Be Prepared!
Make a Plan!
Stay Informed!

Just three simple steps will help you prepare for emergencies:

**Make an emergency supply kit**— Keep basic supplies on hand for at least three days in the event an emergency occurs.

**Make an emergency plan**— You and your loved ones may not be together when an emergency occurs, so plan how you will contact one another and practice what you will do in different situations.

**Stay informed**— Know the different types of emergencies and stay on top of developing situations.

When disaster strikes and disrupts normal activities where you live, work or attend school, what will you do?

The answer is to prepare now.

You can protect yourself and others around you during emergencies by knowing potential hazards and how to respond.

☐ I have signed up for the UTSA (ENS) Emergency Notification System through ASAP.
☐ I have the UTSA app on my phone and know how to reach the UTSA police dept.
☐ I have the LiveSafe app on my phone to call for help, report incidents, and suspicious activity to the UTSA Police Department.
☐ I have written all my emergency contacts phone numbers down in the event my cell phone does not work.
☐ I have devised a plan with family and friends in the event of an emergency. My family and friends know how to contact me or each other should I be unable to call.
☐ I know multiple ways to exit every building I enter should the primary exits be blocked.
☐ I know where I should seek shelter at home, school, or work in the event that it unsafe for me to exit the building during a severe weather or emergency event.
☐ I know where to access or receive information should there be an emergency on or off campus.
☐ I have followed UTSA OEM on social media and bookmarked the Campus Alerts website: www.alerts.utsa.edu.

Suggested items for Ready-Kit:
- 1-gallon of water per person per day
- Non-perishable food items
- Flashlight with extra batteries
- First aid kit
- Cell phone charger
- Local/campus map
- Insurance/Identification
- Medications/dietary items
- Whistle to signal for help
- Important documents
- Dust mask to filter contaminated air
- Can opener for food
