

The University of Texas at San Antonio

Job Description

Job Title: Hazardous Materials Management Specialist II
Job Code: 14461
Salary Grade: 62
FLSA Status: Exempt
Department/Division: Office of Research Integrity/Vice President Research, Economic Development & Knowledge Enterprise
Reports To: Hazard Material Management Manager

Summary

Function:

To provide advanced knowledge and expertise in the chemical and biological waste programs within the UTSA programs and coordinate institutional compliance in chemical safety, biological safety, or environmental protection programs.

Scope:

Responsible for operational coordination and implementation of sectional / divisional hazardous waste policies and procedures and for the safe use and control of hazardous materials, environmental concerns, and waste control at all UTSA Campuses, and owned or operated facilities.

Duties

Typical:

1. Coordinates and assists campus faculty and staff to comply with, institutional policies and programs for chemical, biological, and/or environmental protection safety to include the identification of potential safety and health hazards. Makes recommendations to management; develop policies and procedures; and advise employees, students, and faculty on using safe practices for potential hazards.
2. May in the course of normal duties, collect for processing, bulk packages and/or prepare for shipment hazardous chemical, biological or radioactive materials to include waste materials. Assists with ensuring all universal waste and recyclable materials are properly collected, stored and transported as required.
3. Interacts with equipment and hazardous material vendors, testing laboratories and contractors, environmental abatement and remediation contractors, and/or disposal companies as required. Order supplies, certify and maintain safety equipment, or assist UTSA personnel. Works with manager or coordinator to develop material and equipment specifications.
4. As directed by supervisor, assists federal, state and local officials charged with ensuring compliance with applicable regulations, guidelines, and environmental

issues (i.e. – EAA, EPA, OSHA, TXDSHS, and TCEQ, during onsite inspections or regulatory inquiries.

5. Coordinates and assists with investigations related to health and safety accidents and/or incidents to include hazardous substance releases, environmental concerns and other related accidents, injuries, or exposures.
6. Initiates preventative measures to proactively address potential health, safety, and environmental hazards.
7. Performs additional duties as assigned.

Periodic:

1. Attends conferences, meetings, and workshops to keep up-to-date on new safety techniques and changes to applicable codes and regulations and maintain certification(s).
2. Provides periodic status reports on divisional functions as required by division manager / supervisor.
3. Provides general safety and health training to University personnel.
