The University of Texas at San Antonio

Job Description

Job Title: Laboratory Safety Specialist I

Code: 14425

Salary Grade: 58

FLSA Status: Exempt

Department/Division: Laboratory Safety – Research Integrity/Vice President for Research

Reports To: Safety Manager

Summary

• <u>Function</u>: To provide knowledge and expertise in the laboratory safety program to assist the institution with compliance in chemical safety, biological safety, physical safety, radiation safety, laser safety, fire and life safety, and environmental protection in laboratories or similar work spaces.

• <u>Scope</u>: Responsible for operational oversight in safety policies and procedures

for the safe use and control of hazardous materials and all laboratory safety concerns at all UTSA Campuses, and owned or operated facilities.

Duties

• Typical:

- 1. Assists campus faculty and staff in compliance with institutional policies and programs for chemical, biological, physical, radiation, laser fire, life, and/or environmental protection safety as they pertain to laboratories or similar work spaces to include the identification of potential safety and health hazards.
- 2. Exercises discretion and judgement when making recommendations to management, conducting evaluations of potentially hazardous areas and conditions, generating reports and advising staff, students, and faculty on safe practices for potential hazards.
- 3. Provides advice to faculty, staff and students on new hazardous materials, equipment or situations being introduced to campus to ensure necessary safety precautions are taken or in place.
- 4. Interacts with equipment and hazardous material vendors, testing laboratories and contractors as required to order supplies, certify and maintain laboratory/safety equipment, or assist UTSA personnel.
- 5. Assists, as directed by supervisor, federal, state, and local officials charged with ensuring compliance with applicable regulations, guidelines, and environmental issues (i.e. CDC, DHS, EAA, EPA, OSHA, TDSHS, TCEQ, TDI/State Fire Marshal's Office).

- 6. Reviews and approves purchases of chemicals, biologicals, controlled substances and possibly radioactive materials, radiation producing machines and lasers.
- 7. Provides support to the select agent program.
- 8. Assists with investigations related to fire, health and safety accidents and/or incidents to include hazardous substance releases, fires, fall injuries and other related accidents, injuries, or exposures associated with laboratories or other similar work areas.
- 9. Performs additional duties as assigned.

• <u>Periodic</u>:

- 1. Attends conferences, meetings, and workshops to keep up-to-date on new safety techniques, best practices and changes to applicable codes and regulations.
- 2. May sit as an alternate on university safety committees.
- 3. May develop new programs or modify/extend existing programs in response to changing situations at the direction of the supervisor.
- 4. Provides general safety and health training to UTSA personnel or students.
- 5. Assists with the Chemical Inventory Program as needed.
