

AirRowdy_Guest Connection Instructions for Macs

1. Ensure your device's Wi-Fi is enabled by clicking the Wi-Fi icon or accessing your network settings.

2. Scroll through available networks to find AirRowdy_Guest

3. Select the Network, click once to highlight AirRowdy_Guest. You'll see a message noting that it's an open network.

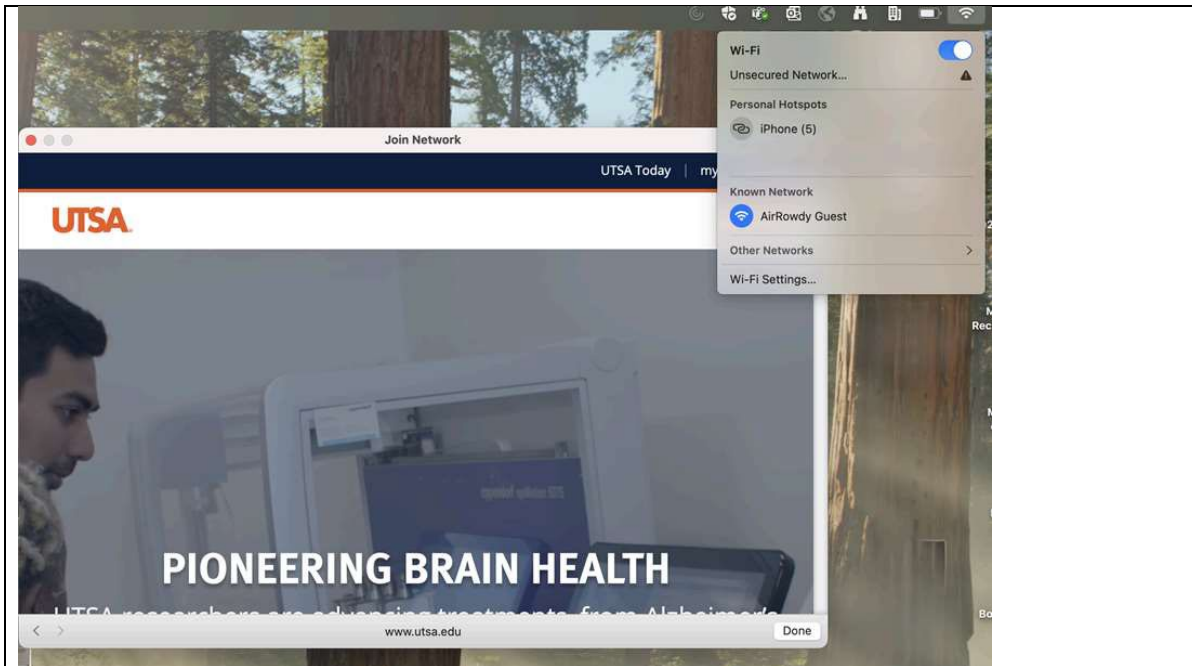

4. Optional: Check the box labeled Connect automatically if you want your device to join this network whenever it's in range.

5. Click 'Connect' and hit the Connect button to initiate connection.

6. Wait for the captive portal page: after connecting, a captive portal should appear automatically. If it doesn't, open any web browser to access it.

7. Agree to the terms of use and you'll be ready to browse!

If you need to connect to the UTHSCSA network, please proceed with connecting to our VPN (GlobalProtect).
