Supervisor Instructions for Reviewing and Approving Manual Timesheets
Supervisor Instructions for Reviewing and Approving Manual Timesheets

Timesheets more than 90 days past due cannot be approved in PeopleSoft. They must be approved manually by the current supervisor. There are two scenarios when approving.

1. If approving **five weeks or less** of missing timesheets, review and sign the manual timesheet(s) received from the employee.
2. If approving **more than five weeks** of missing timesheets, a signed cover memo can be submitted in lieu of signing all; however, the employee’s signature is required on all timesheets.
