

AUTHORITY

The University of Texas (UT) System Policy UTS129, *Internal Audit Activities* authorizes the establishment of an Institutional Audit Committee (Committee). Exhibit A of UTS Policy 129 notes, "Each institution will organize and maintain an institutional audit committee."

PURPOSE

The University of Texas at San Antonio Audit Committee is an essential part of the risk management and internal control infrastructure of the institution and The University of Texas System. Its primary responsibilities are to assist and advise the UT System Audit, Compliance, and Risk Management Committee (ACRMC) and the institution's President in the following matters:

- Oversight of management activities and processes put in place to manage business risk to the institution's mission(s) and objectives;
- Oversight and direction of the internal audit function to ensure alignment of activities with areas of high risk and/or high potential for adding organizational value;
- Oversight of any external audit firms and review of their results; and
- Evaluation of risks identified by management or through audit, advising management and elevating reporting of risk management and audit activities to the UT System (through internal audit or direct processes), including the ACRMC.

ROLES

Membership in the Audit Committee is made up of members who are external to the University and who are appointed by the President. The Audit Committee may include the President of the Institution. At least three Audit Committee members must be external to the Institution and the Committee Chair must be one of the external members. The external members will serve three-year terms with the eligibility to be appointed to one additional three-year term. The Committee Chair will serve for one year with the ability to be reappointed annually for the length of his or her term. The Committee Chair will be nominated by the President of the Institution and approved by the Chair of the ACRMC. At the discretion of the Committee Chair, certain members of Executive Management will be invited guests. The Committee is functionally responsible to the ACRMC and assists the ACRMC in discharging its oversight duties for the UT System. This is accomplished as the Committee carries-out its responsibilities, as defined in this charter. The Committee Chair has direct access to the ACRMC Chair; however, most of the reporting and coordination of information is administratively facilitated through the Chief Audit Executive of the UT System.

Generally, the external Audit Committee members must be independent and objective, have management or governance leadership experience and possess skills which will complement the profile of skill to be held by an Audit Committee. Such skills include but are not limited to financial and technology acumen, academic industry awareness, and basic risk and control understanding. Internal Audit and Management can aid members in seeking material and education to maintain current and adequate member skill. All members of the Audit Committee should attend orientation which is provided by the Institutional internal audit organization.

MEETINGS

The Audit Committee meets quarterly, with the authority to convene additional meetings as necessary. The meetings should provide for direct communication between the Committee Members and the Chief Audit Executive. Evidence of actions taken by the Audit Committee should be reflected in recorded minutes. A majority of members constitutes a quorum and attendance should be recorded in the minutes.
