## About The University of Texas System

The University of Texas System has served Texas for more than 135 years, improving the lives of Texans—and people all over the world—through education, health care and research at 13 academic and health institutions across the state. With an enrollment of more than 243,000 students and an operating budget of \$23.4 billion, the UT System is one of the nation’s largest public university systems of higher education.

UT institutions are powerful drivers of economic and social mobility in Texas, producing more than 60,000 degrees annually, including more than one-third of the state’s bachelor’s degrees and more than half of the state’s medical degrees. In 2019, almost half of all undergraduate degrees were awarded to students who qualified for a Pell grant based on financial need while enrolled at a UT institution. Sixty percent of undergraduates who received need-based financial aid double their parents’ income within five years of earning a UT degree.

More than three-fourths of undergraduate students secure jobs in Texas within a year after graduation, providing a skilled workforce and fueling the state’s economy. In fact, UT students who entered the Texas workforce between 2002 and 2017 had cumulative earnings through 2018 of \$268 billion. And, according to Georgetown University’s Center on Education and the Workforce, a UT degree’s return on investment is among the best in the nation.

The UT System also is one of the largest employers in the state with 21,000 faculty – including Nobel laureates and members of National Academies – and more than 85,000 health care professionals, researchers and staff.

Creating a healthier Texas is a fundamental mission of UT institutions, which award more than 15,000 health-related degrees annually. The UT System is poised to open its seventh medical school in Tyler within the next several years. UT-owned and affiliated hospitals and clinics – supported by thousands of doctors, physician assistants, nurses and other health care providers – accounted for more than 8.6 million outpatient visits and over 1.8 million hospital days in 2020.

In addition to world-class patient care, UT researchers are on the front lines of advancing treatments and therapies for deadly and debilitating diseases. Life-changing and life-saving research and invention of new technologies regularly place UT institutions among the top 10 world’s most innovative universities, according to Reuters and the National Academy of Inventors. Total research spending across the 13 UT institutions exceeds \$3 billion annually, and the UT System is No. 1 in Texas and No. 2 in the nation in federal research expenditures among public higher education systems.

With the Texas population expected to grow dramatically in the years to come, the UT System will continue to lead in driving prosperity and health for the people of the Lone Star State.

The UTSA Fact Book  
Office of Institutional Research and Analysis  
Fall 2021

## **First Time Undergraduate Student Applications**

Applied, accepted, and enrolled data come from the Coordinating Board Admissions file (CBM00B) and contains summer and fall applications. Only students who have never applied at the undergraduate level are included here. Enrollment data is for the fall semester, but in prior years it was based on the term a student applied to. Only the first-time, degree-seeking students are included in the cohorts for graduation and retention information. ## **Transfer Undergraduate Student Applications**

Applied, accepted, and enrolled data come from the Coordinating Board Admissions file (CBM00B) and contains summer and fall applications. Only students who have never applied at the undergraduate level are included here. Enrollment data is for the fall semester, but in prior years it was based on the term a student applied to. Only the first-time, degree-seeking students are included in the cohorts for graduation and retention information. ## **First Time Master's Student Applications**

Applied, accepted, and enrolled data come from the Coordinating Board Admissions file (CBM00B) and contains summer and fall applications. Only students who have never applied at the master's level are included here. Enrollment data is for the fall semester, but in prior years it was based on the term a student applied to. Only the first-time, degree-seeking students are included in the cohorts for graduation and retention information. ## **First Time Doctoral Student Applications**

Applied, accepted, and enrolled data come from the Coordinating Board Admissions file (CBM00B) and contains summer and fall applications. Only students who have never applied at the doctoral level are included here. Enrollment data is for the fall semester, but in prior years it was based on the term a student applied to. Only the first-time, degree-seeking students are included in the cohorts for graduation and retention information. ### **UTSA First Time Undergraduate Information**

This section includes data about part-time and full-time students who are first-time undergraduates at UTSA. Students who are part of the Coordinated Admissions Program (CAP) at UT Austin, and non-degree seeking students are included. Contact the Office the Institutional Research and Analysis with questions: [Institutional.Research@utsa.edu](mailto:Institutional.Research@utsa.edu)

Note: Due to changes in SAT scoring and content beginning in spring 2016, SAT scores before fall 2017 in previous Fact Books are not comparable to new scores. Beginning in fall 2017, the majority of admissions decisions considered the new version of SAT scores, so only the newer score is reported.
