

Jane & Roland Blumberg Professorship in Biology

Bernard Arulanandam, Professor of Biology

Research interest: Infectious Disease and Vaccine Development

Roland K. and Jane W. Blumberg Professorship in Biosciences

Edwin Barea-Rodriguez, Professor of Biology

Research interest: Neurobiology of Aging

Lutcher Brown Distinguished Chair

Ravi Sandhu, Professor of Computer Science

Research interest: Cybersecurity

Lutcher Brown Distinguished Chair (in Biochemistry)

Aimin Liu, Professor of Chemistry

Research interest: Biochemistry

Cloud Technology Professorship

Mikhail Gubanov, Assistant Professor of Computer Science

Research interest: Cloud Computing

John H. Doran, M.D., F.A.C.P., Distinguished Professorship in Peripheral Neuropathy

Hyoung-gon Lee, Associate Professor of Biology

Research interest: Neurodegeneration

Rita and John Feik Distinguished University Chair in Medicinal Chemistry

Michael Doyle, Professor of Chemistry

Research interest: Medicinal Chemistry

The Ewing Halsell Distinguished Chair in Biology

Charles Wilson, Professor of Biology

Research interest: Neurobiology of Learning and Memory

Dr. Weldon W. Hammond, Jr. Distinguished Professorship in Hydrogeology

Saugata Datta, Professor of Geology

Research interest: Hydrogeology

Jesse H. and Mary Gibbs Jones Chair in Biotechnology

Thomas Forsthuber, Professor of Biology

Research interest: Immunology

Kleberg Distinguished University Chair in Cellular & Molecular Biology

John McCarrey, Professor of Biology

Research interest: Stem Cells and Regenerative Medicine

Robert J. Kleberg Jr. and Helen C. Kleberg College of Sciences Professorship

Karl Klose, Professor of Biology

Research interest: Bacterial Pathogenesis

Microsoft President's Professorship

Banglin Chen, Professor of Chemistry

Research interest: Inorganic Chemistry

Dan Parman Distinguished Chair in Applied Mathematics

Changfeng Gui, Professor of Mathematics

Research interest: Applied Mathematics

Ricardo Romo Endowed Professorship

Aaron Cassill, Professor of Biology

Research interest: Cell Signaling

Semmes Foundation Chair in Cell Biology

Jenny Hsieh, Professor of Biology

Research interest: Stem Cells and Regenerative Medicine; Epilepsy

Semmes Foundation Distinguished University Chair in Neurobiology

George Perry, Professor of Biology

Research interest: Alzheimer Disease

Amy Shelton and V. H. McNutt Distinguished Professorship in Geology

Yongli Gao, Associate Professor of Geology

Research interest: Karst Hydrogeology

Margaret Batts Tobin Distinguished Chair in Biotechnology

Jose Lopez-Ribot, Professor of Biology

Research interest: Fungal Infection and Vaccine Development

The Vaughan Family Professorship in Physics & Astronomy

Eric Schlegel, Professor of Physics

Research interest: Astrophysics and Cosmology

Max and Minnie Tomerlin Voelcker Distinguished Professorship in Chemistry

Doug Frantz, Professor of Chemistry

Research interest: Organic and Medicinal Chemistry

Robert A. Welch Distinguished University Chair in Chemistry

Kirk Schanze, Professor of Chemistry

Research interest: Interaction of Light with Small Molecules, Polymers, and Materials
