Overview

The Mid-Year Check-In phase of the Annual Performance Evaluation is an opportunity for managers and employees to meet for the purpose of reviewing goals that were previously set. During this time, you should add notes about progress made toward the goals. You may also adjust, add or delete goals at this time. Once this phase is complete, the goals will be finalized and no longer be editable.

Below are some tips on how to manage your performance evaluation throughout the year:

- Once the Mid-Year Check-In is finalized and the evaluation is open, employees and managers can begin entering information into the system, including adding comments and attachments.
- Add your goals as a topic for your one-on-one employee/manager meetings.
- Post your goals in a place that you can reference regularly to ensure you stay on track.

Step 6 of 7 - Meet with Manager to Review Progress

Your manager will arrange a one-on-one meeting to review your performance and progress toward your goals. During the meeting, your manager may adjust your goals by:

- Adding a goal
- Editing a goal
- Deleting a goal
- Adding to the Manager Comments

After the meeting, you may enter additional comments in the Employee Comments field. Remember that your comments are shared with your manager. If you add and save additional comments, your manager will be able to view them.
Once you and your manager have had the opportunity to view all comments in the Goals Mid-Year Check-In task, your manager will Open Evaluation.

NOTE: After your manager has finalized the mid-year review and opened the evaluation, you may begin adding attachments and comments about goal progress and performance to prepare for the final steps of the evaluation process.
