Jane & Roland Blumberg Professorship in Biology
Bernard Arulanandam, Professor of Biology
Research interest: Infectious Disease and Vaccine Development

Roland K. and Jane W. Blumberg Professorship in Biosciences
Edwin Barea-Rodriguez, Professor of Biology
Research interest: Neurobiology of Aging

Lutcher Brown Distinguished Chair
Ravi Sandhu, Professor of Computer Science
Research interest: Cybersecurity

Lutcher Brown Distinguished Chair (in Biochemistry)
Aimin Liu, Professor of Chemistry
Research interest: Biochemistry

John H. Doran, M.D., F.A.C.P., Distinguished Professorship in Peripheral Neuropathy
Hyoung-gon Lee, Associate Professor of Biology
Research interest: Neurodegeneration

Rita and John Feik Distinguished University Chair in Medicinal Chemistry
Michael Doyle, Professor of Chemistry
Research interest: Medicinal Chemistry

The Ewing Halsell Distinguished Chair in Biology
Charles Wilson, Professor of Biology
Research interest: Neurobiology of Learning and Memory

Dr. Weldon W. Hammond, Jr. Distinguished Professorship in Hydrogeology
Saugata Datta, Professor of Geology
Research interest: Hydrogeology

Jesse H. and Mary Gibbs Jones Chair in Biotechnology
Thomas Forsthuber, Professor of Biology
Research interest: Immunology

Kleberg Distinguished University Chair in Cellular & Molecular Biology
John McCarrey, Professor of Biology
Research interest: Stem Cells and Regenerative Medicine

Robert J. Kleberg Jr. and Helen C. Kleberg College of Sciences Professorship
Karl Klose, Professor of Biology
Research interest: Bacterial Pathogenesis
Dan Parman Distinguished Chair in Applied Mathematics
Changfeng Gui, Professor of Mathematics
Research interest: Applied Mathematics

Ricardo Romo Endowed Professorship
Aaron Cassill, Professor of Biology
Research interest: Cell Signaling

Semmes Foundation Chair in Cell Biology
Jenny Hsieh, Professor of Biology
Research interest: Stem Cells and Regenerative Medicine; Epilepsy

Semmes Foundation Distinguished University Chair in Neurobiology
George Perry, Professor of Biology
Research interest: Alzheimer Disease

Amy Shelton and V. H. McNutt Distinguished Professorship in Geology
Yongli Gao, Associate Professor of Geology
Research interest: Karst Hydrogeology

Margaret Batts Tobin Distinguished Chair in Biotechnology
Jose Lopez-Ribot, Professor of Biology
Research interest: Fungal Infection and Vaccine Development

The Vaughan Family Professorship in Physics & Astronomy
Eric Schlegel, Professor of Physics
Research interest: Astrophysics and Cosmology

Max and Minnie Tomerlin Voelcker Distinguished Professorship in Chemistry
Doug Frantz, Professor of Chemistry
Research interest: Organic and Medicinal Chemistry

Robert A. Welch Distinguished University Chair in Chemistry
Kirk Schanze, Professor of Chemistry
Research interest: Interaction of Light with Small Molecules, Polymers, and Materials
