THE CHALLENGE
Great universities deserve high achieving athletic programs that enhance the visibility of the institution and engage the community. UTSA’s current athletic facilities are aging and do not adequately meet student needs, nor are they on par with other Division I institutions. Additionally, recruiting high caliber student-athletes—students equally as talented in the classroom as they are on the field or court—is foundational to building a strong sports program, and offering competitive facilities is key to recruitment efforts.

THE IMPACT
The Roadrunner Athletics Center of Excellence will provide student-athletes, coaches, staff, faculty and researchers a hub to improve academic success and human performance while developing champions in competition and life. This initiative represents one more important step toward ensuring UTSA’s infrastructure and student experiences are of the caliber of a nationally-recognized research university.
