

Connecting to Eduroam for iOS

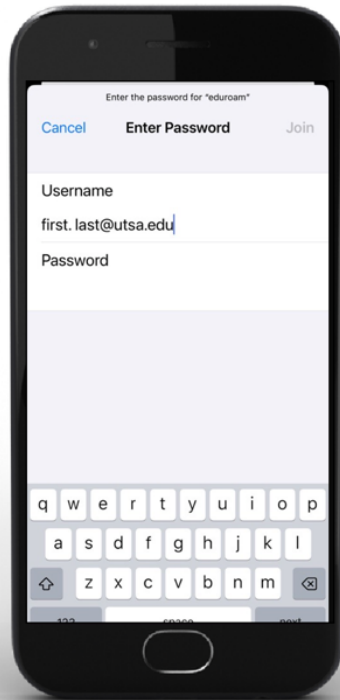

1 Open the **Settings** app on your iOS device

2 Tap **Wi-Fi** from the Settings menu

3 Locate and tap **eduroam** from the list of available networks

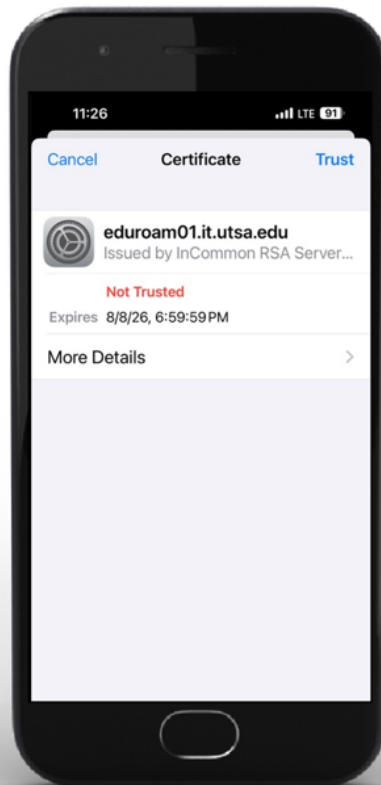

4 When the network details appear, tap **Connect** to proceed

5 Enter your university email credentials:

- **Username:** Your university email address
- **Password:** Your email account password

6 Tap **Join** to begin the authentication process

7 When prompted, your device will indicate the certificate is not yet trusted. Verify the authentication server reads **“eduroam01.it.utsa.edu”**.

8 Press **“Trust”** to send your credentials to the server and allow you onto the Eduroam network.

9

Verify successful connection by confirming the **Connected** status appears next to eduroam in the Wi-Fi settings, and the Wi-Fi
