The U. T. System Board of Regents has adopted *Regents’ Rules and Regulations*, Rule 20203, relating to compensation for key executives. Key executives are defined as the Chancellor, General Counsel to the Board, Chief Audit Executive, Executive Vice Chancellors, presidents of each of the U. T. System academic and health institutions, and Vice Chancellors. Rule 20203 states that the elements of compensation for key employees “may include and are limited to base salary; short and long-term incentive pay; supplemental retirement plans, such as deferred compensation plans; one-time merit pay; special provisions necessary to recruit an individual to a key executive position, such as salary supplement for a limited time or one-time relocation payment as necessary and prudent to recruit the top talent for the position; and perquisites such as memberships, parking privileges, and provision of or allowance for cell phone and/or other mobile communication devices as determined necessary for business purposes and as covered in individual agreements.”

Rule 20203, Section 2 outlines procedures for the Office of the Board of Regents to oversee and conduct a comprehensive survey and analysis to obtain current and reliable market data on total compensation of key executives in comparable positions at peer institutions. Market data

is adjusted using cost of living information related to a respondent's geographic region. The survey is conducted every three years. In non-survey years, the Office of the Board of Regents is to obtain information concerning general changes in executive compensation in the marketplace, and the comprehensive survey is to be adjusted accordingly.

In August 2020, a Higher Education Leadership Compensation Survey was prepared by Korn Ferry related to key executives and presented to the U. T. System Board of Regents. The Office of the Board of Regents selected Korn Ferry through a competitive process to prepare the compensation analysis. The updated report indicated that U. T. System continues to maintain a competitive position relative to market medians for health and academic peer organizations (comparable public and private higher education systems and institutions).

For UTSA executive positions, other than the President, relevant market data is based on the College and University Professional Association for Human Resources (CUPA) Administrative Salary Survey. Within the survey, the specific comparator group of Doctoral/Research Universities provides market data.

System to accept gifts, grants, donations, or other consideration specifically designated by a donor for salary supplements.
