

Post-Observation Consultation Checklist

Discuss the following items with the faculty member you observed.

- What was your overall impression of the class?
- What did you enjoy about the class?
- What do you think your students liked?
- What do you think went especially well?
- What do you think was not as successful or challenging?
- How did the lesson change from what was planned?

Discuss the following items on reflecting the process.

- What have you learned about the process?
- What was the most challenging?
- What was the most surprising?
- What was the most successful?
- What will you do differently next time?
- What is one thing you will work on?
