit. Prerequisites: Consent of instructor and admission to the Ph.D. program.  
Examination of quasi-experimental research designs and methods as used in archival-based accounting research. Provides students the opportunity to develop a foundation for performing research related to Ph.D. seminar project, academic research and scholarly papers. Includes partial or complete replications of published archival-based research papers.

7053 **Current Topics in Accounting Research**  
(3-0) 3 hours credit. Prerequisites: Consent of instructor and admission to the Ph.D. program.  
Seminar in current accounting research topics. Topics will vary. May be repeated for credit, but not more than 6 hours may be applied to the Doctoral degree.

7113 **Seminar in Financial Accounting Theory**  
(3-0) 3 hours credit. Prerequisites: Consent of instructor and admission to the Ph.D. program.  
This course focuses on accounting information reported to user groups outside the firm and is designed to introduce students to a number of substantive topics in empirical accounting research. Emphasis is placed on familiarizing students with the theories underlying financial accounting research, the nature of the research questions commonly addressed in empirical research, and the methods used to address those research questions. Topics include the earnings-return relation, financial reporting standard setting, information content of accounting disclosures, use of accounting information in contracting, and the relation between accounting information and firm value.

7123 **Seminar in Managerial Accounting Theory**  
(3-0) 3 hours credit. Prerequisites: Consent of instructor and admission to the Ph.D. program.  
A study of the accumulation, analysis, and interpretation of accounting data relevant to purposes of managerial decision making, profit planning, and control. Emphasis is placed on familiarizing students with the theories underlying cost/managerial accounting research, the nature of the research questions commonly addressed in cost/managerial accounting research, and the methods used to address those questions. A number of paradigms employed by researchers to study the use of accounting data within organizations will be discussed, including the application of mathematics and statistics to accounting analysis.
7201  Accounting Research Colloquium  
1 hour credit. Prerequisites: Consent of instructor and admission to the Ph.D. program. 
Presentation and analysis of literature in a selected area of research. May be repeated.

7211-6  Doctoral Research  
1 to 6 hours credit. Prerequisite: Completion of or concurrent enrollment in ACC 6961. 
May be repeated for credit, but not more than 24 hours may be applied to the Doctoral degree.

7311-6  Doctoral Dissertation  
1 to 6 hours credit. Prerequisite: Admission to candidacy for Doctoral degree in Business Administration. 
May be repeated for credit, but not more than 12 hours may be applied to the Doctoral degree.
DEPARTMENT OF ECONOMICS

Master of Business Administration Degree – Business Economics Concentration

The Master of Business Administration (M.B.A.) degree with a concentration in Business Economics is accredited by AACSB International—The Association to Advance Collegiate Schools of Business—and conforms to recommended guidelines.

This concentration is designed to offer the opportunity for qualified graduate students to study business administration at the graduate level with particular emphasis in business economics. It assists students in preparing for economics related careers in the business environment and government or for graduate study in economics at the doctoral level.

Students choosing to concentrate in business economics must complete the 24 semester credit hours of courses containing the M.B.A. Core and 12 semester credit hours as follows:

- ECO 6033 Macroeconomic Issues
- ECO 6103 Econometrics and Business Forecasting
- 6 semester credit hours of graduate economics elective courses

Master of Arts Degree in Economics

The Master of Arts degree in Economics (M.A.E.) blends the traditional social sciences-oriented master’s program in economics with modern applied and analytical tools. It is designed to prepare students for careers in a wide range of professional fields or further graduate study in economics. Students may choose a thesis or nonthesis option. The program and admissions are supervised by the Economics Graduate Program Committee, which includes the Economics Graduate Advisor. General requirements for completion of the program consist of required courses, electives, and a comprehensive examination.

Program Admission Requirements. For admission to the M.A.E. program, applicants must meet University-wide graduate admission requirements. Applicants are further considered on the basis of potential for success in graduate study in economics as indicated by a combination of records in the applicant’s application package, including:

- a completed application form
- transcripts from all universities attended
- official Graduate Record Examination (GRE) or Graduate Management Admission Test (GMAT) scores
- letters of reference (optional)
- a statement of purpose (optional).

The Economics Graduate Admissions Committee evaluates each applicant individually based on the stated records. Accepted students are required to have completed an undergraduate degree before the start of the Master’s program. Also, students with noneconomics undergraduate degrees may be required to take some undergraduate or graduate courses in addition to degree requirements.

Degree Requirements. Students must complete 33 semester credit hours and a comprehensive examination.

A. 12 semester credit hours of required economics graduate courses:

- ECO 6013 Microeconomic Theory
- ECO 6033 Macroeconomic Issues
- ECO 6103 Econometrics and Business Forecasting
- ECO 6113 Mathematical Economics

B. 21 semester credit hours of elective graduate work, 9 of which may be noneconomics courses, contingent upon approval by the Economics Graduate Advisor. With approval of the advisor, students with graduate credits in a noneconomics field may apply up to 9 hours of graduate work to fulfill the noneconomics elective requirements. In the case of students who
have not had similar courses in their undergraduate program, College of Business 5003-numbered courses other than ECO 5003 Economic Theory and Policy may, upon the Graduate Advisor’s approval, qualify as electives.

Such electives may be desirable for those with a prospect of entering the Ph.D. program in Business Administration at UTSA. Students pursuing the thesis option may fulfill up to 6 semester credit hours of the elective work with a thesis. Economics elective courses are economics graduate courses not in the student’s required course sequence, including:

- ECO 6203 Government and Business
- ECO 6213 Public Sector Economics
- ECO 6323 International Trade and Finance
- ECO 6403 Financial Economics
- ECO 6523 Labor Economics
- ECO 6533 Economics of Education
- ECO 6543 Health Care Economics and Policy
- ECO 6553 Urban and Regional Economics
- ECO 6971-3 Special Topics

C. Comprehensive Examination. Students must pass a comprehensive examination administered by their graduate committee. This examination is normally taken in the semester before or during the semester in which degree requirements are completed. During the first month of the appropriate semester, the student informs the Economics Graduate Advisor of the intent to take the examination and requests the formation of the committee. The committee consists of the Economics Graduate Advisor and two other faculty members, who may be recommended by the student. One committee member may be a noneconomics faculty member. If the thesis option is adopted, the thesis supervisor is a member of the committee.

**COURSE DESCRIPTIONS**

**ECONOMICS**

(ECO)

**5003 Economic Theory and Policy**
(3-0) 3 hours credit.
The opportunity for intensive study of micro- and macroeconomic concepts; the price system as it functions under competition, monopoly, and partial monopoly; national income measurement and determination; business cycles; money and banking; monetary policy; and fiscal policy and economic stabilization.

**5023 Managerial Economics**
(3-0) 3 hours credit. Prerequisites: ECO 5003 and MS 5003, or their equivalents.
Application of price theory to economic decisions of the firm. A problem-oriented approach emphasizing demand, production, and profit maximizing conditions, and their implications for output and pricing strategies under various market structures and types of organization.

**6013 Microeconomic Theory**
(3-0) 3 hours credit. Prerequisite: ECO 5003, an equivalent, or consent of instructor.
Introduction to advanced microeconomic theory and policy. Topics include theory of demand and consumer behavior, theory of production and cost analysis, market structures and pricing, and social welfare implications.

**6033 Macroeconomic Issues**
(3-0) 3 hours credit. Prerequisite: ECO 5003, an equivalent, or consent of instructor.
Introduction to advanced macroeconomic theory and policy. Topics include indicators of overall economic activity, various models of the economy and stabilization policies, economic growth, inflation and unemployment, models of consumption, investment, and trade and their impact on policy effectiveness. (Formerly ECO 5033. Credit cannot be earned for both ECO 6033 and ECO 5033.)
6103 Econometrics and Business Forecasting
(3-0) 3 hours credit. Prerequisite: ECO 5003, an equivalent, or consent of instructor.
Classical and advanced regression and forecasting methodologies, including analysis of simple and multiple regression models, hypothesis testing, smoothing procedures, autoregressive integrated moving average models for time series, forecast evaluation and combination. Application of computer-assisted regression analysis and forecasting methods to business and economic problems.

6113 Mathematical Economics
(3-0) 3 hours credit. Prerequisites: ECO 2013, ECO 2023, and MAT 1033, or their equivalents.
An examination of mathematical methods used in economic analysis. Topics include linear algebra, calculus and optimization techniques, and their applications in economic theory and decision making.

6203 Government and Business
(3-0) 3 hours credit. Prerequisite: ECO 5003, an equivalent, or consent of instructor.

6213 Public Sector Economics
(3-0) 3 hours credit. Prerequisite: ECO 5003, an equivalent, or consent of instructor.
Theoretical rationale for collective action; incidence, equity, and efficiency of taxation methods; externalities and property rights; analysis of public goods, regulation, and public choice. (Formerly ECO 5603. Credit cannot be earned for both ECO 6213 and ECO 5603.)

6323 International Trade and Finance
(3-0) 3 hours credit. Prerequisite: ECO 5003, an equivalent, or consent of instructor.
Classical and modern theories regarding trade patterns and commercial policies. Causes and consequences of international trade. International trade practices under varying commercial policy approaches. Balance of payments, foreign exchange markets, and exchange rate determination. International currency systems and policies. Regional monetary and economic integration. (Formerly ECO 5303. Credit cannot be earned for both ECO 6323 and ECO 5303.)

6403 Financial Economics
(3-0) 3 hours credit. Prerequisite: ECO 5003, an equivalent, or consent of instructor.
Foundations in modern financial economics. Applies economic analysis to financial issues. Analytical methods to be discussed include inter-temporal utility models and general equilibrium theory. Financial topics include mean-variance frontier, capital asset pricing model, and arbitrage pricing theory.

6523 Labor Economics
(3-0) 3 hours credit. Prerequisite: ECO 5003, an equivalent, or consent of instructor.
Survey of wage theory, wage determination and structure of labor markets, employment opportunities, economic security, leisure, technological change, and labor organizations and collective bargaining. (Formerly ECO 6313. Credit cannot be earned for both ECO 6523 and ECO 6313.)

6533 Economics of Education
(3-0) 3 hours credit. Prerequisite: ECO 5003, an equivalent, or consent of instructor.
The course will cover economic aspects of education, including student diversity, connections to civil society, competitiveness, and the resulting national and international controversies over political vs. market accountability of school operators. Students will have the opportunity to develop model-building and model-interpretation skills.

6543 Health Care Economics and Policy
(3-0) 3 hours credit. Prerequisite: ECO 5003, an equivalent, or consent of instructor.
The application of economic principles and modeling to the health care marketplace. Students will be given the opportunity to apply theoretical and empirical economic analysis to business and public policy issues in the health care industry.
6553  **Urban and Regional Economics**  
(3-0) 3 hours credit. Prerequisite: ECO 5003, an equivalent, or consent of instructor.  
Economic aspects of regions and their cities, including growth and development processes; data sources and analytical  
methods; and analysis of urban issues such as transportation, education, land use, pollution, and public sector service  
delivery.

6943  **Economics Internship**  
3 hours credit. Prerequisites: Graduate standing, 15 semester credit hours of graduate work, and consent of instructor.  
Internship must be approved in advance by the Internship Coordinator and the student’s Graduate Advisor of Record.  
Cannot count as an economics elective toward an M.B.A. with a concentration in Business Economics.  
Supervised full- or part-time off-campus work experience and training in economics. Individual conferences and  
written reports required.

6951-3  **Independent Study**  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and  
the student’s Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing  
specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit,  
but not more than 6 hours, regardless of discipline, will apply to the degree.

6961  **Comprehensive Examination**  
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive  
Examination.  
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times  
as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive  
Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR”  
(satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the  
Comprehensive Examination).

6971-3  **Special Topics**  
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of the  
regular course offerings. Special Topics courses may be repeated for credit when the topics vary, but not more than 6  
hours, regardless of discipline, will apply to the degree.

6983  **Master’s Thesis**  
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.  
Thesis research and preparation. May be repeated for credit, but not more than 6 semester credit hours will apply to a  
Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the  
thesis is in progress.

7013  **Seminar in Microeconomic Theory**  
(3-0) 3 hours credit. Prerequisite: ECO 3013 or ECO 3033, an equivalent, or consent of instructor.  
Decision problems faced by the household and firm; theories of consumer choice; theory of production, cost, markets,  
and pricing decisions in deterministic and stochastic settings.

7023  **Seminar in Macroeconomic Theory**  
(3-0) 3 hours credit. Prerequisite: ECO 3053, an equivalent, or consent of instructor.  
Macroeconomic models and their implications for forecasting and policy; determination of the interest rate, price level,  
wage rate, employment, and output; dynamic models of consumption, investment, and expectations; introduction to  
monetary economics and growth models.
7041-3  **Topics in Economic Research**  
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.  
Seminar on special topics in a particular area of research. These topics may include financial economics, econometrics, international economics, industrial organization, public economics, resources and energy, and government and business. May be repeated for credit when topics vary.

7053  **Quantitative Methods for Business and Economics**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
A review of mathematical tools and their application in modeling and solving business and economic problems. Topics include linear algebra, linear systems and solution methods, special and multivariate functions, differential and integral calculus, constrained optimization and Lagrange method, and optimal control and dynamic programming.

7063  **Econometrics**  
(3-0) 3 hours credit. Prerequisites: MAT 1033, MS 1013, STA 7013, and STA 7023, or equivalents, or consent of instructor.  
A study of fundamental econometric techniques and applications. Topics include single equation models, least squares, and maximum likelihood estimation, properties of estimators, generalized least squares, general linear hypothesis, model selection techniques, simultaneous equations identification and estimation methods, distributed lag models, forecasting and time-series models.

7083  **Time Series Analysis**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Univariate and multivariate time series analysis of economics and financial data, autoregressive integrated moving average (ARIMA), vector autoregression, unit roots, cointegration, error correction, and ARCH models.
DEPARTMENT OF FINANCE

All graduate programs in Finance are accredited by AACSB International—The Association to Advance Collegiate Schools of Business—and conform to recommended guidelines.

Master of Business Administration Degree – Finance Concentration

This concentration is designed to offer the opportunity for qualified graduate students to study business administration at the graduate level with an emphasis in finance. It particularly assists students in preparing for finance related careers in the business environment or for graduate study in finance at the doctoral level.

Students choosing to concentrate in finance must complete the 24 semester credit hours of courses containing the M.B.A. Core and 12 semester credit hours as follows:

- FIN 5633 Investment Theory and Problems
- 9 semester credit hours of graduate finance elective courses

Master of Business Administration Degree – Real Estate Finance Concentration

This concentration is designed to offer the opportunity for qualified graduate students to study business administration at the graduate level with an emphasis in real estate finance. It assists students in preparing for real estate careers in the business environment or for graduate study in real estate at the doctoral level.

Students choosing to concentrate in real estate finance must complete the 24 semester credit hours of courses containing the M.B.A. Core and 12 semester credit hours as follows:

- FIN 5413 Real Estate Finance
- FIN 5433 Real Estate Investment
- FIN 5453 Real Estate Development
- MOT 5243 Essentials of Project and Program Management

Master of Science Degree in Construction Science and Management

The Master of Science in Construction Science and Management (M.S.C.S.M.) is designed to offer the opportunity for intensive education in business administration and real estate finance and development to qualified graduate students.

Program Admission Requirements. For admission to the Master of Science in Construction Science and Management program, applicants must meet University-wide graduate admission requirements. Applicants are further considered on the basis of demonstrated potential for success in graduate study in construction science and management as indicated by a combination of prior academic achievement, Graduate Management Admission Test (GMAT) scores, personal statement, résumé (optional) and references (optional).

The M.S.C.S.M. Graduate Program Committee evaluates each applicant individually based on the complete package of submitted materials.

A complete application package will include:

- a completed application form
- transcripts from all universities attended
- official Graduate Management Admission Test (GMAT) scores
- a personal statement
Students with non-construction science and management undergraduate degrees may be required to take additional undergraduate and graduate courses for removal of deficiencies, as determined by the Graduate Program Committee in Construction Science and Management. Such courses do not apply toward the degree.

Degree Requirements. Students must complete 33 semester credit hours and a comprehensive examination.

A. 15 semester credit hours of foundations of knowledge courses:

- ACC 5023 Accounting Analysis for Decision Making
- FIN 5023 Financial Management
- MGT 5043 Management and Behavior in Organizations
- MKT 5023 Marketing Management
- MS 5023 Decision Analysis and Production Management

B. 15 semester credit hours of required courses:

- CSM 5633 Advanced Construction Management
- FIN 5413 Real Estate Finance
- FIN 5433 Real Estate Investment
- FIN 5453 Real Estate Development
- FIN 6313 Modeling of Financial Decision Making

C. 3 semester credit hours of elective coursework from the following list of courses, as approved by the Graduate Advisor of Record:

- ARC 5303 International Practice
- CSM 5133 Construction Practice in a Global Setting
- CSM 5413 Advanced Topics in Construction Systems
- MOT 5243 Essentials of Project and Program Management

D. Comprehensive Examination. All candidates must pass a comprehensive examination administered by the Graduate Program Committee in Construction Science and Management.

Master of Science Degree in Finance

The Master of Science degree in Finance (M.S.F.) provides an intensive education in various aspects of finance, including markets and institutions, corporate finance, international finance, financial modeling, and investments including derivative securities. Emphasis is on theoretical aspects of finance, developments in financial instruments and markets, and practical application tools and techniques. The program is designed to train students to be financial managers and analysts in corporations, banks, and investment institutions. It also provides the opportunity for students to prepare to undertake specialized certification examinations and doctoral studies in finance. The program, including admission, is supervised by the Graduate Program Committee in Finance, which includes the Graduate Advisor in Finance. General requirements for completion of the program consist of nonfinance foundations of knowledge requirements, required finance courses, elective work, and a comprehensive examination.

Program Admission Requirements. For admission to the Master of Science degree in Finance program, applicants must meet University-wide graduate admission requirements. Applicants are further considered on the basis of demonstrated potential for success in graduate study in finance as indicated by a combination of prior academic achievement, Graduate Management Admission Test (GMAT) scores, personal statement, résumé (optional), and references (optional).
The M.S.F. Graduate Program Committee evaluates each applicant individually based on the complete package of submitted materials.

A complete application package will include:

- a completed application form
- transcripts from all universities attended
- official Graduate Management Admission Test (GMAT) scores
- a personal statement
- a current résumé with employment or other experience (optional)
- letters of reference (optional).

Students with nonfinance undergraduate degrees may be required to take additional undergraduate and graduate courses for removal of deficiencies, as determined by the Graduate Program Committee in Finance. Such courses do not apply toward the degree.

**Degree Requirements.** Students must complete 33 semester credit hours and a comprehensive examination.

**Degree Options:** Students seeking the M.S.F. degree may elect one of two options to complete the required 33 semester credit hours; M.S.F. General Option, or M.S.F. Real Estate Finance Concentration.

**Master of Science Degree in Finance – General Option**

Under M.S.F. General Option, students are required to complete 6 hours of M.S.F. foundations of knowledge courses, 9 hours of finance courses and 18 hours of elective courses as outlined below.

A. 6 semester credit hours of foundations of knowledge courses:

   ACC 5023  
   MS 5023
   Accounting Analysis for Decision Making
   Decision Analysis and Production Management

B. 9 semester credit hours of Finance courses:

   FIN 5023
   FIN 5633
   FIN 6313
   Financial Management
   Investment Theory and Problems
   Modeling of Financial Decision Making

C. 18 semester credit hours of electives, at least 15 of which must be from the set of courses shown below. The Graduate Advisor in Finance must approve any electives chosen outside this set. The electives include:

   ECO 5023
   FIN 5033
   FIN 5413
   FIN 5433
   FIN 5453
   FIN 5713
   FIN 5723
   FIN 5733
   FIN 5813
   FIN 5833
   FIN 5853
   FIN 5943
   FIN 6213
   Managerial Economics
   Cases in Financial Management
   Real Estate Finance
   Real Estate Investment
   Real Estate Development
   Financial Markets
   Fixed Income Analysis
   Banking and the Financial Services Industry
   Corporate Valuation
   International Financial Management
   Entrepreneurial Business Finance
   Financial Statement Analysis
   Speculative Markets and Securities
FIN 6223 Corporate Risk Management
FIN 6943 Finance Internship
FIN 6951-3 Independent Study
FIN 6973 Special Problems

D. Comprehensive Examination. All candidates must pass a comprehensive examination administered by the Graduate Program Committee in Finance.

**Master of Science Degree in Finance – Real Estate Finance Concentration**

This concentration is designed to offer the opportunity for qualified graduate students to study finance at the graduate level with an emphasis in real estate finance. It assists students in preparing for real estate careers in the field of finance or for graduate study in real estate at the doctoral level.

Students choosing to concentrate in real estate finance must complete the 6 semester credit hours containing the M.S.F. foundations of knowledge courses, the 21 semester credit hours of required courses, and 6 semester credit hours of electives.

A. 6 semester credit hours of foundations of knowledge courses:

- ACC 5023 Accounting Analysis for Decision Making
- MS 5023 Decision Analysis and Production Management

B. 21 semester credit hours of required courses:

- FIN 5023 Financial Management
- FIN 5413 Real Estate Finance
- FIN 5433 Real Estate Investment
- FIN 5453 Real Estate Development
- FIN 5633 Investment Theory and Problems
- FIN 6313 Modeling of Financial Decision Making
- MOT 5243 Essentials of Project and Program Management

C. 6 semester credit hours of electives from the following set of courses or as approved by the advisor:

- ECO 5023 Managerial Economics
- FIN 5033 Cases in Financial Management
- FIN 5713 Financial Markets
- FIN 5723 Fixed Income Analysis
- FIN 5733 Banking and the Financial Services Industry
- FIN 5813 Corporate Valuation
- FIN 5833 International Financial Management
- FIN 5853 Entrepreneurial Business Finance
- FIN 5943 Financial Statement Analysis
- FIN 6213 Speculative Markets and Securities
- FIN 6223 Corporate Risk Management
- FIN 6943 Finance Internship
- FIN 6951-3 Independent Study
- FIN 6973 Special Problems

D. Comprehensive Examination. All candidates must pass a comprehensive examination administered by the Graduate Program Committee in Finance.
Doctor of Philosophy Degree in Business Administration with an Emphasis in Finance

The College of Business offers opportunities for advanced study and research leading to the Doctor of Philosophy degree in Business Administration with an emphasis in Finance. See page 73 of this catalog for a detailed description of the general requirements for the Doctoral degree. The Doctoral Studies Committee of the Department of Finance will advise students admitted to the program who pursue a Ph.D. in Business Administration with an emphasis in Finance.

To satisfy the Major Area Coursework for the finance emphasis, a student must complete:

A. 12 semester credit hours from the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 7013</td>
<td>Financial Theory</td>
</tr>
<tr>
<td>FIN 7023</td>

COURSE DESCRIPTIONS

FINANCE
(FIN)

5003 Business Finance
(3-0) 3 hours credit. Prerequisite: ACC 5003 or an equivalent.
The framework, tools, and basic concepts of financial management. Areas of inquiry include discounted cash flow
techniques, financial forecasting, working capital management, external financing, capital budgeting.

5023 Financial Management
(3-0) 3 hours credit. Prerequisites: ACC 5003, ECO 5003, and FIN 5003, or their equivalents. Completion of or
concurrent enrollment in ACC 5023 is recommended.
The study of concepts related to the financial management of the firm. Topics include asset and liability management,
capital investment analysis and valuation, risk and uncertainty, sources and costs of financial alternatives, and corporate
financial policy.

5033 Cases in Financial Management
(3-0) 3 hours credit. Prerequisite: FIN 5023 or an equivalent.
A case approach will be used to illustrate the applications of financial management to business situations and to
integrate topical areas. Primary areas of focus include planning, current asset management, capital budgeting, mergers
and acquisitions, risk management, and financing alternatives.

5413 Real Estate Finance
(3-0) 3 hours credit. Prerequisite: FIN 5023 or an equivalent.
A study of finance concepts applied to real estate lending and development. Topics may include the primary and
secondary mortgage markets, construction and development financing, lender loan analysis, an introduction to the
legal aspects of real property lending, and an overview of real estate investment trusts.
5433  Real Estate Investment
(3-0) 3 hours credit. Prerequisite: FIN 5023 or an equivalent.
This course focuses primarily on the fundamentals and valuation of real property as an investment class. The course examines the major concepts and analytical methods useful for making real estate investment and finance decisions relating to individual properties. It builds upon the modern corporate finance perspective and treats property as one particular class of capital assets. This course may cover other topics that relate to investment property analysis such as securitized equity real estate investment where the emphasis is on multiple property valuation and decision making and such as commercial appraisal methods as they relate to property valuation.

5453  Real Estate Development
(3-0) 3 hours credit. Prerequisite: FIN 5023 or an equivalent.
This course studies the real estate development process. Topics may include evaluation of real estate trends to project development needs, zoning and other legal considerations, site selection and evaluation, ownership and financing consideration, project scheduling, and evaluation of completed projects. Real estate professionals may be invited to present proposed or recently developed projects in San Antonio or other locations that may be used as case studies.

5633  Investment Theory and Problems
(3-0) 3 hours credit. Prerequisite: FIN 5023 or an equivalent.
A study of investment analysis and decision making with regard to financial instruments traded in organized markets. Topics include descriptions and functions of markets; impact of market structure on market efficiency and security pricing; valuation of stocks, bonds, and options; analysis of risk and return characteristics of investment alternatives; and selection and management of bond and stock portfolios.

5713  Financial Markets
(3-0) 3 hours credit. Prerequisite: FIN 5023 or an equivalent.
An examination of major financial markets with emphasis on current trends and developments. Topics include markets used for risk management, such as financial futures, listed options, and swaps.

5723  Fixed Income Analysis
(3-0) 3 hours credit. Prerequisite: FIN 5633 or an equivalent.
Develops a framework for the analysis of fixed income securities, valuation and risk-return characteristics of these instruments, and trading and portfolio strategies. Various data sources and financial software used to integrate theoretical concepts with practical applications.

5733  Banking and the Financial Services Industry
(3-0) 3 hours credit. Prerequisite: FIN 5023 or an equivalent.
The study of management practices applicable to banks and other firms operating in the financial services industry. Bank management practices using an asset/liability management approach are emphasized. Topics include major trends and developments having an impact on the financial services industry.

5813  Corporate Valuation
(3-0) 3 hours credit. Prerequisite: FIN 5023 or an equivalent.
The techniques and issues involved in making long-term investment decisions and valuing the financial claims on a company. Topics include the concepts of the cost of capital and financial structure, dividend policy, risk assessment and management, forecasting, and cash flow analysis. (Same as ACC 5913. Credit cannot be earned for both FIN 5813 and ACC 5913.)

5833  International Financial Management
(3-0) 3 hours credit. Prerequisite: FIN 5023 or an equivalent.
The theory of business finance as applied to the operations of multinational firms. The determinants of exchange rates and the management of exchange rate risk are analyzed in terms of their impact on how a multinational corporation functions in the international setting. Topics include the financial analysis and control of foreign investment decisions, management of working capital, participation in the international capital markets, financing of international trade, and management of corporate risk.
5853  Entrepreneurial Business Finance  
(3-0) 3 hours credit. Prerequisite: FIN 5023 or an equivalent. 
The course focuses on the financial needs and conditions unique to the small firm that arise as it progresses from the development stage through the start-up, expansion, and harvesting stages. Topics include comparison of operating and managerial characteristics, valuation issues, and financial alternatives.

5943  Financial Statement Analysis  
(3-0) 3 hours credit. Prerequisite: FIN 5633 or an equivalent. 
The processes by which the economic information contained within financial statements is interpreted and used to evaluate historical performance, project future performance, and valuation of the firm. Topics include hidden assets and liabilities, earnings quality, liquidity and cash flows. (Same as ACC 5943. Credit cannot be earned for both FIN 5943 and ACC 5943.)

5963  International Business Internship  
3 hours credit. Prerequisites: Consent of instructor and the Graduate Advisor of Record.  
Opportunity for work experience in international business or a public agency.

5983  International Business Essay  
3 hours credit. Prerequisites: Consent of instructor and the Graduate Advisor of Record.  
Original research report on an international management topic.

6213  Speculative Markets and Securities  
(3-0) 3 hours credit. Prerequisite: FIN 5633 or an equivalent.  
An examination of derivative financial instruments such as options and futures and their potential role in controlling portfolio risk. Valuation and the risk and return characteristics of these instruments, as well as trading and portfolio strategies, will be developed.

6223  Corporate Risk Management  
(3-0) 3 hours credit. Prerequisite: FIN 5633 or an equivalent.  
An understanding of derivative instruments and their application in corporate risk management is developed. The topics covered reflect the fact that management of risk in the corporate context is a source of competitive advantage and growth. Derivative instruments such as options, futures, and swaps are analyzed. The choice of different instruments and their properties in managing corporate risk is examined.

6313  Modeling of Financial Decision Making  
(3-0) 3 hours credit. Prerequisite: FIN 5023 or an equivalent.  
Computer models of financial problems commonly encountered in industry are developed. Topics include financial statement analysis, financial planning and forecasting, capital investment analysis, and financing decisions. Applications to investment analysis include security and options valuations, performance analysis, and portfolio management. Decision making under uncertainty is examined through various techniques, including simulation.

6943  Finance Internship  
3 hours credit. Prerequisites: Graduate standing, 15 semester credit hours of graduate work, and consent of instructor.  
Internship must be approved in advance by the Internship Coordinator and the student’s Graduate Advisor of Record. Cannot count as a finance elective toward the M.B.A. with a concentration in Finance. Supervised full- or part-time off-campus work experience and training in finance. Individual conferences and written reports required.

6951-3  Independent Study  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the degree.
6961 Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive Examination.
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6971-3 Special Problems
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when the topics vary, but not more than 6 hours, regardless of discipline, will apply to the degree.

6983 Master’s Thesis
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to a Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

7013 Financial Theory
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
The course covers financial theory, including considerations of financial decision making in an uncertain environment, introduction to utility theory; state-preference theory; and mean-variance choice theories. Considerations of market equilibrium, introduction to financial derivatives, and international finance will be covered, as well as empirical findings in finance.

7023 Corporate Finance
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
The theory of financial management of the firm, including Miller and Modigliani propositions and their extensions; imperfect information and agency problems; and asymmetric information and signaling, will be considered. Corporate finance issues such as capital structure, dividend policy, corporate governance, and bankruptcy topics will be covered. Empirical research in corporate financial decisions will also be covered.

7033 Valuation
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
The concepts of valuation are developed through such topics as asset pricing models and arbitrage methods. Development of concepts of value additivity, stochastic dominance, and state preference will be undertaken. Stochastic processes and stochastic calculus are developed for the pricing of options in continuous time. Other discrete time processes and valuation methods will also be covered.

7043 Empirical Finance
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Theoretical concepts of asset pricing are presented, techniques for testing various hypotheses regarding asset pricing models, option pricing models, and fixed income models are examined. Market structure issues using event studies and time series applications are developed.

7053 Topics in Financial Research
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
This is a research seminar course where the topics may vary. Topics envisaged include the following: advanced international financial management topics, the theory and management practices in financial intermediaries, and advanced topics in real estate finance. The course may be repeated for credit when topics vary.
7113  **International Financial Markets**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Techniques are demonstrated in how to conduct empirical research in international financial markets (Forex, stocks, bonds, commodities, and derivatives) with sophisticated econometrics and extensive data analysis. Topics include trading mechanisms, market efficiency, price discovery, arbitrage, transaction costs, portfolio management, and exchange policies.

7201-3  **Finance Research Colloquium**  
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.  
Presentation and analysis of literature in a selected area of research. May be repeated.

7211-6  **Doctoral Research**  
1 to 6 hours credit.  
May be repeated for credit, but not more than 24 hours may be applied to the Doctoral degree.

7311-6  **Doctoral Dissertation**  
1 to 6 hours credit. Prerequisite: Admission to Candidacy for the Doctoral degree in Business Administration.  
May be repeated for credit, but not more than 12 hours may be applied to the Doctoral degree.
DEPARTMENT OF INFORMATION SYSTEMS AND TECHNOLOGY MANAGEMENT

All graduate programs in Information Systems and Technology Management are accredited by AACSB International—The Association to Advance Collegiate Schools of Business—and conform to recommended guidelines.

Master of Business Administration Degree – Information Assurance Concentration

This concentration is designed to offer the opportunity for qualified students to study business administration while developing special expertise in information assurance. To achieve this end, students can focus their elective courses on information assurance subjects such as voice and data security, risk assessment, computer forensics, and incident response. These course offerings require previous academic credit or professional experience in information security, information systems or computer science.

Students choosing to concentrate in information assurance must complete the 24 semester credit hours of courses containing the M.B.A. Core and 12 semester credit hours of graduate information assurance courses.

Master of Business Administration Degree – Information Systems Concentration

This concentration is designed to offer the opportunity for qualified graduate students to study business administration while developing special expertise in information systems. To achieve this end, students can focus their elective courses on developing general managerial knowledge in the design and implementation of information systems, management of communications technologies, and principles of database management systems. Some of the course offerings require previous academic credit or professional experience in information systems.

Students choosing to concentrate in information systems must complete the 24 semester credit hours of courses containing the M.B.A. Core and 12 semester credit hours of graduate information systems courses other than IS 5003 Introduction to Information Systems.

Master of Business Administration Degree – Management of Technology Concentration

This concentration is designed to offer the opportunity for qualified graduate students, primarily with a nontechnical background, to study business administration while developing special expertise in the management of technology. To achieve this end, students can focus their elective courses on developing general managerial skills applicable to technology-based organizations, leading professional and technical employees, and integrating the various functions of an organization in today’s rapidly changing technological environment.

Students choosing to concentrate in management of technology must complete the 24 semester credit hours of courses that constitute the M.B.A. Core and 12 semester credit hours as follows:

A. Required courses (6 semester credit hours):

   - MOT 5163 Management of Technology
   - MOT 5223 Management of Professional Personnel

B. Elective courses (6 semester credit hours):

   Students must complete an additional 6 semester credit hours of graduate courses from Management of Technology, Information Systems (other than IS 5003 Introduction to Information Systems), Management Science (other than MS 5003 Quantitative Methods for Business Analysis), and/or Statistics.
Master of Business Administration Degree – Project Management Concentration

This concentration is designed to offer qualified graduate students the opportunity to study business administration while developing special expertise in project management. To achieve this end, students will complete courses that will enable them to manage projects successfully. Additionally, students will focus their elective choices to improve their understanding of the business environment in which contemporary projects are managed. Students choosing to concentrate in project management must complete the 24 semester credit hours of the courses that constitute the M.B.A. Core and 12 semester credit hours as follows:

A. Required Courses (6 semester credit hours):
   - MOT 5233 Advanced Topics in Project Management
   - MOT 5243 Essentials of Project and Program Management

B. Elective courses (6 semester credit hours):
   Students are required to take 6 semester credit hours of graduate elective courses. Students are encouraged to select courses which will develop their knowledge of a specific project management domain such as e-commerce, health care management, information systems, or technology management. The Management of Technology (MOT) Graduate Program Committee must approve the 6 elective hours.

Master of Science Degree in Information Technology

The Master of Science degree in Information Technology (M.S.I.T.) provides information systems and computer science professionals with the opportunity to acquire technical knowledge in a variety of specialized information technology fields and the management skills to create, plan, organize, lead, and control the information technology in their organizations. The program is designed for students with a technical background and preferably an undergraduate or graduate degree in information systems or computer science.

Program Admission Requirements. For admission to the M.S.I.T. program, applicants must meet University-wide graduate admission requirements. Applicants are further considered on the basis of demonstrated potential for success in graduate study in information technology as indicated by a combination of prior academic achievement, Graduate Management Admission Test (GMAT) scores, personal statement, résumé (optional), and references (optional).

The M.S.I.T. Graduate Program Committee evaluates each applicant individually based on the complete package of submitted materials.

A complete application package will include:

- a completed application form
- transcripts from all universities attended
- official Graduate Management Admission Test (GMAT) scores
- a personal statement
- a current résumé with employment or other experience (optional)
- letters of reference (optional).

Degree Requirements. Candidates for the degree of Master of Science in Information Technology (M.S.I.T.) must complete the following:

A. 12 semester credit hours of required courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>IS 5143</td>
<td>Information Technology</td>
</tr>
<tr>
<td>IS 5203</td>
<td>Telecommunication Systems</td>
</tr>
<tr>
<td>MGT 5043</td>
<td>Management and Behavior in Organizations</td>
</tr>
</tbody>
</table>
MOT 6203 Strategic Management of Technology
or
IS 6813 Strategic Management of Information Technology

B. All candidates for the degree must complete an additional 21 semester credit hours of elective courses:

1. 15 semester credit hours selected from the following:

   CS 5103 Software Engineering
   CS 5443 Database Management Systems
   CS 6543 Networks
   CS 6553 Performance Evaluation
   IS 5193 Software Engineering Management
   IS 5563 International Telecommunications Policy
   IS 6103 Information Systems Design and Implementation
   IS 6303 Introduction to Voice and Data Security
   IS 6323 Security Risk Analysis
   IS 6343 Secure Network Designs
   IS 6353 Security Incident Response
   IS 6363 Computer Forensics
   IS 6373 Cyber Law
   IS 6383 Policy Assurance for Infrastructure Assurance
   IS 6423 Secure Software Design
   IS 6433 Supervisory Control and Data Acquisition
   IS 6503 Principles of Database Management
   IS 6703 Advanced Business Information Systems
   IS 6953 Independent Study

2. 6 semester credit hours selected from the following:

   MGT 5093 Leadership
   MGT 5133 Organizational Decision Making
   Any of the graduate courses from Management of Technology (MOT) other than MOT 6203 Strategic Management of Technology.

Master of Science Degree in Information Technology – Infrastructure Assurance Concentration

This concentration is designed to offer the opportunity for qualified graduate students to study information technology while developing the special expertise in infrastructure assurance. To achieve this end, students can focus their elective courses on developing the specialized knowledge requirements for the computer and information security area while at the same time completing the requirements for the Master of Science (M.S.) degree.

Program Admission Requirements. For admission to the M.S.I.T. program, applicants must meet University-wide graduate admission requirements. Applicants are further considered on the basis of demonstrated potential for success in graduate study in information technology as indicated by a combination of prior academic achievement, Graduate Management Admission Test (GMAT) scores, personal statement, résumé (optional), and references (optional).

The M.S.I.T. Graduate Program Committee evaluates each applicant individually based on the complete package of submitted materials.

A complete application package will include:

- a completed application form
- transcripts from all universities attended
• official Graduate Management Admission Test (GMAT) scores
• a personal statement
• a current résumé with employment or other experience (optional)
• letters of reference (optional).

Degree Requirements. Candidates for the degree of Master of Science in Information Technology (M.S.I.T.) must complete the following:

A. 15 semester credit hours of required courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>IS 5143</td>
<td>Information Technology</td>

Any of the graduate courses from Management of Technology (MOT) other than MOT 6203 Strategic Management of Technology.

Master of Science Degree in Management of Technology

The Master of Science in Management of Technology (M.S. MOT) differs significantly from both the M.B.A. and the M.B.A. with a concentration in Management of Technology. The M.S. MOT has a different set of required foundations of knowledge courses and focuses on management issues and skills required to stimulate and manage technological innovation and creativity, and help bring value creating ideas, goods, and services to the marketplace. Courses may be available through distance learning.

Program Admission Requirements. For admission to the M.S. MOT program, the ideal applicant should have an undergraduate or graduate degree in a scientific, engineering, mathematical, or other technology-based discipline from an accredited university or college and meet University-wide graduate admission requirements. In addition, the MOT Graduate Program Committee evaluates each applicant individually, based on a combination of:
• prior academic achievement
• Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) scores
• at least two letters of recommendation
• a current résumé with employment or other experience
• a personal statement.

**Degree Requirements.** Students must successfully complete 33 semester credit hours and a comprehensive examination.

**A.** Candidates are required to successfully complete the following 18 semester credit hours:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOT 5053</td>
<td>Building Enterprise Equity</td>
</tr>
<tr>
<td>MOT 5163</td>
<td>Management of Technology</td>
</tr>
<tr>
<td>MOT 5223</td>
<td>Management of Professional Personnel</td>
</tr>
<tr>
<td>MOT 5243</td>
<td>Essentials of Project and Program Management</td>
</tr>
<tr>
<td>MOT 5313</td>
<td>Emerging Technologies</td>
</tr>
<tr>
<td>MOT 6923</td>
<td>Directed Research in Management of Technology</td>
</tr>
</tbody>
</table>

**B.** Candidates must complete an additional 12 semester credit hours of electives as approved by the MOT Graduate Program Committee.

**C.** Degree Options. Students seeking the MOT degree may elect one of two options to complete the required 33 semester credit hours:

**Option 1: General M.S. MOT Nonreport Option.** Under Option 1, students are required to complete the 18 semester credit hours listed above, 12 semester credit hours of electives as approved by the MOT Graduate Program Committee, and the capstone course MOT 6203 Strategic Management of Technology.

**Option 2: General M.S. MOT Report Option.** Under Option 2, students are required to complete the 18 semester credit hours listed above, 12 semester credit hours of electives as approved by the MOT Graduate Program Committee, and the capstone experience MOT 6933 Management of Technology Professional Report.

**D.** Candidates must pass a comprehensive examination administered by the MOT Graduate Program Committee.

**Doctor of Philosophy Degree in Business Administration with an Emphasis in Information Technology**

The College of Business offers opportunities for advanced study and research leading to the Doctor of Philosophy degree in Business Administration with an emphasis in Information Technology. See page 73 of this catalog for a detailed description of the general requirements for the Doctoral degree. The Doctoral Studies Committee of the Department of Information Systems and Technology Management will advise students admitted to the program who pursue a Ph.D. in Business Administration with an emphasis in Information Technology.

To satisfy the Major Area Coursework for the information technology emphasis, a student must complete:

**A.**

**B.** Two directed electives (6 semester credit hours) as approved by the Doctoral Studies Committee.
COURSE DESCRIPTIONS
INFORMATION SYSTEMS
(IS)

5003  Introduction to Information Systems
(3-0) 3 hours credit.
A conceptual study of information systems in organizations. A survey of information systems concepts will
be presented, including a historical perspective of information systems, the structure of the information systems
function, an introduction to information systems technologies (hardware and software), application planning, system
development, end user computing, decision support systems, and the management of information systems resources.
Small cases and application problems which illustrate the concepts studied will be assigned. Credit for this course
cannot be counted toward the M.B.A. concentration in Information Systems or the Master of Science degree in
Information Technology.

5013  Database Management for Business
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
The use of databases in a contemporary business environment will be discussed. The course includes an in-depth
analysis of topics associated with the definition, creation, and use of databases for business-oriented applications.
Topics include current applications in the field of database management systems with hands-on experience with a
database or data-warehousing software package. Credit for this course cannot be counted toward the Master of Science
degree in Information Technology.

5023  Software Development
(3-0) 3 hours credit. Prerequisite: IS 5003 or an equivalent.
Modern approaches to program design. Emphasis in this course is on programming logic, object-oriented programming
and program design. JAVA will be used to illustrate the concepts of the class. Class projects using JAVA will give
the students some experience in developing software. Credit for this course cannot be counted toward the Master of Science
degree in Information Technology.

5043  Analysis and Design of Information Systems
(3-0) 3 hours credit. Prerequisite: IS 5003 or an equivalent.
This course concentrates on the procedures for conducting the analysis and design of an information system. The
techniques necessary to determine the requirements of a large-scale information system will be the focal point of the
course. Translating the user requirements to system specifications will also be one of the main objectives of the course.
Credit for this course cannot be counted toward the Master of Science degree in Information Technology.

5113  Electronic Commerce
(3-0) 3 hours credit. Prerequisite: IS 5003 or an equivalent.
Addresses the technological aspects of doing business on the Internet, including the technology underlying the Internet,
common services required for all electronic commerce such as authentication and electronic payment systems, and the
problems associated with some electronic commerce applications.

5143  Information Technology
(3-0) 3 hours credit. Prerequisite: Undergraduate degree in information systems or computer science, or consent
of instructor.
Broad coverage of technology concepts underlying modern computing and information management. Topics include
computer architecture and operating systems, information retrieval techniques, graphical user interfaces, networks,
groupware, computer performance evaluation, efficiency of algorithms, and cryptography. Hands-on exposure
to Internet services, SQL database language, PowerBuilder graphical interface language, and object-oriented
programming language.
5193  **Software Engineering Management**  
(3-0) 3 hours credit. Prerequisite: Undergraduate degree in information systems or computer science, or consent of instructor.  
Focuses on managing and improving the delivery of software in organizations, especially projects that include the development of large, multidisciplined systems. Students are exposed to the tools and techniques used on commercial systems, and will present research on how best to manage information technology projects. Emphasis on measurement tools for effective managerial planning and control.

5203  **Telecommunication Systems**  
(3-0) 3 hours credit. Prerequisite: Undergraduate degree in information systems or computer science, or consent of instructor.  
Examines current, future, and basic technical concepts and related telecommunications operations; explores critical issues of communications and connectivity among information systems from strategic, organizational, and technical perspectives. An in-depth examination of basic telecommunication terminology and concepts. Topics include signaling, modulation, multiplexing, frequency bands and propagation characteristics, spectral analysis of signals, digital coding, switching systems, OSI models, and traffic analysis.

5313  **Web Site Design and Development**  
(3-0) 3 hours credit. Prerequisite: IS 5113 or consent of instructor.  
This course examines the principles of designing Web sites to meet business requirements. The course includes a technical look at Web site architecture and database integration in support of e-commerce utilizing popular commercial software. Hands-on team projects involving actual development utilizing principles from the course will be a major element of the course.

5513  **Fundamentals of Information Assurance**  
(3-0) 3 hours credit. Prerequisite: Graduate standing.  
This course examines the principle areas of information assurance. Topics will include protecting networks, intrusion detection, digital forensics, and supervisory control and data acquisition. Application to business environments will be emphasized. Credit for this course cannot be counted toward the Master of Science degree in Information Technology. (Same as ACC 5513. Credit cannot be earned for both IS 5513 and ACC 5513.)

5523  **Fundamentals of Cyber Forensics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing.  
This course examines cyber forensics and includes hands-on projects using current industry technologies. Methods for retrieving data from disk drives and memory will be discussed. Retrieving data from mobile devices such as cell phones and PDA’s will be included. Credit for this course cannot be counted toward the Master of Science degree in Information Technology. (Same as ACC 5523. Credit cannot be earned for both IS 5523 and ACC 5523.)

5563  **International Telecommunications Policy**  
(3-0) 3 hours credit. Prerequisite: IS 5203 or consent of instructor.  
The ultimate use of technology depends on a number of variables. Political factors as well as technical ones must be considered. All levels of government regulate telecommunications, from the city that controls the placement of telephone wires to the nation and/or state that issues licenses to broadcast. Because of the nature of telecommunications and the importance of the information it carries, international policies are also involved. This seminar investigates the institutions that affect the use of telecommunications, including the Department of State, the Department of Commerce, and the Federal Communications Commission.

6103  **Information Systems Design and Implementation**  
(3-0) 3 hours credit. Prerequisite: IS 4053 or consent of instructor.  
Integrates the areas of computer technology, systems analysis, and systems design in designing large-scale application or decision support systems. A strong introduction to the formalization of the information systems design process is provided. The course explores state of the art systems design and specification techniques and stresses the frontiers of knowledge in the specification, design, implementation, and testing of information systems.

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Prerequisites</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>6203</td>
<td>Data Communication and Network Management</td>
<td>(3-0)</td>
<td>Consent of instructor.</td>
<td>Emphasis is on the impact of communications technology on information systems and the firm. Major topics include communication concepts, network architectures, data communications software and hardware, distributed information systems, and communication services. Network management and managing the new technologies are also emphasized.</td>
</tr>
<tr>
<td>6303</td>
<td>Introduction to Voice and Data Security</td>
<td>(3-0)</td>
<td>IS 5203 or consent of instructor.</td>
<td>A study of security in both the voice and data networks and an examination of the security issues associated with the movement toward a convergence of the two infrastructures. Topics to be covered include voice and data network connectivity, modem security, VOIP security, wireless security, cryptography, intrusion detection systems, voice and data firewalls, malicious software, information operations and warfare, and denial of service attacks.</td>
</tr>
<tr>
<td>6323</td>
<td>Security Risk Analysis</td>
<td>(3-0)</td>
<td>IS 5203 and IS 6303, or consent of instructor.</td>
<td>Addresses the tools, techniques, and methodologies in performing computer system and network security risk analyses. Computer system and network vulnerabilities will be examined as well as tools designed to discover or exploit them. Security Best Practices and audit requirements for specific environments will be studied. Topics to be covered include internal and external penetration tests, wardialing, wireless security technology, risk analysis methodology, and security audits.</td>
</tr>
<tr>
<td>6343</td>
<td>Secure Network Designs</td>
<td>(3-0)</td>
<td>IS 5203 and IS 6303, or consent of instructor.</td>
<td>The course is intended to provide the background on issues related to secure network design and management. Subjects included in the class are network design, firewalls, security, fault management, and performance management. Current network management software, network security evaluation, and the role of the network architecture and protocols will also be discussed.</td>
</tr>
<tr>
<td>6353</td>
<td>Security Incident Response</td>
<td>(3-0)</td>
<td>IS 6303.</td>
<td>Addresses the detection and response portion of the security operational model. Takes an in-depth look at intrusion detection methodologies and tools and the approaches to handling intrusions when they occur. Examines the laws that address cybercrime and intellectual property issues. Includes a study of proper computer and network forensics procedures to aid in the identification and tracking of intruders and in the potential prosecution of criminal activity.</td>
</tr>
<tr>
<td>6363</td>
<td>Computer Forensics</td>
<td>(3-0)</td>
<td>IS 6303 or consent of instructor.</td>
<td>This class will examine the role of computer forensics in the security process. Technical issues concerning how to conduct a forensics examination as well as the legal issues associated with the process will be studied. Current forensics software will be used to illustrate the process.</td>
</tr>
<tr>
<td>6373</td>
<td>Cyber Law</td>
<td>(3-0)</td>
<td>Consent of instructor.</td>
<td>Legal issues associated with cybercrimes will be studied. Laws associated with cybercrime, and rules of evidence will be the main issues discussed in this class. Intellectual property and privacy will also be included.</td>
</tr>
<tr>
<td>6383</td>
<td>Policy Assurance for Infrastructure Assurance</td>
<td>(3-0)</td>
<td>Consent of instructor.</td>
<td>This course will examine the policies associated with infrastructure assurance. This will include the laws and regulations from a governmental body as well as policies generated by a business organization. The main thrust will be to examine the affect that policies and policy decisions have on the security function. Current case studies will be included.</td>
</tr>
</tbody>
</table>
6393  Risk Assessment
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
This course addresses the development and implementation of Information Assurance (IA) Risk Assessment (RA).
The course presents an in-depth analysis of the range of knowledge required for performing RA functions. This course
addresses the core performance requirements for an RA, and also provides a set of performance measures that can be
incorporated into the RA functions.

6403  Information Resource Management
(3-0) 3 hours credit. Prerequisite: MGT 5043 or consent of instructor.
Study of the problems and techniques associated with managing information resources. Topics include information
systems project planning and control, staffing, and costing alternatives. The role of the information systems function
in relation to the business firm is also studied.

6423  Secure Software Design
(3-0) 3 hours credit. Prerequisites: IS 5143 and IS 6303, or consent of instructor.
This class will present ways of designing and implementing secure software. Techniques for developing interconnected
software that is secure from outside attack will be explored. Modifying legacy code will also be discussed. Case
studies and class projects will be used to illustrate the design principles discussed in class.

6433  Supervisory Control and Data Acquisition
(3-0) 3 hours credit. Prerequisite: IS 6303 or consent of instructor.
Supervisory control and data acquisition systems are used to control many utility networks, chemical plants, pipelines
and many other types of industries. This course will examine the vulnerabilities associated with these systems
and discuss how they can be made secure from outside attack. Fundamentals of software-controlled processes will
also be discussed.

6503  Principles of Database Management
(3-0) 3 hours credit. Prerequisite: IS 3063 or consent of instructor.
Discussion and in depth analysis of topics associated with the definition, creation, and management of databases for
business-oriented applications. Topics include current developments in the field of database management systems.
Design and implementation of a database system will be done as a major project in the course.

6603  Seminar in Computer Security and Internal Control
(3-0) 3 hours credit. Prerequisite: IS 5003 or consent of instructor.
In-depth analysis of topics related to control and security during system development and operation of information
systems. Emphasis is on techniques associated with control and security requirements in information systems.

6703  Advanced Business Information Systems
(3-0) 3 hours credit. Prerequisite: IS 3073 or consent of instructor.
Study of computer-based technologies for facilitating the analysis and evaluation of complex problems. A review
of decision analysis and a discussion of representations and the modeling process. General concepts of artificial
intelligence are examined as the foundation for designing computer-based information systems that support strategic
planning and managerial control. Methods and principles of knowledge engineering are explored.

6813  Strategic Management of Information Technology
(3-0) 3 hours credit. Prerequisite: Semester of graduation or consent of Graduate Advisor of Record.
This course develops a conceptual framework for strategy, its definition, elements, and relationships to the basic
business functions of management of information technology. Considers the impact of technology and environmental
forces on strategic management of organizations. Examines the role of information technology in business process re-
engineering, product life cycles, and new business models. (Same as MOT 5203 and MOT 6203. Credit can be earned
for only one of the following: IS 6813, MOT 5203, or MOT 6203.)
6951-3 Independent Study
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the degree.

6961 Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate committee on graduate studies to take the Comprehensive Examination.
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Committee on Graduate Studies. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6971-3 Special Problems
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the degree.

6983 Master’s Thesis
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director (form available).
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

7013 Foundations of Information Systems Research
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
A survey of the foundations of information systems (IS) research. Students gain an understanding of both the foundations and the current research directions in a variety of IS topic areas. The course addresses frameworks, research concepts, and exemplary Management Information Systems (MIS) research. Students develop the ability to critically evaluate MIS journal articles and are exposed to diverse topics, research methodologies, and journals.

7023 Behavioral and Organizational Information Systems Research
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
This course focuses on one or more areas of emerging IS behavioral research. Topics may include individual, group, or organizational decision making, issues for e-commerce, knowledge management, management of information, and human factors. May be repeated for credit when topics vary.

7033 Topics in Information Systems Technology Research
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
This research seminar focuses on issues and methods in one or more areas having to do with the technology of information systems. Topics may include communication systems, infrastructure assurance, and data management. May be repeated for credit when topics vary.

7043 Seminar in Software Development
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
In this course, theories and models applicable to the analysis of systems structure and the processes of systems analysis and design are studied in relation to software engineering concepts. Emerging or advanced topics in the development of information system applications, such as socio-technical or soft-system methods, methodology engineering, or workflow system design, are included.
7201  Information Technology Research Colloquium
1 hour credit. Prerequisite: Consent of instructor.
This course will primarily be a presentation and analysis of research in information technology with particular emphasis on the students’ areas of specialization.

7211-6  Doctoral Research
1 to 6 hours credit.
May be repeated for credit, but not more than 24 hours may be applied to the Doctoral degree.

7311-6  Doctoral Dissertation
1 to 6 hours credit. Prerequisite: Admission to Candidacy for the Doctoral degree in Business Administration.
May be repeated for credit, but not more than 12 hours may be applied to the Doctoral degree.

COURSE DESCRIPTIONS
MANAGEMENT OF TECHNOLOGY
(MOT)

5053  Building Enterprise Equity
(3-0) 3 hours credit. Prerequisite: MKT 5023 or consent of instructor.
An analysis of the role of technology and innovation in modern business practice. Emphasis is on managing technological change to develop business opportunities and competitive advantage. The concepts and tools covered aim to make the task of innovation and product portfolio management more understandable and controllable.

5163  Management of Technology
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Examines a broad range of topics and issues involved in the management of technology, including the international research and development environment and infrastructure; government, industry, and university roles in technology development; managing the research and development function; technology forecasting and assessment; and new product development.

5173  Technology Transfer: The Theory and Practice of Knowledge Utilization
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Technology transfer or diffusion may be defined as the utilization or application of knowledge. The course examines the organizational, behavioral, and communication challenges involved in transferring technology from the research laboratory to the marketplace.

5213  Organizational Systems for Management of Technology
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Focuses on organizational systems commonly found in modern organizations dealing with technology, innovation, and creativity. Considers alternative organizing concepts, interfacing and integrating considerations, and decision-making and control systems.

5223  Management of Professional Personnel
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
The study of behavior in professional and technical organizations. Focuses on the characteristics of professional and technical personnel, status and role systems within the professional organization, and communication and conflict within and among professional groups.

5233  Advanced Topics in Project Management
(3-0) 3 hours credit. Prerequisite: MOT 5243 or consent of instructor.
An advanced course that examines contemporary issues in project management. Includes topics such as, the value of project management, organizational project management maturity, project selection models, enterprise project management, and project office implementation. Synthesis and evaluation are emphasized. A basic understanding of project management is required.
5243 Essentials of Project and Program Management
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
This course addresses concepts and techniques for the management of business and technology projects. Includes topics such as the project life cycle, project planning, project scheduling, project cost estimating, project risk analysis, project control techniques, earned value management, project organizations and functions, project manager responsibilities, and team building.

5253 Starting the High-Tech Firm
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
A review of the steps and processes involved in starting a technology-based economic endeavor. The focus is built around the steps of identifying a problem area, identifying potential technological solutions to the identified need, and developing a proposed business entity to commercialize the technology solution.

5313 Emerging Technologies
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Examines science-based innovations with the potential to either create or transform a constellation: emerging technologies may involve either a single discovery or a bundle of innovations that converge to create a new technological system. This course focuses not only on the emergence of technology from basic research to implementation, but also on the commercialization of technology. Seminar format, case-study preparation, presentation, and cooperative learning are defining characteristics of this course.

5323 Biotechnology Industry
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An overview of the biotechnology industry, this course includes discussions covering biologics, pharmaceuticals and medical devices from discovery and design through commercialization and marketing. Focus is on strategic issues confronting management of an early stage biotech company from start-up through the venture capital phase. Seminar format, presentation, and cooperative learning are defining characteristics of this course.

5333 Technological Drivers of Globalization
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
A study of technological factors contributing to the globalization of business, economic, political and social systems. Emphasis is on identifying positive as well as negative consequences of technology-driven globalization and studying possible disruptions to globalization caused by economic or resource limitations.

6203 Strategic Management of Technology
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Development of a conceptual framework for strategy, its definition, elements, and relationships to the basic functions of management of technology. Considers the impact of technology and environmental forces on strategic management of the organization. (Formerly MOT 5203. Same as IS 6813. Credit can be earned for only one of the following: MOT 6203, MOT 5203, or IS 6813.)

6923 Directed Research in Management of Technology
(3-0) 3 hours credit. Prerequisite: Completion of 15 semester credit hours of required Management of Technology (MOT) courses or consent of instructor.
A directed research course in which students complete a faculty directed research project that addresses a contemporary management of technology issue or problem. Students will also develop an appreciation and understanding of contemporary management of technology research as published in leading management of technology journals. This course includes a comprehensive examination that addresses the learning goals of the MOT program.

6933 Management of Technology Professional Report
3 hours credit. Prerequisites: MOT 6923 and consent of instructor.
Research and preparation of an in-depth study of a complex problem in management of technology. Credit is awarded upon completion of the project, thesis, conference paper, or publishable article.
6943  Management of Technology Internship
3 hours credit. Prerequisites: Graduate standing, 15 semester credit hours of graduate work, and consent of instructor. Internship must be approved in advance by the Internship Coordinator and the student’s Graduate Advisor of Record. Supervised full- or part-time off-campus work experience and training in management of technology. Individual conferences and written reports are required.

6951-3  Independent Study
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record. Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6961  Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate graduate program committee to take the Comprehensive Examination. Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the MOT Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6971-3  Special Problems
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor. An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when the topics vary, but not more than 6 hours, regardless of discipline, will apply to a Master’s degree.
DEPARTMENT OF MANAGEMENT

All graduate programs in Management are accredited by AACSB International—The Association to Advance Collegiate Schools of Business—and conform to recommended guidelines.

Doctor of Philosophy Degree in Business Administration with an Emphasis in Organization and Management Studies

The College of Business offers opportunities for advanced study and research leading to the Doctor of Philosophy degree in Business Administration with an emphasis in Organization and Management Studies. See page 73 of this catalog for a detailed description of the general requirements for the Doctoral degree. The Doctoral Studies Committee of the Department of Management will advise students admitted to the program who pursue a Ph.D. in Business Administration with an emphasis in Organization and Management Studies.

To satisfy the Major Area Coursework for the Organization and Management Studies emphasis, a student must complete:

A. MGT 7013 Seminar in Organizational Behavior
MGT 7023 Seminar in Organization Theory
MGT 7033 Seminar in Strategic Human Resources
MGT 7043 Foundations of Strategy
MGT 7201 Organization and Management Studies Research Colloquium

B. Two directed electives:

MGT 7053 Empirical Approaches to Strategy
MGT 7073 Seminar in Organization and Management Studies

COURSE DESCRIPTIONS

MANAGEMENT

(MGT)

5003 Conceptual Foundations of Management
(3-0) 3 hours credit.
This course examines the evolution and development of conceptual frameworks for understanding managerial work and organizational processes within the context of changing environments. An integrated strategic management perspective is emphasized.

5043 Management and Behavior in Organizations
(3-0) 3 hours credit. Prerequisite: MGT 5003 or an equivalent.
This course examine the processes and techniques used to get work done through others in an organization. These processes include a study of individual differences, motivation, leadership, group behavior, interpersonal communication, decision making, and change. Cross-cultural applications are considered.

5053 Advanced Organizational Communication
(3-0) 3 hours credit. Prerequisite: MGT 5043.
A survey of theoretical and functional aspects of organizational communication, stressing interpersonal, intra- and interorganizational, and intercultural communication.
5093  **Leadership**  
(3-0) 3 hours credit. Prerequisite: MGT 5043 or consent of instructor.  
An advanced course in organizational behavior that examines traditional and contemporary perspectives on leadership and the group process toward which leadership is directed. The course includes applications of leadership theory to contemporary organizational problems.

5133  **Organizational Decision Making**  
(3-0) 3 hours credit. Prerequisite: MGT 5043 or consent of instructor.  
An advanced course in organizational behavior focusing on the behavioral elements of the decision-making process. Drawing on theory and research in several disciplines, the course examines individual, group, and organizational decision-making models. Emphasis on prescriptive models for effective decision making.

5153  **Social Issues in Business**  
(3-0) 3 hours credit. Prerequisite: MGT 5043.  
Focuses on the forces surrounding the secularly oriented, technologically energized, and scientifically administered business sector of Western society. Develops an understanding of the underlying and basic forces that have fostered and shaped business. Emergence of the social responsibility ethic is examined.

5183  **Global and Comparative Management**  
(3-0) 3 hours credit. Prerequisite: MGT 5003 or consent of instructor.  
Examination of management challenges facing multinational and international business. Includes the study of organization options, political risk and strategy, staffing, communication, multicultural negotiations, and cross-cultural behavior and management. Emphasis on different countries’ approaches to competing, notably East Asia, Mexico, and Europe.

5233  **International Business Analysis**  
(3-0) 3 hours credit. Prerequisite: MGT 5003, an equivalent, or consent of instructor.  
The opportunity to develop strategic opportunities in international business through the analysis of international trade and other international statistics. Extensive use of the Internet and international databases to find, evaluate, analyze, and develop international business opportunities. Emphasis is on developing export and import trade and transportation opportunities.

5243  **International Business Strategy**  
(3-0) 3 hours credit. Prerequisite: MGT 5003, an equivalent, or consent of instructor.  
Emphasis on how firms create global bases of sustainable competitive advantage. Examines strategic problems unique to global business competition, including dimensions of perceived environment uncertainty, international entry-mode choices, global sourcing, and creating entry barriers to defendable product markets.

5253  **Ethics and Globalization**  
(3-0) 3 hours credit.  
This course explores the differing standards of permissible behavior of companies attempting to remain competitive in a global marketplace. How leaders make responsible decisions in conflicting environments is examined through interactive learning experiences that include group discussions, group projects, self-directed evaluations and problem-solving exercises. Students will have the opportunity to gain an understanding of the strengths and weaknesses of their own personal values and beliefs as well as the importance of accountability for responsible leadership. In addition, students will be provided with foundations for ethical reasoning laying the groundwork for responsible decision-making.

5623  **Employee Relations/Negotiations**  
(3-0) 3 hours credit. Prerequisite: MGT 5003 or consent of instructor.  
An analysis of various employee relations systems in organizations. Emphasis on various formal and informal discipline, grievance, and appeal systems in private and public organizations, as well as group and individual negotiation and dispute resolution processes.
5633 Effective Negotiating
(3-0) 3 hours credit. Prerequisite: MGT 5003, an equivalent, or consent of instructor.
An advanced course on the theory and processes of negotiation as it is practiced in a variety of settings. The course is designed to be relevant to the broad spectrum of negotiation problems that are faced by the manager and professional.

5643 Management of Personnel and Human Resources
(3-0) 3 hours credit. Prerequisite: MGT 5043 or consent of instructor.
Management’s approach to and the techniques for handling the human resources in an organization. An examination of the primary management activities involved in the procurement, development, utilization, and maintenance of its human resources. Course focuses on behavioral and social science findings as they relate to the policy and practice of managing the employment relationship.

5723 Labor Relations in the Public Sector
(3-0) 3 hours credit. Prerequisite: MGT 5043 or consent of instructor.
An analysis of the unique role of labor relations at the federal, state, and local levels. Consideration is given to relevant legislation and how and why public employees organize for collective bargaining. Emphasis is on the practical aspects of bargaining and contract administration and how they relate to the public in general.

5733 Employment Law and Legislation
(3-0) 3 hours credit. Prerequisite: MGT 5043 or consent of instructor.
An analysis of the various laws and administrative rulings having an impact on the employment process of organizations. Focus is on the law as it affects various administrative decisions in recruiting, selection, training, promoting, and other employment areas, including benefits and labor relations.

5813 Strategic Human Resources Management
(3-0) 3 hours credit. Prerequisite: MGT 5643 or consent of instructor.
An examination of the overall role and functions of human resource management in relation to an organization’s strategic planning process. Emphasis is on human resource issues of strategic importance to an organization’s top management. Course focuses on the broader issues of human resource management policy, practice, and trends.

5903 Strategic Management and Policy
(3-0) 3 hours credit. Prerequisite: Completion of the M.B.A. Core courses or consent of instructor.
A course intended to integrate material taken in the M.B.A. program, as well as to broaden the horizons of the student beyond the focus on the firm. The macroeconomic aspects of the economy and contemporary problems and trends of business are covered. Students who earn a grade of “B” or better in this course will satisfy the comprehensive examination requirement. A student who receives a grade of “C” may still satisfy this requirement by successfully passing a comprehensive examination as set out in this catalog.

6123 Health Care Management
(3-0) 3 hours credit. Prerequisite: MGT 5003 or an equivalent.
Introduction to the health care industry, health care management and policy issues, managing in a regulated industry, and health care research issues. Students will have the opportunity to analyze several aspects of the health care industry using organizational and managerial frameworks.

6133 Organizational and Managerial Issues in Health Care Delivery
(3-0) 3 hours credit. Prerequisite: MGT 5003 or an equivalent or consent of instructor.
An analysis of the organizational and managerial implications of clinical issues in the delivery of health care. Students have the opportunity to examine quality of care issues and concerns related to patient care that affect how health care organizations are managed.
6923  Health Care Management Internship
3 hours credit. Prerequisites: Graduate standing, 15 semester credit hours of graduate work, and consent of instructor. Internship must be approved in advance by the Internship Coordinator and the student’s Graduate Advisor of Record. Supervised full- or part-time off-campus work experience and training in health care management. Individual conferences and written reports required.

6943  Management Internship
3 hours credit. Prerequisites: Graduate standing, 15 semester credit hours of graduate work, and consent of instructor. Internship must be approved in advance by the Internship Coordinator and the student’s Graduate Advisor of Record. Supervised full- or part-time off-campus work experience and training in management. Individual conferences and written reports required.

6951-3  Independent Study
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record. Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but no more than 6 hours, regardless of discipline, will apply to the degree.

6961  Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive Examination. Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the appropriate Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6971-3  Special Problems
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor. An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the degree.

6983  Master’s Thesis
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director. Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

7013  Seminar in Organizational Behavior
(3-0) 3 hours credit. Prerequisite: Consent of instructor. Critical examination of the theory and research pertaining to individual and group behavior within the context of a larger work organization system.

7023  Seminar in Organization Theory
(3-0) 3 hours credit. Prerequisite: Consent of instructor. Critical examination of the theory and research pertaining to the relationships of organization structure and processes to complex environmental conditions. Multiple theoretical paradigms will be examined.

7033  Seminar in Strategic Human Resources
(3-0) 3 hours credit. Prerequisite: Consent of instructor. A critical examination of research linking the management of human resource policies, practices, and deployments in the context of internal and external environments with the performance of the organization.
7043  **Foundations of Strategy**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
A critical examination of the theoretical foundations of corporate strategy, especially the relationship between strategy and organizational performance.

7053  **Empirical Approaches to Strategy**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
A critical examination of the empirical foundations of corporate strategy. Emphasis will be placed on the design of empirical studies of strategy.

7073  **Seminar in Organization and Management Studies**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Organized course offering the opportunity for specialized study not normally available as part of the regular course offerings. This seminar may be repeated for credit when topics vary, but not more than 6 hours will apply to the Doctoral degree. Topics can include: International Management, Knowledge Management, Ethics, or Strategic Management of Human Capital among others.

7201  **Organization and Management Studies Research Colloquium**  
1 hour credit. Prerequisite: Consent of instructor.  
Presentation and analysis of research in selected areas of organization and management studies.

7211-6  **Doctoral Research**  
1 to 6 hours credit.  
May be repeated for credit upon approval of the Doctoral Studies Committee, but not more than 24 hours may be applied to the Doctoral degree.

7311-6  **Doctoral Dissertation**  
1 to 6 hours credit. Prerequisite: Admission to Candidacy for the Doctoral degree in business.  
May be repeated for credit upon approval of the Doctoral Studies Committee, but not more than 12 hours may be applied to the Doctoral degree.

---

**COURSE DESCRIPTIONS**  
**BUSINESS LAW**  
(BLW)

5003  **Legal Environment of Business**  
(3-0) 3 hours credit.  
A legal analysis of the ethical and legal environment of business. Includes topics such as the common law, court systems, business torts and crimes, contracts and related areas of the Uniform Commercial Code, agency formation, forms of business organizations, administrative law, employment law, and real and personal property law.

5033  **Commercial Law**  
(3-0) 3 hours credit.  
Thorough study of the Uniform Commercial Code and related business transactions, including Bankruptcy and Federal Securities Regulations.

5173  **Legal Environment of International Business**  
(3-0) 3 hours credit. Prerequisite: BLW 5003 or consent of instructor.  
Survey of the legal environment of international business and the laws of international commerce. Includes comparative law, treaties and international agreements and contracts, international organizations, the Foreign Corrupt Practice Act, international letters of credit, exports and imports, tariffs, antidumping, the GATT, NAFTA, European Union, foreign investments, international patent laws, and related international legal topics.
6553  Legal, Ethical, and Social Issues of Health Care Management
(3-0) 3 hours credit. Prerequisite: BLW 5003, an equivalent, or consent of instructor.
Introduction to problems, issues, and trends in organized health care delivery with a particular focus on related legal and ethical issues.

6943  Business Law Internship
3 hours credit. Prerequisites: Graduate standing, 15 semester credit hours of graduate work, and consent of instructor. Internship must be approved in advance by the Internship Coordinator and the student’s Graduate Advisor of Record. Supervised full- or part-time off-campus work experience and training in business law. Individual conferences and written reports required.

6951-3  Independent Study
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the degree.

6971-3  Special Problems
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when the topics vary, but not more than 6 hours, regardless of discipline, will apply to the degree.
DEPARTMENT OF MANAGEMENT SCIENCE AND STATISTICS

Mission Statement

The mission of the Department of Management Science and Statistics is to offer both undergraduate and graduate educational programs that are of high quality and meet the changing needs of the global community; to provide a supportive learning environment for students; to foster the success of our students in their professional careers; and to create an academic environment that stresses excellence in teaching, intellectual contributions, and service. The Department contributes to the field of knowledge through research and education in the quantitative sciences. Theory and analysis are applied to a variety of interdisciplinary problems to discover new approaches for meeting the challenges of decision making in a global arena of expanding technology and information.

Master of Business Administration Degree – Management Science Concentration

The Master of Business Administration (M.B.A.) degree with a concentration in Management Science is accredited by AACSB International—The Association to Advance Collegiate Schools of Business—and conforms to recommended guidelines.

This concentration is designed to offer the opportunity for qualified graduate students to develop expertise in the field of management science while studying business administration. Students are provided the opportunity to learn quantitative methods and to apply these methods to organizational processes to improve the quality of managerial decision making, to improve operational efficiencies, to increase productivity, and to facilitate the timely flow of goods, services, and information. To achieve this end, students can focus their elective courses on the use of modern methodologies and techniques in the analysis and support of managerial decision-making activities, including the application of computer hardware and software.

Students choosing to concentrate in management science must complete the 24 semester credit hours of courses containing the M.B.A. Core and 12 semester credit hours of electives from the following:

- MS 5303 Topics in Decision Support Systems
- MS 5323 Statistical Methods for Business Analysis
- MS 5343 Logistics Systems Management
- MS 5373 Simulation Analysis of Business Systems
- MS 5393 Topics in Production Operations Management
- MS 5423 Service Management and Operations
- MS 5453 Management and Control of Quality
- MS 5463 Lean Operations and Six Sigma
- MS 5473 Logistics System Analysis
- MS 5483 Operations Research Methods in Statistics
- MS 6943 Management Science Internship
- MS 6953 Independent Study
- MS 6973 Special Problems

Additionally, a student may request the management science coordinator or chair to substitute other appropriate College of Business graduate electives for one or two of the above courses.

Master of Science Degree in Applied Statistics

The Master of Science (M.S.) degree in Applied Statistics includes instruction in a broad range of applied statistical methods and computational tools to prepare students for careers as government, industrial, or academic statisticians, or to pursue doctoral studies in statistics.

Program Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, a B.A. or B.S. in statistics, mathematics, engineering, business, or a closely related field is highly recommended as preparation.
In particular, three semesters of calculus and a course in matrix theory/linear algebra or their equivalents are required for unconditional admission. A course in probability and/or statistics is preferred but not required. Those students who do not qualify for unconditional admission should anticipate that additional undergraduate and/or graduate coursework may be required to complete the degree. All applicants are required to submit scores from the Graduate Record Examination (GRE) aptitude test.

**Degree Requirements.** Candidates for this degree are required to successfully complete 33 semester credit hours as specified below:

A. All candidates for the Master of Science in Applied Statistics must complete the following 15 semester credit hours of coursework:

   STA  5093  Introduction to Statistical Inference  
   STA  5103  Applied Statistics  
   STA  5133  Advanced Programming and Data Management in SAS  
   STA  5503  Mathematical Statistics I  
   STA  5513  Mathematical Statistics II

B. A candidate for the Master of Science degree in Applied Statistics must complete 9 semester credit hours of coursework chosen from one of the following focus areas:

   **Biostatistics**

   STA  5813  Applied Multivariate Statistics  
   STA  5853  Analysis of Categorical Data  
   STA  5903  Survival Analysis  
   STA  6133  Simulation and Statistical Computing  
   STA  6833  Design and Analysis of Experiments  
   STA  6913  Bioinformatics and Data Mining I: Microarray Data Analysis

   **Industrial Statistics**

   STA  5803  Process Control and Acceptance Sampling  
   STA  6013  Regression Analysis  
   STA  6113  Applied Bayesian Statistics  
   STA  6133  Simulation and Statistical Computing  
   STA  6833  Design and Analysis of Experiments  
   STA  6843  Response Surface Methodology

   **Management Science**

   MS  5023  Decision Analysis and Production Management  
   MS  5453  Management and Control of Quality  
   MS  5463  Lean Operations and Six Sigma  
   MS  5483  Operations Research Methods in Statistics  
   STA  6013  Regression Analysis  
   STA  6133  Simulation and Statistical Computing

   **Financial Modeling**

   ECO  6103  Econometrics and Business Forecasting  
   FIN  6313  Modeling of Financial Decision Making  
   STA  5253  Applied Time Series Analysis  
   STA  6013  Regression Analysis  
   STA  6113  Applied Bayesian Statistics  
   STA  6133  Simulation and Statistical Computing
General

Any 9 hours of 5000/6000 level courses in Statistics or other disciplines as approved by the Graduate Advisor.

C. A candidate for the Master of Science degree in Applied Statistics must complete 9 semester credit hours of graduate-level courses in Statistics, Engineering, Biology, or other disciplines as approved by the Graduate Advisor.

D. Each candidate for the degree is required to pass a comprehensive examination in Statistics that will cover material in the following courses: STA 5093, STA 5103, STA 5503, and STA 5513.

Doctor of Philosophy Degree in Applied Statistics

In this age of advanced technology, there is an increasing demand for individuals with the expertise in designing experiments and analyzing large complex data sets via the latest advances in computing. In particular, there is a real need for professionals with a Ph.D. in Applied Statistics. Statisticians are in very high demand in the growing biomedical field to develop methods for evaluating the efficacy and safety of new medications/drugs, surgeries, and other treatments and in the cutting edge research of Bioinformatics to assess such topics or protocols as gene therapy, genomics research, aging and many other newly developed issues. The Ph.D. in Applied Statistics combines theory with applications to prepare students to pursue careers in academia, research organizations, government, and private industry.

Program Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, a B.A., B.S., M.A. or M.S. in mathematics, statistics, or a closely related field is required. Students who have not taken mathematical statistics courses at the undergraduate level may be required to complete the equivalent courses in the appropriate background areas before taking graduate courses. The admission requirements consist of:

- A cumulative grade point average of 3.3 or higher in the last 60 hours of coursework.
- A Graduate Record Examination (GRE) score from a recent (no more than five years prior to the application date) administration of the exam.
- Official transcripts of all undergraduate and graduate coursework completed.
- Three letters of recommendation from academic or professional sources familiar with the applicant’s background.
- A curriculum vita and a statement of experiences, interests, and goals.
- International students from non-English speaking countries must also submit a score of at least 550 on the Test of English as a Foreign Language (TOEFL). TOEFL scores may not be more than two years old.
- Applicants may be asked to appear before the admissions committee for a personal interview.

Degree Requirements. Candidates for this degree are required to successfully complete a minimum of 87 semester credit hours of graduate coursework as specified below:

A. Foundation Courses

All candidates entering the program with a bachelor’s degree must complete the following 18 semester credit hours of coursework:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STA  5093</td>
<td>Introduction to Statistical Inference</td>
</tr>
<tr>
<td>STA  5103</td>
<td>Applied Statistics</td>
</tr>
<tr>
<td>STA  5133</td>
<td>Advanced Programming and Data Management in SAS</td>
</tr>
<tr>
<td>STA  5503</td>
<td>Mathematical Statistics I</td>
</tr>
<tr>
<td>STA  5513</td>
<td>Mathematical Statistics II</td>
</tr>
<tr>
<td>STA  6023</td>
<td>Mathematical Methods in Statistics</td>
</tr>
</tbody>
</table>

B. All candidates entering the program with a bachelor’s degree must complete 12 hours of 5000/6000 level Statistics courses approved by the Graduate Advisor.
C. Advanced Courses

All candidates must complete the following 12 hours of advanced coursework:

- STA 6133 Simulation and Statistical Computing
- STA 6991 Statistical Consulting (to be taken three semesters)
- STA 7503 Advanced Inference I
- STA 7513 Advanced Inference II

D. All candidates for the Ph.D. degree in Applied Statistics must complete 9 semester credit hours of approved graduate courses with numbers 6000 or higher within the Department of Management Science and Statistics.

E. All candidates for the Ph.D. degree in Applied Statistics must complete at least 6 semester credit hours of approved elective courses offered by The University of Texas Health Science Center at San Antonio or The University of Texas at San Antonio.

F. All candidates for the Ph.D. in Applied Statistics must complete a minimum of 15 semester credit hours of Doctoral Research.

G. All candidates for the Ph.D. in Applied Statistics must complete a minimum of 15 semester credit hours of Doctoral Dissertation.

All students in the program will be required to complete a degree plan specifying the courses they will complete. This degree plan must be approved by the Doctoral Studies Committee before the end of the second semester of enrollment.

Applicants with a master’s degree in statistics or a related field may apply up to 30 hours of previously earned graduate credits toward the doctoral degree. Each student’s transcript will be evaluated by the Doctoral Studies Committee and credit will be designated on a course-by-course basis to satisfy the foundation requirements of the degree.

Advancement to Candidacy. Advancement to candidacy requires a student to complete University and Applied Statistics program requirements. After completing the required coursework, students seeking candidacy must also pass written and oral qualifying examinations before being admitted to candidacy for the degree. Students admitted with a bachelor’s degree must pass the Master’s comprehensive examination. Those who do not pass this examination at the Ph.D. level may qualify for the M.S. degree. All candidates for the Ph.D. degree must pass an advanced written qualifying examination and an oral comprehensive examination administered by the graduate faculty. The written examination is administered by the graduate faculty in the specialization area. Written examinations are scheduled once a year, whereas the oral examination is administered at the discretion of the student’s dissertation committee. The oral examination is for the purpose of eliminating any questions of competency related to substantive written exams and serves as a hearing for the student’s dissertation proposal. Students will be provided no more than two attempts to pass written qualifying examinations and two attempts to pass the oral qualifying examination. Majority approval of the dissertation examination committee is required to pass the oral examination. The oral examination must be completed within one year of completion of the written examination. Results of the written and oral qualifying examinations must be reported to the Dean of the Graduate School.

Dissertation. Candidates must demonstrate the ability to conduct independent research by completing and defending an original dissertation. The research topic is determined by the student in consultation with his or her supervising professor. A Dissertation Committee, selected by the student and supervising professor, guides and critiques the candidate’s research. The completed dissertation must be formally presented to and approved by the Dissertation Committee.

Following an open presentation of the dissertation findings, the Dissertation Committee conducts a closed meeting to determine the adequacy of the research and any further requirements for completion of the dissertation. Results of the meeting must be reported to the Dean of the College and to the Dean of the Graduate School.

Awarding of the degree is based on the approval of the Dissertation Committee, approved by the Dean of the College. The UTSA Dean of the Graduate School certifies the completion of all University-wide requirements.
COURSE DESCRIPTIONS
MANAGEMENT SCIENCE
(MS)

5003   Quantitative Methods for Business Analysis
(3-0) 3 hours credit. Prerequisites: MAT 1033 and MS 1023, their equivalents, or consent of instructor.
Introduction to managerial decision analysis using quantitative and statistical tools. Course includes a general framework for structuring and analyzing decision problems. Some of the topics include decision theory, statistical techniques (such as analysis of variance, regression, nonparametric tests), introduction to linear programming, and introduction to time series. Uses applicable decision support software.

5023   Decision Analysis and Production Management
(3-0) 3 hours credit. Prerequisite: MS 5003 or an equivalent.
Study of applications of quantitative approaches (such as mathematical programming, networks, stochastic processes, multicriteria analysis, and simulation) to business decision analysis. Emphasis is given to production management applications (such as resource allocation, scheduling, inventory control, capital budgeting) and the use of computerized decision support systems.

5303   Topics in Decision Support Systems
(3-0) 3 hours credit. Prerequisite: MS 5023.
Study of systems for supporting managerial and personal/professional decision processes. Topics include review of sample decision support systems, methodologies for identifying decision needs, exploration of analysis tools and related computer technologies and software, survey of expert systems and artificial intelligence applications, and hands-on building of systems.

5323   Statistical Methods for Business Analysis
(3-0) 3 hours credit. Prerequisite: MS 5003 or an equivalent.
Introduction to multivariate statistical analysis. Typical topics include multiple regression, multiple analysis of variance, logistic regression, discriminant analysis, conjoint analysis, cluster analysis, and factor analysis. Emphasizes the use of computer statistical packages.

5343   Logistics Systems Management
(3-0) 3 hours credit.
Study of business logistics: the process of planning, implementing, and controlling the flow and storage of goods or services and related information from point of origin to point of consumption to achieve customer satisfaction. Focuses on the cost and value added to products or services by making them available in the desired condition when and where they are needed.

5373   Simulation Analysis of Business Systems
(3-0) 3 hours credit. Prerequisite: MS 5023.
Study of computer simulation techniques in the analysis of business decision situations. Currently available tools, including general purpose simulation languages, spreadsheets, and graphics programs, are explored. Applications from a wide spectrum of areas are discussed.

5393   Topics in Production Operations Management
(3-0) 3 hours credit. Prerequisite: MS 5023.
Survey of the body of knowledge concerning the management of operations. Considers manufacturing and service principles. The course reviews a variety of topics necessary in the field of production and inventory management, including logistics and distribution processes.
5423  **Service Management and Operations**  
(3-0) 3 hours credit.  
Focuses on understanding the variety of service industries (both profit and nonprofit) and the growing importance of the service industry to the economy. In addition to the traditional topics of quality, customer satisfaction and value creation, additional topics include service encounters, service design and development, service productivity, and globalization of services. Tools and techniques for management service operations are also emphasized.

5453  **Management and Control of Quality**  
(3-0) 3 hours credit. Prerequisite: MS 5023.  
An examination of the fundamental nature of quality assurance, its strategic importance in business and industry, and the economic impact of quality. Theoretical and management issues relating to quality problem solving are emphasized. The contribution of the leaders in modern quality management are discussed.

5463  **Lean Operations and Six Sigma**  
(3-0) 3 hours credit.  
Course provides an introduction to Six Sigma methodologies and is designed to present the fundamentals of Six Sigma and instill an understanding of what is required to build a sustainable Six Sigma structure. Lean tools, such as physical maps, time value, and Kanban are included as well as advanced Six Sigma statistical tools.

5473  **Logistics System Analysis**  
(3-0) 3 hours credit.  
The design and management of logistics systems for firms of varying size and differing supply and market conditions. This course relies upon heavy use of computer-assisted cases and problems to illustrate and integrate issues found in materials management and distribution organizations.

5483  **Operations Research Methods in Statistics**  
(3-0) 3 hours credit. Prerequisite: Consent of Instructor.  
Theory and applications of mathematical programming techniques applied to statistical analysis. Mathematical topics such as linear, integer and quadratic programming theory and algorithms will be covered. Support vector machines as an application of quadratic programming will be introduced. Mathematical programming techniques for regression and classification analysis will be discussed. Simulation methods for jackknife and bootstrap estimation and/or stochastic analysis will also be covered.

6943  **Management Science Internship**  
3 hours credit. Prerequisites: Graduate standing, 15 semester credit hours of graduate work, and consent of instructor. Internship must be approved in advance by the Internship Coordinator and the student’s Graduate Advisor of Record. Supervised full- or part-time off-campus work experience and training in management science. Individual conferences and written reports required.

6953  **Independent Study**  
3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record. Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the degree.

6971-3  **Special Problems**  
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the degree.
6983 Master’s Thesis
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

7033 Applications in Causal Structural Modeling
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An advanced treatment of causal modeling, including reviews of path analysis, covariance algebra, creating path diagrams, and structural equations, LISREL notation and syntax, confirmatory factor analysis and its extensions.

COURSE DESCRIPTIONS
STATISTICS
(STA)

5073 Methods of Statistics I
(3-0) 3 hours credit. Prerequisite: STA 1053.
Emphasis on methods and applications of statistics. Measure of location, variability, and association. Interpretation of categorical data, hypothesis testing, and use of SAS programs and applications. Cannot be applied to a Master of Science degree in Applied Statistics.

5083 Methods of Statistics II
(3-0) 3 hours credit. Prerequisite: STA 5073.
A continuation of STA 5073, with emphasis on linear statistical models. Use of SAS programs and applications. Topics in applied statistics may include maximum likelihood estimation and its properties, and likelihood ratio tests. Procedures in regression and model fitting, transformations of data, analysis of variance, and others. Cannot be applied to a Master of Science degree in Applied Statistics.

5093 Introduction to Statistical Inference
(3-0) 3 hours credit. Prerequisite: Admission to the M.S. program or consent of instructor.
Statistical concepts in estimation and hypothesis testing; methods for one-sample, two-sample, and categorical data problems. Probability distributions, random variables, expectation, and independence; point estimation and confidence intervals, with small and large-sample procedures; hypothesis testing and statistical decision; goodness-of-fit tests and nonparametric tests.

5103 Applied Statistics
(3-0) 3 hours credit. Prerequisite: STA 5093 or consent of instructor.
Simple linear model, correlation, multiple regression, one-way analysis of variance, fixed effects model, random effects model, mixed effects model, model selection, and analysis of covariance.

5133 Advanced Programming and Data Management in SAS
(3-0) 3 hours credit. Prerequisite: Admission to the M.S. program or consent of instructor.
Essential programming concepts using SAS software will be discussed, with a focus on data management and the preparation of data for statistical analysis. Efficient programming techniques including macros and arrays will be introduced. Topics include reading raw data, creating temporary and permanent data sets, manipulating data sets, summarizing and displaying data using tables, charts, and plots. A final presentation will be required. (Formerly titled “Data Analysis with Statistical Software.”)
5213 Advanced Statistical Quality Control
(3-0) 3 hours credit. Prerequisite: EGR 5093 or consent of instructor.
Methods and techniques for process control, process and gage capability analyses, inspection plans, American National Standards, and recent advanced techniques. Use of statistical software including JMP. Tour of manufacturing industry. Case studies in process control outgoing quality and costs. A required project, assigned by a manufacturing company, must be presented. This course is designed for technology managers and engineers and cannot be applied to a Master of Science degree in Applied Statistics.

5233 Product and Manufacturing Reliability
(3-0) 3 hours credit. Prerequisite: EGR 5093 or consent of instructor.
Topics include product and manufacturing reliability from managerial, engineering, and statistical perspectives. Emphasis on component and system reliability estimation, testing, and demonstration. Advanced topics such as accelerated life tests, Bayesian procedures, system availability, system maintainability, and compliance with international standards are addressed. Methods and theory are supported through data analytic packages such as JMP, SAS, and S-Plus. This course is designed for technology managers and engineers and cannot be applied to a Master of Science degree in Applied Statistics.

5253 Applied Time Series Analysis
(3-0) 3 hours credit. Prerequisite: STA 5093 or consent of instructor.
Modern techniques for time series analysis and their applications. Principles of model building. Regression methods, moving averages, and autoregressive integrated moving average models. Practical examples drawn from various application environments. Use of software such as MINITAB, SAS, and S-Plus in time series analysis.

5313 Theory of Sample Surveys with Applications
(3-0) 3 hours credit. Prerequisite: STA 5093 or consent of instructor.
Basic sampling techniques and their comparisons for finite populations. Topics include simple random sampling, stratified sampling, ratio and regression estimates, systematic sampling, cluster sampling, multistage and double sampling, and bootstrap and other sampling plans.

5413 Nonparametric Statistics
(3-0) 3 hours credit. Prerequisite: STA 5093 or consent of instructor.
Order statistics, test of goodness of fit, rank-order statistics, linear rank statistics for problems involving location and scale, association in multiple classifications, and asymptotic relative efficiency.

5503 Mathematical Statistics I
(3-0) 3 hours credit. Prerequisite: Admission to the M.S. program or consent of instructor.
Axioms of probability, random variables and probability distributions, sampling distributions, and stochastic convergence.

5513 Mathematical Statistics II
(3-0) 3 hours credit. Prerequisite: STA 5503.
Sufficient statistics, unbiased estimation, likelihood ratio test, sequential probability ratio test, and decision theory.

5803 Process Control and Acceptance Sampling
(3-0) 3 hours credit. Prerequisite: STA 5093 or consent of instructor.
Introduction to statistical process control and product inspection plans. Topics include control charts by attributes and variables, special control charts, specification limits, process capability, and acceptance sampling plans by attributes and variables. Use of statistical software.

5813 Applied Multivariate Statistics
(3-0) 3 hours credit. Prerequisites: MAT 2233 and either STA 5093 or consent of instructor.
Principal components, factor analysis, cluster analysis, multidimensional scaling, discriminant analysis, multivariate normal distribution, estimation of mean vector and covariance matrix, Hotelling’s T2, and tests concerning covariance matrices.
5853  **Analysis of Categorical Data**  
(3-0) 3 hours credit. Prerequisite: STA 5093 or consent of instructor.  
Types of categorical data, cross-classification of tables, tests for independence, measures of association, loglinear models for multidimensional tables. Logit models and analogies with regression. Specialized methods for ordinal data.

5903  **Survival Analysis**  
(3-0) 3 hours credit. Prerequisite: STA 5093 or consent of instructor.  
This course introduces both parametric and nonparametric methods for analyzing censored survival data. Topics include Kaplan-Meier estimator, inference based on standard lifetime distributions, regression approach to survival analysis including the proportional hazards model. Emphasis on application and data analysis using SAS and S-Plus.

5973  **Directed Research**  
3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
The directed research course may involve either a laboratory or a theoretical problem. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6013  **Regression Analysis**  
(3-0) 3 hours credit. Prerequisite: STA 5103 or consent of instructor.  
Model selection methods, model validation, diagnostics, outlier detection, autocorrelated data, multicollinearity, cross validation, transformation of data, and generalized linear regression models.

6023  **Mathematical Methods in Statistics**  
(3-0) 3 hours credit. Prerequisite: Admission to the M.S. program or consent of instructor.  
Topics include concepts of limits, sequences and series, order and rates of convergence, various modes of convergence, large sample properties of maximum likelihood estimators and Delta method. Topics in Matrix Theory include elementary matrix algebra, vector spaces, eigenvalues and eigenvectors, matrix factorizations, generalized inverses, systems of linear equations and quadratic forms.

6113  **Applied Bayesian Statistics**  
(3-0) 3 hours credit. Prerequisite: STA 5503 or consent of instructor.  
Probability and uncertainty, conditional probability and Bayes’ Rule, posterior analysis for commonly used distributions, prior distribution elicitation, Bayesian methods in linear models, Bayesian computation using software, and applications.

6133  **Simulation and Statistical Computing**  
(3-0) 3 hours credit. Prerequisite: STA 5093 or consent of instructor.  
Random variable generation, Monte Carlo integration, Markov chain Monte Carlo simulation, Monte Carlo optimization, Gibbs sampling and Metropolis-Hastings algorithm.

6233  **Advanced Statistical Programming Using SAS Software**  
(3-0) 3 hours credit. Prerequisite: STA 5133 or consent of instructor.  
Methods for analyzing continuous and categorical data will be discussed using procedures from Base SAS, SAS/GRAPH and SAS/STAT software. Discussion will include both implementation of methods and interpretation of results. Examples will be drawn from regression analysis, analysis of variance, categorical data analysis, multivariate methods, simulation and resampling. Techniques for efficient programming will be stressed. Students are expected to adopt a public dataset for use throughout the semester, and a final presentation will be required.

6713  **Linear Models**  
(3-0) 3 hours credit. Prerequisite: STA 5103 or consent of instructor.  
Distribution of quadratic forms, multivariate normal and theory for the full rank and less than full rank models, analysis of repeated measures, random and mixed effects models, topics in longitudinal data analysis, and generalized linear models. (Formerly STA 5713. Credit can be earned for only one of the following: STA 5713, STA 6713, or STA 7723.)
6833  **Design and Analysis of Experiments**  
(3-0) 3 hours credit. Prerequisite: STA 5093, STA 5103, or consent of instructor.  
Introduction to experimental design and data analysis in scientific and engineering settings. Topics include one-factor experiments, randomized block designs, factorials, two- and three-level factorial and fractional factorial designs, nested and split-plot designs, response surface methods, and Taguchi methods. Use of statistical software. (Formerly STA 5833. Credit cannot be earned for both STA 6833 and STA 5833.)

6843  **Response Surface Methodology**  
(3-0) 3 hours credit. Prerequisite: STA 6833 or consent of instructor.  
Factorial designs, first and second order models, process improvement with steepest ascent, experimental designs for fitting response surfaces, use of model diagnostics for finding optimum operating conditions, and robust parameter designs.

6913  **Bioinformatics and Data Mining I: Microarray Data Analysis**  
(3-0) 3 hours credit. Prerequisite: STA 5103 or consent of instructor.  
This course provides a detailed overview of statistical methods used in microarray and proteomics data analysis and exploits the design of such experiments. The topics include introduction to genome biology and microarray technology, R programming and Bioconductor, pre-processing, normalization, microarray experimental design and analysis, multiple testing, LIMMA, dimension reduction in microarray, cluster analysis, and classification in microarray experiments. (Formerly STA 5913. Credit cannot be earned for both STA 6913 and STA 5913.)

6953  **Independent Study**  
3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the degree.

6961  **Comprehensive Examination**  
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive Examination.  
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6971-3  **Special Problems**  
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the degree.

6983  **Master’s Thesis**  
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.  
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

6991  **Statistical Consulting**  
(1-0) 1 hour credit. Prerequisite: Background in regression analysis and experimental design.  
The principles dealing with the basic art and concepts of consulting in statistics. This course discusses the role and responsibilities of applied statisticians, relationship between clients and consultants, and effective report writing, etc. Each student is assigned at least one consulting problem and is required to submit a comprehensive final report. May be repeated for credit, but not more than 3 hours can be applied to the Doctoral degree.
7013 Advanced Applied Business Statistical Methods  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Methods and applications of statistics. Topics include basic probability theory, probability distributions of both discrete and continuous random variables, expectations, moments, distributions of functions of random variables, sampling distributions, estimations of population parameters, and hypothesis testing. Nonparametric statistical techniques and their applications to business research will also be covered in the course. Statistical computer software such as SAS or SPSS will be used in the course for data analysis. This course is designed for doctoral students in Business and cannot be applied to a Master of Science degree in Applied Statistics without consent of the instructor and prior approval from the Graduate Advisor of Record.

7023 Applied Linear Statistical Models  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An in-depth study of regression and analysis of variance models. Topics include multiple regression and model building, multiple and partial correlation, analysis of residuals, analysis of variance, multivariate analysis of variance, analysis of variance as regression analysis, generalized linear model, and applications of statistical models to problems in business. Computer software packages such as SAS or SPSS will be used for data analysis. This course is designed for doctoral students in Business and cannot be applied to a Master of Science degree in Applied Statistics without consent of the instructor and prior approval from the Graduate Advisor of Record.

7033 Multivariate Statistical Analysis  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An advanced treatment of multivariate statistical techniques. Topics include multivariate normal distribution, multivariate tests of hypotheses, confidence regions, principal component analysis, factor analysis, discrimination and classification analysis, and clustering. Computer software packages such as SAS or SPSS will be used for data analysis. This course is designed for doctoral students in Business and cannot be applied to a Master of Science degree in Applied Statistics without consent of the instructor and prior approval from the Graduate Advisor of Record.

7083 Time Series Analysis  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Univariate and multivariate time series analysis of economic and financial data, autoregressive integrated moving average (ARIMA) models and vector autoregression, out-of-sample forecasting using computer software. Unit roots, cointegration and error correction, and ARCH models. This course is designed for doctoral students in Business and cannot be applied to a Master of Science degree in Applied Statistics without consent of the instructor and prior approval from the Graduate Advisor of Record. (Credit cannot be earned for both STA 7083 and STA 7043.)

7113 Bayesian Statistics  
(3-0) 3 hours credit. Prerequisite: STA 5513 or consent of instructor.  
Topics include single parameter Bayesian analysis, prior distribution: informative and noninformative priors, multiple parameter Bayesian analysis, Bayesian computation, Bayesian hierarchical models and empirical models, Bayesian model checking, Bayesian applications to generalized linear models, and Bayesian decision theory.

7211-6 Doctoral Research  
1 to 6 hours credit.  
May be repeated for credit, but not more than 12 hours may be applied toward the Doctoral degree.

7311-6 Doctoral Dissertation  
1 to 6 hours credit. Prerequisite: Admission to candidacy for Doctoral degree in Applied Statistics.  
May be repeated for credit, but not more than 12 hours may be applied toward the Doctoral degree.

7503 Advanced Inference I  
(3-0) 3 hours credit. Prerequisites: STA 5503 and STA 5513 or equivalent and Doctoral standing.  
Topics include probability and measure, sufficiency, invariance, unbiased and equivariant estimators, decision theory; efficiency and other small sample properties of estimators; asymptotic properties of estimators, maximum likelihood estimation, and computational methods.
7513 Advanced Inference II
(3-0) 3 hours credit. Prerequisite: STA 7503.
The advanced theory of statistical inference, including the general decision problem; Neyman-Pearson theory of testing hypotheses; the monotone likelihood ratio property; asymptotic properties of likelihood ratio tests (LRT).

7813 Advanced Multivariate Analysis
(3-0) 3 hours credit. Prerequisite: STA 5813 or consent of instructor.
Multivariate analysis of variance, discriminant functions for group separation, classification of observations into groups, multivariate regression, canonical correlation, principal component analysis, factor analysis, and multivariate longitudinal data analysis.

7853 Advanced Categorical Data Analysis
(3-0) 3 hours credit. Prerequisite: STA 5503, STA 5853, or consent of instructor.
Models for multinomial responses, models for matched pairs and more complex repeated categorical response data, generalized linear mixed models for categorical responses. Asymptotic theory for parametric models, alternative estimation theory for parametric models.

7903 Advanced Survival Analysis: Counting Process Approach
(3-0) 3 hours credit. Prerequisite: STA 5903 or consent of instructor.
This course extends the Cox model to multiple event data using a counting process approach. The topics include counting processes, estimation of the survival and hazard functions, Cox model, residual and influence analysis, testing proportional hazard, multiple events model, frailty models, and S-Plus and SAS programming.

7923 Bioinformatics and Data Mining II: Data Mining
(3-0) 3 hours credit. Prerequisite: STA 5103 or consent of instructor.
This course provides an overview of machine learning (data mining) tools in analyzing the vast amounts of data found in biology, business, and other high-tech industries. The topics include introduction to Machine Learning and Data Mining, R Programming, data gathering and cleansing, Linear Methods, Additive Models, Model Assessment, Classification and Regression Trees (CART), Boosting and Random Forest, Neural Networks, Support Vector Machines, Nearest-Neighbor Classification, Cluster Analysis, Association Rules, visualization, and Applications to Microarray data analysis. (Formerly STA 5923. Credit cannot be earned for both STA 7923 and STA 5923.)
DEPARTMENT OF MARKETING

All graduate programs in Marketing are accredited by AACSB International—The Association to Advance Collegiate Schools of Business—and conform to recommended guidelines.

Master of Business Administration Degree – Marketing Management Concentration

This concentration is designed to offer qualified graduate students the opportunity to study business administration while developing special expertise in marketing management. To achieve these ends, students focus their elective courses in the area of marketing.

Students choosing to concentrate in marketing management must complete the 24 semester credit hours of courses containing the M.B.A. Core and 12 semester credit hours of graduate marketing courses as follows:

- MKT 5063 Marketing Research Design and Application
- 9 semester credit hours of graduate marketing elective courses beyond MKT 5023 Marketing Management

Master of Business Administration Degree – Tourism Destination Development Concentration

This concentration is designed to offer qualified graduate students the opportunity to study business administration while developing special expertise in the development of a destination marketing organization of a country, state, region or city. To achieve these ends, students will focus their elective courses in the area of tourism.

Students choosing to concentrate in tourism destination development must complete the 24 semester credit hours of courses containing the M.B.A. Core and an additional 12 semester credit hours of graduate tourism elective courses from the following:

- MKT 5303 Destination Strategic Planning
- MKT 5313 Marketing and Selling a Destination
- MKT 5323 Managing a Destination Marketing Organization
- MKT 5333 Economics of Tourism and Sustainable Development
- MKT 6933 Internship in a Destination Marketing Organization
- MKT 6963 Independent Study in Tourism
- MKT 6973 Special Problems

Doctor of Philosophy Degree in Business Administration with an Emphasis in Marketing

The College of Business offers opportunities for advanced study and research leading to the Doctor of Philosophy degree in Business Administration with an emphasis in Marketing. See page 73 of this catalog for a detailed description of the general requirements for the Doctoral degree. The Doctoral Studies Committee of the Department of Marketing will advise students admitted to the program who pursue a Ph.D. in Business Administration with an emphasis in Marketing.

To satisfy the Major Area Coursework for the Marketing emphasis, a student must complete:

A. MKT 7013 Seminar in Marketing Theory
   MKT 7023 Behavioral Seminar I
   MKT 7033 Behavioral Seminar II
   MKT 7043 Seminar in Experimental Design
   MKT 7201-3 Marketing Research Colloquium

B. Two directed electives (6 semester credit hours) as approved by the Doctoral Studies Committee
COURSE DESCRIPTIONS
MARKETING

(MKT)

5003 Introduction to Marketing  
(3-0) 3 hours credit.  
Examination of marketing in society and the firm. Functions, institutions, processes, methods, and issues will be examined. Emphasis is on marketing decision making.

5023 Marketing Management  
(3-0) 3 hours credit. Prerequisites: ACC 5003, ECO 5003, FIN 5003, and MKT 5003, or their equivalents. Completion of or concurrent enrollment in ACC 5023 is recommended.  
An analysis of marketing management processes within organizations. Focus is on the use of strategic planning and market analysis to design marketing programs in competitive environments.

5043 Consumer Behavior in Marketing Strategy  
(3-0) 3 hours credit. Prerequisite: MKT 5023 or an equivalent.  
The study of consumer behavior as the basis for marketing opportunities. Analyzes and evaluates contemporary models of consumer behavior as a guide to organizational decision making.

5063 Marketing Research Design and Application  
(3-0) 3 hours credit. Prerequisite: MKT 5023 or an equivalent.  
Reviews the methodology essential to marketing’s role of guiding the firm’s production, distribution, pricing, and communication efforts through marketing research, including designing and conducting customer research, and analyzing and communicating research results.

5083 Advertising and Promotion Management  
(3-0) 3 hours credit. Prerequisite: MKT 5023 or an equivalent.  
The use of communication processes and programs to attain promotional goals; examination of mass and interpersonal forms of communication, and the uses of sales promotion tools.

5303 Destination Strategic Planning  
(3-0) 3 hours credit.  
A thorough analysis of the strategic planning and implementation process within destination marketing organizations including managing stakeholders groups, destination audits, visitor research, the role of marketing and branding of the destination, managing human resources and various organizational structures.

5313 Marketing and Selling a Destination  
(3-0) 3 hours credit.  
Examination of marketing planning and implementation with specific focus on developing a marketing plan, advertising agency selection, market research, selling to marketing intermediaries and meeting planners, convention facility marketing and sales, the role of the website, visitor guides, public relations and film commissions.

5323 Managing a Destination Marketing Organization  
(3-0) 3 hours credit.  
Focus on the management of a destination marketing organization in a highly competitive environment. Includes examination of strategies for managing stakeholders and advisory boards, role in developing the destination, protecting share of hotel occupancy taxes, funding alternatives, accountability to governing authorities, strategic planning and implementation process, managing public policy issues, and effective communication of the value of tourism. (Formerly titled “Managing Destination Public Policy Issues.”)
5333  Economics of Tourism and Sustainable Development  
(3-0) 3 hours credit. 
Examines the macroeconomic effect of tourism on a destination and the microeconomic aspects of sustainable tourism. Students are introduced to the theory and research methods involved in conducting economic impact studies, feasibility studies, and forecasting visitor arrivals.

5673  International Marketing  
(3-0) 3 hours credit. Prerequisite: MKT 5023 or an equivalent.  
Analysis of global marketing strategies, including an examination of the cultural, economic, and political dimensions. Focus is on developing alternative market entry strategies and managing the marketing mix in international markets.

5963  International Business Internship  
3 hours credit. Prerequisites: Consent of instructor and the student’s Graduate Advisor of Record.  
Work experience in international business or a public agency.

5983  International Business Essay  
3 hours credit. Prerequisites: Consent of instructor and the student’s Graduate Advisor of Record.  
Original research report on an international management topic.

6933  Internship in a Destination Marketing Organization  
3 hours credit. Prerequisites: Graduate standing and completion of 12 hours of M.B.A. Core or elective courses in the concentration. Internship must be approved in advance by the Internship Coordinator and the student’s Graduate Advisor of Record.  
The supervised full- or part-time internship will be in either a domestic or international destination marketing organization that is approved by the faculty internship coordinator and the Graduate Advisor of Record. Participants may or may not receive compensation from the sponsoring destination marketing organization.

6943  Marketing Internship  
3 hours credit. Prerequisites: Graduate standing, 15 semester credit hours of graduate work, and consent of instructor.  
Internship must be approved in advance by the Internship Coordinator and the student’s Graduate Advisor of Record. Supervised full- or part-time off-campus work experience and training in marketing. Individual conferences and written reports required.

6951-3  Independent Study  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the degree.

6961  Comprehensive Examination  
1 hour credit. Prerequisite: Approval of the appropriate committee on graduate studies to take the Comprehensive Examination.  
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Committee on Graduate Studies. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).
6963  **Independent Study in Tourism**  
3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member regarding the management of a destination marketing organization. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the degree.

6971-3  **Special Problems**  
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings; examples include Brand Management, Services Marketing, Sales Management, Multicultural Marketing, and topics in Tourism Management. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the degree.

6983  **Master’s Thesis**  
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.  
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

7013  **Seminar in Marketing Theory**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Historical and philosophical perspective on the development of scientific marketing thought, the role of theory in marketing, and research methods in marketing.

7023  **Behavioral Seminar I**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Examination of the processes underlying consumer behavior from the perspective of social and cognitive psychology. Topics will include judgment and decision making, information-processing biases, consumer motivations and values, memory and knowledge, and mood and affect.

7033  **Behavioral Seminar II**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Examination of the processes underlying consumer behavior from the interdisciplinary perspectives of psychology, sociology, and anthropology. Topics will include attitudes and persuasion, cross-cultural research, socialization, individual difference variables, and group influences on individual behavior.

7043  **Seminar in Experimental Design**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Introduction to methodological issues that arise in experimental and quasi-experimental research. Topics of emphasis include data collection and measurement, reliability and validity, experimental design, and data analysis.

7053  **Special Topics in Research Methods**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
In-depth examination of research methods in marketing research (survey research, qualitative research methods, etc.). The course may be repeated for credit when topics vary.

7063  **Special Topics in Marketing**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
In-depth examination of current topics in marketing research (cross-cultural and international marketing, pricing, etc.). The course may be repeated for credit when topics vary.
7073  Cross-Cultural Consumer Research  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Examination of cross-cultural research from disciplines such as international business, psychology, sociology, and consumer behavior, with a focus on understanding current theoretical and methodological issues, and their marketing and consumer implications.

7083  Consumer Judgment and Decision Making  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
In-depth examination of the judgment, decision making, and choice aspects of consumer behavior, with a focus on understanding what people actually do (descriptive view) versus what they rationally ought to do (normative view).

7201-3  Marketing Research Colloquium  
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.  
Introduction to contemporary research topics and methods in Marketing and Consumer Behavior. Course involves research presentations by students, faculty, and guest speakers. May be repeated.

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

The College of Education and Human Development offers the following degrees: Master of Arts Degree in Adult Learning and Teaching, Master of Arts Degree in Bicultural-Bilingual Studies, Master of Arts Degree in Counseling, Master of Arts Degree in Education, Master of Arts Degree in Teaching English as a Second Language, Master of Education Degree in Educational Leadership and Policy Studies, Master of Science Degree in Health and Kinesiology, Doctor of Education Degree in Educational Leadership, Doctor of Philosophy Degree in Counselor Education and Supervision, Doctor of Philosophy Degree in Culture, Literacy and Language, and Doctor of Philosophy Degree in Interdisciplinary Learning and Teaching.
DEPARTMENT OF BICULTURAL-BILINGUAL STUDIES

The Department of Bicultural-Bilingual Studies offers three graduate degrees: the Master of Arts Degree in Bicultural-Bilingual Studies, the Master of Arts Degree in Teaching English as a Second Language (TESL), and the Doctor of Philosophy Degree in Culture, Literacy and Language.

Master of Arts Degree in Bicultural-Bilingual Studies

The Master of Arts degree in Bicultural-Bilingual Studies is designed to respond to a variety of societal needs through advanced multidisciplinary study in language, culture, and related disciplines. It has concentrations in Bicultural-Bilingual Education and Bicultural Studies.

Program Admission Requirements. The Department of Bicultural-Bilingual Studies offers an interdisciplinary program that encourages applicants from a wide range of disciplines. Applicants who do not meet University-wide requirements for unconditional admission may be admitted conditionally if scores from the Graduate Record Examination (GRE), letters of recommendation, and/or previous work in the field provide evidence of academic potential. Information on the GRE and applications for the test may be obtained from the UTSA Testing Center or from the Educational Testing Service, Princeton, New Jersey 08540. The institution code for The University of Texas at San Antonio is 6919 for the GRE.

Degree Requirements. Degree candidates are required to complete successfully a 36-semester-credit-hour program. Upon completion of at least 30 semester credit hours of coursework, the candidate is required to pass a written and oral comprehensive examination.

Candidates for the concentration in Bicultural-Bilingual Education must demonstrate proficiency in a second language. Candidates for the concentration in Bicultural Studies are required to give evidence of second language learning experiences acceptable to the department’s Graduate Program Committee.

Bicultural-Bilingual Education Concentration

This concentration is offered for students interested in advanced study in the design and implementation of bicultural-bilingual education programs. This interdisciplinary course of study presents systematic instruction in bilingualism, cultural dynamics, and applied linguistics. It also includes an examination of theory and research related to effective bilingual education. The Master’s degree is offered under two options: thesis and nonthesis.

Degree Requirements. Degree candidates must complete the following:

Option 1. Nonthesis Option

A. Required coursework. 30 semester credit hours of coursework from six major areas as follows:

Sociocultural Studies (6 hours from the following):

<table>

**Linguistics and Second Language Studies** (3 hours from the following):

- ESL 5003  Linguistics for Second Language and Bilingual Specialists
- ESL 5013  Foundations of Second Language Acquisition

**Bilingual Teaching Methodology** (6 hours from the following):

- BBL 5033  Bilingual Content Instruction
- BBL 5063  Biliteracy in Bilingual Classrooms
- BBL 5143  Communication and Critical Pedagogy in Bilingual Classrooms
- BBL 5193  Multicultural Literature for Children

**Research and Assessment** (6 hours):

- BBL 5053  Assessment in Bilingual and Second Language Studies

and 3 hours from the following:

- BBL 6043  Bilingual Education Research
- BBL 6063  Research Methods in Bilingual and Second Language Studies

**English as a Second Language** (6 hours from the following):

- ESL 5033  Second Language Reading and Writing
- ESL 5053  Approaches to Second Language Instruction
- ESL 5063  Language and Content-Area Instruction

**B. Electives (6 hours):**

6 semester credit hours of graduate elective coursework in Bicultural-Bilingual Studies, English as a Second Language, or in approved related areas.

**Option II. Thesis Option**

**A. Required coursework.** 30 semester credit hours of coursework from six major areas as follows:

**Sociocultural Studies** (6 hours from the following):

3 hours from the following:

- BBL 5003  Foundations for Bicultural Studies
- BBL 5013  Multicultural Groups in the United States
- BBL 5023  Cultural Adaptation in Bilingual Societies
- BBL 5073  Psychosocial Processes in Bicultural-Bilingual Environments

and 3 hours from the following:

Linguistics and Second Language Studies (6 hours from the following):

- ESL 5003 Linguistics for Second Language and Bilingual Specialists
- ESL 5013 Foundations of Second Language Acquisition
- ESL 5083 Pedagogical Grammar

Bilingual Teaching Methodology (6 hours from the following):

- BBL 5033 Bilingual Content Instruction
- BBL 5063 Biliteracy in Bilingual Classrooms
- BBL 5143 Communication and Critical Pedagogy in Bilingual Classrooms
- BBL 5173 Sociocultural Issues and the Teaching of Reading
- BBL 5193 Multicultural Literature for Children

Research and Assessment (9 hours):

- BBL 5053 Assessment in Bilingual and Second Language Studies

and 6 hours from the following:

- BBL 6003 Research Design and Inquiry in Bicultural-Bilingual Studies
- BBL 6043 Bilingual Education Research
- BBL 6063 Research Methods in Bilingual and Second Language Studies
- BBL 6073 Ethnographic Research Methods in Bicultural-Bilingual Settings
- BBL 6093 Chicana/Latina Feminist Methodologies
- ESL 6013 Second Language Acquisition Research

B. Master’s Thesis (6 semester credit hours of Master’s Thesis)

Bicultural Studies Concentration

This program concentration offers students the opportunity to pursue interdisciplinary study of cultural diversity and sociocultural dynamics in multicultural societies. Emphasis is on the study of biculturalism in the United States. Courses are designed for students with professional, policy, and research interests in intercultural relations within the various institutional settings of society, including business, education, government, health, social services, and cultural organizations. The curriculum complements a wide range of academic backgrounds including the humanities, social sciences, public policy, and business. At least 21 semester credit hours must be courses with a BBL designation. The Master’s degree is offered under two options: thesis and nonthesis.

Degree Requirements. Degree candidates must complete the following 36 semester credit hours of coursework:

A. Required coursework. 30 semester credit hours of coursework from four major areas as follows:

Sociocultural Foundations (12 hours):

- BBL 5003 Foundations for Bicultural Studies

9 additional semester credit hours, selected from the following:

- BBL 5013 Multicultural Groups in the United States
- BBL 5023 Cultural Adaptation in Bilingual Societies
- BBL 5073 Psychosocial Processes in Bicultural-Bilingual Environments
- BBL 5133 Latino Biculturalism in the United States
- BBL 6033 Topics in Bicultural Studies (Consult the program advisor.)
- BBL 6223 Anthropology and Education in Multicultural Contexts
Historical Foundations (3 hours from the following):

BBL 6103 Chicana/o Historical Thought
HIS 5263 History of The Spanish Borderlands
HIS 5313 South Texas: Rural and Urban
HIS 5323 The U.S.–Mexico Border
HIS 5423 Colonial Mexico
HIS 5433 Modern Mexico
HIS 6173 Latina/os in the United States

Expressive Culture and Language Diversity (9 hours from the following):

AHC 5823 Topics in Mesoamerican Pre-Columbian Art
AHC 5843 Topics in Latin American Colonial Art
AHC 5853 Topics in Contemporary Latin American Art
BBL 5043 Ethnography of Communication
BBL 5093 Multicultural Art and Folklore in the United States
BBL 5123 Sociolinguistics and Education
BBL 5193 Multicultural Literature for Children
ESL 5003 Linguistics for Second Language and Bilingual Specialists
SPN 5473 Latin American Civilization
SPN 5483 Studies in Hispanic Culture
SPN 5803 Mexican American Literature
SPN 5853 Spanish of the Southwest

Research Foundations (6 hours from the following):

BBL 6003 Research Design and Inquiry in Bicultural-Bilingual Studies

and one of the following:

BBL 6053 Assessment in Bicultural-Bilingual Communities
BBL 6073 Ethnographic Research Methods in Bicultural-Bilingual Settings
BBL 6093 Chicana/Latina Feminist Methodologies

B. Option I. 6 semester credit hours of Master’s Thesis

or

Option II. 6 semester credit hours of graduate elective coursework in Bicultural-Bilingual Studies, English as a Second Language, or approved related areas.

Master of Arts Degree in Teaching English as a Second Language

The Master of Arts degree in Teaching English as a Second Language (TESL) is designed for students interested in teaching English as a Second or Foreign Language (ESL/EFL) to children or adults in schools and programs in the United States or in international settings. It is an interdisciplinary program that presents systematic instruction in applied/educational linguistics, second language acquisition theory, and ESL/EFL program implementation.

Program Admission Requirements. The Department of Bicultural-Bilingual Studies offers an interdisciplinary program that encourages applicants from a wide range of disciplines. Applicants who do not meet University-wide requirements for unconditional admission may be admitted conditionally if scores from the Graduate Record Examination (GRE), letters of recommendation, and/or previous work in the field provide evidence of academic potential. Information on the GRE and applications for the test may be obtained from the UTSA Testing Center or from the Educational Testing Service, Princeton, New Jersey 08540. The institution code for The University of Texas at San Antonio is 6919 for the GRE.
Candidates for degree are required to give evidence of second language learning experiences acceptable to the Graduate Program Committee.

**Degree Requirements.** Degree candidates are required to successfully complete a 36-semester-credit-hour program. Upon completion of at least 30 semester credit hours of coursework, the candidate is required to pass a comprehensive examination.

Students must take at least 21 semester credit hours of English as a Second Language courses and 9 hours of Bicultural-Bilingual studies courses. An internship is required: students who can document relevant teaching experience may petition to substitute an elective for the internship. The Master’s degree is offered under two options: thesis and nonthesis.

Degree candidates must complete the following 36 semester credit hours of coursework:

A. Required coursework. 30 semester credit hours of coursework from four major areas as follows:

*Language Theory and Language Use* (9 hours):

- BBL 5123 Sociolinguistics and Education
- ESL 5003 Linguistics for Second Language and Bilingual Specialists
- ESL 5013 Foundations of Second Language Acquisition

*Classroom Practice and Program Designs* (12 hours from the following):

9 hours from the following:

- BBL 5053 Assessment in Bilingual and Second Language Studies
- ESL 6943 Internship in English as a Second Language
- ESL 5053 Approaches to Second Language Instruction
  or
- ESL 5063 Language and Content-Area Instruction

and 3 hours from the following:

- ESL 5033 Second Language Reading and Writing
- ESL 5043 Listening and Speaking in Second Language Programs
- ESL 5073 Computer Assisted Language Learning
- ESL 5083 Pedagogical Grammar
- ESL 6043 Family and Adult Literacy in Language Minority Communities
- ESL 6053 Program and Syllabus Design
- ESL 6063 Advanced Second Language Literacy

*Research* (6 hours from the following):

- BBL 6063 Research Methods in Bilingual and Second Language Studies
  or
- BBL 6073 Ethnographic Research Methods in Bicultural-Bilingual Settings
- ESL 6013 Second Language Acquisition Research

*Sociocultural Studies* (3 hours from the following):

- BBL 5003 Foundations for Bicultural Studies
- BBL 5013 Multicultural Groups in the United States
BBL 5023 Cultural Adaptation in Bilingual Societies
BBL 5043 Ethnography of Communication
BBL 6103 Chicana/o Historical Thought
BBL 6223 Anthropology and Education in Multicultural Contexts

B.  Option I. 6 semester credit hours of Master’s Thesis

or

Option II. 6 semester credit hours of graduate elective coursework which must be approved by your advisor and 3 hours of which must carry an ESL prefix.

Doctor of Philosophy Degree in Culture, Literacy and Language

The Department of Bicultural-Bilingual Studies offers opportunities for advanced study and research leading to the Doctor of Philosophy degree in Culture, Literacy and Language. The program focuses on the consequences of cultural and linguistic diversity for literacy and language acquisition. Successful Ph.D. candidates must demonstrate in-depth interdisciplinary knowledge in culture, literacy, and language, and must deliver an original contribution to the field.

The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 5, Doctoral Degree Regulations).

Program Admission Requirements. In addition to the University-wide admission requirements, the minimum requirements for admission to the Doctoral degree program in Culture, Literacy and Language are as follows:

1. A master’s degree in an area such as the following: anthropology, applied linguistics, bicultural-bilingual studies, foreign language education, history, international business, linguistics, psychology, sociology, and teaching English as a Second Language. Masters’ degrees in other fields may be accepted, subject to the approval of the Doctoral Program Committee.

2. A portfolio consisting of the following items will be evaluated by the Doctoral Program Committee, comprised of members selected from the graduate faculty of the Department of Bicultural-Bilingual Studies:

   • A master’s degree transcript documenting a grade point average of 3.5 or better in an approved master’s degree program.
   • Graduate Record Examination (GRE) scores.
   • Advanced proficiency in a language other than English to be demonstrated by examination or approved coursework.
   • For students whose master’s degree is from a non-English speaking university, submission of a Test of English as a Foreign Language (TOEFL) score of no less than 550 (paper version).
   • Three letters of recommendation attesting to the student’s academic and personal attributes for success in the program and potential for contributing substantially to a field of study related to the degree.
   • Statement of Purpose: A description of research interests, reasons for seeking doctoral study, and connections between the applicant’s interests/professional goals and the program in Culture, Literacy and Language (limit of five pages).
   • Academic writing: A sample of academic writing such as a paper written for a course, a master’s thesis or a scholarly publication.

Applicants are evaluated based on the above criteria.

Degree Requirements. The Doctoral degree requires a minimum of 60 semester credit hours beyond the Master’s degree. The core curriculum consists of 24 semester credit hours of required courses. A minimum of 12 semester credit hours in research methods and 15 semester credit hours in doctoral research must be completed.
Program of Study

A. Foundation Course (3 semester credit hours required):
   - BBL 7003 Proseminar in Culture, Literacy and Language

B. Research Methods Courses (12 semester credit hours required):
   - BBL 7013 Research Design and Statistics for Culture, Literacy and Language
   - BBL 7023 Qualitative Research Methods for Culture, Literacy and Language
   - BBL 7033 Research in the Speech Community
   - or
   - BBL 7043 Research Design and Qualitative Analysis for Culture, Literacy and Language
   - EDU 7043 Educational Research Statistics: Descriptive and Comparative
     (Or other approved statistical methods course.)

C. Core Courses (9 semester credit hours required):
   - BBL 7123 Sociocultural Contexts of Literacy
   - BBL 7133 Bilingualism and Second Language Acquisition
   - BBL 7213 Ethnological Theory

D. Designated Electives (12 semester credit hours required). Students, in consultation with their academic advisor and the Graduate Advisor of Record, will select 12 semester credit hours for an emphasis in a coherent interdisciplinary area. As part of these 12 hours, students will be required to take a minimum of 6 semester credit hours of advanced Doctoral seminars.

   Advanced Doctoral Seminars
   - BBL 7113 Seminar in Cultural Studies Research
   - BBL 7203 Seminar in Latino Biculturalism
   - BBL 7223 Seminar in Biliteracy and Second Language Literacy
   - BBL 7233 Seminar in Second Language Acquisition and Bilingualism
   - BBL 7243 Seminar in Language and Language Use
   - BBL 7253 Seminar in Latino Issues in Education

   Other Designated Electives
   - BBL 5043 Ethnography of Communication
   - BBL 5123 Sociolinguistics and Education
   - BBL 6053 Assessment in Bicultural-Bilingual Communities
   - BBL 6073 Ethnographic Research Methods in Bicultural-Bilingual Settings
   - BBL 6223 Anthropology and Education in Multicultural Contexts
   - BBL 6233 Advanced Topics in Language Policy
   - BBL 7083 Technology for Qualitative Research
   - ESL 6013 Second Language Acquisition Research

E. Free Electives (9 semester credit hours required). Students, in consultation with their academic advisor and the Doctoral Program Coordinator (Graduate Advisor of Record), will select additional graduate-level courses within the University in order to complete a coherent emphasis area. Selection of this coursework will be driven by two primary factors: the discipline in which a student has completed the Master’s degree and the research goals for that student.
F. Doctoral Research (15 semester credit hours minimum):

</table>

The entire program of study must be approved by the student’s dissertation advisor, dissertation committee, and the Doctoral Program Committee and must be submitted to the Dean of the Graduate School through the Dean of the College for final approval.

**Qualifying Examination.** A faculty committee nominated by the Doctoral Program Committee conducts the construction, administration, and evaluation of both parts of the examination. The written portion of the examination covers the areas completed in all core and emphasis courses and cannot be taken until after the completion of 36 semester credit hours. In order to pass this examination, the student must demonstrate a broad knowledge of culture, literacy, and language. The oral portion of the examination takes place within two weeks of the written portion and focuses on clarifying the student’s ideas from the written portion. Both parts of the examination are given to a doctoral student before admission to candidacy. The purpose of the examination is to ensure that the student has a sufficient grasp of the theoretical and methodological fundamentals to conduct independent research in the chosen dissertation area. No more than two attempts to pass qualifying examinations are allowed.

**Advancement to Candidacy.** Advancement to candidacy will require a student to complete all University and program requirements. In addition, the student must pass written and oral qualifying examinations, select an original and acceptable research topic, select a supervising professor and dissertation committee, submit appropriate human subject research forms, and complete a dissertation proposal approved by the dissertation committee.

**Dissertation and Final Oral Examination.** Candidates must demonstrate their ability to conduct independent research by completing and defending an original dissertation. The dissertation may employ quantitative or qualitative research methods as applicable to the selected emphasis for the degree. The Doctoral dissertation must make a substantial contribution to a field within culture, literacy and language. The research topic will be determined by the student in consultation with his or her supervising professor. A Dissertation Committee selected by the student and supervising professor and approved by the Graduate School will guide and critique the candidate’s research. The Dissertation Committee must unanimously approve the completed dissertation. The dissertation shall then be defended publicly before the student’s committee and interested members of the University community. Following an open presentation of the dissertation findings, a final oral examination covering the dissertation and the general field of the dissertation will be administered and evaluated by the student’s Dissertation Committee.

---

**COURSE DESCRIPTIONS**

**BICULTURAL-BILINGUAL STUDIES**

(BBL)

**5003 Foundations for Bicultural Studies**

(3-0) 3 hours credit.

The study of concepts, theories, and approaches used in the examination of culture and society, with emphasis on the analysis of bicultural and transcultural praxis.

**5013 Multicultural Groups in the United States**

(3-0) 3 hours credit.

A study of sociocultural diversity, culture maintenance and change, culture revitalization, and other aspects of ethnicity, race, class and gender in the United States.

**5023 Cultural Adaptation in Bilingual Societies**

(3-0) 3 hours credit.

The study of the dynamic relations between culture, language, and the social environment. Explanations for the range of cultural, historical, psychological, and political-economic adaptations in diverse systems.
5033 Bilingual Content Instruction
(3-0) 3 hours credit.
Examines curriculum development, materials, and pedagogy applicable to the integrated teaching of mathematics and the social and natural sciences in bilingual classrooms. Emphasizes research-based methods that use the learner’s first language as a vehicle for content instruction. Offered in Spanish.

5043 Ethnography of Communication
(3-0) 3 hours credit.
Examines the theoretical perspectives for the study of communication in varying cultural contexts. Topics may include intercultural and intracultural communication patterns, the effect of cultural differences on interactions, culture concepts, nonverbal behavior, and increasing intercultural effectiveness.

5053 Assessment in Bilingual and Second Language Studies
(3-0) 3 hours credit.
Study and evaluation of means of assessing language proficiency in bilingual and English as a Second Language programs. Critical review of standardized tests of language proficiency, as well as alternative and informal language assessment techniques, consideration of relationships between second language proficiency and academic achievement, and sociocultural dimensions of testing and assessment.

5063 Biliteracy in Bilingual Classrooms
(3-0) 3 hours credit.
Examines research and instructional practices supporting the acquisition of biliteracy through reading, writing, speaking, and listening. Preparation and adaptation of holistic, thematically based materials and activities. Critical evaluation of existing materials in Spanish. Offered in Spanish.

5073 Psychosocial Processes in Bicultural-Bilingual Environments
(3-0) 3 hours credit.
The study of the social and cognitive psychological factors facing populations in bicultural-bilingual environments.

5083 Curricular and Instructional Considerations for Linguistically and Culturally Diverse Classrooms
(3-0) 3 hours credit.
A critical analysis of the rationale for the preparation of teachers who are culturally and linguistically proficient/responsive to address the needs of diverse student populations. The study of various conceptual frameworks for curricular, instructional, and parental involvement for effective educational practices with diverse learners of different ages, levels, or backgrounds will be conducted. In addition, course analyzes the influences on learning of sociocultural, sociopsychological, and sociopolitical variables and their relevance for the identity and education of diverse learners focusing particularly on the pedagogical and assessment implications.

5093 Multicultural Art and Folklore in the United States
(3-0) 3 hours credit.
A study of the visual arts and the folklore of representative culture groups creating a significant contribution to contemporary society. The course emphasizes Latino/a contributions to mural and street art, regional and religious art, as well as folk, popular, and other arts.

5113 Theoretical Foundations of Bicultural-Bilingual Education
(3-0) 3 hours credit.
A critical analysis of the rationale for bicultural-bilingual education focusing on history, philosophy, and theory. The study and analysis of bicultural-bilingual program designs, research perspectives on effective implementation, and adaptation to community needs.

5123 Sociolinguistics and Education
(3-0) 3 hours credit.
Study of sociolinguistic theory and methodology, with special emphasis on their applicability to linguistically diverse educational contexts and communities. Topics include sociolinguistic approaches to bilingualism and second language learning, dialect diversity, and minority language maintenance and shift.
5133 Latino Biculturalism in the United States  
(3-0) 3 hours credit.  
A study of Mexican American, Puerto Rican, Cuban, and other Latino communities in the United States. Topics may include economic labor force participation, the dynamics of globalization and transnationalism, cultural revitalization and self-determination patterns, school achievement and performance, political participation, and integration.

5143 Communication and Critical Pedagogy in Bilingual Classrooms  
(3-0) 3 hours credit.  
Emphasis on oral and written communicative strategies for achieving full interaction among students and parents in bilingual settings. Focus is on critical pedagogical approaches needed to conduct instruction in two languages. Offered in Spanish. (Formerly titled “Communication in Bilingual Classrooms.”)

5173 Sociocultural Issues and the Teaching of Reading  
(3-0) 3 hours credit.  
Study of how social, cultural, and linguistic factors affect the reading and writing practices of students and how school reading curriculum, instruction, and assessment can be designed to support students from differing sociocultural backgrounds. Special attention is given to the role that social class, dialect, gender, second language learning, and ethnicity play in literacy learning and teaching.

5193 Multicultural Literature for Children  
(3-0) 3 hours credit.  
A study of representative children’s literature for, and about, the many culture groups in the Americas, with emphasis on Latinos and Latinas.

6003 Research Design and Inquiry in Bicultural-Bilingual Studies  
(3-0) 3 hours credit. Prerequisite: Completion of 15 semester hours of degree program.  
Familiarizes students with various research approaches and methodologies used in bicultural-bilingual studies including the conceptualization, structure and types of research design, and pragmatic deliberation of data acquisition and analysis. Topics include information retrieval and library research, literature review, research criticism, and proposal writing.

6033 Topics in Bicultural Studies  
(3-0) 3 hours credit.  
Examines topics of interest in bicultural studies and bilingual education. Possible topics include, but are not limited to, contemporary Chicano arts, Chicanas, Mexican American folklore, cultural factors in human resources development, and bilingual-multicultural school communities. May be repeated for credit when topics vary.

6043 Bilingual Education Research  
(3-0) 3 hours credit.  
Examines qualitative and quantitative methods and models applied to the field of bilingual education. Evaluation of community and school-based research that influences instructional policies and practices in bilingual programs.

6053 Assessment in Bicultural-Bilingual Communities  
(3-0) 3 hours credit.  
Critical review of research in the areas of testing of ethnic minority populations, sociocultural dimensions of testing and assessment, standardized testing, academic achievement, and cognitive assessment issues. Research projects in appropriate assessment of language and cognitive abilities for minority group members.

6063 Research Methods in Bilingual and Second Language Studies  
(3-0) 3 hours credit.  
Research design for the study of linguistic, social, and psychological variables in bilingual, second language, and dialectally diverse populations. Emphasis is on designing and carrying out a research project.
6073  Ethnographic Research Methods in Bicultural-Bilingual Settings  
(3-0) 3 hours credit. Prerequisites: BBL 6003 and completion of 15 semester credit hours of degree program.  
Explores ethnographic approaches and their translation into bicultural-bilingual studies from a multidisciplinary perspective. Emphasis is on learning and practicing participant observation, interviewing, journal writing, document searching, strategies for qualitative analysis and interpretation, and writing styles of research reports.

6093  Chicana/Latina Feminist Methodologies  
(3-0) 3 hours credit.  
This course will examine the different frameworks for theory building by Chicana/Latina feminists. Challenging assumptions within social sciences, Chicana/Latina intellectuals have developed a critical theory that interrogates knowledge production. The course emphasizes methodology and how we produce knowledge, the means by which we examine communities, and how we conduct research as insiders/outsiders.

6103  Chicana/o Historical Thought  
(3-0) 3 hours credit.  
This seminar is a critical examination of the historical experiences of Chicanas and Chicanos. The course is grounded in an analysis of the field of Chicana/o historical writing and within Chicana/o Studies from its inception to the present.

6223  Anthropology and Education in Multicultural Contexts  
(3-0) 3 hours credit. Prerequisite: BBL 5003.  
The application of anthropological theory and methods to the study of education with emphasis on bicultural-bilingual school and community contexts. Topics include theories of culture, cultural transmission and acquisition, and cultural reproduction and production for understanding informal and formal education and its outcomes.

6233  Advanced Topics in Language Policy  
(3-0) 3 hours credit. Prerequisite: ESL 5003 or an equivalent.  
Study of language policies, discourses, and practices. Topics may include theory and implementation of bilingual policies in the United States, cases of official language decisions, instructional medium choices, literacy initiatives, gender-neutral language reforms, or other language-related decisions and policies.

6941-3  Internship in Bicultural/Multicultural Settings  
1 to 3 hours credit.  
A supervised experience, relevant to the student’s program of study, within selected community organizations. Must be taken on a credit/no-credit basis, and no more than 3 hours will apply to a Master’s degree.

6951-3  Independent Study  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor, the student’s program advisor and Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6961  Comprehensive Examination  
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive Examination.  
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).
6973 **Special Problems**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when the topics vary, but no more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6983 **Master’s Thesis**  
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.  
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

7003 **Proseminar in Culture, Literacy and Language**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Required in the first year of doctoral work. This course is intended to provide first-year doctoral students with an opportunity to explore the main theories and areas of research in culture, literacy, and language, with emphasis on language minority communities. Readings include foundational and recent work in interdisciplinary study of culture, literacy, and language, with emphasis on implications for human development, social organization, and education. Students will also become familiar with areas of research of doctoral program faculty.

7013 **Research Design and Statistics for Culture, Literacy and Language**  
(3-0) 3 hours credit. Prerequisite: An introductory course in statistics.  
Research design for quantitative studies in culture, literacy, and language. Topics include formulating testable hypotheses, collecting data on linguistic and cultural variables, selecting appropriate statistical models, and interpreting results. Special attention to the procedures commonly used in studies of language development and language variation, including parametric and nonparametric models.

7023 **Qualitative Research Methods for Culture, Literacy and Language**  
(3-0) 3 hours credit.  
Multimethod research involving an interpretive, naturalistic approach to its subject matter. Examines the use and collection of case studies, personal experience, introspective/retrospective accounts, life story, interview, observational, historical, interactional, and visual texts as data sources.

7033 **Research in the Speech Community**  
(3-0) 3 hours credit. Prerequisites: BBL 5123 or an equivalent, and BBL 7023.  
Field research methods in linguistically diverse communities, with particular attention to discourse analytic approaches. Emphasis on collection, reduction, and analysis of language data. Special attention to procedures and analytic techniques commonly used to examine language in use, in multilingual contexts. Consideration of ethical issues in research in minority communities.

7043 **Research Design and Qualitative Analysis for Culture, Literacy and Language**  
(3-0) 3 hours credit. Prerequisite: BBL 7023.  
Enhances doctoral research proposals from formulation of the research questions, appropriate methods for collection, construction of a conceptual literature review, analysis of data, and determining findings. Provides theory and techniques for analyzing qualitative data sets. Diverse theoretical frameworks will be used to analyze the data sets required from students. May include use of qualitative computer software.

7083 **Technology for Qualitative Research**  
(3-0) 3 hours credit.  
Exploration of the effective use of technology to facilitate data collection, organization, and analysis. Emphasis on application of theoretically-based methodologies for handling and analyzing qualitative data through the use of qualitative research software. Course also includes attention to other hardware or software relevant to the collection, organization and analysis of qualitative data, such as digital audio and video recording equipment and transcribing software and bibliographic software. Most effective for graduate students who have completed a qualitative methodology course and who have already begun the collection of qualitative research data.
Seminar in Cultural Studies Research
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Interdisciplinary study of anthropological and humanistic conceptions of all forms of cultural production in relation to social and historical structures. Topics may include: a range of society’s arts, beliefs, institutions, and communicative practices in relation to social and historical structures. May be repeated for credit when topics vary.

Sociocultural Contexts of Literacy
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Theories and research in language and literacy that examine the complex interactions among social, cultural, psychological, and political factors in literacy learning in multicultural and multilingual contexts.

Bilingualism and Second Language Acquisition
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Theories and research in bilingualism, multilingualism, and second language acquisition. Emphasis on the linguistic, cognitive, and motivational factors in the study of language acquisition.

Seminar in Latino Biculturalism
(3-0) 3 hours credit. Prerequisite: BBL 7113 or consent of instructor.
Study of Mexican American, Central American, Cuban, and Puerto Rican ethnic self-determination patterns in the context of mainstream cultural diversity in the United States. Suggested topics include: Latino cultural expression, Latino labor market participation, Latino political participation, Latino educational participation and achievement. May be repeated for credit when topics vary.

Ethnological Theory
(3-0) 3 hours credit. Prerequisite: BBL 7113 or consent of instructor.
Study of the relations of theory and ethnography in sociocultural anthropology. Examines cultural theory, ethnography, comparison, history, and the current controversies that illustrate various theoretical perspectives.

Seminar in Biliteracy and Second Language Literacy
(3-0) 3 hours credit. Prerequisite: BBL 7123 or consent of instructor.
Exploration of literacy development from social and cognitive perspectives. Topics may include simultaneous acquisition of first and second language literacy; emerging literacy in second language; adult literacy; reading and writing in a second language; the relationship of biliteracy and second language literacy to language maintenance and shift. May be repeated for credit when topics vary.

Seminar in Second Language Acquisition and Bilingualism
(3-0) 3 hours credit. Prerequisite: BBL 7133 or consent of instructor.
Study of the research in second language acquisition and bilingualism. Topics may include age and second language acquisition; identity and second language acquisition; sociocultural theories of second language acquisition, universal grammar and second language acquisition, interlanguage variation, bilingual groups in the Americas, Asia, and Europe, cultural and linguistic interaction norms, and cognitive development in the bilingual child. May be repeated for credit when topics vary.

Seminar in Language and Language Use
(3-0) 3 hours credit. Prerequisite: BBL 7133 or consent of instructor.
Topics in linguistic theory and their relationships to language behavior in multilingual contexts. Topics may include phonological theory, syntactic models, discourse analysis, pragmatics, language socialization, language contact, language maintenance and shift, sociolinguistics and literacy, and language variation. May be repeated for credit when topics vary.
7253  Seminar in Latino Issues in Education  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Critical analysis of the social, political, economic, and cultural factors that have historically impacted the K-16 education of Latinos in the United States. Examination of theoretical frames used to interpret their schooling experiences. Topics may include legal and policy issues, historical perspectives, bilingual/multicultural education, and teacher preparation for a linguistically diverse society. May be repeated for credit when topics vary.

7303  Directed Doctoral Research  
3 hours credit. Prerequisite: Consent of instructor.  
Supervised research on a topic in culture, literacy, and language. May be repeated for credit, but no more than 6 hours may be applied to the Doctoral degree.

7311-3  Doctoral Dissertation  
1 to 3 hours credit. Prerequisite: Admission to candidacy for the Doctoral degree.  
May be repeated for credit, but no more than 12 hours may be applied to the Doctoral degree. Credit will be awarded upon completion of the dissertation.

COURSE DESCRIPTIONS  
ENGLISH AS A SECOND LANGUAGE (ESL)

5003  Linguistics for Second Language and Bilingual Specialists  
(3-0) 3 hours credit.  
Concepts in linguistics directed toward a broad understanding of human language, with particular attention to teaching in second-language and bilingual contexts.

5013  Foundations of Second Language Acquisition  
(3-0) 3 hours credit.  
Study of principles, theories, and issues in second language acquisition and bilingualism, with implications for language teaching.

5033  Second Language Reading and Writing  
(3-0) 3 hours credit.  
Current approaches to the teaching and learning of reading and writing in English as a Second Language. The relationship of second language reading and writing to language learning including oral development. A critical evaluation of existing literacy materials available for second language learners. Particular focus on second language learners with emergent and beginning levels of proficiency.

5043  Listening and Speaking in Second Language Programs  
(3-0) 3 hours credit.  
Development, presentation, and evaluation of materials and strategies for teaching listening, speaking, and pronunciation to second language learners. Emphasizes current theories and development of oral proficiency.

5053  Approaches to Second Language Instruction  
(3-0) 3 hours credit.  
Study of instructional strategies for teaching English as a Second/Foreign language to students from beginning to more advanced stages of English proficiency. Survey of approaches and methods used in the field with a particular focus on communicative language teaching. Critical evaluation of existing curricular materials. Emphasis on the planning and delivery of effective ESL/EFL lessons.
5063 Language and Content-Area Instruction
(3-0) 3 hours credit.
Theoretical and practical approaches to integration of language teaching with subject matter areas. Emphasis on oral language and literacy for academic purposes in school settings, and on the planning and delivery of effective content-area lessons.

5073 Computer Assisted Language Learning
(3-0) 3 hours credit.
Overview of the rationale, value, and management of technology in the second language classroom; the creation of technology-enhanced lessons, effective use of internet-based resources, and critical evaluation of language learning software applications.

5083 Pedagogical Grammar
(3-0) 3 hours credit.
Study of English grammar from descriptive and discourse perspectives, with consideration of cross-linguistic contrasts and of applications for teaching English as a Second Language.

6013 Second Language Acquisition Research
(3-0) 3 hours credit. Prerequisite: 15 semester credit hours completed in degree program or consent of instructor.
Investigation of second language acquisition from multiple perspectives through data-based studies.

6033 Topics in Second Language Acquisition and Teaching
(3-0) 3 hours credit.
Topics may include English for Special Purposes, second language acquisition and discourse analysis, intercultural pragmatics, interactional approaches to second language acquisition, and second language learning in adulthood. May be repeated for credit when topics vary.

6043 Family and Adult Literacy in Language Minority Communities
(3-0) 3 hours credit.
Theoretical and practical aspects of family and adult literacy development in language minority communities. Topics may include relationships between oral and written language; second language literacy, and relationships between literacy and social, economic, and political factors. Implications for program development and implementation.

6053 Program and Syllabus Design
(3-0) 3 hours credit.
Theoretical and practical concerns in developing instructional programs to meet the objectives of second language learners, including English for Specific Purposes.

6063 Advanced Second Language Literacy
(3-0) 3 hours credit.
Current approaches and theories of second language literacy, with a focus on the integration of reading and writing. Review of research on second language reading and second language writing. Theory-based practice in literacy development in a second language. Particular focus on second language learners with advanced levels of proficiency.

6941-3 Internship in English as a Second Language
1 to 3 hours credit. Prerequisites: 15 semester credit hours of coursework in ESL and consent of instructor.
Supervised experience in teaching English as a Second Language. Highly recommended for students with limited teaching experience in ESL. Must be taken on a credit/no-credit basis, and no more than 3 hours will apply to a Master’s degree.
6951-3  **Independent Study**  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the department’s Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but no more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6973  **Special Problems**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but no more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6983  **Master’s Thesis**  
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.  
Thesis research and preparation. May be repeated for credit, but no more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.
DEPARTMENT OF COUNSELING

Master of Arts Degree in Counseling

The Master of Arts (M.A.) degree in Counseling offers the opportunity for advanced study and professional development in the fields of Community, School, Addictions, Multicultural, Marriage and Family, and Sports Psychology Counseling. Students may earn credit toward a state-level counseling license to practice in community settings (Licensed Professional Counselor). Credit may also be earned toward the School Counselor’s Certificate. A thesis option emphasizes the development of research competencies critical to continued graduate-level study. The Master of Arts degree in Counseling has national Council for Accreditation of Counseling and Related Educational Programs (CACREP) accreditation for the School & Community Counseling Program.

Program Admission Requirements. Applicants must hold a 3.0 GPA during the last 60 hours of their undergraduate studies to be eligible for clear admission to the counseling program. Applicants with a GPA between 2.70 and 2.99 may be accepted into the program on a probationary basis. Applicants without adequate background for counseling will be required to take COU 3103 Helping Skills and, at the discretion of the admission committee, to complete up to 15 additional hours of preparatory courses as a condition of admission. Letters of recommendation, a written statement of goals, and a personal interview may be required. Interested persons should contact the Student Development Specialist for the Counseling program or check the Web site for more information. The number of students admitted to this program may be limited.

Degree Requirements. Candidates for the Master of Arts degree in Counseling must earn a minimum of 48 semester credit hours. Students must pass a comprehensive written examination toward the end of their formal coursework. The comprehensive examination may be repeated, but students who fail the examination two times must have permission from their supervisory committee to take the examination additional times. Students who fail to pass the examination should take coursework or other work to remedy deficiencies before they retake the examination.

B. 9 semester credit hours of elective courses:

Option 1. Thesis Option: 6 hours of thesis, plus a 3-hour research methods or statistics course to be approved by Thesis Committee Chair (total of 48 semester credit hours).

Option 2. Nonthesis Option: 9 hours of electives (total of 48 semester credit hours).

Standards and Procedures

In order to complete counselor preparation programs and to be eligible to take certification or licensing examinations, students must:

• maintain scholastic performance meeting or exceeding department standards
• demonstrate the acquisition of and ability to apply counseling skills necessary to work effectively with persons having diverse needs, as generally accepted by practitioners in counseling
• demonstrate emotional and mental fitness in their interactions with others, and
• conform with the codes of ethics of professional associations in counseling and of the State of Texas (Texas Administrative Code, Title 19, Part 7, Chapter 247, Code of Ethics and Standard Practices for Texas Educators).

It is the duty of faculty members in the counseling program to evaluate all students according to these standards in all settings in which faculty members and students interact, in classes, in advising and counseling settings, and in personal conversations.

It is expected that students will respond to evaluations, formal or informal, in appropriate ways and in all cases, attempting to conform to standards as explained to them. Conformance with standards must be demonstrated by students throughout the period of time spent in the program; events of nonconformance must be followed by faculty judgments that satisfactory adjustments have been made.

Admission to the program does not guarantee fitness to remain in the program to completion. Only those students who meet program standards will be allowed to continue in the program. If and when a student is judged not to meet program standards sufficiently to be allowed to engage in counseling others, that student will be removed from continuation in the program. Refer to the Graduate Counseling Handbook for a detailed outline of the due process procedures related to this policy.

Only two courses with the grade of “C” will be accepted toward this degree. A minimum of a 3.0 grade point average will be required for graduation. Those who obtain more than two grades of “C” will be put on probation and may be required to do appropriate remedial work.

Doctor of Philosophy Degree in Counselor Education and Supervision

The Ph.D. in Counselor Education and Supervision is intended to prepare professionals for future careers in academic, clinical, research, and consultation settings. This degree program is nationally accredited through the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Program graduates will have been afforded the opportunity to acquire both the theoretical knowledge and clinical and research practical skills necessary to work in academic counselor education departments, and clinically supervise the next generation of counselor educators and school and community agency counselors. Students will be expected to formulate their own philosophy and approach to the counselor education field. Multicultural competencies will be emphasized throughout the program.

The Doctoral program objectives include:

• providing students with opportunities to initiate and contribute to existing research projects
• supervised clinical internships
• opportunities for providing counseling services to members of underrepresented populations in surrounding communities
opportunities for students to focus on specialty areas such as multicultural, agency, school, marriage and family, addictions, student affairs, and sports psychology and advanced theoretical knowledge and applied clinical supervision training
• creating new knowledge through the dissertation research process
• providing students with opportunities for classroom teaching experiences, including course development.

Program Admission Requirements. Admission to the program is limited and competitive. Meeting the minimum admission requirements does not guarantee acceptance into the program. Competitive applicants often exceed minimum requirements.

1. A master’s degree in counseling or in a related mental health field requiring a minimum of 48 semester credit hours equivalent to the master’s degree requirements of the UTSA Counseling program and/or Council for Accreditation of Counseling and Related Educational Programs (CACREP). Students with fewer than 48 semester credit hours may be considered for admission to the program with conditional status pending completion of the deficient hours and satisfactory completion of courses fulfilling CACREP core course requirements.

2. A minimum grade point average of 3.0 in master’s level courses in counseling or in a related mental health field.

3. A portfolio consisting of the following items, which will be evaluated by the Doctoral Program Committee:
   a. A 48-hour (or greater) master’s degree transcript documenting a grade point average of 3.0 or better in counseling or an approved related mental health field;
   b. For applicants whose native language is not English, a score of at least 550 on the Test of English as a Foreign Language (TOEFL; paper version);
   c. Three letters of recommendation attesting to the student’s academic and personal attributes for success in the program and potential for contributing substantially to a field of study related to the degree;
   d. A written personal statement/essay describing research interests and purpose for pursuing the Ph.D. in Counselor Education and Supervision;
   e. Graduate Record Examination (GRE) test scores not older than five years;
   f. Documented experience in a work environment (formal positions or internships) where counseling was the primary professional emphasis (may include but not limited to one-on-one counseling, counseling for couples, psychological assessment and testing, group or community counseling);
   g. Professional résumé listing prior experiences in the field of Counseling.

4. Successful completion of a finalist interview with the admissions committee.

Degree Requirements. Students pursuing the Ph.D. in Counselor Education and Supervision will be required to pass a qualifying examination prior to admission to candidacy. All candidates will be required to submit a scholarly contribution in the form of a dissertation as partial fulfillment of requirements for this Doctorate (see Dissertation handbook). All students will be evaluated by the fitness to practice policy of the department (see Doctoral handbook).

Standards and Procedures  

In order to complete counselor preparation programs and be eligible to take certification or licensing examinations, students must:

- maintain scholastic performance meeting or exceeding department standards  
- demonstrate the acquisition of and ability to apply counseling skills necessary to work effectively with persons having diverse needs, as generally accepted by practitioners in counseling  
- demonstrate emotional and mental fitness in their interactions with others  
- conform with the codes of ethics of professional associations in counseling and of the State of Texas (Texas Administrative Code, Title 19, Part 7, Chapter 247, Code of Ethics and Standard Practices for Texas Educators).  

It is the duty of faculty members in the counseling program to evaluate all students according to these standards in all settings in which faculty members and students interact, in classes, in advising and counseling settings, and in personal conversations.  

It is expected that students will respond to evaluations, formal or informal, in appropriate ways and in all cases, attempting to conform to standards as explained to them. Conformance with standards must be demonstrated by students throughout the period of time spent in the program; events of nonconformance must be followed by faculty judgments that satisfactory adjustments have been made.  

Admission to the program does not guarantee fitness to remain in the program for completion. Only those students who meet program standards will be allowed to continue in the program. If and when a student is judged not to meet program standards sufficiently to be allowed to engage in counseling others, that student will be removed from continuation in the program. Refer to the Graduate Counseling Handbook for a detailed outline of the due process procedures related to this policy.  

Courses in which the student has earned a “C” will not be accepted toward this degree. A minimum of a 3.0 grade point average and a successful defense of a dissertation will be required for graduation.
COURSE DESCRIPTIONS
COUNSELING
(COU)

5103 Introduction to School Counseling
(3-0) 3 hours credit.
Orientation to the role and profession of school counseling and UTSA's counseling program. Investigation of institutional constraints, documentation, and the legal and ethical aspects of school counseling. Examines comprehensive developmental guidance program planning for students, teachers, administrators, parents, and the community. Also examines ASCA and TEA knowledge, skills and abilities for school counselors. (Formerly EDP 5253. Credit cannot be earned for both COU 5103 and EDP 5253.)

5113 Ethical and Legal Issues in Counseling
(3-0) 3 hours credit.
Explores philosophical precepts on which counseling interventions are based. Examines ethical and legal standards related to professional practice and the impact of personal values on the counseling process. (Formerly EDP 5113. Credit can be earned only for one of the following: COU 5113, EDP 5113, or EDU 5113.)

5203 Introduction to Community Counseling
(3-0) 3 hours credit.
Provides an overview of the counseling profession. Explores ethical and diversity issues of school and community counselors. Provides an orientation to the counseling program, information about professional credentials, and job roles. Requires observational experience. (Formerly EDP 5203. Credit cannot be earned for both COU 5203 and EDP 5203.)

5213 Counseling Theories
(3-0) 3 hours credit.
Major counseling theories and techniques are presented. Students investigate affective, behavioral, and cognitive psychotherapeutic strategies. (Formerly EDP 5213. Credit cannot be earned for both COU 5213 and EDP 5213.)

5223 Psychological Assessment for Counselors
(3-0) 3 hours credit. Prerequisite: COU 5243.
Introduction to measurement theory, assessment strategies, and individual- and group-administered techniques, including standardized tests. Emphasis on analysis and interpretation of assessment results for treatment planning. Casework is required. (Formerly EDP 5223. Credit cannot be earned for both COU 5223 and EDP 5223.)

5233 Group Theory and Process
(3-0) 3 hours credit. Prerequisites: COU 5103 or COU 5203, and COU 5213.
A study of small group theory, research, and procedures. Explores group membership and leadership behavior. Participation in group counseling is required. (Formerly EDP 5233. Credit cannot be earned for both COU 5233 and EDP 5233.)

5243 Counseling Individuals with Behavioral and Emotional Disorders
(3-0) 3 hours credit. Prerequisites: COU 5103 or COU 5203, and COU 5213.
Counseling interventions with behavioral and emotional disorders; symptoms for psychoses, emotional disorders, and maladaptive behavior patterns. (Formerly EDP 5243. Credit cannot be earned for both COU 5243 and EDP 5243.)

5253 Child and Adolescent Counseling in a Systemic Context
(3-0) 3 hours credit. Prerequisites: COU 5103 or COU 5203, and COU 5213.
The emotional and behavioral experiences of childhood and adolescence are discussed within the context of school and family. Counseling strategies are presented. Requires casework. (Formerly EDP 5263. Credit cannot be earned for both COU 5253 and EDP 5263.)
5283 **Counseling in a Multicultural Setting**  
(3-0) 3 hours credit. Prerequisites: COU 5103 or COU 5203, and COU 5213.  
A study of major issues of cross-cultural counseling. The impact of diversity (within and between group differences)  
is examined. (Formerly EDP 5283. Credit cannot be earned for both COU 5283 and EDP 5283.)

5393 **Development of Counseling Skills**  
(3-0) 3 hours credit. Prerequisites: COU 5103 or COU 5203, and COU 5213.  
Focus on sequential learning of counseling skills and their practical application. Counseling sessions are recorded and  
evaluated. (Formerly EDP 5393. Credit cannot be earned for both COU 5393 and EDP 5393.)

5613 **Substance Abuse & Chemical Dependency Counseling**  
(3-0) 3 hours credit.  
Uses cognitive-behavioral and systems-based strategies for treatment and relapse prevention in substance abuse and  
chemical dependence. Examines dual diagnosis with other Axis I disorders and comorbidity with Axis II disorders.  
Introduction to the ICRC/AODA 12 core functions and global criteria for substance abuse counselors. (Formerly  
EDP 5613. Credit cannot be earned for both COU 5613 and EDP 5613.)

5673 **Youth Mentoring Programs and Practices**  
(3-0) 3 hours credit.  
Examines natural and structured helping relationships between youth and older non-clinically trained persons. Topics  
include theory and research on mentoring in school and community settings; fostering and supervising non-professional  
helping relationships; establishing and evaluating programs; recruiting and training mentors; the role of age, sex, and  
culture in helping relationships. Fieldwork required.

5683 **Practicum in Counseling**  
3 hours credit. Prerequisites: All core coursework (except COU 5253 and COU 6003). Students must apply for  
permission to enroll one semester in advance by completing the appropriate form and supplying evidence of readiness  
and fitness to practice counseling.  
Offers the first opportunity for supervised field work in a counseling setting. May be repeated for a maximum of 6  
hours. (Formerly EDP 5693. Credit cannot be earned for both COU 5683 and EDP 5693.)

5713 **Community Counseling Internship**  
3 hours credit. Prerequisite: COU 5683.  
Extensive supervised field work in a UTSA-approved community counseling setting. May be repeated for credit for a  
maximum of 9 hours. Students must apply to enroll one semester in advance.

5793 **School Counseling Internship**  
3 hours credit. Prerequisites: COU 5253 and COU 5683.  
Extensive supervised fieldwork in a UTSA-approved school counseling setting. May be repeated for credit for a  
maximum of 9 hours. Students must apply to enroll one semester in advance.

6003 **Consultation and Program Evaluation**  
(3-0) 3 hours credit. Prerequisites: COU 5103 or COU 5203, and COU 5213.  
Provides a framework for understanding and practicing consultation in a school and/or community setting. Students  
examine the historical development, major models, and ethical and legal issues related to consultation. Students develop  
a personal model of consultation and apply theoretical material to case presentations. (May be taken concurrently with  
COU 5793 School Counseling Internship.)

6013 **The Role of Sport in Society**  
(3-0) 3 hours credit.  
Examination of sport and physical activity, sport’s impact on society, and the affective roles sport takes as part of our  
social structure and the institution of education. (Same as KAH 6013. Credit cannot be earned for both COU 6013 and  
KAH 6013.)
6023 Exercise Psychology
(3-0) 3 hours credit.
A study of the theoretical models and research related to the determinates of exercise adoption and adherence. The relationship between exercise and mental health will be discussed. (Same as KAH 6023. Credit cannot be earned for both COU 6023 and KAH 6023.)

6033 Sport Psychology
(3-0) 3 hours credit.
A study of cognition and behaviors related to the participation in sport. This course will have a theoretical focus and will include topics such as self-efficacy, performance enhancement, cohesion, arousal and anxiety. Contemporary research will be discussed. (Same as KAH 6033. Credit cannot be earned for both COU 6033 and KAH 6033.)

6043 Applied Sport Psychology
(3-0) 3 hours credit. Prerequisite: COU 6033.
This course will provide a practical and comprehensive introduction to somatic, cognitive and behavioral interventions used in athletics to improve performance. Theoretical bases of psychological stress and performance will be explored and appropriate interventions discussed. Research findings related to athletics will be applied. (Same as KAH 6043. Credit cannot be earned for both COU 6043 and KAH 6043.)

6073 Research Colloquium
(3-0) 3 hours credit. Prerequisite: EDU 5003.
Guided discussion of research in planning stages, in process, and recently completed by participants. Opportunity for the organization of research teams to have effective interpersonal collaboration in planning and conducting research, and opportunity for students engaged in research to obtain assistance in planning, data collection, data analysis, and preparation of reports. (Credit cannot be earned for both COU 6073 and AHE 6073.)

6153 Career Development and Choice
(3-0) 3 hours credit.
A study of theories of occupational choice and career development and their application to the guidance and counseling process. Identification and utilization of various types of occupational information and resources in counseling interviews and guidance programs. (Formerly EDP 6153. Credit can be earned for only one of the following: COU 6153, EDP 6153, or C&I 6153.)

6203 Psychological Perspectives of Motor Learning and Control
(3-0) 3 hours credit.
Study of the individual processes of skill acquisition, including the involvement of transfer, timing, feedback, practice, retention as well as the processes of central and peripheral mechanisms involved in implementing physical and perceptual skills. (Same as KAH 6203. Credit cannot be earned for both COU 6203 and KAH 6203.)

6323 Advanced Psychological Assessment
(3-0) 3 hours credit. Prerequisite: COU 5223.
Theory and application of specific instruments and techniques, including administration and scoring. Emphasis on analysis, interpretation, and integration of ability, achievement, and personality assessment results for diagnostics as well as treatment planning. Casework is required. (Formerly COU 5323. Same as EDP 6323. Credit can be earned for only one of the following: COU 5323, COU 6323, EDP 5323, or EDP 6323.)

6523 Family Counseling Theories
(3-0) 3 hours credit.
This course examines the history of family therapy, major family counseling theories, and significant marriage and family theorists.
6533  Current Topics in Marriage and Family Counseling  
(3-0) 3 hours credit.  
This course addresses current pressing topics within the marriage and family counseling literature. These topics may range from family, couple, and child assessment, contemporary or changing treatment interventions, and legal and ethical issues faced by counselors in marriage and family practitioners.

6543  Marriage and Family Practice  
(3-0) 3 hours credit. Prerequisite: COU 6523.  
This course provides a clinical marriage and family practice component. It is a skills development course that provides an opportunity for students to become proficient in specific marriage and family related clinical practices.

6613  Addicted Families, Violence, and Life-Threatening Behaviors  
(3-0) 3 hours credit. Prerequisites: COU 5613 and COU 6523.  
This course explores the intertwined comorbidity of family addictions, violence, and life-threatening behaviors (e.g., suicide, child abuse, domestic violence, etc.) and provides an opportunity for students to obtain the basic knowledge and practice skills to provide thorough counseling practices to families presenting with this “triple threat.”

6623  Current Topics in Addictions  
(3-0) 3 hours credit. Prerequisite: COU 5613.  
This course addresses current pressing topics within the addictions literature including but not limited to: substances of primary choice, treatment interventions, legal and ethical issues, prevention, and applied recovery techniques.

6633  Addictions Practice  
(3-0) 3 hours credit. Prerequisite: COU 5613.  
This course provides a clinical addictions service practice component. It is a skills development course that provides students with an opportunity to become proficient in specific addictions related clinical practices.

6723  Counseling for Advocacy and Social Justice  
(3-0) 3 hours credit. Prerequisite: COU 5283.  
Examination of the role of social responsibility within the counseling profession. Focuses on the exploration and application of social change strategies on behalf of diverse clients in communities and schools.

6733  Health Care Counseling and Diverse Cultures  
(3-0) 3 hours credit. Prerequisite: COU 5283.  
Students will explore the historical context of the relationship between the U.S. government and health care disparities among racial and ethnic minorities. Students will examine how families and cultural competencies can be incorporated into the health counseling process.

6743  Special Topics in Multicultural Counseling  
(3-0) 3 hours credit. Prerequisite: COU 5283.  
Critical analysis of pressing issues contained within the multicultural counseling literature. These issues will be creatively explored through the use of media and other novel means.

6893  Foundations of Research in Counseling and Development  
(3-0) 3 hours credit. Prerequisite: Doctoral status or consent of instructor.  
Examination of existing research and research methodology in the field of counseling and development. Describes approaches for conducting applied research, including design and data analysis strategies, emphasizing qualitative, quantitative, and mixed methods. Topics include measurement issues (reliability, validity), data collection approaches (interviews, surveys, case studies), and methods of data analysis.
6951-3  **Independent Study**
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing in a counseling-related topic under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but no more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6961  **Comprehensive Examination**
1 hour credit. Prerequisite: Approval of the Graduate Program Committee to take the Comprehensive Examination.
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6973  **Special Issues**
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Issue courses may be repeated for credit when the topics vary, but no more than 6 hours, regardless of discipline, may be counted toward the Master’s degree. (Formerly titled “Special Problems.”)

6983  **Master’s Thesis**
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.
Thesis research and preparation. May be repeated for credit, but no more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

7103  **Qualitative Research Methods in Counseling and Development**
(3-0) 3 hours credit. Prerequisite: COU 6893 or consent of instructor.
Explores qualitative research traditions and approaches in counseling and development, including grounded theory, phenomenology, case study, and ethnography. Describes the stages of qualitative research, from reviewing the relevant research literature and stating the research problem to specifying appropriate procedures for data collection and analysis. Students produce an original proposal for conducting qualitative research in counseling and development as a major component of the course. (Formerly COU 6053. Credit can be earned for only one of the following: COU 7103, COU 6053, or AHE 6053.)

7121  **College and University Teaching Seminar**
(1-0) 1 hour credit.
Provides the student with experiences and theoretical knowledge in the process of higher education. Theories in instruction are explored and the students will be performing activities including but not limited to class preparation, class presentation, testing, and course organization. Classroom experiences are analyzed and discussed under supervision of qualified faculty.

7133  **Seminar in Professional Development**
(3-0) 3 hours credit. Prerequisite: Doctoral status or consent of instructor.
This course is intended to provide an overview of current research issues in counselor education, ethical and legal concerns and issues related to counselor identity.

7213  **Advanced Theories of Counseling**
(3-0) 3 hours credit. Prerequisite: Doctoral status.
In-depth study and analysis of the traditional and contemporary theories of counseling and analysis of original works by theorists. Critical evaluation of philosophical and psychological assumptions that underlie various theories will be required. Critical analysis of how theories “fit” in current counseling culture will be required.
7283  **Advanced Multicultural Counseling**  
(3-0) 3 hours credit. Prerequisite: COU 7213 or consent of instructor.  
Comprehensive investigation of multicultural issues, theory, research, and practice relevant to the field of counseling.  
Cultural identification and exploration of one’s heritage and how it impacts the therapeutic process will be required.  
Emphasis on the development of advanced multicultural counseling competencies will be explored. Extensive cultural  
experiential field exercises will be required.

7313  **Practicum in Counseling**  
(3-0) 3 hours credit. Prerequisite: Doctoral status.  
This practicum provides a counseling experience prior to the doctoral student entering his/her advanced internship.  
The course will offer opportunities for growth in skills, knowledge and personal development as a doctoral-level practitioner.

7383  **Advanced Practicum in Multicultural Counseling**  
(3-0) 3 hours credit. Prerequisite: COU 7283 or consent of instructor.  
Investigation and application of multicultural counseling content to clinical practice. This skills-development course  
assists students in their proficiency in counseling clients of diverse backgrounds.

7413  **Internship I**  
3 hours credit. Prerequisite: Doctoral status.  
Incorporates campus-based practicum experience with classroom experience focusing on client problems and the  
learning of relevant counseling skills.

7513  **Internship II**  
3 hours credit. Prerequisites: Doctoral status and permission of instructor.  
Involves field-based experience within one of several approved community settings including urban public schools,  
courts, detention centers, and mental health care centers. Students will engage in a variety of roles that include  
supervision and administration of counseling programs.

7583  **Supervision of Counseling**  
(3-0) 3 hours credit.  
Introduces supervisors-in-training to knowledge and skills identified by the profession as basic to effective tutoring  
and mentoring skill development of counselors-in-training and practicing counselors. Students will be required to  
engage in supervision experiences to demonstrate competency in skill acquisition. This course is designed for students  
who have completed their Master’s degree.

7593  **Practicum in Counseling Supervision**  
(3-0) 3 hours credit. Prerequisite: COU 7583.  
An advanced experiential course aimed at translating supervision theory into practice. Students will be required  
to supervise master’s level counselors-in-training. Current models of supervision and their application will be  
emphasized.

7771-3  **Independent Study**  
1 to 3 hours credit. Prerequisites: Doctoral standing and permission in writing (form available) of the instructor and  
student’s Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing  
specialized work as part of the regular course offerings. May be repeated for credit, but no more than 6 semester credit  
hours will apply to the Doctoral degree.

7893  **Advanced Research in Counseling and Development**  
(3-0) 3 hours credit. Prerequisites: COU 6323, COU 7103, and COU 7213.  
Advanced study of scientific inquiry, research-related ethical issues, design, sampling procedures, and data analysis.  
Encourages development of research skills and inquiry in the context of student’s dissertation by linking research  
questions to appropriate qualitative, quantitative, or multi-method approaches. Emphasis on dissertation data collection,  
analysis, and presentation. (Formerly titled “Research in Counseling.”)
7973 Special Topics in Counseling  
(3-0) 3 hours credit.  
An organized course offering the opportunity for specialized study not normally or often available as part of the regular course offerings. This course may be repeated for credit when topics vary and will apply toward the Doctoral degree.

7993,6 Dissertation  
3 or 6 hours credit. Prerequisites: Admission to candidacy for the Doctoral degree and consent of student’s Graduate Advisor of Record.  
May be repeated for credit, but no more than 12 semester credit hours may be applied to the Doctoral degree. Credit will be awarded upon completion of the dissertation.
DEPARTMENT OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES

Master of Education Degree in Educational Leadership and Policy Studies

Students seeking to apply for administrative careers in public or private schools, school systems, and higher education institutions have two options for the Master of Education (M.Ed.) degree: (a) a concentration in educational leadership for K-12 school administrators and (b) a concentration in higher education administration for post-secondary administrators. The unique problems, processes, and expertise associated with effective personnel, instruction, and instructional leadership decisions are explored, developed, and tested in simulations with an emphasis on applied research and human relations methodologies. The 36-semester-credit-hour degree program with an educational leadership concentration for K-12 also is designed to meet principalship certification requirements. In addition, a superintendency/central office program of 15 semester credit hours is available for practicing K-12 school administrators. Successful completion of the program and passing the Texas Examinations of Educator Standards (TExES) can result in a recommendation to the State of Texas for principalship or superintendent certification.

Program Admission Requirements. The M.Ed. in Educational Leadership and Policy Studies is for students aspiring to be school administrators in K-16 schools and other educational settings. Admissions are based on the following criteria:

1. Applicants must hold a baccalaureate degree from a regionally accredited college or university in the United States or have proof of equivalent training at a foreign institution.
2. Evidence of relevant work experiences must be provided as documented by the submission of a résumé. For the educational leadership concentration, applicants must have at least two years teaching experience and have demonstrated a willingness to engage in leadership activities outside the classroom. Higher education administration concentration applicants must have at least one year of experience in student affairs or a related field.
3. Acceptance to the M.Ed. program is contingent on having a grade point average (GPA) of at least 3.0 (on a 4.0 scale) in the last 60 semester credit hours of coursework for the baccalaureate degree, as well as in all graduate-level work taken. If an applicant’s GPA is between 2.7 and 2.99, probationary admission may be granted and the student must maintain a minimum of a 3.0 GPA during the first 12 hours of coursework. Applicants who have a GPA below 2.7 are denied admission as degree-seeking students.
4. Applicants who lack appropriate academic background (e.g., Texas teaching certification) may be admitted conditionally, and specific coursework will be required to address their deficiency.

Degree Requirements

A. Core. 9 semester credit hours required:

   EDL  5303  Human Relations in Educational Administration
   EDU  5003  Research Methods
   EDU  6223  Education in a Culturally and Linguistically Diverse Society

B. Support work. 27 semester credit hours required:

   Educational Leadership Concentration

   C&I  5003  Theory of Curriculum and Instruction
   EDL  5003  Introduction to School Administration
   EDL  5103  Introduction to School Finance
   EDL  5203  School and Community Relations in Education
   EDL  5403  The Principalship: Educational Unit and Site Administration
   EDL  5503  Administration and Function of Special Programs
   EDL  5703  Legal Foundations in Education
EDL 6023 Supervision: Tools and Techniques
EDL 6943 Internship in Educational Administration

or

**Higher Education Administration Concentration**

HSA 5003 History of American Higher Education
HSA 5023 Foundation and Function of College Student Personnel
HSA 5103 College Student Development
HSA 5203 Multicultural Issues in Higher Education
HSA 6003 Higher Education Law
HSA 6123 Program Planning and Evaluation in Higher Education and Student Affairs
HSA 6143 Administration of Student Services in Higher Education
HSA 6503 The Community College
HSA 6943 Internship in Higher Education

C. Comprehensive Examination: A comprehensive examination is required as described separately in this catalog (see Chapter 4, Master’s Degree Regulations).

**Graduate Certificate in Higher Education Administration**

The Graduate Certificate in Higher Education Administration is a 15-semester-credit-hour program available to students who have been admitted as a special student and seek the certificate independent of a degree as well as master’s degree students who are not matriculating through the M.Ed. in Educational Leadership and Policy Studies (Higher Education Administration concentration).

The Graduate Certificate in Higher Education Administration will provide an opportunity for higher education professionals working or seeking to work in the myriad of higher education institutions in the region to develop their knowledge and skills in higher education administration. With a large and expanding four-year university and community college student population, this certificate program will enhance the professional preparation and development opportunities for current and prospective higher education administrators.

To meet the curricular requirements for the Graduate Certificate in Higher Education Administration, students must complete 15 semester credit hours to be chosen from the following list of courses:

EDL 5303 Human Relations in Educational Administration
HSA 5103 College Student Development
HSA 5203 Multicultural Issues in Higher Education
HSA 6003 Higher Education Law
HSA 6123 Program Planning and Evaluation in Higher Education and Student Affairs
HSA 6303 Seminar in Governance in Higher Education
HSA 6503 The Community College

Students seeking admission to the certificate program who are not enrolled in a graduate degree program will be required to apply to the Graduate School as special graduate students and indicate that they are seeking admission to the Graduate Certificate Program in Higher Education Administration. Because admission to the M.Ed. in Educational Leadership and Policy Studies (Higher Education Administration concentration) requires one year of experience in student affairs or a related field, this requirement will be extended to those seeking admission to the certificate program. All other requirements for admission as a special graduate student described in Chapter 1, Admission, of this catalog are applicable.

All other requirements for certificate programs described in Chapter 3, Certificate Programs, of this catalog apply to this program.
Doctor of Education Degree in Educational Leadership

The primary objective of the doctoral degree program is to provide advanced academic training in educational leadership, particularly in the area of administrative leadership. Graduates should gain an advanced understanding of theories of education and learning; extensive theoretical background and experiences in emerging paradigms of organizational leadership; high-level research skills for developing, analyzing, and evaluating educational programs; and the knowledge, skills, and understanding to work effectively with English language learners in linguistically diverse educational settings. Students pursue an emphasis in either K-12 leadership or higher education administration.

Program Admission Requirements. Applications are screened by the doctoral program faculty or a representative selection committee thereof. Applicants must meet or, as applicable, submit information related to the following criteria to be considered for admission:

- a bachelor’s degree from an accredited institution;
- a master’s degree in education or other appropriate field;
- a grade point average of 3.5 or better out of a possible 4.0 in a master’s degree program;
- submission of an official score on the verbal, quantitative, and analytical writing sections of the Graduate Record Examination (GRE);
- for applicants whose native language is not English, a score of at least 550 on the Test of English as a Foreign Language (TOEFL; paper version);
- demonstrated experience in a work environment where education is the primary professional emphasis (e.g., teaching, administration, curriculum development in elementary, secondary, postsecondary, governmental, or private industry settings);
- three letters of recommendation from those who have supervised the applicant in an academic, employment, or community service capacity; letters should comment on the applicant’s intellectual ability, discipline, creativity, sensitivity to others, and cite examples of leadership and scholarly potential; at least one letter should come from a university professor familiar with the applicant’s academic work; and
- a statement of purpose outlining, at a minimum, (1) the applicant’s reasons for pursuing a doctorate in educational leadership, (2) a biographical sketch of the applicant’s experiences relevant to the field of education, (3) career plans, (4) scholarly interests, and (5) views on and roles in current and future educational reform efforts.

Qualified applicants may be required to interview as part of the admissions process. Interviews are conducted by the Doctoral Program Committee or a subcommittee thereof. As part of the interview process, students may be asked to produce an extemporaneous writing sample. The number of students admitted to this program may be limited.

Degree Requirements. Degree candidates must complete 33–36 semester credit hours of core courses:

A. Culture (9 hours). The social, cultural, and linguistic dynamics of current and future school populations, historical and cultural contexts of schooling in Texas and the Southwest, issues related to language and linguistic policies and education, and issues related to leadership within culturally diverse communities.

B. Methodology (12 hours). Survey of quantitative and qualitative research designs and methods and the uses of technology for data collection and analysis.

C. Leadership (12–15 hours). Procedures and techniques of inquiry-based organizational development and leadership, effective leadership of culturally diverse school personnel, issues related to leadership of majority-minority schools, and the ethics of leadership.

After completing the core requirements, students take an additional 15–18 semester credit hours of courses toward fulfilling the K-12 or higher education administration emphasis and cognate requirements:

D. Area of emphasis (9–12 hours). This emphasis area targets the development of knowledge and skills in K-12 leadership or higher education administration.
E. Cognate support (6 hours). Students select a cognate area of support to enhance their emphases and the research for their dissertations. Courses are selected from graduate offerings throughout the University, and students must meet prerequisites for enrollment.

**Dissertation Requirement.** Upon completion of the required 51 semester credit hours, students must pass a written and oral qualifying examination. They must also take a minimum of 9 semester credit hours of dissertation. The dissertation must meet these objectives:

1. The dissertation format creates strong ties between the University and the selected educational setting.
2. The dissertation’s research team consists of a doctoral student and faculty member who work in collaboration with an educational institution to focus on a single issue.
3. Dissertation topics are linked to the goal of improving program effectiveness.
4. The dissertation demonstrates the scholarly capabilities of the student working with his or her committee.

In addition, each student must:

1. Pass an oral defense of the doctoral dissertation proposal, conducted by the Dissertation Committee, that addresses the dissertation’s potential for scholarly research as specified by University-wide requirements.
2. Maintain a grade point average of 3.0 or higher (on a 4.0 scale) each semester for the entire doctoral program, as specified by University-wide requirements.
3. Complete an on-campus residency taking at least 6 semester credit hours per semester or summer term for two consecutive long semesters, or two full summer terms and one long semester (consecutively), or three full summers. No transfer students will be admitted to the program; however, up to 6 hours of transfer credit toward the degree may be accepted, provided that the graduate courses were taken at an accredited institution within the past three years and were not part of a program that culminated in the award of a degree.

---

**COURSE DESCRIPTIONS**

**EDUCATIONAL LEADERSHIP (EDL)**

5003  **Introduction to School Administration**
(3-0) 3 hours credit. Prerequisite: Program admission or consent of instructor.
Introduction to the roles, tasks, and problems of positions in educational administration and their relationship to local, state, and federal government agencies.

5103  **Introduction to School Finance**
(3-0) 3 hours credit. Prerequisite: EDL 5003 or consent of instructor.
Introduction and survey of current designs in educational finance of public school districts, review of general concepts, and practices of the appropriate local, state, and federal government agencies.

5203  **School and Community Relations in Education**
(3-0) 3 hours credit. Prerequisite: EDL 5003 or consent of instructor.
Introduction to the strategies and design models for informing local business taxpayers and clientele about educational activities. Study of models for participation and analysis of interaction models.

5303  **Human Relations in Educational Administration**
(3-0) 3 hours credit. Prerequisite: EDL 5003 or consent of instructor.
Analysis and identification of group processes and individual behaviors that tend to enhance democratic interaction in the achievement of educational goals. Consideration of supportive roles requisite to the supervision of professionals in the educative process.
5403 The Principalship: Educational Unit and Site Administration
(3-0) 3 hours credit. Prerequisite: EDL 5003 or consent of instructor.
Analysis of the principal’s or comparable position’s role and the requisite interaction with various referent groups. Emphasis is on administration of academic programs. Applicable to all levels of common school.

5503 Administration and Function of Special Programs
(3-0) 3 hours credit. Prerequisite: EDL 5003 or consent of instructor.
Identification and analysis of models and designs for the administration, development, supervision, and support programming of special education, guidance, vocational and technical education, and other alternative and support functions in education.

5603 Applied Research Seminar in Educational Leadership
(3-0) 3 hours credit. Prerequisites: EDL 5003, EDU 5003, and consent of instructor.
Introduction to identification, analysis, and design formulation of applied research problems in educational leadership. Practice in conducting searches, elementary analysis, and deriving appropriate conclusions from applied studies. Students are required to complete and articulate an approved applied research design in prescribed form.

5703 Legal Foundations in Education
(3-0) 3 hours credit. Prerequisite: EDL 5003 or consent of instructor.
Survey of current legal basis and practices in the policy administration of education and review of significant court decisions pertaining to educational operations. Emphasis on rights and responsibilities of teachers and students and legislation related to multicultural institutional operations.

6003 Supervision: Theoretical Basis
(3-0) 3 hours credit. Prerequisite: C&I 5003 or consent of instructor.
An application of theories of curriculum development, educational planning, learning, and human relations to instructional supervision. An examination of the role of the supervisor. (Credit cannot be earned for both EDL 6003 and C&I 6003.)

6013 Supervision: Teaching-Learning Process
(3-0) 3 hours credit.
The analysis and application of models of the teaching and learning process to instructional supervision. The study and application of content, interaction, and climate analysis techniques. (Credit cannot be earned for both EDL 6013 and C&I 6013.)

6023 Supervision: Tools and Techniques
(3-0) 3 hours credit.
A study of impact strategies in instructional supervision and the development of communication and interpersonal skills needed for working with teachers. (Same as C&I 6023. Credit cannot be earned for both EDL 6023 and C&I 6023.)

6203 Educational Facilities and Capital Funds Administration
(3-0) 3 hours credit. Prerequisite: EDL 5003 or consent of instructor.
Survey of models, policies, and procedures for the effective development, planning, use, and management of educational facilities and capital funds. Emphasis is on meeting curricular program needs.

6503 Superintendent’s Seminar
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
A field-based course designed for students preparing for educational leadership at the school district level. Enrollment is required each semester a student desires to fulfill a requirement for Texas school superintendent certification. Students develop an independent field-based study component in four certification areas: personnel administration, educational funds and facilities management, survey of organization and administration theory in education, and organizational systems analysis. Students are required to participate in 100 hours of clinical experience related to the certification area they seek to fulfill. May be taken four times for credit.
6941-3  Internship in Educational Administration
1 to 3 hours credit. Prerequisites: C&I 5003, EDL 5003, EDL 5103, EDL 5203 or EDL 5303, EDL 5403, EDL 5503, EDL 5703, EDL 6023, and consent of instructor. Individually supervised field experience with unit-level or institutional-level educational administrators with related applied research activity. Must be taken for both principalship and superintendency certification. May be repeated for a total of 6 semester credit hours.

6953  Independent Study
3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record. Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6961  Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive Examination. Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6973  Special Problems
(3-0) 3 hours credit. Prerequisite: Consent of instructor. An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

7103  Administration of Urban/Multicultural Institutions
(3-0) 3 hours credit. Provides practicing and potential urban educational leaders with knowledge of contemporary conditions and positive models for effective educational administrative designs, including alternative educational delivery systems.

7133  Topics in Administration
(3-0) 3 hours credit. Study and analysis of contemporary issues related to administration, including educational facilities and capital fund administration, school finance, strategic and operational planning, personnel management, and program evaluation. May be repeated for credit when topics vary.

7213  Foundations of Higher Education
(3-0) 3 hours credit. Prerequisite: Doctoral standing in higher education administration or consent of instructor. This course examines the historical, social, and political context of American higher education. Central to this course is the history and evolution of contemporary post-secondary institutions and the complex relationship between American higher education and society. The increasingly diverse demographics of the United States and related implications for higher education will be considered.

7243  Diversity, Equity, and Access in Higher Education
(3-0) 3 hours credit. Prerequisite: Doctoral standing in higher education administration or consent of instructor. This course will examine the individual and institutional factors that facilitate or hinder college access for traditional and nontraditional students. Theories and explanations that account for differences among diverse students in college preparation, enrollment, and persistence will be addressed.
7273  **Examining School Populations, Structures, and Culture**  
(3-0) 3 hours credit. Prerequisite: EDU 7223 or consent of instructor. 
Development of an analytical framework for intervening in political and organizational systems to accomplish 
educational missions and establish a sense of community in school culture.

7333  **Organizations and Systems in Higher Education**  
(3-0) 3 hours credit. Prerequisite: Doctoral standing in higher education administration or consent of instructor. 
This course examines how various higher education institutions are organized and governed. Emphasis is placed on 
an understanding of the unique role of different types of institutions within higher education, such as public, private, 
four-, and two-year. The role of women’s and minority-serving institutions in serving diverse populations will also 
be considered.

7343  **The Politics of Educational Change**  
(3-0) 3 hours credit. 
Examination of the political structure and processes through which many of the major issues in education are treated, 
analysis of the power structure and its influence on educational policymaking, exploration of the evolving roles of 
state and federal agencies, the courts, private organizations, and interest groups in shaping the policymaking process 
in education. (Formerly EDL 6333. Credit cannot be earned for both EDL 7343 and EDL 6333.)

7413  **Policy and Politics in Higher Education**  
(3-0) 3 hours credit. Prerequisite: Doctoral standing in higher education administration or consent of instructor. 
This course explores the concepts of policy and politics in the scholarship of higher education along with the impact 
of these on the leadership and administration of higher education organizations. Students will examine the influence 
of national and state policy and politics on institutional and program development in higher education, and how these 
factors affect postsecondary opportunities for traditional and nontraditional students.

7423  **Theoretical Frameworks in Higher Education**  
(3-0) 3 hours credit. Prerequisite: Doctoral standing in higher education administration or consent of instructor. 
This course examines various theories and their application to diverse aspects of higher education. Important paradigms, 
schools of thought, and general theories within the field of higher education will be emphasized. The influence of the 
study of race, gender, and class on theory development will also be considered.

7563  **Research in Leadership Laboratory: Change Theory, Innovation, and Application**  
(3-0) 3 hours credit. Prerequisite: EDU 7133 or consent of instructor. 
Inquiry into the research of leadership and organizational change processes in field-based settings. Examination of 
cases involving organizational and leadership change agents.

7663  **Technology in Educational Environments**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor. 
Examination of current models for use and application of technology, including computer-based, multimedia, and 
distance learning in educational settings.

7733  **Independent Study**  
3 hours credit. Prerequisites: Doctoral standing and permission in writing (form available) of the instructor and 
student’s Graduate Advisor of Record. 
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing 
specialized work as part of the regular course offerings. May be repeated for credit, but not more than 6 hours will 
apply to the Doctoral degree.

7783  **Special Problems**  
(3-0) 3 hours credit. Prerequisites: Doctoral standing and consent of instructor. 
An organized course offering the opportunity for specialized study not normally or often part of the regular course 
offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours will apply 
to the Doctoral degree.
7893 Doctoral Research
3 hours credit. Prerequisite: Admission to candidacy for the Doctoral degree.
May be repeated for credit, but not more than 6 hours may be applied to the Doctoral degree.

COURSE DESCRIPTIONS
EDUCATION
(EDU)

5003 Research Methods
(3-0) 3 hours credit. Prerequisite: Admission to graduate program or consent of instructor.
Basic concepts of research design, strategies of experimental, historical, and descriptive research, and basic statistical
procedures are introduced. Participants use these concepts to read, interpret, and evaluate educational and counseling
research and to plan such research.

5103 Advanced Foundations of Education
(3-0) 3 hours credit.
Analysis of contemporary issues in the foundations of American education. Topics discussed include the structure of
U.S. schooling and the historical, sociopolitical, philosophical, cultural, and ethical aspects of education. (Formerly
titled “Contemporary Educational Philosophy.”)

6223 Education in a Culturally and Linguistically Diverse Society
(3-0) 3 hours credit.
The study of cultural and economic issues in education from philosophical, historical, political, and sociological
perspectives. These issues will be related to educational leadership and equity in education.

6961 Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive
Examination. Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times
as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive
Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR”
satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the
Comprehensive Examination).

6973 Special Problems
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the
regular course offerings. Special Problems courses may be repeated for credit when the topics vary, but not more than
6 hours, regardless of discipline, will apply to the Master’s degree.

6983 Master’s Thesis
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s
degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is
in progress.

7003 Survey of Research Methods
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
A survey of research methodology including fundamental concepts employed in quantitative and qualitative research
in education. May include computer applications for research.
7043  Educational Research Statistics: Descriptive and Comparative  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Review of descriptive statistics, study of comparative statistics including t-tests and ANOVA, reporting and plotting functions, and Chi-square applications. (Formerly EDU 7113. Credit cannot be earned for both EDU 7043 and EDU 7113.)

7063  Inferential Statistics  
(3-0) 3 hours credit. Prerequisite: EDU 7043 or equivalent.  
The logic of inference in research with special emphasis on statistical techniques and the appropriate types of inference related to each. Computer programs will be used to analyze simulated data. (Formerly EDU 7053. Credit cannot be earned for both EDU 7063 and EDU 7053.)

7103  Qualitative Research Traditions  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Exploration of major research paradigms and qualitative research traditions. Includes the study of qualitative research designs with comprehensive exercises for the student in stating the research problem, reviewing the relevant research literature, specifying appropriate methods and procedures, and identifying analytic procedures. Students are required to produce an original qualitative research design as a major component of the course.

7123  Advanced Qualitative Data Analysis  
(3-0) 3 hours credit. Prerequisite: EDU 7103 or equivalent.  
Advanced study of qualitative research methods in a laboratory mode that emphasizes the applied and computing aspects of qualitative research design, data analysis, and presentation of findings. The goal is to enable students to use computers effectively in the analysis of qualitative (text) data, and to enhance their understanding of interpretive research methods and designs. Lectures, demonstrations, discussions, hands-on work with software and data, and readings will be the main class activities. Students will be required to complete a pilot research project.

7133  The Role of Research in Educational Environments  
(3-0) 3 hours credit. Prerequisite: EDU 7043 or EDU 7103.  
Application of research techniques in school-based settings. Students design research proposals using qualitative and quantitative perspectives and ‘pilot test’ them in an educational environment.

7213  Educational Reform  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Examination of the historical and philosophical roots of school reform during the last 100 years. The course will focus on different perspectives on analysis and evaluation of school reform efforts for culturally diverse populations.

7223  Learning in a Culturally and Linguistically Diverse Society  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Examination of cultural and linguistic diversity from a variety of theoretical perspectives. Emphasis on historical, sociological, and sociopolitical principles and their application to teaching, learning and leadership in culturally and linguistically diverse educational settings.

7403  Education, Cultural Differences, and Acculturation  
(3-0) 3 hours credit.  
Advanced level consideration of the impact of cultural differences upon the education process. Interactions of schooling and social life with the process of acculturation. Study of procedures and techniques for identifying and ameliorating educational problems related to cultural differences.
COURSE DESCRIPTIONS
HIGHER EDUCATION
(HSA)

5003 History of American Higher Education
(3-0) 3 hours credit.
This course covers the development of higher education from the 11th century to the present with an emphasis on its
development in America since the founding of Harvard in 1636. (Formerly AHE 5003. Credit cannot be earned for
both HSA 5003 and AHE 5003.)

5023 Foundation and Function of College Student Personnel
(3-0) 3 hours credit.
Provides initial insight into the student affairs profession. This survey course provides a concise and comprehensive
understanding of student affairs using theory-based and application-oriented approaches.

5103 College Student Development
(3-0) 3 hours credit.
This course provides an opportunity for those who work or plan to work in post secondary educational institutions
with an understanding of the student population in contemporary colleges and universities. (Formerly AHE 5203.
Credit cannot be earned for both HSA 5103 and AHE 5203.)

5203 Multicultural Issues in Higher Education
(3-0) 3 hours credit.
This course surveys literature on multiculturalism, diversity, and racism in institutional settings. (Credit cannot be
earned for more than one of the following: HSA 5203, AHE 5633, ALT 5633, and COU 5633.)

6003 Higher Education Law
(3-0) 3 hours credit.
This course examines the legal status of higher education in the United States, the rights and responsibilities of
educators and students including fair employment, due process, tort liability and contracts, student rights, landmark
court decisions, and federal and state legislation having an impact on education. (Formerly AHE 5333. Credit cannot
be earned for both HSA 6003 and AHE 5333.)

6103 Assessing Higher Education Environments
(3-0) 3 hours credit.
This course explores the application of environmental theory to the assessment of human environments. A focus on
the study of select campus environments and their influence on students.

6123 Program Planning and Evaluation in Higher Education and Student Affairs
(3-0) 3 hours credit.
An overview of program evaluation models and perspectives currently being applied in higher education. Emphasis
will be on how to construct program plans and perform program evaluations, based on existing evaluation models,
theories, and research methods.

6143 Administration of Student Services in Higher Education
(3-0) 3 hours credit.
Examines the organization and administration of student services in institutions of higher education. Theories,
research, and methods are used to encourage the application of theory to practical experience. Topics will include the
administrative environment of student affairs, organizational and management issues of student affairs, essential skills
and competencies for student affairs managers, commitment to professional education, and challenges for the future.
6203  Contemporary Thought in Higher Education
       (3-0) 3 hours credit.
       A study of current thought as it relates to the management of institutions of higher education. (Formerly AHE 5103.
       Credit cannot be earned for both HSA 6203 and AHE 5103.)

6303  Seminar in Governance in Higher Education
       (3-0) 3 hours credit.
       Analysis of current practices and issues in the governance of higher education that affect students, faculty, and
       administration. Study of the scope and role of colleges and universities. (Formerly AHE 5313. Credit cannot be earned
       for both HSA 6303 and AHE 5313.)

6403  Financing Higher Education
       (3-0) 3 hours credit.
       Examination of representative methods of state funding of public colleges and universities; elements of funding
       formulas; rationales for funding patterns; and policy implications of various funding methods for colleges and
       universities. (Formerly AHE 5323. Credit cannot be earned for both HSA 6403 and AHE 5323.)

6503  The Community College
       (3-0) 3 hours credit.
       The historical and philosophical foundations for the community junior college movement in the United States are
       analyzed and utilized as a basis for understanding contemporary trends and problems of community junior colleges.
       (Formerly AHE 6003. Credit cannot be earned for both HSA 6503 and AHE 6003.)

6943  Internship in Higher Education
       3 hours credit.
       Individually supervised field experiences in student personnel services, college administration, college teaching,
       institutional research, development, or other areas of college and university work. May be repeated for a total of 6
       semester credit hours. (Formerly AHE 6943. Credit cannot be earned for both HSA 6943 and AHE 6943.)

6961  Comprehensive Examination
       1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive
       Examination.
       Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times
       as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive
       Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR”
       (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the
       Comprehensive Examination).

COURSE DESCRIPTIONS
LEADERSHIP
(LDR)

7003  Proseminar in Educational Leadership
       (3-0) 3 hours credit.
       This course is intended to acclimate and provide first-year doctoral students with an opportunity to explore the main
       theories and areas of research in educational leadership. Readings include seminal work in organizational theory,
       educational administration, and related areas. Students will become familiar with areas of research of doctoral program
       faculty and will learn prerequisite material to successful doctoral work such as APA writing style, how to conduct
       literature reviews, and insights into the dissertation process.
7133 Majority-Minority Settings: Creating a Community of Leaders  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
This course focuses on organizational relationships and the tension between power and equality. A model of leadership in which organizational members are given shared visions to accomplish goals is presented.

7153 Reflective Leadership: The Personal Dimension  
(3-0) 3 hours credit. Prerequisite: LDR 7133.  
An in-depth study of the character and nature of leadership, including an examination of social ethics, educational policy issues, and the link of theory and practice. Students are required to clarify, critique, and develop personal perspectives on the public responsibility of leaders.

7183 Emerging Paradigms in Leadership  
(3-0) 3 hours credit. Prerequisites: LDR 7133 and LDR 7153.  
An overview of major leadership theories and an exploration of significant shifts in perspectives that affect the exercise of authority and power. A reexamination of traditional views of leadership and an analysis of views emerging from corporate, international, and transcultural perspectives.

7203 Leadership in Multiple Language Educational Settings  
(3-0) 3 hours credit.  
Advanced study of the educational aspects of language policy with an emphasis on the role of educational leaders in providing equitable and appropriate educational opportunities to students with non-English language proficiency or backgrounds. Major topics include the public policy process, historical and recent aspects of language policy in the United States, and issues and controversies surrounding language policy and education.

7303 Organizational Theory  
(3-0) 3 hours credit.  
The purpose of this course is to advance student understanding of organizations by exploring a variety of theoretical frameworks and applying these perspectives to aspects of public and private institutions. Each framework draws attention to significant aspects of the organizing process and provides a distinctive means of understanding and managing organizational situations.

7343 Principles of Ethical Leadership  
(3-0) 3 hours credit. Prerequisites: LDR 7133, LDR 7153, and LDR 7183.  
This course will expose doctoral students to multiple frameworks involved with ethical dilemmas. Using theoretical principles of ethics in the context of democratic values, students will examine and interpret educational policies from an ethical leadership perspective. Analysis of complex policy cases that raise ethical issues will be investigated.

7413 Sponsored Internship in Educational Leadership  
(1-16) 3 hours credit. Prerequisites: LDR 7133, LDR 7153, LDR 7183, LDR 7343, and assessment and screening process administered by UTSA and cooperating sponsors (application available).  
Individually designed internships in educational leadership in school systems, adult and higher education, human service institutions, government, and private industry. Jointly supervised by University faculty and field administrators from cooperating agencies. May be repeated for credit, but not more than 6 hours may be applied to a degree program.

7991-6 Dissertation  
1 to 6 hours credit. Prerequisites: Admission to candidacy for the Doctoral degree and consent of student’s Graduate Advisor of Record.  
May be repeated for credit, but not more than 9 hours may be applied toward the Ed.D. degree requirements. Credit will be awarded upon completion of the dissertation.
DEPARTMENT OF EDUCATIONAL PSYCHOLOGY

Mission Statement

The Educational Psychology faculty mission is to promote the development and application of scientific knowledge through high-quality, innovative research and scholarship as well as to prepare effective and culturally competent teachers, scholars, and community leaders. Faculty research interests include (1) the psychological and social processes of human learning, motivation, emotion, and development; (2) research, measurement and evaluation; and (3) the factors affecting the mental health of learners of all ages.

The Department of Educational Psychology faculty provide valuable support to other departments and program areas within the College of Education and Human Development and throughout the University by teaching courses based on foundational educational psychology concepts in areas such as learning, motivation, development and research methods. Our goal in teaching is to use effective and culturally inclusive instructional technologies to prepare practitioners and researchers to use the tools, resources, and strategies necessary to improve the educational experience of all learners.

COURSE DESCRIPTIONS

EDUCATIONAL PSYCHOLOGY

(EDP)

5003 Psychological Learning Theories
(3-0) 3 hours credit.
Provides a current and comprehensive overview of theory and research related to human learning. Covers major concepts of theory, human development considerations and research to applications in the classroom and other instructional settings. Appropriate for students in all areas of graduate study.

5033 Human Development Across the Life Span
(3-0) 3 hours credit.
Provides a current and comprehensive overview of developmental psychology. Topics range from concepts of theory and research to physical and psychological development. The emphasis is on development as a holistic process. Appropriate for students in all areas of graduate study.

5043 Classroom Management and Motivation
(3-0) 3 hours credit.
A detailed investigation of various theories and models of classroom management and motivation. Topics include behavior modification, assertive discipline, control theory, and the concept of the democratic classroom. (Credit can be earned for only one of the following: EDP 5043, C&I 5023, or C&I 5043.)

5053 Psychosocial Contexts of Learning
(3-0) 3 hours credit.
Provides theory and research related to the “informal curriculum,” defined as those aspects of school life that are separate from the traditional goal of academic achievement. Course allows students to explore personal beliefs about the goals of schooling.

5273 Child Development
(3-0) 3 hours credit.
Course addresses classic and current conceptual methodological approaches to the social-scientific study of child development. Emphasis will include an examination of historical, theoretical, sociocultural and methodological issues central to child development.
5303 Principles and Techniques of Evaluation
(3-0) 3 hours credit.
Introduces the study of evaluation, principles of psychological and educational measurement (including methods of establishing evidence for reliability and validity), the development and selection of instruments, fundamental research methodology (including both quantitative and qualitative approaches), data analysis, techniques for interpreting and communicating evaluation results, and the evaluation of evaluations. Appropriate for students in Adult and Higher Education, Counseling and Educational Psychology, and Educational Leadership.

5313 Assessment and Evaluation for Classroom Teachers
(3-0) 3 hours credit.
Course addresses principles and techniques necessary to develop sound assessment tools and strategies for evaluating student learning. Primary course focus will be on the creation of test items, administration procedures, classroom evaluation and the role of testing, measurement and evaluation in daily classroom practice.

5333 Adolescent Development
(3-0) 3 hours credit.
Course addresses classic and current conceptual methodological approaches to social-scientific study of adolescent development. Emphasis will include an examination of historical, theoretical, sociocultural and methodological issues central to adolescent development.

5603 Psychology of Human Motivation
(3-0) 3 hours credit. Prerequisite: Graduate standing or permission of the instructor.
Explores the study of human motivation from a variety of approaches including biopsychosocial and social-historical perspectives. Some of the goals of the course are to understand the evolution of various theories and the influence of factors such as culture, race, emotion, and physiology on human motivation. This course will synthesize research on motivation in an effort to understand why people do what they do.

6323 Advanced Psychological Assessment
(3-0) 3 hours credit. Prerequisite: COU 5223.
Theory and application of specific instruments and techniques, including administration and scoring. Emphasis on analysis, interpretation, and integration of ability, achievement, and personality assessment results for diagnostics as well as treatment planning. Casework is required. (Formerly EDP 5323. Same as COU 6323. Credit can be earned for only one of the following: EDP 5323, EDP 6323, COU 5323, or COU 6323.)

6423 Development of Girls and Women
(3-0) 3 hours credit.
Course examines the theoretical approaches of development for girls and women. Focus will be placed on: feminist theories and development; socialization of women, sociocultural factors contributing to prevalent disorders among females (anxiety and phobias, eating disorders, dealing with violence and abuse, coping with stress, etc.).

6643 Child and Adolescent Psychopathology
(3-0) 3 hours credit. Prerequisite: EDP 5033, or EDP 5273 and EDP 5333.
Course addresses DSM classification to discuss major emotional and behavioral disorders experienced by non-adult populations. Current state of knowledge with regard to the characteristics, etiological factors, and developmental outcomes of psychological disorders of childhood and adolescence will be considered.

6733 Multicultural Assessment and Interventions
(3-0) 3 hours credit. Prerequisite: COU 5243 or EDP 6643.
Course provides theory and research related to assessment, and intervention needs found with cultural diversity. Structured as a seminar, discussions include professional issues, trends, testing and assessment issues, intervention theories and techniques with regard to multiculturalism and cultural diversity.
6951-3  Independent Study
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and
the student’s Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing
specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit,
but no more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6973  Special Issues
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the
regular course offerings. Special Issues courses may be repeated for credit when topics vary, but no more than 6 hours,
regardless of discipline, will apply to the Master’s degree. (Formerly titled “Special Problems.”)
DEPARTMENT OF HEALTH AND KINESIOLOGY

Master of Science Degree in Health and Kinesiology

The Master of Science degree in Health and Kinesiology is designed for students seeking advanced preparation for teaching physical and health education in school and community settings, and pursuing careers in areas related to kinesiology or health. It is intended to offer students the opportunity to expand content knowledge and to apply such information to become more effective teachers and leaders. Graduates of this program pursue careers as teachers, coaches, researchers, supervisors, health workers, and administrators in the public education, health, and private sectors. In addition, the program is also designed for students who wish to continue their studies at other universities at the doctoral level.

Program Admission Requirements. The M.S. in Health and Kinesiology is for students aspiring to be teachers, coaches, researchers, supervisors, health workers, and administrators in education, health, and the private sector settings. Admission to the program is based on the following criteria:

1. Applicants must hold a baccalaureate degree from a regionally accredited college or university in the United States or have proof of equivalent training at a foreign institution.
2. Acceptance to the M.S. program is contingent on having a grade point average (GPA) of at least 3.0 (on a 4.0 scale) in the last 60 semester credit hours of coursework for the baccalaureate degree, as well as in all graduate-level work taken. If an applicant’s GPA is between 2.7 and 2.99, probationary admission may be granted and the student must maintain a minimum of a 3.0 GPA during the first 12 hours of coursework. Applicants who have a GPA below 2.7 are denied admission as degree-seeking students.
3. Applicants must submit an official score on the Graduate Record Examination (GRE; verbal and quantitative sections only), although the GRE score may not be a critical factor to be considered for admission if applicants meet the first two admission requirements.
4. Applicants whose undergraduate major was not in Kinesiology or Health may be required to take 6 undergraduate conditional hours, or more if prerequisites are required for taking graduate courses.

Degree Requirements

Nonthesis option: Minimum 36 semester credit hours including 9 required hours, 18 prescribed elective hours, and 9 free elective hours.

Thesis option: Minimum 33 semester credit hours including 9 required hours, 12 prescribed elective hours, 6 free elective hours, and 6 thesis hours.

A. Core. 9 semester credit hours required:

COURSE DESCRIPTIONS
KINESIOLOGY AND HEALTH PROMOTION
(KAH)

5003 Current Trends in Kinesiology and Health Education
(3-0) 3 hours credit.
Students have the opportunity to examine current development in theories and practices of physical education. Recent research and literature are examined for causes and consequences of today’s issues, trends, and problems.

5023 Management of Kinesiology and Health Programs
(3-0) 3 hours credit.
An examination of the various functions involved in the management of a sport, health, or recreation-related organization. Topics include budgeting, facilities, scheduling, promotion, and liability.

5043 Child and Adolescent Health Promotion
(3-0) 3 hours credit. Prerequisites: KAH 5063 and KAH 5073.
Examines the multifaceted determinants of health for children and adolescents (environmental, behavioral, developmental, biological, and social) with special emphasis on the roles of the family, school, and community. Models and theories of health behavior, risk-taking, and challenges to health care delivery for these populations will be investigated.

5053 Principles of Exercise Physiology
(3-0) 3 hours credit. Prerequisite: KIN 3433 or an equivalent.
A survey of exercise physiology, examining muscular, metabolic and cardiorespiratory adaptations to acute and chronic exercise.

5063 Health Behaviors
(3-0) 3 hours credit.
A study of the determinants of human behavior as they relate to current health issues. Health behavior models and underlying rationales for prevention and intervention strategies will be examined. For teachers and counselors, as well as kinesiology and health professionals.
5073 Essential Concepts in Health Promotion  
(3-0) 3 hours credit.  
The purpose of this course is to introduce students to the field of health promotion and to show how epidemiology, social and behavioral science theory, organization change, administration, and evaluation are related to the design and implementation of health education programs. This course serves as a foundation for other courses in health education and provides an overview of the field to the student from related areas. (Formerly titled “Health and Wellness/Health Promotion.”)

5083 Epidemiology  
(3-0) 3 hours credit. Prerequisites: KAH 5063 and KAH 5073.  
The overall goal of this course is to increase the health professional’s ability to analyze problems and make decisions based on applications of epidemiologic concepts and methods in a variety of settings, with a particular focus on applications from studies in health promotion. Social, psychological, and biological determinants of disease will be examined. Epidemiologic tools to be presented include use of vital statistics and rates, descriptive studies, observational studies, and experimental studies.

5093 Statistics and Research in Health and Kinesiology  
(3-0) 3 hours credit.  
This course is designed to provide students with knowledge of experimental designs and the statistical tools necessary for analyzing research data in the fields of Health and Kinesiology.

5103 Biomechanics  
(3-0) 3 hours credit. Prerequisite: KIN 3323 or an equivalent.  
A survey of principles and procedures related to mechanical analysis of human motion, with emphases on both kinematic and kinetic analysis.

5113 Advanced Structural and Functional Anatomy  
(3-1) 3 hours credit. Prerequisite: KIN 3313 or an equivalent.  
A detailed study of human musculoskeletal, cardiovascular, and respiratory anatomy with specific application to kinesiology.

5123 Research in Health and Kinesiology  
(3-0) 3 hours credit. Prerequisite: KAH 5093.  
Students have the opportunity to review various quantitative and qualitative research methods as well as conduct a review of the literature for a specific topic of interest. The final project will be a research proposal.

5133 Health Program Planning, Implementation, and Evaluation  
(3-0) 3 hours credit. Prerequisites: KAH 5063, KAH 5073, and KAH 5093.  
This course is designed for students interested in planning, implementing, and evaluating health promotion/education programs in school, community, health care, and worksite settings. Students enrolled in this course should have prior knowledge of health behavior theories and general foundations of health promotion.

5143 Ethics in Health Education  
(3-0) 3 hours credit. Prerequisites: KAH 5063 and KAH 5073.  
This course will examine the ethical complexities inherent in the practice of health education. The Society of Public Health Education (SOPHE) Code of Ethics will serve as the template from which students will assess and evaluate various ethical dilemmas in health education.

5153 Health Communication and Technology  
(3-0) 3 hours credit. Prerequisites: KAH 5063 and KAH 5073.  
This course examines major concepts, theories, and research in health communication and provides students with a conceptual understanding of the nature, function and outcomes of communication processes in various health contexts. Special emphasis will be placed on the role of technology and media’s influence on health issues.
5163  **Grant Writing**  
(3-0) 3 hours credit. Prerequisite: KAH 5093.  
This course will provide the student with an overview of the grant writing process. Literature review/rationale, budget, and evaluation protocols, as well as Institutional Review Board requirements, will be examined. Local, state, national, government, and private funding sources will be reviewed. The final product will be a completed grant proposal.

5173  **Measurement and Evaluation in Physical Education**  
(3-0) 3 hours credit. Prerequisite: KIN 4113 or an equivalent.  
Overview of measurement theory, item analysis, reliability and validity studies, and factor analysis of tests.

5213  **Measurement Techniques in Motor Behavior and Biomechanics**  
(2-2) 3 hours credit. Prerequisite: KIN 3323 or an equivalent.  
This course will introduce students to techniques and methods (e.g., videographic-motion-analysis system, electromyography, electroencephalography, and force platform) used in analysis of human movement.

5223  **Neuromotor Control**  
(3-0) 3 hours credit. Prerequisite: KIN 4403 or an equivalent.  
Structure and function of the major systems underlying human motor control. Central and peripheral mechanisms controlling voluntary and reflexive movement, including normal behaviors and movement disorders.

5233  **Measurement Techniques in Exercise Physiology**  
(2-2) 3 hours credit. Prerequisite: KIN 3433 or an equivalent.  
This course is designed to teach students key laboratory skills central to exercise physiology research and service provision in the field of sport and exercise. Exercise testing, blood lipid analysis, metabolic measurement, skeletal muscle properties, and body composition measurement are emphasized.

5243  **Learning and Teaching Styles in Physical Education**  
(3-3) 3 hours credit. Prerequisite: KAH 5003.  
Techniques for analyzing and enhancing the learning environment to promote and improve physical and sport performance.

5253  **Enhancing Behavior and Performance in the Physical Education Environment**  
(3-0) 3 hours credit. Prerequisite: KAH 5003.  
Techniques for effective behavior management and facilitating learning of individuals of all ages and levels of abilities. Underlying theories and research applications addressed.

5263  **Appraisal and Programming for Individuals with Psychomotor Dysfunctions in Physical Education**  
(3-0) 3 hours credit. Prerequisite: KAH 5003.  
This course examines the conditions which delay psychomotor functioning; evaluation techniques and tools pertaining to the motor domain; role of physical educator on Annual Review and Dismissal (ARD) Committees and the Individual Education Plan (IEP).

5273  **Aerospace and Environmental Physiology**  
(3-0) 3 hours credit. Prerequisite: KIN 3313, KIN 3433, or an equivalent, or approval of instructor.  
This course focuses on published scientific literature documenting acute and chronic physiological adaptations to spaceflight, high altitude, and other environmental extremes. Specific emphasis is placed on physiological adaptations to the cardiovascular, musculoskeletal, nervous, and respiratory systems.

5303  **Community Health**  
(3-0) 3 hours credit. Prerequisites: KAH 5063 and KAH 5073.  
Study of community health problems, the function of public, private, and voluntary health agencies, and administration and supervision of health programs in the community, school, business, or industry setting.
5403 Cardiovascular Fitness
(3-0) 3 hours credit. Prerequisite: KIN 3433, KIN 3443, or an equivalent, or a human physiology course.
This course covers the physiology underlying the methods used for obtaining, maintaining, and rehabilitating the health of the cardiovascular system. Recent research findings in the areas of exercise and nutrition, related cardiovascular disease prevention and rehabilitation, weight control, and blood lipids are emphasized.

6013 The Role of Sport in Society
(3-0) 3 hours credit.
Examination of sport and physical activity, sport’s impact on society, and the affective roles sport takes as part of our social structure and the institution of education. (Formerly KAH 5013. Same as COU 6013. Credit cannot be earned for more than one of the following: KAH 6013, KAH 5013, or COU 6013.)

6023 Exercise Psychology
(3-0) 3 hours credit.
A study of the theoretical models and research related to the determinates of exercise adoption and adherence. The relationship between exercise and mental health will be discussed. (Same as COU 6023. Credit cannot be earned for both KAH 6023 and COU 6023.)

6033 Sport Psychology
(3-0) 3 hours credit.
A study of cognition and behaviors related to the participation in sport. This course will have a theoretical focus and will include topics such as self-efficacy, performance enhancements, cohesion, arousal and anxiety. Contemporary research will be discussed. (Formerly KAH 5033. Same as COU 6033. Credit cannot be earned for more than one of the following: KAH 6033, KAH 5033, or COU 6033.)

6043 Applied Sport Psychology
(3-0) 3 hours credit. Prerequisite: KAH 6033.
This course will provide a practical and comprehensive introduction to somatic, cognitive and behavioral interventions used in athletics to improve performance. Theoretical bases of psychological stress and performance will be explored and appropriate interventions discussed. Research findings related to athletics will be applied. (Same as COU 6043. Credit cannot be earned for both KAH 6043 and COU 6043.)

6053 Nutrition in Health and Disease
(3-0) 3 hours credit.
Study of basic nutrients, nutritional needs at various stages of life, and therapeutic diets for selected disease states.

6203 Psychological Perspectives of Motor Learning and Control
(3-0) 3 hours credit.
Study of the individual processes of skill acquisition, including the involvement of transfer, timing, feedback, practice, and retention as well as the processes of central and peripheral mechanisms involved in implementing physical and perceptual skills. (Formerly KAH 5203. Same as COU 6203. Credit cannot be earned for more than one of the following: KAH 6203, KAH 5203, or COU 6203.)

6953 Independent Study
3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.
6973 Special Problems
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6983 Master’s Thesis
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.
DEPARTMENT OF INTERDISCIPLINARY LEARNING AND TEACHING

The Department of Interdisciplinary Learning and Teaching offers the following degrees: the Master of Arts Degree in Education, the Master of Arts Degree in Adult Learning and Teaching, and the Doctor of Philosophy Degree in Interdisciplinary Learning and Teaching.

Master of Arts Degree in Education

The Master of Arts (M.A.) degree in Education offers the opportunity for advanced study and professional development programs in five fields of concentration:

Curriculum and Instruction Concentration
Early Childhood and Elementary Education Concentration
Instructional Technology Concentration
Literacy Education Concentration
Special Education Concentration

Education concentrations provide specialized degree plans in one or more areas of program emphasis so that students may choose a plan suitable to their needs and objectives. Degree plans are designed to offer the opportunity to gain advanced levels of knowledge and professional competency for students engaged in or concerned about educational activity in schools, colleges, and other public or private institutions and agencies. Credit toward graduate-level certificates and certificate endorsements may be earned in conjunction with work toward the Master’s degree in most programs. Programs with a thesis option emphasize the development of research competencies critical to continued graduate-level study.

Program Admission Requirements. Applicants without adequate preparation in education may be required to complete preparatory courses as a condition of admission. Individuals who do not meet the University-wide graduate admission grade point average standard may be required to submit Graduate Record Examination (GRE) scores for consideration in admission decisions. Some concentrations may also require GRE scores because of licensing regulations. Contact the Graduate Advisor of Record for the M.A. in Education for more information.

Degree Requirements. Education degrees have four required components: a core of common courses, a program emphasis, support work, and a comprehensive examination.

A. Core courses common to all concentrations:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>C&amp;I 5003</td>
<td>Theory of Curriculum and Instruction</td>
</tr>
<tr>
<td>EDP 5003</td>
<td>Psychological Learning Theories</td>
</tr>
<tr>
<td>EDU 5003</td>
<td>Research Methods</td>
</tr>
<tr>
<td>EDU 5103</td>
<td>Advanced Foundations of Education</td>
</tr>
</tbody>
</table>

B. Program emphasis. The program emphasis must consist of at least 12 semester credit hours in one of the fields of concentration. Some concentrations offer more than one program emphasis. A program emphasis may require up to 24 semester credit hours. Courses outside the specific concentration may be used to meet this requirement with advance approval of the student’s program advisor and the Graduate Advisor of Record. See individual concentration listings or contact the Graduate Advisor of Record for the M.A. in Education for more information.

C. Support work. Each student is required to select additional courses, with the approval of the program advisor and the Graduate Advisor of Record, to complete the degree requirements of 33 semester credit hours (with thesis) or 36 hours (without thesis). Nine semester credit hours must support the concentration. Three additional hours must be taken with the approval of the Graduate Advisor of Record. In some degree programs, support work may consist of additional courses in the area of concentration.

Students in some programs may take support courses in their teaching fields. Students in teacher certification programs may take their support work courses in areas that meet certification requirements. It is recommended that thesis students take an appropriate statistics course or an additional research course as part of the support work.
D. Comprehensive examination. The comprehensive examination committee for each concentration is responsible for preparing and administering the examination. The examination may be repeated, but a student who has failed the examination two times must have the permission of the Graduate Program Committee in order to take the examination additional times. Normally, failure to pass the examination should be followed by additional coursework or other work to remedy deficiencies or areas of weakness before the examination is retaken.

Summary of Degree Options

Option I. Thesis option (33 semester credit hours):

A. Core. 12 semester credit hours required:

   - C&I 5003 Theory of Curriculum and Instruction
   - EDP 5003 Psychological Learning Theories
   - EDU 5003 Research Methods
   - EDU 5103 Advanced Foundations of Education

B. Concentration. 12 semester credit hours of coursework to form a program emphasis in a single concentration.

C. Support work. 3 semester credit hours in an approved statistics course or an additional research course.

D. Thesis. 6 semester credit hours:

   - EDU 6983 Master’s Thesis (taken twice for a total of 6 hours)

Option II. Nonthesis option (36 semester credit hours):

A. Core. 12 semester credit hours required:

   - C&I 5003 Theory of Curriculum and Instruction
   - EDP 5003 Psychological Learning Theories
   - EDU 5003 Research Methods
   - EDU 5103 Advanced Foundations of Education

B. Concentration. At least 12 semester credit hours of coursework to form a program emphasis in a single concentration.

C. Support work. No more than 12 semester credit hours as follows:

   9 hours of support courses
   3 hours of approved electives

Master of Arts Degree in Education – Curriculum and Instruction Concentration

This concentration creates a context that nurtures interdisciplinary learners who have an understanding of engagement in curriculum and instruction theory, research, practice, policy, and critical issues. The concepts of curricular innovation and teaching excellence are stressed in conjunction with expanded knowledge of content fields and applied research. These courses include:

   - C&I 5003 Theory of Curriculum and Instruction
   - C&I 5013 Curriculum, Instruction and Assessment
   - C&I 6103 Research in Action
   - C&I 6123 Critical Perspectives in Curriculum and Instruction
   - C&I 6673 Policy and Critical Issues in Teaching
Curriculum and Instruction concentration emphases include:

Curriculum and Instruction Specialist
Teacher Leadership
Mathematics Education
Science Education
Environmental Education
Social Studies Education
Middle School Education

Master of Arts Degree in Education – Early Childhood and Elementary Education Concentration

This concentration is designed to allow professionals the opportunity to acquire knowledge and skills for effective instruction and care, leadership, and advocacy in early childhood and elementary education in a diverse society. Emphasis is on integrating reflective practices with current research perspectives for practical applications. The focus is also on advancing the research and knowledge base in fields of early childhood and elementary education. The program is flexible within areas of emphasis that include child development, early childhood leadership and advocacy, early literacies, family studies, inclusive education and teaching. Teaching emphasis is for individuals seeking teacher certification. Please see graduate advisor regarding teaching option.

In addition to the core curriculum classes required for all students seeking a Master’s degree, courses required for this concentration area are:

ECE 5133 Language and Discourse Development in Preschool-Primary Children
ECE 5503 Theoretical Foundations of Early Childhood and Elementary Education
ECE 6453 Assessment and Evaluation in Early Childhood and Elementary Education
ECE 6473 Seminar in Early Childhood and Elementary Education
or
ECE 6653 Action Research in Childhood Settings

Master of Arts Degree in Education – Instructional Technology Concentration

The Instructional Technology concentration focuses on the uses and applications of technology in EC-20 instructional environments. Emphasis is placed on the development, function and utilization of a variety of technologies within educational settings. This concentration is designed for students seeking to expand their knowledge of instructional technology as well as those seeking leadership roles in this area. Courses required for this concentration are:

IST 5003 Foundations of Instructional Technology
IST 5343 Instructional Design Theory
IST 5703 Technology and Learning Cultures
IST 6353 Multimedia Development

Master of Arts Degree in Education – Literacy Education Concentration

This concentration is designed to provide theory, research, knowledge, and field experiences for students who plan to teach literacy. Reading and writing are presented as linguistic, cognitive, and sociocultural processes in relation to other language arts. Students select from three specialized areas of study: teaching focus, research focus, and Reading Specialist Certification. The teaching area is designed for teachers and offers flexibility to pursue an area of one’s own interest. The research area is designed for students who want to pursue research in literacy; students in this area typically pursue the thesis option. The reading specialist certification area leads to completion of requirements of the State Board for Educator Certification as a reading specialist. This area includes the five courses for Master Reading Teacher (MRT) endorsement.
Master of Arts Degree in Education – Special Education Concentration

The concentration in Special Education program is designed for those students seeking an opportunity for initial, additional, or advanced preparation for educating individuals with disabilities in a variety of settings. It is intended to offer students the opportunity for the acquisition of knowledge, competencies and understanding, through both classroom and clinical experience, to develop and apply skills for effective instructional practices in working with children and youth with disabilities. Students who wish to obtain initial certification in generic special education may complete the certification option. For noncertification-seeking students, the special education and related courses must be approved by the student’s program advisor prior to enrolling in courses. Graduates of the program often go on to or continue their careers serving children, youth, and adults with intellectual, academic, social and behavioral disabilities as teachers, supervisors, administrators and researchers in public and private education and service agencies.

Noncertification Option

In addition to the core curriculum classes required for all students seeking a Master’s degree, courses required for this concentration area (12 semester credit hours):

SPE 5403 Exceptional Children and Youth in the Schools
SPE 5503 Applied Behavior Analysis for Classroom Teachers and Counselors
SPE 5613 Legal Issues in Special Education
SPE 5623 Seminar on Current and Critical Issues in Special Education

Approved support courses for noncertification-seeking students studying high incidence disabilities (12 semester credit hours):

SPE 5433 Children and Youth with Behavior Disorders
or
SPE 5453 Children and Youth with Learning Disabilities
SPE 5513 Curriculum and Instructional Applications for Children and Youth in Special Education
SPE 5533 Assessment and Evaluation of Children and Youth with Disabilities
SPE 5633 Instruction and Educational Interventions for Individuals with High Incidence Disabilities

Approved support courses for noncertification-seeking students studying low incidence disabilities (12 semester credit hours):

SPE 5413 Children and Youth with Developmental Disabilities
or
SPE 5463 Educating Individuals with Autism Spectrum Disorders
SPE 5523 Language Development and Cognitive Intervention for Individuals with Disabilities
SPE 5533 Assessment and Evaluation of Children and Youth with Disabilities
SPE 5643 Instruction and Educational Interventions for Individuals with Low Incidence Disabilities

Certification Option

The certification track requires additional hours and has additional requirements for certification.

In addition to the core curriculum classes required for all students seeking a Master’s degree, courses required for initial certification in Special Education (27 semester credit hours):

C&I 6943 Instructional Internship in Teaching (repeated for a total of 6 hours)
SPE 5403 Exceptional Children and Youth in the Schools
SPE 5443 Conference and Consultative Skills in Special Education
Master of Arts Degree in Adult Learning and Teaching

The Master of Arts degree in Adult Learning and Teaching (ALT) emphasizes a broad approach to learning about and teaching adult populations of a variety of age groups, life experiences, cultural backgrounds, and educational experiences. The two emphases in Adult Learning and Teaching are (1) College Teaching and (2) Adult Education and Human Resource Development. The degree focuses on post-secondary, workforce and human resource development, and adult continuing and basic educational contexts. College Teaching is targeted for those individuals interested in securing a community college or university instructor position at the local, national, or international level. Adult Education and Human Resource Development is targeted for those individuals interested in working with local, national, and international adult populations in a variety of contexts, including but not limited to, continuing education settings; training and development units in corporations, businesses, industries, and military installations; medical and social services, community agencies (e.g., care giving, adult learning centers); nonprofits; informal science centers; and school districts. The goal of ALT is to recruit, prepare, and retain well-qualified educators for college teaching, adult education, and human resource development contexts.

Program Admission Requirements. Individuals who do not meet the University-wide graduate admission grade point average standard may be required to submit Graduate Record Examination (GRE) scores for consideration in admission decisions. Contact the Graduate Advisor of Record for the M.A. in Adult Learning and Teaching for more information.

Degree Requirements. The ALT degree has four required components: a core of common courses, a set of prescribed courses, elective courses, and a comprehensive examination.

The course of study for the Master of Arts degree in Adult Learning and Teaching consists of:

A. Core courses required of all Master of Arts in Adult Learning and Teaching degree seeking students (12 semester credit hours):

- ALT 6203 The Student, Community, and Instructor in Adult Learning and Teaching
- ALT 6343 Curriculum and Instruction in Adult Education and Human Resource Development
- ALT 6603 Foundations and Contexts of Adult Education and Human Resource Development
- EDU 5003 Research Methods

B. Prescribed courses required of all Master of Arts in Adult Learning and Teaching degree seeking students (9 semester credit hours):

- ALT 6623 Assessment and Evaluation of Adult Education and Human Resource Development
- ALT 6633 Multicultural Issues, Diversity, and Social Action in Adult Education and Human Resource Development
- ALT 6943 Internship in Adult Learning and Teaching

C. Elective courses (12 semester hours with thesis or 15 semester credit hours without thesis)

Note: According to SACS/COC Comprehensive Standard 3.7.1 of the Principles of Accreditation, a master’s degree and a minimum of 18 graduate semester hours in the teaching discipline is required to teach at the undergraduate level.
Each student is required to select additional courses, with the approval of the program advisor and the Graduate Advisor of Record, to complete the degree requirements of 33 semester credit hours (with thesis) or 36 hours (without thesis). Applicants for the Master of Arts Degree in Adult Learning and Teaching may choose a thesis or nonthesis option. Some students may be required to take additional support work as determined by the Graduate Advisor of Record for the M.A in Adult Learning and Teaching.

**Comprehensive Examination.** The ALT comprehensive examination committee is responsible for preparing and administering the examination. The examination may be repeated, but a student who has failed the examination two times must have the permission of the Graduate Program Committee in order to take the examination additional times. Normally, failure to pass the examination should be followed by additional coursework or other work to remedy deficiencies or areas of weakness before the examination is retaken.

**Doctor of Philosophy Degree in Interdisciplinary Learning and Teaching**

The Doctor of Philosophy in Interdisciplinary Learning and Teaching (ILT) is a degree program that examines learning and teaching from an interdisciplinary perspective; focusing on varied approaches to teaching and learning from within and across various disciplines. The foundations of the program are: how teaching and learning are addressed within disciplines, how they may intersect with one another, and how each discipline maintains its uniqueness while sharing commonalities with other disciplines.

The Doctoral program objectives include:

1. Preparation of researchers who examine the theories, philosophies and multiple paradigms that inform learning and teaching from an interdisciplinary perspective with respect to the varied ways of knowing, situated cognition, and sociocultural contexts, as well as curricular and instructional development;
2. Development of graduate leaders who seek ways to address educational and societal issues through multiple perspectives and will work to make major contributions to the improvement of education for ethically and economically diverse populations across the human lifespan; and,
3. Preparation of educators to assume the roles of university and community college faculty members, public school teachers/leaders, and adult education and human resource development educators who address, analyze, evaluate and reform learning and teaching through interdisciplinary approaches in varied sociocultural contexts.

**Program Admission Requirements.** Admission to the Ph.D. program is limited, and therefore, competitive. Meeting recommended criteria does not ensure admission. Admission to the doctoral degree program occurs once per year in the Fall semester. The following factors for admission into the doctoral program will be considered by the ILT Doctoral Program Committee:

1. A 36-hour master’s degree in Curriculum and Instruction, in a related educational field, or in an academic discipline, such as history, mathematics, the sciences, humanities, or fine arts. Students with fewer than 36 hours credit may be considered for the program with probationary status pending the completion of deficient hours;
2. A master’s degree transcript documenting a grade point average (GPA) of 3.5 or higher;
3. For applicants whose native language is not English, a score of at least 550 on the Test of English as a Foreign Language (TOEFL);
4. Three letters of recommendation from faculty, supervisors or professional affiliations attesting to the student’s academic and professional attributes for success in the program and potential for contributing substantially to a field of study related to the degree;
5. A written personal statement/essay describing research interests and purpose for pursuing the Ph.D. in Interdisciplinary Learning and Teaching;
6. Graduate Record Examination (GRE) test scores not older than five years;
7. A professional vitae demonstrating experience in a work environment where education was the primary professional emphasis; and,
8. Agreement to participate in an interview, if so invited.
Degree Requirements. Program degree requirements include a minimum of 60 semester credit hours in Research Methods, Core Courses, Cognate Courses, and Seminar and Dissertation Courses. Students pursuing the Ph.D. in Interdisciplinary Learning and Teaching will be required to pass a qualifying examination prior to admission to candidacy. All candidates will be required to submit a scholarly contribution in the form of a dissertation as partial fulfillment of requirements for this degree. For more information, refer to Doctoral Degree Regulations in Chapter 5 of this catalog.

A. Research Methods Courses (12 semester credit hours required). Survey of qualitative and quantitative methods, and mixed-methods research designs.

   ILR  7643  Advanced Research on Instruction
   ILT  7013  Overview of Research Design for Instructional Inquiry

   AND

   6 semester credit hours of approved research methods courses selected from within the College of Education and Human Development

B. Core Courses (18 semester credit hours required):

   ILT  7003  Exploration of Interdisciplinary Learning and Teaching
   ILT  7133  Perspectives and Approaches to Interdisciplinary Learning & Teaching
   ILT  7143  Internship (Research and Teaching)
   ILT  7153  Interdisciplinary Learning and Teaching in Sociocultural Contexts
   ILT  7633  Multiple Perspectives on Learning and Teaching
   ILT  7733  Evaluation of Research

C. Cognate Courses (18 semester credit hours required):

   Students select a cognate area in academic disciplines/fields related to research interests. Courses are selected from graduate offerings throughout the University and students must meet prerequisites for enrollment.

D. Doctoral Research Seminar and Doctoral Dissertation (12 semester credit hours required):

   ILT  7893  Doctoral Research Seminar in Interdisciplinary Learning and Teaching
   ILT  7983  Doctoral Dissertation (repeated for a minimum of 9 semester credit hours)

COURSE DESCRIPTIONS
ADULT LEARNING AND TEACHING
(ALT)

5813  Adult Literacy
(3-0) 3 hours credit.
Examination of the acquisition and development of reading and writing in adult populations. Reviews research and issues relevant to the teaching of reading and writing to adults. (Formerly AHE 5813. Same as C&I 5813. Credit cannot be earned for more than one of the following: AHE 5813, ALT 5813, or C&I 5813.)

6003  Popular Culture and Informal Learning in Adult Learning and Teaching
(3-0) 3 hours credit.
This course is an overview of the intersection of adult learning and popular cultural products. Participants will consider how adults learn informally from popular television, music, movies, video games, etc. and how that learning impacts classroom learning and practice. (Formerly titled “The Community College.”)
6063  **Research Topics in Adult Learning and Teaching**  
(3-0) 3 hours credit. Prerequisite: EDU 5003.  
Consideration of the major research problem areas in adult, workforce, and continuing education, identification of 
local, national and global problems in need of research, examination of research literature in selected areas, and 
study of research methods unique to or especially useful in adult education, workforce education, and transformative 
leadership. (Formerly AHE 6063. Credit cannot be earned for both ALT 6063 and AHE 6063.)

6103  **Consumerism and Consumption in Adult Learning and Teaching**  
(3-0) 3 hours credit.  
This discussion-based course will examine issues of consumption and consumer education from different perspectives, 
including psychology, sociology, anthropology, cultural studies, and adult education. This course is for anyone 
interested in adult education, consumer education, education for citizenship, environmental education, or consumer 
issues in general. (Formerly AHE 6103. Credit cannot be earned for both ALT 6103 and AHE 6103.) (Formerly titled 
“Effective Teaching in Higher Education I.”)

6123  **International Perspectives on Adult Learning and Teaching**  
(3-0) 3 hours credit.  
This discussion-based course investigates global ethnic, cultural, and political structures in adult education across 
various regions and countries. (Formerly AHE 6123. Credit cannot be earned for both ALT 6123 and AHE 6123.) 
(Formerly titled “Effective Teaching in Higher Education II.”)

6203  **The Student, Community, and Instructor in Adult Learning and Teaching**  
(3-0) 3 hours credit.  
This course is an overview of adult learning theories and their practical application in the community college, 
university, and other formal and informal learning situations. It will focus on both the experience of, and the practice 
of, adult learning and teaching, while examining the philosophies, the theoretical framework, and the social contexts 
of adult learning, human resource development, life-long learning, and adult continuing education. (Formerly 
AHE 5203, ALT 5203, and COU 5603. Credit cannot be earned for more than one of the following: AHE 5203, 
ALT 5203, ALT 6203, or COU 5603.)

6223  **Distance and Blended Learning in Adult Education and Human Resource Development**  
(3-0) 3 hours credit.  
Introduction to the field of distance and blended learning. Application of distance and blended learning theory and 
principles to post secondary and training settings via a variety of technology-enhanced instructional modalities.

6343  **Curriculum and Instruction in Adult Education and Human Resource Development**  
(3-0) 3 hours credit.  
Overview of instructional strategies, design, and practices of adult learning settings. Explores situational and cultural 
factors that influence adult learning in post-secondary, adult basic education, and human resource development 
organizations. (Formerly AHE 5343 and ALT 5343. Credit cannot be earned for more than one of the following: 
AHE 5343, ALT 5343, or ALT 6343.)

6503  **Community Building and Mentoring in Human Resource Development**  
(3-0) 3 hours credit.  
This course will focus on facilitation of community and workplace support, creating strategic mentoring environments, 
and assisting adults in their development as productive members of their communities, both at work and home.

6603  **Foundations and Contexts of Adult Education and Human Resource Development**  
(3-0) 3 hours credit.  
This course is designed to give participants an understanding of the history and current practice of adult education. 
Readings will trace the major historical developments and philosophical roots of adult education as well as examine 
administrative, programming, and instructional practices in the field. The social context of adult education, including 
race, class, and gender analyses, and the role of adult education in society. Relevant historical, sociological, political, 
and economic factors that influence adult education theory and practice. The course will also examine emerging issues 
in adult education and their implications for future practice. (Formerly AHE 5603 and ALT 5603. Credit cannot be 
earned for more than one of the following: AHE 5603, ALT 5603, or ALT 6603.)
6623  **Assessment and Evaluation of Adult Education and Human Resource Development**  
(3-0) 3 hours credit.  
Overview of a variety of summative and formative classroom assessment and program evaluation methods appropriate for adult education and training settings. (Formerly AHE 5623 and ALT 5623. Credit cannot be earned for more than one of the following: AHE 5623, ALT 5623, or ALT 6623.)

6633  **Multicultural Issues, Diversity, and Social Action in Adult Education and Human Resource Development**  
(3-0) 3 hours credit.  
Cultural (racial, ethnic, gender, linguistic) diversity in the local, national, and global adult educational contexts. Topics include cultural self-awareness, demographic changes and projections, problems/issues in inter-cultural educational settings, theoretical perspectives of multicultural adult education, practical problems and related strategies in handling diversity in adult education settings. (Formerly AHE 5633, ALT 5633, and COU 5633. Credit cannot be earned for more than one of the following: AHE 5633, ALT 5633, ALT 6633, or COU 5633.)

6933  **Community-Based Research**  
(3-0) 3 hours credit.  
Overview of principles and strategies for Community-Based Research. Community-Based Research (CBR) is an inquiry decision-making methodology that actively involves, and is largely directed by, participating community members. Students will create and address research questions in collaboration with members of the community to meet a particular community need.

6943  **Internship in Adult Learning and Teaching**  
3 hours credit. Prerequisites: Consent of instructor and Graduate Advisor of Record.  
Individually supervised field experience in Adult or Higher Education, or Human Resource Development settings. (Formerly AHE 6943. Credit cannot be earned for both ALT 6943 and AHE 6943.)

6951,3  **Independent Study**  
1 or 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. May be repeated for credit, but not more than 6 hours, regardless of discipline, may be counted toward the Master’s degree. (Formerly AHE 6953.)

6961  **Comprehensive Examination**  
1 hour credit. Prerequisite: Approval of the Graduate Program Committee to take the comprehensive examination.  
Independent study course for the purpose of taking the comprehensive examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required for each term in which the comprehensive examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the comprehensive examination) or “NC” (unsatisfactory performance on the comprehensive examination). (Formerly AHE 6961.)

6973  **Special Topics in Adult Learning and Teaching**  
(3-0) 3 hours credit.  
A course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Topics courses may be repeated for credit when the topics vary, but not more than 6 hours, regardless of discipline, may be counted toward the degree. (Formerly AHE 6973.)

6983  **Master’s Thesis**  
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and Thesis Director.  
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required for each term in which the thesis is in progress. (Formerly AHE 6983.)
COURSE DESCRIPTIONS
CURRICULUM AND INSTRUCTION
(C&I)

5003 Theory of Curriculum and Instruction
(3-0) 3 hours credit.
An examination of theoretical structures underlying curriculum considerations and the implications of these for the work of responsible curriculum decision-makers at all levels, including administrators, instructional supervisors, and classroom teachers. (Formerly titled “Theory and Dynamics of Curriculum and Instruction.”)

5013 Curriculum, Instruction and Assessment
(3-0) 3 hours credit. Prerequisite: C&I 5003.
Examination of different pedagogical approaches to the teaching and learning process in schools, with emphasis on the development of curriculum for classroom instruction, evaluation, organization, and management. (Formerly titled “Classroom Instruction and Evaluation.”)

5043 Classroom Management and Motivation
(3-0) 3 hours credit. Prerequisite: Graduate standing.
A detailed investigation of various theories and models of classroom management and motivation. Topics include behavior modification, assertive discipline, control theory, and the concept of the democratic classroom. (Credit cannot be earned for both C&I 5043 and EDP 5043.)

5523 Metacognitive Learning Principles
(3-0) 3 hours credit.
Metacognition as a foundational learning construct is considered first as it is presented in the literature and then as a lived experience of reflective practice. Core questions include: What are ways of knowing? How does one know what and how one knows? What are appropriate metacognitive strategies across curricular contexts? Each participant will explore motivation with three foci: theory, practical application toward the self and practical application toward others. (Formerly titled “Metacognitive Thinking and Learning Strategies.”) (Same as ECE 6753. Credit cannot be earned for more than one of the following: ECE 5523, ECE 6753, or C&I 5523.)

5663 Topics in Curriculum and Instruction
(3-0) 3 hours credit.
Students are provided the opportunity for in-depth study of specialized areas of curriculum and instruction. The course may be repeated for credit when topics vary. Only 6 hours may be applied to the degree.

5703 Secondary School Curricula
(3-0) 3 hours credit.

5723 Integrating Reading and the Language Arts
(3-0) 3 hours credit.
Study of reading processes and instructional practices and examination of ways reading can be related to writing, speaking, and listening. Emphasizes development of integrated language arts curriculum and instruction from primary through secondary school.

5743 Reading in Secondary School
(3-0) 3 hours credit.
Principles and techniques for teaching higher-level reading and comprehension skills to adolescents. Attention to developing reading programs and to literacy learning in various academic subjects in middle and high schools. Strategies for meeting the needs of the wide range of ability levels found in secondary schools.
5753  Literature for Children  
(3-0) 3 hours credit.  
Examines the selection and uses of children's literature in the classroom. Emphasizes literary response and ways to integrate literature into the elementary and secondary school curriculum.

5763  Diagnosis and Practicum in Reading  
(3-0) 3 hours credit. Prerequisite: C&I 5723.  
Multidisciplinary approach to diagnosis and remediation of reading problems, with special attention to cognitive, sociolinguistic, and emotional factors that may impede learning. Application of diagnostic and remedial procedures with individual children through a guided field-based practicum.

5793  Seminar in Reading Supervision  
(3-0) 3 hours credit. Prerequisites: C&I 5763 and C&I 5823.  
Organization of developmental and remedial reading and writing programs. Selection of appropriate materials. Techniques and procedures for maintaining quality programs, including staff selection and in-service training. The role of research in improving the teaching of reading and writing.

5813  Adult Literacy  
(3-0) 3 hours credit.  
Examination of the acquisition and development of reading and writing in adult populations. Reviews research and issues relevant to the teaching of reading and writing to adults. (Same as ALT 5813. Credit cannot be earned for more than one of the following: AHE 5813, ALT 5813, or C&I 5813.)

5823  Reading and Writing Development in Early Childhood  
(3-0) 3 hours credit.  
Study of the literacy development of young children from birth to the point of acquisition of conventional reading and writing ability. Examines young children's emergent literacy concepts and behaviors and considers ways that early childhood educators can develop appropriate approaches to teaching reading and writing in classroom settings.

5843  Young Adult Literature  
(3-0) 3 hours credit.  
This course is designed to provide opportunities for students to become familiar with young adult literature and to examine current issues, practices, and perspectives about this field of study.

5853  Study Strategies and Cognitive Processes in Reading  
(3-0) 3 hours credit.  
Reviews research that examines study strategies and cognitive processes for reading and learning in schools. Focuses on upper elementary-through-college study practices and higher-level reading and thinking. Field experience may be required. (Formerly C&I 5583. Credit cannot be earned for both C&I 5853 and C&I 5583.)

5863  Russian Contributions to Literacy, Psychology and Learning  
(3-0) 3 hours credit.  
Examines the contributions of Russian psychologists to reading and writing, social and cultural development, and special needs of learners. Focuses on contributions of Lev Vygotsky; application of his thinking to contemporary educational, psychological, and social-bicultural issues.

5873  Assessment Issues and Practices in Reading  
(3-0) 3 hours credit.  
Examination of techniques to assess student reading and writing. Considers strengths and weaknesses of assessment tools such as standardized tests, informal observations, and portfolios, and ways educators may best use the results from these approaches to provide appropriate instruction for all students.
5933  **Service-Learning**  
(3-0) 3 hours credit.  
History, rationale, research, methodology, and outcomes of service-learning. Students will conceptualize, plan, and participate in a service-learning project. Emphasis is on how service can be incorporated into curriculum with a primary focus on learning.

6023  **Supervision: Tools and Techniques**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
A study of impact strategies in instructional supervision and the development of communication and interpersonal skills needed for working with teachers. (Same as EDL 6023. Credit cannot be earned for both C&I 6023 and EDL 6023.)

6033  **Survey of Reading Research**  
(3-0) 3 hours credit. Prerequisites: C&I 5723, C&I 5763, and EDU 5003.  
A review of past and current literature and research concerning the reading process, curricula, and instructional practice. Provides an opportunity for students to acquire critical analysis skills in evaluating research. (Formerly C&I 5783. Credit cannot be earned for both C&I 6033 and C&I 5783.)

6043  **Survey of Writing Research**  
(3-0) 3 hours credit.  
This course is designed to review theory, research, and school practices on the writing process and assessment of writing. Theory and research across the fields of the history of, and human development in, writing, rhetoric and written communication, genre studies, author-audience relations, and creative expression will be considered. The course examines relationships between inside of school and outside of school writing, and the transition from oral to written communication. Approaches for analyzing and helping students overcome writing difficulties across the disciplines will be examined.

6053  **Instructional Supervision**  
(3-0) 3 hours credit. Prerequisites: C&I 5003 and C&I 5013.  
The analysis and application of curriculum development theory and research on models, policies, and issues related to the teaching and learning process in the professional development of teachers. Study of impact strategies and interpersonal skills in instructional supervision.

6063  **Research in Subject Matter Fields**  
(3-0) 3 hours credit. Prerequisite: C&I 5003.  
A study of various past and current educational philosophies, purpose and methods of educational research including research of content, pedagogy, technology, and research on teaching and learning of concepts and skills, standards and assessments. Examination and in-depth discussion of existing links between educational research in specific subject fields and classroom practice. May be offered in:  
- Science  
- Mathematics  
- Social Studies  
- Language Arts  
- Foreign Languages  
- Physical and Health Education  
- Interdisciplinary  
May be repeated once for credit (for a total of 6 hours) when disciplines vary.

6103  **Research in Action**  
(3-0) 3 hours credit.  
Action research across diverse contexts. The course includes a consideration of history and definitions of action research, and an analysis of its purpose, process, and theoretical foundations. Students will engage in practitioner-based research strategies such as observations, interviews, and document analysis and conceptualize, plan, and conduct an action research study. (Formerly titled “Action Research.”)
6123 Critical Perspectives in Curriculum and Instruction  
(3-0) 3 hours credit. Prerequisites: C&I 5003 and C&I 5013.  
This course offers an examination of curriculum as the intersection of power, identity, knowledge, and cultural polities. Critical theoretical frameworks introduced in this course include critical theory, postmodernism, queer theory, and others.

6133 Curriculum in International Contexts  
(3-0) 3 hours credit. Prerequisites: C&I 5003 and C&I 5013.  
This course explores curriculum through comparative analysis of education practices in international contexts. Questions include: How is learning approached globally? How does a global perspective on curriculum transform local and global educational practices?

6303 Advanced Methods in Subject-Matter Fields  
(3-0) 3 hours credit. Prerequisite: C&I 5003 or consent of instructor.  
Course sections are designed to offer students the opportunity to develop skill in instructional methodology specifically related to and derived from the characteristics of the discipline taught.  
• Science  
• Mathematics  
• Social Studies  
• Language Arts  
• Foreign Languages  
• Physical and Health Education  
• Interdisciplinary  
May be repeated for credit when disciplines vary.

6513 Grant Writing  
(3-0) 3 hours credit.  
Grant writing basics and specifics. The course is designed to help educators learn how to conceptualize, write, and submit a grant application. Students will learn how to identify funding entities, develop a theoretical and research base for grants, create timelines, and utilize grant-writing strategies.

6603 Middle Grades Theory, Research and Practice  
(3-0) 3 hours credit.  
Exploration of theory supporting the middle grades as a separate schooling experience for young adolescents (ages 10–15); research about principles and practices of middle school concept, teaching at the middle school level, young adolescent development, curriculum, instruction, assessment, etc. (Formerly C&I 5603. Credit cannot be earned for both C&I 6603 and C&I 5603.)

6613 Nature and Meaning of Science in Education  
(3-0) 3 hours credit.  
This course focuses on the nature and meaning of science, with special emphasis on the role of science in educational environments. Participants will be asked to take a critical perspective on questions, such as: “What is science?” and “What about science is most important for a student to know?” The course will address: the nature of scientific disciplines (the theories and problems which characterize them); the relationship between theory and empirical work; and the role of science learning and teaching in pre-K–16 environments. This course provides a broad foundation for subsequent curriculum development, instructional design, and research into the teaching and learning of the sciences. (Formerly C&I 5613. Credit cannot be earned for both C&I 6613 and C&I 5613.)

6623 Inquiry in Science Education  
(3-0) 3 hours credit.  
This course focuses on how to choose and develop appropriate “hands-on, minds-on” science inquiry explorations for EC-16 grade levels. Settings include laboratory and classroom contexts, as well as informal science education. Students enrolled in this course will have the opportunity to become critical consumers by ‘doing’ inquiry, ‘thinking’
about inquiry, and ‘applying’ inquiry through a metacognitive process. Learners have opportunities to reflect on traditional science classroom environments in comparison with multiple inquiry methodologies. (Formerly C&I 5623. Credit cannot be earned for both C&I 6623 and C&I 5623.)

6633 Science for All? Equity and Agency in Science Education  
(3-0) 3 hours credit.  
Focus on equity and agency issues in science education as they relate to diverse demographics and communities. Questions such as “Whose science and for whom? Who participates, and who does not? Whose voice is heard, and who is silent?” are the threads that connect investigations, such as whether and how policy demands are met in practice and how federal, state, and local institutional policies impact classroom contexts. Agency is explored both as a process of becoming aware of and confident in one’s ability to impact the community at large, as well as an expression and hallmark of democratic settings. Participants will critically evaluate assessment models that are intended to provide alternatives to standardized testing practice. Topics include, but are not limited to, large-scale issues such as existing models and changing paradigms, curricular ownership, and systemic reform, as well as more fine-grained issues such as the practice and effects of ability grouping and tracking. (Formerly C&I 5633. Credit cannot be earned for both C&I 6633 and C&I 5633.)

6643 Middle Grades Policy and Critical Issues  
(3-0) 3 hours credit.  
Exploration of policy and examination of critical issues (e.g., funding, mandated assessments, parent involvement) affecting middle schools.

6653 History of Mathematics  
(3-0) 3 hours credit.  
A study of major historical mathematical events, the evolution of mathematics from ancient times to the present and contributions of various mathematicians. Examination of the development of several branches of mathematics, including but not limited to number theory, algebra, geometry, probability, and calculus.

6673 Policy and Critical Issues in Teaching  
(3-0) 3 hours credit. Prerequisites: C&I 5003 and C&I 5013.  
Study of critical issues in school. Investigation of research, practices, and policies related to special education, bilingual and multicultural education, early childhood education, middle and secondary schools and other current broad-based social issues. (Formerly C&I 5673. Credit cannot be earned for both C&I 6673 and C&I 5673.)

6683 Theory, Research and Practice in Social Studies Education  
(3-0) 3 hours credit.  
Analysis and application: theories of learning and teaching that influenced social studies education. Current research in social studies education will be examined and analyzed. The impact that these theories and research has upon current social studies educational practices will be investigated.

6693 History, Policy and Critical Issues in Social Studies Education  
(3-0) 3 hours credit.  
This course will present both the history and foundations of social studies education in America and how these have evolved over time. Students will investigate policies that impact social studies education from both historical and current viewpoints. Students will study, debate, and form a position on the research, practices and policies related to current critical issues in social studies education.

6733 Fundamentals of Environmental Education  
(3-0) 3 hours credit.  
Provides educators with the knowledge and skills necessary to incorporate quality environmental education into their instruction and curriculum. Explores the explanation of the theory, history, definition, national standards, and goals of environmental education. Provides an understanding of the professional roles and instructional methods and assessment strategies of environmental educators within the context of environmental education.
6773  **Environmental Education in the Curriculum**  
(3-0) 3 hours credit.  
An exploration of the integration of environmental concepts and environmental education curricula into the total school curriculum. Using local, accessible outdoor locations, students will explore the many aspects that come together to create a “Sense of Place.” This course will assist students to discover and interpret the natural history and critical environmental issues of their local communities through a variety of mediums. It is designed for educators who want to help learners of all ages to discover the wonders and intricacies of the natural world.

6783  **Theory and Practice of Mathematics**  
(3-0) 3 hours credit.  
Study of different theories of learning and teaching mathematics and analysis of practices which support these theories. In-depth discussion of contemporary critical issues in mathematics classrooms, standards, and assessments.

6923  **Mentoring**  
(3-0) 3 hours credit.  
Description, analysis, and appraisal of mentoring for prospective and practicing teachers. In addition to learning about the review of research on mentoring, the course focuses on the examination of content, processes, roles, and responsibilities in interactions of mentors and teachers of prekindergarten through high school. (Formerly C&I 5923. Credit cannot be earned for both C&I 6923 and C&I 5923.)

6943,6  **Instructional Internship in Teaching**  
3 or 6 hours credit. Prerequisite: Consent of student’s graduate advisor.  
Individually supervised full-time field experience in assigned classrooms for one semester (12 weeks) with related applied research activity. May be taken for teaching internship or student teaching. May be repeated for credit, but not more than 6 hours may be applied toward the M.A. in Education degree.

6951,3  **Independent Study**  
1 or 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6973  **Special Problems**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

7003  **Technology in Curriculum and Instruction**  
(3-0) 3 hours credit.  
Advanced study of modern instructional technologies with special emphasis on their use in educational settings. Consideration of distance-learning procedures and their implications for curriculum planning and supervision.

7013  **Advanced Methods in Subject-Matter Fields**  
(3-0) 3 hours credit.  
Advanced investigation of teaching procedures and the relationship of supervisors, administrators, and curriculum designers with instructors. Course may be offered as a general course or subject area. Sections may be offered as listed:  
• Science  
• Mathematics  
• Social Studies  
• Language Arts  
• Foreign Languages  
• Physical and Health Education  
May be repeated for credit when disciplines vary.
COURSE DESCRIPTIONS

EARLY CHILDHOOD AND ELEMENTARY EDUCATION

(ECE)

5123 Seminar in Development in Early Childhood and Infancy
(3-0) 3 hours credit. Prerequisite: EDP 5003 or consent of instructor.
Studies of the results of stimulating sensory equipment in the early years and investigation of insufficient psychological
and physiological nourishment. Includes relevant research-suggested practices that may enable future generations to
avoid developmental disruptions and alleviate existing developmental handicaps.

5133 Language and Discourse Development in Preschool-Primary Children
(3-0) 3 hours credit.
Study of early acquisition and development of language skills. Emphasis on identifying the sequence of normal
expressive and receptive language development in terms of the child’s related abilities and learning experiences.
Language acquisition and discourse in linguistically and culturally diverse children. Identification of atypical patterns
of language development.

5443 Guidance of Social/Emotional Development in Children
(3-0) 3 hours credit.
Study of behavioral issues encountered by educators in elementary and early childhood classrooms. Emphasis on
understanding factors that influence the development of problem behavior within the context of children’s social and
emotional development. Focus on prevention, early identification, and intervention methods and techniques. Study of
curricular, environmental, and socio-organizational strategies for educators. (Formerly ECE 5453. Credit cannot be
earned for both ECE 5443 and ECE 5453.)

5503 Theoretical Foundations of Early Childhood and Elementary Education
(3-0) 3 hours credit.
Opportunity is provided for a systematic analysis of theoretical foundations of early childhood and elementary
education, including an application of theoretical principles to instructional objectives, organizational schemes,
teaching strategies, and materials. (Credit cannot be earned for both ECE 5503 and C&I 5503.)

5513 Curriculum, Methods and Materials in Early Childhood and Elementary Education
(3-0) 3 hours credit.
A study of curriculum and instructional methods in diverse early childhood and elementary classrooms. Emphasis on
planning and curriculum design, methods of instruction and materials for teaching at the level of student ability.

6123 Administration of Early Childhood Programs
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
This course is designed for those who are interested in managing the care and education of young children in various
contexts, including community child care and public school settings. Students explore the various components related
to administration of early childhood programs in inclusive settings including leadership and advocacy, human resource
management, curriculum development, strategic planning, parental involvement, and legal issues.

6163 Biological Basis of Child Development: Brain Based Research and Learning
(3-0) 3 hours credit. Prerequisite: One course in general biology or general psychology or consent of instructor.
Analysis of biological and psychological perspectives on child growth and development. Emphasis on theoretical
aspects of biopsychological and social and cultural factors influencing cognitive and learning functions.

6183 Seminar in Early Childhood Education in Cross-Cultural Perspective
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An examination of contrasting strategies of socialization employed by societies around the world, past and present;
limit of and alternatives to formal early childhood education in the current Western sense. Readings are drawn from
ethnographic and theoretical sources in anthropology, psychology, and education.
6213 **Current Issues in Early Childhood and Elementary Education**
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Studies of current issues in preschools and elementary schools and other educational settings. Investigation of research, practices, and positions related to the issues studied. Exploration of available models for possible solutions or resolution of issues, as well as factors that may have an impact on desired outcomes.

6303 **Advanced Methods in Early Childhood and Elementary Education**
(3-0) 3 hours credit. Prerequisite: C&I 5003 or consent of instructor.
Specialized studies in early childhood and elementary education are offered through course section in these areas:
- Science
- Mathematics
- Social Studies
- Literacy
- Fine and Performing Arts
- Play and Play Environments
- Nutrition and Health
- Gifted Education
May be repeated for credit when curriculum areas vary.

6363 **Differentiated Instruction in a Diverse Classroom**
(3-0) 3 hours credit.
Application of instructional strategies for promoting the learning of diverse groups of children in typical classrooms. Implementing teaching strategies and techniques matched to individual learners, characteristics of subject matter and demands of the learning environment. Emphasis on acquiring a variety of teaching strategies to differentiate instruction within a social learning environment. (Formerly ECE 5473 and ECE 6373. Credit cannot be earned for more than one of the following: ECE 5473, ECE 6363, or ECE 6373.)

6423 **Advanced Studies in Play**
(3-0) 3 hours credit.
This course focuses on the examination and analysis of play research as it relates to different areas of young children’s development including cognitive, social, emotional, physical, and linguistic—birth through age eight. Examination of play theories, the role of the adult as facilitators of play, and contexts of play for all children including culturally and linguistically diverse children and children with special needs.

6453 **Assessment and Evaluation in Early Childhood and Elementary Education**
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Evaluation and research on student development and learning, educational programs, processes, products, instructional objectives, and alternative approaches to attain objectives. A disciplined inquiry into trends and issues in assessment and evaluation in early childhood and elementary education.

6473 **Seminar in Early Childhood and Elementary Education**
(3-0) 3 hours credit.
Examination of issues in early childhood and elementary education, including an extensive study of research findings, publications of related professional organizations, and research methodology applied to early childhood and elementary programs.

6513 **Advanced Approaches to Interdisciplinary Teaching**
(3-0) 3 hours credit.
Examination of theory and practice that impacts current interdisciplinary teaching and learning elementary education. Emphasis is on the interrelationships of subject area concepts and themes as they are applied to the early childhood elementary curriculum.
6523  Social Policy for Families and Children
(3-0) 3 hours credit.
Examination of social policy and its implications for communities, families and children. Students analyze national, state, and local policy for educational settings and investigate local and regional resources for the teaching and learning process.

6653  Action Research in Childhood Settings
(3-0) 3 hours credit. Prerequisite: EDU 5003.
Application of research concepts and skills in field studies. Participants conduct directed research in early childhood and elementary school settings. (Formerly ECE 6643. Credit cannot be earned for both ECE 6653 and ECE 6643.)

6723  Integrating Technology Across the Early Childhood and Elementary Curriculum
(3-0) 3 hours credit.
An investigation into the design and use of innovative technological tools and instructional techniques across the early childhood and elementary education curriculum. Opportunities for design and use of educational experiences for children incorporating technological innovations. Includes use of technology to customize instruction to meet the individual learning needs of children.

6753  Metacognitive Thinking and Learning Strategies in Childhood Settings
(3-0) 3 hours credit.
An exploration of metacognition in personal and school environments, where an understanding of one’s own thinking and learning strategies assist in defining strengths and areas of growth in teaching. An emphasis is made on the development of critical pedagogical thinking and teaching, and its unification of elements into classroom practice that has meaning-making applications for all life situations. (Formerly ECE 5523. Same as C&I 5523. Credit cannot be earned for more than one of the following: ECE 5523, ECE 6753, or C&I 5523.)

6943,6  Instructional Internship in Teaching
3 or 6 hours credit. Prerequisite: Consent of student’s graduate advisor.
Individually supervised full-time field experience in assigned classrooms for one semester (12 weeks) with related applied research activity. May be taken for teaching internship or student teaching. May be repeated for credit, but not more than 6 hours may be applied toward the M.A. in Education degree.

6951,3  Independent Study
1 or 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6973  Special Problems
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

7123  Cognitive and Linguistic Development in Early Childhood and Elementary Education
(3-0) 3 hours credit.
A consideration of how language production and language understanding interact with content learning. With a focus on how children’s linguistic and cognitive development is promoted depending on how language is used in school activities. An exploration of the language policies and politics that affect schools, used in teaching and learning academic language for native speakers of English as well as those who speak other languages.
COURSE DESCRIPTIONS
INSTRUCTIONAL LEADERSHIP
(ILR)

7113  Paradigms in Instructional Leadership
(3-0) 3 hours credit. Prerequisite: LDR 7133.
Pluralistic alternatives and advanced approaches in instructional leadership, including research related to models of instruction and student achievement, frameworks for identifying and analyzing models of teaching, and decision making.

7123  Cases in Instructional Development and Reform
(3-0) 3 hours credit. Prerequisite: LDR 7183.
Examines historical developments in instruction and schooling and the results. Focuses on social, achievement, and cultural criteria for evaluating curricular effects and factors in positive curriculum developments.

7133  Introduction to Single-case Methodology
(3-0) 3 hours credit. Prerequisite: SPE 5503 or approval of the instructor.
The content of this course will examine questions appropriate for single-case research, data collection procedures, selection, implementation, analysis of research designs, and manuscript development/structure.

7143  Application of Single-case Methodology
(3-0) 3 hours credit. Prerequisite: ILR 7133.
This course will involve the application of single-case methodology in the area of education. This course will focus on the development of research questions, research-board approval, selection and implementation of research designs, and data analysis.

7203  Leadership in Curriculum Development
(3-0) 3 hours credit.
An examination of processes related to the facilitation and management of curricular innovation and delivery systems in varied educational settings including school systems, higher education, and other human service institutions.

7643  Advanced Research on Instruction
(3-0) 3 hours credit. Prerequisite: ILR 7123 or consent of instructor.
Design and development of advanced research studies on classroom instruction. Participants conduct directed research into critical issues of classroom practice.

7771,3  Independent Study
1 or 3 hours credit. Prerequisites: Doctoral standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work as part of the regular course offerings. May be repeated for credit, but not more than 6 hours will apply to the Doctoral degree.

7783  Special Problems
(3-0) 3 hours credit. Prerequisites: Doctoral standing and consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours will apply to the Doctoral degree.
7873 **Survey Research Methods**  
(3-0) 3 hours credit. Prerequisite: Introductory statistics or research methods course; or consent of instructor.  
Exploration of survey research methodology, development of survey, questionnaire or inventory, including item construction. Discussion and application of sampling and data collection procedures. Coding data, piloting instrument and conducting reliability and validity of instrument. Conducting data analysis procedures using SPSS to respond to research question(s) will include application of descriptive and inferential statistics. Data analysis will include employing factor analysis as a data reduction technique and to determine underlying constructs measured by instrument.

7893 **Doctoral Research**  
3 hours credit. Prerequisite: Admission to candidacy for the Doctoral degree.  
May be repeated for credit, but not more than 6 hours may be applied to the Doctoral degree.

**COURSE DESCRIPTIONS**  
**INSTRUCTIONAL TECHNOLOGY**  
**(IST)**

5003 **Foundations of Instructional Technology**  
(3-0) 3 hours credit.  
This introductory course provides an overview of the field of Instructional Technology. Course content and activities will help students develop an awareness and understanding of the history, theories, and philosophies driving the field. In addition, this course will introduce common technologies utilized across fields of study.

5011 **Technology Skills and Abilities**  
(1-0) 1 hour credit.  
The ever-changing body of knowledge and requisite skills needed for competency in instructional technology necessitates ongoing technical development. This course provides an orientation to specific skills and abilities for students who require updating, for students who may want to add to current skills, or for those students whose skills may be lacking. May be repeated for credit when specific skills vary.

5313 **Media Design**  
(3-0) 3 hours credit. Prerequisite: IST 5003 or consent of instructor.  
An overview of assessment and measurement techniques, tools, and philosophies as they apply to current and developing applications of technology in learning environments.

5323 **Concepts of Teaching and Learning**  
(3-0) 3 hours credit.  
A study of technologies, pedagogies, and theories as they relate to the design of instruction and practices that support effective teaching and learning. Investigation of how theories of knowing and learning are reflected in and supported by technology. Focus on current and emerging learning theories and how these relate to applications in technology-delivered and -supported learning environments.

5343 **Instructional Design Theory**  
(3-0) 3 hours credit. Prerequisite: IST 5003 or consent of instructor.  
An investigation of theories, principles, and processes of instructional design including their application to instructional product and curriculum development.

5363 **Distance Learning and Teaching**  
(3-0) 3 hours credit.  
Examination of the application of tools, resources, and strategies to support, deliver, and enhance technology-supported curriculum. Students actively engage in online activities as they identify and plan a curriculum.
5383 Technology Training and Management in Educational Systems
(3-0) 3 hours credit.
The dynamic nature of technology development and innovation requires strategies to ensure service populations are informed and skilled. This course will review models of technology, professional development, issues of change and technology adoption, and policy issues.

5703 Technology and Learning Cultures
(3-0) 3 hours credit.
An examination of technology-delivered and -mediated instruction as it interacts with the learners’ views of the world and themselves. Course activities explore the implications of culture on the design, delivery, and evaluation of instruction. (Formerly EDU 5703. Credit cannot be earned for both IST 5703 and EDU 5703.)

5883 Storytelling as Instructional Method
(3-0) 3 hours credit.
One of the oldest instructional methods, storytelling is used across sectors to build upon case-based reasoning that engaged the learner through the analysis of personal experience. The course paints broad-brush strokes providing opportunities for the students to perceive oral and digital forms of storytelling in multiple constructs: cultural, methods, strategies, and purposes. (Formerly C&I 5883. Credit cannot be earned for both IST 5883 and C&I 5883.)

6103 Virtual Learning and Teaching
(3-0) 3 hours credit. Prerequisite: IST 5003 or consent of instructor.
Gaming, virtual reality, and virtual worlds provide opportunities to learning through active participation in environments organized for specific purposes. This course explores instructional applications of virtual learning and teaching as students design a learning experience in a virtual environment.

6353 Multimedia Development
(3-0) 3 hours credit.
The design and development of interactive materials and resources for information retrieval, learning, and performance support. Course activities include the use of specific technologies to develop multimedia/new media prototypes. Can be taken in addition to MUS 6353.

6373 Analysis and Evaluation of Instructional Technology Trends
(3-0) 3 hours credit.
An overview of evaluation approaches, techniques, tools, and philosophies as they apply to current and future applications of technology in education.

6503 Advanced Topics in Instructional Technology
(3-0) 3 hours credit. Prerequisite: IST 5003 or consent of instructor.
Course develops skills in instructional technology related to and derived from the characteristics of current topics in the field. May be repeated for credit when topics vary.

6513 Advanced Instructional Design
(3-0) 3 hours credit. Prerequisite: IST 5343 or consent of instructor.
This course focuses on an analysis of instructional design models, including grounded design or theory-based design and the design of pedagogically appropriate learning experiences.

6603 Animation
(3-0) 3 hours credit. Prerequisite: IST 6353 or consent of instructor.
This course provides learners with opportunities to explore guiding principles for instructionally sound development and use of animation in learning contexts. The theoretical study of this tool is accompanied by practical application as students create animated instructional products.
6943 Internship
3 hours credit. Prerequisites: Consent of instructor and Graduate Advisor of Record.
Individually supervised field experience in a setting that provides direct experience with the design, development, implementation, or evaluation or learning experiences that are technology-mediated. (Credit cannot be earned for both IST 6943 and other internships.)

6951,3 Independent Study
1 or 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6973 Special Problems
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course that offers graduate students the opportunity to engage in specialized study not normally or not often available as part of the program’s regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours regardless of discipline, will apply to the Master’s degree.

COURSE DESCRIPTIONS
INTERDISCIPLINARY LEARNING AND TEACHING
(ILT)

7003 Exploration of Interdisciplinary Learning and Teaching
(3-0) 3 hours credit.
This course examines the history and definitions of the concept of interdisciplinary learning and teaching. Students will survey the various research areas within the field of Interdisciplinary Studies. Through group and individual examinations of interdisciplinary issues, topics, and problems, students will engage in scholarly literature study and research practice. Each student will select a topic of study that will be a personal research theme throughout a two-course orientation sequence. Research expectations and requirements will be presented so that students begin to understand the path and sequence of research courses.

7013 Overview of Research Design for Instructional Inquiry
(3-0) 3 hours credit. Prerequisite: Research methods or statistics course.
Overview of research design for quantitative, qualitative, or mixed-methods studies in Interdisciplinary Learning and Teaching. Topics include formulating research questions, defining variables, developing a sampling design, collecting data, selecting appropriate analyses, and interpreting results. The course will emphasize the procedures commonly used in the study of classroom instruction and learning and the specialized computer programs used in the study of instruction.

7133 Perspectives and Approaches to Interdisciplinary Learning & Teaching
(3-0) 3 hours credit.
This course includes a rigorous study of the key paradigms and philosophies of knowledge construction and research used to inform teaching and learning in the field of education. Continuing with topics selected in ILT 7003, students work to understand and analyze their topic from within particular paradigms, applying diverse theories, principles and concepts to their study and comparing the outcomes of such study across the many theoretical and philosophical perspectives apparent within and beyond the field of education. The course focuses on transformation of issues, topics, and problems through sustained interdisciplinary analysis and application.
7143  Internship (Research and Teaching)
3 hours credit.
Students, with their advisor’s recommendation, will complete an internship in which they collaborate and apprentice with departmental and college faculty on current research projects and teaching opportunities. May be repeated for credit.

7153  Interdisciplinary Learning and Teaching in Sociocultural Contexts
(3-0) 3 hours credit.
Advanced study of theories and research that explores sociocultural contexts that shape, influence, and constrain learning and teaching. Topics to be addressed include: sociopolitical and sociohistorical norms, values, and beliefs that impact education and the practice of democratic, inclusive and socially sensitive instruction. This course will investigate how the power dynamics and social constructions of race, class, gender, sexuality, religion, physical-ability-related concerns, etc., can be either validated or challenged by educational practitioners and institutions.

7633  Multiple Perspectives on Learning and Teaching
(3-0) 3 hours credit.
Survey of critical research on learning, teaching and school reform. Students will examine teaching/learning research from multiple perspectives and from diverse fields of inquiry that inform education (psychological, sociocultural, sociohistorical, sociocognitive, etc.). Emphasis will be placed on theory and theoretical frameworks.

7733  Evaluation of Research
(3-0) 3 hours credit.
This course offers students multiple opportunities to deeply reflect on, explore and analyze common practices in educational research. Students will take a critical look at strengths and weaknesses across the entire spectrum of research paradigms, including quantitative, qualitative, and mixed models. Students will evaluate which research methodologies will best be suited to finding answers to different kinds of research questions around current issues in education.

7893  Doctoral Research Seminar in Interdisciplinary Learning and Teaching
(3-0) 3 hours credit.
Intended to provide doctoral students with necessary background information about conducting dissertation research. Guidance will be provided to students regarding dissertation proposals.

7953  Independent Study
3 hours credit. Prerequisites: Doctoral standing and permission in writing (form available) of the instructor and the student’s faculty advisor.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Doctoral degree.

7973  Special Topics Seminar
(3-0) 3 hours credit.
An organized special topics seminar (e.g., Teacher Quality Research in STEM; Research on Culturally Efficacious Student Learning) offering the opportunity for in-depth study on topics of interest and cutting edge research. Special Topics Seminar courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Doctoral degree.

7983  Doctoral Dissertation
3 hours credit. Prerequisites: Admission to candidacy and consent of student’s faculty advisor.
May be repeated for credit, but not more than 9 hours may be applied toward the Doctoral degree. Credit will be awarded upon completion of the dissertation.
COURSE DESCRIPTIONS

SPECIAL EDUCATION

(SPE)

5403 Exceptional Children and Youth in the Schools
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An introduction to and survey of the field of special education for general and special education teachers and students in related fields of study. The course focuses on characteristics, etiology, definition, and prevalence of exceptional children; description of available services. A research project is required. (Formerly EDP 5403. Credit cannot be earned for both SPE 5403 and EDP 5403.)

5413 Children and Youth with Developmental Disabilities
(3-0) 3 hours credit. Prerequisite: SPE 5403 or consent of instructor.
This course presents the opportunity for special education teachers, counselors, and students in related fields of study to acquire knowledge and skills associated with contemporary theories and practices used in the assessment, diagnosis, and treatment of individuals with developmental disabilities in school and community settings. Trends and research in education of students with developmental disabilities are studied. (Formerly EDP 5413. Credit cannot be earned for both SPE 5413 and EDP 5413.)

5433 Children and Youth with Behavior Disorders
(3-0) 3 hours credit. Prerequisite: SPE 5403 or consent of instructor.
Presents opportunities for general and special education teachers, counselors, and students in related fields of study to obtain an understanding of various theories and practices used in the identification, treatment, and education of behavior disorders. Research on the education of children and adolescents with behavior disorders, as well as practical implications for the classroom teacher and school counselor are emphasized. (Formerly EDP 5433. Credit cannot be earned for both SPE 5433 and EDP 5433.)

5443 Conference and Consultative Skills in Special Education
(3-0) 3 hours credit. Prerequisite: SPE 5403 or consent of instructor.
This course presents the opportunity for general and special education teachers, counselors, and students in related fields of study to acquire knowledge and skill working with parents, teachers, and other professionals to optimize the educational and therapeutic experiences of exceptional children and youth. Students plan, implement, and evaluate conferences, staff development, and consultative activities. Requires 5–10 hours of field experience. (Formerly EDP 5443. Credit cannot be earned for both SPE 5443 and EDP 5443.)

5453 Children and Youth with Learning Disabilities
(3-0) 3 hours credit. Prerequisite: SPE 5403 or consent of instructor.
This course presents a study of the incidence, prevalence, etiology, and characteristics of the student with learning disabilities (LD) for general and special education teachers, counselors, and students in related fields. The relationship between LD, child development, school environment, and academic performance is studied. Emphasis is on a critical analysis of instruction and assessment techniques used with this population. (Formerly EDP 5453. Credit cannot be earned for both SPE 5453 and EDP 5453.)

5463 Educating Individuals with Autism Spectrum Disorders
(3-0) 3 hours credit. Prerequisite: SPE 5403 or consent of instructor.
This course presents a study of the incidence, prevalence, and characteristics of individuals with autism spectrum disorders (ASD) for general and special education teachers, counselors, and students in related fields. Research and best practices in assessment, treating, and educating individuals with ASD are explored and practical implications for classroom teachers and school counselors are emphasized. Approaches emphasized include treatment of social, communication, academic, and behavior skill deficits.
5503  Applied Behavior Analysis for Classroom Teachers and Counselors  
(3-0) 3 hours credit. Prerequisite: SPE 5403 or consent of instructor.  
This course presents principles and procedures of applied behavior analysis and classroom management for teachers,  
counselors, and students in related fields of study to facilitate the acquisition and improvement of social, academic,  
and life skills of children and youth with disabilities. Requires an applied project. (Formerly EDP 5423 and EDP 5503.  
Credit cannot be earned for more than one of the following: EDP 5423, EDP 5503, or SPE 5503.)

5513  Curriculum and Instructional Applications for Children and Youth in Special Education  
(3-0) 3 hours credit. Prerequisite: SPE 5403 or consent of instructor.  
Provides the opportunity for general and special education teachers, counselors, and students in related fields to  
evaluate and design curriculum and instructional interventions in order to provide students with disabilities access to  
the general education curriculum across content areas as well as to evaluate, design, and implement alternate curricula,  
and provide community-based and social skills instruction. (Formerly EDP 5513 and EDP 6203. Credit cannot be  
earned for more than one of the following: EDP 5513, EDP 6203, or SPE 5513.)

5523  Language Development and Cognitive Intervention for Individuals with Disabilities  
(3-0) 3 hours credit. Prerequisite: SPE 5403 or consent of instructor.  
This course provides an opportunity for general and special education teachers, counselors, and students in related  
fields of study to acquire knowledge and skills for assisting individuals identified as mildly to moderately disabled to  
achieve communicative competence through language acquisition and remedial and corrective interventions. Emphasis  
is on addressing the language and literacy development needs (listening, speaking, reading, writing, mathematics) of  
individuals with learning and behavior disabilities. (Formerly EDP 5463 and EDP 5523. Credit cannot be earned for  
more than one of the following: EDP 5463, EDP 5523, or SPE 5523.)

5533  Assessment and Evaluation of Children and Youth with Disabilities  
(3-0) 3 hours credit. Prerequisite: SPE 5403 or consent of instructor.  
Offers students in education, special education, counseling, and related fields of study the opportunity to develop  
knowledge and skills in selection, administration, and interpretation of instruments and procedures to evaluate  
individuals with disabilities. Emphasis is on assessment techniques, instruments, and procedures relevant to the  
education of disabled children and youth. (Formerly EDP 5533 and EDP 5553. Credit cannot be earned for more than  
one of the following: EDP 5533, EDP 5553, or SPE 5533.)

5613  Legal Issues in Special Education  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An examination of the historical and legal issues pertaining to special education. This course will provide an in-depth  
study of state and federal laws and will analyze litigation in the field. Students will also engage in activities that  
examine the ethical implications of special education.

5623  Seminar on Current and Critical Issues in Special Education  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Examination of issues in special education, including a study of research-supported practices, controversial issues, and  
critical topics in special education.

5633  Instruction and Educational Interventions for Individuals with High Incidence Disabilities  
(3-0) 3 hours credit. Prerequisite: SPE 5403 or consent of instructor.  
Emphasis on research-supported strategies for individuals with high incidence disabilities. Will provide hands-on  
experiences and practice implementing interventions.

5643  Instruction and Educational Interventions for Individuals with Low Incidence Disabilities  
(3-0) 3 hours credit. Prerequisite: SPE 5403 or consent of instructor.  
Emphasis on research-supported strategies for individuals with low incidence disabilities. Will provide hands-on  
experiences and practice implementing interventions.
5793 Practicum in Special Education: Children and Youth with Disabilities
(3-0) 3 hours credit. Prerequisites: SPE 5403 and consent of instructor.
This course focuses on the application of theoretical principles to field settings. Students are required to develop, implement, and evaluate educational programs for children and youth with disabilities. (Formerly EDP 5563 and EDP 5793. Credit cannot be earned for more than one of the following: EDP 5563, EDP 5793, or SPE 5793.)

5893 Practicum in Special Education: Behavior Disorders
3 hours credit. Prerequisite: Consent of instructor.
This course focuses on the application of theoretical principles to field settings. The student works in educational settings to plan, implement, and evaluate appropriate experiences with children and youth exhibiting emotional and/or behavior disorders. (Credit cannot be earned for both SPE 5893 and EDP 5893.)

6943 Assistive Technology for Individuals with Disabilities
(3-0) 3 hours credit.
This course presents general and special education teachers, counselors, educational leaders, or students in other fields with methods and strategies related to the use of technology to assist the learning of individuals with disabilities. This course provides in-depth study of the use of assistive technology within the school curriculum. Current research on effective assessment and use of assistive technology is addressed especially as it relates to individuals with disabilities.

6951,3 Independent Study
1 or 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. The course is intended for students needing specialized work not normally or not often available as part of the program’s regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6973 Special Problems
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course that offers graduate students the opportunity to engage in specialized study not normally or not often available as part of the program’s regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

COURSE DESCRIPTIONS
SECONDARY EDUCATION
(SED)

6953 Independent Study
3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6973 Special Problems
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when the topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

COLLEGE OF ENGINEERING

Graduate programs in engineering include the Master of Science in Advanced Manufacturing and Enterprise Engineering, the Master of Science in Biomedical Engineering, the Master of Science in Civil Engineering, the Master of Science in Computer Engineering, the Master of Science in Electrical Engineering, the Master of Science in Mechanical Engineering, the Doctor of Philosophy in Biomedical Engineering, the Doctor of Philosophy in Electrical Engineering, and the Doctor of Philosophy in Environmental Science and Engineering. These programs offer opportunities for advanced study and research designed to prepare students for leadership roles in engineering careers with industry, government, educational institutions, and research organizations. A thesis option is recommended for students who are planning a career in research or who contemplate pursuing a doctorate in one of the engineering disciplines. A nonthesis option is also available for students who desire a practical industrial applications-oriented degree.

The Department of Biomedical Engineering offers a matrix of academic tracks based on segments of biomedical engineering and/or areas of clinical emphasis. Specifically, the program has emphases in the following areas: biomaterials, biomechanics, and bioimaging. The biological areas covered are orthopedics/dental tissues, cardiovascular systems, and neurological systems. The Department of Civil and Environmental Engineering includes programs of study in structures, environmental engineering—transportation, water resources, hydrology, geotechnical engineering, solid mechanics, and materials. The Department of Electrical and Computer Engineering includes programs of study in Computer Engineering, Systems and Control, Digital Signal Processing, Communications, and Electronic Materials and Micro Devices. The Department of Mechanical Engineering includes programs of study in thermal and fluid systems, mechanical systems and design, mechanics and materials, and manufacturing engineering and systems.

A Doctor of Philosophy degree in Biomedical Engineering will train students in the fundamental sciences and engineering related to medicine. Areas of focus include biomechanics, biomaterials, bioimaging, and the following systems: musculoskeletal/dental, cardiovascular, and neurological.

A Doctor of Philosophy degree in Electrical Engineering offers an in-depth and integrated study focused in one of the following areas: Computer Engineering, Systems and Control, Digital Signal Processing, Communications, and Electronic Materials and Micro Devices.

A Doctor of Philosophy degree in Environmental Science and Engineering offers research emphases in Water Resources, Environmental Quality, Environmental Remediation, Pollution Control, Conservation Ecology, Spatial Analysis, Remote Sensing, and Natural Hazards.

A limited number of assistantships and fellowships are available to qualified students. Financial assistance is awarded on a competitive basis.

COURSE DESCRIPTIONS

ENGINEERING

(EGR)

5023  Numerical Techniques in Engineering Analysis
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.
Advanced methods of applied mathematics, including numerical linear algebra, initial value problems, stability, convergence, partial differential equations, and optimization.

5093  Special Topics in Engineering Analysis
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.
A comprehensive treatment of advanced methods of applied mathematics needed for the study of advanced courses in engineering. May be repeated for credit as topics vary.
5113  **Advanced Engineering Economic Analysis**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering.  
Examination of the factors required to transform technological innovations into products. Elements of business planning are examined through a case-study approach.

5213  **Topics in Systems Modeling**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering.  
Systems analysis approach to formulating and solving engineering problems. Topics include operational research, mathematical modeling, optimization, linear and dynamic programming, decision analysis, and statistical quality control.  
May be repeated for credit as topics vary.

5233  **Advanced Quality Control**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Methods and techniques for process control, process and gage capabilities, inspection plans, American National Standard, and recent advanced techniques. Tour of manufacturing industry. Case studies in process control, outgoing quality, and costs. A project, assigned by a manufacturing company, is required, along with a final presentation of the project.

5613  **New and Emerging Technologies**  
(3-0) 3 hours credit.  
Examines entrepreneurial and managerial perspectives on the process of technology innovation. Design is the organizing concept used to study the continuum from idea to sale of products and services that are spawned by innovators using new and emerging technologies. Seminar format, case-study preparation, presentation, and cooperative learning are defining characteristics of this course.

5623  **Issues in Engineering Management**  
(3-0) 3 hours credit.  
Examines issues facing managers of technology in terms of their implications for people. The context is the cycle from conception to use/disposal of products and services. The framework for analysis and synthesis is ecological, historical, and institutional. Seminar format, issue paper preparation and presentation, and cooperative learning are defining characteristics of this course.

5633  **Technological Foundations of Management of Technology**  
(3-0) 3 hours credit.  
This course examines the activities used to transform viable products and processes. Project planning and management, incorporating fundamentals of engineering economic analysis, are examined via case analysis. Explicit consideration is given to “green design” within a systems context. Design is used as the rubric to integrate the activities. (Same as MOT 5023. Credit cannot be earned for both EGR 5633 and MOT 5023.)

6013  **Analytic Techniques in Engineering Analysis**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Advanced methods of applied mathematics, including linear algebra, vector differential calculus, integral theorems, differential equations, and calculus of variations.
DEPARTMENT OF BIOMEDICAL ENGINEERING

Master of Science Degree in Biomedical Engineering

A Master of Science (M.S.) degree in Biomedical Engineering (BME) at The University of Texas at San Antonio (UTSA) is offered through a joint graduate program with The University of Texas Health Science Center at San Antonio (UTHSCSA). A matrix of academic tracks is offered based on segments of biomedical engineering and/or areas of clinical emphasis. Specifically, the program has emphases in the following areas: biomaterials, biomechanics, and bioimaging. The biological areas covered are orthopedic/dental tissues, cardiovascular systems, and neurological systems. The M.S. degree in Biomedical Engineering will be awarded to candidates who have displayed an in-depth understanding of the concepts that are necessary for critically judging the scientific literature, for formulating novel hypotheses, designing experimental protocols to test the hypotheses, interpreting their results and demonstrating their ability to make an original contribution to knowledge in the biomedical field.

The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 4, Master’s Degree Regulations).

Admission Requirements. Students who hold an undergraduate degree may apply to the program. The minimum requirements for admission to the Master of Science degree in Biomedical Engineering program are described below. Note that admission is competitive and satisfying these requirements does not guarantee admission.

• Applicants must have a grade point average of 3.0 or better in the last 60 semester credit hours of coursework with a major in a recognized science or engineering discipline. All students should have had sufficient background in engineering, chemistry, biology, and physics prior to being admitted to the program. It is expected that these students will have B.S. degrees with emphasis in either engineering, physical science, or biological science disciplines. Students from nonengineering backgrounds are required to take selected fundamental engineering courses as a condition of acceptance.

• A satisfactory score, as specified by the Admissions Committee for Biomedical Engineering, is required on the Graduate Record Examination (GRE). Students whose native language is not English must achieve a minimum score of 550 on the Test of English as a Foreign Language (TOEFL; paper version). The applicant’s performance on a standardized test will be considered in addition to other criteria, for admission or competitive scholarship awards and will not be used as the sole criterion for consideration of an applicant.

• Letters of recommendation, preferably three, attesting to the applicant’s readiness for graduate study.

• A complete application includes the application form, official transcripts, letters of recommendation, GRE scores, a résumé, a statement of the applicant’s research experience, interests, and goals. TOEFL scores are required for those applicants whose native language is not English.

Degree Requirements and Program of Study. Typically, a Master’s degree program of study will consist of at least 30.5 semester credit hours beyond the bachelor’s degree. Undergraduate courses, general education courses, and prerequisites for graduate courses cannot be counted toward this total. For students with a Master’s degree from another program or institution, course credit allowed for transfer will be decided on a case-by-case basis by the Biomedical Engineering Committee on Graduate Studies (COGS). If recommended by the COGS, the request will then be submitted to the Dean of the Graduate School for approval. Since this is a joint graduate program, courses can also be taken at The University of Texas Health Science Center at San Antonio (UTHSCSA). To enroll in UTHSCSA courses, students must register through the UTHSCSA Web site (http://www.uthscsa.edu/). Any questions concerning registration at UTHSCSA should be directed to the BME Program Office at UTHSCSA. The required curriculum for all students is as follows:

A. Regardless of their area of specialization, all students are required to take a total of 15.5 semester credit hours of Required Core Courses. The core courses are:

   Required Core Courses offered at UTSA:

   BME  6033  BME Engineering Analysis
   BME  6703  Biomedical Image Processing (Same as RADI 5015 at UTHSCSA.)
BME 6803 Biomechanics I  
BME 6903 Biomaterials

Required Core Courses at UTHSCSA:

<table>
<thead>
<tr>

<tbody>
<tr>
<td>INTD</td>
<td>Ethics in Research</td>
</tr>
<tr>
<td>ORTO</td>
<td>Biology for Bioengineers</td>
</tr>
<tr>
<td>RADI</td>
<td>Physics of Diagnostic Imaging I (Same as BME 6703.)</td>
</tr>
</tbody>
</table>

Upon approval of the Supervising Professor and the Program Director, students may substitute EGR 5093 (Special Topics in Engineering Analysis) for BME 6033 (BME Engineering Analysis).

B. Research seminar. Registration in BME 6011 (or ORTO 6090 at UTHSCSA) is required for three semesters, in order to satisfy the requirements for the Master’s degree program in Biomedical Engineering.

C. A minimum of 6 semester credit hours of Elective Courses selected from the list below. Courses from this list may be taken with the approval of the Program Director, Supervising Professor, and course instructor.

UTSA Elective Courses:

UTSA 2009–2011 Graduate Catalog
A minimum of 6 semester credit hours of biomedical engineering Master’s Thesis research is required.

The entire program of study must be recommended by the student’s Master’s Thesis Advisor, Master’s Thesis Committee, and the COGS and must be submitted to the Dean of the Graduate School for approval. The courses taken by students are intended to focus and support the individual’s mastery of his or her particular area of specialization.

**Advancement to Candidacy.** The student should seek recommendations from the COGS for advancement to candidacy. The COGS reserves the right to deny recommendation of the student’s admission to Master’s candidacy based on the student’s academics and proposed research. Upon recommendation from the COGS, all students are admitted to candidacy after successfully defending their proposed research, recommended by his/her Master’s Thesis Committee, and approved by the Dean of the Graduate School. Students should also consult the University Master’s Degree Regulations in Chapter 4 of this catalog for the other pertinent requirements.

**Thesis Defense.** A thesis, which is an original contribution to scholarship, based on independent investigation (graduate research) in the major area, is required of every candidate. The Master’s thesis research will be conducted by the student under the guidance of the Supervising Professor and the advice of the Master’s Thesis Committee. Prior to starting the thesis research, each student will submit a research proposal to the COGS for approval. The thesis will be the responsibility of the student and the Supervising Professor. Registration for thesis credit hours must be for a period of more than one semester. During each semester that a student receives advice and/or assistance from a faculty member or supervision by the Master’s Thesis Committee or uses UTSA or UTHSCSA resources, he or she will be required to enroll for credit in the appropriate Master’s degree course. The form and format of the thesis should follow the guidelines and rules already in effect at UTSA or UTHSCSA.
Composition of the Master’s Thesis Committee. The Master’s Thesis Committee is made up of at least four members. The committee should consist of the Supervising Professor, one BME Graduate Faculty member from UTSA, one BME Graduate Faculty member from UTHSCSA, and one external member. The student’s thesis proposal and the proposed composition of the Master’s Thesis Committee will be evaluated and approved by the COGS.

Final Oral Examination (Defense of Thesis). A satisfactory final oral examination is required for the approval of a thesis. Acceptance of the thesis will be contingent upon approval of the respective Master’s Thesis Committee. The thesis defense consists of a seminar presentation by the candidate to the general public. A closed door examination by the Master’s Thesis Committee follows and covers the general field of the thesis, and other parts of the student’s program as determined by the respective committee. Members of the Master’s Thesis Committee must be satisfied that the student has:

1. Completed the research approved by the Master’s Thesis Committee.
2. Passed all examinations required by COGS, including the successful defense of the thesis.
3. Completed the required coursework.
4. Completed a thesis that is an independent investigation in the biomedical engineering field and constitutes a contribution to the respective discipline.

Upon successful completion of the aforementioned requirements, the Master’s Thesis Committee members will sign the approval forms for the Master’s Thesis and make an official recommendation to the Graduate School of Biomedical Sciences at the UTHSCSA or to the Graduate School at UTSA that the Master’s degree be awarded.

Doctor of Philosophy Degree in Biomedical Engineering

A Doctor of Philosophy degree in Biomedical Engineering (BME) at The University of Texas at San Antonio (UTSA) is offered through a joint graduate program with The University of Texas Health Science Center at San Antonio (UTHSCSA). A matrix of academic tracks is offered based on segments of biomedical engineering and/or areas of clinical emphasis. Specifically, the program has emphases in the following areas: biomaterials, biomechanics, and bioimaging. The biological areas covered are orthopedics/dental tissues, cardiovascular systems, and neurological systems. The Ph.D. in Biomedical Engineering will be awarded to candidates who have displayed an in-depth understanding of the concepts that are necessary for critically judging the scientific literature, for formulating novel hypotheses, designing experimental protocols to test the hypotheses, interpreting their results and demonstrating their ability to make an original contribution to knowledge in the biomedical field.

The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 5, Doctoral Degree Regulations).

Admission Requirements. Students who hold an undergraduate or Master’s degree may apply to the program. The minimum requirements for admission to the Doctor of Philosophy in Biomedical Engineering degree program are described below. Note that admission is competitive and satisfying these requirements does not guarantee admission.

- Applicants must have a grade point average of 3.0 or better in the last 60 semester credit hours of coursework with a major in a recognized science or engineering discipline. All students should have had sufficient background in engineering, chemistry, biology, and physics prior to being admitted to the program. It is expected that these students will have B.S. degrees with emphasis in either engineering, physical science, or biological science disciplines. Students from nonengineering backgrounds are required to take selected fundamental engineering courses as a condition of acceptance.

- Applicants with a Master’s degree must have a grade point average of 3.0 or better in their Master’s degree program. Applicants with a Master’s degree in Biomedical Engineering or in a related field may apply a maximum of 30 semester credit hours of previously earned graduate credit toward their doctoral degree. The Doctoral Studies Committee will evaluate each student’s transcript and credit will be recommended for transfer on a course-by-course basis to satisfy the formal coursework requirements of the doctoral degree.
• A satisfactory score, as specified by the Admissions Committee for Biomedical Engineering, is required on the Graduate Record Examination (GRE). Students whose native language is not English must achieve a minimum score of 550 on the Test of English as a Foreign Language (TOEFL; paper version). The applicant’s performance on a standardized test will be considered in addition to other criteria, for admission or competitive scholarship awards and will not be used as the sole criterion for consideration of an applicant.

• Letters of recommendation, preferably three, attesting to the applicant’s readiness for doctoral study.

• A complete application includes the application form, official transcripts, letters of recommendation, GRE scores, a résumé, a statement of the applicant’s research experience, interests, and goals. TOEFL scores are required for those applicants whose native language is not English.

Degree Requirements and Program of Study. Typically, a doctoral program of study will consist of at least 81 semester credit hours beyond the bachelor’s degree. Undergraduate courses, general education courses, and prerequisites for graduate courses cannot be counted toward this total. For students with a Master’s degree, course credit allowed for transfer will be decided on a case-by-case basis by the Biomedical Engineering Committee on Graduate Studies (COGS). If recommended by the COGS, the request will then be submitted to the Dean of the Graduate School for approval. Since this is a joint graduate program, courses can also be taken at The University of Texas Health Science Center at San Antonio (UTHSCSA). To enroll in UTHSCSA courses, students must register through the UTHSCSA Web site (http://www.uthscsa.edu/). Any questions concerning registration at UTHSCSA should be directed to the BME Program Office at UTHSCSA. The required curriculum for all students is as follows:

A. Regardless of their area of specialization, all students are required to take a minimum of 25.5 semester credit hours of Required Core Courses. The core courses are:

Required Core Courses offered at UTSA:

BME  6001  Laboratory Rotations (Same as ORTO 6002 at UTHSCSA.)
BME  6033  BME Engineering Analysis
BME  6703  Biomedical Image Processing (Same as RADI 5015 at UTHSCSA.)
BME  6803  Biomechanics I
BME  6903  Biomaterials

Required Core Courses at UTHSCSA:

CSBL  5019  Gross Human Anatomy
or
PHYL  5013  Physiology

CSBL  5095  Experimental Design and Data Analysis
INTD  6002  Ethics in Research
ORTO  6002  Laboratory Rotation (Same as BME 6001.)
ORTO  6003  Introduction to Clinical Practices
ORTO  6004  Biology for Bioengineers
RADI  5015  Physics of Diagnostic Imaging I (Same as BME 6703.)

Upon approval of the Supervising Professor and the Program Director, students may substitute EGR 5093 (Special Topics in Engineering Analysis) for BME 6033 (BME Engineering Analysis).

B. Research seminar (BME 6011 or ORTO 6090 at UTHSCSA) is to be registered for during each Fall and Spring semester while in the BME Doctoral program.
C. A minimum of 9 semester credit hours of Prescribed Elective Courses selected from the list below. Courses from this list may be taken with the approval of the Program Director, Supervising Professor, and course instructor.

**UTSA Prescribed Elective Courses:**

D. A minimum of 9 semester credit hours of Free Electives may be selected from any graduate course offered at either UTSA or UTHSCSA with the approval of the Program Director, Supervising Professor, and course instructor. Students are encouraged to consider elective courses that not only prepare them with skills in engineering and science, but also with their overall career objectives. Several courses offered in the UTSA College of Business serve as an example:

MOT 5163  Management of Technology  
MOT 5243  Essentials of Project and Program Management  
MOT 5253  Starting the High-Tech Firm  
MOT 5313  Emerging Technologies  
MOT 5323  Biotechnology Industry  

E. A minimum of 15 semester credit hours of Doctoral Dissertation, Research and Supervised teaching is required.

The entire program of study must be recommended by the student’s Dissertation Advisor, Dissertation Committee, and doctoral studies committee and must be submitted to the Dean of the Graduate School for final approval. The courses taken by students are intended to focus and support the individual’s mastery of his or her particular area of specialization.

Advancement to Candidacy. All students seeking a doctoral degree must be admitted to candidacy after passing a doctoral qualifying examination. Students should consult the University Doctoral Degree Regulations in Chapter 5 of this catalog for the other pertinent requirements.

Satisfactory Performance on the Doctoral Qualifying Examination for Admission to Candidacy. The qualifying examination will be administered before the student commences the chosen dissertation research. This examination will be comprehensive in nature and may be written, oral, or both. Topics covered will include not only information provided in courses taken by the student but also basic knowledge necessary for research in the student’s chosen area of study. The Committee on Graduate Studies (COGS) will determine the format of the examination and the composition of the Qualifying Examination Committee (QEC), with the provision that BME faculty from both UTSA and UTHSCSA will be included. The QEC will administer the examination, evaluate the student’s performance, and report its judgment to the Committee on Graduate Studies. A student is allowed to take the QEC twice. Admission to candidacy will be contingent on passing the qualifying examination. Students who do not pass the qualifying examination may be accommodated with a terminal Master’s degree after completing additional prescribed courses and/or research approved by the Supervising Professor, Program Director and COGS.

Doctoral Dissertation. A dissertation, which is an original contribution to scholarship, based on independent investigation (doctoral research) in the major area, is required of every candidate. The doctoral research will be conducted by the student under the guidance of the Supervising Professor and the advice of the Dissertation Committee. Prior to starting the doctoral research, each student will submit a dissertation proposal to the COGS for approval. The doctoral dissertation will be the responsibility of the student and the Supervising Professor. Registration for dissertation credit hours must be for a period of more than one semester. During each semester that a student receives advice and/or assistance from a faculty member or supervision by the Dissertation Committee or uses UTSA or UTHSCSA resources, he or she will be required to enroll for credit in the appropriate dissertation course. The form and format of the dissertation should follow the guidelines and rules already in effect at UTSA or UTHSCSA.

Composition of the Dissertation Committee. The Dissertation Committee is made up of at least five members. The committee should consist of the Supervising Professor, one BME Graduate Faculty member from UTSA, one BME Graduate Faculty
member from UTHSCSA, one member of the graduate faculty outside of the BME Graduate Faculty from either UTSA or UTHSCSA, and one member from outside both institutions. The student’s dissertation proposal and the proposed composition of the Dissertation Committee will be evaluated and approved by the COGS.

**Final Oral Examination (Defense of Dissertation).** A satisfactory final oral examination is required for the approval of a dissertation. Acceptance of the dissertation will be contingent upon approval of the respective Dissertation Committee.

The dissertation defense will consist of a seminar presentation by the candidate to the general public. A closed door examination by the Dissertation Committee follows and covers the general field of the dissertation, and other parts of the student’s program as determined by the respective committee. Members of the Dissertation Committee must be satisfied that the student has:

1. Completed the research approved by the Dissertation Committee.
2. Passed all examinations required by COGS, including the successful defense of the dissertation.
3. Completed the required coursework.
4. Completed a dissertation that is an independent investigation in the biomedical engineering field and constitutes a contribution to the respective discipline.
5. Submitted an abstract for publication in Dissertation Abstracts International that meets with the approval of University requirements.

Upon successful completion of the aforementioned requirements, the Dissertation Committee members will sign the approval forms for the doctoral dissertation and make an official recommendation to the Graduate School of Biomedical Sciences at the UTHSCSA or to the Graduate School at UTSA that the Doctoral degree be awarded.

Students should note that the above is a summary of the requirements for the Doctoral degree and are advised to consult the University (UTSA) Doctoral Degree Regulations as well as the BME Student Handbook which contains details specific to the UTSA/UTHSCSA Joint Graduate Program in Biomedical Engineering.

**COURSE DESCRIPTIONS**

**BIOMEDICAL ENGINEERING (BME)**

6001  **Laboratory Rotations**
(0-3) 1 hour credit. Prerequisite: Graduate standing.
A minimum of five rotations of three weeks each through different laboratories in the program is required prior to the student identifying his or her supervising professor. Participation in ongoing research projects in each laboratory and a written report for each rotation is required. (Same as ORTO 6002 at UTHSCSA.)

6011  **Research Seminar**
(1-0) 1 hour credit. Prerequisites: Graduate student standing; consent of instructor and the Graduate Advisor of Record.
The seminar coordinator may require students to present their research. May be repeated for credit. The grade report for the course is either “CR” (satisfactory performance) or “NC” (unsatisfactory performance). (Formerly BME 5011 and BME 6991. Same as ORTO 6090 at UTHSCSA.)

6021-3  **Supervised Teaching**
1 to 3 hours credit. Prerequisites: Doctoral student standing; consent of the instructor and the Graduate Advisor of Record.
Supervised teaching of undergraduate or graduate students will be required for at least one semester. Students may be required to lecture at undergraduate courses or graduate courses in the field of their expertise. Students will work with the instructor of the course or with their research supervisor on the number of classes to be taught. (Same as ORTO 6071 at UTHSCSA.)
6033  **BME Engineering Analysis**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of the instructor.  
Advanced methods of applied mathematics, including linear algebra, vector differential calculus, integral theorems, differential equations, and calculus of variations. (Same as EGR 6013. Same as BME 6093 offered in Fall 2007. Credit can be earned for only one of the following: BME 6033, BME 6093 taken Fall 2007, or EGR 6013.)

6043  **Critical Thinking & Writing for BME**  
(3-0) 3 hours credit. Prerequisites: Doctoral students who are either taking their qualifying examinations or have been admitted to candidacy; consent of the instructor and of Graduate Advisor of Record.  
This course introduces students to grant applications, manuscript writing, and provides the opportunity to learn through writing and critiquing research proposals, manuscripts, abstracts, and scientific presentations.

6051-3  **Independent Study in Biomedical Engineering**  
1 to 3 hours credit. Prerequisites: Graduate standing; consent of the instructor and of Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of regular course offerings. May be repeated for credit on a different topic of study, but no more than 6 credit hours, regardless of discipline, will apply toward the degree.

6093  **Topics in Biomedical Engineering**  
(3-0) 3 hours credit. Prerequisites: Graduate standing; consent of instructor and of Graduate Advisor of Record.  
May be repeated for credit on a different topic of study.

6203  **Physiology for Engineers**  
(3-0) 3 hours credit. Prerequisite: Permission of the instructor or completion of ORTO 6004 (UTHSCSA).  
Designed to provide students with the essential graduate-level background for applications and practices of biomedical engineering. Integration of the nervous, skeletal, muscle, cardiovascular, and other systems from the sub-cellular to the whole-organism level will be emphasized.

6213  **Cellular Engineering**  
(3-0) 3 hours credit. Prerequisite: Permission of the instructor or completion of ORTO 6004.  
Review of cell biology; genetic engineering; protein structure; protein folding and stability; enzyme kinetics; receptor-ligand interactions; cell adhesion and signaling; and stem cell basics.

6223  **Transport and Reaction Processes in Biological Systems**  
(3-0) 3 hours credit. Prerequisite: Permission of the instructor or completion of ORTO 6004.  
Fundamentals of mass, momentum and energy transport, and reaction kinetics. Applications of these principles to the analysis of cell membrane transport, signal transduction, and cardiovascular, pulmonary and renal physiology. Design of artificial organs, and drug delivery systems.

6303  **Computational Oncology and Cancer Treatment Simulations**  
(3-0) 3 hours credit. Prerequisites: Graduate standing and permission of the instructor.  
Computational techniques for molecular, cellular, and tissue level simulation in cancer biology will be discussed. Oncoprotein modeling, cancer cell interactions and tumor growth modeling will be covered. Modeling and simulation issues of conventional chemotherapy and as well as imaged-guided treatment modalities will be addressed in terms of both diagnosis and prognosis. (Credit cannot be earned for BME 6303 and either BME 6893 or ME 6893 on the same topic.)

6513  **Mechanical Behavior of Living Tissues**  
(3-0) 3 hours credit. Prerequisite: Permission of instructor.  
Stress strain relationships, viscoelasticity, mechanical properties, and mechanical modeling of collagenous and mineralized human tissues will be addressed.
6703 Biomedical Image Processing
(3-0) 3 hours credit. Prerequisite: Graduate standing.
This course will examine digital image fundamentals, digital image enhancement in the spatial domain, digital image enhancement in the frequency domain, optimal image filtration in the frequency domain, image restoration and order-statistics filters, morphological image processing, processing of microarray images, segmentation and gene-expression calculation, processing of FISH stacked images, automated analysis of gene copy numbers by fluorescence in situ hybridization, fundamental methods of image reconstruction by projections and their applications in computerized tomography. (Same as EE 5163, EE 5353 Topic 3, and RADI 5015 at UTHSCSA. Credit can be earned for only one of the following: BME 6703, EE 5163, EE 5353 Topic 3, or RADI 5015.)

6713 Biomedical Signal Processing
(3-0) 3 hours credit. Prerequisite: Permission of the instructor.
Theory and classification of biological signals such as EEG, EKG, EMG, etc. Data acquisition and analysis procedures for biological signals, including computer applications.

6723 Bioinstrumentations
(3-0) 3 hours credit. Prerequisite: Permission of the instructor.
This course will cover fundamental principles of bioinstrumentation used in clinical and research measurements. Topics include: principles of transducer operation, amplifiers and signal processing, recording and display. Overview of specific examples in optical sensors, biological sensors, MRI, ultrasound, pacemakers and defibrillators.

6733 Fundamentals of Microfabrication and Application
(3-0) 3 hours credit. Prerequisite: Permission of the instructor.
This course describes the science of miniaturization which is essential for nanotechnology development. Microfabrication techniques for micro-electro-mechanical systems (MEMS), bioMEMS, microfluidics, and nanomaterials and their applications in biomedical research will be covered.

6793 Topics in Image and Signal Processing
(3-0) 3 hours credit. Prerequisite: Permission of the instructor.
May be repeated for credit on a different topic of study.

6803 Biomechanics I
(2-3) 3 hours credit. Prerequisites: BME 6033 and graduate standing.
Fundamental applications of engineering mechanics in studying and modeling fluid flow, tissues, organs, and the whole human body will be discussed. This course includes a laboratory. (Formerly BME 6833. Same as ME 6833. Credit can be earned for only one of the following: BME 6803, BME 6833, ME 5833, or ME 6833.)

6823 Biomechanics II
(3-0) 3 hours credit. Prerequisite: Graduate standing.
This course covers biomechanics of biological tissue deformation and their constitutive equations. Topics may include elasticity, viscoelasticity, deformation, stress analysis, strain measurement, stress and strain in organs. Tissues covered may include heart, blood vessels, cartilage, and bone.

6893 Topics in Biomechanics
(3-0) 3 hours credit. Prerequisite: Permission of the instructor.
May be repeated for credit on a different topic of study. (Same as ME 6893. Credit cannot be earned for both BME 6893 and ME 6893 when the topic is the same.)

6903 Biomaterials
(3-0) 3 hours credit. Prerequisite: Permission of the instructor.
Fundamentals of biomaterials science and engineering principles and concepts in repairing, replacing, and protecting human tissues and organs will be discussed. (Formerly BME 5903 and BME 6813. Same as ME 6813. Credit can be earned for only one of the following: BME 5903, BME 6903, BME 6813, ME 5813 or ME 6813.)
6913  **Biomaterials II**  
(3-0) 3 hours credit. Prerequisites: BME 5903 or BME 6903, and permission of the instructor. Application of biomaterials in medicine and dentistry will be emphasized.

6923  **Tissue Engineering**  
(3-0) 3 hours credit. Prerequisite: Graduate standing. This course is an introduction to the principles and current practice of tissue engineering endeavors. Strategies for choosing and using mammalian cells and scaffold biomaterials as well as select chemical and biophysical stimuli in order to obtain neotissue formation are reviewed in detail. Case studies are discussed to illustrate successful tissue engineering solutions of clinical problems pertinent to tissue regeneration. (Formerly BME 5923 and BME 6853. Credit can be earned for only one of the following: BME 5923, BME 6853, or BME 6923.)

6933  **Tissue-Biomaterials Interactions**  
(3-0) 3 hours credit. Prerequisite: Graduate standing. This course is an introduction to biocompatibility with special emphasis on the interaction of proteins, cells and tissues with biomaterials. Blood-material interactions are reviewed in detail. Case studies of implants are discussed to illustrate biomaterial selection as a key aspect to successful design of implant materials and prosthetic devices.

6943  **Biomaterials & Cell Signaling**  
(3-0) 3 hours credit. Prerequisite: Graduate standing. Develop current understanding of topics in cell receptors and signaling mechanisms with application for biomaterial design. Focus will emphasize receptor-ligand communication, methods of identification and quantification, and pathways involved for cell to material stress response.

6953  **Biomaterials for Drug-Delivery/Pharmacology**  
(3-0) 3 hours credit. Prerequisite: Graduate standing. Provides conceptual understanding of therapeutic agents used to regulate physiological function of cells comprising organ systems with relevance to biomaterials. Interpretation of drug mechanisms at a molecular, cellular and tissue level. Traditional reviews of pharmacodynamics and pharmacokinetics will be addressed with particular application to biomaterial interaction and drug-delivery systems.

6982,3,6  **Master’s Thesis Research**  
2, 3, or 6 hours credit. Prerequisites: Master’s student standing; consent of instructor and of Graduate Advisor of Record. May be repeated for a maximum of 9 credit hours. (Formerly BME 5953,6.)

6993  **Topics in Biomaterials**  
(3-0) 3 hours credit. Prerequisite: Permission of the instructor. May be repeated for credit on a different topic of study.

7952,3,6  **Doctoral Research**  
2, 3, or 6 hours credit. Prerequisites: Doctoral student standing; consent of instructor and of Graduate Advisor of Record. May be repeated for a maximum of 18 credit hours. (Same as ORTO 6097 at UTHSCSA.)

7992,3,6  **Doctoral Dissertation**  
2, 3, or 6 hours credit. Prerequisites: Admission to Doctoral candidacy; consent of the Graduate Advisor of Record and Dissertation Advisor. May be repeated for a maximum of 18 credit hours. (Same at ORTO 7099 at UTHSCSA.)
DEPARTMENT OF CIVIL AND ENVIRONMENTAL ENGINEERING

Master of Science Degree in Civil Engineering

The Master of Science degree in Civil Engineering is designed to provide specialized knowledge in selected technical areas of Civil and Environmental Engineering (CEE). These areas include environmental engineering, geo-environmental engineering, geotechnical engineering, structural engineering, transportation engineering, and water resources engineering.

The objective of this program is to expand the technical expertise of post-baccalaureate civil engineering graduates and allow them to further develop professionally. Both a thesis and a nonthesis option are available. The thesis option is tailored to provide exposure to research and could possibly lead toward doctoral study. The nonthesis option is tailored to provide course-intensive, practical, and professional training at an advanced level.

Admission Requirements. For unconditional admission, applicants must satisfy the following requirements, in addition to the University-wide graduate admission requirements (refer to Chapter 1, Admission):

- an undergraduate degree in Civil Engineering or a closely related field from an accredited institution of higher education, or proof of equivalent training at a foreign institution;
- a satisfactory score, as specified by the Civil Engineering Graduate Program Committee, on the Graduate Record Examination (GRE);
- Test of English as a Foreign Language (TOEFL) minimum scores of 79 or 550 for Internet or paper versions, respectively;
- a statement of research/specialization interest; and
- a favorable recommendation by the Civil Engineering Graduate Program Committee.

Degree Requirements. The minimum number of semester credit hours required for the degree is 34 for the nonthesis option and 30 for the thesis option. At least 24 semester credit hours must be taken at UTSA. Elective courses may be chosen from the Department of Civil and Environmental Engineering or outside the department, with approval from the CEE Graduate Program Committee. In addition, 6 hours of undergraduate courses may be taken toward the course requirements if not previously taken and counted toward the student’s undergraduate degree and approved by the CEE Graduate Program Committee. Any grade lower than “B” in a graduate course or in remedial coursework at the undergraduate level will not count toward the coursework requirement. Each candidate is required to pass either a thesis defense and/or a comprehensive examination administered by his or her advisory committee.

Advisory Committee. Students must choose an Advisory Committee consisting of a chair and at least two additional graduate faculty members. Students must submit the names of their Advisory Committee to the CEE Graduate Program Committee by the end of their first semester of study.

Doctor of Philosophy Degree in Environmental Science and Engineering

The CEE Department offers the opportunity for advanced study and research leading to the Doctor of Philosophy degree in Environmental Science and Engineering. This is a multidisciplinary program administered by the CEE Department. It encompasses faculty and facilities from the College of Sciences and the CEE Department, as well as individual faculty from other UTSA departments. Areas of research emphasis include water resources, environmental quality, environmental remediation, pollution control, conservation ecology, spatial analysis, remote sensing, and natural hazards. The Ph.D. degree in Environmental Science and Engineering is awarded to candidates who display an in-depth understanding of the subject matter and demonstrate the ability to make an original contribution to knowledge in their field of specialty.

The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 5, Doctoral Degree Regulations).

Admission Requirements. Applicants must satisfy the following requirements, in addition to satisfying the University-wide graduate admission requirements (refer to Chapter 1, Admission):

- a Bachelor of Arts or a Bachelor of Science degree and a Master of Science degree from an accredited university, and a minimum grade point average of 3.0 in upper-division and graduate courses. The degree should be in biology, ecology, environmental science, chemistry, geology, geography, engineering, or other related scientific discipline. Exceptional applicants without a Master of Science may be considered for admission to the program on a case-by-case basis;
- three letters of recommendation from persons familiar with the applicant’s academic potential;
- official Graduate Record Examination (GRE) scores;
- a letter of research/specialization interest; and
- a résumé/curriculum vitae.

Applications must be submitted to the UTSA Graduate School online at http://www.utsa.edu/graduate/. Incomplete applications will not be considered. Acceptance to the program is decided by the Doctoral Studies Committee (DSC), comprised of graduate faculty members selected from the CEE Department and the College of Sciences. Full-time students accepted for the program are eligible to apply for financial support in the form of competitive teaching assistantships, research assistantships, or research fellowships.

Degree Requirements. The Doctoral program in Environmental Science and Engineering requires that students complete a minimum of 60 semester credit hours beyond the Master’s degree. This coursework includes courses that have been designed to provide advanced instruction in areas considered to form the foundation for the disciplines of environmental science and engineering. Enrollment in the Graduate Seminar is required for a minimum of 3 semester credit hours. A minimum of 15 semester credit hours of Doctoral Research and 15 semester credit hours minimum of Doctoral Dissertation must be completed prior to graduation. Any grade lower than “B” in graduate or remedial coursework at the undergraduate level does not count
toward the 60 semester credit hours. Students can apply, with approval from the chair of their Dissertation Committee, up to 12 semester credit hours of graduate coursework to elective courses (see below), if not applied toward their M.S. degree. Students with only a baccalaureate degree are required to have a minimum of 75 semester credit hours to graduate with approval of the DSC.

18 semester credit hours of required electives are selected by the student with the approval of their dissertation committee. These elective courses may be offered by departments in the College of Sciences or the College of Engineering or by other departments at UTSA.

**Dissertation Committee.** Students must choose a Dissertation Committee consisting of a chair and at least four additional graduate faculty members. The committee must include a minimum of one faculty member from the CEE Department and one from the College of Sciences. Students must submit the names of their Dissertation Committee to the DSC Chair by the end of their second semester of study.

**Advancement to Candidacy.** Students must complete the core curriculum before taking the written qualifying examination. Full-time students must do so by the end of their second semester of study. Part-time students need to take the qualifying examination at a time dictated by the DSC. The written qualifying examination may include questions from five basic areas of environmental science and engineering, including geology, hydrology, biology, chemistry, and environmental engineering. This
examination is administered by the DSC with input from the student’s Dissertation Committee. Qualifying examinations test the student’s undergraduate background, their degree of understanding of the material presented in graduate courses, as well as their critical thinking. No more than two attempts to pass the written examination are permitted.

Upon successful completion of the written qualifying examination and within the following two semesters, a student must notify the DSC in writing of their intention of taking the oral qualifying examination. The oral qualifying examination is a research proposal defense. The research proposal defense consists of the student’s dissertation topic, the experimental approach, the research novelty, and the potential contribution to their scientific field. The student’s Dissertation Committee chair must approve the student’s research proposal before scheduling the oral examination. No more than two attempts to pass the oral examination are permitted.

Results of the written and oral examinations must be reported to the DSC and the Dean of the Graduate School. Admission into the Doctoral program does not guarantee advancement to candidacy. After advancement to candidacy, the student’s Dissertation Committee can be changed at the student’s request and with the approval of the Dissertation Committee chair and the chair of the DSC.

Dissertation. Candidates must demonstrate their ability to conduct independent research by completing and defending an original dissertation. The Dissertation Committee guides and critiques the candidate’s research. The format of the dissertation document will follow the guidelines and rules published by the Graduate School and general University regulations in Chapter 5, Doctoral Degree Regulations.

Final Oral Dissertation Defense. The student must notify the Graduate School in writing two weeks prior to the final scheduled oral defense. The final oral defense consists of public presentation of the dissertation, followed by a closed oral defense. Results of the oral defense must be reported to the Dean of the Graduate School. Awarding of the degree is based on the approval of the Dissertation Committee and the Dean of the Graduate School. The Dean of the Graduate School certifies the completion of all University-wide requirements.

COURSE DESCRIPTIONS

CIVIL ENGINEERING

(CE)

5013 Civil Engineering Systems Analysis
(3-0) 3 hours credit.
Systems approach to optimization and problem solving; operations research applications in civil engineering; mathematical modeling and analysis techniques including linear programming, dynamic programming, decision analysis and use of software to solve linear and nonlinear programming problems.

5023 Finite Element Methods
(3-0) 3 hours credit.
Derivation and computer implementation of the finite element method for the solution of civil engineering boundary value problems. (Same as ME 5483. Credit cannot be earned for both CE 5023 and ME 5483.)

5043 Advanced Civil Engineering Statistics
(3-0) 3 hours credit.
Statistical analysis methods include descriptive statistics, interval estimation and hypothesis testing, analysis of variance, design of experiments, regression analysis, and time series analysis. Additional topics covered include probabilistic methods, decision analysis and reliability analysis applied to civil engineering systems.

5103 Advanced Steel Design
(3-0) 3 hours credit.
Connection design, welded and bolted, moment-resistant connections, plate girders, column stability, bracing design, and seismic design of frames. (Formerly CE 5343 Topic 4: Advanced Steel Design. Credit cannot be earned for both CE 5103 and CE 5343 Advanced Steel Design.)
5123  Bridge Engineering  
(3-0) 3 hours credit.  
Design loads, load distribution, design of superstructures and substructures, and evaluation and load rating capacity of bridges. (Formerly CE 5343 Topic 8: Bridge Engineering. Credit cannot be earned for both CE 5123 and CE 5343 Bridge Engineering.)

5133  Advanced Reinforced Concrete  
(3-0) 3 hours credit.  
Curved beams, torsion design, retaining walls and shear walls, stairs, two-way slabs, yield-line theory, biaxial load on columns, slenderness effects, joint design, strut-and-tie methods, and concrete elasticity and failure criteria. (Formerly CE 5343 Topic 2: Advanced Reinforced Concrete Structures. Credit cannot be earned for both CE 5133 and CE 5343 Advanced Reinforced Concrete Structures.)

5143  Numerical Methods in Civil Engineering  
(3-0) 3 hours credit.  
Mathematical equation root finding and optimization methods, matrix equations, solution methods, eigenvector and eigenvalue solution methods, finite difference methods, curve-fitting methods, numerical integration and differentiation techniques, and introduction to finite element formulations.

5153  Prestressed Concrete  
(3-0) 3 hours credit.  
Overview of pre-stressed concrete development; design properties of materials; analysis and design of pre-tensioned and post-tensioned concrete members; full and partial prestressing; serviceability and strength requirements, code criteria for prestressed continuous beams, statically indeterminate frames and other structures. (Formerly CE 5343 Topic 3: Prestressed Concrete. Credit cannot be earned for both CE 5153 and CE 5343 Prestressed Concrete.)

5213  Industrial Waste Treatment  
(3-0) 3 hours credit.  
Survey of industrial wastewater characteristics, design methodology for biological, chemical and physical treatment processes, selection of appropriate processes, and economic optimization.

5293  Geographic Information Systems (GIS)  
(3-0) 3 hours credit.  
Introduces vector, raster and tabular concepts, emphasizing the vector approach. Topics include spatial relationships, map features, attributes, relational database, layers of data, data ingesting, digitizing from maps, projections, output, applications, and availability of public data sets. Focus will be placed on spatial/temporal data analyses using digitized maps and database information in an area of CE specialization.

5303  Hydrometeorology  
(3-0) 3 hours credit.  
The main objective of this course is to familiarize the student with the local and global distribution of freshwater. Conceptualizations of the water balance/budget are developed using principle of physical hydrology and meteorology. Emphasis will be on recent research and modern methods for data analysis and modeling. Real life events and phenomena will be discussed. In addition to the text, material will be presented from other sources. Guest instructors will give presentations on some case studies.

5403  Advanced Characterization of Highway Materials  
(3-0) 3 hours credit.  
Basic and advanced level of the fundamentals of material response to static and repeated loading; emphasis on the deformation and fatigue behavior of asphalt mixtures, constitutive modeling for mixtures, microstructure characterization for mixtures, nondestructive testing of pavements, asphalt binder characterization, unbound materials (base and sub-base materials) evaluation and characterization.
5423 Advanced Pavement Analysis and Design
(3-0) 3 hours credit.
Asphalt concrete and portland concrete pavement analysis and design. Layered elastic, nonlinear, and viscoelastic analysis. Slabs under environmental and traffic stresses. Software for layer analysis and slab analysis. AASHTO 1993 design method. Asphalt Institute and Portland Cement Association method. NCHRP 1-37A developed mechanistic-empirical design method. (Formerly CE 5513 Topic 5: Pavement Design. Credit cannot be earned for both CE 5423 and CE 5513 Pavement Design.)

5433 Advanced Geometric Design
(3-0) 3 hours credit.
Course deals with the geometric design of highways and streets. Topics include highway functions, design controls and criteria, elements of design, local roads and streets, freeways, and intersections. (Formerly CE 5513 Topic 6: Advanced Geometric Design. Credit cannot be earned for both CE 5433 and CE 5513 Advanced Geometric Design.)

5443 Pavement Management
(3-0) 3 hours credit.
Pavement evaluation and performance, evaluation of pavement distress condition surveys, evaluation of pavement roughness ride quality, skid resistance of pavements, evaluation of pavement structural capacity, maintenance and rehabilitation, prioritization and optimization of pavement maintenance, and rehabilitation needs. (Formerly CE 5513 Topic 4: Pavement Management Systems. Credit cannot be earned for both CE 5443 and CE 5513 Pavement Management Systems.)

5453 Transportation Engineering
(3-0) 3 hours credit.
Study of the Highway Capacity Manual, traffic stream parameters and relationships, analytical techniques in traffic engineering such as capacity analysis, queuing theory, and traffic simulation. Design and operation of advanced traffic management systems including signalization, real-time motorist information, urban incident management, and ITS concepts. (Formerly CE 5513 Topic 8: Principles of Traffic Engineering. Credit cannot be earned for both CE 5453 and CE 5513 Principles of Traffic Engineering.)

5463 Foundation Engineering
(3-0) 3 hours credit.
Shallow and deep foundations, including, footings, slabs on-grade, cofferdams, sheet-pile walls, drilled shafts, piles and retaining walls. (Formerly CE 5353 Topic 2: Advanced Foundation Engineering. Credit cannot be earned for both CE 5463 and CE 5513 Advanced Foundation Engineering.)

5503 Advanced Open Channel Hydraulics
(3-0) 3 hours credit.
Use of state-of-the-art computer models to evaluate gradually varied and unsteady flows. The concepts of dimensional analysis and similitude will also be addressed. (Formerly CE 5313 Topic 4: Advanced Hydraulic Engineering. Credit cannot be earned for both CE 5503 and CE 5313 Advanced Hydraulic Engineering.)

5613 Environmental Chemistry
(3-0) 3 hours credit.
This course explores the chemistry of the environment, the chemistry underlying environmental problems and solutions to environmental problems. Emphasis is placed on thermodynamics and kinetics of reaction cycles; sources, sinks and transport of chemical species; and quantitation of chemical species. Examples are selected from the chemistry of natural and contaminated air, water, and soil.

5623 Advanced Treatment Processes for Water Quality Control
(3-0) 3 hours credit.
Principles, modeling and design aspects of physical chemical treatment processes in drinking water, wastewater and groundwater remediation applications. (Formerly CE 5233 Topic 1: Physical and Chemical Treatment Operations. Credit cannot be earned for both CE 5623 and CE 5233 Physical and Chemical Treatment Operations.)
5633  **Environmental Laboratory**  
(2-3) 3 hours credit.  
Laboratory investigations are often utilized for characterizing water and waste quality and for evaluating the efficacy of treatment processes. This course is designed to familiarize students with common environmental engineering laboratory methods and appropriate analysis and presentation of laboratory data. (Formerly CE 5243 Topic 1: Methods of Environmental Monitoring and Measurement. Credit cannot be earned for both CE 5633 and CE 5243 Methods of Environmental Monitoring and Measurement.)

5703  **Special Topics in Hydraulics and Hydrology**  
(3-0) 3 hours credit.  
Course deals with special aspects of hydraulics and hydrology. May be repeated for credit as topics vary.

5713  **Special Topics in Structures**  
(3-0) 3 hours credit.  
Course deals with special aspects of structural engineering. May be repeated for credit as topics vary.

5723  **Special Topics in Transportation**  
(3-0) 3 hours credit.  
Course deals with special aspects of transportation engineering. May be repeated for credit as topics vary.

5733  **Special Topics in Environmental Engineering**  
(3-0) 3 hours credit.  
Course deals with special aspects of environmental engineering. May be repeated for credit as topics vary.

5743  **Special Topics in Geotechnical Engineering**  
(3-0) 3 hours credit.  
Course deals with special aspects of geotechnical engineering. May be repeated for credit as topics vary.

5973  **Special Project**  
3 hours credit.  
Work carried out by nonthesis Master’s students under the direction of their Advisory Committee to fulfill the project requirement of their degree. It may involve applied or theoretical work and a report documenting the findings.

5983  **Master’s Thesis**  
3 hours credit. Prerequisite: Approval of the student’s Advisory Committee.  
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress. (Formerly CE 6983.)

5991  **Graduate Seminar**  
(1-0) 1 hour credit.  
Graduate seminar may be repeated for credit up to 3 semester credit hours.

6013  **Hydrologic Modeling and Analysis**  
(3-0) 3 hours credit.  
This course will address hydrological modeling (both theory and practical applications with focus on the latter) and related issues. Multimedia and advanced visualization will be used in lectures and class work. Most of the course is dedicated to hands-on, problem-oriented applications using a variety of practical techniques. It will provide students with the knowledge and tools necessary to use data derived from geographical information systems (GIS) to develop hydrologic estimates needed for different applications.
6043  Risk and Decision Analysis in Civil Engineering  
(3-0) 3 hours credit.  
Perspective of risk assessments, risk estimation, event tree analysis, fault tree analysis, risk classifications, risk acceptability, probabilistic modeling, anatomy of risks with revealed preference method, decisions under uncertainties, utility theory, multi-attribute utility functions, and case studies. (Formerly CE 5813.)

6103  Fate and Transport of Contaminants in the Environment  
(3-0) 3 hours credit.  
The course deals with the hydrodynamics of mixing and transport, as well as the interaction of mixing and various reaction rate processes. Applications in the course will include water and wastewater treatment, groundwater pollution, and transport and mixing in rivers, lakes and reservoirs. (Formerly CE 6053 Topic 1: Fate and Transport of Contaminants in Environmental System. Credit cannot be earned for both CE 6103 and CE 6053 Fate and Transport of Contaminants in Environmental System.)

6113  Global Change  
(3-0) 3 hours credit.  
Changes in the global distribution of plants and animals and the causes of the changes will be examined. Factors that are apparently coupled to changes in the atmosphere and environmental temperature will be examined. (Same as ES 5043 and GEO 5043. Credit can be earned for only one of the following: CE 6133, ES 5043, or GEO 5043.)

6123  Environmental Clean Up and Remediation  
(3-0) 3 hours credit.  
Study of current remediation technologies for soil, water, and air. Includes selection criteria, costs, operating strategies, and engineering design. (Formerly CE 6053 Topic 2: Remediation Geotechnics. Credit cannot be earned for both CE 6123 and CE 6053 Remediation Geotechnics.)

6133  Landfill Engineering and Design  
(3-0) 3 hours credit.  
Containment systems, site selection, clay mineralogy, clay liners, geosynthetic liners, chemical compatibility of liners, leachate collection system design, landfill cover and caps design. (Formerly CE 6053 Topic 3: Waste Geotechnics. Credit cannot be earned for both CE 6133 and CE 6053 Waste Geotechnics.)

6153  Advanced Mechanics and Modeling of Structural Materials  
(3-0) 3 hours credit.  
Constitutive models and strength theories for steel, concrete, reinforced concrete, soil and newly developed materials such as composite laminates. Theoretical basis of beam, plate (slab), shell, frame analysis of structural components. Stability analysis of structural components; buckling of beams, plates, shells and frames. Correlated design requirements based on strength and stability analysis of structural components implemented in the ASCE code. Modeling of complicated, nonlinear behavior of structures under static and dynamic loadings, such as seismic, wind loading using finite element methods.

6221  Graduate Seminar in Environmental Science and Engineering  
(1-0) 1 hour credit.  
Will include presentations of current research by faculty and invited guests who are experts in various aspects of research in the environmental sciences and engineering, and advanced graduate students who are about to complete their dissertation research. May be repeated for credit.

6273  Analyses of Environmental Problems  
(3-0) 3 hours credit.  
Problems will be presented and potential solutions will be explored from a variety of areas including soil, air, water, coastal and marine systems. Also examined will be potential impact on biotic and abiotic resources in terrestrial, aquatic, and marine systems. (Same as ES 6273. Credit cannot be earned for both CE 6273 and ES 6273.)
6523  Advanced Surface Water Hydrology
(3-0) 3 hours credit.
Use of state-of-the-art computer models to study the rainfall-runoff process. Extreme events are the focus of the
course (droughts and floods). Approaches to developing design precipitation events will also be presented. (Formerly
CE 5313 Topic 3: Advanced Surface Water Hydrology. Credit cannot be earned for both CE 6523 and CE 5313
Advanced Surface Water Hydrology.)

6951-3  Independent Study
1 to 3 hours credit. Prerequisites: Written permission of the instructor and the student’s Advisory Committee.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing
specialized work not normally available as part of the regular course offerings. May be repeated for credit, but not
more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6961  Comprehensive Examination
1 hour credit. Prerequisite: Approval of the student’s Advisory Committee.
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated for credit as
many times as approved by the Civil Engineering Graduate Program Committee. Enrollment is required each term
in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for
the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory
performance on the Comprehensive Examination).

7211-3  Doctoral Research
1 to 3 hours credit. Prerequisites: Admission to Doctoral candidacy, consent of the student’s Dissertation Committee
and consent of the DSC.
Research work carried out by the student under the supervision of their Dissertation Committee. May be repeated as
necessary, but no more than 15 hours may be applied to the Doctoral degree.

7311-3  Doctoral Dissertation
1 to 3 hours credit. Prerequisites: Successful defense of the oral defense, consent of the student’s Dissertation
Committee and consent of the DSC.
Dissertation work carried out by the student under the supervision of their Dissertation Committee. May be repeated
as necessary, but not more than 15 hours may be applied to the Doctoral degree.
DEPARTMENT OF ELECTRICAL AND COMPUTER ENGINEERING

Master of Science Degree in Electrical Engineering

The Master of Science degree in Electrical Engineering is designed to offer students the opportunity to prepare for leadership roles in careers with industry, government, or educational institutions. The program has emphases in five concentrations: Computer Engineering, Systems and Control, Digital Signal Processing, Communications, and Electronic Materials and Micro Devices. A thesis option is offered for students who want the opportunity to obtain some expertise in research. A nonthesis option is available for students who want a practical industrial applications-oriented degree.

Program Admission Requirements. In addition to the University-wide graduate admission requirements, admission decisions will be based on a combination of the following:

- a satisfactory score, as specified by the Electrical Engineering Graduate Studies Committee, on the Graduate Record Examination (GRE)
- a bachelor’s degree in electrical engineering from an ABET-accredited institution of higher education or related field
- a minimum grade point average of 3.0 in the last 60 semester credit hours.

A student who does not qualify for unconditional admission may be admitted on a conditional basis as determined by the Electrical Engineering Graduate Studies Committee. Applicants with an electrical engineering background who wish to continue their education but do not intend to pursue the Master of Science degree in Electrical Engineering are encouraged to seek admission as special graduate students.

Degree Requirements. The degree requirements for different options are as follows:

A. The following five concentration core courses form the basis for the program:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EE 5123</td>
<td>Computer Architecture (Computer Engineering)</td>
</tr>
<tr>
<td>EE 5143</td>
<td>Linear Systems and Control (Systems and Control)</td>
</tr>
<tr>
<td>EE 5163</td>
<td>Digital Signal Processing (Digital Signal Processing)</td>
</tr>
<tr>
<td>EE 5183</td>
<td>Foundations of Communication Theory (Communications)</td>
</tr>
<tr>
<td>EE 5503</td>
<td>Introduction to Micro and Nanotechnology (Electronic Materials and Micro Devices)</td>
</tr>
</tbody>
</table>

B. The requirements for each option, with minimum semester-credit-hour requirements and their distribution, are as follows:

1. Thesis Option: The degree requires 30 semester credit hours including 24 technical course credits and 6 thesis credits identified as EE 6983 (Master’s Thesis). At least 6 credits must be taken from courses in the student’s concentration area. At least 3 credits of core courses must be taken outside the concentration area to satisfy the breadth requirement. No more than 3 credits of independent study should be included. Up to 6 credits may be taken from other graduate courses including courses from outside electrical engineering with approval of the Electrical Engineering Graduate Program Committee. A current list of ECE Graduate Courses by Area is available in the department office. The distribution of required courses is given below.

<table>
<thead>
<tr>
<th>Thesis Option</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>At least two courses from student’s selected concentration</td>
<td>6</td>
</tr>
<tr>
<td>At least one core course from outside the concentration</td>
<td>3</td>
</tr>
<tr>
<td>Additional graduate electrical engineering courses</td>
<td>9</td>
</tr>
<tr>
<td>Other Electives (may be courses from outside electrical engineering)*</td>
<td>6</td>
</tr>
<tr>
<td>EE 6983 Master’s Thesis</td>
<td>6</td>
</tr>
</tbody>
</table>

Minimum total semester credit hours required

30

*Chosen with approval of the Electrical Engineering Graduate Program Committee.
2. **Nonthesis Option:** The degree requires 33 semester credit hours of technical course credits. At least 9 credits must be taken from one area to establish the student’s concentration. At least 6 credits of core courses must be taken outside the concentration area to satisfy the breadth requirement. No more than 6 credits of independent study should be included. Up to 6 credits may be taken from other graduate courses including courses from outside electrical engineering with approval of the Electrical Engineering Graduate Program Committee. A current list of ECE Graduate Courses by Area is available in the department office. The distribution of required courses is given below.

<table>
<thead>
<tr>
<th>Nonthesis Option</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>At least three courses from student’s selected concentration</td>
<td>9</td>
</tr>
<tr>
<td>At least two core courses from outside the concentration</td>
<td>6</td>
</tr>
<tr>
<td>Additional graduate electrical engineering courses</td>
<td>9</td>
</tr>
<tr>
<td>Other electives (may be courses from outside electrical engineering)*</td>
<td>6</td>
</tr>
<tr>
<td>EE 6963 Graduate Project</td>
<td>3</td>
</tr>
</tbody>
</table>

Minimum total semester credit hours required 33

*Chosen with approval of the Electrical Engineering Graduate Program Committee.

The Electrical Engineering (EE) courses are divided into five concentrations as follows:

<table>
<thead>
<tr>
<th>Concentration</th>
<th>Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Computer Engineering</td>
<td>EE 5103, EE 5113, EE 5123, EE 5193, EE 5223, EE 5323, EE 5423, EE 5453, EE 5463, EE 6323, EE 7423</td>
</tr>
<tr>
<td>Systems and Control</td>
<td>EE 5143, EE 5243, EE 5343, EE 5443, EE 5463, EE 6343, EE 7443</td>
</tr>
<tr>
<td>Digital Signal Processing</td>
<td>EE 5153, EE 5163, EE 5203, EE 5263, EE 5353, EE 6363, EE 7463</td>
</tr>
<tr>
<td>Communications</td>
<td>EE 5153, EE 5183, EE 5283, EE 5373, EE 5473, EE 5583, EE 6383, EE 7483</td>
</tr>
<tr>
<td>Electronic Materials and Micro Devices</td>
<td>EE 5403, EE 5413, EE 5503, EE 5593, EE 5693, EE 6493</td>
</tr>
</tbody>
</table>

Degree plans must be consistent with the guidelines established by the Electrical Engineering Graduate Program Committee. In addition to other University-wide requirements for the Master’s degree, candidates are required to pass a project and/or a thesis defense administered by the student’s advisory committee, chaired by a tenured or tenure-track graduate faculty member.

**Master of Science Degree in Computer Engineering**

The Master of Science degree in Computer Engineering is designed to offer students the opportunity to prepare for leadership roles in careers with industry, government, or educational institutions. Students enrolled in the M.S. degree program in Computer Engineering will have two different options to obtain their degree: (1) Thesis Option and (2) Nonthesis Option. A thesis option is offered for students who want the opportunity to obtain expertise in research and who may be interested in pursuing the doctoral degree in computer engineering or electrical engineering. A nonthesis option is offered for students who want a practical industrial applications-oriented degree.

**Program Admission Requirements.** In addition to the University-wide graduate admission requirements, admission decisions will be based on a combination of the following:

- a satisfactory score, as specified by the Computer Engineering Graduate Studies Committee, on the Graduate Record Examination (GRE)
- a bachelor’s degree in electrical or computer engineering from an ABET-accredited institution of higher education or related field
- a minimum grade point average of 3.0 in the last 60 semester credit hours of undergraduate studies.

A student who does not qualify for unconditional admission may be admitted on a conditional basis as determined by the Computer Engineering Graduate Studies Committee. Applicants with an electrical or computer engineering background who
wish to continue their education but do not intend to pursue the Master of Science degree in Computer Engineering are encouraged to seek admission as special graduate students.

**Degree Requirements.** The minimum number of semester credit hours required for the degree, excluding required coursework to remove admission deficiencies, is 30 for the thesis option and 33 for the nonthesis option.

A. The courses are divided into three groups as follows:

**Group A.** The following four core courses of this group form the basis for the program:

- EE 5103 Engineering Programming
- EE 5113 VLSI System Design
- EE 5123 Computer Architecture
- EE 5193 FPGA and HDL

**Group B.** Additional computer engineering courses:

- CS 5103 Software Engineering
- EE 5223 Topics in Digital Design (may be repeated when topic varies)
- EE 5323 Topics in VLSI Design (may be repeated when topic varies)
- EE 5423 Topics in Computer Architecture (may be repeated when topic varies)
- EE 5453 Topics in Software Engineering (may be repeated when topic varies)

**Group C.** Free elective courses:

- CS 5113 Computer Graphics
- CS 5233 Artificial Intelligence
- CS 5253 Expert Systems
- CS 5363 Programming Languages and Compilers
- CS 5523 Operating Systems
- CS 6103 Distributed Software Development
- EE 5163 Digital Signal Processing
- EE 5263 Topics in Digital Signal Processing and Digital Filtering
- EE 5333 Topics in Multimedia Signal Processing: Computer Vision and Application
- EE 5335 Topics in Multimedia Signal Processing: Digital Image Processing
- EE 5463 Artificial Neural Networks
- EE 5583 Topics in Digital Communication: Digital Information Theory
- EE 5583 Topics in Digital Communication: Computer Communication Networks
- EE 6951-3 Independent Study
- EE 6971-3 Special Problems

B. The requirements for each option, with minimum semester-credit-hour requirements and their distribution, are as follows:

<table>
<thead>
<tr>
<th>Thesis Option</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Core courses (any two from Group A)</td>
<td>6</td>
</tr>
<tr>
<td>Additional computer engineering courses from Group A or B*</td>
<td>12</td>
</tr>
<tr>
<td>Elective courses from Group A or B or C*</td>
<td>6</td>
</tr>
<tr>
<td>EE 6983 Master’s Thesis</td>
<td>6</td>
</tr>
</tbody>
</table>

Minimum total semester credit hours required 30
Nonthesis Option

*Chosen with approval of the Computer Engineering Graduate Program Committee.

Degree plans must be consistent with the guidelines established by the Computer Engineering Graduate Program Committee.

Doctor of Philosophy Degree in Electrical Engineering

The Department of Electrical and Computer Engineering offers advanced coursework integrated with research leading to the Doctor of Philosophy degree in Electrical Engineering. The program has emphases in five concentrations: Computer Engineering, Systems and Control, Digital Signal Processing, Communications, and Electronic Materials and Micro Devices. The Ph.D. in Electrical Engineering will be awarded to candidates who have displayed an in-depth understanding of the subject matter and demonstrated the ability to make an original contribution to knowledge in their field of specialty.

The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 5, Doctoral Degree Regulations).

Admission Requirements. The minimum requirements for admission to the Doctor of Philosophy in Electrical Engineering degree program are as follows:

- Normally, a student must hold a master’s degree before being granted admission to the program. Some exceptionally talented students may enter the Doctor of Philosophy program directly upon receiving a bachelor’s degree in electrical engineering, with the special approval of the Electrical Engineering Doctoral Studies Committee.

- Applicants without a master’s degree program must have a grade point average of 3.3 or better in the last 60 semester credit hours of undergraduate coursework in electrical engineering.

- Applicants with a master’s degree must have a grade point average of 3.3 or better in their master’s degree program. Applicants with a master’s degree in electrical engineering or in a related field may apply a maximum of 30 semester credit hours of previously earned graduate credit toward their doctoral degree. Each student’s transcript will be evaluated by the Doctoral Studies Committee and credit will be designated on a course-by-course basis to satisfy the formal coursework requirements of the degree. A maximum of 6 semester credit hours may be awarded for a master’s thesis.

- A satisfactory score, as evaluated by the Doctoral Studies Committee for Electrical Engineering, is required on the Graduate Record Examination (GRE). If an applicant’s performance on the GRE is used for that purpose, it will be considered with other criteria when making an admissions or competitive scholarship decision and will not be used as the sole criterion for consideration of the applicant or as the primary criterion to end consideration of the applicant. Students whose native language is not English must achieve a minimum score of 550 on the Test of English as a Foreign Language (TOEFL; paper version).

- Letters of recommendation, preferably three, attesting to the applicant’s readiness for doctoral study.

A complete application includes the application form, official transcripts, letters of recommendation, GRE scores, a résumé, a statement of research experience, interests and goals, and the TOEFL score for those applicants whose native language is not English. Admission is competitive. Satisfying these requirements does not guarantee admission.

Degree Requirements and Program of Study. The degree requires 90 semester credit hours beyond the bachelor’s degree or 60 semester credit hours beyond the master’s degree, passing of qualifying written and oral examinations, passing of a final oral examination, and acceptance of the Ph.D. dissertation. A two-semester residency research period is required. The course
requirements include 54 technical course credits, 18 research credits identified as EE 6991 (Research Seminar) and EE 7953 (Doctoral Research), and 18 dissertation credits identified as EE 7991-6 (Doctoral Dissertation). At least two courses must be taken from courses in two of the five concentration areas outside of the student’s concentration, to complete the breadth requirement. No more than 6 credits of independent study should be included. Up to 21 credits may be taken from other graduate courses including at least two courses from outside electrical engineering with approval of the Electrical Engineering Graduate Program Committee. A current list of ECE Graduate Courses by Area is available in the department office.

In general, undergraduate courses, general education courses, and prerequisites for graduate courses cannot be counted toward the total semester credit hours.

The entire program of study must be approved by the student’s dissertation advisor, Dissertation Committee, and Graduate Program Committee prior to taking the Doctoral Qualifying Examination, and must be submitted to the Dean of the Graduate School for final approval. The courses are intended to focus and support the individual’s mastery of his or her particular area of expertise.

**Advancement to Candidacy.** All students seeking a doctoral degree at UTSA must be admitted to candidacy. One of the requirements for admission to candidacy is passing a doctoral qualifying examination. Students should consult the University’s Doctoral Degree Regulations (Chapter 5 in this catalog) for other requirements.

**Qualifying Examination.** The qualifying examination is divided into written and oral portions.

*Written Portion of the Qualifying Examination.* Prior to taking the written examination, the student must have a Program of Study on file. The written portion of the Doctoral Qualifying Examination is scheduled near the end of the Fall and Spring Semesters. Students wishing to take the examination must submit their request in writing to the Doctoral Advisor of Record by the fourth week of the semester during which they intend to take the examination. Normally, the written examination is taken in the Fall Semester of the student’s second year. Students who fail their first attempt at the written examination are allowed to make a second attempt on the next written examination. No more than two attempts to pass the written examination are permitted.

Students must select and pass three examinations from the five areas corresponding to the five core courses (listed below) in the graduate program. One of the three examinations must be from the area of specialization declared on the student’s Program of Study.

- EE 5123 Computer Architecture (Computer Engineering)
- EE 5143 Linear Systems and Control (Systems and Control)
- EE 5163 Digital Signal Processing (Digital Signal Processing)
- EE 5183 Foundations of Communication Theory (Communications)
- EE 5503 Introduction to Micro and Nanotechnology (Electronic Materials and Micro Devices)

*Oral Portion of the Qualifying Examination.* The oral examination must be taken within one year after passing the written portion of the qualifying examination. No more than two attempts to pass the oral examination are permitted.

A four-member Oral Examination Committee, chaired by the student’s Supervising Professor, conducts the oral examination. A written dissertation proposal should be submitted to the student’s Oral Examination Committee at least two weeks before the oral presentation. The format of the oral examination consists of a public presentation of the student’s dissertation proposal, followed by a period of questioning by the Committee based on the proposal and on relevant background from the student’s Program of Study. Unanimous approval of the Oral Examination Committee is required to pass the oral examination. After the student passes both the written and oral portions of the Doctoral Qualifying Examination, he or she is admitted to candidacy. Admission into the Doctoral program does not guarantee advancement to candidacy.

**Final Oral Dissertation Defense.** After admission to candidacy, the next steps are writing the dissertation and passing the final oral defense. The final oral defense is administered and evaluated by the student’s Dissertation Committee and covers the dissertation and the general field of the dissertation. The final oral defense consists of a public presentation of the dissertation, followed by a closed oral defense. The Dissertation Committee must unanimously approve the dissertation.
COURSE DESCRIPTIONS
ELECTRICAL ENGINEERING
(EE)

5103  Engineering Programming
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
Object Oriented programming for engineering design problems; C++ and Java programming; software development for mathematical modeling and simulation of hardware systems; individual class projects. (Formerly EE 5453 Topic 4: Engineering Programming Languages. Credit cannot be earned for both EE 5103 and EE 5453 Engineering Programming Languages.)

5113  VLSI System Design
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
VLSI Circuit Design, CMOS technology and device modeling, structured digital circuits, VLSI systems; computer-aided design tools, placement, routing, extraction, design rule checking, graphic editors, simulation, verification, minimization, silicon compilation, test pattern generation; theory for design automation; chip design. (Formerly EE 5323 Topic 1: VLSI I. Credit cannot be earned for both EE 5113 and EE 5323 VLSI I.)

5123  Computer Architecture
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
Description of digital computer systems, arithmetic algorithms, central processor design, memory hierarchies and virtual memory, control unit and microprogramming, input and output, coprocessors, and multiprocessing.

5143  Linear Systems and Control
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
Advanced methods of analysis and synthesis of linear systems, continuous and discrete-time systems, analytical approach to linear control theory.

5153  Random Signals and Noise
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
Study of probability theory, random processes, mean and autocorrelation, stationarity and ergodicity, Gaussian and Markov processes, power spectral density, noise, and linear systems.

5163  Digital Signal Processing
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
Study of discrete-time signals and systems, including Z-transforms, fast Fourier transforms, and digital filter theory. Filter design and effects of finite register length, and applications to one-dimensional signals.

5183  Foundations of Communication Theory
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor, completion of EE 5153 recommended.
Basis functions, orthogonalization of signals, vector representation of signals, optimal detection in noise, matched filters, pulse shaping, intersymbol interference, maximum likelihood detection, channel cutoff rates, error probabilities, bandwidth, and power-limited signaling.

5193  FPGA and HDL
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
Fundamental digital systems principles. HDL modeling concepts and styles: structural, RTL, and behavioral; modeling for synthesis and verification; modeling combinatorial and sequential logic circuits; modeling finite state machines; testbench developments; performance estimation and improvement. (Formerly EE 5223 Topic 2: FPGA and HDL. Credit cannot be earned for both EE 5193 and EE 5223 FPGA and HDL.)
5203  Multimedia Security Processing  
(3-0) 3 hours credit. Prerequisite: EE 5163 or consent of instructor.  
Signal representation systems and their based coders; the basic concepts of digital steganography and cryptography;  
multimedia data hiding and detection techniques; secure information transmission over mobile channels; the various  
object recognition techniques; performance and effectiveness assessment. (Formerly EE 5353 Topic 1: Multimedia  
Signal Processing and Secure Communications. Credit cannot be earned for both EE 5203 and EE 5353 Multimedia  
Signal Processing and Secure Communications.)

5223  Topics in Digital Design  
(3-0) 3 hours credit. Prerequisite: EE 5123 or consent of instructor.  
Topics may include the following:  
Topic 1: Graph Theory and Networking. Introduction to graphs and digraphs, applications of graphs, Eulerian  
and Hamiltonian graphs, connectivity, trees, planar graphs, decomposition problems, graph models for electrical  
and communications networks and computer architectures, communications network application examples, analysis  
and design.  
Topic 2: Microcomputer-Based Systems. 8- and 16-bit microprocessors, bus timing analysis, interfacing principles,  
LSI and VLSI chip interfacing, use of software development tools such as assemblers, compilers, and simulators, and  
hardware development tools including logic analyzer.  
Topic 3: PCI System Design. Understanding PCI specifications including protocol, electrical, mechanical, and timing.  
Study the protocol for high-speed, high-bandwidth data throughput. Designing a PCI-based system design and  
implementing in FPGA.  
May be repeated for credit as topics vary.

5243  Topics in Systems and Control  
(3-0) 3 hours credit. Prerequisite: EE 5143.  
Topics may include the following:  
Topic 1: Adaptive Systems and Control. Current methods in adaptive systems and control including stability, convergence,  
robustness, system identification, recursive parameter estimation, and design of parameterized controllers.  
Topic 2: Optimal Control. Optimal and suboptimal techniques for controller design using the principle of optimality,  
min-max principles, and induced norm minimization.  
Topic 3: Nonlinear Control Systems. Nonlinear systems modeling, existence and uniqueness of solutions, phase plane  
analysis, Lyapunov stability, and advanced nonlinear techniques.  
Topic 4: Computational Intelligence. A study of neuron models, basic neural nets and parallel distributed processing,  
and sound mathematical intuition and applications about neural network algorithms and architectures. Includes theory  
of fuzzy sets, foundations of fuzzy logic, and genetic algorithms. Course emphasizes engineering applications; control,  
pattern recognition, damage assessment, and decisions.  
Topic 5: System of Systems Science and Engineering. Introduction to Systems Engineering, Large-Scale Complex  
Cooperative Control of SoS, Discrete-event simulation systems (DEVS) principles and applications, Autonomous  
Control Systems via Computational Intelligence Tools, Principle component analysis and data mining techniques for  
SoS, V-Lab® a Virtual Laboratory and Matlab software for intelligent SoS, case studies: Sensor Networks, System of  
Topic 6: Advanced Topics of Embedded Control Systems. Study control techniques for embedded systems. Emphasis  
on hybrid system configuration, data acquisition, sensing and fundamentals for motion control system. Control  
schemes include NI DAQ based control and FPGA based control.  
May be repeated for credit as topics vary.
5263  Topics in Digital Signal Processing and Digital Filtering
(3-0) 3 hours credit. Prerequisite: EE 5153 or EE 5163, or consent of instructor.
Topics may include the following:
Topic 1: Nonlinear Filters. Order statistic filters, morphological filters, stack/Boolean filters, and other related topics.
Topic 4: Wavelet Transforms and Applications. Subband decompositions; wavelets and wavelet packets: construction, properties, decomposition and reconstruction, multiresolution analyses; image and video international compression standards, signal and image de-noising; steganography, and watermarking.
May be repeated for credit as topics vary.

5283  Topics in Communication Systems
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.
Topics may include the following:
Topic 2: Simulation of Communication Systems. Simulation and implementation of representative communication systems, Automatic Gain Control (AGC), modulation/demodulation, pulse shaping and matched filters, carrier and time recovery, equalizers, fast correlators. Practical filter design for communication systems.
May be repeated for credit as topics vary.

5323  Topics in VLSI Design
(3-0) 3 hours credit. Prerequisite: EE 5113 or consent of instructor.
Topic 1: Advanced VLSI Design. Microelectronic systems architecture; VLSI circuit testing methods; integration of heterogeneous computer-aided design tools; wafer scale integration; advanced high-speed circuit design and integration. Engineering design of large-scale integrated circuits, systems, and applications; study of advanced design techniques, architectures, and CAD methodologies.
Topic 2: Low Power VLSI Design. Hierarchy of limits of power, source of power consumption, voltage scaling approaches; circuit, logic, architecture and system level power optimization; power estimation; advanced techniques for power optimization; software design for low power.
May be repeated for credit as topics vary.
5343  **Intelligent Control and Robotics**  
(3-0) 3 hours credit. Prerequisite: EE 5143.  

5353  **Topics in Multimedia Signal Processing**  
(3-0) 3 hours credit. Prerequisite: EE 5153 or EE 5163, or consent of instructor.  
Topics may include the following:  
Topic 1: Digital Image Processing. Study of binary image processing; histogram and point operations; algebraic and geometric image operations; 2-D digital Fourier transforms; convolution; linear and nonlinear filtering; morphological filters; image enhancement; linear image restoration (deconvolution); digital image coding and compression; and digital image analysis. (Formerly EE 5363. Credit cannot be earned for both EE 5353 Topic 2: Digital Image Processing and EE 5363.)  
Topic 2: Computer Vision and Application. Image perception, edge detection in the visual system, future vectors, image enhancement, shape from shading, image segmentation by textural perception in humans, chain codes, B-splines, classification (SVM and others).  
Topic 3: Biomedical Image Processing. Digital image fundamentals, digital image enhancement in the spatial domain, digital image enhancement in the frequency domain, optimal image filtration in the frequency domain, image restoration and order-statistics filters, morphological image processing, processing of microarray images, segmentation and gene-expression calculation, processing of FISH stacked images, automated analysis of gene copy numbers by fluorescence in situ hybridization, fundamental methods of image reconstruction by projections and their applications in computerized tomography. (Same as BME 6703. Credit cannot be earned for both EE 5353 Topic 3: Biomedical Image Processing and BME 6703.)  
May be repeated for credit as topics vary.

5373  **Wireless Communication**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
This course offers in-depth study of wireless communication systems at the physical layer, propagation modeling for wireless systems, modulation schemes used for wireless channels, diversity techniques and multiple antenna systems, and multiple access schemes used in wireless systems.

5403  **Advanced Dielectric and Optoelectronic Engineering Laboratory**  
(1-6) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
May be repeated for credit as topics vary.

5413  **Principles of Microfabrication**  
(1-6) 3 hours credit. Prerequisite: EE 3323.  
Photolithography, thin film deposition, doping, wet patterning, plasma etching, thin film characterization. Students will fabricate simple microstructures such as coplanar waveguides, micro-fluidic devices and nano-powder silica films. (Same as ME 5803. Credit cannot be earned for both EE 5413 and ME 5803.)
5423  **Topics in Computer Architecture**  
(3-0) 3 hours credit. Prerequisite: EE 5123 or consent of instructor.  
Topic 1: Parallel and Distributed Computing. Multiprocessor and multicomputer systems, shared-memory and distributed memory systems, exploitation of parallelism, data partitioning and task scheduling, multiprocessor system interconnects, message passing and data routing, parallel programming.  
Topic 2: RISC Processor Design, RISC Concept. RISC versus CISC, RISC advantages and disadvantages, various processor survey and applications, study of software development tools: assemblers compilers, simulators, RISC implementations.  
Topic 3: Superscalar Microprocessor Architecture. Definition of superscalar, superpipelined, and VLIW processors; available parallelism in programs; branch prediction techniques; memory systems for superscalar processors; trace caches; memory disambiguation and load/store recording; performance evaluation techniques; multimedia extensions in superscalar processors.  
Topic 4: Fault Tolerance and Reliable System Design. Reliability and availability techniques, maintainability and testing techniques, evaluation criteria, fault-tolerant computing, fault-tolerant multiprocessors, design methodology for high reliability systems.  
Topic 5: Computer Arithmetic. Fundamental principles of algorithms for performing arithmetic operations in digital computers. Number systems, fast implementations of arithmetic operations and elementary functions, design of arithmetic units using CAD tools.  
May be repeated for credit as topics vary.

5443  **Discrete-Time Control Theory and Design**  
(3-0) 3 hours credit. Prerequisite: EE 5143.  
Control theory relevant to deterministic and stochastic analysis and design of computer-controlled systems using both state-space and input-output models.

5453  **Topics in Software Engineering**  
(3-0) 3 hours credit. Prerequisite: EE 5123 or consent of instructor.  
Topic 1: Large Domain-Specific Software Architectures. Software engineering approaches; scenario-based design processes to analyze large problem domains; domain modeling and representations; creation of component-based architecture providing an object-oriented representation of system requirements; development of large software class project.  
Topic 2: Embedded Software Systems Design. Dataflow models, uniprocessor and multiprocessor scheduling, hardware/software codesign, hierarchical finite state machines, synchronous languages, reactive systems, heterogeneous systems.  
Topic 3: Embedded Software Testing and Quality Assurance. Systematic testing of embedded software systems; unit (module), integration and system level testing; software verification; hardware/software co-testing; code inspections; use of metrics; quality assurance; measurement and prediction of software reliability; software maintenance; software reuse and reverse engineering.  
May be repeated for credit as topics vary.

5463  **Artificial Neural Networks**  
(3-0) 3 hours credit. Prerequisite: EE 5163 or consent of instructor.  
Study of parallel optimization algorithms using Hopfield networks, perceptrons, backpropagation competitive systems, and other unsupervised techniques.

5473  **Fiber Optic Communication**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
In-depth study of fiber optic principles, performance of optical receivers, devices, digital and analog fiber optic transmission systems, wavelength division multiplexing systems, optical amplifiers, and fiber optic measurements.
5503  **Introduction to Micro and Nanotechnology**  
(2-3) 3 hours credit. Prerequisite: Graduate standing or completion of or concurrent enrollment in EE 3323. 
Survey of micro-fabrication techniques, scaling laws, mechanical, optical and thermal transducers, micro-fluidic applications, nanostructures. (Same as ME 5883. Credit cannot be earned for both EE 5503 and ME 5883.)

5583  **Topics in Digital Communication**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor. 
Topics may include the following: 
Topic 1: Digital Information Theory. Entropy and mutual information; Huffman coding; source and channel coding theorems; channel capacity; block coding error bounds; random coding bounds; cutoff rate; multiuser information theory; random access channels and protocols; multiaccess coding methods. 
Topic 2: Digital Modulation Schemes. In-depth study of digital modulation; information sources and source coding, quantization, representation of digitally modulated signals; synchronization and timing issues in digital communications. 
Topic 4: Coding and Error Correction. Algebraic Coding Theory; groups and fields, linear codes, Hamming distance, cyclic codes, minimum distance bounds, BACH codes and algebraic decoding, Reed-Solomon codes, Reed-Mueller codes and maximum likelihood decoding, suboptimal decoding, and applications of coding. 
May be repeated for credit as topics vary.

5593  **Topics in Advanced Sensor Devices**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor. 
Fundamentals of materials parameters to design nano-micro level pyroelectric, piezoelectric, ferroelectric and various electronic sensors and actuators. May be repeated for credit as topics vary.

5693  **Dielectric and Optoelectronic Devices**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor. 

6323  **Advanced Topics in Computers**  
(3-0) 3 hours credit. Prerequisites: Consent of Graduate Advisor of Record and Dissertation Director. 
Current topics in the computer area. May be repeated for credit as topics vary.

6343  **Advanced Topics in Systems and Control**  
(3-0) 3 hours credit. Prerequisites: Consent of Graduate Advisor of Record and Dissertation Director. 
Current topics in the systems and control area. May be repeated for credit as topics vary.

6363  **Advanced Topics in Signal Processing**  
(3-0) 3 hours credit. Prerequisites: Consent of Graduate Advisor of Record and Dissertation Director. 
Current topics in the signal processing area. May be repeated for credit as topics vary.

6383  **Advanced Topics in Communications**  
(3-0) 3 hours credit. Prerequisites: Consent of Graduate Advisor of Record and Dissertation Director. 
Current topics in the communications area. May be repeated for credit as topics vary.

6493  **Advanced Topics in Electronic Materials and Micro Devices**  
(2-3) 3 hours credit. Prerequisite: EE 4543 or EE 5503 or EE 5693. 
Topics to be selected from advanced sensors, actuators, engineered materials, device physics, microwave applications of MEMS structures, optoelectronics and photonics, micro-electronic devices and nanotechnology. May be repeated for credit as topics vary.
**6951-3 Independent Study**
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the degree.

**6963 Graduate Project**
3 hours credit. Prerequisites: Consent of the Graduate Advisor of Record and Projector Advisor.
A semester-long project with approval of a supervising faculty. Credit will be awarded upon successful submission of a written report and oral presentation to a project committee consisting of at least two faculty members. The grade report for the course is either “CR” or “NC”.

**6971-3 Special Problems**
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, may be applied to the degree.

**6983 Master’s Thesis**
3 hours credit. Prerequisites: Consent of the Graduate Advisor of Record and thesis director.
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

**6991 Research Seminar**
1 hour credit.
Presentation and analysis of literature in a selected area of research. The grade report for the course is either “CR” or “NC”.

**7423 VLSI for Signal Processing**
(3-0) 3 hours credit. Prerequisite: EE 5123.

**7443 Nonlinear Control Systems**
(3-0) 3 hours credit. Prerequisite: EE 5143.
Principles of nonlinear systems modeling and analysis: Lyapunov stability, input-output stability, and homogeneous theory. Control of nonlinear systems: integrator backstepping, feedback domination, Lyapunov-based design, small control technique, output feedback design, and applications to physical systems.

**7463 Pattern Analysis and Machine Vision**
(3-0) 3 hours credit. Prerequisite: EE 5163.
Image formations, early vision, binary machine vision, 2-D representation, 3-D representation, image segmentation, statistical pattern recognition, and knowledge-based vision.

**7483 Communication Networks**
(3-0) 3 hours credit. Prerequisite: EE 5183.
Networking, circuit and packet switching, layered architectures, protocols, and network performance. Local and wide-area networks; Internet; ISDN principals. Broadband networks; SONET, SDH, ATM and BISDN. Applications to data/voice/video/multimedia traffic.
7953 **Doctoral Research**  
3 hours credit. Prerequisites: Ph.D. student standing and consent of instructor and the Graduate Advisor of Record. May be repeated for a maximum credit of 18 hours.

7991-6 **Doctoral Dissertation**  
1 to 6 hours credit. Prerequisites: Consent of the Doctoral Advisor of Record and Dissertation Advisor. May be repeated for a maximum credit of 18 hours.
Master of Science Degree in Advanced Manufacturing and Enterprise Engineering

The Master of Science program in Advanced Manufacturing and Enterprise Engineering (M.S. in AMEE) is designed to offer an opportunity to individuals for continued study toward positions of leadership in industry and academia and for continuing technical education in a more specialized area. The graduates of this program will have the fundamental knowledge and understanding of the operational complexity of enterprises, manufacturing and business process improvement/optimization, and integrated product/process/system design. In addition, they will have the cognitive skills to critically evaluate the potential benefits of alternative manufacturing strategies; to use virtual/simulated platforms to facilitate and improve business processes; and to analyze enterprise systems as systems of interacting units, components, and subsystems. The program offers a thesis option and a nonthesis option.

Program Admission Requirements. Applicants must meet University-wide graduate admission requirements as outlined in Chapter 1, Admission, of this catalog. Applicants must also comply with general University regulations as outlined in Chapter 2, General Academic Regulations, and Chapter 4, Master’s Degree Regulations, of this catalog. Due to the multidisciplinary nature of the program, the Graduate Advisor of Record (GAR), in consultation with the Mechanical Engineering Graduate Program Committee and the Department Chair, will evaluate each student’s transcript and determine any course deficiencies on a case-by-case basis. Students admitted with course deficiencies will be required to take additional courses within their Program of Study to make up the deficiencies. Courses taken to make up deficiencies may not count toward the graduate degree. Applicants who have insufficient preparation for the program, or who lack certain supporting documentation, may be admitted on a conditional basis.

Degree Requirements. The minimum number of semester credit hours required for the degree is 30 for the thesis option and 33 for the nonthesis option.

A. 3 semester credit hours of a Required Math Course selected from the following:
   - EGR 5023 Numerical Techniques in Engineering Analysis
   - EGR 5213 Topics in Systems Modeling
   - MAT 5603 Numerical Analysis
   - STA 5083 Methods of Statistics II

B. 9 semester credit hours of Required Topical Courses selected from the following:
   - ME 5503 Lean Manufacturing and Lean Enterprises
   - ME 5563 Computer Integrated Manufacturing
   - ME 5583 Advanced Enterprise Process Engineering
   - ME 5603 Advanced Manufacturing Systems Engineering

C. Degree candidates must complete the following course requirements for one of the degree options:

STA  5103  Applied Statistics
STA  5803  Process Control and Acceptance Sampling

Students in the nonthesis option are advised throughout their program by the GAR. Students in the thesis option, upon completion of the first 9 semester credit hours of their program, must select a Thesis Advisor from the program contributing faculty members and obtain the faculty member’s consent to serve in this capacity. After this point, the student’s Thesis Advisor assumes the role of the student’s advisor.

Upon completion of 18 credit hours (typically the end of the second semester), students in the thesis option are expected to form a Thesis Committee in consultation with their Thesis Advisor. In addition to the Thesis Advisor, the Thesis Committee must include two additional faculty members who are also members of the UTSA Graduate Faculty. Thesis option students are expected to defend their research work during their last semester (i.e., completion of 30 semester credit hours).
Master of Science Degree in Mechanical Engineering

The Master of Science program in Mechanical Engineering is designed to offer students the opportunity to prepare for doctoral studies and leadership roles in government, industry, or research institutions. The program offers thesis and nonthesis options.

Program Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, admission will be based on a combination of factors: a bachelor’s degree in mechanical engineering or a related field from an accredited institution of higher education or proof of equivalent education at a foreign or unaccredited institution, satisfactory performance on the Graduate Record Examination (GRE), and satisfactory undergraduate grade point average (GPA) in engineering or relevant coursework.

Applicants may be admitted on a conditional basis as determined by the Graduate Committee of the Department. Applicants with a degree in a discipline other than mechanical engineering may be required to make up the deficiencies in the undergraduate mechanical engineering curriculum. Undergraduate courses listed as deficiencies do not count toward the graduate degree. Other applicants, who wish to continue their education in an area of Mechanical Engineering, but do not intend to pursue a Master of Science degree in Mechanical Engineering may seek admission as special graduate students.

Degree Requirements. The minimum number of semester credit hours required for the degree is 30 for the thesis option and 33 for the nonthesis option.

A. Degree candidates must complete the following four core courses:

- ME 5113 Advanced Systems Dynamics and Control
- ME 5243 Advanced Thermodynamics
- ME 5413 Advanced Solid Mechanics
- ME 5613 Advanced Fluid Mechanics

A student with very good preparation in the above subjects may petition the Graduate Committee of the Department to substitute one or more of these courses with other graduate-level courses.

B. Degree candidates must complete the following course requirements for one of the degree options:

**Thesis Option**

<table>
<thead>

Minimum total semester credit hours required 33

In addition to the coursework and other University requirements for the Master’s degree, candidates must pass a thesis defense administered by the student’s advisory committee and chaired by a full-time graduate faculty member. A successful thesis defense satisfies the University’s comprehensive examination requirement.

Students in the thesis option must select a thesis advisor within the first 9 semester credit hours of coursework and form a thesis committee with a minimum of three faculty members within the first 18 semester credit hours of coursework. Within the first 9
hours of coursework, students in this option must meet with the thesis advisor to develop their program of study. New students, who have not selected a thesis advisor will be advised by the Graduate Advisor of Record.

Students seeking the nonthesis option must develop their program of study in consultation with the Graduate Advisor of Record within the first 9 semester credit hours of coursework. Nonthesis option students are required to complete a special project in consultation with a graduate faculty member. The project must meet with the approval of the Graduate Committee.

**COURSE DESCRIPTIONS**

**MECHANICAL ENGINEERING**

**(ME)**

- **5013** Topics in Mechanical Engineering  
  (3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
  Current topics in mechanical engineering, such as advanced fracture mechanics, lean manufacturing, and advanced manufacturing engineering. May be repeated for credit with consent of Graduate Committee as topics vary.

- **5113** Advanced Systems Dynamics and Control  
  (3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
  Dynamic modeling of mechanical and multi-energy domain systems; state-space and frequency-domain analysis of dynamic systems; feedback control systems; multivariable state-feedback control; principles of controllability, observability, stability; computer-based simulation system dynamics. (Formerly titled “Advanced Controls.”)

- **5143** Advanced Dynamics  
  (3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
  Review of Newtonian mechanics, 3-D particle kinematics, dynamics of a system of particles, analytical mechanics, Lagrange’s equations, kinematics and rigid-body dynamics, Eulerian angles, computational analysis using a symbolic language.

- **5153** Structural Dynamics  
  (3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
  Matrix methods for analysis of dynamics of complex structures, computer solutions, systems identifications, and experimental modal analysis.

- **5183** Advanced Mechanical Vibration  
  (3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
  Free and forced vibration of single and multi-degree-of-freedom systems; response to harmonic, periodic, and nonperiodic excitations; continuous systems; computational techniques for the response.

- **5243** Advanced Thermodynamics  
  (3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
  Concepts and postulates of macroscopic thermodynamics; formulation or thermodynamic principles; exergy stability of thermodynamic systems, principles of irreversible thermodynamics, chemical equilibria.

- **5263** Combustion  
  (3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
  Thermochemistry and transport theory applied to combustion; gas phase equilibrium; energy balances; reaction kinetics; flame temperatures, speed, ignition, and extinction; premixed and diffusion flames; combustion aerodynamics; mechanisms of air pollution.

- **5273** Alternative Energy Sources  
  (3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
  Solar, nuclear, wind, hydrogen, and geothermal energy sources. Resources, production, utilization, economics, sustainability, and environmental considerations.
5283 **Power Plant System Design**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Application of thermodynamics and fluid mechanics to the design of vapor and gas-turbine power plant systems including boilers, condensers, turbines, pumps, compressors, cooling towers, and alternative energy power plants.

5303 **Advanced Heat and Mass Transfer**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Derivation of energy and mass conservation equations with constitutive laws for conduction, convection, radiation, and mass diffusion. Dimensional analysis, heat exchangers, boiling and condensation, steady and transient solutions.

5343 **Convection**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Derivation of equations of convection of mass, momentum, and energy; scale analysis; boundary layer solutions; classical, laminar convection problems; turbulent convection; natural convection.

5353 **Radiation**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Thermal radiation laws, geometric factors, black bodies, gray enclosures, nongray systems, combined conduction, convection, and radiation.

5413 **Advanced Solid Mechanics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Variational mechanics, energy methods, elementary viscoelastic/plastic problems, and wave propagation. (Formerly EGR 5543. Credit cannot be earned for both ME 5413 and EGR 5543.)

5453 **Advanced Strength of Materials**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Failure theories, energy methods, advanced topics in bending, torsion, and elastic stability. (Formerly EGR 5553. Credit cannot be earned for both ME 5453 and EGR 5553.)

5463 **Fracture Mechanics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Introduction to failure and fracture of engineering materials, Griffith’s energy balance, stress intensity and strain energy release rate approaches to brittle fracture, Dugdale and Irwin approaches to ductile fracture. Application to modern engineering materials. (Formerly EGR 5313. Credit cannot be earned for both ME 5463 and EGR 5313.)

5473 **Viscoelasticity**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Principle of fading memory, integro-differential constitutive laws, mechanical models, time and temperature superposition, and linear and nonlinear methods. Applications to polymers, composites, and adhesives. (Formerly EGR 5323. Credit cannot be earned for both ME 5473 and EGR 5323.)

5483 **Finite Element Methods**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Derivation and computer implementation of the finite element method for the solution of boundary value problems. (Same as CE 5023. Credit cannot be earned for both ME 5483 and CE 5023.)

5503 **Lean Manufacturing and Lean Enterprises**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Methodologies for transforming an enterprise into a lean enterprise. Topics include Lean Manufacturing basics and tools; Lean Implementation Guidelines; Lean Metrics and Performance Measures; Lean Extended Enterprise; Six-Sigma; and Lean Supply Chain Design and Management. Hands-on applications include lean simulation games and various Web-based applications.
5513 Advanced Mechanism Design  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor. 
Advanced topics in kinematic synthesis of linkage, static and dynamic force analyses, and computer-aided design of mechanisms.

5533 Advanced Machine Design  
(3-0) 3 hours credit. Prerequisite: ME 3823 or an equivalent.  
Advanced problems in machine design, including bearings, brakes, clutches, gears, shafts, springs, and advanced stress analysis.

5543 Probabilistic Engineering Design  
(3-0) 3 hours credit. Prerequisite: STA 2303 or an equivalent.  
Development and application of probabilistic methods in engineering: random variable definitions, probability distributions, distribution selection, functions of random variables, numerical methods including Monte Carlo sampling, First Order Reliability Methods, and component and systems reliability.

5553 Advanced Design of Cams and Gears  
(3-0) 3 hours credit. Prerequisites: ME 3513 and ME 3823, or their equivalents.  
Advanced problems in design of cam follower systems, gear trains and spur, helical, bevel, and worm gears.

5563 Computer Integrated Manufacturing  
(3-1) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Advanced concepts and models related to computer-aided design, computer-aided process planning, computer-aided manufacturing, production planning and scheduling, and manufacturing execution systems. Laboratory work includes computer-aided applications and programming of automated production equipment.

5573 Facilities Planning and Design  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Advanced concepts and fundamentals essential to understand, analyze, and solve problems related to manufacturing plant layout and material handling system selection. Topics include Product, Process, and Schedule Design; Flow, Space, and Activity Relationships; Material Handling; Layout Planning Models and Design Algorithms; and Warehouse Operations. The subjects included in this course are organized around integrated product, process, and manufacturing system design principles.

5583 Advanced Enterprise Process Engineering  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Theory and applications of lean manufacturing and six-sigma to enterprise functions beyond production shop floor, with focus on lean product and process development, lean costing, and integration of IT and ERP systems to sustain continuous improvement.

5593 Advanced Topics in Manufacturing and Enterprise Engineering  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Current topics in the manufacturing engineering area. May be repeated for credit as topics vary.

5603 Advanced Manufacturing Systems Engineering  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Design, planning, scheduling, and control of manufacturing systems with emphasis on information flow and decision-making. After introducing students to system simulation, simulation models of manufacturing systems are developed and evaluated in terms of system performance under different production planning and control policies. Contemporary manufacturing topics and research areas are emphasized.

5613 Advanced Fluid Mechanics  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Dynamics of incompressible fluid mechanics viscous flow, Navier-Stokes equations, boundary layer theory, and numerical operations for incompressible fluid flow.
5633  **Gas Dynamics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Integral and differential forms of the conservation equations, one-dimensional flow, oblique shock and expansion  
waves, and supersonic, transonic, and hypersonic flows.

5653  **Computational Fluid Dynamics**  
(3-0) 3 hours credit. Prerequisite: ME 3663 or an equivalent.  
The mathematical models for fluid-flow simulations at various levels of approximation, basic description techniques,  
and the nature of flow equations and their boundary conditions.

5713  **Mechanical Behavior of Materials**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Mechanical behavior of engineering materials (metals, alloys, ceramics, and polymers) elasticity, dislocation theory,  
strengthening mechanism, fracture, fatigue, creep, and oxidation.

5743  **Composite Materials**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Introduction to mechanics of composites, micromechanics, macromechanics, lamination theory, design, and  
applications of fiber-reinforced composites and particulate composites. (Formerly EGR 5413. Credit cannot be earned  
for both ME 5743 and EGR 5413.)

5803  **Principles of Microfabrication**  
(1-6) 3 hours credit. Prerequisite: EGR 3323 or consent of instructor.  
Photolithography, thin film deposition, doping, wet patterning, plasma etching, thin film characterization. Students  
will fabricate simple microstructures such as coplanar waveguides, micro-fluidic devices and nano-powder silica  
fils. (Same as EE 5413. Credit cannot be earned for both ME 5803 and EE 5413.)

5883  **Introduction to Micro and Nanotechnology**  
(2-3) 3 hours credit. Prerequisite: Graduate standing or completion of or concurrent enrollment in EE 3323.  
Survey of micro-fabrication techniques, scaling laws, mechanical, optical and thermal transducers, micro-fluidic  
applications, and nanostructures. (Same as EE 5503. Credit cannot be earned for both ME 5883 and EE 5503.)

5963  **Topics in Bioengineering**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Topics may include: Biomechanics, biological systems, biosolid and biofluid, transport phenomena, biomaterials,  
medical devices, and medical imaging. May be repeated for credit as topics vary.

5973  **Special Project**  
3 hours credit. Prerequisites: Permission in writing (form available) from the instructor and the Graduate Advisor  
of Record.  
The directed research course is offered only for nonthesis option students and may involve either a laboratory or a  
theoretical problem. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the  
Master’s degree.

5991  **Graduate Seminar**  
(1-0) 1 hour credit. Prerequisites: Graduate standing and consent of instructor.  
May be repeated for credit up to a limit of 2 hours.

6563  **Flexible Automation and Manufacturing Systems**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
This course focuses on major integration issues related with flexible manufacturing systems and their components.  
Introduces mathematical models related to design, planning, scheduling, and control of flexible manufacturing systems.  
Contemporary manufacturing topics and research areas are emphasized.
6573  **Robotics Design and Analysis**  
(3-0) 3 hours credit. Prerequisites: ME 5113 and ME 5143.  
Serial manipulator design and controls; electromechanical issues at the actuator level; analytic modeling and synthesis techniques with emphasis on the influence of sensors, machine vision, and control at the actuator-level and robot system designs.

6813  **Biomaterials**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Fundamentals in applications of biomaterial science and engineering principles and concepts to repairing, replacing, and protecting human tissues and organs. (Formerly ME 5813 and ME 6013. Same as BME 6903. Credit can be earned for only one of the following: ME 6813, ME 6013, ME 5813 or BME 6903.)

6833  **Biomechanics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in engineering or consent of instructor.  
Fundamentals in applications of engineering mechanics to modeling structures and functions of tissues, organs, joints, and human body. (Formerly ME 5833 and ME 6033. Same as BME 6803. Credit can be earned for only one of the following: ME 6833, ME 6033, ME 5833 or BME 6803.)

6893  **Topics in Biomechanics**  
(3-0) 3 hours credit. Prerequisite: ME 6833 or BME 6803 or an equivalent.  
The biomechanics of biological tissues and organs. Topics may include constitutive equations, stress, and adaptation of hard and soft tissues. (Formerly ME 6023. Same as BME 6893. Credit cannot be earned for both ME 6893 and ME 6023. Credit cannot be earned for both ME 6893 and BME 6893 when the topic is the same.)

6951-3  **Independent Study**  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor, the student’s advisor, and the Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6961  **Comprehensive Examination**  
1 hour credit. Prerequisite: Approval of the Mechanical Engineering Graduate Program Committee to take the Comprehensive Examination.  
Independent study for the purpose of taking the Comprehensive Examination. May be repeated for credit as many times as approved by the Mechanical Engineering Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6971-3  **Special Problems**  
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized studies not normally available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, may be applied to the Master’s degree.

6983  **Master’s Thesis**  
3 hours credit. Prerequisites: Consent of the Graduate Advisor of Record and primary thesis advisor.  
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

COLLEGE OF LIBERAL AND FINE ARTS
DEPARTMENT OF ANTHROPOLOGY

Master of Arts Degree in Anthropology

The Master of Arts program in Anthropology emphasizes the anthropology of the Americas and is dedicated to training graduate students in both method and theory. Students, in conjunction with faculty, may design their programs with a focus on the subdisciplines of archaeology or cultural anthropology. Faculty expertise lies in the archaeology of the Maya and Andean regions; the archaeology of Texas, the American Southwest, and northern Mexico; the cultural anthropology of Texas and the Plains; ethnography and applied anthropology of Mexico and the United States; indigenous and environmental politics in lowland and Andean South America; and medical anthropology of the Border region.

Program Admission Requirements. Applicants for admission to the M.A. program must satisfy all University-wide graduate admissions requirements. To apply for admission to the M.A. program in Anthropology, applicants must complete the Graduate School Application. Complete applications will include the application form, official academic transcripts, an essay (500–750 word statement of purpose), and two letters of recommendation. Graduate Record Examination (GRE) scores must also be submitted to the Graduate School. These scores will be considered only as one element in the evaluation of applicants. Applications will not be reviewed until complete.

Applicants can request degree-seeking or non-degree-seeking (special graduate student) status. Applicants for admission as non-degree-seeking students need not submit GRE scores but should have completed at least 12 semester credit hours in anthropology (with no more than 6 of the 12 in a field school) before application. Non-degree-seeking students may be limited in the courses they are permitted to take. Admission as a non-degree-seeking student does not ensure subsequent admission as a degree-seeking student.

Admission is competitive. Satisfying the minimum requirements does not guarantee admission. Applicants for admission as degree-seeking students will be evaluated on the basis of undergraduate academic performance, the application essay, letters of recommendation, and GRE test scores. A degree-seeking applicant admitted to the program may receive unconditional, conditional, or probationary admission status.

Applicants who are able to visit the UTSA campus are encouraged to meet with the department’s Graduate Advisor of Record and members of the anthropology faculty.

Applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL). The English Language Assessment Procedure is a mandatory assessment for incoming international students whose TOEFL scores are between 500 and 600 (paper version) or 61 and 100 (Internet version). See Chapter 1, Admission, of this catalog for details.

Degree Requirements. The minimum number of semester credit hours required for this degree is 33 (with thesis). In addition to the University’s general requirements for graduate study and any coursework or other study required as a condition of admission, the Master of Arts degree in Anthropology requires the following:

A. 9 semester credit hours of required basic courses:
   - ANT 5023 History, Method, and Theory of Archaeology
   - ANT 5033 Theory in Cultural Anthropology
   - ANT 5073 Advanced Biological Anthropology

B. 3 semester credit hours from one of the following methods courses, depending on the student’s area of interest:
   - ANT 6353 Field Research Methods in Cultural Anthropology
   - ANT 6623 Seminar in Analytical Methods in Archaeology
C. 15 semester credit hours of elective courses chosen in consultation with the student’s advisor and subject to the following conditions:

1. Students will normally take a minimum of 9 semester credit hours of electives in regular, organized graduate anthropology courses (this excludes fieldwork, independent studies, and internships).

2. Students are expected to develop a primary regional expertise. Knowledge of this region will be evaluated as part of the comprehensive examination (see below). In addition, students must take at least one other course focusing on a second region. This course may be in a subdiscipline other than that of the student’s main interest.

D. Although there is no program-wide language proficiency requirement, certain programs of study require students to demonstrate proficiency in a second language or in statistics. Students should consult their advisors regarding this matter.

E. A written comprehensive examination, tailored to the student’s program and area of concentration, is required. The comprehensive examination will be taken no later than nine months after the completion of the required coursework. Satisfactory performance on the comprehensive examination is required for advancement to thesis research and writing.

F. 6 semester credit hours of ANT 6983 Master’s Thesis.

**Doctor of Philosophy Degree in Anthropology**

UTSA’s Ph.D. program in Anthropology offers a four-field approach to basic and applied research in ecological anthropology. Students will develop empirical understandings of how humans culturally construct and organize past and present environments; how power relations are embedded in these activities; and the impact social and physical environments have upon human and non-human primates.

The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 5, Doctoral Degree Regulations).

**Program Admission Requirements.** Applicants for admission to the Ph.D. program in Anthropology must satisfy all University-wide graduate admissions requirements. Applicants must submit a complete Graduate School Application. Complete applications include the application form, summary sheet, official academic transcripts, an essay (750–900 word statement of purpose), and three letters of recommendation. Applicants must also submit Graduate Record Examination (GRE) scores with their application. These scores will be considered only as one element in the evaluation of applicants. Only completed applications will be reviewed.

Applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL). The English Language Assessment Procedure is a mandatory assessment for incoming international students whose TOEFL scores are between 550 and 600 (paper version) or 79 and 100 (Internet version). See Chapter 1, Admission, of this catalog for details.

Applicants to the Ph.D. program must request degree-seeking status. Applicants admitted to the Ph.D. program may receive unconditional, conditional, or probationary admission status.

Admission is competitive. Satisfying the minimum requirements does not guarantee admission. In any given application cycle, Ph.D. applicants will be evaluated on the strength of their application materials and also against other applicants in the same pool.

**Degree Requirements.** This degree requires a minimum of 78 semester credit hours beyond the baccalaureate degree (exclusive of coursework or other study required to remove conditions of admission).
Program of Study for Students Admitted Without a Master’s Degree

All students who are accepted into the Doctoral program without a Master’s degree (or its coursework equivalent) must successfully complete the program of study below. Students transferring to the Doctoral Program from accredited graduate programs but lacking a Master’s degree may receive approval to transfer some coursework to UTSA, pending review by the Graduate Program Committee. Each student’s transcript will be evaluated by the Graduate Program Committee, and credit will be determined on a course-by-course basis to satisfy the requirements of the degree. For credit to be accepted from an outside institution, a student must have earned course grades of “B” (“B-” is not acceptable) or better.

A. 6 semester credit hours of Doctoral Core Courses:

ANT 6603 Ecological Anthropology
ANT 6703 Human Population Ecology

B. 18 semester credit hours of Foundational Courses:

ANT 5023 History, Method, and Theory of Archaeology
ANT 5033 Theory in Cultural Anthropology
ANT 5073 Advanced Biological Anthropology
ANT 5583 Teaching Anthropology
ANT 6303 Seminar in Research Design and Proposal Writing

ANT 6353 Field Research Methods in Cultural Anthropology
or
ANT 6623 Seminar in Analytical Methods in Archaeology
or
approved coursework in other analytical techniques

C. 18 semester credit hours of Designated Elective courses, distributed as follows:

1. 6 semester credit hours of Theory Electives selected from the following:

ANT 5283 Hunters and Gatherers
ANT 5483 Landscape and Settlement
ANT 5573 Anthropology and Science
ANT 6133 Seminar in Medical Anthropology
ANT 6203 Seminar in Recent Trends in Archaeological Method and Theory
ANT 6643 Seminar in Culture and Economy
ANT 6713 Seminar in Primate Behavioral Ecology
ANT 6853 Topics in Human Evolution
ANT 6903 Anthropology of Gender

2. 9 semester credit hours of Applied and Area Electives selected from the following:

ANT 5043 Seminar in Laboratory Methods in Anthropology
ANT 5413 Seminar in the Prehistory of Texas and Adjacent Areas
ANT 5453 Seminar in the Archaeology of the American Southwest and Adjacent Regions
ANT 5563 Seminar in Andean Archaeology and Ethnography
ANT 5556 Field Course in Archaeology
ANT 6113 Seminar in the Anthropology of Mesoamerica
ANT 6213 Topics in the Anthropology of Native North America
ANT 6223 The Archaeology of Household and Residence
ANT 6503 Seminar in Cultural Resource Management
ANT 6653 Spatial Techniques in Anthropology
ANT 6723 Seminar in Culture, Environment, and Conservation
ANT 6803 Medical Ecology
ANT 6823 Human-Animal Relations
ANT 6923 Conservation of Primates and Other Threatened Species
ANT 6973 Special Problems

3. 3 semester credit hours of coursework outside the student’s area of concentration

D. 9 semester credit hours of Free Elective courses chosen in consultation with the student’s advisor

E. 3 semester credit hours of ANT 7003 Dissertation Proposal (after successful completion of the qualifying examination and nearing the completion of organized coursework)

F. Doctoral Research and Dissertation (minimum 24 semester credit hours):
   - ANT 7011-3 Directed Doctoral Research (12 hours minimum)
   - ANT 7021-3 Doctoral Dissertation (12 hours minimum)

**Qualifying Examination.** Students may take the qualifying examination upon successful completion of 30 hours of coursework; this coursework must include all required Doctoral Core and Foundation courses. At least two months prior to taking the qualifying examination, the student and the Supervising Professor will select an Advisory Committee, which needs to be approved by the Ph.D. Graduate Advisor of Record, and schedule dates for the qualifying examination. The examination consists of three written literature reviews in areas most relevant to the student’s research and will cover issues of geographical/topical, methodological, and theoretical relevance. It is intended that the qualifying examination will lay the groundwork for subsequent dissertation research.

**Earning a Master’s Degree.** Students who pass their qualifying examinations will be awarded the M.A. degree, and will be given permission to work toward completion of doctoral requirements. Students who fail their qualifying examinations may be given one of two options by their Advisory Committees. Those options are: permission to retake all or portions of the examination; or, permission to pursue a terminal M.A. degree according to the requirements of that degree program.

**Proficiency in Foreign Language, Statistics, or Computer Programming.** Doctoral students are required to have proficiency in a foreign language, statistics, or computer programming as deemed necessary by the Graduate Program Committee. This requirement must be fulfilled prior to the oral defense of the dissertation proposal. Should coursework be necessary, students may apply their credit hours to the free electives requirement of the Doctoral degree.

**Doctoral Dissertation Proposal.** Students are required to produce a dissertation proposal that will be submitted to their Advisory Committee for review. This will occur following successful completion of the qualifying examination, and as students near completion of required coursework (51 semester credit hours). Students will enroll in 3 credit hours of ANT 7003 (Dissertation Proposal), in order to conduct preliminary research and write a successful proposal. Students must orally defend the proposal in order to qualify for doctoral degree candidacy.

**Dissertation Committee.** Following successful defense of the dissertation proposal, the student and the Supervising Professor will select a Dissertation Committee, which needs to be approved by the Dean of the College and the Dean of the Graduate School (see Chapter 5, Doctoral Degree Regulations, for further information on requirements of committee composition).

**Advancement to Candidacy.** Doctoral students can apply for admission to candidacy once they have met all requirements for the Doctoral degree other than dissertation research and write-up. The requirements include successfully completing all coursework, passing the qualifying examination, passing a foreign language examination or demonstrating statistical or computer competency, as applicable, submitting and successfully defending the dissertation proposal, and forming a dissertation committee approved by the University.
Dissertation. Candidates must demonstrate their ability to conduct independent research by completing and defending an original dissertation that makes a significant contribution to the field. The student, in consultation with his or her Supervising Professor, determines the research topic. The student’s Dissertation Committee will guide and critique the candidate’s research. The Dissertation Committee must unanimously approve the completed dissertation. The dissertation shall then be defended publicly before the Dissertation Committee. Students should be continually registered in Directed Doctoral Research (ANT 7011-3) and Doctoral Dissertation (ANT 7021-3) each semester the dissertation is in progress.

Final Oral Examination. Students must orally defend their dissertation as the final degree requirement. The Supervising Professor must notify the Graduate School in writing at least two weeks prior to the final scheduled oral defense. Awarding of the degree is based on the approval of the Dissertation Committee and the acceptance of the Graduate School. The Dean of the Graduate School certifies the completion of all University-wide requirements (see Chapter 5, Doctoral Degree Regulations, for further information).

Program of Study for Students Admitted With a Master’s Degree

Students who are accepted into the Doctoral Program with Master’s degrees in anthropology from accredited institutions may receive approval to transfer up to 30 hours of their Master’s-level coursework. Outside coursework will be reviewed by Anthropology’s Graduate Program Committee. Each student’s transcript will be evaluated by the Graduate Program Committee, and credit will be determined on a course-by-course basis to satisfy the requirements of the degree. The Committee has the option of requiring or recommending additional courses if it is deemed that the student has not obtained a background equivalent to training at UTSA. For credit to be accepted from an outside institution, a student must have earned course grades of “B” (“B-” is not acceptable) or better.

To complete their Ph.D. program of study, students entering the program with an acceptable Master’s degree and 30 hours of transfer credit must complete the following requirements:

A. A minimum of 21 hours of coursework chosen in consultation with the Graduate Program Committee from the following domains:

1. Doctoral Core Courses:

   ANT 6603  Ecological Anthropology
   ANT 6703  Human Population Ecology

2. Foundational Courses:

   ANT 5023  History, Method, and Theory of Archaeology
   ANT 5033  Theory in Cultural Anthropology
   ANT 5073  Advanced Biological Anthropology
   ANT 5583  Teaching Anthropology
   ANT 6303  Seminar in Research Design and Proposal Writing

   ANT 6353  Field Research Methods in Cultural Anthropology
   Or
   ANT 6623  Seminar in Analytical Methods in Archaeology
   Or
   approved coursework in other analytical techniques

3. Designated Elective courses, distributed among the following two categories:

   Theory Electives
   ANT 5283  Hunters and Gatherers
   ANT 5483  Landscape and Settlement
   ANT 5573  Anthropology and Science
ANT 6133 Seminar in Medical Anthropology
ANT 6203 Seminar in Recent Trends in Archaeological Method and Theory
ANT 6643 Seminar in Culture and Economy
ANT 6713 Seminar in Primate Behavioral Ecology
ANT 6853 Topics in Human Evolution
ANT 6903 Anthropology of Gender

Applied and Area Electives
ANT 5043 Seminar in Laboratory Methods in Anthropology
ANT 5413 Seminar in the Prehistory of Texas and Adjacent Areas
ANT 5453 Seminar in the Archaeology of the American Southwest and Adjacent Regions
ANT 5563 Seminar in Andean Archaeology and Ethnography
ANT 5556 Field Course in Archaeology
ANT 6113 Seminar in the Anthropology of Mesoamerica
ANT 6213 Topics in the Anthropology of Native North America

ANT 6823 Human-Animal Relations
ANT 6923 Conservation of Primates and Other Threatened Species
ANT 6973 Special Problems

B. 3 semester credit hours of ANT 7003 Dissertation Proposal (after successful completion of the qualifying examination and nearing the completion of organized coursework)

C. Doctoral Research and Dissertation (minimum 24 semester credit hours):

ANT 7011-3 Directed Doctoral Research (12 hours minimum)
ANT 7021-3 Doctoral Dissertation (12 hours minimum)

Qualifying Examination. Students may take the qualifying examination upon successful completion of 30 hours of coursework; this coursework must include all required Doctoral Core and Foundation courses. At least two months prior to taking the qualifying examination, the student and the Supervising Professor will select an Advisory Committee, which needs to be approved by the Ph.D. Graduate Advisor of Record, and schedule dates for the qualifying examination. The examination consists of three written literature reviews in areas most relevant to the student’s research and will cover issues of geographical/topical, methodological, and theoretical relevance. It is intended that the qualifying examination will help lay the groundwork for subsequent dissertation research.

Proficiency in Foreign Language, Statistics, or Computer Programming. Doctoral students are required to have proficiency in a foreign language, statistics, or computer programming as deemed necessary by the Graduate Program Committee. This requirement must be fulfilled prior to the oral defense of the dissertation proposal. Should coursework be necessary, students may apply their credit hours to the free electives requirement of the Doctoral degree.

Doctoral Dissertation Proposal. Students are required to produce a dissertation proposal that will be submitted to their Advisory Committee for review. This will occur following successful completion of the qualifying examination, and as students near completion of required coursework (51 semester credit hours). Students will enroll in 3 credit hours of ANT 7003 (Dissertation Proposal), in order to conduct preliminary research and write a successful proposal. Students must orally defend the proposal in order to qualify for doctoral degree candidacy.

Dissertation Committee. Following successful defense of the dissertation proposal, the student and the Supervising Professor will select a Dissertation Committee, which needs to be approved by the Dean of the College and the Dean of the Graduate School (see Chapter 5, Doctoral Degree Regulations, for further information on requirements of committee composition).
Advancement to Candidacy. Doctoral students can apply for admission to candidacy once they have met all requirements for the Doctoral degree other than dissertation research and write-up. The requirements include successfully completing all coursework, passing the qualifying examination, passing a foreign language examination or demonstrating statistical or computer competency, as applicable, submitting and successfully defending the dissertation proposal, and forming a dissertation committee approved by the University.

Dissertation. Candidates must demonstrate their ability to conduct independent research by completing and defending an original dissertation that makes a significant contribution to the field. The student, in consultation with his or her Supervising Professor, determines the research topic. The student’s Dissertation Committee will guide and critique the candidate’s research. The Dissertation Committee must unanimously approve the completed dissertation. The dissertation shall then be defended publicly before the Dissertation Committee. Students should be continually registered in Directed Doctoral Research (ANT 7011-3) and Doctoral Dissertation (ANT 7021-3) each semester the dissertation is in progress.

Final Oral Examination. Students must orally defend their dissertation as the final degree requirement. The Supervising Professor must notify the Graduate School in writing at least two weeks prior to the final scheduled oral defense. Awarding of the degree is based on the approval of the Dissertation Committee and the acceptance of the Graduate School. The Dean of the Graduate School certifies the completion of all University-wide requirements (see Chapter 5, Doctoral Degree Regulations, for further information).

COURSE DESCRIPTIONS
ANTHROPOLOGY
(ANT)

5023 History, Method, and Theory of Archaeology
(3-0) 3 hours credit.
A survey of the history and development of archaeology, research techniques, and method and theory of prehistoric research. May be repeated for credit with different instructors.

5033 Theory in Cultural Anthropology
(3-0) 3 hours credit.
This course surveys the main conceptual, methodological, and theoretical developments in cultural anthropology. (Formerly titled “Paradigms of Americanist Anthropology.”)

5043 Seminar in Laboratory Methods in Anthropology
(3-0) 3 hours credit.
This seminar reviews the physical and technical aspects of analysis of anthropological materials. May be repeated for credit when topics vary.

5073 Advanced Biological Anthropology
(3-0) 3 hours credit.
An intensive review of the history of biological anthropology and current developments in method and theory. Topics will be drawn from the four major areas of biological anthropology: genetics and evolutionary theory, human variation and adaptation, primatology, and paleoanthropology.

5283 Hunters and Gatherers
(3-0) 3 hours credit.
A study of the major issues archaeologists address concerning the cultural ecology and cultural evolution of hunters and gatherers around the world.

5413 Seminar in the Prehistory of Texas and Adjacent Areas
(3-0) 3 hours credit.
Intensive study of prehistoric and early historic aboriginal cultures of Texas and adjacent areas. Focus is on problems of interpretation, current archaeological research of the region, and the impact of federal legislation on Texas archaeology.
5453  Seminar on the Archaeology of the American Southwest and Adjacent Regions  
(3-0) 3 hours credit. 
Review of the major prehistoric cultures of the American Southwest, including the Anasazi, Mogollon, and Hohokam cultural regions and adjacent areas. Emphasis is on current research.

5483  Landscape and Settlement  
(3-0) 3 hours credit. 
This course explores the wide array of data and theories used to identify and explain the patterned distribution of human activity. The significance of settlement pattern data is underscored, and relationships between data and theory are critically evaluated.

5556  Field Course in Archaeology  
(2-12) 6 hours credit. Prerequisite: Consent of instructor. 
The opportunity for advanced training in field procedures and their applications to problem-oriented field research. 
May be repeated for credit.

5563  Seminar in Andean Archaeology and Ethnography  
(3-0) 3 hours credit. 
This seminar focuses on Andean anthropology from the perspective of archaeology, ethnology and ethnohistory. Topics include the development of civilizations such as Tiwanaku and the Inka, the Colonial period, and the politics of indigenism and the state. May be repeated for credit when topics vary.

5573  Anthropology and Science  
(3-0) 3 hours credit. 
This course examines anthropology’s historical and ongoing relationship to science, scientific theory and the ethnography of science. Attention is paid to methodological, epistemological and ontological debates as they inform current practices.

5583  Teaching Anthropology  
(3-0) 3 hours credit. 
This course provides students with the opportunity to examine key pedagogical issues that instructors confront in the construction and implementation of a semester-long undergraduate course. Emphasis will be placed on discipline-specific concerns and approaches to teaching. Basic areas of exploration include: fundamentals of putting together a class; educational technology; pedagogical theory and practice; and consideration of changes in higher education and the nature of the job market for academics.

6113  Seminar in the Anthropology of Mesoamerica  
(3-0) 3 hours credit. 
Attention is centered on a limited number of significant problems in Mesoamerican anthropology to which materials from archaeology, ethnology, and ethnohistory contribute. Examples of such problems are demography and the rise of Mayan civilization, roots of Mesoamerican peasant culture, and distribution analysis of cultural and language variance. May be repeated for credit when topics vary.

6133  Seminar in Medical Anthropology  
(3-0) 3 hours credit. 
This course offers a study of selected topics in contemporary theories and their application in medical anthropology. Topics include cross-cultural and biocultural approaches to the study of sickness, healing, and healing systems; critical approaches to the study of biomedicine, globalization and international health; meaning-centered approaches to understanding the experience of suffering and pain; and ecological approaches to understanding the relationship between human health, cultural processes, and the environment.
6203 Seminar in Recent Trends in Archaeological Method and Theory
(3-0) 3 hours credit.
A survey of major issues in archaeological method and theory. Attention is focused on recent methodological and theoretical developments in archaeology. May be repeated for credit with different instructors.

6213 Topics in the Anthropology of Native North America
(3-0) 3 hours credit.
An organized course examining topics of current interest to anthropologists with a focus on North America. May be repeated for credit.

6223 The Archaeology of Household and Residence
(3-0) 3 hours credit.
This course examines the data, methods, and theories used to reconstruct the composition and activities of domestic groups. The relevance of household studies in archaeology is stressed through inspection of the economic, political, and ideological links between domestic groups and broader social formations.

6303 Seminar in Research Design and Proposal Writing
(3-0) 3 hours credit.
This course familiarizes students with the philosophical foundations of social science research, the structure and types of research designs, and pragmatic considerations of data acquisition and analysis. The relationship between theory and research design and methods is emphasized. The final project is a scholarly research proposal.

6353 Field Research Methods in Cultural Anthropology
(3-0) 3 hours credit.
The study and practice of field research methods of cultural anthropology emphasizing participant observation and use of informants.

6443,6 Supervised Field Research
3 or 6 hours credit. Prerequisite: Consent of instructor.
The course is designed to offer the opportunity for intensive training and requires the student to carry out independent research and analysis of field data. The grade report for the course is either “CR” (satisfactory performance) or “NC” (unsatisfactory performance). May be repeated for credit.

6503 Seminar in Cultural Resource Management
(3-0) 3 hours credit.
This seminar reviews the legislative basis, practical application, and current state of cultural resource management in Texas and the United States.

6603 Ecological Anthropology
(3-0) 3 hours credit. Prerequisite: Admission to the Doctoral Program in Anthropology.
This course explores anthropology’s engagements with the environment, emphasizing historical trends and recent developments across the discipline. Explicit attention is paid to empirical studies and to the theories and assumptions anthropologists have brought to their research.

6623 Seminar in Analytical Methods in Archaeology
(3-0) 3 hours credit.
Basic quantitative and qualitative approaches to the analysis and interpretation of archaeological field and laboratory data are reviewed. (Formerly ANT 5513. Credit cannot be earned for both ANT 6623 and ANT 5513.)

6643 Seminar in Culture and Economy
(3-0) 3 hours credit.
This course offers a background in economic anthropology through the study of production, distribution, and consumption from a cross-cultural perspective. Topics may include: the history of economic approaches in anthropology; comparisons of economies across different scales of complexity; the articulation of capitalist and noncapitalist modes of production; and resource extraction, management, and development in various cultural and political contexts.
6653 Spatial Techniques in Anthropology
(3-0) 3 hours credit.
This course explores the main theories and techniques underlying spatial analysis, the operation of geographic information systems, and the use of digital and remotely sensed imagery.

6703 Human Population Ecology
(3-0) 3 hours credit. Prerequisite: Admission to the Doctoral Program in Anthropology.
A synthesis of core constructs in population ecology as they apply to the anthropological study of human populations. The focus is on understanding biocultural variables and multiplicity of causality in human population ecology. Topics include human demography and reproductive ecology; behavioral ecology and life history theory; epidemiology and the environmental history of human health and disease; conflict and cooperation within and between human populations; and, sustainability and the human impact on the natural environment.

6713 Seminar in Primate Behavioral Ecology
(3-0) 3 hours credit.
This course draws from current literature in primate behavioral ecology. Topics include kinship and dominance, feeding competition, mating strategies, and social organization. The contribution of primate studies to understanding human evolution is considered. May be repeated for credit when topics vary. (Formerly ANT 5733. Credit cannot be earned for both ANT 6713 and ANT 5733.)

6723 Seminar in Culture, Environment, and Conservation
(3-0) 3 hours credit.
This course takes an anthropological approach to the analysis of environmental conservation. The core readings focus on community-based projects that join actors across cultural and political divides. Students will engage critiques of conservationist ideology and practice in order to envision more effective ways to protect threatened environments and the rights of their human and nonhuman inhabitants.

6803 Medical Ecology
(3-0) 3 hours credit.
This seminar draws on different anthropological approaches to understanding the relationship between human health and the environment. Topics include the political ecology of health; ecology and evolution of health and illness; health, development and global change; and praxis-oriented perspectives on environmental health.

6823 Human-Animal Relations
(3-0) 3 hours credit.
This course is centered on the interactions between human and nonhuman animals. Topics may include animal histories, agencies and behaviors; the role of animals in biotechnology, research, and agricultural practices; domesticates and companion species; animal rights and human values; cross-cultural classification and the social construction of animals.

6853 Topics in Human Evolution
(3-0) 3 hours credit.
This course examines evolutionary theory, hominid taxonomy and selected topics in human evolution. Topics may include hominin origins, cerebral expansion and the emergence of culture, modern human origins, and the role of environmental change in human evolution. May be repeated for credit with approval of instructor.

6903 Anthropology of Gender
(3-0) 3 hours credit.
This course offers a critical assessment of disciplinary approaches to understanding sexuality, gender roles, and social and biological reproduction. Additional consideration is given to how femininity and masculinity have been represented in anthropological research and texts.
6923  Conservation of Primates and Other Threatened Species
(3-0) 3 hours credit.
Ecological and anthropological examination of contemporary problems and issues regarding the conservation of threatened species, with an emphasis on non-human primates. Topics to be covered include successes and failures in the conservation arena; deforestation, fragmentation, and habitat loss; hunting and the pet trade; genetics of conservation; effects of species loss on ecological communities; and efficacy of community-conservation approaches focused on local human populations.

6931-3  Internship in Anthropology
1 to 3 hours credit.
A supervised experience, relevant to the student’s program of study, within selected community organizations. Must be taken on a credit/no-credit basis. May be repeated for credit.

6951-3  Independent Study
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor, the Graduate Advisor of Record, and the Department Chair.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit.

6961  Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive Examination.
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6971-3  Special Problems
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when the topics vary.

6981-3  Master’s Thesis
1 to 3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

6991-3  Pre-Doctoral Research
1, 2, or 3 hours credit. Prerequisites: Consent of Supervising Professor and the Ph.D. Graduate Advisor of Record. Must be a doctoral student.
Supervised research conducted prior to completion of the qualifying examination. Pre-doctoral research hours do not apply to the doctoral program of study. The grade report for this course is either “CR” (satisfactory performance) or “NC” (unsatisfactory performance). May be repeated for credit.

7003  Dissertation Proposal
3 hours credit. Prerequisites: Consent of Supervising Professor and the Ph.D. Graduate Advisor of Record; must be a Doctoral student.
Preparation and writing of dissertation proposal. May be repeated for credit, but not more than 3 hours will apply to the Doctoral degree. The grade report for the course is either “CR” (satisfactory performance) or “NC” (unsatisfactory performance).
7011-3 Directed Doctoral Research
1 to 3 hours credit. Prerequisites: Permission of the Ph.D. Graduate Advisor of Record and dissertation director; must be a Ph.D. candidate.
Doctoral research and preparation. May be repeated for credit, but not more than 12 hours will apply to the doctoral degree. Enrollment in either ANT 7011-3 or ANT 7021-3, depending on progress, is required each term in which the dissertation is in progress.

7021-3 Doctoral Dissertation
1 to 3 hours credit. Prerequisites: Permission of the Ph.D. Graduate Advisor of Record and dissertation director; must be a Ph.D. candidate.
Preparation and writing of the Doctoral dissertation. May be repeated for credit, but not more than 12 hours will apply to the Doctoral degree. Enrollment in either ANT 7021-3 or ANT 7011-3, depending on progress, is required each term in which the dissertation is in progress.
DEPARTMENT OF ART AND ART HISTORY

Master of Fine Arts Degree in Art

The Master of Fine Arts (M.F.A.) degree in Art is the terminal degree in the field of studio art. UTSA is an accredited institutional member of the National Association of Schools of Art and Design. The emphasis of the M.F.A. program is on conceptual development and its harmony with formal aesthetic and art historical considerations. The objective of the degree is to provide advanced study in the field of art in preparation for a career as a practicing artist, in higher education, or as a professional in other art enterprises. Students in pursuit of the M.F.A. in Art have the opportunity to study in a wide range of disciplines including: ceramics, painting/drawing, photography, printmaking, sculpture, and video/digital.

Program Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, applicants are expected to have a Bachelor of Fine Arts degree or the equivalent. Equivalency is defined as completion of a minimum of 45 semester credit hours in studio art and 15 semester credit hours in art history as part of, or in addition to, a bachelor’s degree.

Application. The Graduate application for the M.F.A. is available online at www.utsa.edu/graduate/. A complete application includes the application form, personal contact information, educational background, transcripts, a statement of intent concerning graduate school, an artist’s statement about the applicant’s work, and three letters of recommendation (forms printable from the online application). The Graduate Record Examination (GRE) is not required as part of the application for the M.F.A.

Portfolio. The portfolio is the most important part of the application for admission. Applicants should submit 20 images that best exemplify their most recent creative work. Do not send original works of art. Portfolios may be submitted as twenty 35mm slides with an attached sheet listing titles, dates, dimensions, and media of each work or as a CD PowerPoint presentation with the same information. Video should be submitted on DVD labeled with titles, dates, total running time. No more than fifteen minutes will be reviewed. Please do not use adhesive labels on CD/DVD discs—label with permanent marker.

The portfolio must be submitted directly to: Graduate Advisor of Record, The Department of Art and Art History, One UTSA Circle, San Antonio, TX 78249.

Deadlines for receipt of portfolios are:

- Application for the Fall Semester: February 1
- Application for the Spring Semester: October 1

Note: Due to the format of studio laboratory art courses, auditing is not permitted.

Degree Requirements. A minimum of 60 semester credit hours is required for the Master of Fine Arts degree, exclusive of coursework or other study required to remove admission deficiencies. Full-time enrollment of 9 or more semester credit hours during regular semesters is expected of degree-seeking students. In addition to satisfying all University-wide requirements, M.F.A. students must pass a First Semester Review, a Candidacy Review, and a final M.F.A. Oral Examination. Courses in which a grade of “C” or lower is earned will not count toward the minimum 60 hours required for the M.F.A. degree.

Degree candidates must complete the following requirements:

- A focused program of study in studio art including ART 6023 Graduate Studio Seminar 30 hours
- Art electives outside the student’s specialized area of study 12 hours
- Free Elective 3 hours
- Art history and criticism including AHC 5123 Seminar in Research Methods and Writing 12 hours
- ART 6843 Master of Fine Arts Exhibition 3 hours
COURSE DESCRIPTIONS

ART
(ART)

5153 Painting/Drawing
(0-6) 3 hours credit. Prerequisite: B.F.A. or equivalent.
The exploration of painting/drawing’s broad capacity for conceptual and formal inquiry. May be repeated for credit.

5353 Printmaking
(0-6) 3 hours credit. Prerequisite: B.F.A. or equivalent.
Emphasis on intaglio, lithography, monotype, relief, and photo processes in black and white and color. Experimentation in processes and imagery is encouraged. May be repeated for credit.

5453 Photography
(0-6) 3 hours credit. Prerequisite: B.F.A. or equivalent.
Emphasis on the medium as an art form, including black and white, color, and nonsilver processes. May be repeated for credit.

5553 Sculpture
(0-6) 3 hours credit. Prerequisite: B.F.A. or equivalent.
Emphasis on the creative development of sculptural ideas in a variety of materials and technical methods and approaches. May be repeated for credit.

5753 Ceramics
(0-6) 3 hours credit. Prerequisite: B.F.A. or equivalent.
Emphasis on the discipline as an expressive art form, using a variety of technical processes and materials and approaches to ceramics. May be repeated for credit.

5953 Video/Digital
(0-6) 3 hours credit. Prerequisite: B.F.A. or equivalent.
Investigation of concepts and forms through the integration of video and other digital media into fine arts practice using a variety of materials and methods. May be repeated for credit.

6013 Practicum in the Visual Arts
3 hours credit. Prerequisite: Consent of instructor.
Students participate in projects on an individual basis. These may include community-oriented activities such as workshops for community centers, special art programs for public or private educational organizations, service projects for displays, murals and exhibitions for special environments, or supervised assistance in instructional activities. The instructor supervises and evaluates the student’s activities. May be repeated once for credit.

6023 Graduate Studio Seminar
(0-6) 3 hours credit. Prerequisite: Graduate standing.
An organized class concerned with the exploration of current formal and conceptual problems in art through discussions, critiques, and work executed for the class in the student’s major field: painting, drawing, printmaking, sculpture, photography, or ceramics. May be repeated for credit.

6843 Master of Fine Arts Exhibition
3 hours credit. Prerequisite: Completion of studio course requirements in the major.
Concentrated studio activity in the major field of study emphasizing preparation of work for the concluding exhibition, in consultation with the Graduate Advisor of Record and upon approval of the Graduate Program Committee in the program.
6953  Independent Study
3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the
Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students desiring
specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit,
but not more than 6 hours, regardless of discipline, will apply to the Master of Fine Arts degree.

6973  Special Problems
(0-6) 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of
the regular course offerings. May be repeated for credit when topics vary, but not more than 6 hours, regardless of
discipline, will apply to the Master of Fine Arts degree.

Master of Arts Degree in Art History

The Master of Arts degree in Art History offers the opportunity for advanced study in art history, with an emphasis on Spanish,
pre-Columbian, Latin American Colonial to Modern, and contemporary Hispanic art in the United States; contemporary United
States art and criticism; and the cultural and artistic traditions of San Antonio’s immediate region. The degree is designed to
prepare the student for a career as a teacher of art history at the junior-college level and other arts-related professions or to serve
as a basis for entering doctoral studies elsewhere.

Program Admission Requirements. In addition to the University-wide graduate admission requirements, applicants are
expected to have completed an undergraduate major (24 semester credit hours) in art history or the equivalent in related fields
that combine substantial studies in the humanities and visual arts. Students with no studio background will be required to take
one undergraduate studio art course.

Application Materials. Application to the program is submitted online through the Graduate School’s Web site
(www.utsa.edu/graduate/). Students can obtain information, detailed instructions of what additional material they must submit
(three letters of recommendation, Graduate Record Examination (GRE) scores, official transcripts, a writing sample, and
statement of intent), as well as forms, from the following Web site: www.utsa.edu/graduate/. Deadlines for all materials for
each term can be found on the same Web site.

Degree Requirements. The minimum number of semester credit hours required for this degree, exclusive of coursework or
other study required to remove admission deficiencies, is 36. Students are required to pass a language examination demonstrating
a reading knowledge of a foreign language; in most cases, this will be Spanish. The suitability of another language will be
determined by the student’s advisor. This test should be completed before the student earns 18 semester credit hours of graduate
work in this program. Courses in which a grade of “C” or lower is earned will not count toward the minimum 36 semester credit
hours required for the Master of Arts degree in Art History.

Degree candidates must complete the following requirements:

A. 3 semester credit hours required:
   AHC  5123  Seminar in Research Methods and Writing (must be taken in student’s first year)

B. 21 semester credit hours of art history electives approved by the student’s advisor, selected from the following and
distributed across the disciplines offered by the program:

   AHC  5813  Topics in Art History
   AHC  5823  Topics in Mesoamerican Pre-Columbian Art
   AHC  5833  Topics in Spanish Art
   AHC  5843  Topics in Latin American Colonial Art
   AHC  5853  Topics in Contemporary Latin American Art
AHC  5863  Topics in Contemporary U.S. Art
AHC  6813  Practicum in Art History and Criticism
AHC  6833  Art Gallery and Museum Practices
AHC  6843  Project in Art History
AHC  6913  Seminar in Art History

C.  6 semester credit hours of free electives. These are courses outside the discipline of art history in the supporting fields of Spanish, history, anthropology, or studio art (as approved by the Art History Advisor).

D.  6 semester credit hours of AHC 6983 Master’s Thesis.

In addition to the semester credit hour requirements set forth above, all candidates for the degree are required to pass the Comprehensive Examination, a slide and essay examination designed to test students’ knowledge of the history of European art, art of the Americas, and areas of concentration. The Comprehensive Examination is normally taken during or immediately after the semester in which students complete their coursework and before completion of the thesis.

COURSE DESCRIPTIONS
ART HISTORY AND CRITICISM
(AHC)

5123  Seminar in Research Methods and Writing
(3-0) 3 hours credit. Prerequisite: Graduate standing.
A basic methodology course designed to offer the opportunity for the graduate student to gain an introduction to all facets of the discipline of art history and criticism, including research, documentation, and historical and critical writing.

5813  Topics in Art History
(3-0) 3 hours credit. Prerequisites: Graduate standing and completion of or concurrent enrollment in AHC 5123.
A course designed to deal with specialized areas in art history and criticism. May be repeated for credit when topics vary.

5823  Topics in Mesoamerican Pre-Columbian Art
(3-0) 3 hours credit. Prerequisites: Graduate standing and completion of or concurrent enrollment in AHC 5123.
A critical and historical study of specific developments in the pre-Columbian art of Mesoamerica. May be repeated for credit when topics vary.

5833  Topics in Spanish Art
(3-0) 3 hours credit. Prerequisites: Graduate standing and completion of or concurrent enrollment in AHC 5123.
A critical and historical study of specific aspects of Spanish art and architecture, from 711 to the nineteenth century. May be repeated for credit when topics vary.

5843  Topics in Latin American Colonial Art
(3-0) 3 hours credit. Prerequisites: Graduate standing and completion of or concurrent enrollment in AHC 5123.
A critical and historical study of specific topics in South and Central American art and architecture from 1500 through the early nineteenth century. May be repeated for credit when topics vary.

5853  Topics in Contemporary Latin American Art
(3-0) 3 hours credit. Prerequisites: Graduate standing and completion of or concurrent enrollment in AHC 5123.
A critical and historical study of issues in contemporary Latin American art. May be repeated for credit when topics vary.
5863  Topics in Contemporary U.S. Art  
(3-0) 3 hours credit. Prerequisites: Graduate standing and completion of or concurrent enrollment in AHC 5123.  
Specific directions in modern and contemporary art history, with emphasis on critical theory. May be repeated for credit when topics vary.

6813  Practicum in Art History and Criticism  
3 hours credit. Prerequisites: Graduate standing, consent of instructor, and completion of or concurrent enrollment in AHC 5123.  
A learning laboratory in which the principles and methodologies of art history, art criticism, and museology are applied in a practical manner outside the classroom in areas such as museum and gallery activities, historical preservation, research for private collections, and community-oriented educational or informational functions and publications. Projects are initiated by students, with close supervision and evaluation by the instructor. May be repeated for credit, but not more than 6 hours will apply to the Master of Arts degree in Art History.

6833  Art Gallery and Museum Practices  
3 hours credit. Prerequisites: Graduate standing, consent of instructor, and completion of or concurrent enrollment in AHC 5123.  
An introduction to the organization and operation of gallery and/or museum activities: cataloging, research, and preparation and installation of art exhibitions. May be repeated once for credit.

6843  Project in Art History  
3 hours credit. Prerequisites: Permission of the Graduate Advisor and project director.  
A professional project in art history. Projects include but are not limited to historic preservation, publications, and exhibition curation. May be repeated for credit, but not more than 6 hours will apply to the Master of Arts degree in Art History.

6913  Seminar in Art History  
(3-0) 3 hours credit. Prerequisites: Graduate standing and completion of or concurrent enrollment in AHC 5123.  
A research course dealing with a particular problem or aspect of art history and criticism. Topics include but are not limited to Mayan vase painting, the Hispanic retablo, Francisco Goya, images of women in Latin American colonial art, Frida Kahlo, Marcel Duchamp, and contemporary Latino/a painters. May be repeated for credit when topics vary.

6951-3  Independent Study  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the Graduate Advisor of Record.  
Independent reading, research, discussion, and/or critical writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master of Arts Degree in Art History.

6961  Comprehensive Examination  
1 hour credit. Prerequisite: Approval of the appropriate graduate program committee to take the Comprehensive Examination.  
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination). Credit earned in AHC 6961 cannot be counted in the 36 semester credit hours required for the Master of Arts degree in Art History.

6983  Master’s Thesis  
3 hours credit. Prerequisites: Permission of the Graduate Advisor and thesis director.  
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master of Arts degree in Art History. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.
DEPARTMENT OF COMMUNICATION

Master of Arts Degree in Communication

The Master of Arts Degree in Communication offers students the opportunity to pursue advanced study in Communication. This program is grounded in the concept of Integrated Communication and encourages students’ development of broad perspectives in applying research, discovery, critical thinking, and creative enterprise to addressing the practical needs of individuals and groups in a variety of settings. The faculty intend to develop students’ knowledge and skills in communication that are requisite for success in leadership, scholarship, and/or creative endeavors in business, public sector, and nonprofit environments.

Admission Requirements. In addition to satisfying University-wide admission requirements, applicants must meet the following Communication requirements for unconditional admission:

1. Submit scores from the Graduate Record Examination (GRE) general test.

2. Provide two letters of recommendation from academic sources with the option of an additional letter from either an academic or a professional source (no more than three letters should be submitted). Letters from academic sources are expected, but if the applicant has been out of school for a significant period of time, letters from professional sources who can attest to the applicant’s academic potential may be considered.

3. Provide a statement of purpose, 500–750 words in length, describing the applicant’s academic and other qualifications to be admitted to this program, areas of interest in the program, and goals related to pursuing the Master’s degree in Communication.

The number of students admitted to this program may be limited.

Degree Requirements. Upon the recommendation and approval of the graduate advisor, students will pursue one of three degree options: a Thesis option, a Project option, or a Comprehensive Examination Only option. The minimum number of semester credit hours required for this degree is 36, exclusive of coursework or other study required to remove admission deficiencies. Any grade lower than “B” (3.0 on a 4.0 scale) in a graduate course will not count toward the 36 semester credit hours of coursework required in items A through D.

Candidates for the degree must complete the following requirements:

A. 15 semester credit hours of core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>COM 5003</td>
<td>Introduction to Graduate Studies in Comm.</td>
</tr>
<tr>
<td>COM 5013</td>
<td>Communication Theory</td>
</tr>
<tr>
<td>COM 5023</td>
<td>Quantitative Research Methods</td>
</tr>
<tr>
<td>COM 5033</td>
<td>Qualitative Research Methods</td>
</tr>
<tr>
<td>COM 5103</td>
<td>Theories and Applications of Communication</td>
</tr>
</tbody>
</table>

Note: COM 5003 Introduction to Graduate Studies in Communication must be taken in the student’s first semester of graduate coursework.

B. 9 semester credit hours (for the thesis or project option) or 15 semester credit hours (for the comprehensive examination only option) of prescribed electives in Communication in consultation with the Graduate Advisor of Record.

C. 6 semester credit hours of free electives in consultation with the Graduate Advisor of Record. These courses may be in Communication or outside the program, but courses must relate to the student’s program of study.

D. No more than a total of 6 semester credit hours from COM 6931-3 Directed Readings, COM 6941-3 Internship in Communication, and/or COM 6951-3 Independent Study may be applied to the Master’s degree.
E. Students pursuing the thesis or project option must complete COM 6983 Master’s Thesis (6 hours) or COM 6993 Master’s Project (6 hours). Students must complete at least 21 hours of coursework and maintain a 3.25 grade point average before they may enroll in COM 6983 Master’s Thesis or COM 6993 Master’s Project.

As soon as a student completes 12 hours of graduate coursework in Communication, he or she must meet with the Graduate Advisor of Record to devise a program of study.

In addition to the semester credit hours set forth above, candidates for the degree are required to pass the comprehensive examination. Students in the Thesis or Project option will present a written prospectus for approval by their thesis or project committee and defend the prospectus as the comprehensive examination; they will orally defend the final thesis or project before the committee. Students in the Comprehensive Examination Only option must successfully pass a written exam and then an oral defense tailored to the student’s program and specialized coursework. The comprehensive examination is offered each Fall and Spring semester. The comprehensive examination will normally be taken in the semester in which the candidate is due to complete his or her graduate study. Enrollment in COM 6961 is required each term in which the comprehensive examination is taken if no other courses are being taken that term. The comprehensive examination can only be taken twice.

### COURSE DESCRIPTIONS

#### COMMUNICATION (COM)

**5003 Introduction to Graduate Studies in Communication**
(3-0) 3 hours credit. Prerequisite: Admission to the Master of Arts Program in Communication or consent of instructor.
Tracks the development of research and practice in communication stressing integration of inquiry, theory, and practice as well as grounding in various areas of specialized study. Emphasis on the development of skills critical to success in graduate-level communication study.

**5013 Communication Theory**
(3-0) 3 hours credit. Prerequisite: Completion of or concurrent enrollment in COM 5003, or consent of instructor.
Critical review of the historical roots, major paradigms, and current status of communication theory. Special emphasis on the diversity of theoretical approaches and applications as well as the integral relationship of theory and research.

**5023 Quantitative Research Methods**
(3-0) 3 hours credit. Prerequisite: Completion of or concurrent enrollment in COM 5003, or consent of instructor.
Introduces social scientific approaches to communication inquiry. Focus is on design, measurement, and data analysis of quantitative research. Covers principal descriptive and inferential statistics (e.g., univariate and multivariate) applied in communication research. Demonstrates techniques in data analysis using computer programs. Students apply course concepts by evaluating and conducting research projects.

**5033 Qualitative Research Methods**
(3-0) 3 hours credit. Prerequisite: Completion of or concurrent enrollment in COM 5003, or consent of instructor.
Introduces humanistic approaches to communication inquiry. Focus is on design, coding, analysis, data interpretation, and reporting of qualitative research. Examines a variety of qualitative research methods as well as challenges facing researchers in diverse contexts. Students apply course concepts by evaluating and conducting research projects.

**5103 Theories and Applications of Communication**
(3-0) 3 hours credit. Prerequisites: Completion of or concurrent enrollment in COM 5003 and COM 5013.
Integration of theory and application in one or more contextual areas of communication, such as interpersonal communication, organizational communication, new media, international communication or intercultural communication. May be repeated for credit when topics vary, but not more than 6 hours will apply to the Master’s degree in Communication without the permission of the Graduate Program Committee.
5213  **Relational Communication**  
(3-0) 3 hours credit. Prerequisite: COM 5103.  
This course applies theories of interpersonal processes and communication principles in relational contexts, such as marriages, families, friendship, and others. This course emphasizes the use of theoretical frameworks for research investigation in human relational systems. The course includes integration of theory with research and/or practice.

5223  **Small Group Communication**  
(3-0) 3 hours credit. Prerequisite: COM 5103.  
An examination of communication processes in bona-fide groups such as interdisciplinary health care teams, community groups, and corporate teams. This course emphasizes the role and function of verbal and nonverbal communication in group processes of decision making, dialogue, and problem solving. The course includes integration of theory with research and/or practice.

5413  **Seminar in Organizations**  
(3-0) 3 hours credit. Prerequisite: COM 5103.  
Examination of communication processes in complex organizations such as culture, socialization, leadership, decision-making, diversity management, technologies, and methods for adapting to change through strategic planning and continuous process improvement. This course emphasizes the role of organizational communication theory and research in applied organizational settings. The course includes integration of theory with research and/or practice.

5423  **Organizational Implementation of Integrated Communication**  
(3-0) 3 hours credit. Prerequisite: COM 5103.  
Examination of communication and organizational development with external audiences such as managing integrated communication to enhance the dissemination, comprehension, acceptance, and application of information to achieve organizational goals. This course emphasizes the role of communication specialists as message managers for organizations. The course includes integration of theory with research and/or practice.

5613  **New Media Design and Production I**  
(3-0) 3 hours credit. Prerequisite: COM 5103.  
Introduction to information design. Advanced study of new media development. Hands-on skill development in creating digital elements for use in multimedia and combining these elements into interactive presentations. The course includes integration of theory with research and/or practice.

5623  **New Media Design and Production II**  
(3-0) 3 hours credit. Prerequisite: COM 5103.  
Advanced study of information design theories and practice. Emphasizes new media production techniques. The course includes integration of theory with research and/or practice.

5813  **International Communication**  
(3-0) 3 hours credit. Prerequisite: COM 5103.  
Exploration of global media systems, transnational information flows, and their impacts. Issues surrounding globalization, media representation, development communication and communication policy are examined. The course includes integration of theory with research and/or practice.

5823  **Intercultural Communication**  
(3-0) 3 hours credit. Prerequisite: COM 5103.  
Examination of communication dynamics in diverse societies and between different cultural communities. The interactions among communication, culture, and identity are explored within historical and contemporary perspectives. The course includes integration of theory with research and/or practice.

5973  **Topics in Communication**  
(3-0) 3 hours credit. Prerequisites: COM 5003 and COM 5103, or consent of instructor.  
Intensive study of one or more specific issues in communication. May be repeated for credit when topics vary, but not more than 9 hours will apply to the Master’s degree.
6931-3 Directed Readings
1 to 3 hours credit. Prerequisites: Graduate standing and permission of the Graduate Program Committee. Reading, research, discussion, and writing under the direction of a member of the graduate faculty. Enables students to explore/prepare an area of specialization when other appropriate classes are unavailable.

6941-3 Internship in Communication
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and Graduate Advisor of Record. Supervised experience, relevant to the student's program of study, within selected organizations. Must be taken on a credit/no-credit basis. Not more than 3 hours will apply to the Master's degree.

6951-3 Independent Study
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and Graduate Advisor of Record. Independent reading, research, discussion, project development and/or writing under the direction of a faculty member. Intended for specialized work not normally available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master's degree. May not be substituted for COM thesis or project courses.

6961 Comprehensive Examination
1 hour credit. Prerequisite: Approval of the Graduate Advisor of Record. Independent study course for the purpose of taking the Comprehensive Examination. May be repeated once. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination). Credit earned in COM 6961 may not be counted in the 36 hours required for the Master's degree in Communication.

6981-3 Master's Thesis
1 to 3 hours credit. Prerequisites: Written thesis proposal must be approved by the faculty advisor, the Graduate Advisor of Record, and the Graduate Program Committee prior to enrollment. Supervised thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master's degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

6991-3 Master's Project
1 to 3 hours credit. Prerequisites: Written project proposal must be approved by the faculty advisor, the Graduate Advisor of Record, and the Graduate Program Committee prior to enrollment. Supervised development and completion of a professional-quality project in the student's area. May be repeated for credit, but not more than 6 hours will apply to the Master's degree. Credit will be awarded upon completion of the project. Enrollment is required each term in which the project is in progress.
DEPARTMENT OF ENGLISH

Master of Arts Degree in English

The Master of Arts degree in English offers the student an opportunity to acquire a general knowledge of literatures written primarily in English, to understand the historical and cultural contexts in which that literature was produced, to develop skills in critical analysis, and to conduct literary, rhetorical, and linguistic research.

Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, the applicant must have completed at least 18 semester credit hours of work (exclusive of freshman courses) in English with a grade point average of 3.3 (on a 4.0 scale) in all work taken in English at the upper-division and graduate levels. This work must include at least 12 semester credit hours of upper-division English literature courses, and the student must have a grade point average of 3.3 in these courses. The applicant must submit scores from the Graduate Record Examination (GRE) General Test. If GRE scores are not available at the time of application, the scores must be reported prior to the applicant’s second semester in the program. These scores, considered in comparison with scores from applicants of similar socioeconomic background, will be used as one element in the evaluation of the applicant.

Degree Requirements. The minimum number of semester credit hours required for this degree, exclusive of coursework or other study required to remove admission deficiencies, is 36. Any grade lower than “B” in a graduate course will not count toward the 36 semester credit hours of coursework required in items A and B below.

Degree candidates must complete the following requirements:

A. 24 semester credit hours in the major, distributed as follows:

1. Core Courses. 6 semester credit hours required:
   - ENG 5013 Introduction to the Graduate Study of Literature (normally must be taken in the student’s first semester)
   - ENG 5053 Topics in Literary Genres

2. Prescribed electives. 18 semester credit hours, distributed as follows:
   - 6 semester credit hours of ENG literary study from before 1700, at least 3 of which must be ENG 5943 Topics in Major English Authors
   - 6 semester credit hours of ENG literary study between 1700 and 1900
   - 6 semester credit hours of ENG literary study after 1900, at least 3 of which must include the study of multiethnic literatures of the U.S.

   At least 3 hours of the above prescribed electives must include the study of American literature.

B. 12 semester credit hours of electives in graduate English. In consultation with the Graduate Advisor of Record, the student will select a program of elective courses in one of several specialized areas of study, such as the following:

   • Literature and/or Literary Theory
   • Linguistics and/or Rhetoric and Composition
   • Creative Writing
   • Post-colonial and Cultural Studies
   • Others as approved by the M.A. in English Graduate Program Committee

Students who have a grade point average of 3.3 or better, and with approval of the M.A. Graduate Advisor, may choose to include electives from outside of English.
Thesis option: Students who have completed 24 or more semester credit hours in an approved program of study with a grade point average of 3.5 or better, upon submission and approval of a thesis proposal to a Thesis Director and the Graduate Program Committee, may elect to include ENG 6983,6 Master’s Thesis in their 12 elective hours. Students choosing to write a creative thesis must have completed, among their approved electives, 6 hours of ENG 6043 Creative Writing or the equivalent; at least 3 of these 6 hours must be in the genre of the thesis.

As soon as a student completes 12 semester credit hours of graduate coursework in English, he or she must meet with the Graduate Advisor to draw up a program of study.

In addition to the semester-credit-hour requirements set forth above, candidates for the degree are required to pass the Comprehensive Examination. The Comprehensive Examination, composed of both written and oral portions, is offered two times a year, each Fall and Spring semester, and may be offered during the Summer term. The Comprehensive Examination may be taken only twice.

Graduate Certificate in Creative Writing

The Graduate Certificate in Creative Writing is a 12-credit-hour concentration available to degree-seeking students who have been admitted to any UTSA graduate program.

The Graduate Certificate in Creative Writing adds interdisciplinary breadth to a student’s course of study while increasing the depth and coherence of a student’s work in creative writing. Given the growing interest in creative writing in non-traditional disciplines of medicine, sociology, and psychology as well as in liberal arts, many students find this formal recognition of their work in Creative Writing to be a valuable credential in both academic and non-academic job markets. This certificate demands an active engagement in graduate-level creative writing classes. Students who are pursuing the Graduate Certificate also receive first consideration for graduate workshop registration.

Requirements for the Graduate Certificate include 12 semester credit hours of ENG 6043 Creative Writing repeated in any combination, but at least 3 hours must be taken in each genre (poetry and fiction). No course in which a grade lower than a “B” is earned may be used to complete a Graduate Certificate in Creative Writing.

Individuals interested in the Graduate Certificate in Creative Writing should contact the Graduate Office of the Department of English.

Doctor of Philosophy Degree in English

The Doctor of Philosophy (Ph.D.) degree in English offers students opportunities for advanced study and research in cross-cultural, transnational approaches to English language and literary studies, with coursework required in U.S. Latina/o literature and the theory and practice of teaching composition. The Ph.D. in English is awarded to candidates who complete all required coursework, demonstrate in-depth, cross-cultural knowledge of literature, language or composition and rhetoric, and produce an original contribution to their field of specialization.

The regulations for this degree comply with the general University requirements (refer to Chapter 2, General Academic Regulations, and Chapter 5, Doctoral Degree Regulations).

Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, the minimum requirements for admission to the Doctoral program in English are as follows:

1. The student must have a Master’s degree in English or a related discipline with a grade point average of 3.5 or better or a Bachelor’s degree in English or a related discipline with a grade point average of 3.5 or better.

2. A minimum of at least 18 upper-division and/or graduate hours in English literary studies with a grade point average of 3.5 or better.
In addition, applicants must submit:

1. A statement of purpose (2–3 pages).
2. A writing sample (minimum 15-page research paper).
3. Three letters of recommendation attesting to the student’s academic training, capability, and potential.
4. Graduate Record Examination (GRE) scores from both the General Test and the English Subject Test. These scores will be considered in comparison with scores from applicants of similar socioeconomic background.
5. Students who have received degrees from non-English speaking universities must submit Test of English as a Foreign Language (TOEFL) scores of no less than 550 (paper version), or 79 (Internet version).

**Degree Requirements.** The minimum number of semester credit hours required for this degree, exclusive of coursework or other study required to remove admission deficiencies, is 39 graduate hours beyond the Master’s degree.

Students who are accepted into the Doctoral program without a Master’s degree must complete all requirements for the Master of Arts degree in English or its equivalent. Courses in which students receive any grade lower than “B” will not count toward the 39 semester credit hours of coursework required in items A through D.

Degree candidates for the Doctoral degree must complete the following requirements:

A. Core Curriculum (9 semester credit hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 5183</td>
<td>Theory and Practice of Teaching Composition (OR if a course equivalent to ENG 5183 has already been taken, ENG 6023 Rhetoric and Composition: Text and Context)</td>
</tr>
<tr>
<td>ENG 6013</td>
<td>Theoretical and Research Methods</td>
</tr>
<tr>
<td>ENG 6053</td>
<td>Latina/o Studies: Text and Context</td>
</tr>
</tbody>
</table>

B. Seminars (9 semester credit hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 7053</td>
<td>Seminar: Latina/o Studies</td>
</tr>
<tr>
<td>ENG 7063</td>
<td>Seminar: Issues in Culture</td>
</tr>
<tr>
<td>ENG 7073</td>
<td>Seminar: Theory and Criticism</td>
</tr>
</tbody>
</table>

C. Electives:

1. Prescribed electives (3 semester credit hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 6023</td>
<td>Rhetoric and Composition: Text and Context (if not taken to fulfill core requirement) or Language and Linguistics or Cross Cultural Issues: Text and Context</td>
</tr>
</tbody>
</table>

2. Free electives (minimum 12 semester credit hours, including at least 6 in ENG graduate courses). The student, in consultation with an academic advisor and the Doctoral Advisor of Record, will select at least 12 hours of freely elected courses. Students will select coursework from available graduate courses in ENG or, with approval of the Graduate Program Committee, related disciplines.

D. Doctoral research (minimum 6 semester credit hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 7311-3</td>
<td>Doctoral Dissertation</td>
</tr>
</tbody>
</table>

The entire program of study must be approved by the student’s dissertation advisor, dissertation committee, and Graduate Program Committee, and must be submitted to the Dean of the Graduate School through the Dean of the College for final approval.
**Language Requirement.** In addition to fluency in English, students must demonstrate proficiency in Spanish or another language that is approved in advance by the Graduate Program Committee. Proficiency may be demonstrated in one of the following ways:

1. Successful completion of an upper-division undergraduate course or a graduate course with a grade of “B” or better. The course must be approved in advance by the Graduate Program Committee.
2. Passing the College Level Examination Program (CLEP) examination in the approved language with a score of 85% or higher.

**Admission to Candidacy.** A student will be admitted to candidacy after completing all University and program requirements, passing the Qualifying Examination, and completing a dissertation prospectus. The Qualifying Examination will be based on three areas of literary study, one of which must be cross-cultural in focus; all three must be relevant to the student’s anticipated dissertation and selected in consultation with the student’s examination committee. In consultation with the examination committee, the student will prepare reading lists in each area and compose position papers in each of the three areas. The examination committee must approve the reading lists and conduct an oral examination on the reading lists and the position papers. The Qualifying Examination will be completed when the examination committee approves the student’s dissertation prospectus (approximately 15–20 pages) and recommends admission to candidacy to the Dean of the Graduate School through the Graduate Program Committee and the Dean of the College.

**Dissertation and Final Oral Examination (Defense of the Dissertation).** Candidates must demonstrate their ability to conduct independent research by completing and defending an original dissertation that makes a significant contribution to the fields of English literature, language, or rhetoric and composition. The student, in consultation with his or her dissertation advisor, determines the research topic. A dissertation committee, selected by the student and dissertation advisor and approved by the Dean of the College and the Dean of the Graduate School, will guide and critique the candidate’s research. The dissertation committee must unanimously approve the completed dissertation. The dissertation shall then be defended publicly before the dissertation committee.

**COURSE DESCRIPTIONS**

**ENGLISH**

(ENG)

5013  **Introduction to the Graduate Study of Literature**  
(3-0) 3 hours credit.  
Introduction to the premises, concepts, and methods of literary study, including literary history, terminology, bibliography, and various critical and theoretical approaches to literature. Normally must be taken in the student’s first semester of graduate study.

5053  **Topics in Literary Genres**  
(3-0) 3 hours credit.  
Consideration of texts selected to illustrate the structural, conceptual, and contextual properties of a specific genre, e.g., poetry, fiction, or drama. May be repeated for credit when topics vary.

5133  **Development of Rhetoric and Composition**  
(3-0) 3 hours credit.  
Survey of the development of rhetorical theory, with emphasis on how present composition theory and practice reflect earlier traditions.

5161  **Practicum in Rhetoric**  
(1-0) 1 hour credit. Prerequisite: Consent of instructor.  
Applied study of the rhetorical and linguistic foundations of written English. May be repeated for credit, but not more than 2 hours may be applied to the Master’s or Doctoral degrees in English.
5173 Theory and Practice of Teaching Literature
(3-0) 3 hours credit.
Critical study of literary pedagogy and applications of theory and research to the teaching of literature.

5183 Theory and Practice of Teaching Composition
(3-0) 3 hours credit.
Introduction to current scholarship in composition and applications to the teaching of writing.

5223 Medieval Literature
(3-0) 3 hours credit.
Critical study of works from the Anglo-Saxon period through the fifteenth century, excluding Chaucer. Some readings are in modern translation, and some are in Middle English.

5313 Renaissance Literature
(3-0) 3 hours credit.
Critical study of poetry, prose and drama of the sixteenth and seventeenth centuries, excluding Shakespeare and Milton.

5413 Restoration and Eighteenth-Century Literature
(3-0) 3 hours credit.
Critical study of poetry, prose, and drama of the Restoration and the eighteenth century.

5513 Nineteenth-Century British Literature
(3-0) 3 hours credit.
Critical study of poetry and prose of nineteenth-century British writers.

5613 Nineteenth-Century American Literature
(3-0) 3 hours credit.
Critical study of poetry and prose of nineteenth-century American writers.

5633 Topics in the Study of Literature
(3-0) 3 hours credit.
Exploration of the ways that important texts, theories, and cultural or intellectual movements have shaped the study of literature and literary forms. May be repeated for credit when topics vary.

5733 British and American Literature, 1900–1950
(3-0) 3 hours credit.
Critical study of poetry, prose, and drama of British and American writers from 1900 to 1950.

5743 British and American Literature, 1950–The Present
(3-0) 3 hours credit.
Critical study of poetry, prose, and drama of British and American writers from 1950 to the present.

5753 World Literatures in English
(3-0) 3 hours credit.
Critical study of poetry, prose, and drama of world literatures in English, such as literature of the Indian subcontinent, Latin America, Africa, or the Caribbean.

5763 Latina/o Literature
(3-0) 3 hours credit.
Critical study of poetry, prose, and drama of Latina/o writers.
5773 Women and Literature
(3-0) 3 hours credit.
Critical study of poetry, prose, and drama written by women and/or representing female identity.

5783 African American Literature
(3-0) 3 hours credit.
Critical study of poetry, prose, and drama of African American writers.

5933 Topics in American Literature
(3-0) 3 hours credit.
Critical study of selected American authors, themes, or cultural, historical, or aesthetic issues. May be repeated for credit when topics vary.

5943 Topics in Major English Authors
(3-0) 3 hours credit.
Critical study of the major works of one of the following authors: Chaucer, Shakespeare, Milton. May be repeated for credit when topics vary.

6013 Theoretical and Research Methods
(3-0) 3 hours credit.
Introduction to the theories and methods of professional literary research, including research in cross-cultural studies. (Formerly titled “Bibliography and Research.”)

6023 Rhetoric and Composition: Text and Context
(3-0) 3 hours credit.
Advanced study and research of topics and movements in rhetoric and composition. May be repeated for credit when topics vary, but not more than 6 hours may be applied to the Master’s or Doctoral degree in English without the approval of the Graduate Program Committee.

6033 Language and Linguistics
(3-0) 3 hours credit.
Advanced study and research of topics and movements in language and/or linguistics. May be repeated for credit when topics vary, but not more than 6 hours may be applied to the Master’s or Doctoral degree in English without the approval of the Graduate Program Committee.

6043 Creative Writing
(3-0) 3 hours credit. Prerequisites: Approval of instructor and Graduate Advisor of Record.
Intensive workshop in creative writing. May be repeated for credit when topics vary.

6053 Latina/o Studies: Text and Context
(3-0) 3 hours credit.
Advanced study and research of Latina/o texts. May include some literature in translation. May be repeated once for credit when topics vary.

6063 Cross Cultural Issues: Text and Context
(3-0) 3 hours credit.
Advanced study and research of primary literary texts in the context of key cultural and/or cross-cultural issues. May be repeated once for credit when topics vary.

6073 Theory and Criticism: Text and Context
(3-0) 3 hours credit.
Advanced study and research of topics and movements in literary theory and criticism. May be repeated once for credit when topics vary.
6951,3 Independent Study
1 or 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master of Arts degree in English.

6961 Comprehensive Examination
1 hour credit. Prerequisite: Approval of the Graduate Advisor of Record.
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated once. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination). Credit earned in ENG 6961 cannot be counted in the 36 hours required for the Master’s degree or for the 39 hours required for the Doctoral degree in English.

6973 Special Topics
(3-0) 3 hours credit.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. May be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master’s or Doctoral degree in English.

6983,6 Master’s Thesis
3 or 6 hours credit. Prerequisites: Permission of the thesis advisor and the Graduate Advisor of Record.
Supervised thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required in each term in which the thesis is in progress.

7053 Seminar: Latina/o Studies
(3-0) 3 hours credit. Prerequisite: ENG 6013.
Advanced and intensive research of key issues in Latina/o Studies. May be repeated once for credit when topics vary.

7063 Seminar: Issues in Culture
(3-0) 3 hours credit. Prerequisite: ENG 6013.
Advanced and intensive research of key issues in cultural and/or cross-cultural studies. May be repeated once for credit when topics vary.

7073 Seminar: Theory and Criticism
(3-0) 3 hours credit. Prerequisite: ENG 6013.
Advanced and intensive research of key issues in theory and criticism. May be repeated for credit when topics vary.

7083 Seminar: New Texts/New Contexts
(3-0) 3 hours credit. Prerequisite: ENG 6013.
Advanced and intensive research of recent writings or movements influencing literary and cultural studies. May be repeated once for credit when topics vary.

7113 Supervised Teaching in English
3 hours credit. Prerequisites: Admission to the Doctoral program in English and approval of the Graduate Advisor of Record.
Development and implementation of an undergraduate course in English under the supervision of a member of the English graduate faculty. May be repeated for credit.
7211-3 Directed Readings
1 to 3 hours credit. Prerequisites: ENG 6013 and completion of at least 12 additional hours of 6000-level and/or 7000-level ENG coursework, and permission of the Graduate Program Committee.
Reading, research, discussion, and writing under the direction of a member of the graduate faculty. Enables students to prepare one of their fields of specialization when other appropriate classes are unavailable. May be repeated for credit, but not more than 12 hours may be applied to the Doctoral degree.

7311-3 Doctoral Dissertation
1 to 3 hours credit. Prerequisites: Admission to candidacy for the Doctoral degree, completion of 33 hours of coursework approved by the Graduate Advisor and the Graduate Program Committee, and fulfillment of the Language Requirement.
May be repeated for credit but not more than 18 hours may be applied to the Doctoral degree.

7961 Qualifying Examination
1 hour credit. Prerequisite: Approval of the Graduate Program Committee to take the Qualifying Examination.
Independent study course for the purpose of taking the Qualifying Examination. May be repeated for credit as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Qualifying Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Qualifying Examination) or “NC” (unsatisfactory performance on the Qualifying Examination).
DEPARTMENT OF HISTORY

Master of Arts Degree in History

The Master of Arts degree in History offers students the opportunity to pursue the advanced study of history. The program is designed to develop historical skills and to expand students’ understanding of the conceptualization and practice of history. Explicit attention is focused on historical comparisons and historical comparative frameworks.

Program Admission Requirements

In addition to satisfying the University-wide admission requirements, students should have:

1. 18 semester credit hours in history or courses with significant historical content (12 of these hours must be at the upper-division level); and
2. A grade point average of 3.1 or better (on a 4.0 scale) in the last 60 hours of undergraduate education.

Students who do not meet the above requirements, and who have 12 semester credit hours of courses with significant historical content, may be considered for admission if they meet one or more of the following conditions:

1. A minimum grade point average of 2.8 overall.
2. A grade point average of 3.0 in 15 hours of graduate or professional courses.

Students may submit one or more of the following in support of their application:

1. Letters of recommendation (use University form).
2. Graduate Record Examination (GRE) scores.
3. A 500-word essay outlining qualifications and goals.

Applicants for admission as non-degree-seeking students (special graduate students or non-degree-seeking graduate students) should have completed at least 12 semester credit hours in history or a related field before application. Non-degree-seeking students may be limited in the courses they are permitted to take. Admission as a non-degree-seeking student does not ensure subsequent admission as a degree-seeking student. Consult the catalog on regulations regarding “special graduate student” and “non-degree-seeking status.”

Degree Requirements. The minimum number of semester credit hours required for this degree is 33. This is exclusive of coursework or other study required for admission.

Degree candidates must complete the following requirements:

A. 6 semester credit hours:

   HIS 5023 Historical Methods
   HIS 5113 Historical Approaches and Interpretations

   Students should take these two courses during the first year of their programs.

B. 3 semester credit hours in Comparative History (HIS 6483 Topics in Comparative History or other courses identified as meeting the requirement).
C. 6 semester credit hours consisting of the sequence:

HIS 6813 Proseminar in History
HIS 6903 Research Seminar in History

This sequence will vary in subject. A student should take HIS 6813 Proseminar in History and then HIS 6903 Research Seminar in History in the same academic year. Note: HIS 5023 Historical Methods and HIS 5113 Historical Interpretations and Approaches are prerequisites for enrollment in HIS 6813.

D. 18 semester credit hours of elective courses, chosen in consultation with the student’s advisor:

- At least 6 hours must be outside the student’s focus area; focus areas are United States History and World History.
- Students electing to write a thesis will complete HIS 6983 Master’s Thesis (6 hours) in accordance with University regulations as stated in Options for Master’s Degrees in Chapter 4, Master’s Degree Regulations. Students must pass the comprehensive examination before enrolling in HIS 6983.
- Up to 6 hours of graduate-level courses outside the program may be taken with prior approval of the Graduate Advisor of Record.
- Up to 6 hours of Independent Study hours may be taken with approval of instructor.

E. Students must pass the comprehensive examination before they can enroll in HIS 6983 Master’s Thesis. Nonthesis students should take the examination in the last year of their program.

Students are encouraged to pursue languages or other formal competencies as appropriate to their needs.

COURSE DESCRIPTIONS
HISTORY
(HIS)

5023 Historical Methods
(3-0) 3 hours credit.
This course introduces students to the historian’s craft through an examination of basic research and analytical skills. These skills include: reading and analyzing primary and secondary works (literary and nonliterary), diverse methodologies, archival and library research (both traditional and electronic), and the design of a research proposal. (Students are expected to take this course at the outset of their graduate studies.)

5053 Topics in Medieval Europe
(3-0) 3 hours credit.
An examination of the major problems in the history of medieval Europe, from the second to the fourteenth centuries. The course focuses on changing interpretations in medieval history but also stresses the reading of primary texts.

5063 Topics in Early Modern European History
(3-0) 3 hours credit.
An examination of the major historiographical and historical problems in early modern European history, from the fourteenth century to the seventeenth century.

5093 Designing a History Course
(3-0) 3 hours credit.
A comprehensive approach to constructing history survey courses for the college level. Topics may include a survey of current curriculum debates; course and syllabus design; selection of textbook and other readings; evaluation and grading; leading discussions; nontraditional instructional methods, including the use of new technologies; and lecture preparation and presentation.
5113  **Historical Approaches and Interpretations**  
(3-0) 3 hours credit.  
This course promotes an understanding of how historians conceptualize the study of history by asking historical questions and using different historical approaches to develop answers. This will foster the ability to develop and critique an argument, to conduct bibliographic reviews, and to identify competing schools of thought. This course will also investigate how historical interpretations change over time. (Students are expected to take this course at the outset of their graduate studies.)

5123  **The American Revolution, 1763–1789**  
(3-0) 3 hours credit.  
A history of British America from the imperial crisis of 1763 to the ratification of the United States Constitution in 1789, with emphasis on the early beginnings of the American nation and social, economic, military, and cultural features of the revolutionary movement.

5153  **The Civil War and Reconstruction, 1850–1877**  
(3-0) 3 hours credit.  
An examination of the political, social, and economic factors in the 1850s that led to the American Civil War, as well as a study of the military, diplomatic, and political consequences of the war and efforts to create a new union.

5163  **History of the U.S. South**  
(3-0) 3 hours credit.  
This course examines the social, political, cultural, and economic developments that shaped life in the southern United States in the nineteenth and twentieth centuries. Topics may include race relations; southern politics; the economic transformation of the region; and religious identities and faiths.

5193  **The United States Since the Great Depression**  
(3-0) 3 hours credit.  
An analysis of recent American history with emphasis on the role of the national government, U.S. involvement in global affairs, and the changing status of women and people of color. Topics may include the drives for social justice by women and minority groups, the evolution of the American economy and its social consequences, the rise of the national security state, the emergence of the welfare state, and the cultural impact of electronic mass media.

5203  **U.S. Political History**  
(3-0) 3 hours credit.  
Examines the role of government and the political process in the United States. Topics may include the origins of the political system, the evolution of political parties, and the expansion of the public sector.

5263  **History of the Spanish Borderlands**  
(3-0) 3 hours credit.  
A comprehensive study of Spanish exploration and colonization in the borderlands adjacent to the international boundary between the southwestern United States and Mexico. Emphasis is on Hispanic institutions and cultural values that shaped the development of a frontier society on the eve of Mexican independence. Attention is given to bibliographic sources and specialized readings.

5313  **South Texas: Rural and Urban**  
(3-0) 3 hours credit.  
An overview and analysis of the development of South Texas, from pre-Columbian cultures to the rise of urbanization. Emphasis on Spanish exploration and settlement of Nuevo Santander, contact with indigenous cultures, the impact of nineteenth-century warfare, and the rapid transformation of the region through urbanization.
5323  **The U.S.–Mexico Border**  
(3-0) 3 hours credit.  
This course will examine social, economic, and political conditions shaping the character of the United States-Mexico border region. Using a transnational approach, students will have an opportunity to explore the history of the border as a bicultural region, and to examine issues relevant to the development of the border area. Topics of interest may include urbanization, industrialization, gender, trade, migration, security, and ecological problems.

5423  **Colonial Mexico**  
(3-0) 3 hours credit.  
A detailed examination of the Spanish conquest and colonization of Mexico from 1521 to Independence. Special attention is paid to the transformation of Indian society under Spanish rule, the development of the colonial economy, and the formation of an interrelated colonial elite.

5433  **Modern Mexico**  
(3-0) 3 hours credit.  
Examines the history of Mexico following independence from Spain in 1821. Consideration is given to the disintegration of the colonial system, nineteenth-century reforms, the Porfiriato, the Mexican Revolution, and their effects on contemporary Mexico. Students may have the opportunity to work in Mexico.

5453  **The French Revolution and the Greater Caribbean**  
(3-0) 3 hours credit.  
This course explores the French Revolution and its impact on the French colonies in the western hemisphere. The course provides a comparative analysis of notions of citizenship and the variety of factors that shaped the practice of rights before, during, and after the revolutionary struggle in both France and the Greater Caribbean.

5453  **Modern Chinese History**  
(3-0) 3 hours credit.  
This course provides an overview of Chinese history since 1550, with particular attention to the major historiographical debates in recent scholarship. Topics may vary, and the latest ones include ethnic and cultural identities in modern China and themes in local and transnational history.

5653  **Indian Subcontinent**  
(3-0) 3 hours credit.  
This course provides students with an opportunity to learn about the cultures and histories of the Indian subcontinent. Particular attention will be paid to the major historiographical debates in recent scholarship. Topic will vary and may include India, Pakistan, Afghanistan, Nepal, Sri Lanka, and/or Bangladesh.

5733  **Migration in Historical Context**  
(3-0) 3 hours credit.  
What has caused people to migrate as individuals and as groups? To what extent has geographical mobility been a function of economic mobilization, political transformation, social upheaval, and/or technological revolution? How has the migratory process, in turn, affected the migrants themselves, both in their place of origin, and in the host society? This course is a graduate-level exploration of these and other related questions on migration and may be explicitly comparative. Specific theme, regional focus, and time period may vary and may draw from a variety of historical situations.

5753  **Women and Gender in African History**  
(3-0) 3 hours credit.  
This course will explore individual and collective agency in the history of African women since 1800. Topics may vary but the historical themes examined in this course may include African feminisms, social movements, domesticities, masculinities and religions.
6113 Law and Society in America
(3-0) 3 hours credit.
An examination of the role of law as both a reflection and initiator of change in American life, from colonial times to the present. Topics range from seventeenth-century slavery to the equal rights revolution of the twentieth century.

6133 The United States and the World
(3-0) 3 hours credit.
An examination of the relationship between the United States and foreign nations and peoples from the late eighteenth century through the Cold War era. Using selected episodes, the course will focus on: the domestic sources for American policies and activities; the ways in which foreign peoples prompted, perceived, and influenced those policies and actions; and the impact the United States has had overseas. (This course may employ an explicitly comparative approach.)

6153 History of Sexuality
(3-0) 3 hours credit.
What does it mean to write, research, analyze, and talk about the histories of sex and sexuality? This seminar explores historical and cultural interpretations of the history of sexuality. The course involves understanding how changes in society, the economy, the family, and politics have reshaped sexual values and behaviors, and the ways that individuals and groups have responded to these challenges. Topics may include the family, religion, race and sexuality, class, reproductive health, and transgender and queer studies. Geographical focus may vary with instructor. (This course may employ an explicitly comparative approach.)

6163 Women in the United States
(3-0) 3 hours credit.
Analyzes the experiences of women in the United States from the colonial period to the present. Topics may include economic roles, legal issues, religion, culture, feminist movements, and family life.

6173 Latina/os in the United States
(3-0) 3 hours credit.
Examines the Mexican American, Cuban American, and Puerto Rican American experiences in the United States, treating the historical relationship between this nation and the countries of origin and the interaction between these groups and mainstream society.

6193 Comparative Urban History
(3-0) 3 hours credit.
This course explores the roles of the urban place in the formation of modern culture, society, and polity. It interprets the shifting functions of the “urban factor” in social and cultural change. (This course may employ an explicitly comparative approach.) (Formerly titled “The City in History.”)

6323 Comparative Environmental History
(3-0) 3 hours credit.
This course explores the role of environmental factors in world history. It provides students the opportunity to consider the importance of often overlooked actors such as plants, animals, and diseases alongside more familiar human cultural and social institutions. We consider how the inhabitants of different continents and nations were shaped by nature, shaped their own very different environments, and made sense of these processes.

6413 Topics in U.S. History
(3-0) 3 hours credit.
Examines topics of current interest to historians of the United States. May be repeated for credit when topics vary.

6423 Topics in Modern European History
(3-0) 3 hours credit.
Examines topics of current interest to historians of Europe. May be repeated for credit when topics vary.

6923  Teaching Practicum
3 hours credit.
This course is designed to assist advanced graduate students in developing their instructional skills for a career in college teaching. The primary focus will be to translate the best pedagogy on student learning into the practical design and conduct of history courses, including such elements as syllabi, lectures, discussions, exams and other assignments, and grading. Students will work closely with a specific undergraduate instructor in a specific class.

6951-3  Independent Study
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6961  Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate graduate program committee to take the Comprehensive Examination.
Independent study to prepare for the Comprehensive Examination. Students will select fields of study and prepare for examination under faculty supervision. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6973  Special Problems
(3-0) 3 hours credit.
An organized course providing specialized study in a historical field not normally available as part of the regular course offerings. May be repeated for credit when topics vary.

6983  Master’s Thesis
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

6993  Internship in History
3 hours credit.
A supervised experience, relevant to the student’s program of study, within selected community organizations, libraries, and archives. No more than 6 semester credit hours may apply to the Master’s degree. The grade report for the course is either “CR” (satisfactory performance) or “NC” (unsatisfactory performance).
DEPARTMENT OF MODERN LANGUAGES AND LITERATURES

Master of Arts Degree in Spanish

The Master of Arts degree in Spanish offers the student the opportunity for an in-depth view of Hispanic studies in three specialized areas: literature, culture, and language, underscoring the unity of the Hispanic world rather than its national components. Elective courses in Linguistics (LNG) and Foreign Languages (FL) offer an opportunity to further the student’s grasp of the Spanish language in its geographical, cultural, and social variations.

Program Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, applicants are expected to have 12 or more upper-division hours in Hispanic culture, literature, or linguistics and a mastery of oral and written skills in Spanish in an academic register. Upper-division grammar, oral communication, and language courses may not be included in this requirement. Students are required to have written and oral proficiencies assessed during their first semester of study.

A grade point average of 3.0 (on a 4.0 scale) is required in undergraduate coursework in Spanish. These requirements may be waived in unusual circumstances upon the approval of the Graduate Program Committee.

Admission determinations are based on the grade point average, undergraduate coursework, fluency in Spanish, the personal statement, and the letter(s) of recommendation.

Application Materials. In addition to filing the regular University application for admission, all applicants must submit to the Spanish Graduate Committee for evaluation a one- to two-page statement written in Spanish describing the objectives of proposed graduate study and at least one letter of recommendation from a prior teacher or professional colleague.

Degree Requirements. The number of semester credit hours required for this degree, exclusive of coursework or other study required to remove admission deficiencies, is 36. A maximum of one grade of “C” shall be applicable toward coursework for the Master of Arts degree.

Degree candidates must complete the following requirements:

A. 3 semester credit hours of SPN 5373 Introduction to Graduate Spanish Studies. This course must be taken within the first 18 hours of graduate work.

B. 18 semester credit hours distributed as follows:
   
   6 hours in culture (SPN)
   6 hours in Spanish language and linguistics (SPN and LNG)
   6 hours in literature (SPN)

C. 15 semester credit hours of electives in Spanish (SPN), Linguistics (LNG), or other courses as approved by the Graduate Advisor of Record.

D. Thesis Option

   SPN 6983 Master’s Thesis. The satisfactory completion of a thesis in accordance with University regulations as stated under Options for Master’s Degrees in Chapter 4, Master’s Degree Regulations. If this option is chosen, up to 6 semester credit hours of thesis credit may be used in place of the electives in Item C.

E. The satisfactory completion of a comprehensive examination, to be taken toward the end of a student’s 36-hour program. Students are advised to speak with the Graduate Advisor of Record when close to 27 hours.
Graduate Certificate in Spanish Translation Studies

The Certificate in Spanish Translation Studies is a 15-hour option in Spanish graduate studies with its primary focus on the language skills necessary to perform translation. Translation is defined as the rendering of a written text from a source language into another, while interpretation is the rendering of spoken language from a source language into another. Although this program will concentrate on the former rather than on the latter, both draw on the same type of general linguistic skills as those gained by studies in literature, language, and culture. This certificate focuses more closely on practical applications in modern day life than does the more comprehensive M.A. in Spanish, with a total of 36 hours.

Entrance and Exit Requirements

In addition to meeting University-wide admission requirements either as a special graduate student or a degree-seeking student in a graduate program, all prospective students must pass a written entrance examination in Spanish and English to determine linguistic competence and general cultural preparation.

Entrance- and exit-level skills in both languages will be no lower than Level 3 and Level 4, respectively, according to the U.S. Government’s Interagency Language Roundtable (ILR) Skill Level Descriptions for Translation Performance.

Program Requirements

The Certificate in Spanish Translation Studies consists of 15 semester credit hours to include an introduction to theory and practice, the terminology of translation, with supplementary training to include areas such as computer applications, translation workshops and individualized, practical coursework. Courses in Spanish linguistics, literature, and culture strengthen the interdisciplinary underpinnings of the Certificate. The capstone course provides training and reinforcement in written translation skills through a translation case study.

Students must complete the following requirements:

A. 3 semester credit hours from the following:

<table>
<thead>
<tr>
<th>FL</th>
<th>5043</th>
<th>Principles of Translation</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPN</td>
<td>6083</td>
<td>Theory and Practice of Translation</td>
</tr>
</tbody>
</table>

B. 6 semester credit hours from the following:

<table>
<thead>
<tr>
<th>SPN</th>
<th>5023</th>
<th>Writing and Editing in Spanish</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPN</td>
<td>5843</td>
<td>History of the Spanish Language</td>

<tr>
<td>SPN</td>
<td>6973</td>
<td>Special Problems</td>
</tr>
</tbody>
</table>

C. 3 semester credit hours of any SPN 5000-level course or above with a focus on language, literature, or culture

D. FL  6013  Practicum in Translation

Students will take this course during their last semester of enrollment in the Certificate Program. In consultation with the instructor, they will select an area of interest and define a task within that area. Project translation work will normally be exclusively into the student’s dominant language.
COURSE DESCRIPTIONS
SPANISH
(SPNS)

5023  Writing and Editing in Spanish
(3-0) 3 hours credit.
Theory and practice of advanced Spanish stylistics. Development of writing skills and practice in editing Spanish
texts. Can be repeated for credit up to 6 hours with approval of the Graduate Advisor of Record.

5123  Hispanic Film
(3-0) 3 hours credit.
Hispanic societies, history, culture, and language of film as interpreted by representative directors. May be repeated
for credit when topics vary.

5373  Introduction to Graduate Spanish Studies
(3-0) 3 hours credit.
An introduction to graduate studies in Spanish. Emphasis on critical writing and research skills, including bibliography
and electronic media. Incorporates critical and methodological approaches to Hispanic literature, culture, and
linguistics. This course must be taken within the first 18 semester credit hours of graduate studies.

5413  History of Ideas in the Hispanic World
(3-0) 3 hours credit.
Selected Spanish, Latin American and/or U.S. Latina/o issues representative of major currents of thought affecting the
evolution of Hispanic cultural history. May be repeated for credit when topics vary.

5463  Spanish Civilization
(3-0) 3 hours credit.
A study of the social, political, and cultural history of Spain from prehistory (the Caves of Altamira) to the present.

5473  Latin American Civilization
(3-0) 3 hours credit.
A study of the social, political, and cultural history of the Latin American countries from pre-Columbian civilizations
through the Conquest, Colonial period, and Independence to the present.

5483  Studies in Hispanic Culture
(3-0) 3 hours credit.
Studies of different facets of Hispanic culture not normally available as part of regular course offerings. May be
repeated for credit when topics vary.

5633  Spanish Medieval-Golden Age Literature
(3-0) 3 hours credit.
Study of Medieval, Renaissance, and/or Golden Age Spanish texts in a variety of contexts that may include historical,
cultural, or theoretical approaches. Topics may include poetry, narrative, drama, and Don Quijote. May be repeated for
credit when topics vary.

5703  Modern Spanish Literature
(3-0) 3 hours credit.
Selected Spanish literary works from 1700 to the present. May be repeated for credit when topics vary.

5763  Latin American Literature to Modernism
(3-0) 3 hours credit.
In-depth study of selected literary works by Indian, Spanish, and Creole authors. Topics may include the Conquest, the
Colonial period, and the nineteenth century. May be repeated for credit when topics vary.
5773  **Latin American Literature from Modernism to the Present**  
(3-0) 3 hours credit.  
Studies in contemporary prose, poetry, and/or drama. May be repeated for credit when topics vary.

5803  **Mexican American Literature**  
(3-0) 3 hours credit.  
The consideration of Mexican American literature in the context of the Hispanic tradition. Different genres, themes, and authors will be examined in terms of ethnic, social, and linguistic characteristics as well as artistic merit. May be repeated for credit when topics vary.

5813  **Studies in Hispanic Literature**  
(3-0) 3 hours credit.  
Study in selected areas of Hispanic literature not normally available as part of regular course offerings. May be repeated for credit when topics vary.

5843  **History of the Spanish Language**  
(3-0) 3 hours credit.  
Chronological development of the Spanish language, focusing on areas such as phonology, morphology, and lexicon.

5853  **Spanish of the Southwest**  
(3-0) 3 hours credit.  
An in-depth study of the contact variety of Spanish spoken by Mexican Americans in the U.S. Southwest, including San Antonio. Complementary descriptive and sociolinguistic approaches are incorporated.

5863  **Spanish Phonetics and Phonology**  
(3-0) 3 hours credit.  
The framework of articulatory phonetics and its application to the description of Spanish. Analysis of the sound system of Spanish in both traditional and contemporary phonological frameworks, with attention given to regional variation.

5883  **Spanish Morphology and Syntax**  
(3-0) 3 hours credit.  
An opportunity for in-depth analysis of the Spanish language, focusing on the levels of word, phrase, and sentence.

5893  **Spanish Dialects**  
(3-0) 3 hours credit.  
A study of regional and social variation in Peninsular, Latin American, and U.S. Spanish, including phonology, grammar, and lexicon of vernacular dialects. Perspectives of traditional dialectology and modern sociolinguistics.

5903  **Topics in Hispanic Linguistics**  
(3-0) 3 hours credit.  
Study in selected areas of Hispanic linguistics not normally available as part of regular course offerings. May be repeated for credit when topics vary.

5943  **Spanish Language and Culture**  
(3-0) 3 hours credit.  
Identification of those aspects of contemporary Spanish pertinent to the major functions or purposes of language use in a given part of the Spanish-speaking world. May be repeated for credit when topics vary, but not more than 6 hours will apply to the Master of Arts degree in Spanish. (Formerly SPN 5953.)

6011  **Supervised Teaching in Spanish**  
1 hour credit.  
Development and implementation of an undergraduate course in Spanish under the supervision of a member of the graduate faculty. May be repeated for credit.
6083  Theory and Practice of Translation
(3-0) 3 hours credit.
Introduction to current research in translation and applications to the process between English and Spanish. May be repeated for credit when topics vary.

6813  Seminar in Hispanic Studies
(3-0) 3 hours credit. Prerequisite: 24 semester credit hours of graduate-level Spanish.
In-depth study and major research project in areas such as Hispanic culture, literature, and/or language. May be repeated once for credit as an elective.

6951-3  Independent Study
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master of Arts degree in Spanish.

6961  Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate graduate program committee to take the Comprehensive Examination.
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination). Credit earned in SPN 6961 cannot be counted in the 36 semester credit hours required for the Master of Arts degree in Spanish.

6973,6  Special Problems
(3-0, 6-0) 3 or 6 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. May be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master of Arts degree in Spanish.

6983  Master’s Thesis
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master of Arts degree in Spanish. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

COURSE DESCRIPTIONS
FOREIGN LANGUAGES
(FL)

5003  Foreign Language Studies
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Consideration of second language acquisition research and classroom applications. Topics may include theory and practice of language skills development, methods of language instruction, foreign language anxiety, and technology-assisted language learning. May be repeated for credit when topics vary.

5013  Foreign Language Testing
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Consideration of content and approaches for measuring achievement and proficiency in various sub-skills of language and culture.
5033  **Foreign Languages and Intercultural Communication**  
(3-0) 3 hours credit.  
Investigation of intercultural communication research in specific language communities and its application to effective interaction with speakers of a variety of foreign languages. Consideration of sociolinguistic norms, semantic variation, and nonverbal language relevant to selected foreign language communities in the United States and abroad compared with mainstream U.S. English norms.

5043  **Principles of Translation**  
(3-0) 3 hours credit. Prerequisite: Previous coursework or experience in translation or consent of instructor. 
A survey of approaches to translation, practice, and theory, with hands-on experience in a variety of genres (for example, literary prose, poetry, essay, narration) and vocabularies (e.g., legal, medical, business). May be repeated when languages vary, i.e., Spanish/English, French/English, or German/English.

5114  **Individual Instruction in Elementary Language I**  
4 hours credit.  
Opportunity to develop basic oral and written communication skills in the target language, along with enhanced comprehension skills in listening and reading.

5124  **Individual Instruction in Elementary Language II**  
4 hours credit. Prerequisite: FL 5114 or the equivalent in the selected foreign language.  
Opportunity to develop basic oral and written communication skills in the target language, along with enhanced comprehension skills in listening and reading.

5213  **Individual Instruction in Intermediate Language I**  
3 hours credit. Prerequisite: FL 5214 or the equivalent in the selected foreign language.  
Opportunity to develop intermediate-level oral and written communication skills in the target language, along with increased comprehension skills in listening and reading.

5223  **Individual Instruction in Intermediate Language II**  
3 hours credit. Prerequisite: FL 5213 or the equivalent in the selected foreign language.  
Opportunity to develop intermediate-level oral and written communication skills in the target language, along with increased comprehension skills in listening and reading.

5313  **Individual Instruction in Advanced Language I**  
3 hours credit. Prerequisite: FL 5313 or the equivalent in the selected foreign language.  
Opportunity to develop advanced-level oral and written communication skills in the target language, along with enhanced comprehension skills in listening and reading.

5323  **Individual Instruction in Advanced Language II**  
3 hours credit. Prerequisite: FL 5313 or the equivalent in the selected foreign language.  
Opportunity to develop advanced-level oral and written communication skills in the target language, along with enhanced comprehension skills in listening and reading.

6013  **Practicum in Translation**  
3 hours credit. Prerequisite: FL 5043 or SPN 6083 or faculty approval.  
Students will take this course during their last semester of enrollment in the Certificate Program. In consultation with the instructor, they will select an area of interest and define a task within that area. Project translation work will normally be exclusively into the student’s dominant language.
COURSE DESCRIPTIONS
FRENCH
(FRN)

5813  Topics in French Linguistics
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
A course focusing on a selected area of French linguistics, such as grammar, stylistics, phonetics, or applied linguistics. May be repeated for credit when topics vary.

5913  Topics in French Literature and Culture
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
A course focusing on a selected period or aspect of French literature and culture, such as contemporary France, the nineteenth-century novel and society, or twentieth-century theater. May be repeated for credit when topics vary.

COURSE DESCRIPTIONS
GERMAN
(GER)

5813  Topics in German Linguistics
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
A course focusing on a selected area of German linguistics, such as grammar, stylistics, phonetics, or applied linguistics. May be repeated for credit when topics vary.

5913  Topics in German Literature and Culture
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Selected topics relative to German literature and culture, including such areas as contemporary Germany and profiles of particular segments of German society. May be repeated for credit when topics vary.

COURSE DESCRIPTIONS
LINGUISTICS
(LNG)

5013  Sociolinguistics
(3-0) 3 hours credit. Prerequisite: LNG 3813, an equivalent, or consent of instructor.
Theory, research, and methods for the study of linguistic variation and language use in context. Quantitative and qualitative approaches are included.

5153  Topics in Contemporary Linguistics
(3-0) 3 hours credit. Prerequisite: LNG 3813, an equivalent, or consent of instructor.
Contemporary approaches to language analysis and description. May be repeated for credit when topics vary.
DEPARTMENT OF MUSIC

Master of Music Degree

The Master of Music degree program in the Department of Music is accredited by the National Association of Schools of Music.

The Master of Music degree offers the opportunity for qualified students to pursue advanced study in music with an emphasis in conducting, music performance, music education, or pedagogy and performance. The Master of Music degree is designed to develop and foster high achievement in performance and teaching; to prepare the student for a career as a performer, conductor, or educator; or to serve as a basis for pursuing doctoral studies in music.

Program Admission Requirements. In addition to satisfying the University-wide admission requirements, applicants are expected to hold the Bachelor of Music degree or Bachelor of Music Education degree with a major in their intended area of graduate emphasis or the equivalent, submit three recommendations from established professionals commenting on the appropriateness of graduate study in music for the applicant, and successfully complete one of the following:

Conducting: Audition in person or provide a recent digital video (CD or DVD format preferred, VHS videotape accepted) demonstrating the level of mastery in a rehearsal or performance situation.

Music Performance: Audition in person (or with acceptable justification approved by the auditioning committee provide a recent digital recording) demonstrating the level of mastery in the proposed performance medium.

Music Education: Submit a digital video of teaching skills (CD or DVD format preferred, VHS videotape accepted), a curriculum vitae or portfolio, document two years of successful elementary or secondary level teaching, and complete written entrance exam.

Pedagogy and Performance: Audition in person or provide a recent digital recording or video (CD or DVD format preferred, VHS videotape accepted) demonstrating the level of mastery in the proposed pedagogy and performance medium.

Students are required to take placement examinations in music theory and music history before taking graduate courses. The vocal pedagogy placement examination is required of all students with an emphasis in voice performance or choral conducting. Voice principals must take diagnostic examinations in French, German, Italian, and English lyric diction. If the student is found deficient in any one of the languages, the appropriate course(s) will be required. The student’s advisor will counsel the student in correcting deficiencies and selecting courses for the student’s degree program.

Degree Requirements. The minimum number of semester credit hours required for this degree, exclusive of coursework or other study required to remove admission deficiencies, is 31. Courses in which a grade of “C” or lower is earned are not applicable toward coursework for the Master of Music degree.

Degree candidates must complete the following requirements:

A. 6 semester credit hours in music history and research:
   
<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS 5233</td>
<td>Introduction to Music Research</td>
</tr>
<tr>
<td>MUS 5263</td>
<td>Topics in Music History</td>
</tr>
</tbody>
</table>

B. 3 semester credit hours in music theory and analysis, selected from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS 5103</td>
<td>Applied Systems of Analysis</td>
</tr>
<tr>
<td>MUS 5133</td>
<td>Topics in Music Theory</td>
</tr>
<tr>
<td>MUS 6233</td>
<td>Twentieth-Century Analytical Techniques</td>
</tr>
</tbody>
</table>
C. 13–16 semester credit hours of music electives, selected from the following according to the emphasis, and approved by the student’s advisor:

- MUS 5223 Ensemble Repertoire
- MUS 5403 Psychological Foundations of Music Education
- MUS 5413 Research in Music Education
- MUS 5421 Practicum in Advanced Teaching
- MUS 5423 Foundations of Music Education*
- MUS 5433 Performance Repertoire
- MUS 5523 Rehearsal Techniques
- MUS 5533 Pedagogy of Musical Performance (may be repeated for credit)
- MUS 5542 Music Performance (may be repeated for credit)
- MUS 5554 Music Performance–Performance Emphasis (may be repeated for credit)
- MUS 5572 Pedagogy of Classroom Instruction
- MUS 6423 Seminar in Music Education
- MUS 6903 Project in Music Pedagogy
- MUS 6913 Thesis in Music Education*
- MUS 6941 Recital
- MUS 6961 Comprehensive Examination

*Students selecting the Music Education Emphasis must select at least one of MUS 5423 Foundations of Music Education or MUS 6913 Thesis in Music Education.

D. 6–9 semester credit hours of electives, approved by the student’s advisor, of which no more than 2 hours may be in a music ensemble. Nonmusic electives may be used with consent and approval of the student’s advisor.

Special Degree Requirements. Students selecting the Music Performance emphasis or the Conducting Emphasis are required to participate for two semesters in an ensemble appropriate to their program of study.

Students selecting the Music Performance Emphasis, Conducting Emphasis, and voice principals in the Pedagogy and Performance Emphasis must successfully complete a recital document and oral comprehensive examination. Students selecting the Music Education Emphasis must successfully complete written and oral comprehensive examinations. Students selecting the Pedagogy and Performance Emphasis must successfully complete an oral comprehensive examination.

Graduate Certificate in Keyboard Pedagogy

The Certificate in Keyboard Pedagogy is designed for active pre-college piano teachers who are interested in continuing their education through a program that is focused on practical courses in their field. Admission requirements to the Certificate Program are the same as admission requirements to the Master of Music program (audition, three letters of reference, and a grade point average of 3.0 in the last 60 hours of undergraduate work).

The Certificate in Keyboard Pedagogy requires the following 15 semester credit hours:

- MUS 5421 Practicum in Advanced Teaching 1 hour
- MUS 5533 Pedagogy of Musical Performance (two semesters) 6 hours
- MUS 5542 Music Performance 2 hours
- MUS 5572 Pedagogy of Classroom Instruction 2 hours
- MUS 6903 Project in Music Pedagogy 3 hours
- MUS 6971 Special Problems (Opportunity for specialized study with experts in the field.) 1 hour

Individuals interested in pursuing the Certificate in Keyboard Pedagogy should contact the Department of Music Keyboard Area Coordinator.
Graduate Certificate in Keyboard Performance

The Certificate in Keyboard Performance is a graduate option that allows exclusive focus on the performance aspects of musicianship. Admission requirements to the Certificate Program are the same as admission requirements to the Master of Music program (audition, three letters of reference, and a grade point average of 3.0 in the last 60 hours of undergraduate work).

The Certificate in Keyboard Performance requires the following 15 semester credit hours:

- **MUS 5554** Music Performance–Performance Emphasis (two semesters) 8 hours
- **MUS 5583** Advanced Instrumental Techniques 3 hours
- **MUS 5711** Graduate Ensemble (two semesters) 2 hours
- **MUS 6941** Recital (two recitals – one solo, one chamber) 2 hours

Individuals interested in pursuing the Certificate in Keyboard Performance should contact the Department of Music Keyboard Area Coordinator.

### COURSE DESCRIPTIONS

#### MUSIC (MUS)

**5003 Graduate Music Theory Review**

(3-0) 3 hours credit.

Designed to satisfy deficiencies indicated by the Graduate Music Theory Placement Examination. Harmonic analysis, part-writing, form, sight-singing and aural skills, as well as twentieth-century materials will be reviewed. A grade of “B” or higher is required before taking further graduate studies in music theory. Cannot be counted toward any Master of Music degree program.

**5013 Graduate Music History Review**

(3-0) 3 hours credit.

Designed to satisfy deficiencies indicated by the Graduate Music History Placement Examination. Surveys the styles, periods, composers, and historical developments of Western art music. A grade of “B” or higher is required before taking further graduate studies in music history. Cannot be counted toward any Master of Music degree program.

**5023 Graduate Music Pedagogy Review**

(3-0) 3 hours credit.

Designed to satisfy deficiencies indicated by the Graduate Pedagogy Placement Examination. Anatomy, physiology, acoustics, lifespan development and performing arts health issues will be reviewed. A grade of “B” or higher is required before taking further graduate studies in music pedagogy. Cannot be counted toward any Master of Music degree program.

**5103 Applied Systems of Analysis**

(3-0) 3 hours credit. Prerequisite: Graduate standing in music.

A study of techniques designed to assist the conductor-performer-analyst in a better understanding of music through the application of different analytical systems.

**5133 Topics in Music Theory**

(3-0) 3 hours credit. Prerequisite: Graduate standing in music.

A study of selected areas of music theory. Topics may include theory pedagogy, performance and analysis, history of theory, theory and aesthetics of music, and rhythmic analysis. May be repeated for credit when topics vary. Topics may be taken concurrently.
5163  **Composition**  
3 hours credit. Prerequisites: Graduate standing in Music and consent of instructor.  
Private study for the development of techniques and tools for composition, with emphasis on the craft of writing chamber works for various media in contemporary styles. Seminar attendance may be required.

5223  **Ensemble Repertoire**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in music.  
A study of repertoire for ensembles including a historical perspective. Topics are (1) Choral; (2) Instrumental; (3) Keyboard. May be repeated for credit.

5233  **Introduction to Music Research**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in music.  
A survey of references and sources consulted in graduate music courses; format for papers and thesis, including footnotes and bibliography. Research methods in music are explored.

5263  **Topics in Music History**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in music.  
A study of works and styles appropriate to the topics listed. Topics are (1) Middle Ages; (2) Renaissance; (3) Baroque Period; (4) Classic Period; (5) Romantic Period; (6) Twentieth Century; (7) World Music; and (8) Music Practices and Styles. May be repeated for credit when topics vary. Topics may be taken concurrently.

5403  **Psychological Foundations of Music Education**  
(3-0) 3 hours credit. Prerequisites: Graduate standing in music and MUS 5233, or consent of instructor.  
A study of the psychological foundations of music education. An investigation of topics such as perception of and responses to music, the nature of musical attributes, music learning, and the measurement of musical behavior.

5413  **Research in Music Education**  
(3-0) 3 hours credit. Prerequisites: Graduate standing in music and MUS 5233, or consent of instructor.  
An introduction to historical, philosophical, descriptive, and experimental research in music education. Students will conduct a research study and prepare a final report.

5421  **Practicum in Advanced Teaching**  
(1-0) 1 hour credit. Prerequisite: MUS 5533 or consent of instructor.  
Observation and teaching of an advanced undergraduate student under the direct supervision of a studio professor.

5423  **Foundations of Music Education**  
(3-0) 3 hours credit. Prerequisites: Graduate standing in music and MUS 5233, or consent of instructor.  
Overview of principles, methodologies and practices of music education.

5433  **Performance Repertoire**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in music.  
A study of the solo, chamber, and orchestral repertoire. May be repeated for credit when topics vary.

5511  **Secondary Performance**  
1 hour credit. Prerequisite: Placement by audition.  
Private instruction for graduate students desiring secondary study in the following areas: baritone, bassoon, clarinet, classical guitar, conducting, contrabass, cornet, flute, harpsichord, horn, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, violoncello, and voice. Seminar attendance and/or concurrent enrollment in an assigned University ensemble may be required. May be repeated for credit.
5523  Rehearsal Techniques  
(3-0) 3 hours credit. Prerequisite: Graduate standing in music.  
A study of rehearsal techniques, including tone development, phrasing, rehearsal score study, style, and rehearsal  
organization. Topics are (1) Choral; (2) Instrumental. May be repeated for credit when topics vary. Topics may be  
taken concurrently.

5533  Pedagogy of Musical Performance  
(3-0) 3 hours credit. Prerequisite: Graduate standing in music.  
Techniques and materials of teaching musical performance to students of all levels. A critical comparison of existing  
materials is included. Each student is required to demonstrate teaching techniques. May be repeated for credit when  
topics vary.

5542  Music Performance  
2 hours credit. Prerequisites: Graduate standing in music and successful audition.  
Private instruction in baritone, bassoon, clarinet, classical guitar, conducting, contrabass, cornet, flute, harpsichord,  
horn, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, violoncello, or voice. Seminar  
attendance may be required. May be repeated for credit.

5554  Music Performance–Performance Emphasis  
4 hours credit. Prerequisites: Graduate standing in music and successful audition.  
Private instruction for graduate students with emphasis in performance or conducting. Instruction offered in baritone,  
bassoon, clarinet, classical guitar, conducting, contrabass, cornet, flute, harpsichord, horn, oboe, organ, percussion,  
piano, saxophone, trombone, trumpet, tuba, viola, violin, violoncello, or voice. Seminar attendance may be required.  
May be repeated for credit.

5572  Pedagogy of Classroom Instruction  
(2-0) 2 hours credit. Prerequisite: Graduate standing in music.  
A study of pedagogical techniques and materials used for group instruction in the classroom for instrumentalists  
and/or vocalists. Students will have an opportunity to tutor individual students under the supervision of the instructor.  
(Formally titled “Class Piano Pedagogy.”)

5583  Advanced Instrumental Techniques  
(3-0) 3 hours credit. Prerequisite: Graduate standing in music.  
A study of advanced playing and teaching techniques, selection of materials, and maintenance care. Topics are  
(1) Winds and Percussion; (2) Strings; (3) Keyboard. Designed primarily for instrumental music teachers.

5593  Elementary Music  
(3-0) 3 hours credit. Prerequisite: Graduate standing in music.  
A study of the current methods and materials used in teaching elementary music. Classroom instruments are  
also studied.

5711  Graduate Ensemble  
(0-3) 1 hour credit.  
The study of selected ensemble works through participation in rehearsal and performance. May be repeated  
for credit.

6233  Twentieth-Century Analytical Techniques  
(3-0) 3 hours credit. Prerequisite: Graduate standing in music.  
Applied analysis of contemporary music using techniques designed to aid the performer and music educator in a fuller  
understanding of music composed since 1900.
6313  **The Use of Microcomputers in Music Education**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in music.  
A study of the role of microcomputers in music education. Students are given the opportunity to learn basic  
programming techniques with specific applications to music instruction. Currently available software and hardware  
ablessible to music instruction are examined.

6353  **Multimedia Production**  
(3-0) 3 hours credit.  
Provides instruction on the development of computer-aided presentations and interactive applications that integrate  
various media including music, narration, sound, text, and graphics. Students use current multimedia development  
and presentation packages to apply concepts of effective production management, audiovisual design, and educational  
psychology. Supplementary instruction includes scanning, digital audio/video manipulation, and graphics creation.  
Projects are individualized to reflect each student’s chosen discipline.

6423  **Seminar in Music Education**  
(3-0) 3 hours credit. Prerequisites: Graduate standing in music and MUS 5233, or consent of instructor.  
Studies in the philosophy, historical background, and current trends in music education. May be repeated for credit  
when topics vary.

6543  **Diction for Singers**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in music.  
A study of performance diction for singers. The pronunciation of the language as it applies to public performance.  
Topics include English, French, Italian, and German. May be repeated for credit when topics vary.

6903  **Project in Music Pedagogy**  
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and program advisor.  
Offers the opportunity to complete a professional project in music pedagogy relevant to the student’s background,  
interests, and/or needs. The project should include, but not necessarily be limited to, appropriate written documentation.  
May be repeated for credit.

6913  **Thesis in Music Education**  
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and project director.  
Offers the opportunity to complete a thesis in music education relevant to the student’s background, interests, and/  
or needs. The thesis should include, but not necessarily be limited to, appropriate written documentation. May be  
repeated for credit, but not more than 3 hours will apply to the Master of Music degree. Enrollment is required each  
term in which the thesis is in progress.

6941  **Recital**  
1 hour credit. Prerequisites: Permission of the Graduate Advisor of Record and music performance instructor.  
Concurrent registration required in MUS 5542 or MUS 5554 for pedagogy and performance emphasis and music  
performance emphasis.  
A recital approximately one hour in length; required of all students in the performance, or conducting, or pedagogy  
and performance emphases.

6951-3  **Independent Study**  
1 to 3 hours credit. Prerequisites: Permission in writing (form available) of the instructor and the Graduate Advisor  
of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing  
specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit,  
but not more than 6 hours will apply to the Master of Music degree.
6961 Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate graduate program committee to take the Comprehensive Examination.
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination). Credit earned in MUS 6961 cannot be counted in the total hours required for the Music Education emphasis or Pedagogy and Performance emphasis. MUS 6961 is required of all students in the Music Performance emphasis or Conducting emphasis and will be counted in the total hours required for those degrees.

6971-3 Special Problems
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.
Offers the opportunity for specialized study not normally or not often available as part of the regular course offerings. May be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master of Music degree.
DEPARTMENT OF POLITICAL SCIENCE AND GEOGRAPHY

Master of Arts Degree in Political Science

The Master of Arts degree in Political Science offers students the opportunity to develop and expand their understanding of political theories, methodologies, and substantive political affairs. The program prepares students for possible careers in city, state and federal government, international governmental and non-governmental organizations, public opinion polling, campaign management, community college teaching and other related occupations. The program also provides excellent preparation for law school and doctoral studies. Students may specialize in American Government, International Politics, or Political Theory and Public Law, or design their own specialization.

Program Admission Requirements. Students wishing to apply to the Master of Arts Program in Political Science must submit the following materials to the graduate admissions office:

1. an application form (available online at www.utsa.edu/graduate/)
2. an application fee
3. official transcripts from all collegiate institutions attended including community colleges
4. a statement of purpose (roughly 500 words or two typed pages) indicating your interest and goals in studying political science
5. two letters of recommendation from someone who can speak to your qualifications for the graduate program (at least one of these must be from someone familiar with your academic qualifications).

Applicants must submit the above materials, must satisfy all University requirements, and must have completed 18 semester credit hours in upper-division undergraduate or graduate-level courses in political science or related fields. It is recommended that applicants have at least a 3.0 grade point average (on a 4.0 scale) in the last 60 hours of undergraduate and graduate work. Graduate Record Examination (GRE) and LSAT scores are optional, but are recommended for students who feel their undergraduate grade point average does not accurately reflect their academic potential. Applicants will be considered on a case-by-case basis and may be admitted conditionally. Students who wish to take courses in the program without earning credit toward a Master’s degree may apply as non-degree-seeking students.

Degree Requirements. The minimum number of semester credit hours required for the degree is 36. Students without a basic foundation in statistics and/or social science research methods may be required to complete an undergraduate-level course in one of these areas before enrolling in POL 5013 Research Methods.

Degree candidates must complete the following requirements:

A. 6 semester credit hours of methodological core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL 5003</td>
<td>Political Inquiry</td>
</tr>
<tr>
<td>POL 5013</td>
<td>Research Methods</td>
</tr>
</tbody>
</table>

Plus 6 semester credit hours of breadth core courses from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL 5043</td>
<td>International Politics</td>
</tr>
<tr>
<td>POL 5063</td>
<td>Political Philosophy</td>
</tr>
<tr>
<td>POL 5153</td>
<td>American Government and Politics</td>
</tr>
</tbody>
</table>

B. 18 semester credit hours (for the Master’s thesis) or 21 semester credit hours (for the Master’s essay) of designated elective courses in consultation with the faculty advisor. Students may receive up to 6 semester credit hours for courses taken outside of political science after consultation with their advisor.
Students specializing in *American Government* must complete:

POL 5153 American Government and Politics

And at least 9 semester credit hours from the following:

POL 5023 Political Economy
POL 5033 Political Communications and Behavior
POL 5103 Topics in American Politics
POL 5113 Latino/a Politics
POL 5133 Ethnic and Gender Politics
POL 5143 Theory and the City
POL 5163 American Political Development
POL 5173 Policy Process
POL 5183 Congress
POL 5193 Presidency
POL 5403 Topics in Political Communications and Behavior
POL 5413 Political Psychology
POL 5423 Campaign Management and Consulting
POL 5433 Electoral Behavior
POL 5443 Polling and Survey Research Techniques
POL 5453 Political Advertising
POL 5503 Constitutional Law and Judicial Decision-Making

Students specializing in *International Politics* must complete:

POL 5043 International Politics

And at least 9 semester credit hours from the following:

PAD 5663 Development Administration
POL 5303 Topics in Comparative and International Politics
POL 5313 Comparative Political Parties
POL 5333 European Politics
POL 5363 Mexican Politics
POL 5373 Human Rights
POL 5703 American Foreign Policy
POL 5713 Comparative Political Systems
POL 5723 International Organizations
POL 5733 Political Actors and Systems in Latin America
POL 5743 Electoral Systems in the Americas
POL 5773 Comparative Foreign Policy
POL 5783 International Security
POL 5793 International Political Economy
POL 5813 Principles of Economic Governance
POL 5823 Political Economy of the Americas
POL 5833 Business and Labor in U.S. Politics
POL 5853 Economic Geography
POL 5873 Global Governance
POL 5903 Political Geography
Students specializing in *Political Theory and Public Law* must complete:

**POL 5063** Political Philosophy

And at least 9 semester credit hours from the following:

**POL 5143** Theory and the City  
**POL 5203** Topics in Political Theory  
**POL 5223** Issues in Contemporary Political Theory  
**POL 5243** International Justice and Values Relativism  
**POL 5253** Issues of Immigration  
**POL 5263** Theories of Racism  
**POL 5273** Contemporary Political Theory and Social Policy  
**POL 5503** Constitutional Law and Judicial Decision-Making  
**POL 5223** Issues of Immigration  
**POL 5263** Theories of Racism  
**POL 5273** Contemporary Political Theory and Social Policy  
**POL 5503** Constitutional Law and Judicial Decision-Making  
**POL 5523** Litigation Politics  
**POL 6103** Seminar in Theories of Politics and Law

C. 6 semester credit hours (Master’s Thesis); 3 semester credit hours (Master’s Essay):

**POL 6983** Master’s Thesis  
**POL 6993** Master’s Essay

D. Students must complete the core course requirements within their first 18 hours of coursework. Students must complete at least 21 semester credit hours of coursework and maintain a 3.0 grade point average before they may enroll in **POL 6983** Master’s Thesis or **POL 6993** Master’s Essay.

**Graduate Certificate in Security Studies**

The Graduate Certificate in Security Studies is a 15-hour concentration available to non-degree-seeking students who have been admitted to UTSA by application through the normal graduate admissions process. It is a program that mainly serves the needs of San Antonio regional professionals, such as leaders in military and civilian contract functions, who require advanced education short of full degree programs and in areas directly connected with their work in homeland security and defense at national, state, and local levels. The Department of Political Science and Geography is responsible for all coordination of students participating in the certificate program.

The program’s goals are to expand horizons of awareness of domestic and global conditions that reasonably can be expected to impact on homeland security and defense in a democratic society, and to deepen awareness of how political systems address particular conditions of threat arising from natural disasters and external attacks. It is assumed that most applicants will have an established record of basic expertise through their assignments in operational areas in domestic or international security in private or public organizations.

Requirements for the Graduate Certificate in Security Studies include 15 semester credit hours, of which 6 semester credit hours are in **POL 5083** Geo-Political Context of Homeland Security and Defense and **POL 5943** Threat Environments and Homeland Security and Defense; and 9 semester credit hours of electives are chosen in consultation with the program director and advisor. The list of electives is intentionally diverse and drawn from relevant existing courses across the University in order to encourage students to self-identify disciplinary interests. No course in which a grade lower than a “B” is earned may be used to complete a Graduate Certificate in Security Studies. Graduate credit earned at other colleges or universities cannot be applied as credit in the certificate program. Students must complete the certificate program within an 18-month period from the time of first registration.

Individuals interested in the Graduate Program in Security Studies should contact the Graduate Advisor of the Department of Political Science and Geography. An application for admission to the certificate program must be completed online and all required supporting materials must be submitted before students may register for courses.
COURSE DESCRIPTIONS
POLITICAL SCIENCE
(POL)

5003  Political Inquiry
(3-0) 3 hours credit.
An introduction to investigation and analysis in Political Science. A major objective is for students to learn how
to frame a question, formulate a hypothesis, and review and apply the relevant literature. The course provides an
introduction to research design and qualitative research methods, and may include questions in the philosophy of
science and other methodological and theoretical questions central to political science.

5013  Research Methods
(3-0) 3 hours credit.
This course provides students with the opportunity to develop a basic working knowledge of the empirical, quantitative
approaches/techniques social scientists use in understanding social/political phenomena. The conceptual focus will be
on classic hypothesis testing. The class will culminate with multiple regression analysis and its extensions. Students
will be given an opportunity to learn how to read the empirical, quantitative primary political science literature, and
conduct a statistical analysis of a question in political science.

5023  Political Economy
(3-0) 3 hours credit.
Analysis of the interplay of politics and economics in the domestic and international arenas. Divergent theoretical
perspectives and their basis in the work of classical and contemporary political economists and social theorists.
Topics may include the politics and economics of international trade, technology policy, educational reform, industrial
restructuring, privatization, environmental policy, and labor-market policy.

5033  Political Communications and Behavior
(3-0) 3 hours credit.
An examination of major theories and research dealing with human behavior and interaction in politics, drawing
on the literature of political sociology, political communications, political anthropology, and political psychology.
Professional applications such as public opinion polling, political journalism, public relations, campaign management,
political advertising, and political consulting are considered.

5043  International Politics
(3-0) 3 hours credit.
This course analyzes theories of international relations and/or comparative politics, with an emphasis on major
theoretical paradigms and methodological approaches. Topics may include security, economics, the environment, and
human rights.

5063  Political Philosophy
(3-0) 3 hours credit.
A broad survey of central political issues and thinkers. Students will be introduced to the philosophies of thinkers such
as Plato, Hobbes, Locke, Rousseau, and Marx.

5083  Geo-Political Context of Homeland Security and Defense
(3-0) 3 hours credit.
A broad overview of the geo-political dynamics of domestic and international crises and their relationship to homeland
security and defense (HSD) policies. Course topics may include discussions of how U.S. political systems develop
policies to reduce negative impacts of domestic and international crises, principles of federalism related to political
responses to crises, political communications in times of crisis, domestic and foreign policy implications, geospatial
factors, and foreign policy considerations. May include guest lectures by prominent practitioners and scholars.
5093  Politics of U.S. National Security Policy Making  
(3-0) 3 hours credit.  
An examination of the political dynamics of national security decision making, placing particular emphasis on executive branch leadership and coordination with other institutions of government. Discussion of the history and politics, evolution, and institutional roles of the U.S. national security system. Includes discussion of policy initiatives, institutional decision making settings, constitutional and statutory controls on institutional powers, and policy outcomes. Course may explore a sample of major national security decisions in terms of political characteristics and principles.

5103  Topics in American Politics  
(3-0) 3 hours credit.  
An examination of an individual topic or set of issues in American politics. May be repeated for credit when topics vary.

5113  Latino/a Politics  
(3-0) 3 hours credit.  
This course examines the role of the Latino electorate in shaping state and national politics. Topics may include the political histories of various Latino national origin groups, public policy issues that concern Latinos, the successes and failures of Latino empowerment strategies, and the electoral impact of Latino votes.

5133  Ethnic and Gender Politics  
(3-0) 3 hours credit.  
How ethnic and gender differences influence political behavior, policymaking, and policy outcomes in the United States. Theories of ethnic relations and feminist and other theories of gender relations. Strategies for dealing with ethnic conflict and gender discrimination and harassment. (Formerly POL 5123. Credit cannot be earned for both POL 5133 and POL 5123.)

5143  Theory and the City  
(3-0) 3 hours credit.  
This course examines the city from a theoretical and historical perspective. The course allows for various strategies focusing on communities and/or policies. Authors may include, but are not limited to, Mumford, Jacobs, Engels, Katzenelson, Harvey, and Castells.

5153  American Government and Politics  
(3-0) 3 hours credit.  
An examination of the major issues, problems, and processes of American government and administration.

5163  American Political Development  
(3-0) 3 hours credit.  
This course presents a macropolitical perspective on American politics. It introduces students to debates in political science about change and development in political authority relations since the founding of the Republic. Topics may include the nature of regimes and regime change; the relationship between ideology and political culture; developments in institutional authority and in the balance of power among institutions such as the three branches of government, federal and state authority, and the military; continental development; the emergence of the regulatory state; the United States as a world power; and the representative process and forms of popular organization.

5173  Policy Process  
(3-0) 3 hours credit.  
This course examines theories of the policy-making and -executing process, and the actors, institutions, and politics that are involved in the process. (Credit cannot be earned for both POL 5173 and PAD 5323.)
5183  Congress
(3-0) 3 hours credit.
The study of the U.S. Congress. Topics may include Congressional procedure and policymaking, representation, and elections. The course also considers the various approaches used in the scholarly study of Congress, including behavioral, rational choice, and historical methods.

5193  Presidency
(3-0) 3 hours credit.
This course examines the origins and development of the presidency, the relationship of the institution of the presidency with major actors in the governmental process, and the modern practice of presidential leadership in the United States.

5203  Topics in Political Theory
(3-0) 3 hours credit.
An examination of an individual topic, theorist, or set of issues in political theory. May be repeated for credit when topics vary.

5223  Issues in Contemporary Political Theory
(3-0) 3 hours credit.
An introduction into some of the major issues and trends within political theory over the last century. Authors may include Gramsci, Adorno, Heidegger, Fanon, de Beauvoir, Habermas, and Derrida.

5243  International Justice and Values Relativism
(3-0) 3 hours credit.
This course examines the question of whether it is possible to formulate a universally acceptable theory of justice or human rights in a world of diverse religious, cultural, moral and ideological beliefs. Authors may include Habermas, Rawls, Gewirth, Rorty, Finnis, and Nussbaum.

5253  Issues of Immigration
(3-0) 3 hours credit.
An investigation into immigration policies of three democracies—Germany, Great Britain and the United States—pre-and post-September 11. The course will explore issues raised by immigration in a democracy, problems of justice, who deserves citizenship, concerns about work, and the role of human rights.

5263  Theories of Racism
(3-0) 3 hours credit.
An examination of Marxist and post-Marxist analyses of racism and its development. Concepts of “race,” race-thinking and racism will be explored from the 1500s on. Two central premises of the course are that racism still exists and that race is largely a construct rather than a biological reality.

5273  Contemporary Political Theory and Social Policy
(3-0) 3 hours credit.
This course explores contemporary political theories such as welfare liberalism, libertarianism, socialism, communitarianism, multiculturalism and feminism. Emphasis will be placed on understanding the theoretical principles underlying these different theories and the practical social policies and institutions that logically follow from them.

5303  Topics in Comparative and International Politics
(3-0) 3 hours credit.
An examination of an individual topic or set of issues in comparative and/or international politics. May be repeated for credit when topics vary.
5313  Comparative Political Parties
(3-0) 3 hours credit.
An examination of the major theories and research regarding the role of political parties in contemporary democracies. The course will focus on how the role of political parties has changed in the post-WWII era at three levels: in the electorate, as organizations, in government.

5323  Urban Social, Economic, and Political Geography
(3-0) 3 hours credit.
An advanced social and economic geography of urban areas, emphasizing intra-urban inequality, the modeling of economic dynamics, and spatial mobility to and within the city. Topics may include social area analysis, residential segregation, migration, perception and personal space in the urban environment, urban transportation, the urban economic base and its dynamics, and consumer shopping behavior in cities. May be repeated for credit when topics vary.

5333  European Politics
(3-0) 3 hours credit.
An examination of the political systems and links between civil society and political institutions in several European nations in the post-WWII era. This course will focus on domestic politics, and will also introduce the European Union. Topics may include political institutions, policy processes, political representation, and public opinion in the European countries.

5363  Mexican Politics
(3-0) 3 hours credit.
This course focuses on Mexico’s political and economic development, including the interaction between the state and civil society and the current challenges of the state. The course includes a historical overview of the development of Mexican national politics, institutions and the economy, and the emergence of civil society. Specific topics may include guerrilla movements, drug dealing, and U.S.-Mexico relations.

5373  Human Rights
(3-0) 3 hours credit.
This course explores the meaning of human rights, analyzes cases of human rights violations in various parts of the world, and examines the roles that individuals, states, and international organizations play in committing and ending human rights abuses. Topics may include genocide, torture, the death penalty, honor killings, and the violation of children’s and workers’ rights.

5403  Topics in Political Communications and Behavior
(3-0) 3 hours credit.
An examination of an individual topic or set of issues in political communications and behavior. May be repeated for credit when topics vary.

5413  Political Psychology
(3-0) 3 hours credit.
The study of psychological theories of political phenomena at individual, small group, organizational, and nation-state levels. Topics may include political socialization, personality and political leadership, the social psychology of mass participation, rational choice and symbolic politics paradigms of political behavior, psychological models of international conflict, and models of political cognition.

5423  Campaign Management and Consulting
(3-0) 3 hours credit.
An examination of strategies and techniques employed in managing electoral and lobbying campaigns. Topics may include development of comprehensive campaign plans, techniques of fund-raising and budgeting, advertising and public relations, canvassing phone banks, sociodemographic targeting, use of polls, image management, and the use of mass media.
5433  **Electoral Behavior**  
(3-0) 3 hours credit.  
An examination of political science theory and research on elections and voting behavior in the United States and other countries. Topics may include electoral cycles and realignment patterns; the impact of media coverage and campaign tactics on opinions, turnout, and electoral outcomes; and the sociodemographic and psychological variables influencing voting and nonvoting.

5443  **Polling and Survey Research Techniques**  
(3-0) 3 hours credit.  
The sources, dynamics, and political effects of public opinion. Emphasis is on applied quantitative and qualitative techniques of data collection and analysis commonly used by political scientists, polling organizations, and political consultants in measuring citizen orientations. Topics may include survey methods, interviewing, focus groups, debate meters, sociodemographic targeting, content analysis, frame analysis, simulation, multidimensional scaling, and cluster analysis.

5453  **Political Advertising**  
(3-0) 3 hours credit.  
A comprehensive and in-depth examination of the many aspects of political advertising. This course merges academic research with expertise from professional practitioners to give students an understanding of a variety of current topics. Topics may include image development, message creation, advertising production, advertising placement and buying, “under the radar” techniques, direct mail, and related issues such as negative advertising, and the attitudinal and behavioral consequences of particular advertising strategies.

5503  **Constitutional Law and Judicial Decision-Making**  
(3-0) 3 hours credit.  
An advanced course in constitutional law and interpretation. Emphasis is on written judicial decisions, the political environment of judicial decision-making, and the impact of constitutional interpretations on society.

5523  **Litigation Politics**  
(3-0) 3 hours credit.  
An examination of litigation as a means of social change, effectuation of justice, and political pressure and reform. Explores the litigation process from historical and political context, through its origins, court proceedings, and impact.

5623  **Intergovernmental Relations in the United States**  
(3-0) 3 hours credit.  
The administrative and political effects of the division of authority among coordinate units of government. Federal-state, state-local, local-federal, state-state, local-local, and governmental-nongovernmental relations are examined.

5703  **American Foreign Policy**  
(3-0) 3 hours credit.  
This course analyzes the domestic and international factors that affect American foreign policy, including explanations that focus on psychology, bureaucratic politics, lobbying organizations, public opinion, and national culture.

5713  **Comparative Political Systems**  
(3-0) 3 hours credit.  
Comparative analysis of institutions, processes, and policy objectives in select post-industrial, transitional, and developing political systems. Topics may include state theory, institutionalism, political culture, nationalism, political economy, party systems, new social movements, and regional integration.
5723 International Organizations
(3-0) 3 hours credit.
An examination of international political and economic organizations, as well as major issues involving them. Topics may include alliance systems, regional development, common markets, peacekeeping, international conferences, United Nations, IMF, World Bank, and regional organizations.

5733 Political Actors and Systems in Latin America
(3-0) 3 hours credit.
An examination of politics in Latin America. The course centers the analysis around two axes: the interplay between civil society and the state and patterns of inter-American relations.

5743 Electoral Systems in the Americas
(3-0) 3 hours credit.
A comparative study of campaigns and elections in the Americas. The course assesses similarities and differences of electoral systems in the region with particular emphasis on North American politics (Canada, the United States, and Mexico).

5753 The Geography of Third World Development
(3-0) 3 hours credit.
Advanced analysis of economic growth and social change in developing nations and regions. Investigates issues such as defining of development; major theories of development and underdevelopment; global inequalities; population growth and migration; and the role of agriculture, industry, transportation, and government and trans-governmental planning in development. (Same as GRG 5753. Credit cannot be earned for both POL 5753 and GRG 5753.)

5773 Comparative Foreign Policy
(3-0) 3 hours credit.
This course will compare worldviews, institutional processes, policies, and outcomes in foreign policymaking. Cross-national and thematic comparisons will be used to examine the foreign policies of major actors in international security, international organization, economic competition, and humanitarian issues. Regional comparisons may focus on political and economic issues in Europe, the Middle East, Asia, Africa and/or Latin America.

5783 International Security
(3-0) 3 hours credit.
This course examines issues related to war. Topics may include causes of civil and international war, deterrence, nuclear and conventional weapons, terrorism, and conflict prevention and resolution.

5793 International Political Economy
(3-0) 3 hours credit.
This course analyzes the interaction of politics and economics in the international arena, with a focus on international trade, investment, monetary, and financial relations. Topics may include the role of international economic institutions (such as the World Bank, the International Monetary Fund, and the World Trade Organization), regional integration, foreign debt, dependency and development, structural change in international economics, and critiques of economic globalization.

5803 Topics in Political Economy
(3-0) 3 hours credit.
An examination of an individual topic or set of issues in political economy. May be repeated for credit when topics vary.
5813  **Principles of Economic Governance**  
(3-0) 3 hours credit.  
Examination of the changing principles and practices of economic governance in Western democracies. The shift to market-oriented governance techniques. Theories of state-business relations. Case studies of specific national and regional governance regimes. Topics may include fiscal and monetary policy, the management of welfare systems, industrial development and antitrust, communications policy, trade policy, natural resource management, and regional development.

5823  **Political Economy of the Americas**  
(3-0) 3 hours credit.  
An examination of the changing relationship among the state, society, and the private sector in Latin America and its influence on hemispheric relations. Topics may include state ownership and privatization, industrial policy, trade union influence, foreign investment and foreign trade policy, and the impact of NAFTA, GATT, and other international agreements.

5833  **Business and Labor in U.S. Politics**  
(3-0) 3 hours credit.  
An examination of the influence of business and labor organizations on public policy formation, implementation, and elections. Policy areas may include industrial relations and labor law, regulatory practices, foreign trade, the environment, government subsidization, taxation, and finance.

5853  **Economic Geography**  
(3-0) 3 hours credit.  
An advanced examination of the location of economic activities, their causes, and consequences. Includes the principles and practices of manufacturing and agricultural location and their impact on political subdivisions and economies; trade areas for retail and service activities; the role of transportation; the economic impact of globalization on local areas; and community economic base and shift-share analysis applied to local economies, with implications for planning and public administration. (Same as GRG 5303. Credit cannot be earned for both POL 5853 and GRG 5303.)

5863  **International Health Issues**  
(3-0) 3 hours credit.  
This course investigates salient health issues in countries other than the United States. Focus is on the health problems of developing countries. (Credit cannot be earned for both POL 5863 and PAD 5863.)

5873  **Global Governance**  
(3-0) 3 hours credit.  
This course analyzes the ways in which various actors bring order to the international system. While traditional theories focus on the role of the state, this course gives greater attention to non-state actors, public and private institutions, and the many ways in which they interact in managing common affairs. Theoretical and empirical issues include, but are not limited to, contending perspectives and systems of rule-making in the areas of security, poverty, trade and finance, human rights and the environment.

5903  **Political Geography**  
(3-0) 3 hours credit.  
Investigates the role of the political state in society and the evolution of state organization from classical times to the present. Topics may include centrifugal and centripetal forces, geopolitics, territorial morphology, boundaries, core areas, and emerging supranationalism. (Same as GRG 5903. Credit cannot be earned for both POL 5903 and GRG 5903.)
5913  Design and Management of Geographic Information Systems  
(3-0) 3 hours credit.  
A graduate-level introduction to the use of industry-standard GIS software. Topics include GIS data structures, system design, and methods of data exploration and analysis. The course includes discussion of issues related to planning, implementing, and managing large-scale GIS projects for research projects or organizations. (Same as GRG 5913. Credit cannot be earned for both POL 5913 and GRG 5913.)

5923  Advanced Research Methods  
(3-0) 3 hours credit.  
An in-depth examination of regression analysis. Advanced topics may include recursive and nonrecursive causal modeling, factor analysis, and structural equation modeling. (Formerly POL 5213. Credit cannot be earned for both POL 5923 and POL 5213.)

5933  Topics in Research Methods  
(3-0) 3 hours credit.  
An examination of an individual topic or set of issues in research methods. May be repeated for credit when topics vary.

5943  Threat Environments and Homeland Security and Defense  
(3-0) 3 hours credit.  
An in-depth analysis of political system responses to domestic and international threats in terms of homeland security and defense. Consideration is given to political systems direction of operations, planning, and policy making organizations as they conceptualize and develop homeland security and defense strategies. Course topics may include lectures on political systems responses to natural disasters and panic, transportation systems disasters, hostage takings, weapons of mass destruction, cyber attacks, human trafficking; and on threat modeling, law and legal institutions in crisis situations, communications systems and media roles in emergencies, dynamics of leadership and decision making under stressful conditions, and inter-organizational cooperation and response negotiations. May include guest lectures by prominent practitioners and scholars.

6103  Seminar in Theories of Politics and Law  
(3-0) 3 hours credit. Prerequisite: 6 semester credit hours from the list of courses specializing in political theory and public law (see section B in Degree Requirements). 
This course provides students with the opportunity to analyze and critique significant theories of politics and law. Emphasizing student development of critical, analytic, and synthetic abilities, this course explores major works of political philosophy and jurisprudence and culminates in theory construction by students.

6951-3  Independent Study  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record. 
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not usually available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6963,6  Internship  
3 or 6 hours credit.  
Practical experience in a workplace setting in which classroom knowledge of political institutions, processes, and public policy can be deepened and applied. May be repeated for credit to a maximum of 6 hours.

6973  Special Problems  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not usually available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.
6983,6 Master’s Thesis
3 or 6 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s
degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is
in progress.

6993 Master’s Essay
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and master’s essay director.
Master’s essay research and preparation. Cannot be repeated for credit. Credit will be awarded upon completion of the
essay. Enrollment is required in the first term in which the essay is in progress.

COURSE DESCRIPTIONS

GEOGRAPHY

(GRG)

5303 Economic Geography
(3-0) 3 hours credit.
An advanced examination of the location of economic activities, their causes and consequences. Includes the
principles and practices of manufacturing and agricultural location and their impact on political subdivisions and
economies, trade areas for retail and service activities, the role of transportation, the economic impact of globalization
on local areas, and community economic base and shift-share analysis applied to local economies, with implications
for planning and public administration. (Same as POL 5853. Credit cannot be earned for both GRG 5303 and
POL 5853.)

5323 Urban Social, Economic, and Political Geography
(3-0) 3 hours credit.
An advanced social and economic geography of urban areas, emphasizing intra-urban inequality, the modeling of
economic dynamics, and spatial mobility to and within the city. Topics may include social area analysis, residential
segregation, migration, perception and personal space in the urban environment, urban transportation, the urban
economic base and its dynamics, and consumer shopping behavior in cities. May be repeated for credit when
topics vary.

5513 Geography and Culture
(3-0) 3 hours credit.
An exploration of the nature and distribution of cultural landscapes and human behavior within these landscapes.
Taking a global focus, the course examines the spatial diffusion of culture, regional differences in religion, language,
and ethnicity, environmental perception and behavior, intercultural communication, and environmental determinism
and possibilism, among other topics.

5753 The Geography of Third World Development
(3-0) 3 hours credit.
Advanced analysis of economic growth and social change in developing nations and regions. Investigates issues such
as defining of development, major theories of development and underdevelopment, global inequalities, population
growth and migration, and the role of agriculture, industry, transportation, and government and trans-governmental
planning in development. (Same as POL 5753. Credit cannot be earned for both GRG 5753 and POL 5753.)

5903 Political Geography
(3-0) 3 hours credit.
Investigates the role of the political state in society and the evolution of state organization from classical times to
the present. Topics may include centrifugal and centripetal forces, geopolitics, territorial morphology, boundaries,
core areas, and emerging supranationalism. (Same as POL 5903. Credit cannot be earned for both GRG 5903 and
POL 5903.)
5913  Design and Management of Geographic Information Systems  
(3-0) 3 hours credit.  
A graduate-level introduction to the use of industry-standard GIS software. Topics include GIS data structures, system design, and methods of data exploration and analysis. The course includes discussion of issues related to planning, implementing, and managing large-scale GIS projects for research projects or organizations. (Same as POL 5913. Credit cannot be earned for both GRG 5913 and POL 5913.)

6973  Special Problems  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not usually available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.
DEPARTMENT OF PSYCHOLOGY

Master of Science Degree in Psychology

The Master of Science degree in Psychology is designed to address the needs of two groups of students: students who wish to pursue doctoral studies and need additional coursework and research experience in order to be competitive for admission to doctoral programs, and students who need graduate-level training in order to be competitive for jobs in behavioral science laboratories or industrial/organizational settings. The program is designed to give students extensive research experience and coursework in experimental methodology, statistics, and the content areas of experimental psychology (e.g., social, personality, cognitive, developmental, clinical).

Program Admission Requirements. Degree-seeking students normally are not admitted for the Spring or Summer Semesters due to course-sequence requirements in the program. Applicants for unconditional admission must meet University-wide admission requirements in addition to the following psychology admission requirements:

1. Scores on the verbal, quantitative, and analytical writing sections of the Graduate Record Examination (GRE) must be received before the application is considered complete and will be used as part of the selection criteria for admission to the program.
2. Completion of a minimum of 18 undergraduate semester credit hours in psychology (12 of which must be at the upper-division level). These hours must include at least one course in statistics and one course in experimental psychology. A single course that combines instruction in statistics and experimental methodology may be accepted, pending the approval of the Graduate Committee in Psychology.
3. A grade point average of at least 3.2 in the last 60 hours of undergraduate coursework and a grade point average of at least 3.2 in all psychology courses taken.
4. A grade of at least a “B” or higher in: PSY 2073 Statistics for Psychology (or its equivalent); and PSY 3403 Experimental Psychology (or its equivalent).
5. Completion of the Psychology Graduate Application, which includes written responses to questions about research experience and professional goals. The information provided on the Psychology Graduate Application will be evaluated and used as part of the selection criteria for admission to the program. The application is available online and can be obtained at the same Web site (http://www.utsa.edu/graduate/) as the University application. Applicants may also call the Department of Psychology to request an application.
6. Two letters of recommendation from behavioral scientists with whom the applicant has taken undergraduate or graduate courses. Recommendation forms are included with the Psychology Graduate Application.

All application materials must be submitted by the University’s fall application deadline. The Psychology Graduate Application and the letters of recommendation can be sent directly to the Graduate Advisor of Record in the Department of Psychology. The University application form and application fee, official school transcripts, and GRE scores should be sent directly to the Graduate School.

Applicants who do not meet requirements for unconditional admission will be considered for admission on a conditional basis if there are indications of unrealized potential.

The highly individualized nature of the program dictates that a limited number of students be admitted each year. For this reason, early submission of application materials is strongly encouraged. Students who meet the minimum admission requirements are not necessarily guaranteed admission.

Degree Requirements. The minimum number of semester credit hours required for this degree, exclusive of coursework or other study required to remove admission deficiencies, is 36. Typically, students complete the program in two years (taking three courses a semester, excluding summers) or three years (taking two courses a semester, excluding summers).
Degree candidates must complete the following requirements:

A. 15 semester credit hours of core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 5113</td>
<td>Research Paradigms in Psychology</td>
</tr>
<tr>
<td>PSY 5213</td>
<td>Research Design</td>
</tr>
<tr>
<td>PSY 5413</td>
<td>Inferential Statistics</td>
</tr>
<tr>
<td>PSY 6113</td>
<td>Psychological Measurement</td>
</tr>
<tr>
<td>PSY 6213</td>
<td>Correlation and Regression Analyses</td>
</tr>
</tbody>
</table>

B. 9 semester credit hours chosen from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

or

*Option 2* (without thesis): 3 additional hours must be completed from the course options listed in Section B and PSY 6513 Research Internship must be completed for an additional 3 hours of credit from the electives listed in Section C. Students seeking this option must notify the Psychology Graduate Program Committee of their intent at least one semester prior to their anticipated graduation date. Students should expect to take the comprehensive examination required for this option during the semester in which they plan to complete the degree. The comprehensive examination can be attempted twice but only once a semester.

Students admitted to the program should consult the Graduate Advisor of Record for specific program requirements.

The program does not require proficiency in a foreign language. A written thesis proposal, approved by the student’s thesis committee, is required before the student may register for PSY 6983 Master’s Thesis.
COURSE DESCRIPTIONS

PSYCHOLOGY

(PSY)

5113 Research Paradigms in Psychology
(3-0) 3 hours credit. Prerequisite: Consent of the instructor or admission to the psychology program.
An introduction to the research questions and the theoretical and methodological assumptions that characterize different subfields in psychology.

5213 Research Design
(3-0) 3 hours credit. Prerequisite: Consent of the instructor or admission to the psychology program.
An examination of criteria and procedures for translating questions of theory and application into effective and relevant research plans. (Formerly titled “Design Considerations in Behavioral Research.”)

5303 Developmental Psychology
(3-0) 3 hours credit. Prerequisite: PSY 5213 or consent of instructor.
A critical analysis of the theories and empirical evidence that form the basis for understanding developmental processes and age-related change.

5313 Seminar in Psychopathology
(3-0) 3 hours credit. Prerequisites: PSY 5213 and prior consent of instructor.
A critical analysis of the theories, diagnostic criteria, research methods, and empirical evidence that form the basis for understanding and treating psychological disorders.

5323 Individual Differences and Assessment
(3-0) 3 hours credit. Prerequisite: PSY 5213 or consent of instructor.
A critical analysis of the theories and empirical data regarding the psychological processes that underlie the manifestation of individual differences in human thought and behavior.

5333 Social Psychology
(3-0) 3 hours credit. Prerequisite: PSY 5213 or consent of instructor.
A critical analysis of the theories and empirical findings regarding the psychological processes that underlie human social behavior. (Formerly titled “Research Seminar in Social Psychological Research.”)

5343 Human Cognition
(3-0) 3 hours credit. Prerequisite: PSY 5213 or consent of instructor.
A critical analysis of the ways that humans select, organize, store, retrieve, modify, and apply information about external events.

5353 Industrial/Organizational Psychology
(3-0) 3 hours credit. Prerequisite: PSY 5213 or consent of instructor.
A critical analysis of the theories, research methodology, and empirical findings that form the basis for understanding work behavior. Additional focus on methods used to assess and evaluate behavior and jobs.

5363 Health Psychology
(3-0) 3 hours credit. Prerequisite: PSY 5213 or consent of instructor.
A critical analysis of the theories, research methods, empirical findings, and applications that form a basis for understanding psychological factors in physical health. (Formerly titled “Research Seminar in Psychology and Health.”)

5383 Biological Psychology
(3-0) 3 hours credit. Prerequisite: PSY 5213 or consent of instructor.
A critical analysis of the theories, research methodology, and empirical findings that form the basis for understanding the biological principles that underlie human behavior.
5393  **Cross Cultural Psychology**  
(3-0) 3 hours credit. Prerequisite: PSY 5213 or consent of instructor.  
The course provides a foundation for a “context sensitive” psychology influenced by the social, cultural, and environmental contexts in which psychological theory is generated and tested. Topics may include cultural influences on the self-concept, cultural influences within “universal” behaviors, cultural differences for participating in groups and societies, and the influence of culture on personal relationships.

5413  **Inferential Statistics**  
(3-0) 3 hours credit. Prerequisite: PSY 5213.  
Application of selected parametric and nonparametric procedures to the analysis and interpretation of empirical data.

6113  **Psychological Measurement**  
(3-0) 3 hours credit. Prerequisite: PSY 5213 or consent of instructor.  
An examination of the criteria and procedures used to develop valid and reliable measures of psychological constructs and human behavior. (Formerly titled “Perspectives in Measurement of Behavior.”)

6213  **Correlation and Regression Analyses**  
(3-0) 3 hours credit. Prerequisite: PSY 5213 or consent of instructor.  
Application of selected multivariate procedures to the analysis and interpretation of empirical data.

6513  **Research Internship**  
3 hours credit. Prerequisites: Consent of instructor and student’s Graduate Advisor.  
Students assist in conducting supervised research in a local organization. May be repeated for credit to a maximum of 6 hours.

6951-3  **Independent Study**  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6961  **Comprehensive Examination**  
1 hour credit. Prerequisite: Approval of the Graduate Program Committee to take the Comprehensive Examination.  
Independent study course for the purpose of taking the Comprehensive Examination. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6973  **Special Topics in Psychology**  
(3-0) 3 hours credit. Prerequisites: Consent of instructor and student’s graduate advisor.  
An organized course offering the opportunity for specialized study not often available as part of the regular course offerings. The course may be repeated for credit when the topics vary, but no more than 3 hours, regardless of discipline, may be applied to the Master’s degree. (Formerly titled “Special Problems.”)

6983,6  **Master’s Thesis**  
3 or 6 hours credit. Prerequisite: Written thesis proposal must be approved by the Graduate Program Committee prior to enrollment.  
Supervised thesis research and preparation. May be repeated for credit, but no more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.
DEPARTMENT OF SOCIOLOGY

Master of Science Degree in Sociology

The Master of Science degree in Sociology is designed to prepare graduates with the skills necessary to enter the professional workforce as sociologists or to pursue further study at the doctoral level. Students have the opportunity to acquire a knowledge base in sociological methods, theory and in areas of growing community concern, including health, aging, religion, socioeconomic development, gender issues, and race and ethnic relations. They will have the necessary research skills to define social issues and problems, select data collection techniques, establish appropriate analysis methods, develop statistical reports, and undertake policy analyses for businesses, governmental agencies, and nonprofit organizations.

Program Admission Requirements. To qualify for unconditional admission, applicants must satisfy University-wide and College-wide graduate admission requirements, and be recommended for admission by the Graduate Program Committee. Applicants must have completed 18 semester credit hours of undergraduate courses, 12 of which must be at the upper-division level in sociology or related areas, including a course in research methods or statistics. Applicants who do not meet these requirements will be considered for conditional admission. Conditional applicants must submit indicators of preparation for graduate study, such as completion of additional undergraduate coursework to remove deficiencies, completion of 9 or more semester credit hours of graduate courses, and the achievement of a 3.0 grade point average (on a 4.0 scale). An applicant not eligible for either unconditional or conditional admission may be recommended for admission as a special graduate student. This does not guarantee subsequent admission as a degree-seeking graduate student; such students must reapply for degree-seeking status.

Degree Requirements. The minimum number of semester credit hours required for the degree, exclusive of coursework or other study required to remove deficiencies, is 36.

Degree candidates must complete the following requirements:

A. 6 semester credit hours of core courses:

   SOC 5003 Sociological Theory
   SOC 5013 Advanced Conceptualization and Measurement
   or
   SOC 5033 Qualitative Research Methods

B. 18 semester credit hours of prescribed electives from the following courses:

   SOC 5023 Quantitative Research Methods
   SOC 5043 Evaluation Research
   SOC 5103 Complex Organizations
   SOC 5123 Family Contexts and Social Change
   SOC 5133 Sociology of Health and Health Care
   SOC 5143 Demography and Community Trends
   SOC 5153 Sociology of Tourism and Leisure
   SOC 5203 Social Stratification
   SOC 5213 Race and Ethnic Relations
   SOC 5223 Mexican Americans: Community, Culture, and Class
   SOC 5233 Gender and Society
   SOC 5253 Border Studies
   SOC 5263 Cultural Studies
   SOC 5323 Sociology of Childhood
   SOC 5333 Language and Society
   SOC 5343 Education and Reproduction of Inequality
   SOC 5353 Crime and Delinquency
SOC 5363 Theory Building and Methods
SOC 5403 Social Movements
SOC 5423 Social Psychology
SOC 6043 Immigration and Society
SOC 6053 Political Sociology
SOC 6063 Health and Health Disparities
SOC 6143 Sociology of Religion
SOC 6903 Topics in Advanced Sociology
SOC 6973 Special Problems

C. 6 semester credit hours of additional electives in sociology or other approved discipline(s)

D. 6 semester credit hours of Internship or Thesis

Internship option. Students may participate in an internship (the nonthesis option) after completion of 18 semester credit hours. Internships offer work-oriented experiences in local organizational settings where the principles, theories, concepts, and methods of the discipline can be applied. A research paper under the supervision of assigned faculty is required.

Thesis option. Students may select the thesis option after they have completed 24 semester credit hours.

E. Comprehensive examination. Degree candidates are required to pass both written and oral comprehensive examinations. Examinations are scheduled after a student has completed at least 30 semester credit hours in the program. Registration for SOC 6961 Comprehensive Examination is only required if the student is not registered for any other course in the semester he or she is taking the comprehensive examination.

COURSE DESCRIPTIONS
SOCIOLOGY
(SOC)

5003 Sociological Theory
(3-0) 3 hours credit.
The nature of sociological theory, the major varieties of theory, the theorists who developed them, and the social and historical contexts of theory development and construction. Issues concerning the relation of theory and research are also explored.

5013 Advanced Conceptualization and Measurement
(3-0) 3 hours credit. Prerequisite: 3 semester credit hours of undergraduate research methods.
Advanced quantitative research methods. Topics may include index construction and scaling, analysis of variance, multiple correlation, and regression, with use of applicable computer programs to analyze local, state, and/or national data sets.

5023 Quantitative Research Methods
(3-0) 3 hours credit. Prerequisite: SOC 5013.
Analyses are pursued using a variety of multivariate statistical techniques developed to meet specialized research problems. Topics may include log-linear analysis, factor analysis, path analysis, discriminant function analysis, logistic regression, and/or LISREL.

5033 Qualitative Research Methods
(3-0) 3 hours credit.
Qualitative strategies and techniques used in social science research, including field methods such as participant observation, in-depth interviews, and the collection of documents. Emphasis is on understanding the ways people interpret their experiences and construct and shape their reality.
5043  Evaluation Research  
(3-0) 3 hours credit. 
Theory and practice of evaluation of public policy and social service programs. Evaluation theories, models, and key evaluation studies are reviewed. Practical and political issues involved in the design and implementation of evaluations are addressed. Evaluation of a social agency or program may be included.

5103  Complex Organizations  
(3-0) 3 hours credit. 
Structure and dynamics of large organizations, with emphasis on outcomes related to varying organizational contexts. The influence of culture and society on organizational behavior is also examined.

5123  Family Contexts and Social Change  
(3-0) 3 hours credit. 
Family system organization and process within the broader context of community and society. Emphasis is on the changing historical roles of families, as well as cross-cultural, socioeconomic, race and ethnic, and gender variability in the family. The impact of education, the economy, and politics is also considered.

5133  Sociology of Health and Health Care  
(3-0) 3 hours credit. 
The relation of social behavior to health status, epidemiology, and the social organization of medicine in the United States and cross-culturally. Emphasis is on the development of the health care industry and problems associated with the delivery of health care services.

5143  Demography and Community Trends  
(3-0) 3 hours credit. 
Basic demographic perspectives and data; methods of analysis of population size, distribution, and composition; determinants and consequences of population trends. Applications of computer programs for demographic analysis may be included.

5153  Sociology of Tourism and Leisure  
(3-0) 3 hours credit. 
Interdisciplinary survey of current theories and research on leisure activity. Leisure trends and their effects on tourism and economic development are examined.

5203  Social Stratification  
(3-0) 3 hours credit. 
Theory and research pertaining to structures of social inequality—their causes, forms, and consequences. Emphasis is on the distribution of power, prestige, and economic privilege, and patterns of social mobility in the United States.

5213  Race and Ethnic Relations  
(3-0) 3 hours credit. 
Dominant-subordinate relations between various racial and ethnic groups from cross-cultural theoretical perspectives. Models of assimilation, cultural pluralism, and colonialism are investigated, as are their implications for minority and majority group members.

5223  Mexican Americans: Community, Culture, and Class  
(3-0) 3 hours credit. 
Sociological focus on the Mexican American population. Emphasis is on the theories used to interpret the experiences of this group, particularly those oriented to issues of stratification and social mobility.
5233 Gender and Society  
(3-0) 3 hours credit.  
Interdisciplinary survey of theory and current research on gender and gender-related issues. Gender-based theories are examined and compared to explanations for other forms of social stratification. Implications for family dynamics, the labor force, and the economy are explored.

5253 Border Studies  
(3-0) 3 hours credit.  
An examination of borders in an era of globalization, with emphasis on the United States–Mexico border. Themes may include a theoretical criticism of American mainstream border studies and its more important representatives.

5263 Cultural Studies  
(3-0) 3 hours credit.  
A study of the significance of culture in society, including the relationship between culture, consciousness, the economy, identity, and history. The development of the field and crucial debates in the literature will be examined. The relationship of Cultural Studies with Critical Theory, feminist theory, multicultural theory, and media studies will be explored.

5323 Sociology of Childhood  
(3-0) 3 hours credit.  
Explores concepts, theories, and empirical research focusing on childhood and children. Topics may include social structure and its consequences for children’s lives, and how circumstances, meanings, and representations of childhood differ across cultures.

5333 Language and Society  
(3-0) 3 hours credit.  
An examination of the work of important scholars in the study of language and social behaviors.

5343 Education and Reproduction of Inequality  
(3-0) 3 hours credit.  
Examines the relation between types of societies and systems of education, the connection between schooling and societal stratification, and how schooling contributes both to social mobility and to the reproduction of the prevailing social order.

5353 Crime and Delinquency  
(3-0) 3 hours credit.  
Analyzes the role of crime and delinquency in society. A consideration of the relationship among data, theory, and policy as integral components of crime and delinquency forms a central theme of this course. Independent empirical work is required.

5363 Theory Building and Methods  
(3-0) 3 hours credit.  
Explores the role of theory building and methodology in sociology. The philosophy of science and sociology of knowledge and of science are used to understand the scientific dynamics of sociology. Theory building, methodology, and research design are explored.

5403 Social Movements  
(3-0) 3 hours credit.  
Involves evaluation of dominant theoretical perspectives and research strategies in social movements and organized protests. Contrasts classic theoretical models with more recent scholarship emphasizing the cultural dimensions of social movement dynamics. Case studies may include the American Civil Rights Movement, Labor Unionization, the Feminist and Environmental Movements.
5423 Social Psychology
(3-0) 3 hours credit.
Provides the student with foundation in the theoretical background of social psychology as well as exposure to contemporary empirical examination of the theories and concepts utilized in this perspective. Topics for study may include socialization, social roles, aggression, pro-social behavior, interpersonal attraction, group dynamics, and collective behavior.

6043 Immigration and Society
(3-0) 3 hours credit.
Analyzes theoretical explanations and social, economic, cultural, and ideological features of migration. May include topics such as border dynamics, transnationalism, incorporation of immigrants, remittances, and the impact on sending and receiving countries.

6053 Political Sociology
(3-0) 3 hours credit.
Focuses on forms of economic, political, social, scientific or knowledge based power. Discussion compares Marxist, elitist, and pluralist theories to understand variations in the use of concepts such as domination, exploitation, and influence. Course may include modern American and European societies and how these theories are used to explain power structures and processes in Latin America and the former colonial world.

6063 Health and Health Disparities
(3-0) 3 hours credit.
Explores issues related to disparities in population health. Health care based on racial, ethnic, and socioeconomic backgrounds in the United States and other nations will be analyzed. Discussions may include differences in health and health care at the local, national or international level.

6143 Sociology of Religion
(3-0) 3 hours credit.
A seminar to provide a theoretical and methodological appraisal of contemporary research in the sociology of religion. Classic texts will be considered with emphasis on current trends in the field. May include topics such as religion and health, religion and globalization, new religious movements, religion and politics, religion and family and the immigrant religious experience. Theoretical debates from the secularization thesis to rational choice approaches will be considered.

6903 Topics in Advanced Sociology
(3-0) 3 hours credit.
A seminar offering the opportunity for specialized study not usually available as part of the regular course offerings. Topics may include social gerontology, deviance, social psychology, religion, mass communications, and research applications. May be repeated for credit when topics vary.

6943 Prerequisite Directed Study
3 hours credit.
Restricted to students who have been conditionally admitted. Directed study under the supervision of a faculty member designated by the Graduate Advisor of Record to supplement deficiencies in a student’s background for graduate work. May require the student to audit undergraduate courses. Requires written work under the faculty member’s supervision. May be repeated.

6951,3 Independent Study
1 or 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the Sociology Graduate Advisor of Record. Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not usually available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.
6961 Comprehensive Examination
1 hour credit. Prerequisite: Approval of the Sociology Graduate Program Committee to take the Comprehensive Examination.
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Sociology Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6963.6 Internship
3 or 6 hours credit. Prerequisites: Consent of instructor and 18 semester credit hours of graduate work.
Work-oriented experience within a local organizational setting where the principles, theories, concepts, and methods of the discipline can be applied. A research paper under the supervision of assigned faculty is required.

6973 Special Problems
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not usually available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6983.6 Master’s Thesis
3 or 6 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director, and 24 semester credit hours of graduate work.
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

COLLEGE OF PUBLIC POLICY
DEPARTMENT OF CRIMINAL JUSTICE

Master of Science in Justice Policy

The Master of Science in Justice Policy (M.S. in Justice Policy) is designed to provide students with competency in policy planning, evaluation, criminal justice agency management, and preparation for continued graduate study in criminal justice and criminology. The program assists students to develop and apply research expertise toward resolution of contemporary justice practice and policy issues.

Program Admission Requirements. To qualify for unconditional admission, applicants must satisfy University-wide graduate admission requirements and submit all transcripts. Applicants admitted unconditionally as a degree-seeking student must possess a baccalaureate degree from an accredited university or equivalent training at a foreign institution; a grade point average of 3.0 or better in the last 60 semester credit hours of undergraduate work as well as all previous graduate work; 18 hours in criminal justice, criminology, or a closely-related discipline, or professional experience in the justice system; good standing at the last institution attended; and the recommendation of the Justice Policy Graduate Admissions Committee. Students who do not meet these criteria may be admitted conditionally or on probation as degree-seeking depending on the nature of the deficiency. Admission as a special student may be considered by the Admissions Committee upon request of the applicant.

Degree Requirements. The minimum number of semester credit hours required for the degree, exclusive of other study to remove deficiencies, is 36.

Degree candidates must complete the following requirements:

A. 15 semester credit hours of core courses:

| CRJ  | 5073  | Research Methods |
| CRJ  | 5083  | Quantitative Analysis |
| CRJ  | 5123  | Justice Policy Formation and Implementation |
| CRJ  | 5133  | Management of Justice Organizations |
| CRJ  | 6373  | Crime Theory and Justice Policy |

Students are expected to complete the majority of core courses prior to enrolling in elective courses. Normally, students should enroll in CRJ 5073 Research Methods and/or CRJ 5123 Justice Policy Formation and Implementation in their first two semesters, or as soon as offered thereafter.

B. 15 semester credit hours of electives as follows: 9 semester credit hours of prescribed electives from the list below; and up to 6 semester credit hours of free electives may be taken outside of the discipline in related UTSA graduate programs with approval of the Graduate Advisor of Record (GAR).

| CRJ  | 5053  | History of Justice Policy Development |
| CRJ  | 5323  | Criminal Justice Program Evaluation |
| CRJ  | 6103  | Seminar on Topics in Theory of Crime and Justice |
| CRJ  | 6113  | Advanced Research Applications |
| CRJ  | 6123  | Seminar on Topics in Research Methods |
| CRJ  | 6203  | Seminar on Topics in Corrections Policy |
| CRJ  | 6213  | Gender Issues in the Criminal Justice System |
| CRJ  | 6223  | Ethics and the Practice of Social Control |
| CRJ  | 6233  | Minorities in the Criminal Justice System |
| CRJ  | 6303  | Seminar on Topics in Policing and Crime Control |
COURSE DESCRIPTIONS

JUSTICE POLICY

(CRJ)

5053 History of Justice Policy Development
(3-0) 3 hours credit.
The history and development of crime control policy in America. Studies sources of policy initiatives (e.g., economics, law, social conditions, political environment); criminal justice policy process, dynamics of policy formation, and implementation and evaluation. (Formerly CRJ 5023. Credit cannot be earned for both CRJ 5053 and CRJ 5023.)

5073 Research Methods
(3-0) 3 hours credit. Prerequisite: CRJ 3013 or equivalent.
Introduction to methodologies used in justice research. Topics include research design, sampling theory, data collection, measurement, and analysis.

5083 Quantitative Analysis
(3-0) 3 hours credit. Prerequisite: CRJ 5073 or equivalent.
Advanced practice in research design, quantitative techniques, and statistical software used in criminal justice research. Familiarizes students with conventions for statistical report writing and data presentation.

5123 Justice Policy Formation and Implementation
(3-0) 3 hours credit.
Detailed study of policy formation and implementation process, stakeholder networks, agenda setting, policy crafting, constituency building, consideration of alternatives, political decision making and resolution, short-term and long-term implementation issues, and role of evaluation and evaluators.

5133 Management of Justice Organizations
(3-0) 3 hours credit.
The study of management theory, organizational dynamics, leadership and administration research related to public and private justice organizations, case studies and simulations of common administrative problems, operational policies, and implementation and evaluation.
5323 Criminal Justice Program Evaluation
(3-0) 3 hours credit. Prerequisite: CRJ 5083 or equivalent.
Introduction to program evaluation strategies and methods. Surveys implementation, process, and outcome evaluation research designs and the utilization of both quantitative and qualitative analytic techniques. Ethical dilemmas and real-world barriers common to evaluation are examined.

6103 Seminar on Topics in Theory of Crime and Justice
(3-0) 3 hours credit.
Consideration of selected topics related to the theory of crime and justice. Explores particular theories or perspectives of crime and its implications for justice policy. Topics may focus on traditional or emerging theories of crime and justice. May be repeated for credit when topics vary.

6113 Advanced Research Applications
(3-0) 3 hours credit. Prerequisite: CRJ 5083 or equivalent.
Survey of multivariate statistical techniques. Advanced practice conducting quantitative analyses using criminal history, offender tracking, and other justice policy information systems. Introduction to problems of data manipulation and interpretation using common agency or other relevant databases.

6123 Seminar on Topics in Research Methods
(3-0) 3 hours credit. Prerequisite: CRJ 5083 or equivalent.
Study of qualitative or quantitative methods not addressed as part of the regular course offerings. Topics may include systems analysis in criminal justice, interrupted time-series analysis, and qualitative methods in criminal justice research. May be repeated for credit when topics vary.

6203 Seminar on Topics in Corrections Policy
(3-0) 3 hours credit.
Consideration of selected topics in the field of corrections. Topics may include offender classification, case management, pretrial supervision, management of confinement facilities, juvenile justice, special needs populations, comparative corrections, offender re-entry, restorative justice, and criminal sanctions on individuals or corporations. May be repeated for credit when topics vary.

6213 Gender Issues in the Criminal Justice System
(3-0) 3 hours credit.
This course uses an interdisciplinary approach to provide students with an overview of gender issues in the criminal justice system. The course integrates research design and both qualitative and quantitative methods to develop a graduate level understanding of gender and justice policy issues. Students will learn to examine issues and problems associated with changes in the representation of men and women in justice organizations, explore the internal/psychological and structural barriers to equal treatment of men and women in the justice system, as well as examine employment and policy decisions within a framework of traditional and non-traditional gender role expectations and justice system needs.

6223 Ethics and the Practice of Social Control
(3-0) 3 hours credit.
Survey of the major schools of ethics theory; sources of the ethical and philosophical foundations for justice, social control, and criminal justice functions; common ethical quandaries confronting formal agencies of social control; the role of law, facts, and values in ethical use of formal social control. Externalities related to operational, administrative, and political decision making.

6233 Minorities in the Criminal Justice System
(3-0) 3 hours credit.
This course is an interdisciplinary exploration of the historical and contemporary differences and similarities in the study of minorities within the criminal justice system. The course integrates a variety of interdisciplinary perspectives used in the past to study minority issues and to empirically test the most important ideas concerning these topics. Topics for discussion may include the following: deviance, juvenile delinquency, substance use, gang membership, images of criminality, as well as involvement with police, courts, and correctional institutions.
6303 Seminar on Topics in Policing and Crime Control
(3-0) 3 hours credit.
Consideration of selected topics related to police and private sector crime control practices. Topics may include the roles, responsibilities and limitations of public and private enforcement; surveillance, use of force, minority relations, extralegal practices, labor relations, security operations, terrorism, and national security. May be repeated for credit when topics vary.

6313 Survey of Best Practices in Policing
(3-0) 3 hours credit.
Consideration of the measurement of police effectiveness within the context of contemporary policing strategies. Examination of the impact that police have on crime as well as the role that police discretion plays in everyday police work.

6353 Jury Trials in American Jurisprudence
(3-0) 3 hours credit.
Opportunity for advanced study of jury trials. Focus on readings and cases that impact jury selection, deliberations, outcomes, peremptory challenges, juror stress and jury nullification.

6363 Paradigms of Justice Policy
(3-0) 3 hours credit. Prerequisite: CRJ 5123 or equivalent.
Examination of the major paradigms of justice policy from early deistic and philosophical perspectives to modern and postmodern perspectives of social justice, and exploration of policy implications of these perspectives.

6373 Crime Theory and Justice Policy
(3-0) 3 hours credit.
Examination of theoretical perspectives on crime and their impact on justice policy. Includes progression of criminology as an interdisciplinary field, theory construction and evaluation, and approaches to preventing and controlling crime in the United States.

6403 Seminar on Topics in Law, Society and Justice Policy
(3-0) 3 hours credit.
Consideration of selected topics related to law and society issues. Topics may include decision making by groups or individuals, criminal law and courts, international law, sentencing reforms, and history of law. May be repeated for credit when topics vary.

6951,3 Independent Study
1 or 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not usually available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree.

6961 Comprehensive Examination
1 hour credit. Prerequisite: Approval of the Graduate Program Committee to take the Comprehensive Examination.
Independent study course for the purpose of completing the Comprehensive Examination requirement. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).
6983.6  **Justice Policy Research Project**
3 or 6 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and Faculty Thesis Advisor.
A policy research project of thesis quality involving interaction with one or more justice agencies, conducted
by the student under the supervision of a faculty member. May be repeated for credit, but no more than 6 hours
may be applied to the Master’s degree. Credit will be awarded upon submission and acceptance of the formal
research report.

6991.3,6 **Master’s Thesis**
1, 3, or 6 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and Faculty Thesis Advisor.
Thesis research and preparation. May be repeated for credit but no more than 6 hours will apply to the Master’s
degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is
in progress.
DEPARTMENT OF DEMOGRAPHY AND ORGANIZATION STUDIES

Doctor of Philosophy Degree in Applied Demography

Students accepted for admission into the Ph.D. program in Applied Demography have the opportunity to engage in advanced study and research in the field of Applied Demography as it applies to questions in such areas as public policy, life sciences, medicine, business, and the social sciences. Depending on their area of focus, students may work with faculty from a variety of areas of study offered at UTSA. Students may also choose to take related courses at or work with contributing faculty members from The University of Texas Health Science Center at San Antonio and the San Antonio regional campus of The University of Texas School of Public Health.

There are two areas of concentration offered to students who enter the program. The Applied Demography and Health track prepares students to address the expanding education and research problems that are at the intersection of demography and health care. Students in this track not only pursue careers in university-based medical centers, health science centers, and social science departments but also in health care areas in the private sector such as marketing and planning. The Applied Demography and Policy track prepares students to work in the area of applied social demography. Students are trained to examine the effects of demographic factors on policy—both private and public. Students in this track may pursue academic careers as well as careers in national and corporate settings, such as marketing, advertising and policy. Special emphasis is placed on research and policy in large local, state, and federal agencies.

The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 5, Doctoral Degree Regulations).

Admission Requirements. In addition to satisfying the University-wide requirements for admission to graduate programs, all prospective students must have a bachelor’s degree and a Master of Science or Master of Arts degree from an accredited university in demography/sociology, geography, economics, biology, political science, statistics, mathematics, business, or a similar field. Students who have not earned a qualifying master's degree may be required to complete the equivalent courses in the appropriate discipline area before admission to the Ph.D. program in Applied Demography.

In addition, applicants must submit:

1. official transcripts of all undergraduate and graduate coursework completed
2. Graduate Record Examination (GRE) scores from a GRE-administered examination completed no more than five years prior to the Ph.D. student’s date of application. All applicants are required to submit scores from the GRE math, verbal, and analytical portions of the examination and scores for a related specialty area
3. three letters of recommendation from academic or professional sources familiar with the applicant’s background
4. a letter of application describing the applicant’s academic and work backgrounds and goals and objectives related to the applicant’s Ph.D. program.

International students from non-English speaking countries must also submit a score of at least 550 on the Test of English as a Foreign Language (TOEFL paper version) as required by the University. These test scores may not be more than two years old at the date of application to the Ph.D. program.

A complete application includes the application form, official transcripts, GRE scores, three letters of recommendation, a letter of application stating academic and work experience, interests and goals, and if required, a TOEFL score. Admission is competitive and satisfying these requirements does not guarantee admission.

Degree Requirements. The Applied Demography Ph.D. requires students to complete a minimum of 48 hours of organized coursework and a minimum of 12 hours of dissertation credits for a total of at least 60 hours beyond the master’s degree. The doctoral program has a base of core courses that will result in all students having a firm grounding in demography and related areas of statistics with students then choosing from one of two tracks for their specialization. The tracks in Applied Demography are Applied Demography and Health and Applied Demography and Policy. All students will be required to complete the core courses listed below and a set of courses in their chosen track.
Program of Study

A. Core Research and Statistics Courses (21 semester credit hours):

1. 12 semester credit hours of the following required courses or their equivalents:

   **Statistical Computing**
   - DEM 7203 Software Applications for Demographic Analysis
   - DEM 7213 Advanced Software Applications for Demographic Analysis

   **Research Methods**
   - DEM 7243 General Research Methods for Demographers I
   - DEM 7253 Survey Methods for Demographers

2. 9 semester credit hours selected from the following:

   **Mathematical Statistics**
   - DEM 7223 Advanced Methods for Life Table Analysis
   - DEM 7263 Spatial Demography
   - DEM 7273 Univariate and Categorical Statistical Analysis for Demographic Data
   - DEM 7283 Multivariate Statistical Analysis for Demographic Data

   **Applied Statistical Methodology**
   - DEM 7233 Applied Forecasting Methods in Demography
   - STA 5313 Theory of Sample Surveys with Applications
   - STA 7013 Advanced Applied Business Statistical Methods
   - STA 7023 Applied Linear Statistical Models
   - STA 7033 Multivariate Statistical Analysis

B. Core Demography Courses (15 semester credit hours):

1. 12 semester credit hours selected from the following:

   - DEM 7013 Basic Demographic Methods of Analysis
   - DEM 7023 Advanced Methods of Applied Demographic Analysis
   - SOC 5143 Demography and Community Trends
   - PHS 3998* Demography and Public Health
   - GEO 5033 Geographical Information Systems
   - POL 5913 Design and Management of Geographic Information Systems

2. 3 semester credit hours selected from the following:

   - DEM 7033 Mortality
   - DEM 7043 Migration
   - DEM 7053 International Migration
   - DEM 7083 Fertility
C. Courses in Alternative Demographic Tracks (a minimum of 12 semester credit hours are required in the track selected):

**Applied Demography and Health Track**

A minimum of 12 semester credit hours are required from the following courses:

- DEM 7063  Applied Demography in Policy Settings
- DEM 7403  Health Care Organizations, Professions, and the Government
- PH 1120*  Introduction to Program Evaluation
- PH 3740*  Community-Based Health Assessment

and at least one of the following courses:

- DEM 7073  Disparities in Health and Health Care
- FAPR 4100** Medical Economics
- PH 1110*  Social and Behavioral Aspects of Community Health
- PH 2610*  Introduction to Epidemiology
- SOC 5133  Sociology of Health and Health Care

**Applied Demography and Policy Track**

A minimum of 12 semester credit hours are required from the following courses:

- DEM 7063  Applied Demography in Policy Settings
- DEM 7413  Public Policy and Corporate Change
- SOC 5103  Complex Organizations
- SOC 5043  Evaluation Research
- PH 1120*  Introduction to Program Evaluation

and at least one of the following courses:

- MKT 5003  Introduction to Marketing
- POL 5853  Economic Geography
- PAD 5323  Public Policy Formulation and Implementation
- PH 3915*  Methods for the Economic Evaluation of Health Programs

D. Doctoral Dissertation (minimum 12 semester credit hours):

- DEM 7911-6  Doctoral Dissertation

Note: * denotes courses that are to be completed at The University of Texas School of Public Health San Antonio Regional Campus. Course descriptions may be found in The University of Texas School of Public Health course catalog at [http://www.sph.uth.tmc.edu/uploadedfiles/catalog.pdf](http://www.sph.uth.tmc.edu/uploadedfiles/catalog.pdf) or on the Web site for the UTSA Ph.D. program in Applied Demography at [http://utsa.edu/copp/](http://utsa.edu/copp/).

Note: ** denotes courses that are to be completed at The University of Texas Health Science Center at San Antonio. Course descriptions may be found in The University of Texas Health Science Center at San Antonio course catalog at [http://studentservices.uthscsa.edu/GI_catalog.aspx](http://studentservices.uthscsa.edu/GI_catalog.aspx) or on the Web site for the UTSA Ph.D. program in Applied Demography at [http://utsa.edu/copp/](http://utsa.edu/copp/).

The entire program of study must be approved by the student’s dissertation advisor and graduate committee, and must be submitted to the Dean of the Graduate School through the Dean of the College of Public Policy for final approval.
Admission to Candidacy. Advancement to candidacy requires that a student complete University and Applied Demography requirements. The student must choose a graduate committee and designate one faculty member as chair of that committee. This faculty member must be a member of the graduate faculty of UTSA. A degree plan must be submitted by each student to his or her specific graduate committee and must be approved by the committee before the end of the second semester of enrollment. The student may seek candidacy by taking and passing written and oral qualifying examinations. The written examination is administered by the graduate faculty of each track. The oral qualifying examination will assess issues not adequately addressed in the student’s written examination. The student will also submit and undergo an oral examination in defense of the student’s dissertation proposal. Written qualifying examinations are scheduled twice a year, whereas oral examinations may be scheduled at any time. However, oral examinations are administered at the discretion of the student’s committee and must meet the time line and requirements of the University. All students must schedule a defense of their dissertation at which all members of their committee are present to examine the student and issue a pass/fail evaluation of the student’s work. The Chair of the student’s committee is responsible for approval of the final corrections of the student’s dissertation.

Dissertation. Candidates must demonstrate the ability to conduct independent research by completing and defending an original dissertation. The research topic is determined by the student in consultation with his or her supervising professor. A dissertation committee, selected by the student in consultation with his or her supervising professor, guides and critiques the candidate’s research. The completed dissertation must be formally presented and defended to, and approved by, the student’s Dissertation Committee. Awarding of the degree is based on the approval of the Dissertation Committee. The UTSA Dean of the Graduate School certifies the completion of all University-wide requirements.

COURSE DESCRIPTIONS
DEMOGRAPHY
(DEM)

7013 Basic Demographic Methods of Analysis
(3-0) 3 hours credit. Prerequisite: SOC 5143 or consent of instructor.
Examines basic materials and methods used in demography, including methods for measuring levels and rates of population change, fertility, mortality, migration (both domestic and international), distribution, and composition. Emphasis on cohort and period patterns of change, methods of standardization, and life table methods.

7023 Advanced Methods of Applied Demographic Analysis
(3-0) 3 hours credit. Prerequisites: DEM 7013 and SOC 5143, or consent of instructor.
Examines use of advanced demographic and statistical methods of analysis of population and sample data, including simulating, adjusting, and smoothing; advanced survival analysis, methods of rate decomposition and standardization, population estimation, population projections and evaluations of each. Considers applications of demographic techniques in marketing, management and impact analyses in business and government.

7033 Mortality
(3-0) 3 hours credit. Prerequisite: SOC 5143 or consent of instructor.
Theoretical and demographic empirical analysis of current and historical issues concerning epidemiological/health transition, demographic and socioeconomic differentials in health and mortality, infant and child mortality, status of women and health, environment and health, demographic change and nutrition, health care systems, and health planning policies in the United States and in other developed and developing countries. Explores advanced sources of demographic data, measures, and methods of analyses used to analyze the levels and changes in these processes used in applied demographic settings. (Formerly titled “Fertility and Mortality.”)

7043 Migration
(3-0) 3 hours credit. Prerequisite: SOC 5143 or consent of instructor.
Examines patterns, trends and consequences of migration and immigration in the United States and other parts of the world. Explores historical and current theoretical perspectives on migration, analysis of historical, current and projected patterns of migration in the United States and other parts of the world, and examines effects of migration on other demographic, economic, social, and political factors in the United States and elsewhere.
International Migration
(3-0) 3 hours credit. Prerequisite: SOC 5143 or consent of instructor.
Examines the determinants and consequences of international migration from theoretical and empirical perspectives. Explores impacts on the migrants themselves and the countries of origin and destination. Specific issues include global competition for skilled labor, the concept of ‘replacement migration’, and the role of the state in creating and regulating international population movements. Examines public policy implications of the volume and composition of migration for origin and destination countries.

Applied Demography in Policy Settings
(3-0) 3 hours credit. Prerequisites: DEM 7013, DEM 7023 and SOC 5143, or consent of instructor. Student must have a minimum of 30 credit hours in the Applied Demography doctoral program.
Examines the roles, duties and implications of being an applied demographer in private- and public-sector policy settings, including required professional skills and knowledge. Provides practical case-study based experience in applying demographic knowledge and methods to such areas of applied analysis as marketing research, site location analysis, impact analyses, advertising analyses, program evaluation, short-term and long-term planning, and similar areas of policy development. Emphasis on interactive and team-based case-study analyses resulting in written reports, and findings presented to governmental or private-sector decision makers. Provides internship opportunities for students intending to work in applied policy settings.

Disparities in Health and Health Care
(3-0) 3 hours credit. Prerequisites: DEM 7013 and SOC 5143 or consent of instructor.
Overview of current and historical trends and differentials of health, health care access, and health care delivery systems among different racial/ethnic, socioeconomic, and residence area groups in the United States and elsewhere. Examines differentials in the types and rates of incidence and occurrence of alternative forms of disease and disorders, and access to physicians, hospitals and forms of treatment across demographic and socioeconomic groups. Data and methods for assessing such disparities are reviewed and alternative policy options for decreasing such disparities are discussed.

Fertility
(3-0) 3 hours credit. Prerequisite: SOC 5143 or consent of instructor.
Theoretical and empirical overview of major issues and methodological approaches in the demographic study of human fertility in developing and developed countries. Explores advanced sources of demographic data, measures, and demographic methods of analyses used to analyze the levels and changes in these processes used in applied settings.

GIS for Population Science
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
This course is designed to give graduate students interested in population science and policy fields a hands-on introduction to the use of Geographic Information Systems (GIS). The course will cover geographic data types, spatial data creation and management, exploratory spatial analysis, and basics of geospatial modeling. At the close of the course, students will be able to: create and modify geographic data, perform GIS visualization of spatial data, use database software to manage geographic data and perform descriptive analysis of spatial data using industry-standard GIS software.

Software Applications for Demographic Analysis
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Demographic analysis of statistical data sets using SAS or other appropriate software. Manipulation and analysis of very large (e.g., census bureau) data sets. Emphasis is on both introductory SAS Data Step programming and SAS Procedures (i.e., PROCs) for population estimates and longer-term projections, shorter-term forecasting, and general estimation.
7213  **Advanced Software Applications for Demographic Analysis**  
(3-0) 3 hours credit. Prerequisite: DEM 7203 or consent of instructor.  
Advanced demographic analysis of large statistical data sets using the SAS system. Emphasizes programming for such  
techniques as small-area estimation, sampling methods, automated data-cleaning techniques of inconsistent data sets,  
and a detailed treatment of the SAS Macro Language and Matrix Language.

7223  **Advanced Methods for Life Table Analysis**  
(3-0) 3 hours credit. Prerequisites: DEM 7013, DEM 7023, and DEM 7273 or consent of the instructor.  
This course covers demographic life tables and event history analysis for events such as unemployment spans, birth  
intervals, years of healthy life lived, and other codependent demographic events. Further, this course will provide a  
survey of demographic analytical methods for empirically explaining variation in timing of demographic events. This  
course will use SAS and/or STATA software.

7233  **Applied Forecasting Methods in Demography**  
(3-0) 3 hours credit. Prerequisites: DEM 7013, DEM 7023, and DEM 7273 or consent of instructor.  
Explanation of methods used for demographic projections and statistical forecasts of empirical data series for the  
purpose of planning, policy, analysis, and program evaluation. Methods will be used that solve the many historical  
problems that arise during forecasting, including the modeling of episodic interventions.

7243  **General Research Methods for Demographers I**  
(3-0) 3 hours credit. Prerequisites: DEM 7013 and SOC 5143 or consent of instructor.  
Examines key aspects of research methodology and provides an understanding and overview of practical and  
theoretical methods used to include sampling, interviewing, questionnaire and survey construction, and methods of  
analysis. The course will examine alternative research perspectives used in writing major publishable articles, and a  
dissertation in demography.

7253  **Survey Methods for Demographers**  
(3-0) 3 hours credit. Prerequisite: DEM 7243 or consent of instructor.  
This course examines the use of survey methodology and the research process, with special attention given to  
survey instruments as they relate to demographic research. Topics to be covered include a general overview of large  
demographic surveys, modes of data collection, questionnaire design, reliability and validity, sampling, and analysis  
incorporating survey designs for various large-scale demographic surveys. Special attention will be given to data  
collected by the U.S. Bureau of the Census. Statistical software applications will be used as they relate to demographic  
survey instruments. (Formerly titled “General Research Methods for Demographers II.”)

7263  **Spatial Demography**  
(3-0) 3 hours of credit. Prerequisites: DEM 7093 or GEO 5033 or POL 5913 or consent of instructor.  
This course will give an in-depth coverage of spatial demographic processes including models of migration,  
multiregional population growth, and spatial dependence in vital rates. The course will include a brief introduction to  
Geographic Information Systems, availability of spatial data and construction of geo-databases for population studies.  
The course will have a large analytical component with topics to include global and local spatial autocorrelation,  
analysis of spatial point patterns, neighborhood statistics and spatial regression analysis. Emphasis is placed on usage  
of computer software for the analysis of population data.

7273  **Univariate and Categorical Statistical Analysis for Demographic Data**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An extended treatment of univariate statistical techniques and techniques for the analysis of categorical demographic  
data. Topics to be included are contingency table analyses, ordinary least-squares regression, logistic and probit  
regression, and log-linear models as they relate to demographic analyses. Computer software packages such as SAS  
and/or STATA will be used.
7283  Multivariate Statistical Analysis for Demographic Data  
(3-0) 3 hours credit. Prerequisite: DEM 7013, DEM 7023, and DEM 7273 or consent of instructor.  
An advanced treatment of multivariate statistical techniques used in the analysis of demographic data. Topics include  
multivariate normal distribution, multivariate tests of hypotheses, confidence regions, principal component analysis,  
factor analysis, discrimination and classification analysis, and clustering as they relate to demographic theories and  
data. Computer software packages such as SAS and/or STATA will be used for data analysis.

7403  Health Care Organizations, Professions, and the Government  
(3-0) 3 hours credit. Prerequisite: SOC 5103 or consent of instructor.  
Examination of analyses and published research on health care organizations, professions, and federal regulation.  
Focus on the interrelationships between and among health care organizations (hospitals and HMOs), professions  
(doctors and nurses), and government policy (laws and changes in state support for health care) and how these  
terrelationships affect health care.

7413  Public Policy and Corporate Change  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
Theory and analysis of corporation response to business policy change, business policymakers’ responses to corporate  
legal and illegal actions, and public policy alternatives in addressing such change.

7701  Professional Development Colloquium  
(1-0) 1 hour credit. Prerequisite: Consent of instructor.  
This is a professional development course focusing on the field of applied demography. Topics will vary by semester,  
and may include such things as grant writing, proposal preparation, peer-reviewed journal publication procedures,  
presentation development, demographic data sources and literature, grant funding sources, and job hunting. Other  
professional development topics will be addressed. May be repeated for credit when topics vary.

7783  Internship in Demography  
3 hours credit. Prerequisites: Consent of faculty advisor for internships and the Graduate Advisor of Record. Student  
must have a minimum of 40 credit hours in the Applied Demography doctoral program.  
Practical experience in a workplace setting approved by the faculty advisor for internships and the GAR in which  
classroom knowledge of demographic research, methods, processes, and implications are applied. No more than 3  
hours will apply to the Doctoral degree. A research paper under the supervision of assigned faculty is required at the  
end of the internship.

7803  Directed Research  
3 hours credit. Prerequisites: Consent of instructor and a minimum of 40 semester credit hours in the Applied  
Demography doctoral program.  
Directed individual reading, discussion, writing, and/or studies of selected topics in the field of Demography. For  
students needing specialized work not normally or not often available as part of the regular course offerings. May be  
repeated for credit, but not more than 6 hours will apply to the Doctoral degree.

7901-3  Special Topics  
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of  
the regular course offerings. May be repeated for credit when topics vary, but not more than 6 hours, regardless of  
discipline, will apply to the Doctoral degree in Applied Demography.

7911-6  Doctoral Dissertation  
1 to 6 hours credit. Prerequisite: Admission to Candidacy for the Doctoral degree in Applied Demography.  
May be repeated for credit, but no more than 12 hours may be applied to the Doctoral degree.
DEPARTMENT OF PUBLIC ADMINISTRATION

Master of Public Administration Degree

The Master of Public Administration (MPA) program is fully accredited by the National Association of Schools of Public Affairs and Administration (NASPAA). Its mission is to prepare students for careers and leadership roles in public and nonprofit organizations and to nurture their commitment to ethical public service in a diverse society.

Program Admission Requirements. Applicants must satisfy University-wide graduate admission requirements, submit a letter of intent, and complete (or have completed) an undergraduate course in U.S. government or politics (3 hours). The 500 word letter of intent should state the applicant’s reasons for pursuing the MPA, how their educational and/or career experience has prepared them for the MPA program, and how the degree will help the applicant achieve her or his goals. Two letters of recommendation are required from persons familiar with the applicant’s academic and/or work abilities (normally, professors and/or work supervisors). Applicants may be admitted as unconditional, conditional, or special graduate students, or as non-degree-seeking. Admission as a special graduate student or as non-degree-seeking does not guarantee subsequent admission as a degree-seeking student; such students must reapply for degree-seeking status.

Degree Requirements. The minimum number of semester credit hours required for the degree, exclusive of coursework or other study required to remove deficiencies, is 39. In addition to these basic degree requirements, students without previous work experience that supports attainment of careers and leadership roles in public and nonprofit organizations must complete an additional 6 semester credit hours of PAD 6963, Internship.

Degree candidates must complete the following requirements:

A. 24 semester credit hours of core courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PAD 5003</td>
<td>Introduction to Public Administration</td>
</tr>
<tr>
<td>PAD 5023</td>
<td>Quantitative Methods for Public Administration</td>
</tr>
<tr>
<td>PAD 5033</td>
<td>Theories of Public Organizations</td>
</tr>
<tr>
<td>PAD 5233</td>
<td>Scope and Methods of Inquiry</td>
</tr>
<tr>
<td>PAD 5323</td>
<td>Public Policy Formulation and Implementation</td>
</tr>
<tr>
<td>PAD 5343</td>
<td>Human Resource Management in the Public Sector</td>
</tr>
<tr>
<td>PAD 5363</td>
<td>Public Sector Financial Management</td>
</tr>
<tr>
<td>PAD 5393</td>
<td>Economics for Public Administrators</td>
</tr>
</tbody>
</table>

Normally, students enroll in PAD 5003 Introduction to Public Administration during their initial semester.

B. 12 semester credit hours of electives, chosen in consultation with a faculty advisor to meet degree candidates’ individual needs.

C. Comprehensive examination. Degree candidates are required to pass an oral comprehensive examination. The examination is administered in the form of a presentation to a faculty committee of the exit paper written by the student in the required PAD 6923 Applied Research course.
COURSE DESCRIPTIONS
PUBLIC ADMINISTRATION
(PAD)

5003 Introduction to Public Administration
(3-0) 3 hours credit.
Provides an overview of the theoretical foundations, substance, and boundaries of modern public administration. Examines the traditional management functions in the legal domain performed by public administrators as well as current issues and problems in the field.

5013 Managerial Communication
(3-0) 3 hours credit.
Designed to develop and improve a student’s ability to use oral, written, graphic, or other presentation techniques as a means of expressing and conceptualizing ideas. Also focuses on the two-way flow of information between the public and government. Topics may include public speaking skills, the design of professional presentations and reports, the development and management of seminars and workshops, and the facilitation of public dialogue. (Formerly titled “Communication Skills for Public Management.”)

5023 Quantitative Methods for Public Administration
(3-0) 3 hours credit.
Examines data analysis and hypothesis testing techniques with emphasis on the social and policy sciences. Topics include descriptive statistics, probability, inference, and multivariate regression analysis. Provides opportunities to develop proficiency in statistical software applications.

5033 Theories of Public Organizations
(3-0) 3 hours credit.
This course allows students to examine major theories of organization and assess how these theories fit with and impact public-sector bureaucracy. Emphasis is on organizational dynamics, behavior in bureaucracies, sources of organizational change, and the integration of theory and practice.

5103 Planning and Land Use Law
(3-0) 3 hours credit.
Designed to provide a core background of the legal environment of planning and land use. This will cover the various levels of government involved in defining this environment, as well as crucial historic and contemporary policies and legal decisions that shape/impact today's planning and land-use decisions. Topics covered may include federal regulatory mandates, court rulings on controversies such as eminent domain and takings, the traditional tools of local land use control, such as platting and zoning, as well as more contemporary and innovative strategies such as Smart Code zoning and regional planning bodies.

5223 Urban Management
(3-0) 3 hours credit.
An examination of the major economic, social, and political processes involved in managing urban government in the United States. Topics may include contemporary issues in urban areas, urban finance, and intergovernmental dimensions of urban management.

5233 Scope and Methods of Inquiry
(3-0) 3 hours credit.
A comprehensive exploration into the nature and modes of analytic inquiry for administrative and decision-making settings. Course material relevant for social sciences, managerial sciences, policy sciences, and other disciplines. Foci include the formulation of research designs, the conduct of literature reviews, measurement of variables, operationalization, use of theories and models, scientific investigations, and systematic inquiries.
5243 Management Information Systems
(3-0) 3 hours credit.
This course explores managerial means of accessing, organizing, and using information and data in public organizations. Attention is given to use of the Internet and database and information systems management.

5253 Electronic Government
(3-0) 3 hours credit.
This course examines managerial and policy issues associated with electronic government (or, “e-government”) in public administration. The emphasis will be on the adoption of information technology to enhance access to and delivery of government information and services to citizens, business partners, employees, other agencies, and governmental entities. Topics discussed may include e-government business models, infrastructure, security and privacy, the digital divide, and e-procurement.

5303 Ethics in Government Administration
(3-0) 3 hours credit.
An inquiry into the philosophical and legal foundations of government administration, and the propriety, application, and enforcement of ethical standards for conducting government. Topics may include the dilemmas associated with public administration in democracies, multicultural environments, and societies marked by socioeconomic and ideological stratification.

5313 Public Policy Analysis
(3-0) 3 hours credit.
This course examines the core component of policy making—the examination, comparison, and choice of policy alternatives. The values, assumptions, and tools associated with welfare economics, as well as alternative approaches to analysis will be studied in detail. Key issues such as informational capacity, public input, rhetorical tools of argument, and ethical obligations of the policy analyst may also be covered.

5323 Public Policy Formulation and Implementation
(3-0) 3 hours credit.
A broad overview of the creation and execution of public policy at all levels and venues of government. Through theoretical approaches and case studies, this course examines key issues such as the impact of politics on policy formulation; the role of public opinion and interest groups; the dynamics of small-group decision making; rulemaking; and variables influencing successful implementation.

5333 Program Evaluation
(3-0) 3 hours credit.
The process, politics, and methodology of analyzing and evaluating public programs. Addresses uses and limitations of methods such as cost-benefit analysis, time-series analysis, and case studies. Students are required to produce a report evaluating a program.

5343 Human Resource Management in the Public Sector
(3-0) 3 hours credit.
An examination of the theory and practice of human resource management in public organizations, including the economic, political, and social factors shaping human resource policies in the public sector. The course is designed to provide students with an understanding of the techniques for managing personnel in the public sector.

5363 Public Sector Financial Management
(3-0) 3 hours credit.
Addresses policies, procedures, and skills relevant to financial management in public sector organizations. Emphasis is on the practice of budgeting, financial reporting, revenue generation, capital budgeting, and debt management.
5393 Economics for Public Administrators
(3-0) 3 hours credit.
Develops the tools of economic theory and demonstrates their use for public policy analysis and evaluation. Topics addressed may include discrimination, tax incidence, housing, income maintenance, job training, and environmental issues.

5443 Diversity Policies and Management
(3-0) 3 hours credit.
Examines current policies and management practices associated with cultural, ethnic, and gender differences in the workplace. Includes analysis of the theoretical and historical bases for affirmative action policies, the impact of such policies, and their interaction with civil service systems and collective bargaining structures.

5463 Intergovernmental Relations
(3-0) 3 hours credit.
Examines the origins and dimensions of American federalism and intergovernmental administration, including the impact of the federal system on contemporary public policy. Topics may include fiscal federalism, binational relations, and the character of federal relations involving the borderlands.

5473 Land Use Policy
(3-0) 3 hours credit.
A broad overview of the formulation and implementation of land-use policies in the United States, with an emphasis on South Texas. Covers our orientation to land and its function as a key determinant of the nature and type of land-use policy. Special emphasis is given to the ethical and legal conflicts between property rights and the public good, as played out in historical and contemporary controversies involving, for example, zoning, environmental protections, the provision of affordable housing, and regional obligations.

5483 Environmental Policy
(3-0) 3 hours credit.
This course explores the public policy dimensions of environmental quality, hazards, and regulation. Problems and policies dealing with air, water, solid waste, energy use, natural resources, sustainability, and global environmental governance are discussed.

5503 Introduction to Urban Planning
(3-0) 3 hours credit.
An introduction to the practice of planning and its institutional and governmental environment. The course considers the evolution of the practice of planning and the ideas that inform the contemporary planning process including zoning and development regulation, strategic and comprehensive planning, and development analysis. The course seeks to link theory with practice and the role of the planner in bridging public and private interests.

5513 Urban and Regional Economic Development
(3-0) 3 hours credit.
Scope and status of urban-regional economic development. Analyses of factors contributing to the economic growth or decline of U.S. cities or regions. Roles of government in urban and regional economic development and public/private cooperation. Case studies of specific urban areas.

5563 Urban Planning Methods
(3-0) 3 hours credit. Prerequisite: PAD 5503 or consent of instructor.
This course focuses on specific tools and methods available to the planner. Topics will include the collection of data in urban settings, descriptive statistics, hypothesis testing, correlation, multiple regression analysis, forecasting and scenario analysis.
5573  Public Policy and Policymaking in San Antonio  
(3-0) 3 hours credit.  
Examines the historical development and context of public policy in the San Antonio area. Considers the political, 
social, and economic forces shaping the local policymaking process in city, county, and special purpose governments.  
Topics may include fiscal policy, public investment policies, urban development policy, environmental policy, urban 
revitalization, economic development, and transportation.

5623  Comparative Public Administration  
(3-0) 3 hours credit.  
Analysis of a variety of contemporary administrative systems in Western, former Communist, and developing nations.  
Special attention to historical development, organization, function, and recruitment in selected bureaucracies. Examines 
relationships between bureaucracies and other components of the political system.

5663  Development Administration  
(3-0) 3 hours credit.  
Explores the basic relationship between administration and development in underdeveloped, newly developing, and 
developed societies. The role of development administration and nongovernmental organizations, as well as regional 
and international political economic organizations, are also analyzed.

5813  Health Issues and Policies  
(3-0) 3 hours credit.  
This course explores selected policy areas and related contemporary topics. May be repeated once for credit when 
topics vary.

5913  Nonprofit Organizations  
(3-0) 3 hours credit.  
This course focuses on the role, characteristics, and management of nonprofit organizations. Topics may include 
advocacy, governance, accountability, philanthropy, voluntarism, and financial resources. In different semesters, 
focus may be on organizations dealing with health and human services, community development, housing, education, 
energy, and the environment.

5923  Nonprofit Leadership and Management  
(3-0) 3 hours credit.  
This course focuses on leadership and managerial responsibilities and techniques in nonprofit organizations. Topics 
may include the roles and functions of boards of directors; the communication of a vision and effectively moving 
toward it; coordinating committees of governmental and business leaders; organizing, coordinating, and facilitating 
meetings; the cultivation and use of volunteers; and the management of change and conflict.

5933  Fiscal Resource Development in Nonprofit Organizations  
(3-0) 3 hours credit.  
Designed to promote understanding of and practical knowledge and skills in philanthropy, fundraising, grants, 
contracting, resource development planning, and financial management appropriate to nonprofit organizations.

5943  Strategic Planning and Management for Public and Nonprofit Organizations  
(3-0) 3 hours credit.  
This course offers students an introduction to the context and processes of strategic planning and management in 
public and nonprofit organizations. Emphasis will be placed on topics such as developing an external organizational 
focus; identifying political, social, and economic trends; and developing and managing a strategic plan.
5953  Grant Development and Proposal Writing
(3-0) 3 hours credit.
This course will provide an overview of the various stages of the grant-seeking and grant-making processes. Topics that may be covered include types of grants and funders; the development of an idea; the creation of community partnerships; identification of possible funding sources; the design and evaluation of a proposed program; proposal writing; and the grant review process.

6213  Social Justice
(3-0) 3 hours credit.
Examination of social justice theories and various constructions of justice for understanding social issues and tracing the consequences of public policies. Review of competing facts and values that surround the contemporary debate over justice policy and practice. Topics may include dimensions and contexts of social justice, structures of domination, human agency, resistance to domination, development of alternative organizations, development of moral reasoning and values, distributive justice, and social action approaches to the study of social justice issues.

6233  Law and Policy
(3-0) 3 hours credit.
An overview of the inter-relationship of law, courts, and public policy. The course will stress a dual focus on the legal tools of policy makers, and courts as venues for policy formulation. Specific topics to be covered include philosophies of the role of law in society, types of law, and the various intersections of law and policy.

6243  Administrative Law
(3-0) 3 hours credit.
This course covers the procedural requirements that administrative agencies must adhere to and the body of law that defines those requirements. Topics may include rule-making, administrative hearings, and freedom of information, as well as broader questions of agency empowerment and the place of judicial review.

6253  Civil Rights Policies
(3-0) 3 hours credit.
This course will examine the state of current civil rights policies governing education, employment, housing, voting, and other social spheres, as well as with the history, from the post-Civil War period to the present, that got us to this point. In addition to this substance-based approach, the course will also utilize a process-based orientation, encompassing issues such as institutional influence on formulation (how different types of institutions, such as legislatures versus courts, produce different sorts of civil rights policies), the impact of public opinion, and the complexities of implementation. Public debates and controversies over necessary reforms or the continuing utility of various civil rights policies will also be discussed.

6303  Disaster Response and Preparedness
(3-0) 3 hours credit.
This course examines the functions involved with disasters including immediate response, long-term recovery, disaster preparedness, and mitigation strategies. The differences between human-caused disasters, technology accidents, and natural disasters are explored. The ways in which individuals, communities, and organizations (government, nonprofit, and for-profit) react when disasters occur are examined. The extent to which societal reaction to catastrophic events frames response, how perception of risk influences decision making, and the capacity of communities impacted by disaster to bring resources to support disaster relief efforts will be examined.

6543  Urban Service Systems
(3-0) 3 hours credit.
Study of urban service systems such as infrastructure, public safety, housing, and transportation systems. Economy, equity, and effectiveness are also addressed. Political and social dimensions may also be examined.
6923 Applied Research
(3-0) 3 hours credit.
Provides the opportunity to apply substantive expertise and research methods to managerial or policy issues in the public sector. May be repeated once for credit with a different emphasis.

6951,3 Independent Study
1 or 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not usually available as part of the regular course offerings. May be repeated for credit, but no more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6961 Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee Chair to take the Comprehensive Examination.
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6963,6 Internship
3 or 6 hours credit. Prerequisites: Consent of instructor and 18 semester credit hours of graduate work.
Work-oriented experience in a public service related setting where the principles, theories, concepts, and methods of the discipline can be applied. A research paper under the supervision of assigned faculty is required.

6973 Special Topics
(3-0) 3 hours credit.
An organized course offering the opportunity for specialized study not usually available as part of the regular course offerings. Special Topics courses may be repeated for credit when topics vary, but no more than 6 hours, regardless of discipline, will apply to the Master’s degree.
DEPARTMENT OF SOCIAL WORK

Mission Statement

Educating to act with integrity—as socially responsible, culturally competent social work professionals—in service with diverse populations through community collaboration within an interprofessional and global context.

Master of Social Work

The Master of Social Work (MSW) degree prepares students for advanced social work practice. Graduates work in professional positions serving diverse individuals, families, groups, organizations, and communities. Students graduating from the program will demonstrate a commitment to social responsibility, cultural competence, and community collaboration within an interprofessional and global context.

Program Admission Requirements. Applicants must satisfy University-wide graduate admission requirements. All applicants who apply for unconditional admission must possess a baccalaureate degree from a regionally accredited college or university in the United States or have proof of equivalent training at a foreign institution, must have a grade point average of at least 3.0 (on a 4.0 scale) in the last 60 semester credit hours of coursework for the baccalaureate degree as well as in all graduate-level work previously completed, must be in good standing at the last institution attended, and based on review of documents including applicant narrative and reference forms, must be recommended for admission by the Department of Social Work Graduate Program Committee.

Admission requirements for all students include:

- a completed graduate application form submitted to the UTSA Graduate School, including official transcripts from all colleges and universities attended;
- a narrative statement addressing interest in and the fit with the UTSA MSW program not to exceed 1250 words (approximately five pages);
- three completed department recommendation forms from professionals familiar with applicant preparation for graduate social work education;
- department forms documenting prior professional and volunteer experiences and academic preparation in the liberal arts;
- for international students, results of the Test of English as a Foreign Language (TOEFL; not more than five years old and a score of not less than 550), or results of the International English Language Testing System (IELTS; not more than five years old and a score of not less than 4.5).

Students with a Bachelor of Social Work (BSW) degree may qualify for advanced standing if they graduated from a baccalaureate social work program accredited by the Council on Social Work Education (CSWE). The minimum number of semester credit hours required for the advanced standing degree is 36. For students receiving other than unconditional admission, BSW degree deficiencies may require additional coursework.

For advanced standing admission, the applicant must meet program admission requirements, and in addition:

- hold a BSW degree from a CSWE-accredited BSW program;
- have a grade point average of at least 3.0 (on a 4.0 scale) in the last 60 semester credit hours of coursework for the BSW, as well as in any graduate-level work previously completed;
- provide one additional reference letter from the BSW field director/coordinator or BSW program director;
- provide a copy of the BSW field evaluation form which indicates number of clock hours completed, final grade, description of practicum setting (including community and clientele served), and accomplishments as a practicum student;
- be in good standing at the last institution attended; and
- be recommended for admission by the Department of Social Work Graduate Program Committee.
A modified MSW degree option is also available for transfer students who successfully complete a minimum of 18 graduate semester credit hours in a CSWE-accredited master of social work program. The minimum number of semester credit hours required for the modified MSW degree transfer option is 36. For students receiving other than unconditional admission, MSW course deficiencies may require additional coursework.

For admission as a transfer student from a CSWE-accredited Master of Social Work Program, the applicant must meet program admission requirements and:

- have a grade point average of at least 3.0 (on a 4.0 scale) in the last 60 semester credit hours of undergraduate coursework as well as any graduate-level MSW coursework previously completed;
- provide a reference letter from the MSW program director/chair attesting to good standing status in the MSW program;
- when transferring field practicum courses, the applicant must also provide one additional reference letter from the MSW field director/coordinator or MSW program director, and provide a copy of the MSW field evaluation form which indicates number of clock hours completed, final grade, description of practicum setting (including community and clientele served), and accomplishments as a practicum student; and
- be recommended for admission by the Department of Social Work Graduate Program Committee.

Applicants for the non-BSW, advanced standing, or modified MSW program may also be admitted as unconditional, conditional, probationary, special graduate, or non-degree-seeking students. Admission as a special graduate or non-degree-seeking student does not guarantee subsequent admission as a degree-seeking student; such students must reapply for degree-seeking status.

**Degree Requirements.** The minimum number of semester credit hours required for the degree, exclusive of coursework or other study required to remove deficiencies, is 36 for the BSW (advanced standing) student, 36 for the modified MSW degree option for transfer students from CSWE-accredited graduate social work programs, and 60 for the non-BSW student.

Please refer to department Web site for further information: http://www.utsa.edu/copp/SW/socialwork.html.

A. 24 semester credit hours of foundation courses. Non-BSW students must complete the following courses:

- SWK 5013 Human Behavior and Social Environment: Dynamics of Individuals and Families
- SWK 5023 Human Behavior and Social Environment: Dynamics of Organizations and Communities
- SWK 5103 Social Problems and Social Welfare Policy Analysis
- SWK 5203 Social Work Research
- SWK 5303 Social Work Methods I
- SWK 5313 Social Work Methods II
- SWK 5403 Field Practicum I and Integrative Seminar
- SWK 5413 Field Practicum II and Integrative Seminar

B. 9 semester credit hours of courses particular to program mission and goals. All students must complete the following courses:

- SWK 5233 Global Context of Social Work
- SWK 5513 Culturally Competent Practice with Diverse Populations
- SWK 5633 Transformational Leadership

C. 21 semester credit hours in Advanced Culturally Competent Practice. All students must complete the following courses:

- SWK 5243 Advanced Social Work Research: Theoretically Driven Practice and Program Evaluation
- SWK 5423 Field Practicum III and Integrative Seminar
- SWK 5433 Field Practicum IV and Integrative Seminar
- SWK 5443 Advanced Social Work Methods: Individual and Family Practice
- SWK 5463 Advanced Social Work Methods: Group Practice
D. 3 semester credit hours from the following selectives. All students must complete one of the following courses:

SWK  5453  Administration and Supervision
SWK  5483  Multidimensional Assessment

E. 3 semester credit hours of electives. All students must complete one of the following courses:

3 semester credit hours of free elective graduate coursework chosen in consultation with the Graduate Advisor of Record (GAR)

or

SWK  6953  Independent Study
or
SWK  6973  Special Topics in Culturally Competent Practice

Comprehensive Examination. Students who successfully complete SWK 5433 Field Practicum IV and Integrative Seminar with a grade of “B” or better satisfy the comprehensive examination requirement for master’s degree graduates. Students who receive a grade of “C” may still satisfy this requirement by successfully passing a comprehensive examination.

COURSE DESCRIPTIONS
SOCIAL WORK
(SWK)

5013  Human Behavior and Social Environment: Dynamics of Individuals and Families  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor or graduate advisor. 
In this foundation course, ecological systems and biopsychosocial developmental frameworks are used to examine the influence that context has in shaping individual and family dynamics across the life span with an emphasis on cultural diversity and social justice issues.

5023  Human Behavior and Social Environment: Dynamics of Organizations and Communities  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor or graduate advisor. 
This foundation course applies the social systems/ecological perspective to the study of the dynamics of human behavior in diverse groups, organizations, and communities. The focus on the interconnectedness of factors at all levels of the environment and the impacts of those interactions on populations at risk prepares students to understand holistically and contextually small groups, organizations, and communities. 

5103  Social Problems and Social Welfare Policy Analysis  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor or graduate advisor. 
This foundation policy course examines the historical perspective on the development of social problems and the social welfare institutions, policies, and programs created in response to those programs with emphasis on policy development and analysis within a local-global perspective.

5203  Social Work Research  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor or graduate advisor. 
This foundation research course is designed to develop understanding of the process of research and of the use of the scientific method in social work practice. This course focuses on quantitative and qualitative research methods useful in evaluating culturally competent social work interventions with diverse populations.
5233  **Global Context of Social Work**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in social work, or consent of instructor or graduate advisor.  
This course, particular to the mission of the UTSA Department of Social Work, examines the historical contexts of contemporary international social issues and the mutually reinforcing relationship between the local and the global. This course will critically explore the economic, political, social, behavioral, environmental, and cultural dimensions of globalization.

5243  **Advanced Social Work Research: Theoretically Driven Practice and Program Evaluation**  
(3-0) 3 hours credit. Prerequisites: Graduate standing in social work, completion of all foundation courses, and concurrent enrollment in SWK 5423 or SWK 5433.  
This advanced research course integrates theory, practice, and research skills. This course examines both program and practice interventions and facilitates the student’s integration of research methods in the assessment, planning, intervention, and evaluation of practice and program effectiveness.

5303  **Social Work Methods I**  
(3-0) 3 hours credit. Prerequisites: Graduate standing in social work and concurrent enrollment in SWK 5403.  
This foundation course is an introduction to social work methodology from culturally competent and strengths perspectives. Students are introduced to social work practice methods with individuals, families, and small groups through a generalist perspective of social work practice.

5313  **Social Work Methods II**  
(3-0) 3 hours credit. Prerequisites: Graduate standing in social work, completion of SWK 5303 and SWK 5403, and concurrent enrollment in SWK 5413.  
This foundation course builds on SWK 5303 by deepening student’s knowledge of a generalist practice perspective and introduces macro practice approaches with diverse groups, organizations, and communities.

5403  **Field Practicum I and Integrative Seminar**  
3 hours credit. Prerequisites: Graduate standing in social work and concurrent enrollment in SWK 5303.  
This practice course is designed to integrate classroom theory and real world practice. It is a practice course based on supervised assignments designed to facilitate the student’s ability to develop and demonstrate independent learning competencies from a generalist social work perspective which includes skill in working with individuals, families, and small groups. The student will complete a minimum of 225 clock hours at an assigned field practicum site. An integrative seminar that emphasizes integration of theory and practice will be held weekly.

5413  **Field Practicum II and Integrative Seminar**  
3 hours credit. Prerequisites: Graduate standing in social work, completion of SWK 5303 and SWK 5403, and concurrent enrollment in SWK 5313.  
This foundation course is a continuation of SWK 5403 with a focus on demonstrating independent learning competencies from a generalist social work perspective and skill development with groups, organizations, and communities. The student will complete a minimum of 225 clock hours at an assigned practicum site. An integrative seminar that emphasizes integration of theory and practice will be held weekly.

5423  **Field Practicum III and Integrative Seminar**  
3 hours credit. Prerequisites: Graduate standing in social work and completion of all foundation coursework. SWK 5433 may be taken concurrently.  
Building on foundation or BSW field experiences, this advanced field practicum course provides a supervised practicum at an assigned practicum site. The internship requires a completion of 225 clock hours. The internship may also be designed as a block of 450 clock hours for one semester when taken concurrently with SWK 5433. An integrative seminar that emphasizes integration of theory and practice will be held weekly, or as designated by the instructor.
Field Practicum IV and Integrative Seminar  
3 hours credit. Prerequisites: Graduate standing in social work, completion of all foundation coursework, and completion of, or concurrent enrollment in, SWK 5243 with SWK 5423. 
Building on foundation or BSW field experiences, this advanced field practicum course provides a supervised practicum at an assigned practicum site. The internship requires a completion of 225 clock hours. The internship may also be designed as a block of 450 clock hours for one semester when taken concurrently with SWK 5423. An integrative seminar that emphasizes integration of theory and practice will be held weekly or as designated by the instructor. Students demonstrate program competency mastery through completion of an independent capstone course paper.

Advanced Social Work Methods: Individual and Family Practice  
(3-0) 3 hours credit. Prerequisites: Graduate standing in social work and completion of all foundation courses. 
This advanced practice methods course applies evidence and theory-based individual and family intervention skills and techniques with an emphasis on cultural competence within the local/global context. Ecological systems, interpersonal process, and social constructionism provide an overarching framework for integrating values, knowledge, skills, and techniques from the various practice approaches.

Administration and Supervision  
(3-0) 3 hours credit. Prerequisites: Graduate standing in social work and completion of all foundation courses. 
This advanced selective course critiques major theories of management and emphasizes the knowledge and skills needed for effective leadership in culturally competent human service organizations, such as management functions, planning and goal setting, decision making, personnel management, conflict resolution, budgeting and fiscal management, and the management of a diverse workforce. (Formerly titled “Social Work Administration and Supervision.”)

Advanced Social Work Methods: Group Practice  
(3-0) 3 hours credit. Prerequisites: Graduate standing in social work and completion of all foundation courses. 
This advanced practice methods course focuses on developing group leaders with both theoretical and experiential understandings of group purpose, development, dynamics, group theories, methods and skills, and other group approaches. Emphasis is given to developing an integrative perspective of group theory and in applying skills differentially to diverse populations across the lifespan.

Advanced Social Work Methods: Policy Practice and Advocacy  
(3-0) 3 hours credit. Prerequisites: Graduate standing in social work and completion of all foundation courses, or consent of instructor or graduate advisor. 
This advanced methods course is aimed at students who seek to further develop their skills in policy development, analysis, and policy advocacy in organizations and communities. It draws and builds on foundation knowledge and skills from introductory level practice, policy, and HBSE courses in the curriculum.

Multidimensional Assessment  
(3-0) 3 hours credit. Prerequisites: Graduate standing in social work and completion of all foundation courses, or consent of instructor or graduate advisor. 
This advanced selective course on the multidimensional assessment of the functioning of children, adolescents, and adults gives emphasis to students learning to critically evaluate and adapt assessment approaches and methods that are congruent with the cultural experiences of clients. The multidimensional framework incorporates biological, genetic, physical, developmental, social, cultural, environmental factors, and social justice issues in the assessment process.

Advanced Social Work Methods: Community Organization and Social Development  
(3-0) 3 hours credit. Prerequisites: Graduate standing in social work and completion of all foundation courses. 
This advanced methods course focuses on the community and the struggles of its people to build upon its strengths, reduce its distresses, and move toward fulfillment of self-determined goals. It seeks to deepen and expand the student’s knowledge, skills and understanding of community-based social and economic development and how they can be incorporated in community building strategies.
5513  **Culturally Competent Practice with Diverse Populations**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor or graduate advisor; must be completed prior to enrollment in advanced coursework unless an advanced standing or transfer student.  
This course, particular to the mission of the UTSA Department of Social Work, explores social diversity and social justice and their relationship to social work practice with diverse and oppressed populations. The course examines the history, demographics, and cultures of various disenfranchised groups served by social workers. The course moves beyond a focus on cultural appreciation and self-awareness to focus on knowledge acquisition and culturally competent skill development.

5633  **Transformational Leadership**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor or graduate advisor.  
This course, particular to the mission of the UTSA Department of Social Work, focuses on the social responsibility of culturally competent social workers to serve as transformational leaders as they collaborate across disciplines within an interprofessional context in order to better serve families and communities. Central to interprofessional practice principles is the valuing of individual, family, and community expertise and building on this expertise to empower individuals, families, groups, communities, and organizations to create transformational change. Students will incorporate values, knowledge and skills to participate in the development of holistic service integration approaches and the creation of systems of care service networks. (Formerly titled “Interprofessional Collaboration.”)

6951-3  **Independent Study**  
1 to 3 hours credit. Prerequisites: Graduate standing, successful completion of 6 semester credit hours of social work graduate courses, and permission in writing (form available) from the instructor, graduate advisor, and department chair.  
Independent course of study in a special topic of interest in the areas of research, field practicum, or other social work related topic under the direction of a faculty member. For students needing specialized work not usually available as part of the regular social work course offerings. May be repeated for credit, but no more than 6 hours will apply to the Master’s degree.

6973  **Special Topics in Culturally Competent Practice**  
(3-0) 3 hours credit. Prerequisites: Graduate standing, successful completion of 6 semester credit hours of social work graduate courses, and permission in writing (form available) from the instructor, graduate advisor, and department chair.  
This is an organized course offering the opportunity for specialized study in culturally competent practice not usually available as part of the regular course offerings. Special Topics courses may be repeated for credit when topics vary, but no more than 6 semester credit hours, regardless of discipline, will apply to the Master’s degree.

COLLEGE OF SCIENCES

Master of Science Degree in Environmental Science

The College of Sciences offers opportunities for advanced study and research leading to the Master of Science degree in Environmental Science. The Master of Science degree is awarded to candidates who have displayed an in-depth understanding of the subject matter and demonstrated the ability to make an original contribution to knowledge in their field of specialty.

The regulations for this degree comply with the general University regulations as outlined in this catalog and indicated below.

Program Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, all prospective students must have a Bachelor of Arts or Bachelor of Science degree from an accredited university and a minimum grade point average of 3.0 (on a 4.0 scale) in upper-division and graduate work. The degree should be in biology, ecology, environmental science, chemistry, geology, engineering, or some other related scientific discipline. Additionally, it is required that applicants will have taken coursework in the following areas: 1) one semester in general statistics; 2) one semester of organic chemistry; and 3) one semester of environmental science or ecology. Applicants lacking these requirements will be asked to complete these deficiencies within the first 12 credit hours. Applicant’s evaluations will be considered on a case-by-case basis.

Applicants whose native language is not English must score at least 550 (paper version) or 79 (Internet version) on the Test of English as a Foreign Language (TOEFL), or 6.5 on the International English Language Testing System (IELTS). Applicants must submit a minimum of two letters of recommendation from persons familiar with the applicant’s academic record, a personal statement of research interest as well as professional and academic goals, a résumé, and scores from the Graduate Record Examination (GRE). A score of a 1000 on the GRE general test (combination of verbal and quantitative sections) is considered competitive. All supporting documents should be sent to the Graduate School. Incomplete applications will not be considered until all required items are in an applicant’s file. When GRE scores are used to determine admission, applicants will be compared to applicants with similar socioeconomic backgrounds.

The Graduate Studies Committee, comprised of members selected from the graduate faculty, will be responsible for recommending acceptance into the program and will take the lead in advising students. Some teaching assistantships, research assistantships, or research fellowships are available, but require a separate application; requests should be addressed to the Graduate Advisor of Record (GAR) for the Earth and Environmental Science program.

Degree Requirements. The Master of Science degree requires a minimum of 36 semester credit hours beyond the baccalaureate degree (exclusive of coursework or other study required to remove deficiencies). The areas of research expertise of the current Environmental Science faculty include aquatic biology and chemistry, ecology, environmental quality and remediation, and environmental management. The thesis option is recommended for students who are planning a career in environmental education, research, or who are planning to go on and earn a doctorate degree.

General research interests of the graduate faculty include the areas indicated above; however, specific information about research in progress is available from the department office or from individual faculty members. The broad nature of the environmental science program allows students the opportunity to broaden their scientific background at the graduate level. Individual programs are organized around each student’s interests in consultation with the student’s graduate advisor and graduate committee.

Degree candidates are required to complete a minimum of 36 semester credit hours approved by the student’s Graduate Advisor of Record. These credit hours are subject to the following conditions:

Core Curriculum Requirements. All candidates for the Master of Science in Environmental Science must complete the following 11 semester credit hours of coursework:

UTSA 2009–2011 Graduate Catalog
ES 5503 Environmental Policy and Law
ES 5981 Graduate Seminar in Environmental Science and Engineering
ES 6941 Environmental Science Colloquium

*This course must be taken in the first two semesters in the program.

1. A minimum of 20 semester credit hours of graduate credit in organized classes must be earned within the College of Sciences in consultation with the student’s Graduate Committee; 11 of these 20 credit hours must include the core curriculum listed above. Up to 6 semester credit hours of approved upper-division undergraduate coursework and a maximum of 2 semester credit hours in a graduate seminar or 2 semester credit hours in colloquium (ES 5981 Graduate Seminar in Environmental Science and Engineering or ES 6941 Environmental Science Colloquium) may be applied to the 20 semester credit hours.

2. An additional 16 semester hours of graduate credit as approved by the Graduate Advisor of Record is required. This may include 6 hours of ES 6953 Independent Study. Students electing the thesis option must complete 6 semester hours of ES 6983 Master’s Thesis as part of this total and only 6 semester credit hours can be applied to the Master’s degree program.

**Thesis Option Requirements.** All candidates for the Master of Science in Environmental Science with thesis option must complete a minimum of 6 semester credit hours of the following:

ES 6983 Master’s Thesis

**Thesis Option.** Candidates for the Master of Science degree electing the thesis option must first pass a research proposal examination in front of their Graduate Committee. The student should schedule the research proposal examination during the second semester but no later than the third semester of graduate work. The research proposal examination will be oral and will cover a written document that includes the thesis topic, objectives, and research proposed by the student, and will take one to two hours to complete. The research proposal examination may only be taken twice. If it is not passed the first time it may be scheduled again in the following semester. Finally, candidates in the thesis option must successfully defend their thesis before their Graduate Committee. The thesis defense will take two to three hours to complete. The thesis defense is normally scheduled in the last semester before the degree requirements are to be completed. Part of the thesis defense will be a public presentation in an open, advertised forum.

**Nonthesis Option Requirements.** A nonthesis option is available for those who want the opportunity to earn the Master of Science degree primarily through organized coursework. Nonthesis students should consult the Graduate Advisor of Record on their program of study during the first semester of residence. Candidates are required to pass a written comprehensive examination that will cover at least four major areas of environmental science, and will take three to four hours to complete. This written examination will be given at a predetermined time during each Fall and Spring semester. In addition, an oral examination will be administered by the student’s Graduate Committee. The oral examination will focus on academic material that the student is expected to have mastered during his or her course of study. The examinations are taken after the student has completed at least 30 semester credit hours of coursework. The written and oral examination may only be taken twice. If it is not passed the first time, it may be scheduled again in the following semester. If ES 6961 Comprehensive Examination is taken, it does not contribute toward the 36-semester-credit-hour minimum (refer to the Course Descriptions section).

**Graduate Committee.** As specified by University regulations, candidates for the Master of Science degree must have a Graduate Committee. The Committee will be chaired by the student’s graduate advisor and will consist of a minimum of two other members. The Committee should be appointed in the first semester of the student’s graduate program. Each student must decide if they are going to complete the thesis option or nonthesis option because that will determine the type of committee appointed. Certain rules must be adhered to concerning the composition of the Master’s Thesis or Nonthesis Committee. Only tenured or tenure-track faculty members can chair these committees, and no more than one member can be a nontenure-track faculty member or be from another university.
**Comprehensive Examination.** Candidates for the Master of Science degree must pass a comprehensive examination administered by their Graduate Committee. The student should normally schedule this examination the semester before the degree requirements are to be completed. The student’s Graduate Committee will determine the content of the examination. Normally, the examination will consist of academic material that the student is expected to have mastered during his or her course of study. The examination may only be taken twice. If it is not passed the first time it may be scheduled again in the following semester.

**Doctor of Philosophy Degree in Environmental Science and Engineering**

UTSA offers a graduate-studies program leading to the Ph.D. degree in Environmental Science and Engineering. This program is administered by the Department of Civil and Environmental Engineering. Most of the participating graduate faculty are in the College of Sciences (including Department of Geological Sciences) and College of Engineering (Department of Civil and Environmental Engineering); additional faculty in this interdisciplinary program are from other colleges. Please refer to page 231 of this catalog for details about this program.

---

**COURSE DESCRIPTIONS**

**ENVIRONMENTAL SCIENCE (ES)**

- **5013 Survey Topics in Environmental Science**
  (3-0) 3 hours credit. Prerequisite: Graduate standing.
  Analysis of the basic concepts and new scientific developments in the Earth’s changing environment systems and their links to human activities. Case studies will cover a range of relevant topics to promote a thorough understanding of the emergent issues in environmental sciences. Emphasis will be placed on developing both written and verbal scientific presentation skills. (Formerly EES 5013. Same as BIO 5013. Credit can be earned for only one of the following: BIO 5013, EES 5013, or ES 5013.)

- **5023 Environmental Statistics**
  (3-0) 3 hours credit. Prerequisites: MAT 1033 and STA 1993 or their equivalents, or consent of instructor.
  Introductory course in systems analysis emphasizing its application for the management of environmental and public systems. Problem formulation, mathematical modeling, and procedures are introduced through case studies that include energy consumption, soil contamination, leak detection, and air pollution. In these case studies, students become acquainted with quantitative governmental regulations formalized by the Environmental Protection Agency. Quantitative tools include exploratory data analysis, design of experiments, analysis of variance, regression analysis, and time series. Optimization techniques are taught within regression analysis. (Formerly EES 5023. Same as GEO 5023. Credit can be earned for only one of the following: EES 5023, ES 5023, or GEO 5023.)

- **5043 Global Change**
  (3-0) 3 hours credit. Prerequisite: Graduate standing in the program or consent of instructor.
  Changes in the global distribution of plants and animals and the causes of the changes will be examined. Factors that are apparently coupled to changes in the atmosphere and environmental temperature will be examined. (Formerly EES 5043. Same as CE 6113 and GEO 5043. Credit can be earned for only one of the following: CE 6113, EES 5043, ES 5043, or GEO 5043.)

- **5063 Environmental Microbiology**
  (3-0) 3 hours credit. Prerequisite: BIO 3713 or consent of instructor.
  To provide a basic understanding of environmental microbiology primarily from two aspects: microbial interactions with chemical pollutants in the environment and the fate of microbial pathogens in the environment. Topics covered include microbial environments, detection of bacteria and their activities in the environment, microbial biogeochemistry, bioremediation, and water quality. (Formerly EES 5063. Same as BIO 5063. Credit can be earned for only one of the following: BIO 5063, EES 5063, or ES 5063.)
5073  **Environmental Microbiology Laboratory**  
(2-3) 3 hours credit. Prerequisite: BIO 3722 or consent of instructor.  
To provide an understanding of environmental microbiology laboratory techniques using both traditional and molecular research skills. Basic techniques for isolation and characterization of environmental soil and water microflora including methods for enumeration and measurement of physiological activity. (Formerly EES 5073. Same as BIO 5073. Credit can be earned for only one of the following: BIO 5073, EES 5073, or ES 5073.)

5103  **Applied Ecology**  
(3-0) 3 hours credit.  
The impact of humanity’s activities on the environment: their effect on water, land, animal, and human resources. An evaluation of present and future strategies to preserve a healthy environment. (Formerly EES 5103 and ES 6203. Credit can be earned for only one of the following: EES 5103, ES 5103, or ES 6203.)

5123  **Project Analysis**  
(3-0) 3 hours credit.  
This course examines the complex processes and factors in the evaluation of large-scale projects involving natural resources. It brings together the tools required to evaluate the physical, economic, financial, legal, and political constraints of these projects. (Formerly EES 5123 and ES 6873. Credit can be earned for only one of the following: EES 5123, ES 5123, or ES 6873.)

5213  **Environmental Geology**  
(3-0) 3 hours credit. Prerequisite: GEO 4063 or consent of instructor.  
Geologic materials and processes as related to their influence on the human physical environment. Effects of landscape modification and geologic hazards such as earthquakes and landslides. Properties of minerals, rocks, and soils and geologic aspects of waste disposal and water resources are examined. (Course cannot be used for graduate credit by students in Geology.) (Formerly EES 5213. Credit cannot be earned for both EES 5213 and ES 5213.)

5233  **Experimental Design and Analysis**  
(3-0) 3 hours credit. Prerequisite: ES 5023 or an equivalent, or consent of instructor.  
Fundamental concepts of the statistical design and analysis of environmental experiments will be presented. Students will be required to design experiments and to analyze data using computer software. (Formerly EES 5233. Credit cannot be earned for both EES 5233 and ES 5233.)

5243  **Advanced Plant Ecology**  
(3-0) 3 hours credit. Prerequisites: BIO 3283 and BIO 3292, or consent of instructor.  
A study of the major biomes of the world, including North America and Texas, and the factors that influence the development of these biomes. Special consideration is given to species interactions that lead to high and low density species. (Formerly EES 5243. Same as BIO 5243. Credit can be earned for only one of the following: BIO 5243, EES 5243, or ES 5243.)

5253  **Contaminant Transport in Porous Media**  
(3-0) 3 hours credit.  
The transport of contaminants in a subsurface environment. Effects of dispersion, interphase mass transfer, transformation reactions, and porous-media heterogeneity on transport: covers aqueous (dissolved) and multiphase (immiscible liquid, gas) systems. (Formerly EES 5253. Credit cannot be earned for both EES 5253 and ES 5253.)

5263  **Microbial Ecology**  
(3-0) 3 hours credit. Prerequisite: BIO 3713 or consent of instructor.  
Interrelationships between microorganisms and their environment, including natural habitats of microorganisms, normal human flora, and pathogens. Special consideration is given to application of genetically engineering microorganisms for environmental problems. (Formerly EES 5263. Same as BIO 5263. Credit can be earned for only one of the following: BIO 5263, EES 5263, or ES 5263.)
5493 Water Pollution Control  
(3-0) 3 hours credit.  
Principles and methods of water pollution control process design and operation; selection and optimization of total treatment processes as well as appurtenances and accessory equipments; and methods involved in the design process and the selection of the hardware. (Formerly EES 5493. Credit cannot be earned for both EES 5493 and ES 5493.)

5503 Environmental Policy and Law  
(3-0) 3 hours credit.  
Current environmental enabling acts and regulations are covered, with emphasis on federal acts, such as the National Environmental Policy Act, Clean Water Act, Resource Conservation and Recovery Act, and associated regulations. Management strategies for environmental compliance are also presented. (Formerly EES 5503. Same as PAD 5483. Credit can be earned for only one of the following: EES 5503, ES 5503, or PAD 5483.)

5743 Plant-Microbe Interactions  
(3-2) 3 hours credit. Prerequisite: A 2000-, 3000- or higher-level microbiology or plant physiology course, or consent of instructor.  
The study of molecular and cellular aspects of the interaction between plants and microorganisms in the environment, such as mycorrhizae, pathogenic fungi, Agrobacterium, pathogenic bacteria and plant viruses. Topics include microbial virulence, signaling, gene expression, and disease resistance in plants. Laboratory will focus on plant biochemical and microbiological methods as they relate to environmental problems. (Formerly EES 5743. Credit cannot be earned for both EES 5743 and ES 5743.)

5971-3 Directed Research  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
The directed research course may involve a laboratory, field-based, or theoretical problem. May be repeated for credit, but not more than 3 hours, regardless of discipline, will apply to the Master’s degree. (Formerly EES 5971-3.)

5981 Graduate Seminar in Environmental Science and Engineering  
(1-0) 1 hour credit. Prerequisite: Graduate standing in the program or consent of instructor.  
Topical issues of current research will be examined. Presentations will be by current faculty, invited guests and Master’s or Doctoral candidates. May be repeated for credit but only 2 hours may be applied toward the Master’s degree. (Formerly EES 5981 and ES 5991.)

6003 Risk and Decision Analysis  
(3-0) 3 hours credit. Prerequisite: ES 5023 or consent of instructor.  
Advanced application of systems analysis to the solution of environmental problems and the building and solving of mathematical models. The role of analytical tools such as cost analysis, decision, and utility theory as they are applied to the efficient utilization of natural resources are also covered. (Formerly EES 6003. Credit cannot be earned for both EES 6003 and ES 6003.)

6013 Instrumental Environmental Methods for Environmental Analysis  
(2-2) 3 hours credit. Prerequisite: One year of college chemistry or consent of instructor.  
A survey of instrumental techniques and standard methods for analysis of environmental pollutants. Designed primarily for students interested in environmental management and remediation, the focus of the course will vary but will emphasize some aspect of environmental quality, water and soil in particular. (Formerly EES 6013. Credit cannot be earned for both EES 6013 and ES 6013.)

6033 Multivariate Analysis in Environmental Science and Engineering  
(3-0) 3 hours credit. Prerequisites: ES 5023 and ES 5233 or their equivalents, or consent of instructor.  
Fundamental concepts of Multivariate Analysis in Environmental Science and Engineering will be presented. Students will examine principle components, factor analysis, cluster analysis, multidimensional scaling, discriminate analysis, multivariate normal distributions, mean vectors and covariance matrix and tests of covariance matrices. (Formerly EES 6033. Same as CE 6033. Credit can be earned for only one of the following: CE 6033, EES 6033, or ES 6033.)
6103  **Environmental Impacts**  
(3-0) 3 hours credit.  
Atmosphere, lithosphere, hydrosphere, and biosphere are treated as interrelated systems. Human impact and interaction within and among these systems are studied. Preparation and evaluation of environmental impact statements and assessments are included. (Formerly EES 6103 and ES 5203. Credit can be earned for only one of the following: EES 6103, ES 5203, or ES 6103.)

6113  **Advanced Plant Physiology**  
(3-0) 3 hours credit. Prerequisite: BIO 4203 or consent of instructor.  
Principles of plant physiology and biochemistry, with particular emphasis on plant hormones, nitrogen fixation, plant respiration, photosynthesis, and current research work. (Formerly EES 6113. Same as BIO 6113. Credit can be earned for only one of the following: BIO 6113, EES 6113, or ES 6113.)

6123  **Environmental Quality**  
(2-3) 3 hours credit. Prerequisites: CHE 2604 or equivalent, and ES 3053 or ES 4003, or consent of instructor.  
Principles of surface and aquatic chemistry as applied to soil and natural water systems. Application of aforementioned principles in the study of environmental quality issues will be included. Laboratory will focus on analysis of pollutants using modern analytical techniques. (Formerly EES 6123. Credit cannot be earned for both EES 6123 and ES 6123.)

6133  **Methods in Field Ecology**  
(3-0) 3 hours credit. Prerequisite: BIO 3283 or an equivalent.  
Examination of techniques to collect, identify, and preserve plants and animals. Field methods used in the analysis of populations and communities are considered. (Formerly EES 6133. Same as BIO 6133. Credit can be earned for only one of the following: BIO 6133, EES 6133, or ES 6133.)

6203  **Aqueous Geochemistry**  
(2-3) 3 hours credit. Prerequisites: CHE 2604 or equivalent, and ES 3053 or ES 4003, or consent of instructor.  
An in-depth study of geochemical principles and practices focusing primarily on the aquatic environment. Designed to familiarize advanced students of Geochemistry, Environmental Science, and Environmental Engineering with those aspects of applied chemistry that have relevance in the care of environmental research and practice. (Formerly EES 6203. Same as GEO 6203. Credit can be earned for only one of the following: EES 6203, ES 6203, or GEO 6203.)

6213  **Advanced Ecology**  
(3-0) 3 hours credit. Prerequisite: BIO 3283 or an equivalent.  
Interaction of organisms with their environment, allelopathy, competition, distribution, succession, and factors that control growth and dispersal. Special consideration is given to the concepts of climax, succession, and land management. (Formerly EES 6213. Same as BIO 6213. Credit can be earned for only one of the following: BIO 6213, EES 6213, or ES 6213.)

6253  **Biodegradation of Organics in Soil and Groundwater**  
(3-0) 3 hours credit. Prerequisite: BIO 5123 or consent of instructor.  
Description of modern pollution problems and potential remediation techniques focusing on the chemistry, biochemistry, and molecular biology of biodegradation of hazardous and toxic compounds. (Formerly EES 6253. Same as BIO 6253. Credit can be earned for only one of the following: BIO 6253, EES 6253, or ES 6253.)

6273  **Analyses of Environmental Problems**  
(3-0) 3 hours credit.  
Problems will be presented and potential solutions will be explored from a variety of areas including soil, air, water, coastal and marine systems. Also examined will be potential impact on biotic and abiotic resources in terrestrial, aquatic and marine systems. (Formerly EES 6273. Same as CE 6273. Credit can be earned for only one of the following: CE 6273, EES 6273, or ES 6273.)
6703  **Environmental Biotechnology**  
(3-0) 3 hours credit. Prerequisites: ES 5063 or ES 5263, and ES 5243, or consent of instructor. 
Molecular methods for detection of microorganisms in the environment. Fate and survival of introduced organisms 
in the environment. Molecular mechanisms of microbial inactivation in waste treatment systems and microbial risk 
assessment. (Formerly EES 6703. Credit cannot be earned for both EES 6703 and ES 6703.)

6723  **Advanced Environmental Regulations**  
(3-0) 3 hours credit. Prerequisite: ES 5503 or equivalent, or consent of instructor. 
A study of the environmental regulatory apparatus, and rules and regulations implemented to achieve those objectives 
of the environmental laws. (Formerly EES 6723. Same as CE 6723. Credit can be earned for only one of the following: 
CE 6723, EES 6723, or ES 6723.)

6763  **Environmental Phytoremediation**  
(2-3) 3 hours credit. Prerequisites: CHE 2604 or equivalent, and ES 3053 or ES 4003, or consent of instructor. 
The study of environmental pollution effects on physiological and ecological processes of plants, in both managed 
and unmanaged ecosystems. Pollutants under study include contaminants of air (such as ozone, sulphur dioxide 
and UV-B radiation) and soil (such as metals and organic xenobiotics). Topics include principles, protocols and 
applications of molecular biology and biotechnology for genetic improvement of microbes/plants for environmental 
remediation. Laboratory will focus on plant biochemical, soil chemical and plant molecular biological methods and a 
group research project. (Formerly EES 6763. Credit cannot be earned for both EES 6763 and ES 6763.)

6813  **Water Resources**  
(3-0) 3 hours credit. 
Application of management principles to the efficient use of water resources by people and their public and private 
institutions. Water is examined in terms of its value, use, and changing role in the context of economics, history, 
politics, and technology. (Formerly EES 6813. Same as GEO 6813. Credit can be earned for only for one of the 
following: EES 6813, ES 6813, or GEO 6813.)

6901-3  **Experimental Techniques in the Environmental Sciences**  
(1-0, 2-0, 3-0) 1 to 3 hours credit. Prerequisite: Consent of instructor. 
Topics will include various research methods in environmental science. May be repeated for credit as topics vary. 
(Formerly EES 6901-3. Unless topic varies, credit cannot be earned for both EES 6901-3 and ES 6901-3.)

6941  **Environmental Science Colloquium**  
(1-0) 1 hour credit. Prerequisite: Graduate standing. 
Discussions of current journal articles, reviews, and recent advances in specialized areas of the biological sciences. 
May be repeated for credit as topics vary. The grade report for this course is either “CR” (satisfactory participation in 
the colloquium) or “NC” (unsatisfactory participation in the colloquium). (Formerly EES 6941. Same as BIO 7041. 
Unless topic varies, credit can be earned for only one of the following: BIO 7041, EES 6941, or ES 6941.)

6951-3  **Independent Study**  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and 
the student’s Graduate Advisor of Record. 
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing 
specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, 
but not more than 6 hours, regardless of discipline, will apply to the Master’s degree. (Formerly EES 6951-3.)

6961  **Comprehensive Examination**  
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive 
Examination. 
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times 
as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive 
Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” 
(satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the 
Comprehensive Examination). (Formerly EES 6961.)
6963  **Internship**  
3 hours credit. Prerequisites: Graduate standing and consent of Graduate Advisor of Record.  
An opportunity for students to work in a setting that permits them to apply what they have learned in the formal instruction part of the program. May be repeated for credit, but not more than 3 hours will apply to the Master’s degree. (Formerly EES 6963. Credit cannot be earned for both EES 6963 and ES 6963.)

6973  **Special Problems**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when the topics vary, but not more than 6 hours, regardless of discipline, will apply to a Master’s degree. Field trips may be required. (Formerly EES 6973.)

6983  **Master’s Thesis**  
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.  
Thesis research preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress. (Formerly EES 6983.)

7211-3  **Doctoral Research**  
1 to 3 hours credit. Prerequisite: Admission to candidacy for the Doctoral degree.  
May be repeated for credit, but no more than 15 hours may be applied to the Doctoral degree. (Formerly EES 7211-3.)

7311-3  **Doctoral Dissertation**  
1 to 3 hours credit. Prerequisite: Admission to candidacy for the Doctoral degree.  
May be repeated for credit, but no more than 15 hours may be applied to the Doctoral degree. (Formerly EES 7311-3.)
DEPARTMENT OF BIOLOGY

Master of Science Degree in Biology

The graduate program offers opportunities for advanced study and research leading to the Master of Science degree in Biology. A thesis option is offered to students who want an opportunity to develop expertise in research techniques and data analysis; a nonthesis option is offered for those who want the opportunity to earn the Master of Science degree primarily through organized coursework. The thesis option is recommended for students who plan a career in research or contemplate pursuing a doctorate in one of the life sciences. The nonthesis option might be suitable for students interested in secondary school teaching in the life sciences.

Graduate faculty research interests include biochemistry, cellular biology, developmental biology, ecology, genetics, microbiology, neurobiology, physiology, and plant sciences. The multidisciplinary nature of the program also allows students the opportunity to broaden their educational background at the graduate level. Individual programs are organized around each student’s interests in consultation with the student’s graduate advisor.

Qualified students are encouraged to apply for teaching assistantships and fellowships.

Program Admission Requirements. To be considered for degree-seeking status, applicants must submit, along with the application, two letters of recommendation, a Statement of Future Plans, and scores from the Graduate Record Examination (GRE). In addition to satisfying the University-wide graduate admission requirements, applicants are expected to have completed an undergraduate major in one of the biological sciences, with coursework comparable to that required for the Bachelor of Science degree in Biology at UTSA. Students whose undergraduate preparation is deficient in certain areas but who meet the minimum University standards for admission may be conditionally admitted and required to complete specific undergraduate or graduate courses as conditions of admission. In such cases, students should anticipate that additional time will be required to complete the degree. Students who are denied admission to the M.S. Program must reapply if interested in acceptance as a Special Graduate student or a non-degree-seeking student.

Degree Requirements. Degree candidates are required to complete a minimum of 36 semester credit hours approved by the student’s Graduate Advisor of Record. These hours are subject to the following conditions:

- A minimum of 18 semester credit hours of graduate credit in organized classes must be earned within the department. This may include a maximum of 3 semester credit hours in graduate seminar (BIO 7051).

- An additional 18 semester credit hours of graduate credit as approved by the Graduate Advisor of Record. This may include up to 6 semester credit hours of upper-division (3000–4000 level) undergraduate coursework (requires prior approval of the Graduate Advisor), and a maximum of 6 hours, in total, of BIO 5973 Directed Research or BIO 6953 Independent Study. For students electing the nonthesis option, a total of 3 semester credit hours of BIO 7041 Biology Colloquium must be included. Students electing the thesis option must complete 6 semester credit hours of BIO 6983 Master’s Thesis as part of this total.

Comprehensive Examination. As specified by University regulations, candidates must pass a comprehensive examination administered by the student’s Graduate Committee. It is recommended that this examination be given in the semester prior to the semester during which degree requirements are to be completed. If the examination is given in the graduating semester, it must be given before the third week in October for Fall graduation, the second week in March for Spring graduation, and the first week in July for Summer graduation. Certain rules must be adhered to concerning the composition of the Master’s Thesis Committee and the Master’s Comprehensive Examination Committee. Only tenured or tenure-track faculty members can chair these committees, and no more than one member of either committee can be a nontenured or nontenure-track faculty member, or be from another institution. Students electing the thesis option must successfully defend their thesis research before their Graduate Committee prior to the submission of the thesis to the Dean of the Graduate School for approval.
Master of Science Degree in Biotechnology

The Master of Science degree in Biotechnology offers opportunities for rigorous, advanced study and research in biotechnology, in order to prepare students for employment and research in the rapidly advancing and expanding field. A broad common base of knowledge for biotechnology is provided in the Master’s degree by a comprehensive core curriculum that includes key areas in biochemistry, cell and molecular biology, immunology, and bioinformatics. Additional coursework is selected from a list of required lectures and laboratory courses and from approved electives. The opportunity to develop additional technical expertise is also available through an internship in biotechnology-based companies.

Program Admission Requirements. To be considered for degree-seeking status, applicants must submit, along with the application, two letters of recommendation, a Statement of Future Plans for a career in Biotechnology, and scores from the Graduate Record Examination (GRE). In addition to satisfying the University-wide graduate requirements, applicants are expected to have completed an undergraduate major in the sciences with coursework comparable to the core required for the Bachelor of Science degree in Biology at UTSA. In particular, in-coming students are required to have taken and received at least a grade of “B” in upper-division undergraduate lecture and laboratory courses in Microbiology and Biochemistry, and to have taken undergraduate courses in molecular biology and statistics. In addition, an undergraduate course in immunology, with a laboratory component, is recommended. Students whose undergraduate preparation is deficient in one of these areas of requirements but who meet the remaining standards for admission may be conditionally admitted and required to complete specific undergraduate course(s) in their first semester as conditions of admission. In such cases, students should anticipate that additional time will be required to complete the degree. A grade point average of 3.0 (on a 4.0 scale) is required for admission, but exceptions may be made depending on the overall application. Students who are denied admission to the M.S. Program must reapply if interested in acceptance as a Special Graduate student or a non-degree-seeking student. The nature of the program dictates the number of students admitted each year may be limited.

Degree Requirements. Degree-seeking students are required to complete a minimum of 36 semester credit hours that must ultimately be approved by the student’s Graduate Advisor and Comprehensive Examination Committee, as well as the Graduate Advisor of Record. Students are expected to meet with their assigned Graduate Advisor early in the first semester of study to prepare a course-degree-plan and organize a Committee as early as possible. Students must work closely with their Advisor and Committee to gain maximum benefit from this program.

Program of Study

A. Biotechnology lectures - core curriculum (12 semester credit hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIO 5001</td>
<td>Ethical Conduct in Research</td>
</tr>
<tr>
<td>BIO 5113</td>
<td>Principles of Biochemistry</td>
</tr>
<tr>
<td>BIO 5123</td>
<td>Principles of Molecular Biology</td>
</tr>
<tr>
<td>BIO 5133</td>
<td>Principles of Cell Biology</td>
</tr>
<tr>
<td>BIO 5762</td>
<td>Fundamentals of Immunology for Biotechnology</td>
</tr>
</tbody>
</table>

B. 3 semester credit hours in basic laboratory techniques are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIO 5033</td>
<td>Biotechnology Laboratory</td>
</tr>
</tbody>
</table>

C. A minimum of 3 semester credit hours of additional organized laboratory experience are required, from the following:

</tbody>
</table>
D. Biotechnology electives

Students must obtain their remaining credit hours from the following list of electives. Depending upon the student’s specialized area of study, not all elective courses may be appropriate. Students should confer with their advisor in selecting appropriate electives. Electives not listed below that students wish to use toward their degree plan must be approved by the Graduate Advisor and Committee, in addition to the Graduate Advisor of Record before enrollment in such a course.

- BIO 5063 Environmental Microbiology
- BIO 5363 Microbial Genetics and Recombinant DNA
- BIO 5403 Advanced Comparative Animal Physiology
- BIO 5443 Neurochemistry
- BIO 5453 Neuroendocrinology
- BIO 5523 Enzymes
- BIO 5543 Pharmacology and Toxicology
- BIO 5563 Proteomics
- BIO 5583 Molecular Neuropharmacology
- BIO 5623 Bioinformatics for Biotechnology
- BIO 5653 Biology of Disease
- BIO 5723 Topics in Biodefense
- BIO 5733 Advanced Medical Mycology
- BIO 5743 Biochemical Virology
- BIO 5773 Applied Fungal Molecular Biology
- BIO 5783 Introduction to Good Manufacturing Practices and Good Laboratory Practices
- BIO 5833 Membrane Structure and Function
- BIO 5971-3 Directed Research
- BIO 6123 Plant Molecular Biology
- BIO 6243 Gene Regulation
- BIO 6253 Biodegradation of Organics in Soil and Groundwater
- BIO 6513 Drug Development
- BIO 6523 Cell and Tissue Engineering
- BIO 6533 Topics in Biotechnology
- BIO 6543 Vaccine Development
- BIO 6553 Fermentation Science
- BIO 6563 Food Science and Biotechnology
- BIO 6773 Host-Parasite Interactions
- BIO 6803 Advanced Immunology and Immunochemistry
- BIO 6873 Microbial Physiology and Energetics
- BIO 6973 Special Problems
- BIO 7041 Biology Colloquium
- BIO 7051 Seminar in Life Sciences
- BIO 7563,6,9 Practicum in Biotechnology
- MOT 5163 Management of Technology
- MOT 5173 Technology Transfer: The Theory and Practice of Knowledge Utilization
- MOT 5323 Biotechnology Industry

**Biotechnology Internship.** The internship will require prior arrangement with biotechnology-based companies and approval of the Graduate Advisor of Record. Students may not take an internship if they select the thesis option.

**Thesis Option.** Students electing the thesis option must complete 6 semester credit hours of BIO 6983 Master’s Thesis. Students taking thesis option within the Biotechnology Program may apply no more than 3 semester credit hours of BIO 5971-3 Directed Research toward their degree requirements.
Comprehensive Examination. As specified by University regulations, degree candidates must pass a comprehensive examination administered by their Comprehensive Examination Committee. It is recommended that this examination be given in the semester prior to the semester during which degree requirements are to be completed. If the examination is given in the graduating semester, it must be given before the third week in October for Fall graduation, the second week in March for Spring graduation, and the first week in July for Summer graduation. Only tenured or tenure-track faculty members can chair the Committee, and no more than one member of the Committee may be non-tenure-track faculty or from another institution.

Doctor of Philosophy Degree in Biology

The Department of Biology offers opportunities for advanced study and research leading to the Doctor of Philosophy degree in Biology. The Biology Ph.D. Program has two concentrations: Neurobiology or Cell and Molecular Biology. The Ph.D. in Biology is awarded to candidates who have displayed an in-depth understanding of the subject matter and demonstrated the ability to make an original contribution to knowledge in their specialized area of study.

The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 5, Doctoral Degree Regulations).

Admission Requirements. Applicants must have a Bachelor of Arts or a Bachelor of Science degree, preferably in biology, from an accredited university and a minimum grade point average of 3.0 in upper-division and graduate work. Applicants must submit, along with the application, three letters of recommendation, a Statement of Future Plans, and scores from the Graduate Record Examination (GRE). Applicants whose native language is not English must score at least 600 on the Test of English as a Foreign Language (TOEFL). Admission requires appointment to a teaching assistantship, research assistantship, or research fellowship. The Doctoral Studies Committees for each concentration, comprised of members selected from the graduate faculty in each program, are responsible for reviewing applications for admission.

Degree Requirements. The degree requires a minimum of 90 semester credit hours beyond the baccalaureate degree for the concentration in Neurobiology, and a minimum of 85 semester credit hours beyond the baccalaureate degree for the concentration in Cell and Molecular Biology. The curriculum consists of core courses, elective courses, seminars, required teaching, research, and completion of the dissertation following advancement to candidacy. Any grade lower than “B” in a graduate course or in remedial coursework at the undergraduate level will not count toward the minimum number of required hours. Students matriculating with a Master’s degree may use up to 30 semester credit hours toward the degree provided the courses are comparable to core and elective courses and are approved by the appropriate Doctoral Studies Committee.

Program of Study for the Concentration in Neurobiology

A. Core curriculum (18 semester credit hours required):

   BIO 5423  Neuroanatomy
   BIO 5433  Neurophysiology
   BIO 5443  Neurochemistry
   BIO 7113  Supervised Teaching in Biology
   BIO 7413  Research Ethics and Responsible Conduct in Research
   BIO 7571-3 Experimental Techniques in Biology – Research Rotation (3 semester credit hours required)

B. Colloquia and seminars (16 semester credit hours minimum):

   BIO 7041  Biology Colloquium* (9 semester credit hours minimum)
   BIO 7051  Seminar in Life Sciences*

*Enrollment in both BIO 7041 and BIO 7051 is required each semester.
C. Doctoral research (44 semester credit hours minimum):

BIO  7211-6  Doctoral Research (before admission to candidacy)
BIO  7311-3  Doctoral Dissertation (for Ph.D. candidates)

D. Electives (12 semester credit hours minimum):

These can be selected from any 5000–7000 level courses offered in Biology or from any 5000–7000 level courses offered in other departments with the approval of the Neurobiology Doctoral Studies Committee.

The entire program of study must be approved by the student’s dissertation advisor, dissertation committee, and the Neurobiology Doctoral Studies Committee, and must be submitted to the Dean of the Graduate School for final approval.

Program of Study for the Concentration in Cell and Molecular Biology

A. Core curriculum (21 semester credit hours required):

BIO  5113  Principles of Biochemistry
BIO  5123  Principles of Molecular Biology
BIO  5133  Principles of Cell Biology
BIO  7113  Supervised Teaching in Biology
BIO  7143  Principles of Biological Scientific Writing
BIO  7413  Research Ethics and Responsible Conduct in Research
BIO  7571/7572  Experimental Techniques in Biology – Research Rotation (3 semester credit hours minimum)

B. Colloquia (10 semester credit hours minimum—a minimum of 1 credit hour each semester throughout tenure in the program):

BIO  7041  Biology Colloquium

C. Doctoral research (45 semester credit hours minimum):

BIO  7212/7213  Doctoral Research
BIO  7311-3  Doctoral Dissertation

D. Electives (9 semester credit hours minimum):

These can be selected from any 5000–7000 level courses offered in Biology or from any 5000–7000 level courses offered in other departments with the approval of the Cell and Molecular Biology Doctoral Studies Committee.

The entire program of study must be approved by the student’s dissertation advisor and the Cell and Molecular Biology Doctoral Studies Committee, and must be submitted to the Dean of the Graduate School for final approval.

Advancement to Candidacy. Advancement to candidacy requires a student to complete University and program requirements and to pass written and oral qualifying examinations following completion of course requirements. The examination is administered by the Doctoral Studies Committee of each concentration and is conducted as outlined in the Handbook of Academic Policies and Procedures for each concentration. No more than two attempts to pass qualifying examinations are allowed. Results of the written and oral examinations must be reported to the appropriate Doctoral Studies Committee and the Dean of the Graduate School. Admission into the Doctoral program does not guarantee advancement to candidacy.

Dissertation. Candidates must demonstrate their ability to conduct independent research by completing and defending an original dissertation. The research topic is determined by the student in consultation with their supervising professor and a Dissertation Committee. The Dissertation Committee is selected by the student and supervising professor and approved by
1) the Doctoral Studies committee; 2) the Department Chair; 3) the Dean of the College; and 4) the Dean of the Graduate School. The Dissertation Committee guides and critiques the candidate’s research. The Committee is composed of four program faculty and one outside member. The Dissertation Committee must approve the completed dissertation.

**Final Oral Examination.** Following an open presentation of the dissertation findings, the Dissertation Committee conducts a closed oral examination dealing primarily with the relation of the dissertation to the general field of specialty. Results of the oral examination must be reported to the Dean of the Graduate School. Awarding of the degree is based on the approval of the Dissertation Committee, which is approved by relevant Doctoral Studies Committee, the Department Chair, and the Dean of the Graduate School. The Dean of the Graduate School certifies the completion of all University-wide requirements.

### COURSE DESCRIPTIONS

#### BIOLOGY

**5001 Ethical Conduct in Research**  
(1-0) 1 hour credit. Prerequisite: Graduate standing.  
This course provides a basic overview of the requirements for ethical conduct within the research laboratory. The grade report for this course is either “CR” (satisfactory completion) or “NC” (unsatisfactory completion). (Credit cannot be earned for both BIO 5001 and BIO 7413.)

**5013 Survey of Environmental Sciences**  
(3-0) 3 hours credit. Prerequisite: Graduate standing.  
An integrative examination of living and nonliving environmental systems. A detailed study of interrelationships among plants, animals, and the environment, addressing the chemical, physical, and biological properties of living systems, and the principles that drive their evolution. (Same as ES 5013. Credit cannot be earned for both BIO 5013 and ES 5013.)

**5033 Biotechnology Laboratory**  
(0-6) 3 hours credit. Prerequisite: Graduate standing.  
An organized course offering an introduction to routine procedures employed in the modern research laboratory.

**5063 Environmental Microbiology**  
(3-0) 3 hours credit. Prerequisite: BIO 3713 or consent of instructor.  
To provide a basic understanding of environmental microbiology primarily from two aspects: microbial interactions with chemical pollutants in the environment and the fate of microbial pathogens in the environment. Topics covered include microbial environments, detection of bacteria and their activities in the environment, microbial biogeochemistry, bioremediation, and water quality. (Same as ES 5063. Credit cannot be earned for both BIO 5063 and ES 5063.)

**5073 Environmental Microbiology Laboratory**  
(2-3) 3 hours credit. Prerequisite: BIO 3722 or consent of instructor.  
To provide an understanding of environmental microbiology laboratory techniques using both traditional and molecular research skills. Basic techniques for isolation and characterization of environmental soil and water microflora including methods for enumeration and measurement of physiological activity. (Same as ES 5073. Credit cannot be earned for both BIO 5073 and ES 5073.)

**5113 Principles of Biochemistry**  
(3-0) 3 hours credit. Prerequisites: BIO 2313 and BIO 3513, or their equivalents.  
Biochemical properties of DNA, RNA, carbohydrates, lipids, and proteins. Enzyme activity. Catabolism. Oxidative and photosynthetic metabolism. Biosynthesis of macromolecular precursors. Regulation and signaling mechanisms. (Credit cannot be earned for both BIO 5113 and BIO 7513 if taken prior to 2004.)
5123  **Principles of Molecular Biology**  
(3-0) 3 hours credit. Prerequisite: BIO 3513 or an equivalent.  
Molecular structure and function of genes and nucleic acids, and the processes of DNA replication, mutation and repair, as well as transcription and translation of genetic material. Genome projects, functional genomics and the genetic control of development will also be covered. (Replaces BIO 5353 and BIO 7643. Credit can be earned for only one of the following: BIO 5123, BIO 5353, or BIO 7643.)

5133  **Principles of Cell Biology**  
(3-0) 3 hours credit. Prerequisites: BIO 3513 and BIO 3813, or their equivalents.  
Basic structure, organization and differentiation of cells. Cell cycle, signaling, growth and movement of cells, as well as cellular immunology and cellular aspects of infectious disease will also be covered.

5143  **Advanced Molecular Biology Laboratory – DNA Techniques**  
(0-6) 3 hours credit. Prerequisite: BIO 3913 or an equivalent. BIO 5033 recommended.  
An introduction to advanced techniques of molecular biology dealing with manipulations and analyses of DNA, including preparation and analysis of genomic DNA, genomic cloning, the polymerase chain reaction (PCR), Southern blotting, DNA sequencing and computational analysis of DNA sequence data.

5153  **Advanced Molecular Biology Laboratory – RNA Techniques**  
(0-6) 3 hours credit. Prerequisite: BIO 3913 or an equivalent. BIO 5033 recommended.  
An introduction to advanced techniques of molecular biology dealing with manipulations and analyses of RNA, including preparation and analysis of cellular RNA, cDNA cloning, the reverse transcriptase-polymerase chain reaction (RT-PCR), Northern blotting, and recovery and characterization of gene-specific cDNAs.

5243  **Advanced Plant Ecology**  
(3-0) 3 hours credit. Prerequisites: BIO 3283 and BIO 3292, or consent of instructor.  
A study of the major biomes of the world, including North America and Texas, and the factors that influence the development of these biomes. Special consideration is given to species interactions that lead to high and low density species. (Same as ES 5243. Credit cannot be earned for both BIO 5243 and ES 5243.)

5263  **Microbial Ecology**  
(3-0) 3 hours credit. Prerequisite: BIO 3713 or consent of instructor.  
Interrelationships between microorganisms and their environment, including natural habitats of microorganisms, normal human flora, and pathogens. Special consideration is given to application of genetically engineering microorganisms for environmental problems. (Same as ES 5263. Credit cannot be earned for both BIO 5263 and ES 5263.)

5333  **Advanced Population Genetics**  
(3-0) 3 hours credit. Prerequisites: BIO 2313 and BIO 2322, or their equivalents. Biostatistics highly recommended.  
An experimental approach to the interaction of genotype and environment in populations, with emphasis on mutagenesis, selection, polymorphism, and adaptive mechanisms.

5363  **Microbial Genetics and Recombinant DNA**  
(3-0) 3 hours credit. Prerequisites: BIO 2313, BIO 3513, and BIO 3713, or consent of instructor.  
This course covers recombinant DNA and various technologies that it has spawned. It also covers those aspects of microbial genetics that directly relate to recombinant DNA. (Formerly BIO 5373. Credit cannot be earned for both BIO 5363 and BIO 5373.)

5403  **Advanced Comparative Animal Physiology**  
(3-0) 3 hours credit. Prerequisite: BIO 4353 or an equivalent.  
Physiology of the organs and organ systems of animals.
5423  **Neuroanatomy**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
The anatomy of the vertebrate nervous system.

5433  **Neurophysiology**  
(3-0) 3 hours credit. Prerequisite: BIO 3433 or an equivalent.  
The fundamentals of neurophysiology are presented from the cellular to the systems level.

5443  **Neurochemistry**  
(3-0) 3 hours credit. Prerequisites: BIO 3433, BIO 3513, and BIO 3522.  
An examination of basic biochemical phenomena involved in normal neural processes and some pathological changes 
associated with neurobiological diseases and disorders.

5453  **Neuroendocrinology**  
(3-0) 3 hours credit. Prerequisites: BIO 3433 and BIO 3813.  
Anatomical and molecular neurobiology of the endocrine hypothalamus and associated organs. Morphological, cell 
biological, and feedback mechanisms of endocrine regulation are emphasized.

5463  **Reproductive Biology**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in Biology.  
Mammalian reproduction including mechanisms involved in sexual differentiation, fertilization, and fetal development.  
Endocrine regulation and environmental influences with a focus on human reproduction.

5473  **Developmental Neurobiology**  
(3-0) 3 hours credit. Prerequisite: BIO 3433 or consent of instructor.  
A study of the development of the nervous system, with an emphasis on neurogenesis, neuronal migration, growth 
factors, axonal guidance, and the role of neuronal activity in synapse stabilization.

5483  **Computational Neuroscience**  
(3-0) 3 hours credit. Prerequisite: BIO 3433 or an equivalent.  
A non-mathematical approach to the computational functions of the brain, including sensory coding, neural control of 
movement, and the computational properties of neurons and neuronal networks.

5493  **Cognitive Neuroscience**  
(3-0) 3 hours credit. Prerequisites: BIO 3433 (or PSY 3103) or consent of instructor.  
The biological foundations of mental phenomena, including perception, attention, learning, memory, language, motor 
control, and executive function, as well as functional specialization, development and plasticity, through various 
methodologies.

5503  **Sensory Physiology**  
(3-0) 3 hours credit. Prerequisite: BIO 3433 or consent of instructor.  
Principles of sensory physiology, including sensory transduction and central processing of sensory information in 
vertebrate and invertebrate species.

5523  **Enzymes**  
(3-0) 3 hours credit. Prerequisite: BIO 3513 or an equivalent.  
A study of enzyme structure and mechanism, inhibitors, cofactor, kinetics, and regulation.

5533  **Human Electrophysiology**  
(3-0) 3 hours credit. Prerequisite: BIO 3433 or consent of instructor.  
The electrophysiological basis of human behavior, with an emphasis on event-related brain potentials associated with cognitive function, perception and action.
5543  Pharmacology and Toxicology  
(3-0) 3 hours credit. Prerequisite: Graduate standing in Biology.  
Mechanisms of action of major classes of therapeutic drugs. Clinical uses, drug comparisons, beneficial and adverse  
effects involved in clinical therapeutics.

5563  Proteomics  
(3-0) 3 hours credit. Prerequisite: BIO 3513 or an equivalent.  
Protein sequences, domains, folding, proteomics, glycoproteins, protein-DNA interactions, RNA conformations.  
(Formerly BIO 5593. Credit cannot be earned for both BIO 5563 and BIO 5593.)

5583  Molecular Neuropharmacology  
(3-0) 3 hours credit. Prerequisite: Graduate standing in Biology.  
A study of drugs that affect nervous tissue, specifically those affecting the brain and autonomic nervous system.

5623  Bioinformatics for Biotechnology  
(3-0) 3 hours credit. Prerequisite: BIO 2313 or STA 1993, or an equivalent.  
Nucleic acid and protein sequence analysis, phylogenetic analysis, protein structure analysis, microarray technology—  
experimental design and analysis, proteomics and internet resources and tools related to all these topics. (Credit cannot  
be earned for both BIO 5623 and BIO 5643.)

5633  Cytodifferentiation  
(3-0) 3 hours credit. Prerequisite: Graduate standing in Biology.  
Detailed study of selected areas of developmental biology relating to cellular differentiation, including nuclear-  
cytoplasmic interactions, induction, and reversibility of differentiation.

5643  Bioinformatics and Computational Biology  
(3-0) 3 hours credit. Prerequisite: BIO 2313 or STA 1993, or an equivalent. Enrollment in Biology Ph.D. program  
required, or permission of the Biology Department or instructor.  
Computational analysis of sequences, protein structures, and gene expression network on a large scale. Comparative  
genomics, functional genomics, and proteomics will also be covered.

5653  Biology of Disease  
(3-0) 3 hours credit. Prerequisites: BIO 3513 and BIO 3813, or BIO 5133.  
A study of molecular and cellular events associated with disease processes. Diseases to be discussed include:  
Alzheimer’s, LDL-atherosclerosis, cancer, Duchenne muscular dystrophy, and diseases associated with defects in  
lysosome and mitochondrial function.

5723  Topics in Biodefense  
(3-0) 3 hours credit. Prerequisites: BIO 2313, BIO 3513 and BIO 3713, and instructor’s consent.  
This course encompasses the biology of agents important in biodefense and emerging infectious diseases. The course  
uses the Centers for Disease Control and Prevention Select Agent Categories as the curriculum template, with special  
emphasis on Category A agents.

5733  Advanced Medical Mycology  
(3-0) 3 hours credit. Prerequisites: BIO 3522 and BIO 3722.  
This course is a comprehensive study of the etiological agents and host factors that lead to fungal disease in humans.

5743  Biochemical Virology  
(3-0) 3 hours credit. Prerequisite: Graduate standing in Biology.  
A detailed study of the diversity of viruses and biochemical mechanisms for their replication.
5762  **Fundamentals of Immunology for Biotechnology**  
(2-0) 2 hours credit.  
An integrated examination of the principles of immunology pertained to the Biotechnology Industry. An emphasis on current immunological techniques, including: recombinant antibody, flow cytometry and elispot technology. Issues related to vaccine production and therapeutics will also be considered.

5773  **Applied Fungal Molecular Biology**  
(3-0) 3 hours credit. Prerequisites: BIO 3522 and BIO 3722.  
Examines basic principles of fungal physiology and genetics and explores how these are exploited in both biomedical research and industrial settings. Particular emphases include the production of modified proteins and the identification of novel protein interactions.

5783  **Introduction to Good Manufacturing Practices and Good Laboratory Practices**  
(3-0) 3 hours credit.  
Review of FDA and U.S. Pharmacopia regulations. Practical considerations for the implementation of GMP/GLP systems; data management and reporting, as well as problem solving and interpretive skills, will be emphasized.

5833  **Membrane Structure and Function**  
(3-0) 3 hours credit. Prerequisite: BIO 3513 or an equivalent.  
A study of the composition, organization, transport functions, and permeability of natural and model membranes.

5971-3  **Directed Research**  
1 to 3 hours credit. Prerequisites: Admission to either the Biology or Biotechnology Master’s program or admission as a special graduate or non-degree-seeking student, and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
The directed research course may involve either a laboratory or a theoretical problem. May be repeated for credit, but not more than 6 hours, regardless of discipline, in combination with BIO 6953 (Independent Study), will apply to the Master’s degree.

6113  **Advanced Plant Physiology**  
(3-0) 3 hours credit. Prerequisite: BIO 3343 or consent of instructor.  
Principles of plant physiology, biochemistry, and an in-depth study of topics selected from the following: plant hormones, nitrogen fixation, plant respiration, photosynthesis, together with current research work. (Same as ES 6113. Credit cannot be earned for both BIO 6113 and ES 6113.)

6123  **Plant Molecular Biology**  
(3-0) 3 hours credit. Prerequisite: BIO 5123 or an equivalent.  
An overview of plant molecular biology, emphasizing the theoretical and practical aspects of protoplast isolation, introduction of foreign DNA into plant tissues and cells, and the regeneration of transformants. Specific uses of plant genetic engineering to improve agronomic yield and the nutritional quality of crop plants, and to produce novel natural products such as pharmaceutical compounds, will also be covered.

6133  **Methods in Field Biology**  
(3-0) 3 hours credit. Prerequisite: BIO 3283 or an equivalent.  
Examination of techniques to collect, identify, and preserve plants and animals. Field methods used in the analysis of populations and communities are considered. (Same as ES 6133. Credit cannot be earned for both BIO 6133 and ES 6133.)

6213  **Advanced Ecology**  
(3-0) 3 hours credit. Prerequisite: BIO 3283 or an equivalent.  
Interaction of organisms with their environment, allelopathy, competition, distribution, succession, and factors that control growth and dispersal. Special consideration is given to the concepts of climax, succession, and land management. (Same as ES 6213. Credit cannot be earned for both BIO 6213 and ES 6213.)
6243  **Gene Regulation**  
(3-0) 3 hours credit. Prerequisite: BIO 5123 or consent of instructor.  
A study of the mechanisms that regulate gene expression with an emphasis on those regulating transcription in mammals and certain model systems including bacteria, bacteriophage, and yeast.

6253  **Biodegradation of Organics in Soil and Groundwater**  
(3-0) 3 hours credit. Prerequisite: BIO 3713 or consent of instructor.  
Description of modern pollution problems and potential remediation techniques focusing on the chemistry, biochemistry, and molecular biology of biodegradation of hazardous and toxic compounds. (Same as ES 6253. Credit cannot be earned for both BIO 6253 and ES 6253.)

6313  **Molecular Biology and Biophysics of Ion Channels**  
(3-0) 3 hours credit. Prerequisites: BIO 5433 and BIO 5443, or permission of instructor.  
A study of the molecular composition and biophysical properties of ion channels. The course emphasizes three families of ion channels: voltage-gated, ligand-gated and metabotropically-stimulated channels. Their structure and function will be related to how ion channels mediate cellular actions in excitable cells.

6373  **Invertebrate Physiology**  
(3-0) 3 hours credit. Prerequisite: BIO 3413.  
An investigation of the mechanisms of respiration, movement, ion and water regulation, and hormonal integration in the invertebrates.

6483  **Animal Behavior**  
(3-0) 3 hours credit. Prerequisite: BIO 3413 or consent of instructor.  
An examination of neural, endocrine, genetic, and environmental determinants of behavior.

6513  **Drug Development**  
(3-0) 3 hours credit. Prerequisites: BIO 5113, BIO 5123 and BIO 5133.  
This course will provide students with an overview of the early drug discovery process, including target identification, validation, assay development and high throughput screening up to pre-clinical trials.

6523  **Cell and Tissue Engineering**  
(3-0) 3 hours credit. Prerequisites: BIO 5113, BIO 5123 and BIO 5133.  
An interdisciplinary course complementing the natural sciences with material sciences to solve critical medical problems involving tissue defects and organ failures. The approaches range from the management of a single cell to exploitation of complex mixtures of cells to repair and produce complete, living tissue to heal currently incurable chronic, degenerative diseases or to prevent acute organ failure.

6533  **Topics in Biotechnology**  
(3-0) 3 hours credit. Prerequisites: BIO 5113, BIO 5123 and BIO 5133.  
An organized course offering the opportunity for specialized study in an area of biotechnology not normally available as a regular course. Topics in biotechnology may be repeated for credit when topics vary, but not more than 6 hours may be applied to the Master’s degree.

6543  **Vaccine Development**  
(3-0) 3 hours credit. Prerequisites: BIO 5762 and permission of instructor.  
This course will provide students with an overview of issues about the roles of vaccines in the control of infectious diseases, vaccine development, clinical trials and implementation of vaccine programs.

6553  **Fermentation Science**  
(3-0) 3 hours credit. Prerequisites: BIO 3713 and BIO 3722, or their equivalents.  
The principles and theory underlying industrial fermentations, such as vessel design and construction, media design, up-scaling fermentations, process control, and product isolation.
6563  **Food Science and Biotechnology**  
(3-0) 3 hours credit. Prerequisites: BIO 3713 and BIO 3722, or their equivalents.  
An overview of food science covering nutrition, dietary recommendations, food chemistry, food preservation and safety, and an in-depth look at the uses of biotechnology in the food industry.

6663  **Experimental Parasitology**  
(3-0) 3 hours credit. Prerequisite: A course in parasitology or consent of instructor.  
A study of animal parasites, with special emphasis on the physiology of host-parasite interactions.

6773  **Host-Parasite Interactions**  
(3-0) 3 hours credit. Prerequisites: BIO 3713 and BIO 4743, or consent of instructor.  
A study of molecular interactions between animals and microorganisms, with emphasis on the nature of infectious disease processes and on the adaptations that allow microbial pathogens to avoid host defenses.

6803  **Advanced Immunology and Immunochemistry**  
(3-0) 3 hours credit. Prerequisite: BIO 4743 or consent of instructor.  
The study of current concepts of humoral and cell-mediated immunity, with emphasis on molecular mechanisms.

6873  **Microbial Physiology and Energetics**  
(3-0) 3 hours credit. Prerequisite: BIO 3713 or consent of instructor.  
Consideration of physiological activities of microorganisms, with special emphasis on metabolic capabilities of bacteria and other microorganisms.

691-3  **Independent Study**  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing of the instructor and the student's Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, in combination with BIO 5973 Directed Research will apply to the Master’s degree.

6961  **Comprehensive Examination**  
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive Examination.  
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6973  **Special Problems**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when the topics vary, but not more than 6 hours, regardless of discipline, may be applied to the Master’s degree.

6983  **Master’s Thesis**  
3 hours credit. Prerequisite: Permission of the Graduate Advisor of Record and thesis director.  
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.
7041 Biology Colloquium
(1-0) 1 hour credit. Prerequisite: Graduate standing.
Oral presentations, discussions, critical evaluation of students’ research in progress, or discussions of current journal articles or reviews of recent scientific advances. May be repeated for credit. The grade report for this course is either “CR” (satisfactory participation in the colloquium) or “NC” (unsatisfactory participation in the colloquium). (Formerly BIO 5041. Same as ES 6941. Unless topic varies, credit cannot be earned for both BIO 7041 and ES 6941.)

7051 Seminar in Life Sciences
(1-0) 1 hour credit. Prerequisite: Graduate standing.
Formal presentations of research by outside authorities in the biological sciences. May be repeated for credit. The grade report for this course is either “CR” (satisfactory participation in the seminar) or “NC” (unsatisfactory participation in the seminar).

7101 Cell and Molecular Biology Introductory Colloquium
(1-0) 1 hour credit. Prerequisite: Graduate standing.
Discussions of current journal articles, reviews, and recent advances in specialized areas of the biological sciences. The grade report for this course is either “CR” (satisfactory participation in the seminar) or “NC” (unsatisfactory participation in the seminar). Cannot be repeated for credit.

7113 Supervised Teaching in Biology
3 hours credit. Prerequisite: Admission to candidacy for the Doctoral degree.
Required course for Biology doctoral students. The student will be responsible for all aspects of leading a discussion section or laboratory course. Approval by the chair of the appropriate Doctoral Studies committee required.

7143 Principles of Biological Scientific Writing
(3-0) 3 hours credit. Prerequisite: Graduate standing.
This course will provide an overview of scientific grant and manuscript preparation. The class will be directed toward producing a Ph.D. dissertation proposal and a predoctoral fellowship application.

7211-6 Doctoral Research
1 to 6 hours credit. Prerequisite: Admission to either the Neurobiology or Cell and Molecular Biology Doctoral program.
May be repeated for credit, but no more than 52 hours may be applied to the Doctoral degree.

7311-3 Doctoral Dissertation
1 to 3 hours credit. Prerequisites: Admission to candidacy for the Doctoral degree and completion of at least 18 semester credit hours of BIO 7211-6.
May be repeated for credit.

7413 Research Ethics and Responsible Conduct in Research
(3-0) 3 hours credit.
A case-study approach to formal training in the responsible conduct of research. Includes areas of conflict of interest, responsible authorship, policies for handling misconduct, policies regarding the use of human and animal subjects, and data management. (Credit cannot be earned for both BIO 5001 and BIO 7413.)

7513 Advanced Biochemistry
(3-0) 3 hours credit. Prerequisites: BIO 5113 and BIO 5123.
Topics in biochemical structure, regulation, signaling, and analysis.

7542,3 Bioprocessing and Protein Purification Laboratory
(0-4, 0-6) 2 or 3 hours credit. Prerequisite: Satisfactory completion of BIO 5033.
Small- to large-scale growth of microorganisms and eukaryotic cells followed by downstream processing of culture supernatants and/or cell pellets, and protein purification.
7563,6,9 Practicum in Biotechnology
3, 6, or 9 hours credit. Prerequisites: Enrollment in Master’s in Biotechnology program and at least 18 hours credit including satisfactory completion of BIO 5033 and one other organized laboratory course. An internship in a Biotechnology company. Must have approval of Biotechnology Graduate Studies Committee.

7571-3 Experimental Techniques in Biology
(0-2, 0-4, 0-6) 1 to 3 hours credit. Prerequisite: Consent of instructor. Topics include research methods in cell and molecular biology, molecular neurobiology, and microbiology. May be repeated for credit as topics vary. (Formerly BIO 5571-3.)
DEPARTMENT OF CHEMISTRY

The Master of Science (M.S.) in Chemistry and the Doctor of Philosophy (Ph.D.) in Chemistry programs offer opportunities for advanced study and research designed to prepare students for roles in industry, government, research institutes, or educational institutions. For the M.S. program, the thesis option is recommended for students who are planning a career in research or who contemplate pursuing a doctorate in their program of study. A Nonthesis option is available for students with other goals. The Ph.D. program is broad-based and will prepare students for a variety of options in chemistry and related fields upon graduation.

Chemistry includes graduate programs of study in analytical and environmental chemistry, bioorganic chemistry, biophysical chemistry, bioinorganic chemistry, inorganic chemistry, organic chemistry, and physical chemistry.

Faculty expertise in each of the interest areas offers the opportunity for direct student-faculty interaction for thesis or dissertation development through coursework and research. Additional cooperative projects and programs are available with other area research institutions.

A limited number of teaching and/or research assistantships and fellowships are available to qualified students. Financial assistance is awarded on a competitive basis.

Master of Science Degree in Chemistry

The purpose of the Master of Science (M.S.) degree program in Chemistry is to offer students the opportunity to acquire a sound preparation of the fundamentals in several areas of chemistry, to introduce students to recent advances in chemical theory and methods, and to encourage research in a specific area of study.

Qualified students are encouraged to apply for teaching and/or research assistantships and fellowships. Requests should be sent to the Graduate Advisor of Record for chemistry when application is made for admission to UTSA.

Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, applicants must have a Bachelor of Arts or a Bachelor of Science degree from an accredited university and a minimum grade point average of 3.0 (on a 4.0 scale) in upper-division work, preferably in chemistry. All undergraduate chemistry courses must be completed with a minimum grade point average of 3.0.

Applicants must submit scores from the Graduate Record Examination (GRE). When GRE scores are used to determine admission, applicants will be compared to applicants with similar socioeconomic backgrounds. A minimum of two letters of recommendation from persons familiar with the applicant’s undergraduate scholastic record must be sent to the Department of Chemistry at the same time application is made for admission to UTSA. Background or remedial courses in chemistry may be required to remove deficiencies.

Applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL). The English Language Assessment Procedure is a mandatory assessment for incoming international students whose TOEFL scores are between 500 and 600 (paper version) or 61 and 100 (Internet version). See Chapter 1, Admission, of this catalog for details.

Thesis Option in Chemistry

Degree Requirements. The Master of Science in Chemistry program requires the successful completion of a minimum of 33 semester credit hours. Candidates must complete the following:

A. Required courses (27 semester credit hours):

<table>
<thead>
<tr>
<th>Code</th>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHE 5263</td>
<td>Advanced Analytical Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>CHE 5313</td>
<td>Advanced Biochemistry</td>
<td>3</td>
</tr>
<tr>
<td>CHE 5453</td>
<td>Advanced Inorganic Chemistry</td>
<td>3</td>
</tr>
</tbody>
</table>
CHE 5643  Advanced Organic Chemistry     3 hours
CHE 5843  Advanced Physical Chemistry    3 hours
CHE 5981  Graduate Seminar in Chemistry    3 hours
CHE 6951-3 Independent Study            3 hours
CHE 6983  Master’s Thesis, including an oral defense of the written thesis 6 hours

Registration for CHE 5981 Graduate Seminar in Chemistry is required for each semester of residence, although no more than 3 semester credit hours may be applied to the Master’s degree.

B. A minimum of 6 semester credit hours of electives in chemistry, as approved by the M.S. Research Advisor and the Graduate Advisor of Record, is required.

C. Students must pass a final oral comprehensive examination, scheduled during the student’s last semester of work, for completion of the degree program.

D. Students must successfully defend their thesis research results before their Graduate Committee prior to the submission of the thesis to the Dean of the Graduate School for approval.

Nonthesis Option in Chemistry

Degree Requirements. This program requires the successful completion of a minimum of 33 semester credit hours. Candidates for the degree must complete the following:

A. Required courses (27 semester credit hours):

CHE  5263  Advanced Analytical Chemistry     3 hours
CHE  5313  Advanced Biochemistry     3 hours
CHE  5453  Advanced Inorganic Chemistry    3 hours
CHE  5643  Advanced Organic Chemistry     3 hours
CHE  5843  Advanced Physical Chemistry    3 hours
CHE  5981  Graduate Seminar in Chemistry    3 hours
CHE  691-3 Independent Study            3 hours
CHE  6991-6 Directed Research            6 hours

Registration for CHE 5981 Graduate Seminar in Chemistry is required for each semester of residence, although no more than 3 semester credit hours may be applied to the Master’s degree. The laboratory work in chemistry should be taken as Independent Study and Directed Research.

B. 6 semester credit hours of elective organized coursework. These courses must be approved by the M.S. Research Advisor and the Graduate Advisor of Record.

C. Students must submit an acceptable final written report and pass an oral presentation, scheduled during the student’s last semester of work, for completion of the degree program.

Doctor of Philosophy Degree in Chemistry

The Department of Chemistry offers opportunities for advanced study and research leading to the Doctor of Philosophy degree in Chemistry. The Ph.D. in Chemistry is awarded to candidates who have displayed an in-depth understanding of the subject matter and demonstrated the ability to make an original contribution to knowledge in their field of specialty.

The complete set of requirements for the Ph.D. in Chemistry is described in the Chemistry Ph.D. Program Handbook (http://www.utsa.edu/chem/graduate/PhDHandbook.htm). The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 5, Doctoral Degree Regulations, in this catalog).
Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, applicants must have a Bachelor of Arts or a Bachelor of Science degree from an accredited university and a minimum grade point average of 3.0 (on a 4.0 scale) in upper-division and graduate work, preferably in chemistry. Applicants must submit scores from the Graduate Record Examination (GRE) with their application. When GRE scores are used to determine admission, applicants will be compared to applicants with similar socioeconomic backgrounds. At least two letters of recommendation from persons familiar with the applicant’s undergraduate (and graduate, where applicable) scholastic record must be sent to the Graduate School at the same time application is made for admission to UTSA. Background or remedial courses in chemistry may be required to remove deficiencies.

Applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL). The English Language Assessment Procedure is a mandatory assessment for incoming international students whose TOEFL scores are between 550 and 600 (paper version) or 79 and 100 (Internet version). See Chapter 1, Admission, of this catalog for details.

Degree Requirements. The Doctoral degree requires a minimum of 86 semester credit hours beyond the baccalaureate degree. The curriculum consists of 21 semester credit hours of formal coursework, required teaching, research, and completion of the dissertation following advancement to candidacy. Enrollment in the Chemistry Research Colloquium and/or Graduate Seminar in Chemistry is required each semester of enrollment and may be taken for a maximum combined total of 12 semester credit hours. A minimum of 53 semester credit hours in doctoral research, including 12 semester credit hours of doctoral dissertation, must be completed. The student must have a grade point average of 3.0 or greater (on a 4.0 scale) in the core courses and elective courses combined. Each student must be a teaching assistant for a minimum of one academic year. Submission of a satisfactory research proposal in an area outside the dissertation research is required. Students matriculating with a Master’s degree may use up to 30 semester credit hours toward the degree, provided the courses are comparable to core and elective courses.

Program of Study

CHE 7973 Special Problems

The entire program of study must be approved by the student’s Doctoral Research Advisor, Doctoral Studies Committee, and Graduate Program Committee and must be submitted to the Dean of the Graduate School for final approval.

Advancement to Candidacy. All students seeking a doctoral degree at UTSA must be admitted to candidacy. One of the requirements for admission to candidacy is passing the Qualifying Examination. The Qualifying Examination is divided into written and oral portions. A Dissertation Research Proposal (DRP) constitutes the written portion, and defense of the DRP constitutes the oral portion. The oral portion must be presented no later than one month following submission of the written portion. The student’s performance on both the written and oral portions is evaluated by the student’s Doctoral Studies Committee.

Other Degree Requirements. Other requirements include (but are not limited to) a topic paper, an independent research proposal, the written dissertation, and the final oral examination. The final oral examination consists of a public presentation of the dissertation and a closed oral defense administered and evaluated by the student’s Doctoral Studies Committee.

COURSE DESCRIPTIONS

CHEMISTRY

(CHE)

5263 Advanced Analytical Chemistry
(3-0) 3 hours credit. Prerequisites: CHE 3213 and CHE 4213, or equivalents.
The physical and chemical principles of modern analytical chemistry with emphasis on error analysis, signals and noise, electrochemical techniques, analytical separations, and selected spectroscopic methods based on absorption and emission. (Formerly CHE 5163. Credit cannot be earned for both CHE 5263 and CHE 5163.)

5313 Advanced Biochemistry
(3-0) 3 hours credit. Prerequisite: Undergraduate biochemistry.
Advanced topics in modern biochemistry, including cell signaling, apoptosis, trafficking and processing of proteins, DNA array technology, and various aspects of bioinformatics. Ligand interactions and the thermodynamics and mechanisms underlying how these important macromolecules interact with each other. Spectroscopic determination of nucleic acid and protein structures, and reactions using techniques such as nuclear magnetic resonance spectroscopy, mass spectrometry and x-ray diffraction.

5453 Advanced Inorganic Chemistry
(3-0) 3 hours credit. Prerequisite: CHE 4463 or equivalent.
Modern theories of chemical bonding, structure of inorganic compounds, reaction mechanisms, cluster compounds, organometallic chemistry, and bioinorganic chemistry. (Formerly CHE 5133. Credit cannot be earned for both CHE 5453 and CHE 5133.)
5643  **Advanced Organic Chemistry**  
(3-0) 3 hours credit. Prerequisites: 8 semester credit hours each of undergraduate organic chemistry and physical chemistry or graduate standing in chemistry.  
An advanced study of topics in organic chemistry such as stereochemistry, conformational analysis, nonbenzenoid, aromaticity, molecular orbital theory, and organic reaction mechanisms. Applications of these concepts to the structure and reactivity of biomolecules such as peptides and proteins, nucleic acids, and carbohydrates. (Formerly CHE 5113. Credit cannot be earned for both CHE 5643 and CHE 5113.)

5833  **Computational Chemistry**  
(3-0) 3 hours credit. Prerequisites: CHE 3824 and CHE 3831, or equivalents.  
The application of molecular mechanical, molecular orbital, and density functional methods to problems of molecular structure, property, reactivity, and spectroscopy. (Formerly CHE 7843. Credit cannot be earned for both CHE 5833 and CHE 7843.)

5843  **Advanced Physical Chemistry**  
(3-0) 3 hours credit. Prerequisites: CHE 3824 and CHE 3831, or equivalents.  
An advanced study of group theory, and its application to molecular orbital theory, electronic/vibrational/rotational spectroscopy, and chemical reactivity.

5912  **Introduction to Chemical Research**  
(0-6) 2 hours credit. Prerequisite: Graduate standing in Chemistry.  
Participation in various research laboratories (3-lab rotation) throughout the semester to become familiar with the ways research is formulated and carried out. One month will be spent in each of three different laboratories attending all group meetings and research colloquia associated with the research group. The grade report for the course is either “CR” (satisfactory performance) or “NC” (unsatisfactory performance) and will be based on attendance.

5923  **Teaching and Research Practice and Ethics**  
3 hours credit. Prerequisites: Graduate standing in Chemistry and concurrent designation as a teaching assistant in the Chemistry program or consent of instructor.  
The course is designed to improve the instructional effectiveness of graduate students teaching at the college level. The course will cover, but is not limited to, board-work, clear speech, teacher-student interaction, professional responsibilities, course content and pace, grading policy, quiz writing, sensitivity training to student needs, information on technical support, and guest lecturers on special topics. Research ethics will be discussed based on case studies. The grade report for the course is either “CR” (satisfactory performance) or “NC” (unsatisfactory performance).

5981  **Graduate Seminar in Chemistry**  
(0-3) 1 hour credit. Prerequisite: Graduate standing in Chemistry or consent of the Graduate Advisor of Record.  
Current research and literature seminars presented by faculty, visiting lecturers, and doctoral candidates. Students in the Doctoral chemistry program must register every semester while in residence, but only 8 hours will apply toward the Doctoral degree.

6603  **Introduction to Polymer Chemistry**  
(3-0) 3 hours credit. Prerequisite: Consent of graduate student advisor.  
Fundamental concepts of polymer chemistry, including mechanisms for synthesis, kinetics, and copolymerization; molecular weight, stereoisomerism, morphology, solubility, and thermal transitions; visco- and rubber elasticity; and the molecular basis for physical properties.

6863  **NMR Spectroscopy**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
A lecture course with demonstrations dealing with the basic theory and applications of one- and two-dimensional nuclear magnetic resonance spectroscopy, including the interpretation of spectra. The parameters and the pulse sequences for various types of NMR experiments and explanations of how molecular structural information can be obtained will be presented.
6883  **Mass Spectrometry**  
(2-3) 3 hours credit. Prerequisite: Consent of instructor.  
The basic principles of interpreting mass spectra and how they are produced. The effect the method of ion production has on the observed mass spectra, and the theory and operation of various types of mass spectrometers will be covered. The basic theory of ion-molecule reactions and other advanced topics will be presented.

6903  **Progress in Chemistry – Master’s**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for a specialized study of current aspects of chemistry not normally available as part of the regular course offerings. The course may be repeated for credit, but not more than 6 hours may be applied to the Master’s degree.

6951-3  **Independent Study**  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6961  **Comprehensive Examination**  
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee.  
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6973  **Special Problems**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when the topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

6983  **Master’s Thesis**  
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.  
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

6991-8  **Directed Research**  
1 to 8 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
The directed research course may involve either a laboratory or a theoretical problem. Normally a written report is required. May be repeated for credit, but not more than 6 hours or 18 hours, regardless of discipline, will apply to the Master’s degree or Doctoral degree, respectively. (Formerly CHE 5973.)

7263  **Recent Advances in Bioanalytical Chemistry**  
(3-0) 3 hours credit. Prerequisites: Consent of instructor and Graduate Advisor of Record.  
A survey of modern analytical techniques used in studies of biological interest from both theoretical and practical perspectives.

7403  **Bioinorganic Chemistry**  
(3-0) 3 hours credit. Prerequisite: CHE 4303 or CHE 4463, or equivalent.  
Study of the functions, reaction sites, mechanisms, molecular architecture, and medicinal aspects of metal ions in biological systems including bioorganometallic compounds. A discussion of the experimental techniques will be included.
7433 Organometallic Chemistry  
(3-0) 3 hours credit. Prerequisite: CHE 4463 or equivalent. 
Preparation, bonding and reactivity of organometallic compounds, both main group and transition metals.

7603 Bioorganic Chemistry  
(3-0) 3 hours credit. Prerequisite: CHE 2623 or consent of instructor. 
Chemical transformations of biologically important organic compounds; examination of enzyme active sites. Discussion of theories of catalysis, stereochemistry, electron-transfer, and molecular structure in the context of biological systems.  
(Formerly CHE 5503. Credit cannot be earned for both CHE 7603 and CHE 5503.)

7623 Methods of Organic Synthesis  
(3-0) 3 hours credit. Prerequisite: CHE 2623 or consent of instructor. 
A study of modern methods of organic functional group transformation, simple carbon skeleton construction, asymmetric synthesis, introduction to the synthon concept and to retrosynthetic analytical methodology for designing rational synthetic approaches to complex organic molecules of biological interest.  
(Formerly CHE 6123. Credit cannot be earned for both CHE 7623 and CHE 6123.)

7673 Advanced Topics in Medicinal Chemistry  
(3-0) 3 hours credit. Prerequisites: Consent of instructor and Graduate Advisor of Record. 

7683 Topics in the Chemistry of Natural Products  
(3-0) 3 hours credit. Prerequisites: CHE 5643 and CHE 7623. 
Selected topics in the chemistry and biochemistry of natural products and related compounds of biological and medicinal interest. Course may be repeated for credit when topics vary, but not more than 6 hours may apply to the Doctoral degree.  
(Formerly CHE 6183. Credit cannot be earned for both CHE 7683 and CHE 6183.)

7813 Molecular Thermodynamics  
(3-0) 3 hours credit. Prerequisite: CHE 5843. 
A molecular approach to the study of the physiochemical properties of gases, liquids, and solids.  
(Formerly CHE 5213. Credit cannot be earned for both CHE 7813 and CHE 5213.)

7823 Chemical Kinetics and Dynamics  
(3-0) 3 hours credit. Prerequisite: CHE 5843. 
An advanced study of topics in chemical kinetics and dynamics.  
(Formerly CHE 5223. Credit cannot be earned for both CHE 7823 and CHE 5223.)

7833 Quantum Chemistry  
(3-0) 3 hours credit. Prerequisite: CHE 5843. 
The application of quantum mechanical methods to many-body chemical systems.  
(Formerly CHE 5243. Credit cannot be earned for both CHE 7833 and CHE 5243.)

7853 Biophysical Chemistry  
(3-0) 3 hours credit. Prerequisite: CHE 5843. 
The study of the structure/function relations of proteins, nucleic acids, membranes, and other macromolecular biomolecules using spectroscopic methods.  
(Formerly CHE 5513. Credit cannot be earned for both CHE 7853 and CHE 5513.)

7903 Progress in Chemistry – Doctoral  
(3-0) 3 hours credit. Prerequisite: Consent of instructor. 
An organized course offering the opportunity for a specialized study of current aspects of chemistry not normally available as part of the regular course offerings. The course may be repeated for credit, but not more than 6 hours may be applied to the Doctoral degree.
Chemistry Research Colloquium
1 hour credit. Prerequisite: Graduate standing in Chemistry.
Discussions of current journal articles, reviews, and recent advances in specialized areas of chemistry (including current research progress of students). May be repeated for credit as topics vary. The grade report for this course is either “CR” (satisfactory participation in the colloquium) or “NC” (unsatisfactory participation in the colloquium).

Doctoral Research
1 to 8 hours credit. Prerequisite: Graduate standing in Chemistry.
Doctoral research and preparation. May be repeated for credit, but not more than 23 hours will apply to the Doctoral degree. Enrollment in either CHE 7921-8 or CHE 7931-8, depending on progress, is required each term in which the dissertation is in progress.

Doctoral Dissertation
1 to 8 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and dissertation director.
Preparation and writing of the Doctoral dissertation. May be repeated for credit, but not more than 12 hours will apply to the Doctoral degree. Enrollment in either CHE 7921-8 or CHE 7931-8, depending on progress, is required each term in which the dissertation is in progress.

Special Problems
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when the topics vary, but not more than 6 hours, regardless of discipline, will apply to the Doctoral degree.
DEPARTMENT OF COMPUTER SCIENCE

Master of Science Degree in Computer Science

The Master of Science (M.S.) degree in Computer Science offers integrated studies involving software and hardware. A thesis option is available for students who wish to obtain research experience. The Department of Computer Science also offers a Concentration in Computer and Information Security and a Concentration in Software Engineering as part of the Master of Science degree.

The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 4, Master’s Degree Regulations).

Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, a Bachelor of Arts or Bachelor of Science degree in Computer Science equivalent to that offered by UTSA is required. Students who do not qualify for unconditional admission may be admitted on a conditional basis. Students who are admitted on a conditional basis may be required to complete specific undergraduate courses as conditions of admission. If such courses are listed as deficiencies, they will not count toward the graduate degree. In such cases, students should anticipate that additional time will be required to complete the degree.

Degree Requirements. Candidates for the degree are required to successfully complete a minimum of 36 semester credit hours of graduate coursework as described in the program of study.

Program of Study

A. Core courses (12 semester credit hours):
   
<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 5363</td>
<td>Programming Languages and Compilers</td>
</tr>
<tr>
<td>CS 5513</td>
<td>Computer Architecture</td>
</tr>
<tr>
<td>CS 5523</td>
<td>Operating Systems</td>
</tr>
<tr>
<td>CS 5633</td>
<td>Analysis of Algorithms</td>
</tr>
</tbody>
</table>

B. Electives (18 semester credit hours):

   Students must complete at least 18 semester credit hours of additional eligible graduate courses, 12 hours of which must be in the Department of Computer Science. With prior approval of the Graduate Advisor of Record, students may apply a maximum of 6 hours of graduate courses from other disciplines to the degree.

C. Master’s thesis or additional electives (6 semester credit hours):

   Students must either write a Master’s thesis and enroll in a minimum of 6 semester credit hours of CS 6981-3 Master’s Thesis or complete 6 hours of additional graduate coursework in the Department of Computer Science.

D. Final oral examination:

   Students must pass a final comprehensive oral examination for completion of the degree program.

Concentration in Computer and Information Security

This concentration gives an overview of issues in computer and information security along with detailed technical experience in several specialty areas. All students pursuing this concentration must fulfill the degree requirements for the Master of Science in Computer Science. As part of the electives for the degree, students must take the following course:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 5323</td>
<td>Principles of Computer and Information Security</td>
</tr>
</tbody>
</table>
and 2 courses selected from the following list:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 5343</td>
<td>Developing Secure Systems and Software</td>
</tr>
<tr>
<td>CS 6353</td>
<td>Unix and Network Security</td>
</tr>
<tr>
<td>CS 6373</td>
<td>Applied Cryptography</td>
</tr>
<tr>
<td>CS 6393</td>
<td>Advanced Topics in Computer Security</td>
</tr>
</tbody>
</table>

**Concentration in Software Engineering**

This concentration gives students a broad knowledge of current theories, models, and techniques in software engineering to provide a basis for problem identification and analysis, software design, development, implementation, verification, and documentation. All students pursuing this concentration must fulfill the degree requirements for the Master of Science in Computer Science. As part of the electives for the degree, students must take the following course:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 5103</td>
<td>Software Engineering</td>
</tr>
</tbody>
</table>

and 2 courses selected from the following list:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 5123</td>
<td>Software Testing and Quality Assurance</td>
</tr>
<tr>
<td>CS 5153</td>
<td>User Interfaces and Usability</td>
</tr>
<tr>
<td>CS 5343</td>
<td>Developing Secure Systems and Software</td>
</tr>
<tr>
<td>CS 6133</td>
<td>Software Specification and Verification</td>
</tr>
<tr>
<td>CS 6193</td>
<td>Advanced Topics in Software Engineering</td>
</tr>
</tbody>
</table>

**Doctor of Philosophy Degree in Computer Science**

The Department of Computer Science offers advanced coursework and research leading to the Doctor of Philosophy (Ph.D.) degree in Computer Science. Successful Ph.D. candidates must demonstrate an in-depth knowledge of computer science and must deliver an original contribution to the field.

The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 5, Doctoral Degree Regulations).

**Admission Requirements.** The minimum requirements for admission to the Doctoral degree program in Computer Science in addition to University-wide graduate admission requirements are as follows:

- a B.A., B.S., or M.S. degree in computer science or a related area;
- the Graduate Record Examination (GRE) general test—verbal, math, and analytical sections. The GRE computer science subject test is strongly recommended but not required. When GRE scores are used to determine admission, applicants will be compared to applicants with similar socioeconomic backgrounds; and
- three letters of recommendation attesting to the applicant’s readiness for doctoral study.

Admission is competitive. Satisfying the minimum requirements does not guarantee admission. An application should also include a résumé and a statement of research experience and interest. Applicants will automatically be considered for scholarships, and teaching and research assistantships.

**Degree Requirements.** Candidates for the degree are required to successfully complete a minimum of 90 semester credit hours of graduate coursework as described in the program of study.
Program of Study

A.  Core courses (12 semester credit hours):

   CS 5363  Programming Languages and Compilers
   CS 5513  Computer Architecture
   CS 5523  Operating Systems
   CS 5633  Analysis of Algorithms

B.  Electives (18 semester credit hours):

   Students must complete at least 18 semester credit hours of additional eligible, organized graduate courses in the Department of Computer Science.

C.  Computer science research (42 semester credit hours minimum):

   CS 7123  Research Seminar (6 semester credit hours minimum)
   CS 7211-6  Doctoral Research (18 semester credit hours minimum)
   CS 7311-6  Doctoral Dissertation (18 semester credit hours minimum)

D.  Flexible Electives (18 semester credit hours):

   Students must complete an additional 18 semester credit hours selected from organized graduate courses, independent study, research seminar, doctoral research and doctoral dissertation. With prior approval of the Graduate Advisor of Record, students may apply a maximum of 6 hours of graduate courses from other disciplines to the degree.

Transfer of Credit. Students may transfer prior graduate study up to 30 semester credit hours from another institution toward the Doctor of Philosophy degree in Computer Science with the approval of the Graduate Studies Committee. Each student’s transcript will be evaluated by the Graduate Studies Committee, and credit will be determined on a course-by-course basis to satisfy the requirements of the degree.

Advancement to Candidacy. Students seeking a doctoral degree must be admitted to candidacy. The requirements for admission to candidacy include passing a Doctoral Qualifying Examination and a Doctoral Dissertation Proposal Examination. Students should consult the University’s Doctoral Degree Regulations (Chapter 5 of this catalog) for other requirements.

Qualifying Examination. The Doctoral Qualifying Examination is scheduled at the beginning of each Fall and Spring Semester. Full-time doctoral students must take the qualifying examination by the beginning of their third semester. Students who fail their first attempt are allowed to make a second attempt on the next qualifying examination date. No more than two attempts to pass the qualifying examination are permitted. After a student has passed the qualifying examination, the student must select a doctoral advisor and register for CS 7211-6 Doctoral Research every semester until the student passes the Doctoral Dissertation Proposal Examination.

Doctoral Dissertation Proposal Examination. After a student has passed the qualifying examination and has made progress in doctoral research, the next step is the Doctoral Dissertation Proposal. The student has to form a Dissertation Committee chaired by the student’s doctoral advisor and prepare a written proposal for a dissertation topic. The Dissertation Committee will conduct an oral examination during which the student presents the dissertation proposal. The presentation is followed by a period of questioning based on the dissertation proposal. Unanimous approval of the Dissertation Committee is required to pass the oral examination. No more than two attempts to pass the oral examination will be permitted. After a student has passed the Doctoral Dissertation Proposal Examination, the student must register for CS 7311-6 Doctoral Dissertation every semester until the student completes the degree.
**Doctoral Dissertation and Final Oral Examination.** After a student has passed the Doctoral Dissertation Proposal Examination, the next steps are writing a dissertation and passing the Final Oral Examination. The Final Oral Examination is administered and evaluated by the student’s Dissertation Committee and covers the dissertation and the general field of the dissertation. The Final Oral Examination consists of an open presentation of the dissertation followed by an oral examination. Unanimous approval of the Dissertation Committee is required to pass the Final Oral Examination. Also, the dissertation must be unanimously approved by the Dissertation Committee.

**COURSE DESCRIPTIONS**

**COMPUTER SCIENCE**

(CS)

5053 **Computing and the World Wide Web**

(3-0) 3 hours credit.

An introduction to computer applications and the World Wide Web for non-computer scientists. Cannot be applied to the Master of Science degree or the Doctor of Philosophy degree in Computer Science. (Credit cannot be earned for both CS 5053 and CS 5003.)

5063 **Computers for Teachers**

(3-0) 3 hours credit. Prerequisite: Some programming experience.

Modern approaches to computing and program design in an object-oriented programming language such as Java. Emphasis in this course is on the design and implementation of computer-based solutions to problems in a variety of application areas. Curriculum materials and teaching strategies will be developed for teaching these concepts at the high school level. Cannot be applied to the Master of Science degree in Computer Science or the Doctor of Philosophy degree in Computer Science. (Formerly CS 5023. Credit cannot be earned for both CS 5063 and CS 5023.)

5073 **Advanced Topics for Teachers**

(3-0) 3 hours credit. Prerequisite: CS 5063 or an equivalent.

A formal and in-depth study of algorithms, data structures, and abstraction using an object-oriented language such as Java. Curriculum materials and teaching strategies will be developed for teaching these topics. Large programs such as case studies will be used to present some of these topics along with examples of how to use a case study in the high school curriculum. Cannot be applied to the Master of Science degree in Computer Science or the Doctor of Philosophy degree in Computer Science.

5083 **Computer-based Multimedia for Teachers**

(3-0) 3 hours credit. Prerequisite: CS 5053 or an equivalent.

Creation and use of multimedia to enhance student learning. Emphasis in this course is on designing and creating Web-based multimedia resources to illustrate and clarify difficult concepts. Existing graphical software packages will be used to accomplish the creation of instructional multimedia materials. Cannot be applied to the Master of Science degree in Computer Science or the Doctor of Philosophy degree in Computer Science.

5103 **Software Engineering**

(3-0) 3 hours credit. Prerequisite: CS 4773 or software development experience.

Introduction to methods and tools for the requirements analysis and design stages of software life cycles. Discussion of software requirements including elicitation, modeling notations, analysis, and documentation. Brief overview of process models and project management. Examination of major architectural styles in existing software systems, design methods, design patterns, and reverse engineering. Course will include design experience using CASE tools.

5113 **Computer Graphics**

(3-0) 3 hours credit. Prerequisites: CS 3343 and MAT 2233.

The course covers interactive 3-D computer graphics, polygonal representations of 3-D objects, boolean operations, interactive lighting models, interactive texture mapping, shadow generation as well as image-based techniques such as stencils, hidden-line removal, silhouette edges, rendering and global illumination.
5123  **Software Testing and Quality Assurance**  
(3-0) 3 hours credit. Prerequisite: CS 4773 or software development experience.  
Introduction of testing techniques for software systems: unit testing, integration testing, system testing, acceptance  
testing, and regression testing; test plan and test case design; quality assurance; verification and validation.

5153  **User Interfaces and Usability**  
(3-0) 3 hours credit. Prerequisite: CS 4773 or software development experience.  
This course focuses on the development of high-quality user interfaces. The course reviews the basics of user interface  
development, tools, and use-case driven design techniques; examines the elements of good design and usability,  
metrics for usability, and procedures for user testing.

5233  **Artificial Intelligence**  
(3-0) 3 hours credit. Prerequisite: CS 3343.  
This course covers the construction of programs that use knowledge representation and reasoning to solve problems.  
Major topics include informed search, logical and probabilistic inference, machine learning, planning, and natural  
language processing.

5253  **Expert Systems**  
(3-0) 3 hours credit. Prerequisite: CS 5233.  
This course presents an in-depth study of the area of artificial intelligence known as expert systems. Example expert  
systems are examined as a means of identifying the generally accepted methodologies for developing such systems as  
well as the basic research issues involved.

5263  **Bioinformatics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing in Computer Science or consent of instructor.  
Introduction to bioinformatics. Problem areas such as sequence analysis and gene component analysis, structure  
prediction, gene ontology, phylogenetic inference, gene regulation, and pathway construction and analysis will be  
approached from a computational viewpoint.

5293  **Numerical Linear Algebra**  
(3-0) 3 hours credit. Prerequisite: MAT 3633 or an equivalent.  
Direct and iterative methods for solving general linear systems, the algebraic eigenvalue problem, least square  
problems, and solutions of sparse systems arising from partial differential equations. (Same as MAT 5293. Credit  
cannot be earned for both CS 5293 and MAT 5293.)

5323  **Principles of Computer and Information Security**  
(3-0) 3 hours credit. Prerequisites: CS 3733 and CS 3873.  
An introduction to the protection of computer systems and networks. Topics include authentication, access controls,  
malicious logic, formal security methods, assurance and trust in computer systems and networks, firewalls, auditing  
and intrusion detection, cryptography and information hiding, risk management, computer forensics, and ethics.

5343  **Developing Secure Systems and Software**  
(3-0) 3 hours credit. Prerequisite: CS 3733.  
An examination of methods for designing secure computer systems, networks, and software. Topics include the  
security development process, security policies and models, threat modeling, security code reviews and testing, the  
formal verification process, validation, and assessments.

5353  **Formal Languages, Automata, and Theory of Computation**  
(3-0) 3 hours credit. Prerequisites: CS 2233 and CS 3343.  
Formal models of computation and syntax such as Turing machines, finite automata, non-determinism, formal  
languages, regular and context free grammars, complexity classes and NP-completeness.
5363  Programming Languages and Compilers  
(3-0) 3 hours credit. Prerequisites: CS 2233 and CS 3343.  
A study of programming languages with an emphasis on their implementation. Topics include lexical analysis, language syntax, control structures, the binding of names, procedures, and their implementation in compilers.

5443  Database Management Systems  
(3-0) 3 hours credit. Prerequisite: CS 3743.  
Design and implementation of database management systems. Topics include storage management, query optimization, concurrency control, crash recovery, integrity, and security in relational databases, object-oriented databases, object-relational databases, parallel databases, and distributed databases.

5513  Computer Architecture  
(3-0) 3 hours credit. Prerequisites: CS 3733 and CS 3853.  
Study of modern computer architecture, including parallel computers, multiprocessors, pipelines, and fault tolerance.

5523  Operating Systems  
(3-0) 3 hours credit. Prerequisites: CS 3733 and CS 3853.  
Operating systems concepts with an emphasis on distributed systems. Topics include process management and threads, inter-process communication, distributed objects and remote invocation, distributed naming and directory services, distributed file systems, middleware such as CORBA, access control and security.

5603  Numerical Analysis  
(3-0) 3 hours credit. Prerequisite: MAT 3633 or consent of instructor.  
Emphasis on the mathematical analysis of numerical methods. Areas of study include solution of nonlinear equations and function optimization, approximation theory, and numerical quadrature. (Same as MAT 5603. Credit cannot be earned for both CS 5603 and MAT 5603.)

5623  Simulation Techniques  
(3-0) 3 hours credit. Prerequisites: CS 2123 and any statistics course.  
This course introduces discrete-event simulation techniques, statistical models in simulation, random number generation, input modeling, output analysis and comparisons, and verification and validation of simulation models.

5633  Analysis of Algorithms  
(3-0) 3 hours credit. Prerequisite: CS 3343.  
Models of computation and algorithm design and analysis techniques such as divide-and-conquer, greedy algorithms, dynamic programming, graph algorithms, amortized analysis.

5971-6  Directed Research  
1 to 6 hours credit. Prerequisites: Graduate standing in Computer Science and permission in writing (form available) of the instructor and the Graduate Advisor of Record.  
The directed research course may involve either a laboratory or a theoretical problem. May be repeated for credit, but not more than 6 hours of CS 5971-6 and CS 6953, regardless of discipline, will apply to a degree. This course will not apply to the Ph.D. degree.

6103  Distributed Software Development  
(3-0) 3 hours credit. Prerequisites: CS 5103 and CS 5523.  
Development and management of distributed software, including cooperative tools and CASE. The course considers the aspects of managing the configuration of software during its life cycle. Topics include identification, control, auditing, and status accounting. Simulation of a configuration control board process.

6133  Software Specification and Verification  
(3-0) 3 hours credit. Prerequisite: CS 5103.  
This course introduces the theory and practice of formal methods for the specification and verification of computer-based systems. It emphasizes various techniques for modeling behavior of sequential and concurrent systems and reasoning about properties of models using automated analysis tools.
6193 **Advanced Topics in Software Engineering**  
(3-0) 3 hours credit. Prerequisite: CS 5103.  
Advanced topics in an area of software engineering. Topics may include but are not limited to agile software development, model-driven software development, designing embedded and real-time software, empirical software engineering, re-engineering and software maintenance, and client/server development using open source tools. May be repeated for credit when topics vary.

6243 **Machine Learning**  
(3-0) 3 hours credit. Prerequisite: CS 5233 or CS 5633.  
This course studies machine learning techniques in the area of artificial intelligence. Topics include inductive learning, unsupervised learning, speedup learning, and computational learning theory.

6253 **Neural Networks**  
(3-0) 3 hours credit. Prerequisite: CS 5233 or CS 5633.  
Analysis of neural networks. Topics selected from biological nervous systems and learning, threshold logic units, perceptrons, spatial and temporal associative memories, Hopfield nets, backpropagation, Boltzmann machines, Kohonen networks, the Neocognitron, and mathematical models of neural systems. Advanced topics include neural network design, competitive learning, the CMAC model, adaptive resonance theory, bidirection associative memories, Kanerva self-propagating search, advanced simulated annealing, neurocomputer implementations, and advanced genetic algorithms.

6293 **Advanced Topics in Bioinformatics**  
(3-0) 3 hours credit. Prerequisite: CS 5263.  
Advanced topics in bioinformatics. Topics may include but are not limited to efficient combinatorial algorithms for manipulating sequences, data mining techniques for biological data, biological imaging, and structural bioinformatics. May be repeated for credit when topics vary.

6353 **Unix and Network Security**  
(3-0) 3 hours credit. Prerequisite: CS 5323.  
A technical survey of the fundamentals of computer and information security as it relates to networks and the UNIX operating system. Issues include authentication, common and advanced attack techniques for both the OS and networks, defensive strategies, intrusion detection, scan techniques and detection, forensics, denial of service techniques and defenses, libpcap, libdnet and libnet programming.

6363 **Advanced Compiler Construction**  
(3-0) 3 hours credit. Prerequisite: CS 4713 or CS 5363.  
Areas of study include code generation techniques for vector machines and multiprocessors, implementation of higher-level imperative and functional languages, and run-time system support for distributed programming languages.

6373 **Applied Cryptography**  
(3-0) 3 hours credit. Prerequisite: CS 5323.  
A course in applied cryptography with an emphasis on applying cryptographic techniques to solve real-world problems. Topics include a review of cryptographic primitives such as symmetric and asymmetric (public-key) cryptosystems, digital signatures, pseudo-random sequences, and hash functions. An emphasis will be placed on utilizing advanced protocols to solve problems such as key management in various environments and applications.

6393 **Advanced Topics in Computer Security**  
(3-0) 3 hours credit. Prerequisite: CS 5323.  
Analysis of computer security. The topics may include but are not limited to database and distributed systems security, formal models for computer security, privacy and ethics, intrusion detection, critical infrastructure protection, network vulnerability assessments, wireless security, trusted computing, and highly dependable systems. May be repeated for credit when topics vary.
6453 Advanced Database Systems  
(3-0) 3 hours credit. Prerequisite: CS 5443.  
Design and implementation of advanced database systems. Topics include data models, storage management, query optimization, transaction processing, integrity, security, and performance evaluation of emerging new database systems. Current database research topics will be explored.

6463 Advanced Topics in Computer Science  
(3-0) 3 hours credit. Prerequisites: Graduate standing in Computer Science and consent of instructor.  
Advanced topics in an area of computer science. May be repeated for credit when topics vary.

6513 Advanced Architecture  
(3-0) 3 hours credit. Prerequisites: CS 5513 and CS 5523.  
Areas of study include advanced architectures, including massively parallel and distributed systems. Issues of communication, fault tolerance, and performance are addressed.

6523 Distributed Operating Systems  
(3-0) 3 hours credit. Prerequisites: CS 5513 and CS 5523.  
Distributed operating systems issues, including migration, naming, reliability, security, resource allocation, and scheduling are addressed in heterogeneous and homogeneous systems. Time-critical data such as video and audio are considered.

6533 Multimedia Systems  
(3-0) 3 hours credit. Prerequisite: CS 5523.  
A course on the organization and structure of modern multimedia systems. Topics include image and video compression, quality of service concepts, network support for multimedia, operating systems support for multimedia, streaming video over the Internet and security issues in multimedia systems.

6543 Networks  
(3-0) 3 hours credit. Prerequisite: CS 5523.  
This course introduces the underlying concepts and principles of modern computer networks, with emphasis on protocols, architectures and implementation issues in the Internet.

6553 Performance Evaluation  
(3-0) 3 hours credit. Prerequisites: CS 5513 and CS 5523.  
This course introduces analytical modeling, simulation analysis, and experimental evaluation of computer systems and networks. Particular emphasis will be placed on the analysis and design of medium- to large-scale distributed computer systems and networks.

6613 Parallel Numerical Methods and Software  
(3-0) 3 hours credit. Prerequisites: CS 5603 and CS 6643.  
The major goal of this course is to introduce students to the methods, tools, and ideas of parallel numerical computation. Important scientific application development and the basic methods for their solutions are addressed. Relevant mathematical software is reviewed, and its use is outlined. Extensive examples and case studies are given. Techniques for constructing parallel numerical software are studied.

6643 Parallel Processing  
(3-0) 3 hours credit. Prerequisite: CS 5513.  
Parallel models of computation, performance measurement, and modeling of parallel algorithms and application studies on parallel computers.
6653  Parallel Algorithms
(3-0) 3 hours credit. Prerequisites: CS 5513 and CS 5633.
Theoretical analysis of parallel algorithms and models. Studies of the fastest and most efficient parallel algorithms for a variety of problems. Emphasis is on fundamental results and techniques and on rigorous analysis of algorithmic performance. The structures and mapping relationships between the dominant network architectures and algorithms are also covered.

6723  Image Processing
(3-0) 3 hours credit. Prerequisites: CS 5633 and MAT 2233 or an equivalent.
Topics include image acquisition, enhancement, transformations, filters, compression, segmentation and edge detection, morphology, and recognition.

6953  Independent Study
3 hours credit. Prerequisites: Graduate standing in Computer Science and permission in writing (form available) of the instructor and the Graduate Advisor of Record.
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours of CS 5971-6 and CS 6953, regardless of discipline, will apply to a degree.

6961  Comprehensive Examination
1 hour credit. Prerequisite: Approval of the Graduate Program Committee to take the Comprehensive Examination.
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6973  Special Problems
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to a degree.

6981-3  Master’s Thesis
1 to 3 hours credit. Prerequisite: Consent of thesis advisor.
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

7123  Research Seminar
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
Presentation and analysis of literature in a selected area of research. May be repeated, a minimum of 6 hours is required for the Doctoral degree.

7211-6  Doctoral Research
1 to 6 hours credit. Prerequisite: Successful completion of the Doctoral Qualifying Examination.
May be repeated, a minimum of 18 hours is required for the Doctoral degree.

7311-6  Doctoral Dissertation
1 to 6 hours credit. Prerequisite: Admission to candidacy for the Doctoral degree.
May be repeated, a minimum of 18 hours is required for the Doctoral degree.
DEPARTMENT OF GEOLOGICAL SCIENCES

Master of Science Degree in Geology

The Master of Science degree program in Geology offers opportunities for advanced study and research designed to prepare students for roles in industry, government, research institutes, or educational institutions.

Program Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, applicants are expected to have completed an undergraduate degree in geology (equivalent to UTSA’s) or a bachelor’s degree in chemistry, physics, mathematics, computer science, life sciences, or engineering from an accredited institution of higher education. Background or remedial courses may be required to remove deficiencies. Applicants lacking these requirements will be asked to complete the deficiencies within the first 12 credit hours. Applicant’s evaluations will be considered on a case-by-case basis.

Applicants must submit three letters of recommendation from persons familiar with the applicant’s academic record, a personal statement of research interest, undergraduate transcripts, and scores from the Graduate Record Examination (GRE). When GRE scores are used to determine admission, applicants will be compared to applicants with similar socioeconomic backgrounds. All supporting documents should be sent to the Graduate School. Incomplete applications will not be considered until all required items are in an applicant’s file.

The Graduate Studies Committee, comprised of members selected from the graduate faculty, will be responsible for recommending acceptance into the program and will take the lead in advising students. Some teaching assistantships, research assistantships, or research fellowships are available, but require a separate application; requests should be addressed to the Chair, Department of Geological Sciences.

Thesis Option in Geology

Degree Requirements. The Master of Science degree in Geology requires the successful completion of a minimum of 33 semester credit hours.

Thesis Option Requirements. All candidates for the Master of Science in Geology with thesis option must complete a minimum of 9 semester credit hours of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 5103</td>
<td>Current Topics in the Geosciences</td>
<td>3 hours</td>
</tr>
<tr>
<td>GEO 6983</td>
<td>Master’s Thesis</td>
<td>6 hours</td>
</tr>
</tbody>
</table>

A minimum of 24 semester credit hours of graduate credit in organized classes with the approval of the Graduate Advisor of Record is also required. This may include up to 6 hours of GEO 6953 Independent Study. Under special circumstances, students may take up to 6 semester credit hours of upper-division undergraduate coursework in the College of Sciences or College of Engineering with approval of the Graduate Advisor of Record. Candidates for the Master of Science degree electing the thesis option must also pass a final oral comprehensive examination. Candidates in the thesis option must successfully defend their thesis before their Graduate Committee. The thesis defense will take two to three hours to complete. The thesis defense is normally scheduled in the last semester before the degree requirements are to be completed. Part of the thesis defense will be a public presentation in an open, advertised forum.

Nonthesis Option in Geology

Degree Requirements. The Master of Science degree in Geology requires the successful completion of a minimum of 39 semester credit hours.

Nonthesis Option Requirements. A nonthesis option is available for those who want the opportunity to earn the Master of Science degree in Geology primarily through organized coursework. Nonthesis students should consult the Graduate Advisor.
of Record on their program of study during the first semester of residence. Candidates are required to complete a minimum of 9 semester credit hours of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 5103</td>
<td>Current Topics in the Geosciences</td>
<td>3</td>
</tr>
<tr>
<td>GEO 5973</td>
<td>Directed Research</td>
<td>3</td>
</tr>
<tr>
<td>GEO 6953</td>
<td>Independent Study</td>
<td>3</td>
</tr>
</tbody>
</table>

An additional 30 semester hours of graduate credit as approved by the Graduate Advisor of Record is required. Under special circumstances, students may take up to 6 semester credit hours of approved upper-division undergraduate coursework within the College of Sciences or College of Engineering with approval of the Graduate Advisor of Record. Candidates are required to pass a written comprehensive examination that covers several major areas of geology. This examination is taken after student has completed at least 30 semester credit hours of coursework. If GEO 6961 Comprehensive Examination is taken, it does not contribute toward the 39-semester-credit-hour minimum.

**Graduate Committee.** As specified by University regulations, candidates for the Master of Science degree must have a Graduate Committee. The Committee will be chaired by the student’s graduate advisor and will consist of a minimum of two other members. The Committee should be appointed in the first semester of the student’s graduate program. Each student must decide if they are going to complete the thesis or nonthesis option because that will determine the type of committee appointed. Certain rules must be adhered to concerning the composition of the Master’s Thesis or Nonthesis Committee. Only tenured or tenure-track faculty members can chair these committees, and no more than one member can be a nontenure-track faculty member or be from another institution.

**Comprehensive Examination.** Candidates for the Master of Science degree must pass a comprehensive examination administered by their Graduate Committee. The student should normally schedule this examination the semester before the degree requirements are to be completed. The student’s Graduate Committee will determine the content of the examination. Normally, the examination will consist of academic material that the student is expected to have mastered during his or her course of study. The examination may only be taken twice. If it is not passed the first time, it may be scheduled again in the following semester.

**Certificate of Professional Development in Geographic Information Science**

The purpose of the Professional Certificate in Geographic Information Science is to create individuals from a broad range of academic disciplines who are competent users of Geographic Information Science and the related tools of the Global Positioning System and Remote Sensing. Although the program is generally oriented towards geological sciences professionals, individuals with business, social science, medical, engineering, criminal science or education backgrounds will benefit from this professional certificate. Individuals completing this certificate will gain a practical and hands-on knowledge of Geographic Information Science. All courses taken in the Professional Certificate in Geographic Information Science program can be applied towards a Master’s degree in Geology.

**Description of Certificate Program.** The Certificate of Geographic Information Science is a 15-hour program. Degree-seeking, special graduate or non-degree-seeking students from any discipline at UTSA are allowed to complete the Certificate of Geographic Information Science program. Candidates for the certificate should ideally complete the program within one year, but not more than two years. Students will be assigned a Certificate Program Advisor from the Department of Geological Sciences for guidance in the program.

**Certificate Curriculum.** The following Geological Sciences courses addressing Geographic Information Science are required to complete the certificate program:

Doctor of Philosophy in Environmental Science and Engineering

UTSA offers a graduate-studies program leading to the Ph.D. degree in Environmental Science and Engineering. This program is administered by the Department of Civil and Environmental Engineering. Most of the participating graduate faculty are in the College of Sciences (including the Department of Geological Sciences) and College of Engineering (Department of Civil and Environmental Engineering); additional faculty in this interdisciplinary program are from other colleges. Please refer to page 231 of this catalog for details about this program.

COURSE DESCRIPTIONS
GEOLOGICAL SCIENCES
(GEO)

5023 Environmental Statistics
(3-0) 3 hours credit. Prerequisites: MAT 1033 and STA 1993 or their equivalents, or consent of instructor.
Introductory course in systems analysis emphasizing its application for the management of environmental and public systems. Problem formulation, mathematical modeling, and procedures are introduced through case studies that include energy consumption, soil contamination, leak detection, and air pollution. In these case studies, students become acquainted with quantitative governmental regulations formalized by the Environmental Protection Agency. Quantitative tools include exploratory data analysis, design of experiments, analysis of variance, regression analysis, and time series. Optimization techniques are taught within regression analysis. (Formerly EES 5023. Same as ES 5023. Credit can be earned for only one of the following: EES 5023, ES 5023, or GEO 5023.)

5033 Geographical Information Systems
(2-2) 3 hours credit.
Application of the computer to environmental planning and management problems through a Geographical Information System (GIS). Using the computer as a mapping device for query, analysis, creation and display of spatially related data. Additional topics include using the Global Positioning System (GPS) for data acquisition. (Formerly EES 5033 and ES 5033. Credit can be earned for only one of the following: EES 5033, ES 5033, or GEO 5033.)

5043 Global Change
(3-0) 3 hours credit. Prerequisite: Graduate standing in the program or consent of instructor.
Changes in the global distribution of plants and animals and the causes of the changes will be examined. Factors that are apparently coupled to changes in the atmosphere and environmental temperature will be examined. (Formerly EES 5043. Same as CE 6113 and ES 5043. Credit can be earned for only one of the following: CE 6113, EES 5043, ES 5043, or GEO 5043.)

5053 Remote Sensing
(2-2) 3 hours credit. Prerequisites: MAT 1073, and PHY 1603 or PHY 1943.
Fundamental remote sensing theory and technology will be introduced and emphasized as well as remote sensing applications to land surface, ocean, and atmosphere. Emphasis will be on the interaction of electromagnetic energy with the Earth’s surface and different types of remote sensing for data collection. (Formerly EES 5053 and ES 5053. Credit can be earned for only one of the following: EES 5053, ES 5053, or GEO 5053.)

5083 Remote Sensing Image Processing and Analysis
(2-2) 3 hours credit. Prerequisite: GEO 4093, or GEO 5053, or consent of instructor.
Fundamentals, algorithms, and techniques of remote sensing image processing, information extraction and analysis, including radiometric and geometric corrections, image enhancement, image sharpening, principal components analysis, image classification, spectral analysis, vectorization, integration with GIS, etc. (Formerly EES 5083. Credit cannot be earned for both EES 5083 and GEO 5083.)
5093  **Remote Sensing in Hydrology**
(2-2) 3 hours credit. Prerequisite: GEO 4093, or GEO 5053, or consent of instructor.
Apply remote sensing to derive parameters of surface hydrology and hydrometeorology such as precipitation, land surface temperature and emissivity, heat flux, evaporation, evapotranspiration, soil moisture, surface water, water quality, snow and ice, and soil erosion. The contents will also include radar hydrology, microwave techniques and mapping of soil moisture and precipitation, and remote sensing in hydrologic modeling. (Formerly EES 5093. Credit cannot be earned for both EES 5093 and GEO 5093.)

5103  **Current Topics in the Geosciences**
(3-0) 3 hours credit. Prerequisite: Graduate standing in geology or consent of instructor.
Evaluation of current research trends and methodology in the geosciences.

5223  **Advanced Environmental Geology**
(3-0) 3 hours credit. Prerequisites: GEO 4063 and ES 5213, or consent of instructor.
Study of the geology of the environment, with emphasis on the physical and social effects of catastrophic geologic processes. (Formerly EES 5223 and GEO 5203. Credit can be earned for only one of the following: EES 5223, GEO 5203, or GEO 5223.)

5303  **Petroleum Geology**
(3-0) 3 hours credit. Prerequisites: GEO 3103 and GEO 3153, or consent of instructor.
Integrated study of the generation, migration, and entrapment of petroleum. Survey of surface and subsurface geological and geophysical techniques for exploration and production. Case studies of petroleum systems including economic aspects of the petroleum industry.

5404  **Dynamics of Geomorphic Landscapes**
(3-3) 4 hours credit. Prerequisite: GEO 4113, or consent of instructor.
Mechanics of surficial processes and the landscapes they build. Application of geomorphic principles to select environmental issues. Field trips required. (Formerly EES 5304, EES 5404, and GEO 5304. Credit can be earned for only one of the following: EES 5304, EES 5404, GEO 5304, or GEO 5404.)

5414  **Fluvial Geomorphology**
(3-3) 4 hours credit. Prerequisite: GEO 5404, or consent of instructor.
Advanced examination of fluvial processes and landforms. Emphasis on open channel flow, sediment transport, channel form and adjustment, and floodplain formation. Field trips required. (Formerly EES 5414. Credit cannot be earned for both EES 5414 and GEO 5414.)

5424  **Landscape Evolution**
(3-3) 4 hours credit. Prerequisite: GEO 5404, or consent of instructor.
Introduction to modeling landscape evolution. Emphasis on interactions between climate tectonics, and geomorphic processes. (Formerly EES 5424. Credit cannot be earned for both EES 5424 and GEO 5424.)

5454  **Advanced Paleontology**
(3-3) 4 hours credit. Prerequisite: BIO 3063 or GEO 3153, or consent of instructor.
In-depth paleontological analyses of fossils from 1–3 taxonomic groups. Current scientific controversies and literature will be emphasized. Course may include a survey of cutting-edge research, definition and solution of a current unsolved problem, or the writing of a publishable research paper proposing a hypothesis to resolve that problem. Field trips required. (Formerly EES 5454. Credit cannot be earned for both EES 5454 and GEO 5454.)

5483  **Environmental Hydrogeology**
(3-0) 3 hours credit. Physical processes that control flow of water and chemical solutes through the hydrologic system, chemical and biological interactions that occur in the hydrologic system, and human impacts on water quality and quantity. (Formerly EES 5483. Credit cannot be for both EES 5483 and GEO 5483.)
5504  **Advanced Stratigraphy**  
(3-3) 4 hours credit. Prerequisites: GEO 3123 and GEO 3153, or consent of instructor. 
Chronologic study of stratigraphic systems, physical properties and facies, depositional and paleogeographic implications, correlation, nomenclature, and biostratigraphy. Sequence stratigraphy and seismic and log analyses are studied. Field trips required. (Formerly EES 5504. Credit cannot be earned for both EES 5504 and GEO 5504.)

5603  **Physical Hydrogeology**  
(3-0) 3 hours credit. Prerequisite: GEO 4623 with a grade of “C” or better, or consent of instructor. 
Geologic principles governing the flow of subsurface water with an emphasis on physical hydrogeology, interaction of surface and groundwater, hydrogeologic properties and their measurement, flow in the unsaturated zone, mass transport, evolution of aquifer systems, and an introduction to groundwater modeling. Field trips required. (Formerly EES 5603. Credit cannot be earned for both EES 5603 and GEO 5603.)

5713  **Groundwater Modeling**  
(3-0) 3 hours credit. Prerequisite: GEO 5603 or consent of instructor. 
Focus is on using MODFLOW code to model the occurrence and movement of groundwater. Course will discuss hydrogeologic data for modeling, modeling protocol, and MODFLOW packages. Multiple graphics-rich user model interfaces commonly used in groundwater science will be learned. Other computer programs for simulating groundwater flow may be included. (Formerly EES 5703 and EES 5713. Credit can be earned for only one of the following: EES 5703, EES 5713, or GEO 5713.)

5804  **Igneous-Metamorphic Petrology**  
(3-3) 4 hours credit. Prerequisites: GEO 3043, GEO 3052, GEO 3103, and GEO 3111, or consent of instructor. 
Origin and evolution of magmas. Origin and development of metamorphic grade, facies, and textures. Detailed study of igneous and metamorphic rock suites. Field trips required. (Formerly EES 5804. Credit cannot be earned for both EES 5804 and GEO 5804.)

5863  **Field Analysis of Complex Geologic Problems**  
(0-6) 3 hours credit. Prerequisites: GEO 4933 and GEO 4943, or an equivalent, and consent of instructor. 
Field study of an area of complex geology. Field mapping, written reports, and field trips are required. May be repeated for credit up to a maximum of 6 hours when topic varies. (Formerly EES 5853, EES 5863, and GEO 5853. Credit can be earned for only one of the following: EES 5853, EES 5863, GEO 5853, or GEO 5863.)

5894  **Advanced Structural Geology**  
(3-3) 4 hours credit. Prerequisites: GEO 3103 and GEO 3111, or consent of instructor. 
In-depth study of the various aspects of structural geology: stress and strain, behavior of materials, failure criteria, fault analysis, rheological properties of geologic materials, fold analysis, and subsurface analysis. Field trips required. (Formerly EES 5894. Credit cannot be earned for both EES 5894 and GEO 5894.)

5904  **Carbonate Petrology**  
(3-3) 4 hours credit. Prerequisites: GEO 3043, GEO 3052, GEO 3123, and GEO 3131, or consent of instructor. 
Thin-section analysis and hand-specimen study of carbonate sediment and rocks, carbonate classifications, carbonate facies, models, and carbonate diagenesis. Field trips required. (Formerly EES 5904. Credit cannot be earned for both EES 5904 and GEO 5904.)

5954  **Sandstone Petrology**  
(3-3) 4 hours credit. Prerequisites: GEO 3043, GEO 3052, GEO 3123, and GEO 3131, or consent of instructor. 
Thin-section analysis and hand-specimen study of clastic rocks, classifications, interpretation of provenance, clastic sedimentary facies, and clastic diagenesis. Field trips required. (Formerly EES 5954. Credit cannot be earned for both EES 5954 and GEO 5954.)
5971-3 Directed Research
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.
The directed research course may involve a laboratory, field-based, or theoretical problem. May be repeated for credit, but not more than 3 hours, regardless of discipline, will apply to the Master’s degree. (Formerly EES 5971-3.)

5991 Graduate Seminar in Geology
(1-0) 1 hour credit. Prerequisite: Graduate standing in geology or consent of the Graduate Advisor of Record.
Topical issues chosen by faculty and current research seminars presented by faculty, visiting lecturers, and Master’s degree candidates. May be repeated for credit but only 2 hours may be applied toward the Master’s degree. (Formerly EES 5991.)

6001 Seminar in Geochemistry and Isotope Geochemistry
(1-0) 1 hour credit.
Seminar will focus on literature review of cutting-edge research in geochemistry and isotope geochemistry, such as mantle geochemistry, evolution of mantle plumes, global climate and paleoclimate reconstructions, etc. (Formerly EES 6001.)

6183 Basin Analysis and Sedimentary Geology
(3-0) 3 hours credit.
An interdisciplinary integration of geodynamics, mathematical and physical modeling, and sedimentary geology. Emphasizes basin formation, nature and maturation of the basin fill, and timing of events. Case histories of various basins illustrate approaches. Field trips required. (Formerly EES 6183. Credit cannot be earned for both EES 6183 and GEO 6183.)

6203 Aqueous Geochemistry
(2-3) 3 hours credit. Prerequisites: CHE 2604 or equivalent, and ES 3053 or ES 4003, or consent of instructor.
An in-depth study of geochemical principles and practices focusing primarily on the aquatic environment. Designed to familiarize advanced students of Geochemistry, Environmental Science, and Environmental Engineering with those aspects of applied chemistry that have relevance in the care of environmental research and practice. (Formerly EES 6203. Same as ES 6203. Credit can be earned for only one of the following: EES 6203, ES 6203, or GEO 6203.)

6243 Micropaleontology
(3-3) 4 hours credit. Prerequisite: BIO 3063 or GEO 3153, or consent of instructor.
A study of microscopic fossil organisms that commonly produced a fossil record. Emphasis on taxonomy, evolution, and processing methods for biostratigraphically and paleoecologically important groups. Field trips required. (Formerly EES 6243. Credit cannot be earned for both EES 6243 and GEO 6243.)
6403  **Advanced Geophysics**  
(3-0) 3 hours credit. Prerequisite: GEO 3383 or consent of instructor.
Seismological and other geophysical methods and data for studying the physical and mechanical properties of the earth’s crust, mantle, and core. (Formerly EES 6403. Credit cannot be earned for both EES 6403 and GEO 6403.)

6503  **GPS Mapping**  
(2-2) 3 hours credit. Prerequisite: GEO 5033 or equivalent, or consent of instructor.
Methods for using the Global Positioning System to create natural resource inventory maps. Course will cover such topics as differential correction of data, coordinate systems, phase processing, base station and rover operation and mission planning. (Formerly EES 6503 and ES 6503. Credit can be earned for only one of the following: EES 6503, ES 6503, or GEO 6503.)

6513  **Advanced GIS**  
(2-2) 3 hours credit. Prerequisite: GEO 5033 or consent of instructor.
Geographic Information Systems (GIS) is an excellent tool for modeling, analyzing, and managing environmental systems. This course teaches advanced concepts and applications of industry standard GIS software. Additional topics include data acquisition with the Global Positioning System (GPS), digitizing, remote sensing, Graphical User Interface (GUI) manipulation, and scripting. (Formerly EES 6513 and ES 6513. Credit can be earned for only one of the following: EES 6513, ES 6513, or GEO 6513.)

6523  **GIS for Water Resources**  
(3-0) 3 hours credit. Prerequisites: GEO 4623 and GEO 6513, or consent of instructor.
Current approaches for using GIS to analyze and process spatial data for surface water and groundwater systems. Evaluate spatial and temporal responses of hydrologic systems to natural and man-made stresses. (Formerly EES 6523. Credit cannot be earned for both EES 6523 and GEO 6523.)

6543  **Internet Served GIS**  
(2-2) 3 hours credit. Prerequisite: GEO 5033 or consent of instructor.
Distributed Geographic Information (DGI) using a Geographic Information System (GIS). This course will focus upon developing GIS applications to be served out via the Internet or a Local Area Network (LAN). Additional topics include the use of Web authoring software. (Formerly EES 6543 and ES 6543. Credit can be earned for only one of the following: EES 6543, ES 6543, or GEO 6543.)

6613  **Subsurface Remediation**  
(3-0) 3 hours credit. Prerequisites: GEO 4623 and GEO 5483, or consent of instructor.
A study of the removal and treatment of contaminants from soil and groundwater systems. Includes discussion of physical, chemical, and biological treatments of subsurface contamination. (Formerly EES 6613. Credit cannot be earned for both GEO 6613 and EES 6613.)

6803  **Electron Microscopy and Microbeam Analysis**  
(1-4) 3 hours credit. Prerequisite: Consent of instructor.
Geological and geochemical applications of electron microscopy, X-ray microanalysis, and image analysis. The theory and development of electron imaging and analysis as well as case studies. The laboratory focuses on sample preparation, imaging, and elemental analysis. (Formerly EES 6803. Credit cannot be earned for both EES 6803 and GEO 6803.)

6813  **Water Resources**  
(3-0) 3 hours credit.
Application of management principles to the efficient use of water resources by people and their public and private institutions. Water is examined in terms of its value, use, and changing role in the context of economics, history, politics, and technology. (Formerly EES 6813. Same as ES 6813. Credit can be earned for only one of the following: EES 6813, ES 6813, or GEO 6813.)
6951-3  **Independent Study**  
1 to 3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student's Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree. (Formerly EES 6951-3.)

6961  **Comprehensive Examination**  
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive Examination.  
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination). (Formerly EES 6961.)

6973  **Special Problems**  
(3-0) 3 hours credit. Prerequisite: Consent of instructor.  
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when the topics vary, but not more than 6 hours, regardless of discipline, will apply to a Master’s degree. Field trips may be required. (Formerly EES 6973.)

6983  **Master’s Thesis**  
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.  
Thesis research preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress. (Formerly EES 6983.)
Master of Science Degree in Mathematics

The Master of Science degree in Mathematics is offered with two concentrations: mathematics and mathematics education.

Program Admission Requirements. In addition to satisfying the University-wide graduate admission requirements, a Bachelor of Arts or Bachelor of Science in Mathematics or a closely related field is highly recommended as preparation. Students who do not qualify for unconditional admission should anticipate that additional undergraduate and/or graduate coursework may be required to complete the degree. It is recommended that the applicant submit two letters of reference, preferably from those who can speak to the applicant’s mathematical abilities.

Degree Requirements. Degree candidates are required to successfully complete 36 semester credit hours.

A. Students must choose one of the following concentrations:

Mathematics Concentration (18 semester credit hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 5173</td>
<td>Algebra I</td>
</tr>
<tr>
<td>MAT 5203</td>
<td>Theory of Functions of a Real Variable I</td>
</tr>
<tr>
<td>MAT 5223</td>
<td>Theory of Functions of a Complex Variable I</td>
</tr>
<tr>
<td>MAT 5243</td>
<td>General Topology I</td>
</tr>
<tr>
<td>STA 5503</td>
<td>Mathematical Statistics I</td>
</tr>
</tbody>
</table>

or

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STA 5503</td>
<td>Mathematical Statistics I</td>
</tr>
</tbody>
</table>

Mathematics Education Concentration (15 semester credit hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 5023</td>
<td>Problem-Solving Seminar</td>
</tr>
<tr>
<td>MAT 5033</td>
<td>Foundations and Fundamental Concepts of Mathematics</td>
</tr>
<tr>
<td>MAT 5043</td>
<td>Euclidean and Non-Euclidean Geometry</td>
</tr>
<tr>
<td>MAT 5103</td>
<td>Introduction to Mathematical Analysis</td>
</tr>
<tr>
<td>MAT 5283</td>
<td>Linear Algebra and Matrix Theory</td>
</tr>
</tbody>
</table>

B. Students must either write a Master’s thesis or complete 6 semester credit hours of advanced courses in the department as approved by the Graduate Advisor of Record.

C. Students must normally take an additional 12 (Mathematics Concentration) or 15 (Mathematics Education Concentration) semester credit hours of coursework chosen from eligible graduate courses in the Department of Mathematics. Students pursuing the concentration in Mathematics Education may apply a maximum of 9 semester credit hours of graduate coursework from other disciplines, MAT 6963 Topics in Mathematics Education, or a combination thereof, as approved by the Graduate Advisor of Record. Students pursuing the concentration in Mathematics may apply a maximum of 6 semester credit hours of graduate coursework from other disciplines as approved by the Graduate Advisor of Record.

D. Students are required to pass an advanced comprehensive examination or successfully defend their thesis research results.

For more details and information about a sequence requirement, see the Graduate Advisor of Record and/or the College Web page at http://www.utsa.edu/cos/.
Master of Science Degree in Applied Mathematics–Industrial Mathematics

The Master of Science Degree in Applied Mathematics–Industrial Mathematics is designed to provide students the opportunity for advanced training in marketable areas of Applied Mathematics, using research to solve real-world problems in the field of Applied Mathematics, and with preparation for leadership positions in the field. In order to provide students with advanced training in marketable areas, 18 semester credit hours of graduate mathematics courses and 9 semester credit hours of advanced courses in the Colleges of Sciences or Engineering are required. Research exposure to and experience with real-world problems will be provided by enrollment in AIM 6943 Internship and Research Project. This course introduces students to research problems in the field as well as the opportunities to solve a real-life problem in an industrial setting. Students will prepare for leadership positions in the field by taking two courses in communication, leadership, and/or basic business practices.

Program Admission Requirements. To be admitted to the degree program for the M.S. in Applied Mathematics–Industrial Mathematics, applicants must satisfy the University-wide requirements for admission to graduate programs. The applicant must have completed a bachelor’s degree in mathematics, science, engineering, or a related field and must have taken Calculus I, Calculus II, Linear Algebra, and an upper-division course in mathematics. The applicant must submit three letters of reference from qualified scientists, mathematicians, or supervisors that can certify their ability to pursue studies in applied mathematics at the Master’s level.

Degree Requirements. Degree candidates are required to successfully complete 36 semester credit hours. However, not more than 12 combined credit hours of Directed Research, Independent Study, and AIM 6943 may be counted toward the degree. Students admitted to the program must consult the Graduate Advisor of Record for their individual study plans and get approval before enrollment in each course.

Candidates for the degree must complete:

A. 6 semester credit hours of required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AIM</td>
<td>5113 Introduction to Industrial Mathematics</td>
</tr>
<tr>
<td>MAT</td>
<td>5283 Linear Algebra and Matrix Theory</td>
</tr>
</tbody>
</table>

B. 12 semester credit hours of electives selected from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT</td>
<td>5203 Theory of Functions of a Real Variable I</td>
</tr>
<tr>
<td>MAT</td>
<td>5223 Theory of Functions of a Complex Variable I</td>
</tr>
<tr>
<td>MAT</td>
<td>5293 Numerical Linear Algebra</td>
</tr>
<tr>
<td>MAT</td>
<td>5603 Numerical Analysis</td>
</tr>
<tr>
<td>MAT</td>
<td>5613 Numerical Solutions of Differential Equations</td>
</tr>
<tr>
<td>MAT</td>
<td>5653 Differential Equations I</td>
</tr>
<tr>
<td>MAT</td>
<td>5673 Partial Differential Equations I</td>
</tr>
<tr>
<td>MAT</td>
<td>5973 Directed Research</td>
</tr>
<tr>
<td>MAT</td>
<td>6603 Optimization Techniques in Operations Research</td>
</tr>
<tr>
<td>MAT</td>
<td>6973 Special Problems</td>
</tr>
</tbody>
</table>

C. 9 semester credit hours of electives: Upon completion of 12 semester credit hours in mathematics, a student is eligible to enroll in advanced courses selected from disciplines in the Colleges of Sciences or Engineering.

D. AIM 6943 Internship and Research Project

Upon completion of 12 semester credit hours in mathematics, a student is eligible to enroll in the Internship and Research Project course. The student must spend a semester in an industrial setting and must complete an internship-related project.
To complete the internship-related project, the student will:

- Submit either an employment letter from a company or a one-page pre-internship proposal outlining the proposed work for approval by the student’s Supervising Professor.
- Complete the proposed work after the internship has been completed.
- Defend the project before the deadlines set forth by the University.

Students already employed in industry can negotiate an alternative internship experience. In certain circumstances, an intensive research assistantship at UTSA can be substituted for the internship in industry.

E. 6 semester credit hours selected from coursework in communications, leadership skills, and business principles. Examples include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 5003</td>
<td>Conceptual Foundations of Management</td>
</tr>
<tr>
<td>MGT 5043</td>
<td>Management and Behavior in Organizations</td>
</tr>
<tr>
<td>MGT 5093</td>
<td>Leadership</td>
</tr>
<tr>
<td>MGT 5133</td>
<td>Organizational Decision Making</td>
</tr>
<tr>
<td>MGT 5813</td>
<td>Strategic Human Resources Management</td>
</tr>
</tbody>
</table>

**COURSE DESCRIPTIONS**

**MATHEMATICS**

**MAT**

5003 **Modern Mathematics for Teachers**

(3-0) 3 hours credit.
A practical orientation concerned with the classroom uses of mathematics for teachers of K-12. This course may not be applied toward the Master of Science degree in Mathematics with a concentration in Mathematics.

5013 **Computers for Mathematics Teachers**

(3-0) 3 hours credit.
A course for mathematics teachers on integrating the computer into the mathematics curriculum, with a focus on mathematical problem solving through the use of mathematical software packages. This course may not be applied to the Master of Science degree in Mathematics with a concentration in Mathematics.

5023 **Problem-Solving Seminar**

(3-0) 3 hours credit.
Students will have the opportunity to engage in extensive experience and practice in solving mathematical problems.

5033 **Foundations and Fundamental Concepts of Mathematics**

(3-0) 3 hours credit.
Topics include the study of mathematics in antiquity as an empirical science, the shift from inductive reasoning to axiomatic structures, the development of geometry in the plane and 3-space, the discovery of analysis, the emergence of axiomatic systems, and the focus on algebraic structures. This course may not be applied to the Master of Science degree in Mathematics with a concentration in Mathematics without approval of the Graduate Advisor of Record and the Graduate Review Committee.

5043 **Euclidean and Non-Euclidean Geometry**

(3-0) 3 hours credit.
Topics will be selected from advanced Euclidean and non-Euclidean geometry, solid analytic geometry, and differential geometry.
5103 Introduction to Mathematical Analysis
(3-0) 3 hours credit. Prerequisite: MAT 4213 or consent of instructor.
Axiomatic construction of the reals, metric spaces, continuous functions, differentiation and integration, partial derivatives, and multiple integration. This course may not be applied to the Master of Science degree in Mathematics with a concentration in Mathematics. (Credit cannot be earned for both MAT 5103 and MAT 5203.)

5123 Introduction to Cryptography
(3-0) 3 hours credit. Prerequisite: MAT 4213.
Congruences and residue class rings, Fermat’s Little Theorem, the Euler phi-function, the Chinese Remainder Theorem, complexity, symmetric-key cryptosystems, cyclic groups, primitive roots, discrete logarithms, one-way functions, public-key cryptosystems, digital signatures, finite fields, and elliptic curves.

5173 Algebra I
(3-0) 3 hours credit. Prerequisite: MAT 4233 or consent of instructor.
The opportunity for development of basic theory of algebraic structures. Areas of study include finite groups, isomorphism, direct sums, polynomial rings, algebraic numbers, number fields, unique factorization domain, prime ideals, and Galois groups.

5203 Theory of Functions of a Real Variable I
(3-0) 3 hours credit. Prerequisite: MAT 4213 or consent of instructor.
Measure and integration theory. (Credit cannot be earned for both MAT 5203 and MAT 5103.)

5213 Theory of Functions of a Real Variable II
(3-0) 3 hours credit. Prerequisite: MAT 5203.
Further development of measure and integration theory, metric space topology, and elementary Banach space theory.

5223 Theory of Functions of a Complex Variable I
(3-0) 3 hours credit. Prerequisite: MAT 3213 or MAT 4213.
Complex integration, Cauchy’s theorem, calculus of residues, and power series.

5233 Theory of Functions of a Complex Variable II
(3-0) 3 hours credit. Prerequisite: MAT 5223.
Infinite products, entire functions, Picard’s theorem, Riemann mapping theorem, and functions of several complex variables.

5243 General Topology I
(3-0) 3 hours credit. Prerequisite: MAT 4273 or consent of instructor.
Topological spaces, metric spaces, continua, and plane topology.

5253 General Topology II
(3-0) 3 hours credit. Prerequisite: MAT 5243.
Topics may include: Metrizable topological spaces, function spaces, covering spaces, homotopy theory and fundamental groups, classification of surfaces, and others.

5263 Algebraic Topology
(3-0) 3 hours credit. Prerequisite: MAT 4273 or MAT 5243.
Fundamental ideas of algebraic topology, homotopy and simplicial complexes, fundamental group, covering spaces, and duality theorems.

5283 Linear Algebra and Matrix Theory
(3-0) 3 hours credit. Prerequisite: MAT 2233 or an equivalent.
A study of linear algebraic structures and algebraic properties of matrices.
5293 **Numerical Linear Algebra**  
(3-0) 3 hours credit. Prerequisite: MAT 2233 or an equivalent.  
Direct and iterative methods for solving general linear systems, the algebraic eigenvalue problem, least squares problems, and solutions of sparse systems arising from partial differential equations. (Same as CS 5293. Credit cannot be earned for both MAT 5293 and CS 5293.)

5313 **Algebra II**  
(3-0) 3 hours credit. Prerequisite: MAT 5173.  
Areas of study include: groups, rings, fields, Galois theory, ideal theory and representations of groups, module theory, and homological algebra.

5323 **Mathematical Modeling**  
(3-0) 3 hours credit. Prerequisite: MAT 3633 or equivalent.  
Techniques of mathematical modeling for applications, including ordinary and partial differential equations, stochastic models, discrete models and optimization, modeling error and uncertainty quantification.

5333 **Wavelet Analysis**  
(3-0) 3 hours credit. Prerequisite: MAT 5213, MAT 5283, or consent of instructor.  
Inner products and Hilbert spaces, time-frequency analysis, the integral wavelet transform, multiresolutional analysis, dyadic wavelets, classification of wavelets, wavelet decompositions and reconstructions, wavelet packets, multivariate wavelets, and curvelets.

5343 **Differential Geometry**  
(3-0) 3 hours credit. Prerequisite: MAT 5283 or equivalent.  
Multilinear algebra, differentiable manifolds, exterior differential forms, affine connections, Riemannian geometry, and curvature equations.

5353 **Mathematics of Image Processing**  
(3-0) 3 hours credit. Prerequisite: MAT 5213, MAT 5283, or consent of instructor.  
Topics include image acquisition, denoising and enhancement, transformations, linear and nonlinear filters, image compression, segmentation and edge detection, morphology, and pattern recognition.

5403 **Functional Analysis I**  
(3-0) 3 hours credit. Prerequisites: MAT 2233, MAT 4273, and MAT 5203, or their equivalents.  

5413 **Functional Analysis II**  
(3-0) 3 hours credit. Prerequisite: MAT 5403.  
Riesz representation theorem, spectral theory, Banach algebras, and C*-algebras.

5553 **Harmonic Analysis**  
(3-0) 3 hours credit. Prerequisites: MAT 3223 and MAT 4223, or consent of instructor.  

5603 **Numerical Analysis**  
(3-0) 3 hours credit. Prerequisite: MAT 3633 or consent of instructor.  
Emphasis on the mathematical analysis of numerical methods. Areas of study include solution of nonlinear equations and function optimization, approximation theory and numerical quadrature. (Same as CS 5603. Credit cannot be earned for both MAT 5603 and CS 5603.)

</tr>
</tbody>
</table>
Comprehensive Examination
1 hour credit. Prerequisite: Approval of the appropriate graduate program committee to take the Comprehensive Examination.

Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

Topics in Mathematics Education
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. This course may be repeated for credit when topics vary but not more than 9 hours may be applied toward the Master’s degree. This course may not be applied toward the Master of Science degree in Mathematics with a concentration in Mathematics.

Special Problems
(3-0) 3 hours credit. Prerequisite: Consent of instructor.
An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Problems courses may be repeated for credit when topics vary, but not more than 6 hours, regardless of discipline, will apply to the Master’s degree.

Master’s Thesis
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.
Thesis research and preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

COURSE DESCRIPTIONS
APPLIED-INDUSTRIAL MATHEMATICS
(AIM)

Introduction to Industrial Mathematics
(3-0) 3 hours credit. Prerequisites: MAT 1214, MAT 1223, and MAT 2233, or consent of instructor.
The topics covered include quality control, Monte Carlo methods, linear programming, model fitting, frequency domain methods, difference and differential equations, and report writing. The course is not designed to substitute for any specialized course covering these topics in detail, but rather to survey their real-world applications.

Internship and Research Project
3 hours credit. Prerequisites: Completion of at least 12 semester credit hours of coursework in mathematics and consent of the student’s Supervising Professor; confirmation of approved internship.
Provides students with hands-on experience in industrial mathematics or a related field in a professional environment. The research work may be either an extended project or a variety of shorter assignments. May be repeated for credit, but no more than 6 credit hours will apply toward the Master’s degree.
DEPARTMENT OF PHYSICS AND ASTRONOMY

The Master of Science (M.S.) in Physics and the Doctor of Philosophy (Ph.D.) in Physics programs offer opportunities for advanced study and research designed to prepare students for roles in industry, government, research institutes, or educational institutions.

Graduate students will be able to choose among several areas of specialization in experimental and theoretical physics, including condensed matter and advanced materials physics, biophysics, laser spectroscopy, astrophysics, theoretical particle physics and cosmology, mathematical physics, and computational physics. Areas of expertise among the Adjoint Faculty at Southwest Research Institute span Space Physics, including space weather, ionospheric-thermospheric-mesospheric physics, plasmaspheric physics, magnetospheric physics, heliospheric physics, cometary and planetary science, space physics instrumentation, and computational space physics.

A limited number of teaching and/or research assistantships and fellowships are available to qualified students. Financial assistance is limited and is awarded on a competitive basis.

Master of Science Degree in Physics

The purpose of the Master of Science (M.S.) degree program in Physics is to offer students the opportunity to acquire a sound preparation of the fundamentals in several areas of physics, to introduce students to recent advances in physical theory and methods, and to encourage research in a specific area of study.

Faculty expertise in each of the interest areas offers the opportunity for direct student-faculty interaction for thesis development through coursework and research. Additional cooperative projects and programs are available with other area research institutions.

Qualified students are encouraged to apply for teaching and/or research assistantships and fellowships. Requests should be sent to the Graduate Advisor of Record for physics when application is made for admission to UTSA.

Admission Requirements. Students must satisfy the University-wide graduate admission requirements. Applicants must have a Bachelor of Arts or a Bachelor of Science degree from an accredited university and a minimum grade point average of 3.0 (on a 4.0 scale) in their last 60 credit hours of coursework, preferably in physics. Applicants with fewer than 12 credit hours of upper-division undergraduate physics coursework may be admitted as Special Graduate students under the condition that they complete 12 hours of upper-division undergraduate physics coursework before admission as Master’s students.

Applicants must submit scores from the general Graduate Record Examination (GRE) and the Major Field Test for Physics (Physics GRE). A minimum of two letters of recommendation from persons familiar with the applicant’s undergraduate scholastic record must be sent to the Graduate School at the same time application is made for admission to UTSA. Background or remedial courses in physics may be required to remove deficiencies.

Applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL). The English Language Assessment Procedure is a mandatory assessment for incoming international students whose TOEFL scores are between 550 and 600 (paper version) or 79 and 100 (Internet version). See Chapter 1, Admission, of this catalog for details.

Thesis Option in Physics

Degree Requirements. The Master of Science program requires the successful completion of a minimum of 30 semester credit hours. Candidates must complete the following:

A. Required courses (21 semester credit hours):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 5103</td>
<td>Classical Mechanics I</td>
</tr>
<tr>
<td>PHY 5203</td>
<td>Electrodynamics I</td>
</tr>
</tbody>
</table>
Students must enroll in Master’s Thesis each semester that they receive advice and assistance in writing the thesis until final approval of the completed thesis has been given and the thesis has been filed with the Dean of the Graduate School. However, no more than 6 hours will count toward the M.S. degree.

Students must attend the Research Seminar for three (3) full semesters during their graduate studies. However, no more than 3 semester credit hours may be applied to the M.S. degree.

B. 9 semester credit hours of advanced electives, including graduate courses offered by other departments, as approved by the Graduate Advisor of Record, or up to 6 hours of credit of undergraduate courses if the courses are appropriate for the student’s program of study, if they were not taken as an undergraduate, and if they are approved by the Graduate Advisor of Record.

C. Students must successfully defend their thesis research results before their Graduate Committee prior to the submission of the thesis to the Dean of the Graduate School for approval.

Nonthesis Option in Physics

Degree Requirements. This program requires the successful completion of a minimum of 30 semester credit hours. Candidates for the degree must complete the following:

A. Required courses (15 semester credit hours):

    PHY 5103 Classical Mechanics I  
    PHY 5203 Electrodynamics I  
    PHY 5303 Statistical Mechanics  
    PHY 5403 Quantum Mechanics I  
    PHY 7013 Research Seminar

Students must attend the Research Seminar for three (3) full semesters during their graduate studies. However, no more than 3 semester credit hours may be applied to the M.S. degree.

B. 15 semester credit hours of advanced electives including graduate courses offered by other departments, as approved by the Graduate Advisor of Record, or up to 6 credit hours of advanced undergraduate courses if appropriate for their program of study, if not taken as an undergraduate, and if approved by the Graduate Advisor of Record.

C. Students must pass a final oral comprehensive examination for completion of the degree program. The comprehensive examination is scheduled during the student’s last semester of work.

Doctor of Philosophy Degree in Physics

The Department of Physics, in partnership with the Southwest Research Institute, offers opportunities for advanced study and research leading to the Doctor of Philosophy degree in Physics. The Ph.D. in Physics is awarded to candidates who have displayed an in-depth understanding of the subject matter and demonstrated the ability to make an original contribution to knowledge in their field of specialty.

The regulations for this degree comply with the general University regulations (refer to Chapter 2, General Academic Regulations, and Chapter 5, Doctoral Degree Regulations).
**Admission Requirements.** In addition to satisfying the University-wide graduate admission requirements, applicants must have a Bachelor of Arts or a Bachelor of Science degree from an accredited university and a minimum grade point average of 3.0 (on a 4.0 scale) in the last 60 credit hours of undergraduate coursework and all graduate work, preferably in physics. Applicants must submit scores from the general Graduate Record Examination (GRE) and the Major Field Test for Physics (Physics GRE) with their application. A minimum of two letters of recommendation from persons familiar with the applicant’s undergraduate (and graduate, where applicable) scholastic record must be sent to the Graduate School at the same time application is made for admission to UTSA. Background or remedial courses in physics may be required to remove deficiencies.

Applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL). The English Language Assessment Procedure is a mandatory assessment for incoming international students whose TOEFL scores are between 550 and 600 (paper version) or 79 and 100 (Internet version). See Chapter 1, Admission, of this catalog for details.

**Degree Requirements.** The doctoral degree requires a minimum of 81 semester credit hours beyond the baccalaureate degree. The coursework in the Program of Study includes a Core Curriculum (12 semester credit hours) and Advanced Electives (27 semester credit hours) including graduate courses offered by other departments with the approval of the student’s Graduate Advisor. Research hours, including Research Seminar (3 semester credit hours), Directed and Doctoral Research (27 semester credit hours) and Dissertation (12 semester credit hours), totaling at least 42 semester credit hours, complete the Program of Study.

**Program of Study**

A. **Core Curriculum (12 semester credit hours):**

- PHY 5103 Classical Mechanics I
- PHY 5203 Electrodynamics I
- PHY 5303 Statistical Mechanics
- PHY 5403 Quantum Mechanics I

B. **Advanced Physics Electives (27 semester credit hours selected from the following or from graduate courses offered by other departments, e.g., Mathematics, Electrical Engineering, Chemistry, etc.):**

- PHY 6103 Classical Mechanics II
- PHY 6113 Fluid Mechanics
- PHY 6123 Plasma Physics and Magnetohydrodynamics (MHD)
- PHY 6203 Electrodynamics II
- PHY 6303 Quantum Mechanics II
- PHY 6313 Solid State Physics
- PHY 6323 Nonlinear Optics and Lasers
- PHY 6403 Fundamentals of Space Physics
- PHY 6413 Fundamentals of Astronomy
- PHY 6503 Mathematical Physics I
- PHY 6513 Mathematical Physics II
- PHY 6523 Computational Physics
- PHY 6613 Methods of Experimental Physics
- PHY 6623 Space Physics Laboratory

Topics courses may be repeated for credit as the topics vary. The student should consult her/his Graduate Advisor if in doubt.

- PHY 7403 Topics in Biophysics and Biomedical Physics
- PHY 7503 Topics in Experimental Physics
- PHY 7603 Topics in Condensed Matter Physics
PHY 7703  Topics in Space Physics
PHY 7803  Topics in Theoretical Physics
PHY 7903  Topics in Astrophysics
PHY 7973  Special Topics in Physics

C. Doctoral Research (42 semester credit hours):

PHY 7001-3  Directed Research (6 hours; prior to passing qualifying exam)
PHY 7013  Research Seminar (3 hours)
PHY 7101-3  Doctoral Research (21 hours; after successfully passing qualifying exam)
PHY 7111-3  Doctoral Dissertation (12 hours)

Students must enroll in PHY 7111-3 Doctoral Dissertation each semester that they receive advice and/or assistance on their dissertation. However, no more than 12 semester credit hours will count toward the Ph.D. degree.

Students must attend the Research Seminar for a minimum of three (3) full semesters during their graduate studies. However, no more than 3 semester credit hours may be applied to the Ph.D. degree.

The entire program of study, including graduate courses offered by other departments, must be approved by the student’s Dissertation Advisor, Dissertation Committee, and Graduate Program Committee and must be submitted to the Dean of the Graduate School for final approval.

Advancement to Candidacy. All students seeking a doctoral degree at UTSA must be admitted to candidacy. One of the requirements for admission to candidacy is passing the Doctoral Qualifying Examination. Students should consult the University’s Doctoral Degree Regulations (Chapter 5 of this catalog) for the other requirements.

Qualifying Examination. The qualifying examination is divided into written and oral portions. The written portion will cover the four core courses. The oral portion covers the student’s proposed research program and related fundamentals, must be taken within one year after passing the written portion of the qualifying examination, and will be evaluated by the student’s Dissertation Committee. Additional details are described in the Department’s Graduate Student Handbook.

Final Oral Examination. The final oral defense consists of a public presentation of the dissertation and a closed oral defense. It is administered and evaluated by the student’s Dissertation Committee and covers the dissertation and the general field of the dissertation. The Dissertation Committee must approve the dissertation.

COURSE DESCRIPTIONS
PHYSICS
(PHY)

5103  Classical Mechanics I
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor. Newtonian mechanics, Lagrangian and Hamiltonian dynamics, Dynamics of rigid bodies, Central force problem and Orbital Dynamics, Symmetries and conservation laws, Relativistic dynamics.

5203  Electrodynamics I
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor. Electrostatics and magnetostatics; boundary value problems, Maxwell’s equations; plane waves; wave guides diffraction; multipole radiation.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
<th>Prerequisites</th>
<th>Description</th>
</tr>
</thead>
</table>
6403 **Fundamentals of Space Physics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
The Sun, solar models, solar and stellar winds, heliosphere and astrospheres, synthesis of elements in the Sun and stars, solar system composition and cosmic abundances, terrestrial magnetosphere, ionosphere and thermosphere, comparative planetary magnetospheres and atmospheres.

6413 **Fundamentals of Astronomy**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
Photometry, stellar models, variable stars, white dwarfs, neutron stars, supernovae, cosmic rays, galaxies and galactic structure, and introduction to cosmology.

6503 **Mathematical Physics I**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
Linear algebra, ordinary and partial differential equations, special functions, eigenvalue problems, complex analysis, group theory.

6513 **Mathematical Physics II**  
(3-0) 3 hours credit. Prerequisite: Graduate standing, PHY 6503, or consent of instructor.  
Advanced topics in mathematical physics, topology, functional analysis, differentiable manifolds, Lie groups and algebras, and cohomology theory.

6523 **Computational Physics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing, PHY 5103 and PHY 5203, or consent of instructor.  
Introduction to numerical techniques for solving physics problems, theory of computation and applications to various branches of physics, sample problems might include chaotic motion and nonlinear dynamics, plasmas, particle trajectories, Monte Carlo simulations, dynamical and statistical descriptions of many-body problems, Hyperbolic, Parabolic, and Elliptic differential equations and solution techniques, Stability Analysis.

6613 **Methods of Experimental Physics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
This course is aimed at training graduate students in the basic aspects of experimental physics, such as instrumentation, data acquisition, and statistical treatment of data and error analysis, introduction to modern equipment control and data acquisition with LabVIEW, equipment design, detectors and interfaces.

6623 **Space Physics Laboratory**  
(1-4) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
Vacuum systems, detectors, charged and neutral particle instruments, magnetic and electric field instruments, imagers (optical, UV, X-ray), instrument control and on-board data processing systems, spacecraft systems, data processing and analysis.

6953 **Independent Study**  
3 hours credit. Prerequisites: Graduate standing and permission in writing (form available) of the instructor and the student’s Graduate Advisor of Record.  
Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but not more than 6 hours, regardless of discipline, will apply to the degree.

6961 **Comprehensive Examination**  
1 hour credit. Prerequisite: Approval of the appropriate Graduate Program Committee to take the Comprehensive Examination. Credit does not count toward total required hours for the M.S. degree.  
Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive
Examination is taken if no other courses are being taken that term. The grade report for the course is either “CR” (satisfactory performance on the Comprehensive Examination) or “NC” (unsatisfactory performance on the Comprehensive Examination).

6983  **Master’s Thesis**  
3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and thesis director.  
Thesis research preparation. May be repeated for credit, but not more than 6 hours will apply to the Master’s degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.

7001-3  **Directed Research**  
1 to 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
The directed research course may involve either a laboratory or a theoretical problem. Normally a written report is required. This course may be repeated for credit, but not more than 6 hours will apply to the Master’s degree, or 18 hours toward the Doctoral degree.

7013  **Research Seminar**  
3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
Formal presentations of research by outside authorities, as well as current research seminars presented by faculty, visiting lecturers, and Ph.D. candidates. The grade report for this course is either “CR” (satisfactory participation in the seminar) or “NC” (unsatisfactory participation in the seminar). This course may include a written component.

7101-3  **Doctoral Research**  
1 to 3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and dissertation director.  
Doctoral research and preparation in the chosen area of concentration. May be repeated for credit, but not more than 21 hours will apply to the Doctoral degree.

7111-3  **Doctoral Dissertation**  
1 to 3 hours credit. Prerequisites: Permission of the Graduate Advisor of Record and dissertation director.  
Preparation and writing of the Doctoral dissertation. May be repeated for credit, but not more than 12 hours will apply to the Doctoral degree.

7403  **Topics in Biophysics and Biomedical Physics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
May be repeated for credit as topics vary. Topics may include the following:  
Topic 1: Biophysical Chemistry. Molecular structure of biological systems, energetics and entropy, relationship between structure and function of proteins and nucleic acids, structure prediction, role of hydration.  
Topic 2: Biomolecular Spectroscopy. Prerequisite: Completion of Topics class in Biophysical Chemistry. Introduction to traditional and modern optical spectroscopic techniques to the study of biological molecules. Physical basis of absorption, fluorescence, circular dichroism, and FTIR spectroscopy. Introduction to time resolved techniques (time-correlated single photon counting, transient absorption spectroscopy). Photoacoustic calorimetry, near-field scanning optical microscopy, atomic force microscopy, small angle X-ray and neutron scattering.  
Topic 4: Biomedical Physics. Use of fundamental physical laws and experimental techniques to numerous biomedical fields such as applications of lasers to ophthalmology, lithotripsy, and dentistry will be covered.  
7503  **Topics in Experimental Physics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor. May be repeated for credit as topics vary. Topics may include the following:
- **Topic 1:** Microstructural and Physical Property Characterizations. Diffraction physics, x-ray diffraction, electron microscopy, Raman spectroscopy, Rutherford Backscattering Spectrum, transport property characterization, microwave property measurements, dielectric and piezoelectric property measurements, and optical property measurements.
- **Topic 2:** Nonlinear Optics. Quantum optics, light scattering, ultra-fast photonics, fiber optics, lasers, electromagnetically-induced transparency, incoherent interactions, photonic band gaps.
- **Topic 3:** Waves in Complex Media. Transport in random and periodic materials and structures, closed and open systems, diffusion and wave localization, photonic band gaps.
- **Topic 4:** Physics of Thin Films and Applications. Vacuum physics and technology, fundamentals of physical and chemical depositions, kinetic and dynamic growth theory, rf/dc sputtering, MBE, etc.
- **Topic 5:** Molecular Physics and Fundamentals of Spectroscopy. Molecular electronic states, rotation vibration and potential curves of diatomic molecules, spectra of diatomic molecules, rotations and vibration of polyatomic molecules, electronic states of polyatomic molecules, spectra of polyatomic molecules, perturbations in molecular spectra, molecules and clusters, experimental techniques in molecular physics.

7603  **Topics in Condensed Matter Physics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor. May be repeated for credit as topics vary. Topics may include the following:
- **Topic 1:** Advanced Condensed Matter Physics. Second quantization for bosons and fermions, phonons and phonon-phonon interactions, Bloch electrons and band theory, density functional theory, electron-phonon interactions, superconductivity, critical phenomena, quantum fluids, spin glasses, quantum wells and quantum dots, quantum Hall effect.
- **Topic 2:** Nanophysics. Quantum nature of the nanostructure, quantum confinement in low-dimensional systems; single electron phenomena and electron states in nanotubes, interference in diffusive transport, nonequilibrium transport and nanodevices. Introduction to nanofabrication and cross-roads between nanotechnology and biotechnology; nanostructure transmission including quantized conductance and transport.
- **Topic 3:** Group Theory Applications in Condensed Matter. Tensors, matrices, point group, space group, and color group representations for symmetry in ferroelectric states and magnetic states, phase transitions, etc.
- **Topic 4:** Surface and Interface Physics. Thermodynamics of multicomponent systems for surface and interface segregation, crystal surface and interface structures and energy, adsorption and nucleation, electronic surface states, scanning probe microscopy, collective phenomena at interfaces, Junction and heterostructures.
- **Topic 5:** Stochastic Processes in Physical and Chemical Systems. Stochastic Langevin dynamics, quantum Langevin dynamics, electronic transport and noise characteristics in nanostructures, diffusion and crystal growth, chemical reactions, statistical mechanics of laser systems.

7703  **Topics in Space Physics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor. May be repeated for credit as topics vary. Topics may include the following:
- **Topic 1:** Heliospheric Physics. The connection between the Sun and solar wind. Formation of transient events such as Coronal Mass Ejections (CMEs), co-rotating interaction regions, solar energetic particles, plasma waves, pickup ions and mass loading, anomalous cosmic rays, heliospheric boundaries and interaction with the local interstellar medium, energetic neutral atoms (ENAs).
- **Topic 2:** Magnetospheric Physics. Earth’s bow shock, magnetopause, magnetotail, plasma sheet, ring current and plasmasphere. Current systems, reconnection, magnetospheric storms and substorms, ionospheric interactions, aurora borealis. The geocorona and ENA emissions.
- **Topic 3:** Data Analysis Techniques in Space Physics. Space instrumentation and datasets, measurement processes, performance and instrument limitations, data interpretation, statistical data analysis, time series data analysis, Fourier wavelet analysis, correlation and regression, multi-spacecraft data analysis, minimum variance analysis, numerical modeling and simulations.
7803  **Topics in Theoretical Physics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
May be repeated for credit as topics vary. Topics may include the following:  
Topic 1: General Relativity. Special relativity, tensor analysis, Einstein field equations, the Schwarzschild solution, Newtonian limit, orbits, black holes, gravitational waves. Introduction to cosmology.  
Topic 3: Introduction to Quantum Field Theory. Canonical field quantization, path integral quantization, Feynman diagrams, basics of renormalization, introduction to quantum electrodynamics.  
Topic 4: Gauge Theories. Basics of field quantization and Feynman rules, renormalization group, quantum electrodynamics, quantum chromodynamics spontaneous symmetry breaking, electroweak theory. Additional topics may include topological solitons, effective Lagrangians, unified theories, and introduction to supersymmetry.

7903  **Topics in Astrophysics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
May be repeated for credit as topics vary. Topics may include the following:  
Topic 1: Stellar Astrophysics. Advanced discussion of one or more topics from: stellar structure, physics of accretion disks, physics of star formation and the interstellar medium, structure of collapsed stars and supernova remnants. Radiative transport and photoionization.  
Topic 2: Galactic and Extragalactic Astrophysics. Density wave theory and structure of spiral galaxies. Active galaxies, clusters of galaxies, large-scale structure.  
Topic 3: Cosmology. Basics of general relativity. The cosmological principle and Friedmann models, thermal history of the universe, structure formation, the cosmic microwave background, baryonic structures formation, dark matter and dark energy, particle physics and the early universe, inflationary cosmology. (Formerly PHY 7703 Topic 6: Cosmology. Credit cannot be earned for both PHY 7903 Cosmology and PHY 7703 Cosmology.)  
Topic 4: Astrobiology. Conditions necessary for life, extra-solar planets, discovery strategies and techniques for extrasolar planets and results to date. Basic stellar evolution and nucleosynthesis impacts on development of life on Earth.  
Topic 5: Astrophysics Fluid Dynamics. Lagrangian, Eulerian, and smooth-particle formulations, rotation, vorticity, circulations, convection, magnetohydrodynamics, shocks, stellar rotation, photon fluid dynamics, relativistic fluids, mass transfer.

7973  **Special Topics in Physics**  
(3-0) 3 hours credit. Prerequisite: Graduate standing or consent of instructor.  
An organized course offering the opportunity for specialized study which may not normally or not often be available as part of the regular course offerings. May be repeated for credit as topics vary.

COLLEGE OF ARCHITECTURE

PROFESSORS

Robert M. Baron, B.Arch., University of Oregon; M.Arch., University of Washington; M.S.Arch., University of Pennsylvania
William Dupont, B.A., Brown University; M.Arch., University of Pennsylvania
Julius M. Gribou, Bachelor of Design, University of Florida; M.Arch., University of Illinois at Urbana-Champaign
Taeg Nishimoto, B.Arch., Waseda University, Japan; M.Arch., Cornell University
Richard R. Tangum, B.Arch., Texas Tech University; M.Arch., Virginia Polytechnic Institute; D.E.D., Texas A&M University
Maggie Valentine, B.A., California State University; Ph.D., University of California, Los Angeles

ASSOCIATE PROFESSORS

Mark Alan Blizard, B.Arch., M.Arch., Virginia Polytechnic and State University
Edward Burian, B.S.Arch., University of Southern California; M.Arch. Yale University
Vincent Canizaro, B.Ed., Texas A&M University; M.Arch., University of California, Berkeley; Ph.D., Texas A&M University
Marc A. Giaccardo, B.F.A., Architecture, M.Arch., University of New Mexico
Kenneth G. Masden, II, B.Arch., University of Kentucky; M.Arch., Yale University
Gayle Nicoll, B.Tech. (Arch. Sc.), Ryerson Polytechnical Institute; M.Arch., Clemson University; Ph.D., Georgia Institute of Technology
Andrew Perez, III, B.Arch., The University of Texas at Austin
Shelley Roff, B.Ed., Texas A&M University; M.Arch., University of California, Berkeley; Ph.D., Brown University
Stephen A. Temple, B.Arch., Carnegie Mellon University; M.S. Arch. Studies, The University of Texas at Austin
Jon H. Thompson, B.Arch., The University of Texas at Austin; M.Arch., University of Oregon

ASSISTANT PROFESSORS

John H. Alexander, B.Arch, University of Detroit; M.Arch, University of Virginia; Ph.D., University of Virginia
Sedef Doganer, B.Arch., M.Sc., Ph.D., Istanbul Technical University, Turkey
Hazem Rashed-Ali, B.Sc. Ain Shams University, Cairo, Egypt; M.Sc. Oxford Brookes University; Ph.D., Texas A&M University
Irina Solovyova, M.Arch., Volgograd State Architectural and Engineering Academy; Ph.D. Texas A&M University
COLLEGE OF BUSINESS

DEPARTMENT OF ACCOUNTING

PROFESSORS

Dana Forgione, B.B.A., M.B.A., M.S.A., Ph.D., University of Massachusetts at Amherst
James E. Groff, B.A., University of Iowa; M.B.A., Stetson University; Ph.D., University of Iowa
Sandra T. Welch, B.S., Texas Woman’s University; M.P.A., The University of Texas at San Antonio; Ph.D., Texas A&M University

ASSOCIATE PROFESSORS

Sharad C. Asthana, B.S., M.S., Lucknow University, India; Ph.D., The University of Texas at Austin
Jeff P. Boone, B.B.A., MS., Texas A&M University; Ph.D., University of North Texas
Martha A. Fasci, B.S., Our Lady of the Lake University; M.B.A., University of North Texas; Ph.D., The University of Texas at Austin
Cheryl L. Linthicum, B.S., Colorado State University; M.B.A., Pittsburgh State University; Ph.D., Oklahoma State University
Emeka T. Nwaeze, B.S., M.P.A., Southern University, Louisiana; Ph.D., University of Connecticut
Marshall K. Pitman, B.S., M.B.A., Eastern Illinois University; Ph.D., University of Mississippi
D. Elaine Sanders, B.B.A., Eastern New Mexico University; M.A., Ph.D., University of Oklahoma
Ted D. Skekel, B.S., Florida State University; Ph.D., University of Oregon
Pamela C. Smith, B.S., University of Virginia; M.S., Ph.D., Virginia Polytechnic Institute and State University
Qin Jennifer Yin, B.S., M.S., University of New Orleans; Ph.D., University of Houston

ASSISTANT PROFESSORS

Carlos Jimenez-Angueira, B.B.A., University of Puerto Rico-Mayaguez; M.A., Ph.D., University of Florida
Veronda F. Willis, B.B.A., M.A., The University of Texas at Austin; Ph.D., University of Colorado at Boulder

DEPARTMENT OF ECONOMICS

PROFESSORS

Hamid Beladi, B.A., Rasht College of Business, Iran; M.S., Ph.D., Utah State University
Robert A. Collinge, B.A., M.A., Ph.D., University of Maryland
Lynda Y. de la Viña, B.A., The University of Texas-Pan American; M.A., Ph.D., Rice University
Fathali Firoozi, M.B.A., Oklahoma City University; M.A., The University of Texas at Austin; M.S., Ph.D., University of Oklahoma
Lila J. Flory-Truett, B.A., Kansas State University; M.A., Ph.D., University of Iowa
Daniel R. Hollas, B.B.A., University of Houston; M.A., Ph.D., University of Illinois at Urbana-Champaign
Da-Hsiang Donald Lien, B.S., National Tsing Hua University; M.S., National Chiao Tung University; M.S., Ph.D., California Institute of Technology
John D. Merrifield, B.S., California Polytechnic State University; M.A., University of Illinois; Ph.D., University of Wyoming
Dale B. Truett, B.A., Purdue University; M.A., Ph.D., The University of Texas at Austin
Su Zhou, B.S., Shanghai Jiao Tong University; M.S., Ph.D., Arizona State University

ASSOCIATE PROFESSORS

Melody Lo, B.A., National Tsing Hua University; M.A., Ph.D., Purdue University
Saeid Mahdavi, B.A., National University of Iran; M.A., Ph.D., University of California, Santa Barbara
Kenneth E. Weiher, B.A., College of William and Mary; M.A., Ph.D., Indiana University
ASSISTANT PROFESSORS

Edgar A. Ghossoub, B.B.A., Notre Dame University, Lebanon; M.S., University of North Carolina at Charlotte; M.S., Ph.D., University of Kentucky
Long Liu, B.A., M.A., Renmin University, Beijing, China; Ph.D., Syracuse University

SENIOR LECTURER
Lisa Montoya, B.A., University of Denver; M.P.A., Arizona State University; Ph.D., Washington University in St. Louis

DEPARTMENT OF FINANCE

PROFESSORS
Karan Bhanot, B.S.E.E., Punjab Engineering College, India; M.B.A., Indian Institute of Management; Ph.D., University of Iowa
Palani-Rajan Kadapakkam, B.S., Loyola College, India; Postgraduate Diploma in Management, Indian Institute of Management; Ph.D., University of Michigan
Donald Lien, B.S., National Tsing Hua University; M.S., National Chiao Tung University; M.S., Ph.D., California Institute of Technology
Lalatendu Misra, C.M.E., Utkal University, India; M.B.A., Ph.D., The University of Texas at Austin
Ronald C. Rutherford, B.A., M.S., Valdosta State College; M.B.A., Ph.D., University of Georgia
Thomas A. Thomson, B.S.F., The University of British Columbia; M.S., Virginia Polytechnic Institute; Ph.D., University of California, Berkeley; Ph.D., University of Michigan
Yiuman Tse, B.S., University of Hong Kong; M.B.A., Binghamton University (SUNY); Ph.D., Louisiana State University

ASSOCIATE PROFESSORS
Keith Wm. Fairchild, B.A., Ph.D., The University of Texas at Austin
John K. Wald, B.A., Yale University; Ph.D., University of California, Berkeley

ASSISTANT PROFESSORS
Onur Bayar, B.S., Bogazici University; M.S., University of Pittsburgh; M.S., Carnegie Mellon University; Ph.D., Boston College
Natasha Burns, B.S., The Ohio State University; M.B.A., Michigan State University; Ph.D., The Ohio State University

SENIOR LECTURERS
Julie R. Dahlquist, B.B.A., Northeast Louisiana University; Ph.D., Texas A&M University
Paula L. Varson, B.A., M.B.A., University of Cincinnati; Ph.D., University of North Carolina at Chapel Hill

LECTURER II
Ronald B. Sweet, B.Mus., B.B.A., The University of Texas at Austin; M.B.A., The University of Texas at San Antonio

DEPARTMENT OF INFORMATION SYSTEMS AND TECHNOLOGY MANAGEMENT

PROFESSORS
Jan Guynes Clark, B.S., The University of Texas Health Science Center, Dallas; M.B.A., Ph.D., University of North Texas
Diane B. Walz, B.A., St. Louis University; M.B.A., Washington University; Ph.D., The University of Texas at Austin

ASSOCIATE PROFESSORS
Yoris A. Au, B.S., Parahyangan Catholic University; M.B.A., University of Pittsburgh; Ph.D., University of Minnesota
Glenn B. Dietrich, B.S., University of Missouri; M.B.A., The University of Texas at San Antonio; Ph.D., The University of Texas at Austin
William T. Flannery, B.S., M.S., Ph.D., University of Houston
Kevin P. Grant, B.S., United States Air Force Academy; M.S., Air Force Institute of Technology; Ph.D., Texas A&M University
Myung S. Ko, B.A., University of Washington; M.A., Ph.D., Virginia Commonwealth University
V. Srinivasan Rao, B.T., Indian Institute of Technology; M.S., Colorado School of Mines; Ph.D., The University of Texas at Austin
Woodie A. Spivey, B.A.E., Georgia Institute of Technology; M.M.S., Texas Christian University; Ph.D., University of Houston
John Warren, B.A., Knox College; M.B.A., Governors State University; Ph.D., University of Illinois at Chicago

ASSISTANT PROFESSORS
Nicole Beebe, B.S., Michigan Technological University; M.S., Georgia State University; Ph.D., The University of Texas at San Antonio
Mukul Gupta, B.T., G. B. Pant University, India; M.T., Indian Institute of Technology; Ph.D., Purdue University
Huoy Min Khoo, B.S., University of Mississippi; M.B.A., Mississippi State University; Ph.D., Georgia State University
Zhechao (Charles) Liu, B.A., Xiamen University, China; M.A., Tulane University; Ph.D., Joseph M. Katz Graduate School of Business, University of Pittsburgh

DEPARTMENT OF MANAGEMENT

PROFESSORS
Robert L. Cardy, B.S., M.A., Central Michigan University; Ph.D., Virginia Polytechnic Institute and State University
Cynthia Lengnick-Hall, B.A., M.B.A., University of California, Los Angeles; Ph.D., The University of Texas at Austin
Mark Lengnick-Hall, B.B.A., M.B.A., The University of Texas at Austin; Ph.D., Purdue University
Dianna L. Stone, B.A., Ph.D., Purdue University
Eugene F. Stone-Romero, B.S., M.S., California State University; Ph.D., University of California, Irvine

ASSOCIATE PROFESSORS
Robert H. Lengel, B.S., Pennsylvania State University; M.B.A., M.S., Rensselaer Polytechnic Institute; Ph.D., Texas A&M University
John P. McCray, B.A., Chapman College; M.B.A., Northwestern Louisiana State University; Ph.D., Texas A&M University
Stewart Miller, B.A., M.B.A., Northwestern University; Ph.D., Indiana University
Rodolpho Sandoval, B.B.A., Texas A&I University; J.D., Texas Southern School of Law; M.A., Notre Dame University; L.L.M., Harvard Law School
Katshuhiko Shimizu, L.L.B., The University of Tokyo; M.B.A., Dartmouth College; Ph.D., Texas A&M University

ASSISTANT PROFESSORS
Pepe Chang, B.S., Ph.D., University of Utah
Angela T. Hall, B.S., New York University; J.D., Ph.D., Florida State University
Bongjin Kim, B.A., Chung-Ang University; M.B.A., Syracuse University; Ph.D., University of Pittsburgh
Mark M. Suazo, B.S., University of New Mexico; M.S., University of Tennessee; Ph.D., University of Kansas

DEPARTMENT OF MANAGEMENT SCIENCE AND STATISTICS

PROFESSORS
Nandini Kannan, B.S., M.S., Madras University, India; M.A., University of Pittsburgh; Ph.D., Pennsylvania State University
Jerome P. Keating, B.S., M.A., Ph.D., The University of Texas at Arlington
Daijin Ko, B.S., M.S., Yonsei University, Seoul, Korea; M.S., Ph.D., University of Washington
Rolando Quintana, B.S., M.S., The University of Texas at El Paso; Ph.D., New Mexico State University
Minghe Sun, B.S., Northeast University of Technology; M.B.A., Chinese University of Hong Kong; Ph.D., University of Georgia
Ram C. Tripathi, B.A., M.A., Banaras Hindu University, India; M.S., Ph.D., University of Wisconsin-Madison
Keying Ye, B.S., Fudan University, Shanghai, China; M.S., Institute of Applied Mathematics, Academia Sinica, Beijing, China; Ph.D., Purdue University

ASSOCIATE PROFESSORS

Victor De Oliveira, B.S., M.S., Universidad Simon Bolivar; Ph.D., University of Maryland
Juan J. Gonzalez, B.S., Universidad Nacional Autónoma de México; M.I.B.S., Ph.D., University of South Carolina
Mark T. Leung, B.A., University of California, Santa Cruz; M.B.A., University of California, Riverside; M.B., Ph.D., Indiana University
Anuradha Roy, B.S., Calcutta University, India; M.S., Indian Statistical Institute, Calcutta, India; Ph.D., Oakland University
Raydel Tullous, B.A., M.M.S., Texas Christian University; Ph.D., University of Santa Clara
Kefeng Xu, B.E., Shanghai Jiao-Tong University; M.S.B.A., The University of British Columbia; Ph.D., University of Maryland

ASSISTANT PROFESSOR

Donghoon Han, B.S., M.S., Ph.D., McMaster University

SENIOR LECTURERS

Stephanie L. Cano, B.S., M.S., The University of Texas at San Antonio; Ph.D., University of North Carolina at Chapel Hill
Donald E. Simmons, B.S., Syracuse University; M.B.A., University of Missouri; Ph.D., State University of New York, Binghamton

DEPARTMENT OF MARKETING

PROFESSORS

Tina M. Lowrey, B.B.A., University of Houston; M.S., Ph.D., University of Illinois at Urbana-Champaign
Joel G. Saegert, B.A., Ph.D., The University of Texas at Austin
L. J. Shrum, B.B.A., University of Houston; M.S., Ph.D., University of Illinois at Urbana-Champaign

ASSOCIATE PROFESSORS

Victor L. Heller, B.A., M.P.A., Ph.D., Arizona State University
Victoria L. Jones, B.A., University of Southern California; M.A., University of Pennsylvania; Ph.D., Cornell University
David H. Silvera, B.S., M.B.A., University of California, Irvine; Ph.D., The University of Texas at Austin
Richard L. Utecht, B.B.A., M.B.A., Texas A&I University; Ph.D., University of North Texas

ASSISTANT PROFESSORS

Hyjeung F. Cho, B.A., Seoul National University, Korea; M.S., Stanford University; Ph.D. University of Michigan
Ashok K. Lalwani, B.T., Indian Institute of Technology, New Delhi, India; M.S., University of Florida; Ph.D., University of Illinois
Yinlong (Allen) Zhang, Bachelor of History, Renmin University of China; M.Phil., The Hong Kong University of Science and Technology; Ph.D., University of Pittsburgh
COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

DEPARTMENT OF BICULTURAL-BILINGUAL STUDIES

PROFESSORS

Ellen R. Clark, B.A., Trinity University; M.A., The University of Texas at San Antonio; Ph.D., The University of Texas at Austin
Robert D. Milk, B.A., M.A., Ph.D., Stanford University

ASSOCIATE PROFESSORS

Juliet Langman, B.S., Georgetown University; M.A., Ph.D., Stanford University
José Macías, B.A., California State University, Fresno; M.S.W., University of California, Berkeley; Ph.D., Stanford University
Josephine Méndez-Negrete, B.A.S.W., M.S.W., San Jose State University; M.A., Ph.D., University of California, Santa Cruz
Marie Miranda, B.A., University of California, Irvine; Ph.D., University of California, Santa Cruz
Howard L. Smith, B.A., Temple University; Ph.D., University of Arizona
Armando L. Trujillo, B.S., M.Ed., The University of Texas at El Paso; M.A., University of Northern Colorado; Ph.D., The University of Texas at Austin
Wayne E. Wright, B.A., M.A., California State University, Long Beach; Ph.D., Arizona State University

ASSISTANT PROFESSORS

Lucila Ek, B.A., Stanford University; Ph.D., University of California, Los Angeles
Francis Hult, B.A., M.A., New York University; Ph.D., University of Pennsylvania
Margarita Machado-Casas, B.A., University of California, Riverside; M.A., California State University, San Bernardino; Ph.D., University of North Carolina at Chapel Hill
Patricia Sánchez, B.A., Rice University; M.A., The University of Texas at Austin; Ph.D., University of California, Berkeley
Shannon Sauro, B.A., Duke University; M.A., Iowa State University; Ph.D., University of Pennsylvania
Peter Sayer, B.A., University of Oregon; M.A., Universidad Autónoma de Oaxaca; Ph.D., Arizona State University

DEPARTMENT OF COUNSELING

PROFESSORS

Thelma Duffey, B.A., M.Ed., Trinity University; M.A., Ph.D., St. Mary’s University
Beth A. Durodoye, B.A., M.A., Marshall University; Ed.D., University of Virginia
Gerald A. Juhnke, B.A., Michigan State University; M.A., Central Michigan University; Ed.D., Western Michigan University, Kalamazoo
Michael J. Karcher, B.A., Austin College; Ph.D., The University of Texas at Austin; Ed.D., Ed.M., Harvard University
Jesse T. Zapata, A.A., San Antonio College; B.A., The University of Texas at Austin; M.Ed., Texas Tech University; Ph.D., Arizona State University

ASSOCIATE PROFESSORS

Marcheta P. Evans, B.S., M.A., University of Alabama; M.Ed., University of Alabama at Birmingham; Ph.D., University of Alabama
Larry B. Golden, B.Ed., University of Miami; M.S., City University of New York; Ph.D., Arizona State University
Albert A. Valadez, B.A., Texas A&M University; M.Ed., Southwest Texas State University; Ph.D., St. Mary’s University

ASSISTANT PROFESSORS

Robert L. Gee, III, B.S., M.Ed., Ed.D., Texas Tech University
Shane Haberstroh, B.A., National-Louis University; M.Ed., Ed.D., Texas Tech University
Michael Moyer, B.A., Texas Lutheran University; M.S., Ph.D., Texas A&M University- Corpus Christi
Heather C. Trepal, B.A., The Ohio State University; M.Ed., Cleveland State University; Ph.D., Kent State University
DEPARTMENT OF EDUCATIONAL LEADERSHIP AND POLICY STUDIES

PROFESSORS

Bruce G. Barnett, B.A., Arizona State University; M.A., Pepperdine University; Ph.D., University of California, Santa Barbara
Richard A. Diem, B.S., Bradley University; M.S., Southern Illinois University; M.A., Colorado State University; Ph.D., Northwestern University
Betty M. Merchant, B.S., M.S., State University of New York at Plattsburg; M.S., Ph.D., Stanford University
Alan Shoho, B.S.E.E., California State University; M.Ed., University of Hawaii; Ed.D., Arizona State University
Page A. Smith, B.S., Wright State University; M.S., University of Dayton; M.A., Ph.D., The Ohio State University
David P. Thompson, B.S., M.S., Ph.D., Texas A&M University

ASSOCIATE PROFESSORS

Felecia M. Briscoe, B.S., M.A., University of Nevada, Las Vegas; Ed.D., University of Cincinnati
Gerard A. Dizinno, B.S., State University of New York at New Paltz; M.S., Ph.D., The Florida State University
Michael E. Jennings, B.A., Hampton University; M.A., Ph.D., University of North Carolina at Chapel Hill

ASSISTANT PROFESSORS

Alex Bowers, B.S., Michigan State University; M.S., Pennsylvania State University; Ph.D., Michigan State University
Gloria Crisp, B.B.A., M.A., University of Houston at Clear Lake; Ed.D., University of Houston
Encarnacion Garza, Jr., B.A., M.Ed., The University of Texas-Pan American; Ph.D., The University of Texas at Austin
Elizabeth T. Murakami-Ramalho, B.A., Escola Superior P. and Marketing – Brazil; M.A., Ph.D., Michigan State University
Anne-Marie Nunez, A.B., Harvard University; M.A., University of California, Los Angeles; M.A., Stanford University; Ph.D., University of California, Los Angeles
Maricela Oliva, B.A., Yale University; M.A., University of Houston; Ph.D., The University of Texas at Austin
Mariela A. Rodriguez, B.A., Our Lady of the Lake University; M.Ed., The University of Texas at Brownsville; M.Ed., Our Lady of the Lake University; Ph.D., New Mexico State University

DEPARTMENT OF EDUCATIONAL PSYCHOLOGY

PROFESSORS

Carolyn M. Orange, B.A., Harris Teachers College; M.A., Ph.D., Washington University
Paul A. Schutz, B.A., B.S., Winona State University; M.Ed., University of Wisconsin-LaCrosse; Ph.D., The University of Texas at Austin

ASSOCIATE PROFESSORS

Nancy K. Martin, B.A., M.Ed., Sam Houston State University; Ed.D., Texas Tech University
Patricia McGee, B.A., M.A., The University of Texas at San Antonio; Ph.D., The University of Texas at Austin

ASSISTANT PROFESSORS

Norma S. Guerra, A.A., San Antonio College; B.A., Trinity University; M.A., The University of Texas at San Antonio; Ph.D., Texas A&M University
Peggy (Pei-Hsuan) Hsieh, B.S., University of Houston; M.Ed., Ph.D., The University of Texas at Austin
Sharon L. Nichols, B.A., Bucknell University; M.A., Ph.D., University of Arizona
Patricia D. Quijada, B.A., B.S., University of California, Riverside; Ed.M., C.A.S., Harvard University; Ph.D., University of Wisconsin
Kelly Rodgers, B.A., Westminster College; M.A., Ph.D., University of Missouri
Daniel Sass, B.A., Ph.D., University of Wisconsin-Milwaukee
Jeremy R. Sullivan, B.S., Sam Houston State University; Ph.D., Texas A&M University
DEPARTMENT OF HEALTH AND KINESIOLOGY

PROFESSORS

Zenong Yin, B.S., Beijing Institute of Physical Education; M.A., Ph.D., University of Southern California
John Quiang Zhang, B.S., Snandong Teacher’s University; M.S., Springfield College; Ph.D., University of Missouri-Columbia

ASSOCIATE PROFESSORS

William H. Cooke, B.S., M.A., University of Houston; Ph.D., Texas A&M University
Meizi He, MD, M.S., Sun Yat-sen University of Medical Sciences; Ph.D., University of Hong Kong
Tammy Wyatt, B.S., Sam Houston State University; M.Ed., Southwest Texas State University; Ph.D., The University of Texas at Austin
Wan Xiang Yao, B.S., M.S., Beijing Institute of Physical Education; Ph.D., Auburn University

ASSISTANT PROFESSORS

Roberta Beyer, B.S., M.A., California State Polytechnic; Ph.D., Texas Woman’s University
Alberto Cordova, B.S., Tarleton State University; M.S., Ph.D., Texas A&M University
Donovan Laird Fogt, B.S., M.S., University of Arizona; Ph.D., The University of Texas at Austin
Jianmin Guan, B.S., Huizhou Normal College; M.Ed., Shanghai Institute of Physical Education; M.Ed., Wayne State University; Ph.D., Texas A&M University
Sara B. Oswalt, B.S., The Pennsylvania State University; M.P.H., Indiana University; Ph.D., University of Georgia
Tiffanye M. Vargas-Tonsing, B.A., The University of Texas at Austin; M.A., Ph.D., Michigan State University

SENIOR LECTURER

Curtis L. Hart, B.A., Central University of Iowa; M.S., Iowa State University; Ed.D., Oklahoma State University

DEPARTMENT OF INTERDISCIPLINARY LEARNING AND TEACHING

PROFESSORS

Belinda B. Flores, B.A., M.A., The University of Texas at San Antonio; Ph.D., The University of Texas at Austin
Janis Harmon, B.A., M.Ed., University of Southwest Louisiana; Ph.D., The Ohio State University
Roxanne Henkin, B.S., M.S., Ed.D., Northern Illinois University
Rosalind Horowitz, B.S., M.A., Ph.D., University of Minnesota
Miriam G. Martinez, B.A., University of Alabama; M.A., Ph.D., The University of Texas at Austin
P. Elizabeth Pate, B.S., M.Ed., Angelo State University; Ph.D., Texas A&M University

ASSOCIATE PROFESSORS

Audrey Dentith, B.S., M.S., Bloomsburg University; M.Ed. Temple University; Ph.D., Pennsylvania State University
Blanche A. Desjean-Perrrotta, B.A., Anna Maria College; M.Ed., University of Southern Alabama; Ed.D., University of Arizona
Barbara M. Gonzalez-Pino, B.A., M.A., Ph.D., The University of Texas at Austin
Christine A. Moseley, B.S., Texas Tech University; M.A., Angelo State University; Ph.D., Oklahoma State University
Mari Riojas-Cortez, B.A., St. Mary’s University; M.A., The University of Texas at San Antonio; Ph.D., The University of Texas at Austin
Misty Sailors, B.A., M.Ed., Ph.D., The University of Texas at Austin
Suzanne M. Winter, B.S., Southwest Texas State University; M.S., Texas A&M University-Corpus Christi; Ph.D., The University of Texas at Austin
ASSISTANT PROFESSORS

Iliana Alanis, B.A., The University of Texas at Austin; M.Ed., The University of Texas-Pan America at Edinburg; Ph.D., The University of Texas at Austin
Kimberly Bilicia, B.A., Ohio Wesleyan University; M.Ed., Ph.D., Texas Tech University
Joellen Coryell, B.A., University of Illinois; M.Ed., Texas State University; Ph.D., Texas A&M University
Courtney Crim, B.A., M.A.T., Trinity University; Ed.D., University of Houston
Kimberley Cuero, B.S., M.Ed., Ph.D., The University of Texas at Austin
Carmen Fies, B.S., M.S., The University of Texas at San Antonio; Ph.D., The University of Texas at Austin
Maria Kaylor, B.A., M.A., The University of Texas at San Antonio; Ph.D., The University of Texas at Austin
Elsa Ruiz, B.S., Texas A&I University; M.S., Laredo State University; Ph.D., Texas A&M University
Jenifer Thornton, B.A., M.A., Baylor University; Ed.D., University of Houston
Robin Redmon Wright, B.A., M.A., University of Tennessee; Ph.D., Texas A&M University
COLLEGE OF ENGINEERING

DEPARTMENT OF BIOMEDICAL ENGINEERING

PROFESSORS

Sos S. Agaian*, B.S., M.S., Yerevan University, Armenia; Ph.D., Steklov Institute of Mathematics of the USSR, Moscow
C. Mauli Agrawal, B.Tech., I.I.T. Kanpur, India; M.S., Clemson University; Ph.D., Duke University, P.E.
Rena Bizios, B.S., University of Massachusetts; M.S., California Institute of Technology; Ph.D., Massachusetts Institute of Technology
C.L. Philip Chen*, B.S., National Taipei University of Technology; M.S., University of Michigan; Ph.D., Purdue University
David D. Dean†, B.S., Randolph-Macon College; Ph.D., University of North Carolina at Chapel Hill
Marc D. Feldman†, M.D., University of Pennsylvania School of Medicine
Peter T. Fox†, M.D., Georgetown University School of Medicine
Artym Grigoryan*, M.S., Texas A&M University; Ph.D., Yerevan State University, Republic of Armenia
Stephen E. Harris†, B.A., M.A., Ph.D., The University of Texas at Austin
Jack L. Lancaster†, B.S., The University of Texas at Arlington; M.S., Ph.D., The University of Texas Health Science Center at Dallas
Richard G. Le Baron*, B.S., Louisiana State University; Ph.D., University of Alabama at Birmingham
Joo L. Ong, B.S., University of Iowa; M.S., Ph.D., University of Alabama at Birmingham
H. Ralph Rawls†, Ph.D., Florida State University
Eugene A. Sprague†, Ph.D., The University of Texas Health Science Center at San Antonio
Victor L. Sylvia†, B.S., M.S., Ph.D., Texas A&M University
Xiaodu Wang*, B.S., M.S., Beijing Institute of Aeronautics and Astronautics, China; Ph.D., Yokohama National University, Japan
Charles J. Wilson*, B.A., M.A., Ph.D., University of Colorado at Boulder

ASSOCIATE PROFESSOR

Animesh Agarwal†, M.D., The University of Texas Health Science Center at San Antonio Medical School

ASSISTANT PROFESSORS

Mark R. Appleford, B.S., M.S., California Polytechnic State University; Ph.D., University of Tennessee Health Science Center/University of Memphis
Hai-Chao Han*, B.S., M.S., Ph.D., Xi’an Jiaotong University, China and University of California, San Diego
Anand Ramasubramanian, B.S., Annamalai University, India; M.S., Indian Institute of Science, India; Ph.D., Rice University
Dawnlee Roberson, B.S., M.S., The University of Texas at San Antonio; Ph.D., The University of Texas at Austin
Liang Tang, B.S., Jiangsu Polytechnic University; Ph.D., University of Louisville

* Primary appointment in other UTSA department
† Primary appointment at The University of Texas Health Science Center at San Antonio (UTHSCSA)

DEPARTMENT OF CIVIL AND ENVIRONMENTAL ENGINEERING

PROFESSORS

G. Alberto Arroyo, B.S., Universidad Nacional de Ingenieria, Lima, Peru; M.S., Ph.D., New Mexico State University, P.E.
Richard H. French, B.C.E., Georgia Institute of Technology; M.S., The Ohio State University; Ph.D., The University of California, Berkeley, P.E.
A.T. Papagiannakis, Dipl. C.E., National Technical University of Athens; M.Sc., University of Saskatchewan; Ph.D., University of Waterloo
ASSOCIATE PROFESSORS

Manuel Diaz, B.S., M.S., National University of Engineering, Peru; Ph.D., The University of Texas at Austin, P.E.
José Weissman, B.S., M.S., University of Sao Paulo; Ph.D., The University of Texas at Austin, P.E.

ASSISTANT PROFESSORS

Sazzad Bin-Shafique, B.S., Bangladesh University; M.S., The University of Texas at El Paso; Ph.D., University of Wisconsin-Madison, P.E.
Samer Dessouky, B.S., Ain Shams University; M.S., Washington State University; Ph.D., Texas A&M University
Drew Johnson, B.S., The University of Texas at Austin; Ph.D., University of Minnesota
Hatim Sharif, B.S., University of Khartoum; M.S., Colorado State University; Ph.D., University of Connecticut
Heather Shipley, B.S., Baylor University; M.S., Ph.D., Rice University
Mijia Yang, B.S., Anhui University of Science and Technology; M.S., China University of Mining and Technology; Ph.D., The University of Arizona; Ph.D., The University of Akron

DEPARTMENT OF ELECTRICAL AND COMPUTER ENGINEERING

PROFESSORS

Sos S. Agaian, B.S., M.S., Yerevan University, Armenia; Ph.D., Steklov Institute of Mathematics of the USSR, Moscow
Amar Bhatta, B.S., M.S., Rajasthan University, India; Ph.D., Pennsylvania State University
C.L. Philip Chen, B.S., National Taipei University of Technology; M.S., University of Michigan; Ph.D., Purdue University
Ruyan Guo, B.S., M.S., Xi’an Jiaotong University, China; Ph.D., Pennsylvania State University
Mohammad Jamshidi, B.S., Oregon State University; M.S., Ph.D., University of Illinois, Urbana-Champaign
Eugene John, B.S., University of Kerala, India; M.S., The University of Texas at El Paso; Ph.D., Pennsylvania State University
Wei-Ming Lin, B.S., National Taiwan University; M.S., Ph.D., University of Southern California
G.V.S. Raju, B.S., Andhra University; M.S., Banaras Hindu University; M.Tech., Indian Institute of Technology; Ph.D., Polytechnic Institute of Brooklyn
Mehdi Shadaram, B.S., University of Science & Technology, Tehran; M.S., Ph.D., University of Oklahoma, P.E.

ASSOCIATE PROFESSORS

Artyom Grigoryan, M.S., Texas A&M University; Ph.D., Yerevan State University, Republic of Armenia
Yufei Huang, B.S., Northwestern Polytechnic University, China; M.S., Ph.D., State University of New York at Stony Brook
Fred W. Hudson, B.S., Texas A&M University-Kingsville; Ph.D., The University of Texas at Austin
Chunjian Qian, B.S., M.S., Fudan University, China; Ph.D., Case Western Reserve University
Bruce Smith, B.S., M.S., University of Michigan; Ph.D., University of Rhode Island

ASSISTANT PROFESSORS

David Akopian, B.S., M.S., Moscow Institute of Physics & Technology; Ph.D., Tampere University of Technology, Tampere, Finland
Yufang Jin, B.S.E.E., Zhengzhou University, China; M.S.E.E., Chinese Academy of Aviation, China; M.S.E.E., University of Central Florida; Ph.D., E.E., University of Central Florida
Youngjoong Joo, B.S., M.S., Korea University; Ph.D., Georgia Institute of Technology
Brian Kelley, B.S. E.E., Cornell University; M.S.E.E., Ph.D., E.E., Georgia Institute of Technology
Bao Liu, B.S., M.S., Fudan University, China; Ph.D., University of California San Diego
Jianqiu Zhang, B.S., Zhejiang University, China; M.S., Zhongshan University, China; Ph.D., State University of New York at Stony Brook

UTSA 2009–2011 Graduate Catalog
DEPARTMENT OF MECHANICAL ENGINEERING

PROFESSORS

C. Mauli Agrawal*, B.Tech, I.I.T. Kanpur, India; M.S., Clemson University; Ph.D., Duke University, P.E.
Ronald L. Bagley, B.S., M.S., Massachusetts Institute of Technology; Ph.D., Air Force Institute of Technology
F. Frank Chen, B.E., Tunghai University, Taiwan; M.S., Ph.D., University of Missouri-Columbia
Amir Karimi, B.S., Oregon State University; M.S., University of Portland; Ph.D., University of Kentucky, P.E.
Efstathios E. (Stathis) Michaelides, B.A., Oxford University, England; M.S., Ph.D., Brown University, P.E.
Yesh P. Singh, B.E. University of Roorkee, India; M.S., Youngstown State University; D.Eng., University of Wisconsin-Milwaukee, P.E.
Xiaodu Wang, B.S., M.S., Beijing Institute of Aeronautics and Astronautics, China; Ph.D., Yokohama National University, Japan

* Primary appointment in other UTSA department

ASSOCIATE PROFESSORS

Jahan G. Eftekhar, B.S., University of Tehran; M.S., Ph.D., The University of Texas at Arlington, P.E.
Yusheng Feng, B.S., Tsinghua University, China; M.S., University of Oklahoma; Ph.D., The University of Texas at Austin
Hai-Chao Han, B.S., M.S., Ph.D., Xi’an Jiaotong University, China and University of California, San Diego
Randall D. Manteufel, B.S., M.S., The University of Texas at Austin; Ph.D., Massachusetts Institute of Technology
Harry Millwater, B.S., Rice University; M.S., Ph.D., The University of Texas at Austin
Brent M. Nowak, B.S., University of Illinois-Urbana; M.S., Illinois Institute of Technology; Ph.D., The University of Texas at Austin
Nestor E. Sanchez, B.S., University of the Andes; M.S., University of Pittsburgh; Ph.D., Virginia Polytechnic Institute and State University
Can Saygin, B.S., M.S., Ph.D., Middle East Technical University, Ankara, Turkey

ASSISTANT PROFESSORS

Thomas Connolly, Bachelor of Engineering, State University of New York at Stony Brook; M.S., Ph.D., The University of Texas at Austin
Hung-da Wan, B.S., M.S., National Taiwan University, Taiwan; Ph.D., Virginia Polytechnic Institute and State University

SENIOR LECTURERS

Antonio Campo, B.Sc., M.Sc., Universidad de Puerto Rico; Ph.D., Texas A&M University, College Station
Emilio Mendoza, B.S., M.S., St. Mary’s University, San Antonio; Ph.D., The University of Texas at Austin, P.E.
John C. Simonis, B.S., Case Institute of Technology; M.S., Ph.D., Georgia Institute of Technology, P.E.

RESEARCH ASSISTANT PROFESSORS

Xuanliang Neil Dong, B.S., Huazhong University of Science and Technology, China; M.S., Tsinghua University, China; Ph.D., Columbia University
Glenn Kuriger, B.S.E.E., M.S.I.E., Ph.D., University of Oklahoma
COLLEGE OF LIBERAL AND FINE ARTS

PROFESSORS EMERITI

James Broderick, B.A., St. Ambrose College; M.A., University of Iowa
Charles T. Field, B.A., Stanford University; M.F.A., University of Washington
Jacinto Quirarte, B.A., San Francisco State College; Ph.D., National University of Mexico

DEPARTMENT OF ANTHROPOLOGY

PROFESSORS

Carolyn L. Ehardt, B.S., Virginia Commonwealth University; M.A., Ph.D., The University of Texas at Austin
Daniel J. Gelo, B.A., M.A., M.Phil., Ph.D., Rutgers University

ASSOCIATE PROFESSORS

Thad Q. Bartlett, B.A., Grinnell College; M.A., Ph.D., Washington University in St. Louis
Robert J. Hard, B.A., University of Arizona; M.A., Ph.D., University of New Mexico
Laura J. Levi, B.A., Bryn Mawr College; M.A., Ph.D., University of Arizona

ASSISTANT PROFESSORS

Sonia Alconini, B.A., Universidad Mayor de San Andres; M.A., Ph.D., University of Pittsburgh
Michael L. Cepek, B.A., University of Illinois at Urbana-Champaign; M.A., Ph.D., University of Chicago
K. Jill Fleuriet, B.A., Harvard University; M.A., San Diego State University; M.A., Ph.D., Stanford University
Jamon A. Halvaksz, II, B.A., University of Kentucky; M.A., Ph.D., University of Minnesota

DEPARTMENT OF ART AND ART HISTORY

PROFESSORS

Ronald C. Binks, B.F.A., Rhode Island School of Design; M.F.A., University of Utah
Gregory M. Elliott, B.F.A., M.A., Stephen F. Austin State University; M.F.A., Southern Methodist University
Ken D. Little, B.F.A., Texas Tech University; M.F.A., University of Utah
Dennis M. Olsen, B.A., M.A., University of California, Los Angeles
Kent T. Rush, B.F.A., California College of Art and Crafts; M.A., University of New Mexico; M.F.A., The University of Texas at Austin
Judith B. Sobre, B.A., New York University; M.A., Ph.D., Harvard University

ASSOCIATE PROFESSORS

Constance A. Lowe, B.F.A., Southern Methodist University; M.F.A., Western Michigan University
Scott Sherer, B.A., Yale University, M.A., University of Kentucky, Lexington; Ph.D., University of Minnesota, Minneapolis

ASSISTANT PROFESSORS

Richard (Ricky) Armendariz, B.F.A., The University of Texas at San Antonio; M.F.A., University at Colorado at Boulder
Teresa Eckmann, B.A., University of Massachusetts; Ph.D., University of New Mexico
Ovidio C. Giberga, B.S., Florida State University, Tallahassee; M.F.A., University of Florida, Gainesville
Patrick Hajovsky, B.A., Tulane University; M.A., Ph.D., University of Chicago
Julie Johnson, B.A., Northern Illinois University; M.A., University of Iowa; Ph.D., University of Chicago
Richard Martinez, B.F.A., Southern Oregon University; M.F.A., University of California, Davis
Leslie Raymond, B.F.A., Rhode Island School of Design; M.F.A., University of Michigan
**DEPARTMENT OF COMMUNICATION**

**PROFESSOR**

Ali Kanso El-Ghori, B.A., The Lebanese University, Beirut, Lebanon; M.S., Ph.D., Ohio University

**ASSOCIATE PROFESSORS**

Sara DeTurk, B.A., University of Virginia; M.Ed., University of Massachusetts, Amherst; Ph.D., Arizona State University

Christopher Hajek, B.A., Loyola University of Chicago; M.A., University of Hawaii; Ph.D., University of California, Santa Barbara

Kimberly Kline, B.S., Kennesaw State College; M.O.C., Georgia State University; Ph.D., University of Georgia

H. Paul LeBlanc, III, B.A., St. Mary’s University; M.A., Louisiana State University, Baton Rouge; Ph.D., Southern Illinois University at Carbondale

Steven R. Levitt, B.A., Montana State University; M.A., West Virginia University; Ph.D., The Ohio State University

Viviana C. Rojas, B.A., M.A., Universidad de Chile; Ph.D., The University of Texas at Austin

**ASSISTANT PROFESSORS**

Karen L. Daas, B.A., Gustavus Adolphus College; M.A., Minnesota State University, Mankato; Ph.D., University of Nebraska-Lincoln

Seok Kang, B.A., SungKyunKwan University, Seoul, Korea; M.A., Sogang University, Seoul, Korea; M.A., Illinois State University; Ph.D., The University of Georgia

Juyan Zhang, B.L., Renmin University of China; M.L., Beijing University; Ph.D., University of Missouri-Columbia

**DEPARTMENT OF ENGLISH**

**PROFESSORS**

Mark E. Allen, B.A., St. Norbert College; M.A., Arizona State University; Ph.D., University of Illinois

Wendy B. Barker, B.A., M.A., Arizona State University; Ph.D., University of California, Davis

Norma E. Cantu, B.S., M.S., Texas A&I University; Ph.D., University of Nebraska

Steven G. Kellman, B.A., State University of New York at Binghamton; M.A., Ph.D., University of California, Berkeley

Sonja L. Lanehart, B.A. The University of Texas at Austin; M.A., Ph.D, University of Michigan

Bonnie K. Lyons, B.A., Newcomb College; M.A., Ph.D., Tulane University

Joycelyn K. Moody, B.A., Spring Hill College; M.A., University of Wisconsin-Madison; Ph.D., University of Kansas

Jeanne C. Reesman, B.A., Centenary College of Louisiana; M.A., Baylor University; Ph.D., University of Pennsylvania

Sonia Saldivar-Hull, B.A., University of Houston; M.A., Ph.D., The University of Texas at Austin

Linda T. Woodson, B.S., Ph.D., Texas Christian University

**ASSOCIATE PROFESSORS**

Bernadette D. Andrea, B.A., University of Calgary; M.A., Ph.D., Cornell University

Bridget A. Drinka, B.A., University of Illinois at Urbana-Champaign; M.S., Georgetown University; Ph.D., The University of Texas at Austin

Sue Hum, B.A., Park College; Ph.D., Texas Christian University

Catherine Kasper, B.A., University of Illinois at Urbana-Champaign; M.A., University of Illinois at Chicago; Ph.D., University of Denver

Debbie L. Lopez, B.A., University of the South; M.A., Middlebury College; A.M., Ph.D., Harvard University

Ben Olguín, B.A., University of Houston; M.A., Ph.D., Stanford University

**ASSISTANT PROFESSORS**

Mark Bayer, B.A., Queen’s University; M.A., McGill University; Ph.D., The Ohio State University

Kinitra Brooks, B.A., Xavier University of Louisiana; M.P.H., Tulane University; Ph.D., University of North Carolina at Chapel Hill

UTSA 2009–2011 Graduate Catalog
Marisa Huerta, B.A., Harvard University; M.A., Ph.D., Brown University
David Ray Vance, B.A., The University of Texas at Austin; M.A., University of Illinois at Chicago; Ph.D., University of Houston

DEPARTMENT OF HISTORY

PROFESSORS
Felix D. Almaraz, Jr., B.A., M.A., St. Mary’s University; Ph.D., University of New Mexico
Steven R. Boyd, B.A., Claremont Men’s College; M.A., Ph.D., University of Wisconsin-Madison
Bruce C. Daniels, A.B., Syracuse University; M.A., Ph.D., University of Connecticut
Dwight F. Henderson, B.A., M.A., Ph.D., The University of Texas at Austin
David R. Johnson, B.A., University of Illinois; M.A., Ph.D., University of Chicago
John F. Reynolds, B.A., M.A., Michigan State University; Ph.D., Rutgers University

ASSOCIATE PROFESSORS
Antonio Calabria, A.B., Brown University; M.A., Ph.D., University of California, Berkeley
Brian L. Davies, B.A., M.A., Ph.D., University of Chicago
Kirsten Gardner, B.A., Georgetown University; M.A., Ph.D., University of Cincinnati
Rhonda Gonzales, B.A., M.A., Ph.D., University of California, Los Angeles
Kolleen M. Guy, B.A., North Central College; M.A., Northern Illinois University; Ph.D., Indiana University
Patrick J. Kelly, B.A., The University of Texas at Austin; Ph.D., New York University
Gregg Michel, B.A., University of Chicago; M.A., Ph.D., University of Virginia
Wing Chung Ng, B.A., M.Phil., University of Hong Kong; Ph.D., The University of British Columbia
James C. Schneider, B.A., St. Lawrence University; M.A., Ph.D., University of Wisconsin-Madison

ASSISTANT PROFESSORS
Gabriela Gonzalez, B.A., M.A., The University of Texas at San Antonio; Ph.D., Stanford University
LaGuana K. Gray, B.A., University of Houston; M.A., Louisiana Tech University; Ph.D., University of Houston
Anne E. Hardgrove, B.A., Carleton College; Ph.D., University of Michigan
Catherine Nolan-Ferrell, A.B., Cornell University; M.A., Tulane University; Ph.D., The University of Texas at Austin

DEPARTMENT OF MODERN LANGUAGES AND LITERATURES

PROFESSORS
Santiago Daydí-Tolson, Licenciado en Filosofía y Educación, Universidad Católica de Valparaíso, Chile; Ph.D., University of Kansas
Jack Himelblau, A.B., M.A., University of Chicago; Ph.D., University of Michigan
Francisco Marcos-Marín, M.A., Licenciado en Filosofía y Letras Universidad Complutense, Madrid; Doctor en Filosofía y Letras Universidad Complutense, Madrid
Frank Pino, Jr., B.A., M.A., Arizona State University; Ph.D., Northwestern University
Christopher J. Wickham, B.A., M.Phil., University of Reading, England; Ph.D., University of Wisconsin-Madison

ASSOCIATE PROFESSORS
MaryEllen Garcia, B.A., Occidental College; M.A., Indiana University; Ph.D., Georgetown University
Nancy J. Membrez, B.A., College of Wooster; M.A., University of Minnesota; Ph.D., University of California, Santa Barbara
R. Marita Numnikoski, B.A., M.A., Helsinki University; Ph.D., The University of Texas at Austin
Małgorzata Oleszkiewicz-Peralba, B.A., M.A., Queens College; Ph.D., New York University
DEPARTMENT OF MUSIC

PROFESSORS
James Balentine, B.A., M.M., University of South Carolina; D.M.A., The University of Texas at Austin
R.J. David Frego, B.M., Brandon University; M.M., Ph.D., Florida State University
David Heuser, B.M., Eastman School of Music; M.M., D.M., Indiana University
Linda A. Poetschke, B.M., University of North Texas; M.M., The University of Texas at Austin
John J. Silantien, B.M.E., Hartt College of Music; M.M., Catholic University of America; D.M.A., University of Illinois

ASSOCIATE PROFESSORS
Diana Allan, B.M., B.M.E., Pittsburg State University; M.A., Stephen F. Austin State University; D.M.A., University of Michigan
David Bruenger, B.A., Southern Illinois University-Edwardsville; M.M., Washington University; D.M.A., University of North Texas
Stacey Davis, B.A., Arizona State University; M.M., Ph.D., Northwestern University
Eugene Dowdy, B.M., The University of Texas at Austin; M.M., The University of Texas at San Antonio; D.M.A., University of Iowa
Kasandra Keeling, B.M., M.M., University of Houston; D.M.A., University of Colorado at Boulder
Rita A. Linard, B.S., University of Illinois; M.M., Northern Illinois University; D.M.A., The University of Texas at Austin
Gary L. Mabry, B.M.Ed., Abilene Christian University; M.M., Hardin Simmons University; D.M.A., University of Colorado
William McCravy, B.M., University of Montana, Missoula; M.M., San Francisco State University; D.A., University of Northern Colorado
John Nix, B.M., University of Georgia; M.M.E., The Florida State University; M.M., University of Colorado at Boulder
Robert J. Rustowicz, B.M.E., Central Michigan University; M.M., D.M.A., College-Conservatory, University of Cincinnati
David C. Sebald, B.M., M.M., Ph.D., Michigan State University

ASSISTANT PROFESSORS
L. Christine Amos, B.M., Indiana University; M.A., San Jose State University; Ph.D., The University of Texas at Austin
Mark Brill, B.A., Oberlin College; J.D., Loyola University School of Law; M.A., Tulane University; Ph.D., University of California, Davis
Susan Bruenger, B.M., Southern Illinois University-Edwardsville; M.M., Ph.D., University of North Texas-Denton
Jennifer Cahill Clark, B.M., University of North Texas; M.M., Texas Christian University
Matthew Dunne, B.M., State University of New York; M.M., Florida State University; D.M.A., The University of Texas at Austin
Donald Miller, B.A., Southwestern Oklahoma State University; M.M., Wichita State University; D.M.A., The University of Iowa
J. Si Millican, B.M., M.M.E., University of North Texas-Denton; Ph.D., The University of Oklahoma
J. Drew Stephen, B.M.E., University of Western Ontario; M.M., M.A., Ph.D., University of Toronto
Amy Simmons, B.M., M.M., Ph.D., The University of Texas at Austin

DEPARTMENT OF PHILOSOPHY AND CLASSICS

PROFESSOR
Michael J. Almeida, B.A., Bridgewater State College; Ph.D., The Ohio State University

ASSOCIATE PROFESSORS
Paul T. Alessi, B.A., Wabash College; M.A., Indiana University; Ph.D., University of Missouri
Xunwu Chen, B.A., Zhongshan (Sun Yatsen) University; M.A., International Academy of Philosophy; Ph.D., Fordham University
ASSISTANT PROFESSORS

**Joel Christensen**, B.A., Brandeis University; M.A., Ph.D., New York University  
**Jill Hernandez**, B.A., Taylor University; M.A., Texas A&M University; Ph.D., University of Memphis  
**Alistair Welchman**, B.A., Oxford University; M.A., University of Warwick; M.Sc., University of Sussex; Ph.D., University of Warwick

**DEPARTMENT OF POLITICAL SCIENCE AND GEOGRAPHY**

**PROFESSORS**

**Thomas J. Bellows**, B.A., Augustana College; M.A., University of Florida; M.A., Ph.D., Yale University  
**James D. Calder**, B.A., University of Maryland; M.S., California State University; Ph.D., Claremont Graduate School  
**Francisco Durand**, B.A., M.A., Catholic University of Peru; Ph.D., University of California, Berkeley  
**Richard C. Jones**, B.S., Austin Peay State University; M.A., Indiana University; Ph.D., The Ohio State University

**ASSOCIATE PROFESSORS**

**Stephen Amberg**, B.A., Tufts University; Ph.D., Massachusetts Institute of Technology  
**Miguel D. DeOliveira**, B.A., University of Illinois; M.S., Ph.D., Pennsylvania State University  
**Mansour O. El-Kikhia**, B.A., American University of Beirut; M.A., Ph.D., University of California, Santa Barbara  
**Daniel A. Engster**, B.A., Colorado College; M.A., Ph.D., University of Chicago  
**Richard A. Gambitta**, B.A., M.A., Ph.D., Syracuse University  
**Amy E. Jaspersen**, B.A., Wellesley College; Ph.D., University of Minnesota  
**Melvin C. Laracey**, B.A., University of Notre Dame; J.D., University of Michigan Law School; M.P.A., Harvard University; Ph.D., University of Michigan  
**John M. Morris, Jr.**, B.A., M.A., M.S., Ph.D., The University of Texas at Austin  
**Sharon A. Navarro**, B.A., M.A., The University of Texas at El Paso; M.A., Ph.D., University of Wisconsin-Madison  
**David W. Romero**, B.A., The University of Texas at San Antonio; M.A., Ph.D., University of Houston  
**Rodolfo Rosales**, B.A., St. Mary’s University; M.A., Trinity University; M.A., Ph.D., University of Michigan  
**Boyka M. Stefanova**, Diploma, Doctorate, University of National & World Economy, Bulgaria; M.A., Ph.D., University of Delaware

**ASSISTANT PROFESSORS**

**Kathleen R. Arnold**, B.A., University of Massachusetts; M.A., Ph.D., University of California, Los Angeles  
**Kathleen J. Hancock**, B.A., University of California, Santa Barbara; M.A., George Washington University; Ph.D., University of California, San Diego  
**J. Michael Harrison**, B.S., Rensselaer Polytechnic Institute; M.A., University of Georgia; Ph.D., University of Florida  
**Patricia A. Jaramillo**, B.A., Southwestern University; M.P.Aff., The University of Texas at Austin; M.A., Ph.D., University of Colorado at Boulder  
**Walter C. Wilson**, B.A., Augustana College; Ph.D., University of Oklahoma

**DEPARTMENT OF PSYCHOLOGY**

**PROFESSORS**

**Raymond R. Baird**, A.B., Eastern New Mexico University; M.A., Ph.D., University of Washington  
**Raymond T. Garza**, B.A., M.A., Texas A&M University, Kingsville; Ph.D., Purdue University  
**Ephrem P. Fernandez**, B.A., University of Western Australia; M.A., Miami University; Ph.D., The Ohio State University  
**R. Reed Hunt**, B.A., College of William and Mary; M.A., Wake Forest University; Ph.D., University of New Mexico  
**Augustine Osman**, B.A., M.A., Ph.D., West Virginia University
ASSOCIATE PROFESSORS

Michael Baumann, B.A., Northwestern University; M.S., Ph.D., University of Illinois
Thomas R. Coyle, B.A., M.A., Florida Atlantic University; Ph.D., University of Florida
James R. Dykes, B.A., Ph.D., The University of Texas at Austin
Ann R. Eisenberg, B.A., M.A., Johns Hopkins University; Ph.D., University of California, Berkeley
Dorothy A. Flannagan, B.A., University of South Carolina; M.A., University of Richmond; Ph.D., North Carolina State University
Robert W. Fuhrman, B.A., St. Louis University; A.M., Ph.D., University of Illinois
Stella D. Lopez, B.A., Southern Methodist University; Ph.D., The University of Texas at Arlington
Mary E. McNaughton-Cassill, B.A., M.A., University of California, Santa Barbara; Ph.D., University of California, San Diego/San Diego State University
David R. Pillow, B.A., The University of Texas at Arlington; M.A., Ph.D., Arizona State University
Michael P. Ryan, B.A., Pomona College; Ph.D., Stanford University

ASSISTANT PROFESSORS

Brenda Hannon, B.A., York University; M.A., Ph.D., University of Toronto
Michelle Little, B.A., Yale University; M.A., University of Delaware; Ph.D. Temple University
Deborah L. Mangold, B.S., Johns Hopkins University; M.A., Loyola College in Maryland; Ph.D., Howard University
Rebekah E. Smith, B.S., Tulane University; M.A., Ph.D., The University of North Carolina at Greensboro
Tina Zawacki, B.S., Grand Valley State University; M.A., Ph.D., Wayne State University

DEPARTMENT OF SOCIOLOGY

PROFESSORS

John P. Bartkowski, B.S., St. Mary’s University; M.A., Ph.D., The University of Texas at Austin
A. Derral Cheatwood, B.A., Oklahoma State University; M.A., Ph.D., The Ohio State University
Harriett D. Romo, B.A., The University of Texas at Austin; M.A., University of California, Los Angeles; M.A., Ph.D., University of California, San Diego
Xiaohe Xu, B.A., Sichuan University, P.R. China; M.A., Michigan State University; Ph.D., University of Michigan

ASSOCIATE PROFESSORS

Jeffrey A. Halley, B.A., Hobart and William Smith Colleges; M.A., New School for Social Research; Ph.D., City University of New York
Richard Lewis, B.S., Texas Tech University; M.S., Ph.D., Texas A&M University
Raquel Marquez, B.S., Southwest Texas State University; M.A., Ph.D., University of Texas at Austin
Michael V. Miller, B.S., M.S., Ph.D., Texas A&M University
Cherylon Robinson, B.A., Texas Tech University; M.A., The University of Texas at El Paso; Ph.D., The University of Texas at Austin
Thankam S. Sunil, B.S., M.S., University of Kerala; M.PH., Ph.D., International Institute for Population Sciences; M.PH., University of North Texas Health Science Center; Ph.D., University of North Texas

ASSISTANT PROFESSORS

Gabriel A. Acevedo, B.A., University of Saint Thomas; M.A., M.Phil., Ph.D., Yale University
Ginny E. Garcia, B.S., M.A., Ph.D., Texas A&M University
COLLEGE OF PUBLIC POLICY

DEPARTMENT OF CRIMINAL JUSTICE

PROFESSORS

Juanita M. Firestone,  B.A., Black Hills State University; M.A., Ph.D., The University of Texas at Austin
Patricia M. Harris,  B.A., M.A., Ph.D., Rutgers, The State University of New Jersey
J. Mitchell Miller,  B.S., M.C.J., Middle Tennessee State University; Ph.D., University of Tennessee

ASSOCIATE PROFESSORS

Leanne F. Alarid,  B.A., University of Northern Colorado; M.A., Ph.D., Sam Houston State University
Roger Enriquez,  B.B.A., The University of Texas at San Antonio; J.D., University of Iowa, College of Law
Michael J. Gilbert,  B.A., M.A., University of New Hampshire; Ph.D., Arizona State University
Cynthia Perez McCluskey,  B.A., University of California, Irving; M.A., Ph.D., University at Albany, State University of New York
John McCluskey,  B.A., M.A., Ph.D., University at Albany, State University of New York

ASSISTANT PROFESSORS

Richard D. Hartley,  B.S., M.S., Minot State University; Ph.D., University of Nebraska at Omaha
Holly Ventura Miller,  B.A., University of Maryland; M.C.J., Ph.D., University of South Carolina
Byongook Moon,  B.A., Daegu University, South Korea; M.S., Ph.D., Michigan State University
Tanya Settles,  B.A., Metropolitan State College of Denver; M.P.A., Ph.D., University of Colorado at Denver
Michael Tapia,  B.A., St. Mary’s University; M.A., The University of Texas at San Antonio; Ph.D., The Ohio State University
Marie Tilley,  B.A., University of Dayton; M.S., Ph.D., University of Cincinnati
Robert Tilley,  B.A., M.A., Simon Fraser University, Vancouver; Ph.D., University of Cincinnati

DEPARTMENT OF DEMOGRAPHY AND ORGANIZATION STUDIES

PROFESSORS

Karl Eschbach,  B.A., University of Pennsylvania; M.A., Ph.D., Harvard University
Lloyd B. Potter,  B.S., Texas A&M University; M.S., University of Houston, M.P.H., Emory University; Ph.D., The University of Texas at Austin
Mary Zey,  B.S., Louisiana Polytechnic Institute; M.S., Florida State University; Ph.D., Louisiana State University; Post Doctorate, University of Wisconsin-Madison

ASSISTANT PROFESSORS

Nazrul Hoque,  B.A., M.A., University of Rajshahi, India; M.A., University of Waterloo; Ph.D., Pennsylvania State University
Corey Sparks,  B.A., M.A., University of Tennessee; Ph.D., Pennsylvania State University
P. Johnelle Sparks,  B.A., M.A., Pennsylvania State University; M.A., University of Sydney; Ph.D., Pennsylvania State University
Don R. Warren,  B.A., University of Oklahoma; M.A., Ph.D., University of Hawaii; Post Doctorate Fellowship, University of Houston and the Houston Heart Institute

JOINT PROGRAM FACULTY

PROFESSORS

Benjamin S. Bradshaw,  B.A., M.A., The University of Texas at Austin; Ph.D., Brown University
Antonio Furino,  J.D., University of Rome; M.A., Ph.D., University of Houston
Jimmy L. Perkins,  B.A., The University of Texas at Austin; M.S., Ph.D., The University of Texas School of Public Health, Houston
ASSOCIATE PROFESSORS

John Herbold, B.S., D.V.M., Texas A&M University; M.P.H., University of North Carolina at Chapel Hill; Ph.D., The Ohio State University
Stephanie L. McFall, B.A., Indiana University; M.A., Ph.D., University of North Carolina at Chapel Hill
Frank Moore, B.A., M.S., Oklahoma State University; Ph.D., University of Oklahoma
David W. Smith, B.A., M.A., M.P.H., Ph.D., University of Michigan
Thankam S. Sunil, B.S., M.S., University of Kerala, India; M.P.S., M.Phil., Deemed University, India; M.P.H., University of North Texas Health Science Center, Fort Worth; Ph.D., Deemed University, India; Ph.D., University of North Texas

ASSISTANT PROFESSORS

Shannon P. Marquez, B.S., Prairie View A&M University; M.S., Texas A&M University; Ph.D., University of North Carolina at Chapel Hill
William D. Spears, B.A., M.A., Texas Tech University; Ph.D., The University of Texas School of Public Health, Houston

DEPARTMENT OF PUBLIC ADMINISTRATION

PROFESSOR

Heywood T. Sanders, B.A., Johns Hopkins University; Ph.D., Harvard University

ASSOCIATE PROFESSORS

Christopher Reddick, B.A., M.A., M.B.A., University of Guelph; Ph.D., University of Sheffield
Francine Sanders-Romero, B.A., California State University; M.A., Ph.D., University of California, Riverside

ASSISTANT PROFESSORS

Tansu Demir, B.S., M.A., Hacettepe University, Ankara, Turkey; Ph.D., School of Public Administration, Florida Atlantic University
Reneé Nank, B.A., M.P.A., Kent State University; Ph.D., Cleveland State University
Branco Ponomariov, B.A., Sofia University, Sofia, Bulgaria; M.A., Central European University, Warsaw, Poland; Ph.D., Georgia Institute of Technology

DEPARTMENT OF SOCIAL WORK

PROFESSORS

Rosalie Ambrosino, B.A., University of Minnesota; M.Ed., Antioch University; Ph.D., The University of Texas at Austin
Richard J. Harris, B.A., Macalester College; M.A., Ph.D., Cornell University
Dennis T. Haynes, B.S., Brigham Young University; M.S.W., California State University, Fresno; Ph.D., Florida State University

ASSOCIATE PROFESSORS

Mary K. Houston-Vega, B.A., Colorado State University; M.S.W., University of Denver; Ph.D., University of Southern California
Goutham Menon, B.A., M.A., Loyola College-University of Madras, India; Ph.D., University of Illinois

ASSISTANT PROFESSORS

Jolyn Mikow, B.S., The University of Texas at Austin; M.S.W., Our Lady of the Lake University; Ph.D., University of Houston
Maureen Rubin, B.A., M.A., University of Madras, India; M.S.W., University of Illinois; Ph.D., University of South Carolina
COLLEGE OF SCIENCES

DEPARTMENT OF BIOLOGY

PROFESSOR EMERITUS
Matthew J. Wayner, A.B., Dartmouth College; M.S., Tufts University; Ph.D., University of Illinois

PROFESSORS
Deborah L. Armstrong, B.A., Hiram College; M.S., Ph.D., Syracuse University
Bernard Arulanandam, B.S., Minnesota State University; Ph.D., Medical College of Ohio
James Bower, B.S., Montana State University; Ph.D., University of Wisconsin
James P. Chambers, B.A., St. Mary's University; M.A., Incarnate Word College; Ph.D., The University of Texas Health Science Center at San Antonio
Garry Cole, B.A., Carleton University, Canada; Ph.D., University of Waterloo, Canada
Brian E. Derrick, B.S., University of California, Los Angeles; M.A., Ph.D., University of California, Berkeley
Thomas Forsthuber, B.S., Kepler-Gymnasium, Reutlingen, Germany; M.D., Ph.D., University of Tubingen, Germany
M. Neal Guentzel, B.A., M.A., Ph.D., The University of Texas at Austin
Luis S. Haro, B.A., University of California, San Diego; Ph.D., University of California, Santa Cruz
Hans W. Heidner, B.S., California Polytechnic State University; M.S., North Carolina State University; Ph.D., University of California, Davis
David B. Jaffe, B.A., B.S., The University of Texas at Austin; M.S., Duke University; Ph.D., Baylor College of Medicine
Karl Klose, B.A., University of California, San Diego; Ph.D., University of California, Berkeley
Jose Lopez-Ribot, B.S., M.D., Ph.D., University of Valencia, Spain
Andrew O. Martinez, B.S., College of Santa Fe; M.S., Ph.D., University of Arizona
Joe L. Martinez, Jr., B.A., University of San Diego; M.S., New Mexico Highlands University; Ph.D., University of Delaware
John R. McCarrey, B.S., M.S., Ph.D., University of California, Davis
Robert D. Renthal, B.A., Princeton University; Ph.D., Columbia University
Judy Teale, B.S., Pennsylvania State University, Ph.D., University of Virginia
Andrew T. C. Tsin, B.S., Dalhousie University; M.S., Ph.D., University of Alberta
Oscar W. Van Auken, B.S., High Point College, North Carolina; M.S., Ph.D., University of Utah
Charles J. Wilson, B.A., M.A., Ph.D., University of Colorado at Boulder

ASSOCIATE PROFESSORS
Edwin J. Barea-Rodriguez, B.A., Inter-American University of Puerto Rico; M.A., Ph.D., Southern Illinois University
J. Aaron Cassill, B.A., Harvard University; Ph.D., University of California, San Diego
Matthew J. Gdovin, B.S., The University of Texas at San Antonio; Ph.D., Dartmouth College
Richard G. Le Baron, B.S., Louisiana State University; Ph.D., University of Alabama at Birmingham
Martha J. Lundell, B.A., University of Colorado; Ph.D., University of California, Los Angeles
Christopher Navarra, B.S., Ph.D., University of Wisconsin-Madison
Clyde F. Phelix, B.A., State University of New York; Ph.D., University of Missouri
David M. Senseman, B.S., Kent State University; M.S., Ph.D., Princeton University
Valerie Sponsel, B.Sc., Ph.D., University of Wales, U.K.; D.Sc., University of Bristol, U.K.
Garry Sunter, B.S., Chelsea College, University of London, U.K.; Diploma of Imperial College; Ph.D., University of London, U.K.
Yufeng Wang, B.S., Fudane University, China; M.S., Ph.D., Iowa State University

ASSISTANT PROFESSORS
G. Jilani Chaudry, B.S., The University of Texas at Tyler; M.S., Ph.D., The University of Texas at Dallas
Jurgen E. Engelberth, B.S., M.S., Rheinische-Friedrich-Wilhelms-Universitat, Bonn, Germany; Ph.D. Ruhr-Universitat, Bochum, Germany
Gary Gaufo, B.A., M.A., Ph.D., University of California, Berkeley
Paul Mueller, B.S., University of Wisconsin-Milwaukee; Ph.D., California Institute of Technology  
Carlos Paladini, B.A., Ph.D., Rutgers University  
Rama Ratnam, B.T., Indian Institute of Technology; Ph.D., University of Illinois at Urbana-Champaign  
Fidel Santamaria, B.S., Mexico National University, Mexico; Ph.D., California Institute of Technology  
Stephen P. Saville, B.S., Wolverhampton University England; Ph.D., Leicester University, England  
Janakiram Seshu, B.V.S., Madras Veterinary College, India; Ph.D., Washington State University  
Kelly J. Suter, B.A., B.S., M.S., West Virginia University; Ph.D., University of Pittsburgh  
Todd W. Troyer, B.A., Washington University in St. Louis; Ph.D., University of California, Berkeley  
Tao Wei, M.D., Henan Medical Institute, China; Ph.D., Uppsala University, Sweden  
Nicole Wicha, B.A., The University of Texas at San Antonio; M.S., Ph.D., University of California, San Diego  
Floyd Wormley, B.S., Tulane University; M.S., Ph.D., Louisiana State University Health Science Center

DEPARTMENT OF CHEMISTRY

PROFESSOR EMERITUS

B. S. Thyagarajan, B.S., Loyola College, India; M.S., Ph.D., Presidency College, India

PROFESSORS

Walter C. Ermler, B.S., Northern Illinois University; M.S., Ph.D., The Ohio State University  
John H. Frederick, A.B., Princeton University; A.M., Ph.D., Harvard University  
Waldemar Gorski, M.S., Ph.D., Warsaw University  
Harry W. Jarrett, B.S., University of South Carolina at Columbia; Ph.D., University of North Carolina at Chapel Hill  
Donald M. Kurtz, B.S., University of Akron; Ph.D., Northwestern University  
George R. Negrete, B.S., Stanford University; Ph.D., University of California, Santa Cruz  
Edward R.T. Tiekink, B.Sc. (Hons), Ph.D., University of Melbourne  
Judith A. Walmsley, B.A., Florida State University; Ph.D., University of North Carolina at Chapel Hill

ASSOCIATE PROFESSORS

Stephan B.H. Bach, B.S., B.A., University of Cincinnati; Ph.D., University of Florida  
Hyunsoo Han, B.S., Kyung-Pook National University; M.S., Seoul National University; Ph.D., Princeton University  
Ghezai T. Musie, B.S., Asmara University, Eritrea; M.S., Sam Houston State University; Ph.D., Texas A&M University  
Cong-Gui Zhao, B.S., Tongji University, Shanghai, China; M.S., Chinese Academy of Sciences, China; Ph.D., University of Würzburg, Germany

ASSISTANT PROFESSOR

Carlos D. Garcia, B.S., Ph.D., National University of Córdoba, Argentina

DEPARTMENT OF COMPUTER SCIENCE

PROFESSORS

Rajendra V. Boppana, B.Tech., University of Mysore; M.Tech., Indian University of Technology; Ph.D., University of Southern California  
Anthony T. Chronopoulos, B.S., University of Athens, Greece; M.S., University of Minnesota; Ph.D., University of Illinois  
Kleanthis Psarris, B.S., National University of Athens, Greece; M.S., Ph.D., Stevens Institute of Technology  
Kay A. Robbins, S.B., Ph.D., Massachusetts Institute of Technology  
Steve Robbins, S.B., S.M., Ph.D., Massachusetts Institute of Technology  
Ravi Sandhu, B.Tech., Indian Institute of Technology, Bombay; M.Tech., Indian Institute of Technology, New Delhi; M.S., Ph.D., Rutgers University
ASSOCIATE PROFESSORS

Thomas C. Bylander, B.S., University of South Dakota; M.S., Ph.D., The Ohio State University
Daniel A. Jimenez, B.S., M.S., The University of Texas at San Antonio; Ph.D., The University of Texas at Austin
Turgay Korkmaz, B.S., Hacettepe University, Ankara, Turkey; M.S., Bilkent University, Ankara, Turkey; M.S., Syracuse University; Ph.D., University of Arizona
Hugh B. Maynard, B.S., California Institute of Technology; M.S., Ph.D., University of Colorado at Boulder
Qi Tian, B.E., Tsinghua University, Beijing, China; M.S., Drexel University; Ph.D., University of Illinois at Urbana-Champaign
Carola Wenk, M.Sc., Ph.D., Freie Universität Berlin, Germany
Greg B. White, B.S., Brigham Young University; M.S., Air Force Institute of Technology; Ph.D., Texas A&M University, College Station
WilliamWinsborough, B.A., M.S., Ph.D., University of Wisconsin-Madison
Weining Zhang, B. Engr., University of Electronic Science and Technology of China, Chengdu, P.R. China; M.S., Ph.D., University of Illinois at Chicago

ASSISTANT PROFESSORS

Chia-Tien Dan Lo, B.A., National Chung-Hsing University, Taichung, Taiwan; M.S., National Taiwan University, Taipei, Taiwan; Ph.D., Illinois Institute of Technology
Jianwei Niu, B.Sc., M.Sc., Jilin University, Changchun, P.R. China; Ph.D., University of Waterloo, Canada
Jianhua Ruan, B.S., University of Science and Technology of China, Hefei, China; M.S., California State University, San Bernardino; Ph.D., Washington University in St. Louis
Ali S. Tosun, B.S., Bilkent University, Ankara, Turkey; M.S., Ph.D., The Ohio State University
Jeffery von Ronne, B.S., Oregon State University; M.S., Ph.D., University of California, Irvine
R. Clint Whaley, B.S., Oklahoma State University, Goodwell; M.S., University of Tennessee, Knoxville; Ph.D., Florida State University
Shouhuai Xu, Ph.D., Fudan University, Shanghai, P.R. China
Qing Yi, B.S., Shandong University, P.R. China; M.S., Institute of Computing Technology, Chinese Academy Cinica, P.R. China; M.S., Ph.D., Rice University
Ki Hwan Yum, B.S., Seoul National University, Seoul, Korea; M.S., Pohang University of Science and Technology, Pohang, Korea; Ph.D., The Pennsylvania State University
Daikai Zhu, B.E., Xi’an Jiaotong University, Xi’an Shanxi, P.R. China; M.E., Tsinghua University, Beijing, P.R. China; M.S., Ph.D., University of Pittsburgh

DEPARTMENT OF GEOLOGICAL SCIENCES

PROFESSOR EMERITUS

Robert K. Smith, B.S., Washington State University; M.S., Ph.D., University of Iowa

PROFESSOR

Eric R. Swanson, B.S., Western Michigan University; M.A., Ph.D., The University of Texas at Austin

ASSOCIATE PROFESSORS

Stuart J. Birnbaum, B.S., State University of New York at Stony Brook; Ph.D., Cambridge University
Alan R. Dutton, B.A., University of Rochester; Ph.D., The University of Texas at Austin
Weldon W. Hammond, Jr., B.A., M.A., Ph.D., The University of Texas at Austin
Judith K. Haschenburger, B.A., University of Nebraska at Kearney; M.A., Arizona State University; Ph.D., The University of British Columbia
Lance L. Lambert, B.S., M.S., Texas A&M University; Ph.D., University of Iowa
ASSISTANT PROFESSORS

Kyle E. Murray, B.A., Shippensburg University; M.S., Wright State University; Ph.D., Colorado School of Mines
Hongjie Xie, B.S., East China Institute of Technology; M.S., Beijing Research Institute of Uranium Geology and China University of Geosciences; Ph.D., The University of Texas at El Paso

DEPARTMENT OF MATHEMATICS

PROFESSORS

Shair Ahmad, B.S., M.S., University of Utah; Ph.D., Case Western Reserve University
Manuel P. Berriozábal, B.S., Rockhurst College; M.S., University of Notre Dame; Ph.D., University of California, Los Angeles
Youn-Min Chou, B.S., National Taiwan University; M.S., The University of Texas at El Paso; Ph.D., Southern Methodist University
Dung Le, B.Sc., University of Saigon, Vietnam; M.S., International Center for Theoretical Physics, Italy; Ph.D., Arizona State University
Kathleen Cage Mittag, B.S., M.S., Texas A&I University; Ph.D., Texas A&M University
Gelu F. Popescu, B.S., University of Timisoara; M.S., University of Bucharest; Ph.D., Texas A&M University
Walter B. Richardson, Jr., B.S., Southwest Texas State University; M.S., University of Houston; Ph.D., University of North Texas
Nikos A. Salingaros, B.S., University of Miami; M.A., Ph.D., State University of New York at Stony Brook
Lucio Tavernini, B.S.E.E., Heald Engineering College; M.S., University of Colorado at Boulder; M.S., Ph.D., University of Wisconsin-Madison
Betty S. P. Travis, B.A., M.S., St. Mary’s University; Ph.D., The University of Texas at Austin
Gregory P. Wene, B.A., M.A., The University of Texas at Austin; Ph.D., University of Iowa
Lawrence R. Williams, B.S., Texas Southern University; M.A., Ph.D., University of Michigan
Raj Wilson, B.S., M.S., University of Madras, India; Ph.D., Stevens Institute of Technology

ASSOCIATE PROFESSORS

Weiming Cao, B.Sc., Nanjing University, China; M.Sc., Ph.D., Shanghai University of Science and Technology, China
Fengxin Chen, B.S. Hangzhou University, China; M.S., Yunnan University, China; Ph.D., Brigham Young University
Dmitry Gokhman, B.S., University of Miami; Ph.D., University of California, Berkeley
José N. Iovino, B.A., M.S., Universidad de los Andes, Columbia; Ph.D., University of Illinois at Urbana-Champaign
F. Alexander Norman, B.A., University of Virginia; M.A., Ed.D., University of Georgia

ASSISTANT PROFESSORS

Armando Arciniega, B.A., M.A., Eastern New Mexico University; Ph.D., Texas Tech University
Eduardo Duenez, B.S., University of Guanajuato; M.S., Ph.D., Princeton University

DEPARTMENT OF PHYSICS AND ASTRONOMY

PROFESSORS

Chonglin Chen, B.S., Huachiao University, P.R. China; M.S., Chinese Academy of Sciences, P.R. China; M.S., Ph.D., The Pennsylvania State University
Liao Y. Chen, B.S., Xingyang Normal College, Henan; M.S., Huazhong University of Science Technology, Wuhan; Ph.D., Academia Sinica, Beijing
Patrick L. Nash, B.S., University of Arizona; Ph.D., University of North Carolina at Chapel Hill
Dhiraj K. Sardar, B.S., M.S., University of Calcutta; Ph.D., Oklahoma State University
Miguel Jose Yacaman, B.Sc., M.Sc., Ph.D., University of Mexico
ASSOCIATE PROFESSORS

Arturo Ayon, B.S., Universidad de Guadalajara, Mexico; M.S., Ph.D., Cornell University
Eric M. Schlegel, B.Sc., State University of New York, Albany; Ph.D., Indiana University

ASSISTANT PROFESSORS

Lorenzo Brancaleon, B.S., Ph.D., University of Parma, Italy
Andrey Chabanov, M.S., Kharkov State University, Ukraine; D.Sc. Ukrainian Academy of Sciences, Ukraine; Ph.D., City University of New York
Zlatko Koinov, M.S., University of Sofia, Bulgaria; Ph.D., D.Sc., St. Petersburg Electrotechnical University, Russia
Xochitl Lopez-Lozano, B.Sc., M.Sc., Ph.D., Universidad Autónoma de Puebla, Mexico
Rafael López-Mobilia, B.S., Pontifica Universidad Catolica Del Peru; M.S., University of Notre Dame; Ph.D., The University of Texas at Austin
Xomalin Peralta, B.Sc., University of Mexico; M.A., Ph.D., University of California, Santa Barbara

ADJOINT PROFESSORS

Geoffrey Crowley, B.Sc. (Hons.), University of Durham, U.K.; Ph.D., University of Leicester, U.K.
Stefano Livi, Ph.D., Max-Planck-Institut für Aeronomie
David McComas, B.S., Massachusetts Institute of Technology; M.S., Ph.D., University of California, Los Angeles
Craig Pollock, B.A., Siena College; Ph.D., University of New Hampshire
J. Hunter Waite, Jr., B.S., University of Alabama; M.S., Ph.D., University of Michigan

ADJOINT ASSOCIATE PROFESSORS

Daniel C. Boice, B.S., Brigham Young University; M.S., Ph.D., New Mexico State University
Mihir Desai, B.Sc., University of London, U.K.; Ph.D., University of Birmingham, U.K.

ADJOINT ASSISTANT PROFESSORS

Frédéric Allegrini, B.S., Vaud School of Engineering, Switzerland; M.S., University of Lausanne, Switzerland; Ph.D., University of Bern, Switzerland
Jerry Goldstein, B.S., Brooklyn College; Ph.D., Dartmouth College
Jörg-Micha Jahn, M.S., Ludwig-Maximilans-Universität München, Germany; Ph.D., Dartmouth College
Philip Valek, B.S., Illinois State University; M.S., Ph.D., Auburn University

COLLEGE PROGRAM IN ENVIRONMENTAL SCIENCE

ASSISTANT PROFESSORS

Adria Bodour, B.S., M.S., Ph.D., The University of Arizona
Janis Bush, B.S., M.S., The University of Texas at San Antonio; Ph.D., The University of Texas at El Paso
Paul Jurena, B.S., M.S., The University of Texas at San Antonio; Ph.D., Texas A&M University
