THE UNIVERSITY OF TEXAS AT SAN ANTONIO  
DEPARTMENT OF GEOLOGICAL SCIENCES  
KARST HYDROGEOLOGY

The University of Texas at San Antonio (UTSA) invites applications for a tenured position at the Associate Professor or Professor level, or a tenure-track position at the Associate Professor level, depending upon qualifications, beginning in Fall 2012 in Karst Hydrogeology.

This faculty position is in the Department of Geological Sciences, which offers Bachelor’s and Master’s degrees in Geology. Faculty also supervises students in the Environmental Science M.S. program and in the Environmental Science and Engineering doctoral program. Opportunities exist for multi-disciplinary collaboration with faculty and students in Chemistry, Civil and Environmental Engineering, and Environmental Science.

**Responsibilities include:**  1) research, including multi-disciplinary and collaborative projects, 2) teaching courses in introductory geology and undergraduate and graduate courses in hydrogeology and related geology courses, and 3) service for the Department of Geological Sciences, the College of Sciences, and the University. The successful candidate is expected to perform a key role in the Center for Water Research

**Required qualifications for Associate Professor:**  Applicants must have a Ph.D. in Geoscience or a closely related discipline with experience in applications to geological problems.  **Preferred qualifications:** A strong record of research productivity to include a record of peer-reviewed publications and demonstrated successful in attracting extramural funding. An outstanding record of teaching and graduate student supervision.

**Required qualifications for Full Professor:**  Applicants must have a Ph.D. in Geoscience or a closely related discipline with experience in applications to geological problems.  **Preferred qualifications:** A nationally/internationally recognized record of research productivity. Successful candidate will exhibit an outstanding record of peer-reviewed scholarship, grant activity record commensurate with academic rank, a sustained record of leadership in the field, a sustained record of outstanding teaching and graduate student supervision.

UTSA is one of the largest public universities in south Texas serving more than 30,000 students with two campuses, a main campus and a downtown campus. Nearby higher education and research institutions include the UT Health Science Center and the Southwest Research Institute. The city of San Antonio, the seventh largest city in the United States, blends cosmopolitan progress with a rich sense of history and tradition.

**Qualified applicants must submit:**  1) an original signed letter of application including an indication of the level of position for which applying, 2) a curriculum vitae, 3) a statement of research and teaching interests and experience, 4) two representative publications and 5) the names, addresses (postal and e-mail), and telephone numbers of at least three references. Applicants who are selected for interviews must be able to show proof that they will be eligible and qualified to work in the United States by time of hire. Tenure is contingent upon Board of Regents approval.
Applications: Please submit all applications in PDF format to email address geosciences@utsa.edu. Review of completed applications will begin on December 15, 2011, and continue until position is filled.

The University of Texas at San Antonio (UTSA) is an Affirmative Action/Equal Employment Opportunity Employer. Women, minorities, veterans, and individuals with disabilities are encouraged to apply. Further information about the participating departments and UTSA is available on our Web page: http://www.utsa.edu/geosci/.
