For studio classes:

- Students should wear appropriate attire to class. Closed-toe shoes are encouraged, and in some studios they are required. For safety concerns loose-fitting clothing is also not recommended, and long hair should be tied-back.
- Students are asked to respect everyone’s personal space; keep a safe 6-ft distance from peers and instructors.
- Please be courteous and respectful of others. Inappropriate behavior such as the use of profanity, harassment, or sexual innuendo, dominating an instructor or student’s time, or dominating the use of equipment or shared class materials is unacceptable. Such behavior may be considered grounds for dismissal from class.
- Visitors, children, or non-registered students are only permitted in class with the advanced, expressed permission of the class instructor. Visitors are not permitted in the studios during open studio hours. For their safety and respect for others, unattended minors are not allowed in the buildings while a parent or guardian is in class or open studio.
- Cellular phones conversations should occur outside the studios. Music or other media is allowed with headphone use only.
- Open studio times are limited; a few studios areas will have limited studio practice or open studio times available. Please check with the department or your instructor.
- Please limit the number of outside supplies and tools you bring to class with you and bring in only essential items.
- Please follow individual studio requirements. The instructor’s rules concerning chemical and mechanical hazards must be strictly followed.
- Tools and studio equipment can only be used if the student is familiar and understands their operation or has the supervision of the instructor. Please report any malfunction of equipment or other maintenance problems to your instructor, studio manager or monitor.
- **CLEAN-UP:** Students are asked to participate in work-area clean up at the end of each class or open lab time. Clean around your workspace (tables & floor), leave sinks clean (no paint, ink, clay remains), and throw away all trash in the proper bin.
- And if you feel sick, please stay home, and inform your instructor or the office.
- Continued access to classes, studios and buildings is dependent upon following these guidelines as well as other protocols set forth for each studio and for students.

CERAMICS CLASSES

Studio Classes: Students that are currently registered for an in-person studio class will be allowed limited open studio access prior to the start of their class and immediately following the end of their class. Additional open studio may be available; please check with your instructor. Students should have good hand strength and coordination and be able to lift 25lbs.

Tools and Supplies: Tuition for all ceramic courses covers glaze materials and kiln firing and one 25-lb bag of clay; however, students should anticipate additional fees for extra clay, specialty underglazes, dust mask, and some tools unless otherwise noted. Supplies will be discussed at the first class. Clay (\$25 for a 25 lb bag) can be purchased online and picked up with proof of receipt during class sessions. A basic tool kit is also available for purchase during class sessions. Clay, glazes, and tools may be purchased from [Roadrunner Ceramics](#), Jerry's Art Arama, or other online retailers listed on the last page. Please bring only the basic ceramic tools and supplies you need for class into the studio.

Basic ceramic tools suggested for both Wheelthrowing and Handbuilding classes. The kit shown is available for purchase from the ceramic department or at local retailers.

STUDIO DRESS REQUIREMENTS

Closed-toed shoes are suggested and required when loading or firing in the kiln yard area. Clothing that you are comfortable getting dirty as well as avoiding loose fitting clothing is recommended.
