

Related Employment for Graduates with a B.S. in Environmental Science

This degree will provide the multidisciplinary knowledge and application required for students to be successful in the scientific dimensions of environmental occupations. The growing complexity of environmental problems are creating a need for scientists with rigorous, interdisciplinary training in the sciences. Environmental scientists and specialists use their knowledge to: conduct and communicate research, advise and consult on environmental issues, manage environmental projects, conserve nature, engineer solutions, and educate others.

Table 1: Related employment for graduates with a B.S. degree in Environmental Science (2018)*

Related Employment	Number of Jobs	Projected % Change 2018-2028	Median Pay/Yr
Atmospheric and Space Scientists	10,000	10	\$94,110
Biological Technicians	85,000	7	\$45,860
Climate Change Analysts	85,000	10	\$71,130
Conservation Scientists and Foresters	32,900	3	\$62,410
Environmental Science & Protection Technicians	35,000	10	\$46,170
Environmental Scientists & Specialists	85,000	8	\$71,130
Geoscientists	31,000	6	\$91,130
Geospatial Information Scientists & Technologists	413,000	10	\$90,270
High School Teachers	1,072,500	4	\$60,320
Hydrologists	6,700	7	\$81,270
Microbiologists	21,700	5	\$75,650
Natural Sciences Managers	64,000	6	\$123,860
Project Managers**	1,080,000	6	\$107,480
Conservation Scientists	24,000	6	\$61,310
Sustainability Specialists***	1,136,000	6	\$70,530
Zoologist & Wildlife Biologist	19,000	6	\$63,420

**Wind Energy, Solar Energy Installation, Natural Sciences, Environmental Restoration

***Industrial Ecologists, Anthropologists, Transportation Managers, Urban & Regional Planners
