Upload Your Grades from a File

This option is especially helpful for faculty with large class sections, as it allows them to upload their grades directly from a text file into Banner's Web for Faculty system; however, faculty members who have their grades recorded on file can also use this option for uploading grade reporting directly into Banner.

Instructions for Downloading Class Rosters, Grade Rosters, etc.

This is a PowerPoint demo that shows faculty how to use this option.

Download Class Rosters, Grade Rosters, etc.

This option links faculty to the BusinessObjects Enterprise web-based reporting system and allows the downloading of class rosters, grade reports and other student information from the classes that faculty teach. Faculty can only access their own classes, using their Banner ASAP User ID and PIN. **For security reasons, remote access from off-campus requires Virtual Private Network (VPN) access.**
