

ADVANCING STRATEGIC COLLABORATION

Tecnólogico de Monterrey & The University of Texas at San Antonio

September 29, 2023 Dr. Taylor Eighmy, UTSA President

STRATEGIC DESTINATIONS

OUR VISION FOR 2018-2028

Model for Student Success

Great Public Research University

An Innovative Place to Work, Learn and Discover

DESIGNATIONS OF EXCELLENCE

Tier One Research
Classification

Recognizes UTSA as one of USA's top 4% research institutions

Excelencia in Education Seal of Excelencia

Recognizes UTSA's leadership in advancing Latino student success

Community Engagement Classification

Highlights UTSA's commitment to serving the San Antonio region

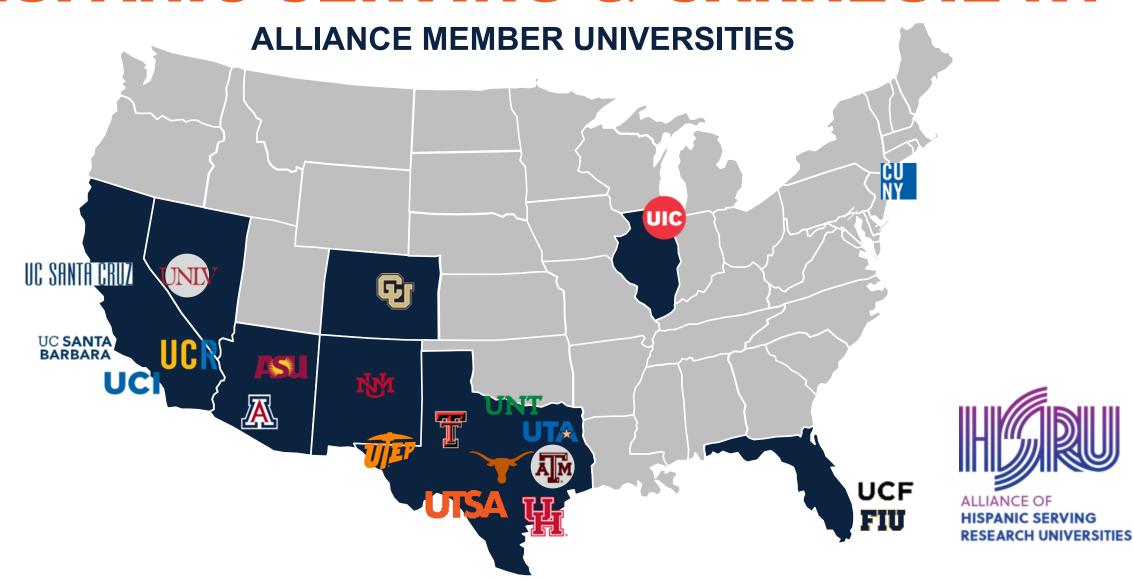

Innovation & Economic Prosperity University

Recognizes UTSA's leadership in fostering economic growth, prosperity and innovation.

HISPANIC SERVING & CARNEGIE R1

SEAL OF EXCELENCIA

INTERNATIONAL **AGREEMENTS**

123 academic + 32 research

139 INSTITUTIONS

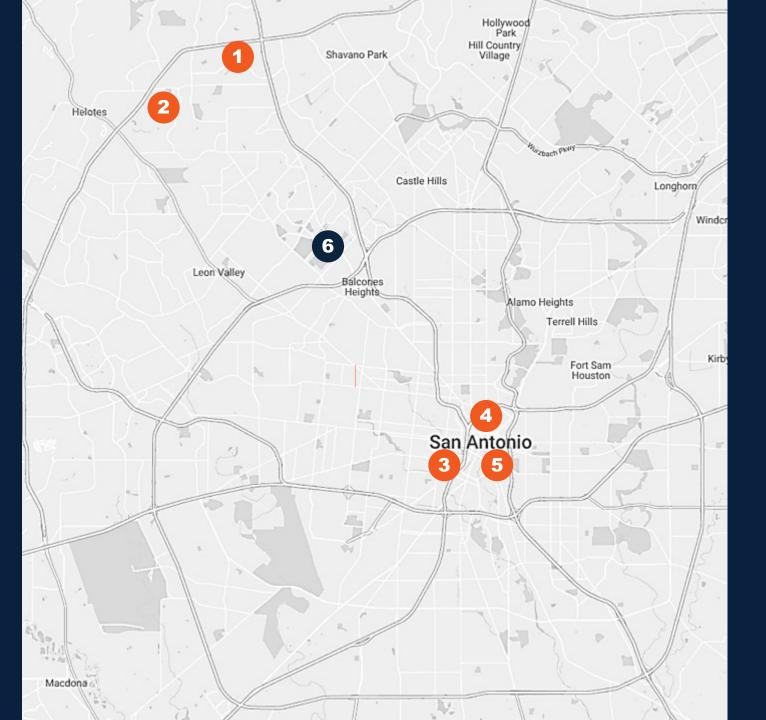

34 COUNTRIES

5 CONTINENTS

FIVE CAMPUSES ONE UNIVERSITY

UTSA is the largest university in San Antonio, which is the 7th biggest city in the United States

SCHOOL OF DATA SCIENCE

Degree & Certificate Programs

Academic Partners Include:

- Alvarez College of Business
- College of Science
- Klesse College of Engineering & Integrated Design
- University College

Strategic Partners

D¢LLTechnologies

INTENTIONAL COLLISION

University **Level Institutes**

- Matrix Al Consortium
- Open Cloud Institute
- The Cybersecurity Manufacturing Innovation Institute

Capability & Domain Labs. including:

- Cyber-Informed Engineering
- Internet of Things
- Machine Learning
- Secure Al
- Bioinformatics Research
- Computational Biology
- Next Generation Census

Our School of Data Science Community of Practice:

UC Berkeley | NYU | Rice | Stanford | Michigan | UNC | Virginia | Washington | Wisconsin

NATIONAL SECURITY COLLABORATION CENTER

Strategic Partners

MITRE

Peraton

D¢LLTechnologies

DOE Partners

Federal Partners

National Security Agency

U.S. Cybercommand

16th Air Force Information Warfare

Department of Homeland Security

Army Laboratory

Air Force Research Laboratory

Our Ecosystem

Research | Education | Workforce | Economy

STRENGTHS

- Data Science
- Cyber Security
- Artificial Intelligence
- Quantum Computing
- Semi-conductors & Materials Sciences
- Biosciences
- Health Informatics
- Academic Programs

OPPORTUNITIES

- Bilateral Mexico-Texas Economy
- Cultural Alignment
- Nearshoring
- Collaborative Ecosystem
- Now is the Right Time

Dual Master Degree in Cybersecurity

Joint Research material science, marketing, nutrition, engineering, chemistry, computer science, AI, cybersecurity

Quantum Collaborative with Arizona State University

Student Exchange summer research

Human Mobility Lab

Using VR & AR to inform human mobility in the urban environment

Peta Room, San Pedro I

Co-Located

faculty, staff & graduate students

Applies to Monterrey

and other urban environments

San Antonio

serves as a living lab

Awarded NSF Grants

totaling \$1.1M

ConTex enhances research collaborations connecting Texas and Mexico

Current Projects

Promoting Technology Entrepreneurship in Mexico Through Social Networking Skills Training

Dr. Dante Benito Castro Solano (TEC) and Dr. Teja Guda (UTSA)

Nano-colloids of Core-shell Particles as a New Approach for the Optical Sensing of Contaminants of Emerging Concern Dr. Nancy Ornelas Soto (TEC) and Dr. Kathryn Mayer (UTSA)

Design of Rotor Blades to Maximize Wind Energy Production Dr. José Francisco Herbert Acero (UTSA), ConTex Postdoctoral Fellow and TEC graduate

Dr. Solano and **Dr. Guda** with their research team

UT Health San Antonio is focused on transforming health and healthcare for a diverse society

Primary driver of San Antonio's **\$44B** health care and biosciences sector

Six Schools - Medical, Dental, Nursing, Health Professions, Graduate, Public Health

Research Collaborations

- Obesity
- Alzheimer's Disease
- Cancer
- Genetics
- Diabetes
- Aging
- Mitochondrial Disease
- Drug Discovery
- Mental Health, Substance Use Disorders

Sustainable Manufacturing Program

biochar for CO2 capture | advanced recycling carbon-fiber reinforced polymers

Mi Salud

researching population health

Longstanding history

and shared advisory roles

CREATING BOLD FUTURES
