WHY CHOOSE UTSA REVERSE 911 CAMPUS EMERGENCY NOTIFICATION?

- When an emergency hits, UTSA has minutes to mobilize personnel and safeguard students.
- Within minutes 1000s can be contacted with vital information.
- The same system used to contact evacuees during the San Diego, California Wildfires in 2007.
- By taking a few moments to update information you can be a part of the UTSA Emergency Notification System.

Protecting Your Future... Today

THE UNIVERSITY OF TEXAS AT SAN ANTONIO
Police Department
The Office of Business Continuity & Emergency Management

Phone: 210-458-6851
Fax: 210-458-7602
www.utsa.edu/oep
When an emergency happens, UTSA wants to be able to contact you. The University wants to give you information on the type of emergency, its location, and protective actions to be taken at the time of the incident.

Our Reverse 911 system enables us to rapidly send notifications to all registered students, faculty, and staff in an affected area in the event of an emergency. If phone lines are busy, the system will attempt to redial those telephone numbers to make contact. If an answering machine picks up the call, the emergency message will be left on the machine. If a text message is the preferred means of contact, our system can contact you that way as well.

Signing up is easy. Just log onto ASAP and fill in the REVERSE 911 Contact Information.
