4:00 P.M.

“How You Can Reduce Your Food’s Environmental Impact – EPA Region 6 ”

Abstract

I will go over several important ways we can combat climate change, water pollution, and species extinction through our food choices. Please join this live discussion and Q&A.

Biography

Stephen Sturdivant is an environmental engineer and Regional Coordinator for the United States Environmental Protection Agency Region 6’s Sustainable Management of Food Program. He has worked for the agency for over 16 years.
