

ROTC Student Support

University College

OVERVIEW

As home to both Air Force and Army Reserve Officers' Training Corps (ROTC) programs, UTSA's University College (UC) is proud to be a part of the culture that has built San Antonio's reputation as "Military City USA." Over the last several decades, the university has prepared many dedicated and hard-working young men and women for leadership roles through its ROTC programs. Our programs are also offered through partnership agreements to cadets from Texas A&M University San Antonio, Alamo Colleges, Wayland Baptist University, and Schreiner University. While the U.S. Army and Air Force provide the framework for training and special off-campus opportunities for these cadets, UTSA creates an enriching environment to help them build a strong foundation for success. By providing the state-of-the-art classrooms, collaborative spaces, and physical resources needed to create a competitive advantage for future military leaders, UTSA's University College is an essential part of our ROTC students' futures.

CHALLENGE

To remain current with military programming that combines college electives in military science with practical and unmatched leadership training, UTSA must continue to improve its facilities and services for both academic and physical training for our ROTC cadets. To do so, the university must have available

funding to update classrooms, provide essential equipment that keeps pace with advances in technology, offer the latest cybersecurity and other specialized training, and make available other resources necessary to allow our cadets to excel and increase their readiness as future military leaders.

IMPACT

Through quality training, education, and growth that will increase their readiness to serve, the cadets in UTSA's Army and Air Force ROTC programs will leave the university prepared for careers that involve leading, managing, and motivating others through fostering teamwork. The impact of their experiences at UTSA will also follow them into their civilian lives where they will be prepared to be leaders in their professions and in their communities. The training they receive in UTSA's University College ROTC programs today will have an enduring impact on society for many years to come.

PHILANTHROPIC OPPORTUNITIES

The University of Texas at San Antonio has launched a comprehensive campaign to support UTSA's 10-Year Strategic Vision introduced by President Taylor Eighmy in 2017. **Be Bold: A Campaign for Our Future**, which also extends 10 years and has a working goal of \$500 million, is focused on providing the infrastructure and resources needed to become a model for student success and research discovery. There are several philanthropic opportunities within the University College.

Undergraduate Scholarships and **Graduate Student Fellowships** make a tremendous difference in helping UTSA attract and recognize high-achieving students.

Endowed Faculty Positions help foster excellence in research and support efforts to recruit and retain highly qualified educators, researchers, and administrators.

Capital Projects provide the necessary spaces to stimulate learning, research, creativity, and collaboration among students and faculty. Our endowment levels include:

- \$3,000,000+ Distinguished Chair
- \$2,000,000+ Chair
- \$1,000,000+ Distinguished Professorship
- \$500,000+ Professorship
- \$250,000+ Faculty Fellowship
- \$100,000+ Graduate Fellowship
- \$25,000+ Undergraduate Scholarship

UTSA has multiple avenues available to make an incredible impact. Gifts made annually can provide scholarship, research, and programmatic support across all areas. Gifts made through certain assets also have many benefits and include stock, IRAs, donor advised funds, real estate, life insurance, intellectual property, collectibles, matching gifts, in-kind gifts, estate gifts, and more.

NAMING OPPORTUNITIES

The University of Texas at San Antonio also welcomes the opportunity to discuss a naming opportunity that can provide support beyond bricks and mortar. Supporting a naming opportunity can allow for major academic and programmatic transformations that will elevate UTSA to greater levels of excellence and increase its competitiveness on a global scale.
